INDEPENDENT AUDITOR'S REPORT

To the Board of Education of the  
Diagonal Community School District:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Diagonal Community School District, Diagonal, Iowa, as of and for the year ended June 30, 2005, which collectively comprise the District's basic financial statements listed in the table of contents. These financial statements are the responsibility of District officials. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Diagonal Community School District at June 30, 2005, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued our reports dated September 29, 2005 on our consideration of Diagonal Community School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. Those reports are an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Management's Discussion and Analysis and budgetary comparison information on pages 4 through 12 and 32 through 35 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board.

Members American Institute & Iowa Society of Certified Public Accountants

We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. We did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Diagonal Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for three years ended June 30, 2004 (none of which are presented herein) and expressed an unqualified opinion on those financial statements. The supplemental information included in Schedules 1 through 5, including the Schedule of Expenditures of Federal Awards required by U.S. Office of Management and Budget (OMB) Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

---

---

Diagonal Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2005. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

### **2005 FINANCIAL HIGHLIGHTS**

- General Fund revenues increased from \$1,798,792 in fiscal 2004 to \$1,868,221 in fiscal 2005, while General Fund expenditures increased from \$1,787,708 in fiscal 2004 to \$1,871,682 in fiscal 2005. This resulted in a decrease in the District's General Fund balance from \$307,483 in fiscal 2004 to \$304,022 in fiscal 2005, a 1.1% decrease from the prior year.
- The increase in General Fund revenues was attributable to an increase in state grant and tuition revenue in fiscal 2005. The increase in expenditures was due primarily to an increase in instructional services.
- September 2004 Certified Enrollment count resulted in a decrease of 4 students, representing a 4.1% decrease compared to the prior year.

### **USING THIS ANNUAL REPORT**

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Assets and a Statement of Activities. These provide information about the activities of Diagonal Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Diagonal Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Diagonal Community School District acts solely as an agent or custodial for the benefit of those outside of the School District.

Notes to the financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year.

Other Supplementary Information provides detailed information about the nonmajor funds.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

