Independent Auditor's Report

To the Board of Education of
Clarion-Goldfield Community School District:

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Clarion-Goldfield Community School District, Clarion, Iowa, as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of District officials. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Clarion-Goldfield Community School District at June 30, 2007, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued our report dated June 11, 2008 on our consideration of Clarion-Goldfield Community School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contract and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Management's Discussion and Analysis and budgetary comparison information on pages 4 through 13 and 41 through 42 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. We did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Clarion-Goldfield Community School District's basic financial statements.

We previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the three years ended June 30, 2006, (which are not presented herein) and expressed unqualified opinions on those financial statements. Other supplementary information included in Schedules 1 through 4, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

CLARION-GOLDFIELD COMMUNITY SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

Clarion-Goldfield Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2007. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2007 FINANCIAL HIGHLIGHTS

- General Fund revenues increased from \$7,674,833 in fiscal 2006 to \$8,133,915 in fiscal 2007, while General Fund expenditures increased from \$7,607,859 in fiscal 2006 to \$8,109,323 in fiscal 2007. The District's General Fund balance increased from \$648,602 in fiscal 2006 to \$679,790 in fiscal 2007, an increase of 3.79%.
- The increase in General Fund revenues was attributable to a slight increase in property tax, state revenue and miscellaneous income in fiscal 2007. The increase in expenditures was due primarily to an increase in the negotiated salary and benefits and restricted grant expenditures. The increase of the district's cash balance from one year to the next does not necessarily indicate improvement in the district's financial situation. This is one measure of financial health. The more important measure is the district's annual comparison of unspent authority. While the district's cash condition improved by \$24,592, the district's unspent authority decreased by \$258,591. This is of great concern by the district and will be addressed by decreasing expenditures while seeking new revenue opportunities.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Assets and a Statement of Activities. These provide information about the activities of Clarion-Goldfield Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Clarion-Goldfield Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Clarion-Goldfield Community School District acts solely as an agent or custodian for the benefit of those outside of District government.

Notes to financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year.

Other Supplementary Information provides detailed information about the non-major funds.

FIGURE A-1 shows how the various parts of this annual report are arranged and relate to one another.

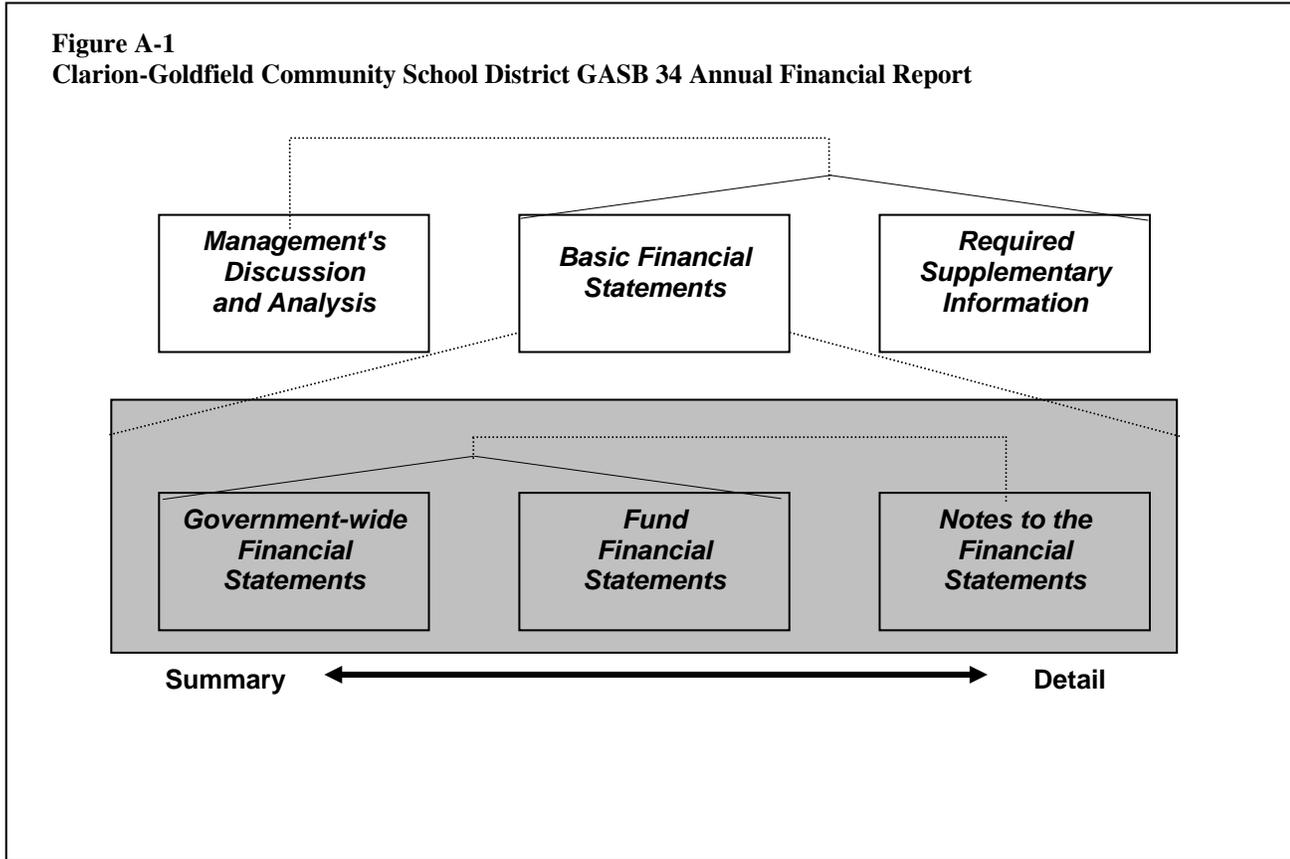

Figure A-2 summarizes the major features of the District’s financial statements, including the portion of the District’s activities they cover and the types of information they contain.

