Independent Auditor's Report

To the Board of Education
Morning Sun Community School District

I have audited the accompanying financial statements of the governmental activities, business type activities, each major fund and the aggregate remaining fund information of Morning Sun Community School District, Morning Sun, Iowa, as of and for the year ended June 30, 2006, which collectively comprise the District's basic financial statements listed in the table of contents. These financial statements are the responsibility of District officials. My responsibility is to express opinions on these financial statements based on my audit.

I conducted my audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe my audit provides a reasonable basis for my opinions.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of Morning Sun Community School District as of June 30, 2006, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with Government Auditing Standards, I have also issued my report dated October 10, 2006 on my consideration of Morning Sun Community School District's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of my audit.

Management's Discussion and Analysis and budgetary comparison information on pages 4 through 12 and 34 through 35 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. I did not audit the information and express no opinion on it.

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Morning Sun Community School District's basic financial statements. I previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the three years ended June 30, 2005 (which are not presented herein) and expressed unqualified opinions on those financial statements. Other supplementary information included in Schedules 1 through 6, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in my audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Morning Sun Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2006. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2006 Financial Highlights

- General Fund revenues decreased from \$2,370,640 in fiscal 2005 to \$2,188,681 in fiscal 2006 and General Fund expenditures decreased from \$2,362,083 in fiscal 2005 to \$2,248,581 in fiscal 2006. This resulted in a decrease in the District's General Fund balance from \$697,168 in fiscal 2005 to \$582,603 in fiscal 2006, a 16% decrease from the prior year.
- The decrease in General Fund revenues was attributable to decreased property tax collections and tuition received in fiscal year 2006. The decrease in expenditures was due primarily to a decrease in the purchased services.

Using this Annual Report

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Assets and a Statement of Activities. These provide information about the activities of Morning Sun Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Morning Sun Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Morning Sun Community School District acts solely as an agent or custodian for the benefit of those outside of County government.

Notes to financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year.

Other Supplementary Information provides detailed information about the non-major Governmental Funds.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