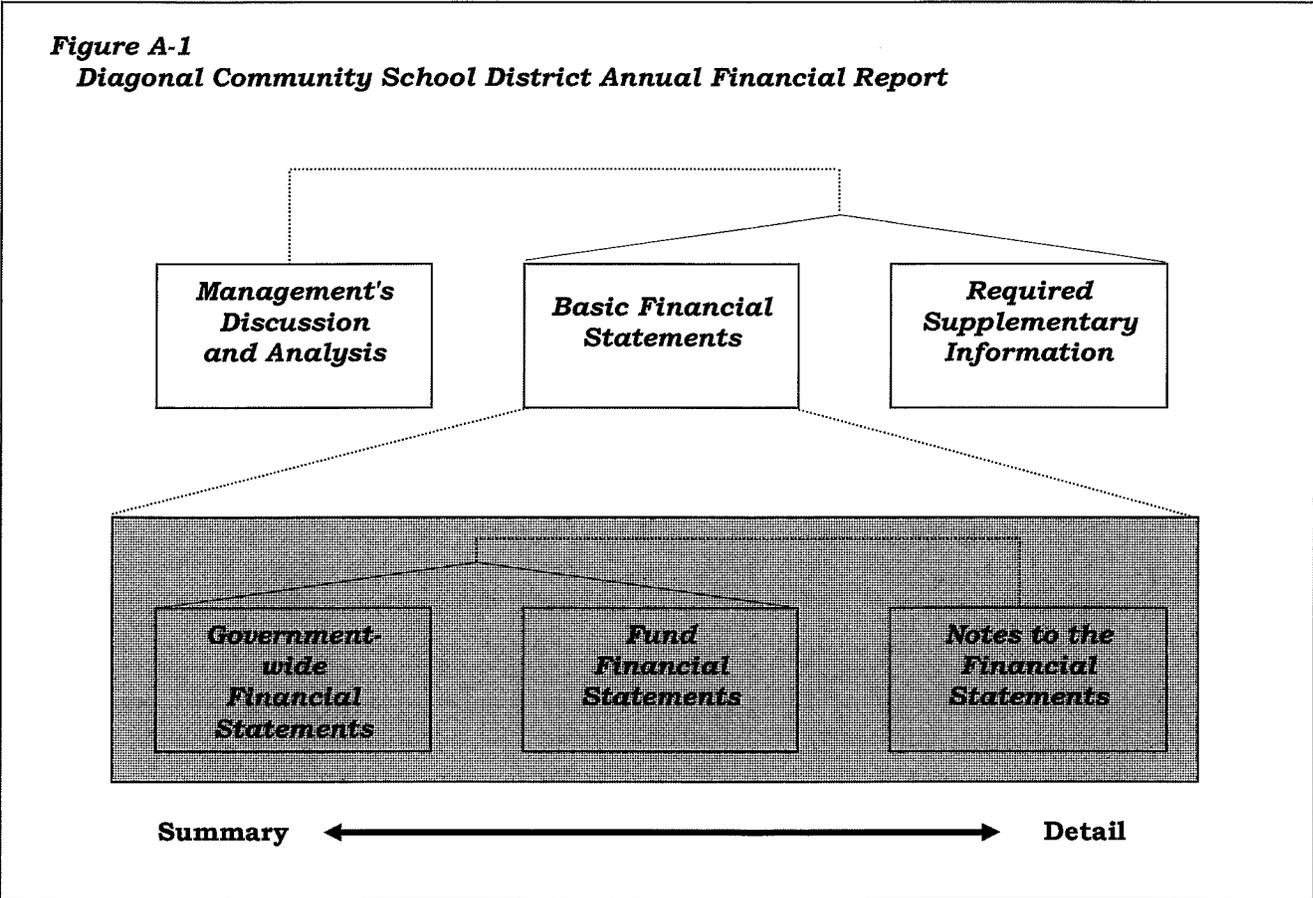

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain.

<b>Figure A-2</b>			
<b>Major Features of the Government-wide and Fund Financial Statements</b>			
	Government-wide Statements	Fund Statements	
		Governmental Funds	Proprietary Funds
Scope	Entire district (except fiduciary funds)	The activities of the district that are not proprietary or fiduciary, such as special education and building maintenance	Activities the district operates similar to private businesses: food services and adult education

Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus
Type of asset/ liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, and short-term and long-term
Type of inflow/ outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid

---

## REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

### Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net assets and how they have changed. Net assets – the difference between the District's assets and liabilities – are one way to measure the District's financial health or position. Over time, increases or decreases in the District's net assets are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business-type activities:* The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

### Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds or to show that it is properly using certain revenues such as federal grants.

The District has two kinds of funds:

- 1) *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, Special Revenue Funds, Capital Projects, and Debt Service Fund.

The required financial statements for the governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

- 2) *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide

financial statements. The District's enterprise funds, one type of proprietary fund, are the same as its business-type activities, but provide more detail and additional information, such as cash flows. The District currently has one enterprise fund, the School Nutrition Fund.

The required financial statements for the proprietary funds include a statement of revenues, expenses and changes in net assets and a statement of cash flows.

Reconciliation between the government-wide financial statements and the fund financial statements follow the fund financial statements.

## GOVERNMENT-WIDE FINANCIAL ANALYSIS

Figure A-3 below provides a summary of the District's net assets for the year ended June 30, 2005.

Figure A-3  
Condensed Statement of Net Assets

	Governmental Activities		Business-type Activities		Total School District		Total Change
	2005	2004	2005	2004	2005	2004	2004-05
Current and other assets	\$ 1,320,572	1,294,158	14,434	8,594	1,335,006	1,302,752	2.48%
Capital assets	245,648	243,949	10,161	4,305	255,809	248,254	3.04%
Total assets	1,566,220	1,538,107	24,595	12,899	1,590,815	1,551,006	2.57%
Long-term obligations	0	893	0	0	0	893	-100.00%
Other liabilities	828,238	819,096	5,378	0	833,616	819,096	1.77%
Total liabilities	828,238	819,989	5,378	0	833,616	819,989	1.66%
Net assets:							
Invested in capital assets, net of related debt	245,648	243,949	10,161	4,305	255,809	248,254	3.04%
Restricted	157,166	132,533	0	0	157,166	132,533	18.59%
Unrestricted	335,168	341,636	9,056	8,594	344,224	350,230	-1.71%
Total net assets	\$ 737,982	718,118	19,217	12,899	757,199	731,017	3.58%

The District's combined net assets increased by 3.58% or \$26,182 over the prior year. A portion of the District's net assets is the invested in capital assets, less the related debt. The debt related to the investment in capital assets is liquidated with sources other than capital assets.