Figure A-2 Major Features of the Government-wide and Fund Financial Statements				
	Government-wide Statements	Fund Statements		
		Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire District (except fiduciary funds)	The activities of the District that are not proprietary or fiduciary, such as special education and building maintenance	Activities the District operates similar to private businesses: food services and adult education	Instances in which the District administers resources on behalf of someone else, such as scholarship programs

Type of inflow/ outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

REPORTING THE DISTRICT’S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets includes all of the District’s assets and liabilities. All of the current year’s revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District’s net assets and how they have changed. Net assets – the difference between the District’s assets and liabilities – are one way to measure the District’s financial health or financial position. Over time, increases or decreases in the District’s net assets are an indicator of whether financial position is improving or deteriorating. To assess the District’s overall health, additional non-financial factors, such as

changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities*: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business type activities*: The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show that it is properly using certain revenues, such as federal grants.

The District has three kinds of funds:

- 1) *Governmental funds*: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, Special Revenue Funds, Debt Service Fund and Capital Projects Fund.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

- 2) *Proprietary funds*: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, one type of proprietary fund, are the same as its business type activities, but provide more detail and additional information, such as cash flows. The District currently has one Enterprise Fund, the School Nutrition Fund. The District uses *internal service funds*, the other kind of proprietary fund, to report activities that provide supplies and services for its other programs and activities. The District current has two internal service funds. These funds are reported together in Exhibits G, H and I. The District's internal service funds include the district's employee flexible benefit plan and medical insurance side-fund.

The required financial statements for proprietary funds include a statement of net assets, a statement of revenues, expenses and changes in fund net assets and a statement of cash flows.

- 3) *Fiduciary funds*: The District is the trustee, or fiduciary, for assets that belong to others. These funds include Private-Purpose Trust and Agency Funds. The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

- Private-Purpose Trust Fund – The District accounts for outside donations for scholarships for individual students in this fund. Figures shared in Exhibits J and K reflect a combination of two accounts within the Trust Fund. This includes scholarships and the Nurse's fund. The Nurse's fund is financed by donations, specifically given for the purpose of providing necessities for students in need.

- Agency Funds – These are funds through which the District administers and accounts for certain federal and/or state grants on behalf of other entities. At this time, the district does not serve as a fiscal agent for federal or state grants.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

Government-Wide Financial Analysis

Figure A-3 below provides a summary of the District’s net assets at June 30, 2007 compared to June 30, 2006.

Figure A-3

	Governmental Activities		Business-type Activities		Total School District		Percentage Change
	2007	2006	2007	2006	2007	2006	2006-2007
	\$	\$	\$	\$	\$	\$	
Current and other assets	\$7,580	\$5,310	\$141	\$124	\$7,721	\$5,434	42.09%
Capital assets	\$9,538	\$6,679	\$108	\$114	\$9,646	\$6,793	42.00%
Total assets	\$17,118	\$11,989	\$249	\$237	\$17,367	\$12,227	42.04%
Long-term liabilities	\$6,763	\$2,951	\$0	\$0	\$6,763	\$2,951	129.14%
Other liabilities	\$4,809	\$3,790	\$4	\$4	\$4,812	\$3,794	26.84%
Total liabilities	\$11,571	\$6,741	\$4	\$4	\$11,575	\$6,745	71.60%
Net Assets:							
Invested in capital assets, net of related debt	\$4,328	\$4,034	\$108	\$114	\$4,436	\$4,148	6.94%
Restricted	\$884	\$801			\$884	\$801	10.29%
Unrestricted	\$335	\$413	\$137	\$119	\$472	\$533	-11.29%
ASSETS	\$5,546	\$5,249	\$245	\$233	\$5,792	\$5,482	5.66%

The District’s combined net assets increased by 5.66%, or approximately \$310,000, over the prior year. The largest portion of the District’s net assets is the invested in capital assets (e.g., land, infrastructure, buildings and equipment), less the related debt. The debt related to the investment in capital assets is liquidated with sources other than capital assets.

Restricted net assets represent resources that are subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District’s restricted net assets increased nearly \$83,000 or 10.29% over the prior year. The increase was primarily a result of additional funds provided by General Obligation Bond proceeds during construction to be dispersed after construction is completed.

Unrestricted net assets – the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements – decreased over \$60,000, or 11.29%. This reduction in unrestricted net assets was a result of the District using carryover fund balance for roofing to meet its financial obligations during the year to pay for construction overage using SILO and PPEL funds.

Figure A-4 shows the change in net assets for the years ended June 30, 2007 and 2006.