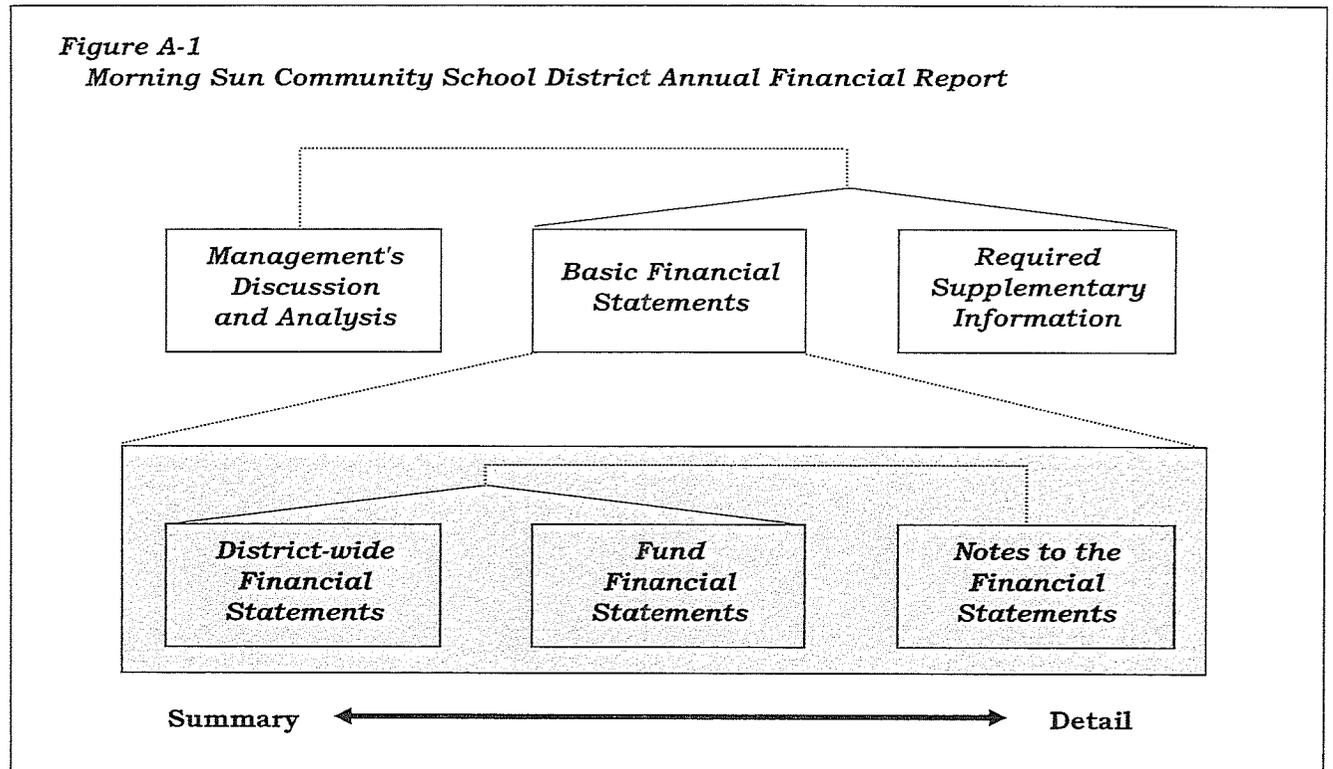

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain.

Figure A-2
Major Features of the Government-wide and Fund Financial Statements

	Government-wide	Fund Statements	
	Statements	Governmental Funds	Proprietary Funds
Scope	Entire District (except fiduciary funds)	The activities of the District that are not proprietary or fiduciary, such as special education and building maintenance	Activities the District operates similar to private businesses: food services and preschool/daycare program.
Required financial statements	• Statement of net assets	• Balance sheet	• Statement of net assets
	• Statement of activities	• Statement of revenues, expenditures and changes in fund balances	• Statement of revenues, expenses and changes in fund net assets
			• Statement of cash flows
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus
Type of asset/ liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally, assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, short-term and long-term
Type of inflow/ outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid

Reporting the District's Financial Activities

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net assets and how they have changed. Net assets – the difference between the District's assets and liabilities – are one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net assets are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business type activities:* The District charges fees to help cover the costs of certain services it provides. The District's school nutrition and preschool/daycare programs are included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show that it is properly using certain revenues, such as federal grants.

The District has two kinds of funds:

- 1) *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, Special Revenue Funds and Capital Projects Fund.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

- 2) *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, one type of proprietary fund, are the same as its business type activities, but provide more detail and additional information, such as cash flows. The District currently has two Enterprise Funds, the School Nutrition Fund and Preschool/Daycare Fund.

The required financial statements for proprietary funds include a statement of revenues, expenses and changes in fund net assets and a statement of cash flows.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

Government-Wide Financial Analysis

Figure A-3 below provides a summary of the District's net assets at June 30, 2006 compared to June 30, 2005.

Figure A-3

Total liabilities	<u>971,693</u>	<u>1,217,050</u>	<u>22</u>	<u>585</u>	<u>971,715</u>	<u>1,217,635</u>	-20.20%
Net assets							
Invested in capital assets,							
net of related debt	431,109	394,600	2,268	2,762	433,377	397,362	9.06%
Restricted	330,068	179,429	-	-	330,068	179,429	83.95%
Unrestricted	<u>582,603</u>	<u>697,168</u>	<u>13,480</u>	<u>22,606</u>	<u>596,083</u>	<u>719,774</u>	-17.18%
Total net assets	<u>\$ 1,343,780</u>	<u>\$ 1,271,197</u>	<u>\$ 15,748</u>	<u>\$ 25,368</u>	<u>\$ 1,359,528</u>	<u>\$ 1,296,565</u>	4.86%

The District's combined net assets increased by 4.86%, or \$62,963, over the prior year. The largest portion of the District's net assets is the invested in capital assets (e.g., land, infrastructure, buildings and equipment), less the related debt.