Restricted net assets represent resources that are subject to external restrictions, constitutional provisions, or enabling legislation on how they can be used. The District's restricted net assets increased \$24,633 or 18.59% over the prior year. The increase was primarily due to the increase in the fund balance of the Capital Projects Fund.

Unrestricted net assets - the part of net assets that can be used to finance day-to-day operations without constraint established by debt covenants, enabling legislation, or the legal requirement - decreased \$6,006 or 1.71%.

Figure A-4 shows the changes in net assets for the year ended June 30, 2005.

Figure A-4

Net assets end of year	<u>\$ 737,982</u>	<u>718,118</u>	<u>19,217</u>	<u>12,899</u>	<u>757,199</u>	<u>731,017</u>	<u>3.58%</u>

Property tax and operating grants and contributions and restricted interest account for 72% of the total revenue. The District's expenses primarily relate to instruction and support services that account for 94% of the total expenses.

### Governmental Activities

Revenues for governmental activities were \$2,039,271 and expenses were \$2,019,407.

The following table presents the total and net cost of the District's major governmental activities: instruction, support services and other expenses.

Figure A-5  
Total and Net Cost of Governmental Activities

	Total Cost of Services	Net Cost of Services
Instruction	\$ 1,561,598	478,371
Support services	394,217	394,217
Other expenses	63,592	21,445
Totals	\$ 2,019,407	894,033

- The cost financed by users of the District’s programs was \$152,209.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$973,165.
- The net cost of governmental activities was financed with \$508,765 in local tax, \$35,246 in local option sales and service tax, \$362,737 in unrestricted state grants, and \$7,149 in interest income.

**Business-Type Activities**

Revenues of the District’s business-type activities were \$64,172 and expenses were \$65,045. The District’s business-type activities include the School Nutrition Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income.

**INDIVIDUAL FUND ANALYSIS**

As previously noted, the Diagonal Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported combined fund balance of \$459,646, below last year’s ending fund balances of \$439,985. However, the primary reason for the increase was the increase in the fund balance of the Capital Projects Fund.

**Governmental Fund Highlights**

- The District’s General Fund balance decreased from \$307,483 on June 30, 2004 to \$304,022 on June 30, 2005. The fluctuation in the District’s General Fund financial position is the product of many factors. An increase in the state grant and tuition revenue during the year resulted in an increase in total revenues. The increase in expenditures was due to the increases in employee’s salaries and benefits. Revenues were exceeded by expenditures ensuring the decrease in the Districts financial position.
- The Management fund balance decreased from \$31,008 in 2004, to \$17,545 in 2005, due to the increase in expenditures.
- The Physical Plant and Equipment Levy (PPEL) fund balance increased from \$50,826 to \$59,570, due in part to the District receiving a Fire Safety Grant in the amount of \$6,717.
- The Capital Projects fund balance increased during the current year, from \$24,531 to \$59,777. This resulted from an increase in local option sales and service tax revenues received during the year.

## Proprietary Fund Highlights

The School Nutrition Fund net assets increased from \$12,899 at June 30, 2004 to \$19,217 at June 30, 2005, representing an increase of approximately 49%. This increase was due to the fact that the fund received contributed capital in the amount of \$7,191.

## BUDGETARY HIGHLIGHTS

The District's revenues were \$149,546 less than budgeted revenues, a variance of 6.7%. The most significant variance resulted from the District receiving more in local sources than originally anticipated.

Total expenditures were less than budgeted, primarily to the District's budget for the General Fund. It is not the District's practice to budget expenditures at the maximum authorized spending authority for the General Fund. The District's budget is developed utilizing realistic projections of revenues and expenditures. The district then manages or controls General Fund spending through its line-item budget. In situations where revenues exceed projections, and expenditures do not exceed spending authority, the Board may take action to amend the budget authorizing additional expenditures.