Figure A-4

	Change in Net Assets						
	Governmental Activities		Business-type Activities		Total School District		Percentage Change
	2007	2006	2007	2006	2007	2006	2006-2007
	\$	\$	\$	\$	\$	\$	
Revenues							
Program Revenues:							
Charges for services	\$892	\$799	\$196	\$186	\$1,088	\$984	10.50%
Operating grants, contributions & restricted interest	\$962	\$907	\$216	\$202	\$1,178	\$1,109	6.15%
Capital grants, contributions & restricted interest	\$249	\$18			\$249	\$18	1272.80%
General Revenues:							
Property taxes	\$3,490	\$3,229			\$3,490	\$3,229	8.09%
Income Surtax	\$217	\$214			\$217	\$214	1.21%
Local option sales tax	\$540	\$453			\$540	\$453	19.35%
Unrestricted state grants	\$3,342	\$3,340			\$3,342	\$3,340	0.06%
earnings	\$135	\$63	\$7	\$6	\$142	\$69	107.00%
Other revenue	\$12	\$10			\$12	\$10	22.14%
Total Revenues	\$9,839	\$9,032	\$419	\$394	\$10,257	\$9,426	8.82%
Expenses:							
Instruction	\$5,874	\$5,276			\$5,874	\$5,276	11.33%
Support services	\$2,692	\$2,496			\$2,692	\$2,496	7.85%
Non-instructional programs	\$5	\$8	\$406	\$368	\$411	\$377	9.14%
Other expenditures	\$916	\$664			\$916	\$664	37.85%
Loss on disposal of capital assets	\$54				\$54	\$0	
Total expenses	\$9,541	\$8,445	\$406	\$368	\$9,947	\$8,814	12.86%
Change in net assets before transfers	\$298	\$587	\$12	\$26	\$310	\$612	-49.36%
Transfers							
CHANGE IN NET ASSETS							
Net assets beginning of year	\$5,249	\$4,662	\$233	\$207	\$5,482	\$4,869	12.57%
Net assets end of year	\$5,546	\$5,249	\$245	\$233	\$5,792	\$5,482	5.66%

Property tax and unrestricted state grants account for 69% of the total revenue. The dramatic change in capital grants & contributions was due to interest income, on bond proceeds, that must be used for construction and corresponding service of long-term debt. The District's expenses primarily relate to instruction and support services, which account for 90% of the total expenses. The large change in expenditures that resulted in a 40% decrease in net assets was largely due to facility acquisition and long-term debt interest associated with construction projects.

Governmental Activities

Revenues for governmental activities were \$9,838,833 and expenses were \$9,487,152.

The following table presents the total and net cost of the District's major governmental activities: instruction, support services, non-instructional programs and other expenses.

Figure A-5

Total and Net Cost of Governmental Activities						
Total Cost of Services			Net Cost of Services			
		Change			Change	
<i>Expressed in Thousands</i>	2007	2006	2006-2007	2007	2006	2006-2007
	\$	\$		\$	\$	
Instruction	\$5,874	\$5,276	11.33%	\$4,359	\$3,890	12.06%
Support Services	\$2,692	\$2,496	7.85%	\$2,663	\$2,468	7.93%
Non-instructional Programs	\$5	\$8	-42.96%	\$5	\$8	-42.96%
Other Expenses	\$916	\$664	37.85%	\$357	\$356	0.47%
TOTAL	\$9,487	\$8,445	12.33%	\$7,384	\$6,722	66.27%

- The cost financed by users of the District’s programs was \$891,935. Most of these revenues are derived from tuition charged to other school districts and from student activities.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$1,210,833.
- The net cost of governmental activities was financed with \$4,246,981 in property and local other taxes and \$3,489,084 in unrestricted state grants. This represents an increase of 9.02% and 2.24% increase for local tax revenue and unrestricted state grants, investments and other revenue, respectively.

Business Type Activities

Revenues for business type activities were \$418,514 and expenses were \$406,218. The District’s business type activities include the School Nutrition Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income. This represents 3.03% more revenue than expenses.

The district raised meal prices again for the year ended June 30, 2007. This increase resulted in increased revenue to the School Nutrition Fund and corresponding federal revenue for free & reduced reimbursable meals. The District continued to replace obsolete kitchen equipment, using nutrition funds. This was also done to help to draw down the nutrition fund balance, strongly insisted by the Iowa Department of Education.

INDIVIDUAL FUND ANALYSIS

As previously noted, the Clarion-Goldfield Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported a combined fund balance of \$2,578,654, well above last year’s ending fund balances of \$1,073,098, a 140% increase. However, the primary reason for the increase in combined fund balances in fiscal 2007 is due to a portion of the \$4,000,000 general obligation bond proceeds received in fiscal 2007, were still held until the corresponding construction projects at the middle school and high school were completed.

Governmental Fund Highlights

- The General Fund balance increased from \$648,602 to \$679,790. Although district enrollment is declining and corresponding state formula revenue, the shortfall was made up by increases in miscellaneous income. Miscellaneous income increased due to increases in open enrollment tuition and Dows tuition, specific to sending sixth grade students to the middle school.

- The Physical Plant and Equipment Levy (PPEL) Fund balance improved from a deficit of \$240,971 in fiscal 2006 to a deficit of \$56,117 in fiscal 2007. This is an improvement of \$184,854. Revenues continue to increase as corresponding district valuation continues to recover from agricultural devaluation of 2005. It is hoped that passage of the statewide one-cent sales tax will take pressure off the PPEL fund and allow the fund balance to continue to recover.
- The Management Fund remains under-collateralized with \$253,176 in total assets and \$309,244 in total liabilities. The fund balance continues to deteriorate with a beginning balance of -\$42,845 and ending balance of -\$56,068. The district isn't able to increase the Management Levy anymore, due to the promise made to district patrons not to raise taxes more than 55 cents per thousand valuation after a successful bond issue. It is hoped that improvement in the district valuation generates more revenue and passage of the statewide one-cent sales tax will allow the district to reconfigure debt, allowing room for increasing the Management Levy without raising taxes.
- The Capital Projects Fund balance increased to \$1,901,197, due to the sale of \$4,000,000 in general obligation bonds proceeds during fiscal 2007 and unexpended funds. Construction was still incomplete in 2007. The balance of unexpended funds will be spent as construction ends.
- District long-term debt is paid using PPEL and SILO. Debt service will begin in 2008, with interest accrued in 2007, paid beginning fiscal 2009.
- Student Activity Fund balance increased by \$9,604 with a beginning balance of \$100,248 and ending balance of \$109,852. Gate receipts at athletic events and student fees collected at registration primarily generate revenue in this fund. The Sports Booster Club also provide financial support for athletic expenditures in the way of uniform purchases and other miscellaneous purchases.