Restricted net assets represent resources that are subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net assets increased by \$150,639, or approximately 84% over the prior year. The increase was primarily a result of the PPEL levy being implemented in FY04, resulting in revenue that has yet to be expended.

Unrestricted net assets – the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements – decreased by \$123,691, or approximately 17%. This decrease in unrestricted net assets was a result of the District receiving less revenue than expenditures for the fiscal year in the General Fund.

Figure A-4 shows the change in net assets for the year ended June 30, 2006.

Figure A-4

Non-instructional programs	-	-	172,169	165,210	172,169	165,210	4.21%
Other expenses	<u>72,195</u>	<u>106,352</u>	<u>-</u>	<u>-</u>	<u>72,195</u>	<u>106,352</u>	-32.12%
Total expenses	<u>2,289,882</u>	<u>2,459,094</u>	<u>172,169</u>	<u>165,210</u>	<u>2,462,051</u>	<u>2,624,304</u>	-6.18%
Change in net assets	<u>\$ 72,583</u>	<u>\$ 54,780</u>	<u>\$ (9,620)</u>	<u>\$ (73,153)</u>	<u>\$ 62,963</u>	<u>\$ (18,373)</u>	-442.69%

In fiscal 2006, property tax and unrestricted state grants account for approximately 66% of the revenue from governmental activities while charges for service and sales and operating grants and contributions account for 99.9% of the revenue from business type activities.

The District's total revenues were \$2,525,014 of which \$2,362,465 was for governmental activities and \$162,549 was for business type activities.

As shown in Figure A-4, the District as a whole experienced a 3.11% decrease in revenues and a 6.18% decrease in expenses. Property tax increased \$16,140 to fund increases in expenditures. The increases in expenses related to increases in the negotiated salary and benefits as well as increases in expenses funded by grants received by the District.

Governmental Activities

Revenues for governmental activities were \$2,362,465 and expenses were \$2,289,882. In a difficult budget year, the District was able to balance the budget by trimming expenses to match available revenues.

The following table presents the total and net cost of the District’s major governmental activities: instruction, support services, non-instructional programs and other expenses.

Figure A-5

Total and Net Cost of Governmental Activities

	Total Cost of Services			Net Cost of Services		
	2006	2005	Change 2005-2006	2006	2005	Change 2005-2006
Instruction	\$ 1,714,809	\$ 1,733,208	-1.1%	\$ 1,081,096	\$ 882,946	22.4%
Support services	502,878	619,534	-18.8%	496,135	611,057	-18.8%
Other expenses	<u>72,195</u>	<u>106,352</u>	-32.1%	<u>5,226</u>	<u>41,791</u>	-87.5%
Total expenses	<u>\$ 2,289,882</u>	<u>\$ 2,459,094</u>	-6.9%	<u>\$ 1,582,457</u>	<u>\$ 1,535,794</u>	3.0%

- The cost financed by users of the District’s programs was \$481,626.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$225,799.
- The net cost of governmental activities was financed with \$733,484 in property tax and other taxes and \$939,440 in unrestricted state grants.

Business Type Activities

Revenues of the District’s business type activities were \$162,549 representing a 76.5% increase over the prior year and expenses were \$172,169, a 4.2% increase over the prior year. The District’s business type activities include the School Nutrition Fund and Daycare/Preschool Program. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income.

During 2006 the District had fewer preschool students included in the certified enrollment count than in 2005; therefore, the District received less state aid funding for students included in the preschool program.

Individual Fund Analysis

As previously noted, the Morning Sun Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported a combined fund balance of \$912,671, slightly above last year’s ending fund balances of \$876,597.

Governmental Fund Highlights

- The District's significant decline in General Fund financial position is the product of many factors. The District was very conservative with expenditures knowing that revenues would be down in FY06.
- The General Fund balance decreased from \$697,168 to \$582,603 due in part to revenues decreasing more than the decrease in expenditures.
- The Capital Projects Fund balance increased from \$120,661 in 2005 to \$183,625 in 2006 due to revenue from local option sales and services tax being more than the amounts expended during the year.