## CAPITAL ASSET AND DEBT ADMINISTRATION

### Capital Assets

At June 30, 2005, the District had invested \$255,809, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-6) This amount represents a net increase of more than 3% from last year. More detailed information about capital assets is available in Note 5 to the financial statements. Depreciation expense for the year was \$37,777.

The original cost of the District's capital assets was \$1,020,991. Governmental funds account for \$987,106 with the remainder of \$33,885 in the Proprietary, School Nutrition Fund.

The largest percentage change in capital asset activity during the year occurred in the machinery and equipment category. The District's machinery and equipment totaled \$53,714 at June 30, 2005, compared to \$40,378 reported at June 30, 2004. This increase resulted from the purchases made during the current year.

Figure A-6  
Capital Assets, Net of Depreciation

	Governmental Activities		Business-type Activities		Total School District		Total Change 2004-05

### Long-Term Debt

At June 30, 2005, the District had no long-term debt outstanding. (See Figure A-7) More detailed information about the District's long-term liabilities is available in Note 6 to the financial statements.

**ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE**

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- Low allowable growth over several years and enrollment decreases may negatively impact the District's spending authority. Contractual increases and program changes cannot be made without thorough consideration of our unspent authorized budget. The district's cash balance will support short term funding shortfalls from the state.
- Continued budget concerns at state level will affect future projections. The District has been forced to shift funding to property taxes.
- The District continues to receive Local Option Sales and Services Tax for School Infrastructure (SILO) from Ringgold County. This 1 cent tax on sales and services will greatly benefit the District in maintaining their buildings, purchasing equipment and debt repayment. The funding began in January 2004 and will continue through December 2013.

**CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT**

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Billie Jo Greene, District Board Secretary/Treasurer, Diagonal Community School District, 403 W 2<sup>nd</sup>, P.O. Box 94, Diagonal, Iowa, 50845-0094.

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND  
 CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS  
 TO THE STATEMENT OF ACTIVITIES  
 YEAR ENDED JUNE 30, 2005

Net change in fund balances - total governmental funds (page 18) \$ 19,661

*Amounts reported for governmental activities in the  
 statement of activities are different because:*

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are reported in the Statement of Net Assets and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. Depreciation expense and capital outlay expenditures in the current year are as follows:

Expenditures for capital assets	\$ 38,141	
Depreciation expense	<u>(36,442)</u>	1,699

Income surtax account receivable is not available to finance expenditures of the current year period in the governmental funds. (2,389)

Repayment of long-term debt principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Assets. 893

**Changes in net assets of governmental activities (page 15) \$ 19,864**

During the year ended June 30, 2005, the District received contributed capital valued at \$7,191.

SEE NOTES TO FINANCIAL STATEMENTS.

DIAGONAL COMMUNITY SCHOOL DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2005

(1) **Summary of Significant Accounting Policies**

The Diagonal Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve and special education pre-kindergarten. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the City of Diagonal, Iowa, and the predominate agricultural territory in Ringgold County. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Diagonal Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the District. The Diagonal Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations - The District participates in a jointly governed organization that provides services to the District but do not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Ringgold County Assessors' Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Assets and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Net Assets presents the District's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

*Invested in capital assets, net of related debt* consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

*Restricted net assets* result when constraints placed on net assets use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

*Unrestricted net asset* consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources that are imposed by management, but can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest that are restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other nonmajor governmental funds.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenses, including instructional, support and other costs.

The District reports the following proprietary funds:

The District's proprietary funds are the Enterprise, School Nutrition Fund. The School Nutrition Fund is used to account for the food service operations of the District.

#### C. Measurement Focus and Basis of Accounting

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of

related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

The proprietary fund of the District applies all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the balance sheet:

Cash, Pooled Investments and Cash Equivalents - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, they have a maturity date no longer than three months.

Property Tax Receivable - Property tax in the governmental funds are accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2003 assessed property valuations; is for the tax accrual period July 1, 2004 through June 30, 2005 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2004.

Due from Other Governments - Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets - Capital assets, which include property, machinery, and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	Amount
Land	\$ 500
Buildings	500
Land improvements	500
Machinery and equipment:	
School Nutrition Fund equipment	500
Other machinery and equipment	500

Property, machinery and equipment are depreciated using the straight line method of depreciation over the following estimated useful lives:

Asset Class	Estimated Useful Lives (In Years)
Buildings	50 years
Land improvements	20 years
Machinery and equipment	5-20 years

Salaries and Benefits Payable - Payroll and related expenditures for annual contracts corresponding to the current school year, which is payable in July and August, have been accrued as liabilities.