Proprietary Fund Highlights

School Nutrition Fund net assets increased from \$232,999 at June 30, 2006 to \$245,295 at June 30, 2007, representing an increase of approximately 5.3%. For fiscal 2007, the District increased meal and ala carte prices, resulting in the increase in net assets. Internal Service Funds decreased from \$267,442 at June 30, 2006 to \$187,956 at June 30, 2007. This was a decrease of \$79,486 or -29.72%. This was primarily the result of high utilization of the district's group benefits plan by employees.

BUDGETARY HIGHLIGHTS

Over the course of the year, Clarion-Goldfield Community School District amended its annual budget one time to reflect later than anticipated disbursement of funds associated with renovation and construction projects in the middle school and high school. The amended budget reallocated expenditures to better reflect expenditures in the four major categories.

In spite of amending the budget for other expenditures, this budget item was exceeded during the year due to the timing of construction expenses at the end of the year, with out time to amend the budget again.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2007, the District had invested \$9,645,909, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-6) This represents a net decrease of 42% from last year. More detailed information about the District's capital assets is presented in Note 5 to the financial statements. Depreciation expense for the year was \$277,764.

The original cost of the District's capital assets was \$13,936,977. Governmental funds account for \$13,785,547, with the remainder of \$151,430 accounted for in the Proprietary, School Nutrition Fund.

The largest change in capital asset activity during the year occurred in the construction in progress category. The District's construction in progress totaled \$3,079,011 at June 30, 2007, compared to \$0 reported at June 30, 2006. This

significant increase resulted from construction activity financed by the issuance of voter approved general obligation bonds of \$4,000,000 in fiscal 2007 for construction associated with Phase III and Phase IV of the district's comprehensive facility improvement plan.

<i>Figure A-6</i>

TOTAL	9,538	6,679	108	114	9,646	6,793	42.00%

Long-Term Debt

At June 30, 2007, the District had \$6,762,556 in general obligation, revenue and other long-term debt outstanding. This represents an increase of approximately 129.14% from last year. (See Figure A-7) Additional information about the District's long-term debt is presented in Note 7 to the financial statements.

In May 9, 2006, the District's voters authorized the issuance of \$4,000,000 in general obligation bonds to pay for renovation and expansion of the middle school and renovation and expansion of the high school including geothermal heating and cooling, completing last phase of the system for the entire high school campus (Phase III & IV of the district's comprehensive facility improvement plan). No payments were made in 2007 due to the election being held after FY2007 budget was approved. Interest and principal was accrued with payments beginning in 2007-2008. The middle school project was substantially finished in August 2007. The high school project was substantially finished in December of 2007.

The district's total indebtedness also includes earlier projects (Phase I & II) that involved renovation of the high school locker rooms, addition of an art studio, wrestling room and installing a geothermal heating and cooling system to those areas. Funding for Phase I of the project was accomplished by using capital loan notes, repaid using the Physical Plant and Equipment Fund (initial project of \$1,856,454). Phase II was funded using revenue bonds, repaid using one-cent sales tax revenue (initial project of \$1,265,000). A special assessment to purchase physical fitness equipment originally from the bankrupted School Physical Fitness Foundation, was retired during 2007.

The remaining long-term obligations were associated with early retirement packages. Early retirement packages include cash and benefits. The district's retirement policy was found to be discriminatory and required revision. FY2007 marked the last year retirees could access a retirement package that was not only discriminatory, but also extremely benefit rich. The district took advantage of the change process to down size retirement packages to limit district financial liability and corresponding impact on the Management Fund and local property taxes. Medical insurance was changed to limit benefits to five years. Cash packages also included payments for unused sick leave at the time of retirement. The impending change in the district's retirement policy in FY2008, prompted three of the district's four retirements at the conclusion of FY2007. It is anticipated that downsizing retirement packages will decrease financial liability and help the district eliminate its negative balance in the Management Fund without raising taxes.

**Figure A-7
Outstanding Long-Term
Obligations**

	Total School District		Percentage
	2007	2006	2006-2007
	\$	\$	
General Obligation Bonds	4,000,000	-	100%
Local Option Sales and Services			
Tax Revenue Bonds	1,085,000	1,200,000	-9.58%
Capital Loan Notes	1,190,000	1,410,000	-15.60%
Capital Leases	-	12,764	-100.00%
Note payable - special assessment	16,570	22,746	-27.15%
Early Retirement	441,736	272,017	62.39%
Compensated Absences	29,250	33,700	-13.20%
	6,762,556	2,951,227	129.14%

ECONOMIC FACTORS BEARING ON THE DISTRICT’S FUTURE

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- The district’s taxable valuation will continue to increase about 4% annually until it recovers from the devaluation of agricultural property in 2003.
- School financing is highly dependent upon student enrollment. The District’s October 2007 enrollment decreased by 25 students. This drop in enrollment will decrease the District’s funding for fiscal year 2009. This is part of a three-year skid totaling a decrease of 78.8 students.
- The District is faced with higher transportation costs due to increase in the cost of equipment and fuel. EPA requirements have almost doubled the cost of school buses over the last five years. Fuel prices continue to increase and greatly impact the cost of running over 205,929 miles of transporting students.
- Fiscal 2007 was the first year of a two-year contract with the Clarion-Goldfield Education Teacher Association (CGEA). The District will negotiate a new agreement during fiscal 2009 for FY2010. Settlements in excess of “new money” generated by decreasing enrollment and state’s foundation formula (based on enrollment), will have an adverse impact the District’s General Fund budget and corresponding fund balance.