Proprietary Fund Highlights

The Proprietary Funds balances decreased from \$25,368 at June 30, 2005 to \$15,748 at June 30, 2006, representing a decrease of approximately 37.9%. Revenues increased significantly due to a transfer from the General Fund while expenditures increased due to salaries and benefits and food costs during the year ended June 30, 2006.

Budgetary Highlights

During the year ended June 30, 2006, the Morning Sun Community School District did not amend its annual budget.

The District's revenues were \$318,779 less than budgeted receipts, a variance of 11.2%. The most significant variance resulted from the District receiving less in state aid than originally anticipated.

Total expenditures were \$1,388,565 less than budgeted, due primarily to the District's budget for the General Fund. It is the District's practice to budget expenditures at the maximum authorized spending authority for the General Fund. The District then manages or controls General Fund spending through its line-item budget. As a result, the District's certified budget should always exceed actual expenditures for the year.

The District's expenditures did not exceed the certified budget in any of the functional areas, nor did expenditures exceed the District's authorized spending authority.

Capital Asset and Debt Administration

Capital Assets

At June 30, 2006, the District had invested \$433,377, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-6) This amount represents a net increase of approximately 9% from last year. More detailed information about capital assets is available in Note 5 to the financial statements. Depreciation expense for the year was \$22,751.

The original cost of the District's capital assets was \$1,402,750. Governmental funds account for \$1,337,605 with the remainder of \$65,145 in the Proprietary, School Nutrition Fund.

The largest change in capital asset activity during the year occurred in the buildings and improvements and other improvements categories. These increases resulted from a few small building projects done during 2006.

Figure A-6
Capital Assets, Net of Depreciation

	Governmental Activities		Business-type Activities		Total School District		Total Change
	2006	2005	2006	2005	2005	2005	2005-2006

Totals	<u>\$431,109</u>	<u>\$394,600</u>	<u>\$2,268</u>	<u>\$2,762</u>	<u>\$433,377</u>	<u>\$397,362</u>	9.06%

Long-Term Debt

At June 30, 2006, the District did not have any outstanding debt.

Economic Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- The passing of the SILO Tax on March 2, 2005 was a positive fiscal highlight for FY05 and subsequent years for the Morning Sun Community School District, bringing in revenue for the Capital Project Fund of approximately \$15,000 each year. Because the election was held after May 30, 2005, funds can be used according to PPEL guidelines.
- The District has experienced stable enrollment for the past several years and expects this to continue.

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Kim Booth, District Secretary/ Business Manager, Morning Sun Community School District, 311 Division Street, Morning Sun, Iowa 52640.

See notes to financial statements and Independent Auditor's Report.

MORNING SUN COMMUNITY SCHOOL DISTRICT
Notes to Financial Statements
June 30, 2006

Note 1. Summary of Significant Accounting Policies

The Morning Sun Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve. Students in grades 7-12 attend other local school districts under whole-grade sharing agreements. The geographic area served includes the City of Morning Sun, Iowa, and the agricultural territory in Des Moines and Louisa Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Morning Sun Community School District has included all funds, organizations, agencies, boards, commissions, and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on, the District. The Morning Sun Community School District has no component units, which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations - The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the County Assessor's Conference Board.

B. Basis of Presentation

Government-wide financial statements - The Statement of Net Assets and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Assets presents the District's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest that are restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the District-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other nonmajor governmental funds.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities.

The District reports no major proprietary funds. However, it reports the following nonmajor enterprise funds: School Nutrition Fund and Daycare and Preschool Fund. These funds are used to account for the student nutrition program and the daycare/preschool programs operated by the District.

C. Measurement Focus and Basis of Accounting

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

The proprietary funds of the District applies all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the balance sheet:

Cash, Pooled Investments and Cash Equivalents - The cash balances of most District funds are pooled and invested. Investments are stated at fair value, except for the investment in the Iowa Schools Joint Investment Trust, which is valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash, and at the day of purchase, they have a maturity date no longer than three months.