Deferred Revenue - Although certain revenues are measurable, they are not available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue consists of unspent grant proceeds as well as property tax receivables and other receivables not collected within sixty days after year end.

Deferred revenue on the Statement of Net Assets consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

Long-term obligations - In the government-wide financial statements, long-term debt and other long-term obligations

are reported as liabilities in the governmental activities column in the Statement of Net Assets.

Fund Equity - In the governmental fund financial statements, reservations of fund balance are reported for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

Restricted Net Assets - In the government-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

E. Budgeting and Budgetary Control

The budgetary comparison and related disclosures are reported as Required Supplementary Information.

(2) **Cash and Pooled Investments**

The District's deposits at June 30, 2005 were entirely covered by federal depository insurance or State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

The District had investments in the Iowa Schools Joint Investment Trust as follows:

	Amortized Cost
Diversified Portfolio	\$ 461

The investments are valued at an amortized cost pursuant to Rule 2a-7 under the Investment Company Act of 1940.

(3) **Transfers**

The detail of transfers for the year ended June 30, 2005 is as follows:

Transfer to	Transfer from	Amount
Debt Service	Special Revenue - Physical Plant and Equipment Levy	\$ 923

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

**(4) Iowa School Cash Anticipation Program (ISCAP)**

The District participates in the Iowa Schools Cash Anticipation Program (ISCAP). ISCAP is a program of the Iowa Association of School Boards and is designed to provide funds to participating entities during periods of cash deficits. ISCAP is funded by a semiannual issuance of anticipatory warrants, which mature as noted below. The warrant sizing of each school corporation is based on a projection of cash flow needs during the semiannual period. ISCAP accounts are maintained for each participating entity, and monthly statements are provided regarding their cash balance, interest earnings, and amounts available for withdrawal for each outstanding series of warrants. These accounts are reflected as restricted assets on the balance sheet. Bankers Trust Co. NA is the trustee for the program. A summary of the District's participation in ISCAP as of June 30, 2005 is as follows:

Series	Warrant Date	Final Warrant Maturity	Investments	Accrued Interest Receivable	Warrants Payable	Accrued Interest Payable
2005-06A	6/28/05	6/28/06	\$ 243,072	52	242,000	46

The District pledges its state foundation aid payments and General Fund receipts as security for warrants issued. Repayments must be made when General Fund receipts are received. If a balance is outstanding on the last date the funds are available to be drawn, then the District must repay the outstanding withdrawal from its General Fund receipts, and must make minimum warrant repayments on the 25th of each month immediately following the final date that the warrant proceeds may be used in an amount equal to 25% of the warrant amount. No ISCAP advance activity in the General Fund was noted for the year ended June 30, 2005.

The warrants bear an interest rate and the available proceeds of the warrants are invested at an interest rate as shown below:

Series	Interest Rates on Warrants	Interest Rates on Investments
2004-05A	3.000%	2.463%
2005-06A	3.500%	3.903%

**(5) Capital Assets**

Capital assets activity for the year ended June 30, 2005 is as follows:

	Balance Beginning of Year	Increases	Decreases	Balance End of Year
Governmental activities:				
Capital assets not being depreciated:				
Land	\$ 7,230	0	0	7,230
Total capital assets not being depreciated	<u>7,230</u>	<u>0</u>	<u>0</u>	<u>7,230</u>

Total governmental activities depreciation expense		<u>\$ 36,442</u>
Business-type activities:		
Food services		\$ 1,335
Total business-type activities depreciation expense		<u>\$ 1,335</u>

#### (6) Long-Term Liabilities

A summary of changes in long-term liabilities for the year ended June 30, 2005 is as follows:

	Balance Beginning of Year	Additions	Deletions	Balance End of Year	Due Within One Year
Capital loan notes	\$ 893	0	893	0	0

**(7) Pension and Retirement Benefits**

The District contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by State statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 3.70% of their annual salary and the District is required to contribute 5.75% of annual covered payroll for the years ended June 30, 2005, 2004 and 2003. Contribution requirements are established by State statute. The District's contribution to IPERS for the years ended June 30, 2005, 2004 and 2003 were \$65,495, \$69,846 and \$62,171 respectively, equal to the required contributions for each year.