CONTACTING THE DISTRICT’S FINANCIAL MANAGEMENT

This financial report is designed to provide the District’s citizens, taxpayers, customers, investors and creditors with a general overview of the District’s finances and to demonstrate the District’s accountability for the money it receives. If you have questions about this report or need additional financial information, contact Fern Spellmeyer, District Board Secretary, Clarion-Goldfield Community School District, 319 Third Avenue NE, Clarion, Iowa, 50525.

CLARION-GOLDFIELD COMMUNITY SCHOOL DISTRICT

Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances - Governmental Funds to the
Statement of Activities

Year ended June 30, 2007

	\$	\$
Net change in fund balances - total governmental funds (Exhibit E)		1,505,556
<i>Amounts reported for governmental activities in the Statement of Activities are different because:</i>		
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are not reported in the Statement of Activities and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. Capital outlay expenditures exceeded depreciation expense and the loss on disposal of capital assets in the current year as follows:		
Expenditures for capital assets	3,242,617	
Loss on disposal of capital assets	(117,581)	
Depreciation expense	<u>(266,401)</u>	2,858,635
Repayment of long-term liability principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets.		353,940
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities interest expense is recognized as the interest accrues, regardless of when it is due.		(175,430)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:		
Termination benefits	(169,719)	
Compensated absences	<u>4,450</u>	(165,269)
Proceeds from issuing long-term liabilities are included in the governmental funds but increase long-term liabilities in the Statement of Net Assets.		(4,000,000)
An internal service fund is used by the District's management to charge the costs of the self-funded health insurance program to the individual funds. The increase (decrease) in net assets of the internal service fund is reported with governmental activities.		<u>(79,486)</u>
Changes in net assets of governmental activities (Exhibit B)		<u><u>297,946</u></u>

CLARION-GOLDFIELD COMMUNITY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2007

1. Summary of Significant Accounting Policies

Clarion-Goldfield Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve. The geographic area served includes the Cities of Clarion and Goldfield, Iowa and the predominately agricultural territory in a portion of Wright, Humboldt and Hancock Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Clarion-Goldfield Community School District has included all funds, organizations, agencies, boards, commissions, and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. The Clarion-Goldfield Community School District has no component units that meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations - The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the County Assessor's Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Assets and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Assets presents the District's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets not meeting the definition of the two preceding categories. Unrestricted net assets often have constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions, and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements – Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instruction, support and other costs.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities.

The Physical Plant and Equipment Levy Fund is a special revenue fund that is used to account for the revenues from and expenditures of the physical plant and equipment property tax levy.

The District's proprietary fund is the Enterprise, School Nutrition Fund. This fund is used to account for the food service operations of the District.

The District's internal service funds are also reported as proprietary funds. The Internal Service Funds are used to account for the District's self-insured health insurance plan and employee flexible benefit plan.

The District also reports fiduciary funds, which focus on net assets and changes in net assets. The District's fiduciary funds include the following:

The Private-Purpose Trust Fund is used to account for assets held by the District under trust agreements, which require income earned to be used to benefit individuals.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when

they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants, and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgements, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

The proprietary fund of the District applies all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash, and at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable – Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds became due and collectible in September and March of the fiscal year with a 1 ½% per month penalty for delinquent payments; is based on January 1, 2005 assessed property valuations; is for the tax accrual period July 1, 2006, through June 30, 2007, and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2006.

Due from Other Governments - Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants, and reimbursements from other governments.

Inventories - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets – Capital assets, which include property, furniture and equipment, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

<u>Asset Class</u>	<u>Amount</u> \$
Land	-
Buildings	5,000
Improvements other than buildings	5,000
Furniture and equipment:	
School Nutrition Fund equipment	500
Other furniture and equipment	5,000

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Life</u>
Buildings	20-50 years
Improvements other than buildings	20 years
Furniture and equipment	5-20 years

The District's collection of library books and other similar materials are not capitalized. These collections are unencumbered, held for public exhibition and education, protected, cared for and preserved and subject to District policy that requires proceeds from the sale of these items, if any, to be used to acquire other collection items.

Deferred Revenue – Although certain revenues are measurable, they are not available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue consists of unspent grant proceeds as well as property tax receivable and other receivables not collected within sixty days after year end.

Deferred revenue in the Statement of Net Assets consists of unspent grant proceeds, amounts received in advance for meal sales and succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

Compensated Absences - District employees accumulate a limited amount of earned but unused sick leave hours for subsequent use or for payment upon retirement. A liability is recorded when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental fund financial statements only for employees that have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2007. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund.

Long-term Liabilities – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Assets.

Fund Equity – In the governmental fund financial statements, reservations of fund balance are reported for amounts not available for appropriation or legally restricted by outside parties for use for a specific purpose.

Restricted Net Assets – In the government-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or are imposed by law through constitutional provisions or enabling legislation.