Property Tax Receivable - Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current year and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½ % per month penalty for delinquent payments; is based on January 1, 2004 assessed property valuations; is for the tax accrual period July 1, 2005 through June 30, 2006 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2005.

Due From Other Governments - Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets - Capital assets, which include property, furniture and equipment, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

<u>Asset Class</u>	<u>Amount</u>
Land	\$2,500
Buildings	\$2,500
Improvements other than buildings	\$2,500
Furniture and equipment:	
School Nutrition Fund equipment	\$ 500
Other furniture and equipment	\$2,500

Capital assets are depreciated using the straight line method of depreciation over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Buildings	50 years
Improvements to buildings	20-50 years
Furniture and equipment	4-12 years

Deferred Revenue - Although certain revenues are measurable, they are not available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay

liabilities of the current period. Deferred revenue consists of property tax receivables not collected within sixty days after year end.

Deferred revenue on the Statement of Net Assets consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

Fund Equity - In the governmental fund financial statements, reservations of fund balance are reported for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

Restricted Net Assets - In the government-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

E. Budgeting and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2006, expenditures did not exceed the amounts budgeted in any of the four functional areas, nor did the District exceed its General Fund unspent authorized budget.

Note 2. Cash and Pooled Investments

The District's deposits in banks at June 30, 2006 were entirely covered by federal depository insurance or by the State Sinking fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2006, the District had investments in the Iowa Schools Joint Investment Trust as follows:

	Amortized
	Cost
Diversified Portfolio	<u>\$ 520,691</u>

Credit risk. The investments in the Iowa Schools Joint Investment Trust were rated Aaa by Moody's Investors Service.

Note 3. Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2006 is as follows:

<u>Transfer to</u>	<u>Transfer from</u>	<u>Amount</u>
Daycare & Preschool	General	\$ 56,892

These transfers were to move state foundation aid received for preschool students from the General Fund to the Enterprise Fund where expenditures for these students were recorded.

Note 4. Iowa Schools Cash Anticipation Program (ISCAP)

The District participates in the Iowa Schools Cash Anticipation Program (ISCAP). ISCAP is a program of the Iowa Association of School Boards and is designed to provide funds to participating entities during periods of cash deficits. ISCAP is funded by a semiannual issuance of anticipatory warrants, which mature as noted below. The warrant sizing of each school corporation is based on a projection of cash flow needs during the semiannual period. ISCAP accounts are maintained for each participating entity, and monthly statements are provided regarding their cash balance, interest earnings, and amounts available for withdrawal for each outstanding series of warrants. Bankers Trust Co. NA is the trustee for the program. A summary of the District's participation in ISCAP as of June 30, 2006, is as follows:

<u>Series</u>	<u>Warrant Date</u>	<u>Final Warrant Maturity</u>	<u>Investments</u>	<u>Accrued Interest Receivable</u>	<u>Warrants Payable</u>	<u>Accrued Interest Payable</u>	<u>Unamortized Premium</u>
2005-06B	1/26/06	1/26/07	\$ 235,821	\$ 4,778	\$ 235,000	\$ 4,491	\$ 1,448
2006-07A	6/28/06	6/28/07	<u>149,791</u>	<u>47</u>	<u>150,000</u>	<u>39</u>	<u>1,141</u>
			<u>\$ 385,612</u>	<u>\$ 4,825</u>	<u>\$ 385,000</u>	<u>\$ 4,530</u>	<u>\$ 2,589</u>

The District pledges its state foundation aid payments and General Fund receipts as security for warrants issued. Repayments must be made when General Fund receipts are received. If a balance is outstanding on the last date the funds are available to be drawn, then the District must repay the outstanding withdrawal from its General Fund receipts. In addition, the District must make minimum warrant repayments on the 25th of each month immediately following the final date that the warrant proceeds may be used in an amount

equal to 25% of the warrant amount. There was no ISCAP advance activity for the year ended June 30, 2006.