**(8) Risk Management**

Diagonal Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

**(9) Area Education Agency**

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$35,430 for the year ended June 30, 2005 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

DIAGONAL COMMUNITY SCHOOL DISTRICT  
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION - BUDGETARY REPORTING  
YEAR ENDED JUNE 30, 2005

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standard Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private-Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the cash basis. Encumbrances are not recognized on the cash basis budget and appropriations lapse at year end.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions not by fund or fund type. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not by fund. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula.

### Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Education of the  
Diagonal Community School District:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Diagonal Community School District as of and for the year ended June 30, 2005, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued our report thereon dated September 29, 2005. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

#### Internal Control Over Financial Reporting

In planning and performing our audit, we considered Diagonal Community School District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the District's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements. Reportable conditions are described in Part II of the accompanying Schedule of Findings.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, of the reportable conditions described above, we believe items I-A-05 is a material weakness.

#### Compliance and Other Matters

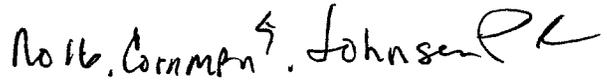

As part of obtaining reasonable assurance about whether Diagonal Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part IV of the accompanying Schedule of Findings.

Members American Institute & Iowa Society of Certified Public Accountants

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2005 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

This report, a public record by law, is intended solely for the information and use of the officials, employees, and citizens of Diagonal Community School District and other parties to Diagonal Community School District may report including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Diagonal Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

### Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Program and Internal Control over Compliance in Accordance with OMB Circular A-133

To the Board of Education of  
Diagonal Community School District

#### Compliance

We have audited the compliance of Diagonal Community School District with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2005. Diagonal Community School District's major federal programs are identified in Part I of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants agreements applicable to each of its major federal programs is the responsibility of Diagonal Community School District's management. Our responsibility is to express an opinion on Diagonal Community School District's compliance based on our audit.

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards, the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Diagonal Community School District's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Diagonal Community School District's compliance with those requirements.

In our opinion, Diagonal Community School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2005.

#### Internal Control Over Compliance

The management of Diagonal Community School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grant agreements applicable to federal programs. In planning and performing our audit, we considered Diagonal Community School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

We noted a matter involving the internal control over compliance and its operations that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention

relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect Diagonal Community School District's ability to administer a major federal program in accordance with applicable requirements of laws, regulations, contracts and grant agreements. The reportable condition is described as item III-A-05 in the accompanying Schedule of Findings and Questioned Costs.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that non-compliance with applicable requirements of laws, regulations, contracts, and grant agreements caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, of the reportable conditions described above, we believe item III-A-05 is a material weakness.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Diagonal Community School District and other parties to whom Diagonal Community School District may report. This report is not intended to be and should not be used by anyone other than these specified parties.

DIAGONAL COMMUNITY SCHOOL DISTRICT  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED JUNE 30, 2005

Part I: Summary of the Independent Auditor's Results

- (a) An unqualified opinion was issued on the financial statements.
- (b) Reportable conditions in internal control over financial reporting were disclosed by the audit of the financial statements, including a material weakness.
- (c) The audit did not disclose any noncompliance which is material to the financial statements.
- (d) Reportable conditions in internal control over major programs were disclosed by the audit of the financial statements, including a material weakness.
- (e) An unqualified opinion was issued on compliance with requirements applicable to each major program.
- (f) The audit disclosed audit findings which were required to be reported in accordance with Office of Management and Budget Circular A-133, Section .510(a).
- (g) Major program was as follows:
  - Individual
    - CFDA Number 84.287 - Twenty-First Century Community Learning Centers
- (h) The dollar threshold used to distinguish between Type A and Type B programs was \$300,000.
- (i) Diagonal Community School District did not qualify as a low-risk auditee.

DIAGONAL COMMUNITY SCHOOL DISTRICT  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED JUNE 30, 2005

Part II: Findings Related to the Basic Financial Statements:

INSTANCES OF NON-COMPLIANCE:

No matters were reported.