E. Budgeting and Budgetary Control

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2007, expenditures in the other expenditures functional area exceeded the amount budgeted.

2. **Cash and Pooled Investments**

The District's deposits in banks at June 30, 2007 were entirely covered by federal depository insurance, or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2007, the District had the following investments:

	<u>Fair Value</u>
	\$
Goldman Sachs Financial Square Treasury Obligations Fund	279,055

Credit risk: The investment in the Goldman Sachs Financial Square Treasury Obligations Fund was rated Aaa by Moody's Investors Service.

3. Interfund Receivables and Payables

The detail of interfund receivables and payables at June 30, 2007 is as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
		\$
General Fund	Physical Plant and Equipment Levy Fund	58,695
General Fund	Nonmajor Governmental Funds: Management Fund	59,244

The interfund receivable/payables represent loans made by the General Fund for cash flow.

4. Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2007 is as follows:

<u>Transfer To</u>	<u>Transfer From</u>	<u>Amount</u>
		\$
Nonmajor Governmental Funds: Debt Service Fund	Physical Plant and Equipment Levy Fund	171,729
Nonmajor Governmental Funds: Debt Service Fund	Capital Projects Fund	257,010

These transfers moved revenues from the funds statutorily required to collect the resources to the fund statutorily required to expend the resources.

5. Capital Assets

Capital assets activity for the year ended June 30, 2007 was as follows:

	<u>Balance Beginning of Year</u>	<u>Increases</u>	<u>Decreases</u>	<u>Balance End of Year</u>
	\$	\$	\$	\$
Governmental activities:				
Capital assets not being depreciated:				
Construction in progress	-	3,079,011	-	3,079,011

Business type activities capital assets, net	<u>113,657</u>	<u>(5,833)</u>	<u>-</u>	<u>107,824</u>

Depreciation expense was charged to the following functions:

	\$
Governmental activities:	
Instruction:	
Regular	7,411
Other	8,791
Support services:	
Student services	859
Operation and maintenance of plant services	4,254
Transportation	<u>34,539</u>
	55,854
Unallocated depreciation	<u>210,547</u>
Total depreciation expense – governmental activities	<u>266,401</u>
Business type activities:	
Food services	<u>11,363</u>

6. Long-Term Liabilities

Changes in long-term liabilities for the year ended June 30, 2007, are summarized as follows:

	Balance Beginning of Year	Additions	Reductions	Balance End of Year	Due Within One Year
	\$	\$	\$	\$	\$
General obligation bonds	-	4,000,000	-	4,000,000	-
Local option sales and services tax revenue bonds	1,200,000	-	115,000	1,085,000	120,000
Capital loan notes	1,410,000	-	220,000	1,190,000	225,000
Capital leases	12,764	-	12,764	-	-
Note payable – special assessment	22,746	-	6,176	16,570	6,440
Termination benefits	272,017	291,871	122,152	441,736	191,717
Compensated absences	33,700	-	4,450	29,250	4,450
Total	2,951,227	4,291,871	480,542	6,762,556	547,607

Termination Benefits

The District offers a voluntary early retirement plan to its employees. Eligible employees must have reached the age of fifty-five, must be on the top of the salary schedule, and/or has accrued 15 years of continuous service in the Clarion-Goldfield District. The application for early retirement is subject to approval by the Board of Education.

Early retirement cash benefits are based on a percentage of the retiree's last contracted salary and the District will pay for single health insurance premiums until the retiree is eligible for Medicare.

Early retirement cash benefits will be paid in no more than three equal installments.

At June 30, 2007, the District has obligations to twelve participants with a total liability of \$441,736. Actual early retirement expenditures for the year ended June 30, 2007 totaled \$122,152.

General Obligation Bonds Payable

Details of the District's June 30, 2007 general obligation bonded indebtedness are as follows:

Year Ending June 30,	Bond Issue of August 2006			
	Interest Rates	Principal	Interest	Total
	%	\$	\$	\$
2008	-	-	330,000	330,000
2009	4.50	150,000	180,000	330,000
2010	4.50	155,000	173,250	328,250
2011	4.50	165,000	166,276	331,276
2012	4.50	170,000	158,850	328,850
2013-2017	4.50	975,000	671,852	1,646,852
2018-2022	4.50	1,205,000	433,130	1,638,130
2023-2026	4.50	1,180,000	135,678	1,315,678
		<u>4,000,000</u>	<u>2,249,036</u>	<u>6,249,036</u>

Revenue Bonds Payable

Details of the District's June 30, 2007 local option sales and services tax revenue bonded indebtedness are as follows:

Year Ending June 30,	Bond Issue of April 2004			
	Interest Rates	Principal	Interest	Total
	%	\$	\$	\$
2008	2.00	120,000	30,693	150,693
2009	2.25	125,000	28,087	153,087
2010	2.50	130,000	25,055	155,055
2011	2.80	130,000	21,610	151,610
2012	3.10	135,000	17,698	149,698
2013-2015	3.30-3.70	445,000	24,522	469,522
		<u>1,085,000</u>	<u>147,665</u>	<u>1,229,665</u>

The local option sales and services tax revenue bonds were issued for the purpose of defraying a portion of the cost of school infrastructure. The bonds are payable solely from the proceeds of the local option sales and services tax revenues received by the District. The bonds are not a general obligation of the District. The debt, however, is subject to the constitutional debt limitation of the District.