The warrants bear interest and the available proceeds of the warrants are invested at the interest rates shown below:

<u>Series</u>	<u>Interest Rates on Warrants</u>	<u>Interest Rates on Investments</u>
2005-06A	4.000%	3.9030%
2005-06B	4.500%	4.7720%
2006-07A	4.500%	5.6760%

Note 5. Capital Assets

Capital assets activity for the year ended June 30, 2006 was as follows:

<u>Governmental activities</u>	<u>Balance, Beginning of Year</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance, End of Year</u>
Capital assets not being depreciated:				
Land	\$ 227,000	\$ -	\$ -	\$ 227,000
Capital assets being depreciated:				
Buildings and improvements	623,253	38,271	-	661,524
Improvements other than buildings	107,868	-	-	107,868
Furniture and equipment	<u>320,718</u>	<u>20,495</u>	-	<u>341,213</u>
Total capital assets being depreciated	<u>1,051,839</u>	<u>58,766</u>	-	<u>1,110,605</u>
Less accumulated depreciation for:				
Buildings and improvements	481,633	4,563	-	486,196
Improvements other than buildings	102,443	400	-	102,843
Furniture and equipment	<u>300,163</u>	<u>17,294</u>	-	<u>317,457</u>
Total accumulated depreciation	<u>884,239</u>	<u>22,257</u>	-	<u>906,496</u>
Total capital assets being depreciated, net	<u>167,600</u>	<u>36,509</u>	-	<u>204,109</u>
Governmental activities capital assets, net	<u>\$ 394,600</u>	<u>\$ 36,509</u>	<u>\$ -</u>	<u>\$ 431,109</u>
<u>Business type activities</u>

Business type activities capital assets, net	<u>\$ 2,762</u>	<u>\$ (494)</u>	<u>\$ -</u>	<u>\$ 2,268</u>

Depreciation expense was charged to the following functions:

Governmental activities	
Instruction	
Regular	\$ 17,031
Support services	
Unallocated depreciation	<u>5,226</u>
Total governmental activities depreciation expense	<u>\$ 22,257</u>
Business type activities	
Food services	<u>\$ 494</u>

Note 6. Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by State statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, IA, 50306-9117.

Plan members are required to contribute 3.70% of their annual covered salary and the District is required to contribute 5.75% of annual covered payroll for the years ended June 30, 2006, 2005 and 2004. Contribution requirements are established by State statute. The District's contribution to IPERS for the years ended June 30, 2006, 2005 and 2004 were \$73,446, \$72,854 and \$72,012 respectively, equal to the required contributions for each year.

Note 7. Risk Management

The District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 8. Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media, and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$66,969 for the year ended June 30, 2006 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

MORNING SUN COMMUNITY SCHOOL DISTRICT
Notes to Required Supplementary Information – Budgetary Reporting
For the Year Ended June 30, 2006

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund or fund type. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not by fund. The Code of Iowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District did not adopt any budget amendments.

During the year ended June 30, 2006, District expenditures did not exceed the amounts budgeted in any of the four functions, nor did the General Fund expenditures exceed the unspent authorized budget.

Independent Auditor's Report on Internal Control over Financial Reporting
and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance
with Government Auditing Standards

To the Board of Education
Morning Sun Community School District

I have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Morning Sun Community School District as of and for the year ended June 30, 2006, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued my report thereon dated October 10, 2006. I conducted my audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered Morning Sun Community School District's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. However, I noted certain matters involving the internal control over financial reporting and its operation that I consider to be reportable conditions. Reportable conditions involve matters coming to my attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in my judgment, could adversely affect the District's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements. Reportable conditions are described in Part I of the accompanying Schedule of Findings.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, of the reportable conditions described above, I believe item (A) Segregation of Duties, is a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Morning Sun Community School District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, I noted certain immaterial instances of non-compliance or other matters that are described in Part II of the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2006 are based exclusively on knowledge obtained from procedures performed during my audit of the financial statements of the District. Since my audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of the Morning Sun Community School District and other parties to whom the District may report. This report is not intended to be and should not be used by anyone other than these specified parties.