REPORTABLE CONDITIONS:

II-A-05 Segregation of Duties - One important aspect of the internal control structure is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible. We noted that the cash receipts listing, bank deposits and the posting of the cash receipts to the cash receipts journal were all done by the same person.

Recommendation - We realize that with a limited number of office employees, segregation of duties is difficult. However the District should review its control procedures to obtain the maximum internal control possible under the circumstances.

Response - We will investigate available alternatives and implement as soon as possible.

Conclusion - Response accepted.

II-B-05 Gate Admissions - The gate admissions were not reconciled to pre-numbered tickets.

Recommendation - The District should establish reconciliation procedures for gate admissions. The reconciliation should include the issuance of pre-numbered tickets and the reconciling of the admissions to the number of tickets issued.

Response - We will review our procedures.

Conclusion - Response accepted.

II-C-05 Check Signatures - We noted during our audit instances of signatures other than the Board Secretary and/or Board President on District's checks. Chapter 291.1 of the Code of Iowa requires two signatures on all checks, one being the Board President and the other being the Board Secretary. The Board may designate a person to sign on behalf of the Board President.

Recommendation - The District should review their procedures and make the necessary changes to assure there is two signatures on all checks.

Response - We will review procedures and implement changes to comply with this recommendation.

Conclusion - Response accepted.

II-D-05 Student Activity Fund - We noted during our audit of the Student Activity Fund that the District has accounts called industrial arts, bookrent and computer account. Those accounts would appear to be more appropriately handled in the General Fund.

Recommendation - The District should review the transactions in there accounts and make necessary transfers to provide that transactions are recorded in the proper fund.

Response - We will make the necessary corrections.

Conclusion - Response accepted.

II-E-05 Supporting Documentation - We noted during our audit instances of no supporting documentation to go with the cancelled check stubs and purchase orders.

Recommendation - The District should review their procedures that are in place to ensure that all bills are supported, approved and paid from an invoice with a purchase order. The District should adopt processes and procedures to use when an invoice may not be available, such as requiring additional approval or requiring support document other than an invoice.

Response - We will attach supporting documents.

Conclusion - Response accepted.

DIAGONAL COMMUNITY SCHOOL DISTRICT  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED JUNE 30, 2005

Part III: Findings and Questioned Costs For Federal Awards:

INSTANCES OF NON-COMPLIANCE:

No matters were reported.

REPORTABLE CONDITIONS:

CFDA Number 84.287 - Twenty-First Century Community Learning Grants  
Federal Award Year: 2005  
U.S. Department of Education  
Passed through the Iowa Department of Education

III-A-05 Segregation of Duties - One important aspect of the internal control structure is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible. We noted that the cash receipts listing, bank deposits and the posting of the cash receipts to the cash receipts journal were all done by the same person.

Recommendation - We realize that with a limited number of office employees, segregation of duties is difficult. However the District should review its control procedures to obtain the maximum internal control possible under the circumstances.

Response - We will investigate available alternatives and implement as soon as possible.

Conclusion - Response accepted.

DIAGONAL COMMUNITY SCHOOL DISTRICT  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED JUNE 30, 2005

Part IV: Other Findings Related to Statutory Reporting

- IV-A-05 Official Depositories - A resolution naming official depositories have been approved by the Board. The maximum deposit amounts stated in the resolution were not exceeded during the year ended June 30, 2005.
- IV-B-05 Certified Budget - District disbursements for the year ended June 30, 2005, did not exceed the amount budgeted.
- IV-C-05 Questionable Disbursements - We noted no disbursements that may not meet the requirements for public purpose as defined in an Attorney General's opinion dated April 25, 1979.
- IV-D-05 Travel Expense - No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.
- IV-E-05 Business Transactions - No business transactions between the District and District officials were noted.
- IV-F-05 Bond Coverage - Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.
- IV-G-05 Board Minutes - We noted no transactions requiring Board approval which have not been approved by the Board.
- IV-H-05 Certified Enrollment - We noted no variances in the basic enrollment data certified to the Department of Education.
- IV-I-05 Deposits and Investments - We noted no instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy.
- IV-J-05 Certified Annual Report - The Certified Annual Report was filed with the Department of Education timely, and we noted no significant deficiencies in the amounts reported.