The resolution providing for the issuance of the local option sales and services revenue bonds include the following provisions:

- The bonds will only be redeemed from the future earnings of the local option sales tax revenues received by the District and the bond holders hold a lien on the future revenues received.
- \$126,500 of the proceeds from the bond issue were placed in a reserve account with a trustee. The reserve account may be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available in the sinking account. The reserve account is a part of the Capital Projects Fund and is reserved for debt service.
- Proceeds from the local option sales and services tax shall be placed in a revenue account with a trustee. The trustee will make monthly transfers from the revenue account to the sinking account. The required monthly payment to the sinking account shall equal 1/6 of the installment of interest coming due on the next interest payment date and 1/12 of the installment of principal coming due on the next principal payment date. Money in the sinking account shall be used to pay the interest and principal on the bonds. The sinking fund is part of the Capital Projects Fund and is reserved for debt service.

Capital Loan Notes

The District issued \$1,825,000 of capital loan notes in August 2003. These notes and the interest will be paid from the Special Revenue, Physical Plant and Equipment Levy Fund. Details of the capital loan notes are as follows:

Year Ending June 30,	Interest Rates	Principal	Interest	Total
	%	\$	\$	\$
2008	2.50	225,000	36,083	261,083
2009	2.85	230,000	30,457	260,457
2010	3.10	240,000	23,903	263,903
2011	3.25	245,000	16,463	261,463
2012	3.40	250,000	8,500	258,500
		<u>1,190,000</u>	<u>115,406</u>	<u>1,305,406</u>

During the year ended June 30, 2007 the District made principal and interest payments totaling \$261,032 under the note agreements.

Note Payable Special Assessment

During the year ended June 30, 2004 the District was assessed \$31,455 by the City of Clarion for street repairs. The District borrowed money at 4% interest to pay the assessment. Payments on the loan are due as follows:

Year Ending June 30,	Interest Rates	Principal	Interest	Total
	%	\$	\$	\$
2008	4.00	6,440	597	7,037
2009	4.00	6,700	337	7,037
2010	4.00	3430	68	3,498
		<u>16,570</u>	<u>1,002</u>	<u>17,572</u>

During the year ended June 30, 2007 the District made principal and interest payments totaling \$7,037 on the note.

7. Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 3.70% of their annual covered salary and the District is required to contribute 5.75% of annual covered payroll for the years ended June 30, 2007, 2006 and 2005. Contribution requirements are established by state statute. The District's contributions to IPERS for the years ended June 30, 2007, 2006, and 2005 were \$284,326, \$274,110, and \$253,631 respectively, equal to the required contributions for each year.

8. Risk Management

Clarion-Goldfield Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The District maintains its own self-funded health insurance plan. The District purchases insurance to cover aggregate and specific excess losses. The self-funded health insurance plan is accounted for in the Internal Service Fund.

9. Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$299,372 for the year ended June 30, 2007 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

10. Deficit Fund Balances

At June 30, 2007 the District had a \$56,117 deficit fund balance in the Physical Plant and Equipment Levy Fund and had a \$56,068 deficit fund balance in the Management Fund, which is part of the nonmajor governmental funds. These deficits will be covered by property taxes in future years.

11. Construction Commitment

The District has entered into contracts totaling \$3,793,822 for construction at the high school and at the middle school. As of June 30, 2007 costs of \$2,707,136 had been incurred against the contracts. The balances remaining at June 30, 2007 will be paid as work on the projects progresses.

CLARION-GOLDFIELD COMMUNITY SCHOOL DISTRICT

Notes to Required Supplementary Information - Budgetary Reporting

Year ended June 30, 2007

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standard Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Internal Service, Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District adopted one budget amendment increasing budgeted expenditures by \$1,693,097.

During the year ended June 30, 2007, expenditures in the other expenditures function exceeded the amount budgeted.

Independent Auditor's Report on Internal Control
over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards

To the Board of Education of
Clarion-Goldfield Community School District:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Clarion-Goldfield Community School District as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued our report thereon dated June 11, 2008. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Clarion-Goldfield Community School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing our opinion on the effectiveness of Clarion-Goldfield Community School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Clarion-Goldfield Community School District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies and other deficiencies we consider to be material weaknesses.

A control deficiency exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects Clarion-Goldfield Community School District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with U.S. generally accepted accounting principles such that there is more than a remote likelihood a misstatement of Clarion-Goldfield Community School District's financial statements that is more than inconsequential will not be prevented or detected by Clarion-Goldfield Community School District's internal control. We consider the deficiencies in internal control described in Part I of the accompanying Schedule of Findings and Responses to be significant deficiencies in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies that results in more than a remote likelihood a material misstatement of the financial statements will not be prevented or detected by Clarion-Goldfield Community School District's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, of the significant deficiencies described above, we believe items 07-I-A, 07-I-B, 07-I-C and 07-I-D are material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Clarion-Goldfield Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part II of the accompanying Schedule of Findings and Responses.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2007 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Clarion-Goldfield Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Finding and Responses. While we have expressed our conclusions on the District's responses, we did not audit Clarion-Goldfield Community School District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Clarion-Goldfield Community School District and other parties to whom Clarion-Goldfield Community School District may report. This report is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Clarion-Goldfield Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

June 11, 2008

CLARION-GOLDFIELD COMMUNITY SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2007

Part I: Findings Related to the Financial Statements:

Significant deficiencies:

07-I-A Segregation of Duties: The limited number of personnel makes it difficult to achieve adequate internal accounting control through the segregation of duties and responsibilities, such as recording and processing cash receipts, preparing checks and bank reconciliations, preparing and posting general journal entries, preparation of journals and general financial information for ledger posting, and the analysis of financial information. A small staff makes it difficult to establish an ideal system of automatic internal checks on accounting record accuracy and reliability, although we noted the District had taken steps to segregate duties between the present personnel. This is not an unusual condition but it is important the District officials are aware that the condition exists.