I would like to acknowledge the many courtesies and assistance extended to me by the personnel of the Morning Sun Community School District during the course of my audit. Should you have any questions concerning any of the above matters, I shall be pleased to discuss them with you at your convenience.

Kay L. Chapman, CPA PC

Kay L. Chapman, CPA PC
October 10, 2006

MORNING SUN COMMUNITY SCHOOL DISTRICT
Schedule of Findings
For the Year Ended June 30, 2006

Part I. Findings Related to the Financial Statements

INSTANCES OF NON-COMPLIANCE

No matters were reported.

REPORTABLE CONDITIONS

- A. Segregation of Duties - The limited number of accounting personnel makes it difficult to achieve adequate internal accounting control through the segregation of duties and responsibilities. I noted that the same individual performs the following duties: recording and processing cash receipts, preparing checks and bank reconciliations, preparation of journals and general financial information for ledger posting, and the analysis of financial information. A small staff makes it difficult to establish an ideal system of automatic internal checks on accounting record accuracy and reliability. This is not an unusual condition but it is important the District officials are aware that the condition exists.

Recommendation - I realize that with a limited number of office employees, segregation of duties is difficult. However, the District should review the operating procedures of the District to obtain the maximum internal control possible under the circumstances.

Response - We will review our procedures and implement changes to improve internal control, as we deem necessary.

Conclusion - Response accepted.

- B. Accounting Records - The District did not properly record in the accounting system all of the GAAP accrual entries required at year-end for CAR reporting. The entries required to record transactions relating to ISCAP were not recorded in the accounting records. Also, the amounts recorded for fund 8 Fixed Assets were not supported by proper documentation; a list of fixed assets added to the fund during the year was not available. Also the amounts recorded were not correct; computers purchased during the year and added to the fund were incorrectly recorded in the buildings and improvements account rather than the machinery and equipment account.

Recommendation - The District needs to ensure that all transactions are properly recorded in the accounting system throughout the year and that the accrual and other adjusting entries are properly recorded at year-end.

MORNING SUN COMMUNITY SCHOOL DISTRICT
Schedule of Findings
For the Year Ended June 30, 2006

Response - We will record all necessary entries in the accounting system so that our accounting records are accurate and in agreement with supporting documentation.

Conclusion - Response accepted.

Part II. Other Findings Related to Statutory Reporting:

1. Certified Budget - Expenditures for the year ended June 30, 2006 did not exceed the amounts budgeted.
2. Questionable Disbursements - I noted no disbursements that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.
3. Travel Expense - No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.
4. Business Transactions - I noted no business transactions between the District and District officials.
5. Bond Coverage - Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.
6. Board Minutes - I noted no transactions requiring Board approval which had not been approved by the Board. However, the minutes for the May 8th board meeting did not contain the Code of Iowa exemption under which the board entered into a closed session.

Recommendation - Chapter 21.5 of the Code of Iowa requires that board minutes include a reference to the specific exemption allowing a closed session when a board enters into a closed session. The District should ensure that this specific exemption is included in all board minutes when the board enters into a closed session.

Response - We will include the required information in future board minutes.

Conclusion - Response accepted.

7. Certified Enrollment - No variances in the basic enrollment data certified to the Iowa Department of Education were noted.
8. Deposits and Investments - I noted no instances of noncompliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy.

MORNING SUN COMMUNITY SCHOOL DISTRICT
Schedule of Findings
For the Year Ended June 30, 2006

9. Certified Annual Reports - The Certified Annual Report was filed with the Department of Education timely. However I noted a few significant deficiencies in the amounts reported. The amounts reported for ISCAP entries and balances were not correct. This resulted in the General Fund balance being understated by \$726. Also, the amounts reported in the Fixed Asset Account Group for buildings and improvements and machinery and equipment were overstated and understated by \$20,495, respectively.

Recommendation - The District should adjust these items on the Certified Annual Report filed for the year ending June 30, 2007 and take steps to ensure that subsequent years' CARs are filed with correct data.

Response - We will make the necessary corrections and be more attentive on future CARs.

Conclusion - Response accepted.
