<p>2. If an Internal Service Fund is used, may use any basis considered appropriate to charge other funds as long as the total charge is either calculated in accordance with the criteria of GASB Codification, Section C50.110-118 or is based on an actuarial method or historical cost information and adjusted over a reasonable period of time. If the latter method is used (actuarial method or historical cost information method), an additional charge may be made to other funds representing a reasonable provision for expected future catastrophic losses. Charges (billings) should be recognized as revenue by the Internal Service Fund and as expenditures/expenses by the other funds.</p> <p>3. For either the General Fund, a Special Revenue Fund or an Internal Service Fund, billings in excess of the accrual should be accounted for as transfers.</p> <p>E. Reported claims meeting the criteria of GASB Codification, Section C50.110-118.</p> <p>2. Incurred but not reported (IBNR) claims meeting the criteria of GASB Codification, Section C50.113-114. Determine the basis used to estimate IBNR claims is reasonable.</p> <p>3. If the City participates in a public entity risk pool and is subject to a supplemental premium assessment, an accrual should be made if the likelihood of such assessment meets the criteria of GASB Codification, Section C50.132.</p> <p>4. If the City participates in a public entity risk pool but is not subject to a supplemental premium assessment, review economic viability of pool with a responsible official and determine if a liability should be recorded based on certain conditions.</p> <p>5. If the City participates in a public entity risk pool, inquire of a responsible official about the City's plans for continuing its participation in the pool. If the City has plans to terminate its membership, determine if additional liabilities should be recorded based on terms of the agreement to participate.</p>	B