Recommendation: We realize that with a limited number of office employees, segregation of duties is difficult. However, the District should review its control procedures and investigate methods to increase monitoring procedures to obtain the maximum internal control possible under the circumstances.

District Response: The District is aware of the lack of complete segregation of duties and will make changes as the opportunity arises.

Conclusion: Response accepted.

07-I-B Financial Reporting: During the audit, we identified material amounts of receivables and payables not recorded in the District's financial records. Adjustments were subsequently made by the District to properly include these amounts in the financial statements.

Recommendation: The District should implement procedures to ensure all receivables and payables are identified and included in the District's financial statements.

District Response: We will double check these in the future to avoid missing any receivables or payables.

Conclusion: Response accepted.

07-I-C Financial Statement Preparation: Financial statement preparation is the responsibility of the District. At the present time District personnel do not have the skills necessary to be able to write the District's financial statements and the related note disclosures. This is not an unusual situation for small governmental entities.

Recommendation: District personnel should attend any governmental accounting and reporting training sessions that may be offered by the Iowa Department of Education, State Auditor's Office or Iowa Association of School Business Officials. The school business office should also have governmental accounting and reporting reference materials.

CLARION-GOLDFIELD COMMUNITY SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2007

Part I: Findings Related to the Financial Statements (continued):

District Response: As a school we certainly understand the need for continuing education classes for all of our staff. However, we have a limited budget and must continually prioritize needs. At this point in time it is not cost effective to train our staff to the level necessary that would enable them to write the financial statements, nor is it feasible to hire additional employees that already possess the skills.

Conclusion: Response accepted.

07-I-D Signature Stamp: We noted that a stamp bearing the signature of the Board President is used to cosign checks. The stamp is under the care, custody and control of the administrative office. This practice negates the internal control procedure established by requiring two signatures on a check.

Recommendation: We recommend that this practice cease. The board may designate a person other than the board president to cosign checks. If a signature stamp is used, it should remain under the control of the person whose name the stamp bears at all times.

District Response: We will discuss methods to limit access to the signature stamp.

Conclusion: Response accepted.

Instances of Noncompliance:

No matters were reported.

CLARION-GOLDFIELD COMMUNITY SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2007

Part II: Other Findings Related to Statutory Reporting:

07-II-A Certified Budget: Expenditures for the year ended June 30, 2007, exceeded the amount budgeted in the other expenditures function.

Recommendation: The certified budget should have been amended in accordance with Chapter 24.9 of the Code of Iowa before expenditures were allowed to exceed the budget.

District Response: We did amend our budget but year-end construction expenditures were more than anticipated.

Conclusion: Response accepted.

07-II-B Questionable Expenditures: We noted no expenditures that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.

07-II-C Travel Expenses: No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

07-II-D Business Transactions: We noted no transactions between the District and District officials or employees.

07-II-E Bond Coverage: Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of bond coverage should be reviewed annually to insure that the coverage is adequate for current operations.

07-II-F Board Minutes: We noted no transactions requiring board approval that had not been approved by the board.

07-II-G Certified Enrollment: The number of basic resident students reported to the Iowa Department of Education on Line 1 of the Certified Enrollment Certification Form for October 2006, was understated by five students. The class lists in the enrollment folder did not reconcile the number of students certified. Also the calculation for supplemental weighting included three open enrollment students.

Recommendation: The District should contact the Iowa Department of Education and the Department of Management to resolve this matter.

District Response: We will contact these departments.

Conclusion: Response accepted.

07-II-H Deposits and Investments: We noted no instances of noncompliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy.

07-II-I Certified Annual Report (CAR): The Certified Annual Report was certified to the Iowa Department of Education timely.

CLARION-GOLDFIELD COMMUNITY SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

June 30, 2007

Part II: Other Findings Related to Statutory Reporting (continued):

07-II-J Deficit Balances: The District's Physical Plant and Equipment Levy Fund and Management Fund have deficit fund balances of \$56,117 and \$56,068, respectively, at June 30, 2007.

Recommendation: The District should continue to monitor these funds and investigate alternatives to eliminate these deficits.

District Response: These deficits will be covered by future property tax collections.

Conclusion: Response accepted.

07-II-K Physical Plant and Equipment Levy Fund Expenditures (PPEL): The PPEL property tax levy may be spent to purchase and improve grounds; to construct buildings; to purchase or lease a single unit of equipment or technology exceeding \$500 in value per unit; to repair, remodel improve, or expand buildings; for energy conservation; and to purchase transportation equipment.

The Code of Iowa defines the improvement of grounds to include grading, landscaping, paving, seeding and planting of shrubs and trees; constructing sidewalks, roadways, retaining walls, sewers and storm drains, and installing hydrants; surfacing and soil treatment of athletic fields and tennis courts; exterior lighting, including athletic fields and tennis courts; furnishing and installing flagpoles, gateways, fences and underground storage tanks; demolition work; and special assessments against the school district for public improvements.

We noted that the District used the PPEL Fund to pay \$1,000 for vehicle repairs and \$36,832 for snow removal and mowing. These items do not appear to be allowable from the PPEL Fund.

Recommendation: The District should be aware of the limitation on types of expenditures allowed from this fund. And the General Fund should reimburse the PPEL Fund for these expenditures.

District Response: We will monitor expenditures from the PPEL Fund and make the reimbursement.

Conclusion: Response accepted.
