INTRODUCTORY SECTION

...a commitment to the community.

December 12, 2007

**Mr. Rex Masterson, President
and Members of the Board of
Education and Citizens of
North Scott Community School District
Eldridge, Iowa**

We are delighted to submit to you the Comprehensive Annual Financial Report, (CAFR) of the North Scott Community School District, (the "District") for the year ending June 30, 2007. This report has been prepared to conform to guidelines recommended by the Association of School Business Officials International and the Government Finance Officers Association of the United States and Canada.

The report presents the financial information of the district accurately and concisely. It is comprehensive, yet easily readable. The Comprehensive Annual Financial Report will be submitted to the Association of School Business Officials of the United States and Canada (ASBO) for review for the ASBO Certificate of Excellence and to the Government Finance Officers Association for the GFOA Certificate of Achievement.

This letter of transmittal is designed to complement the Management's Discussion and Analysis included within the financial section of the CAFR and should be read in conjunction with it.

Management Responsibility

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed information is fairly stated in all material respects and is presented in a manner which sets forth the financial position and results of operations of the various funds and account groups of the District in accordance with generally accepted accounting principles, (GAAP). It includes the entire District. The District is not included in any other reporting entity, nor are any other entities included within this report. All disclosures necessary to enable a reader to gain maximum understanding of the District's financial activities have been included.

CAFR

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and Single Audit. The introductory section includes this transmittal letter, the school board's organizational chart, and a list of the district's consultants. The financial section includes the independent auditor's report, the basic financial statements and notes to the financial statements and additional schedules. The statistical section includes selected financial and demographic data for a ten-year period. The single audit section includes the schedules and various independent auditor's reports required by the Single Audit Amendment of 1996.

Basis of Accounting and Accounting System

The district's accounting records for general operations are maintained on a modified accrual basis, with the revenue being accrued when available and measurable. Expenditures are recorded when the services or goods are received and the liabilities are incurred. Accounting records for the district's nutrition and day care programs and internal service fund are maintained on the accrual basis. All the district's funds are presented in this report and have been audited by the district's independent certified public accountants, Nolte, Cornman & Johnson, P.C., Certified Public Accountants.

The chart of accounts used by the district is in conformance with the revised Uniform Accounting System for Iowa Schools and Area Education Agencies 2004 Edition, and reprinted in June 2006, by the Iowa Department of Education. The chart of accounts manual is updated on an annual basis.

In developing and evaluating the accounting system of the school district, much consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognized that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the internal accounting controls of the school district adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Profile of the Government

North Scott Community School District was incorporated November 1956. The district is supported financially by state aid, property taxes, state and federal grants for special projects and local revenue. The district is governed by a seven-member board of education. The elections are held annually in September. Two and three positions are up for election on alternate years. All board members are elected at large.

The combined financial statements include all funds, organizations, account groups, agencies, boards, commissions and other authorities. The district has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the district are such that exclusion would cause the district's financial statements to be misleading or incomplete. The criteria considered in determining financial accountability include appointing a voting majority of an organization's governing body, and 1) the ability of the district to impose its will on that organization or 2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the district.

The district provides a full range of educational services for residents of the North Scott Community School District appropriate to students in early childhood and grades kindergarten through twelve. These services include basic, regular and enriched academic education, specialized education for handicapped children, vocational education and many individualized programs such as specialized instruction for students at-risk.

Debt Administration

As of June 30, 2007 the North Scott School District had \$5,595,000 in general obligation bond indebtedness and \$1,050,000 in revenue bond indebtedness. This left the district with bonding capacity of \$29,222,384. The district bonds were issued with a AAA bond rating. The purpose of the bonds is for construction of classroom space, air conditioning of all education buildings, parking lot improvement and construction of a sports complex.

Cash Management

The district invests in only those securities allowed by the Code of Iowa, Chapter 12C. Because of the timing of the state aid payments, a portion of the available cash must be kept in very liquid accounts. To maximize investment return, the District invested in Certificates of Deposit with an average rate of 5.12%, a bank Sweep Savings Account with an average rate of 5.76%, and the Iowa Schools Joint Investment Trust with an average rate of 4.91%. Interest revenue of \$792,908 was earned on all investments for the fiscal year ending June 30, 2007. This represents an increase of \$361,378 or 45.57%. This increase in revenue is attributed to the increased cash balance in the Capital Projects Fund, Management Fund and Food Service Fund as the district planned for future expenditures in the 2007-2008 fiscal year, and a high interest rate available for investments.

The Iowa Schools Joint Investment Trust is a common law trust established under Iowa Law pursuant to Chapter 28E and Section 279.29, Iowa Code (1985), as amended which authorized Iowa schools to jointly invest monies pursuant to a joint investment agreement. The objective of the liquid account is to maintain a high degree of liquidity and safety of principal through investment in short-term securities as permitted for Iowa schools under Iowa law. Money may be withdrawn at any time.

Risk Management

The district currently covers property and liability losses with traditional insurance coverage through the Iowa Association of School Board's group plan carried by Employer's Mutual Insurance Company. Worker's Compensation coverage is provided by United Heartland. The group health plan is partially self-funded with stop loss policies purchased for both specific and group aggregate limits. The dental and vision plans are also self-funded with individual limits of the amount the plan will pay annually.

Budgeting

The District's Board of Education annually adopts a budget and approves the related appropriations for the General, Special Revenue, Debt Service, Capital Projects and Enterprise Funds in accordance with provisions outlined in the statutes of the State of Iowa. The budgets are prepared on an accrual basis, which details estimates of GAAP revenues and GAAP expenditures, and use of beginning fund balances, whereas the financial statements of the funds are prepared on either the modified accrual basis or accrual basis of accounting. A statement comparing the budget to actual receipts and disbursements is included in the required supplemental information in aggregate form for fund types for which budgets are required.

For management control, the budget is reviewed on a line item basis for up to a 10% variance. However, since a budget is a plan, overages on a line item basis are allowed if sufficient funds are available on a major function basis.

Major Initiatives and Achievements

Despite pressures from financial challenges, the 2006-2007 school year was a year of growth, achievement and change. Following are some of the major accomplishments or initiatives from the 2006-2007 year.

- Each of the district's buildings trained and used building literacy coaches to support the district's professional development initiatives in literacy and thinking.
- The high school continued several initiatives as part of the second year of the Smaller Learning Communities federal grant. This included advisory for all students, freshman house, and transition activities to assist entering freshmen making the move from junior high to high school.
- K-5 report cards reflect standards referenced reporting systems and are computerized for ease of teacher use and reporting more efficiently to parents.

- The district began assessing students in grades 3-8 on the Measures of Academic Progress assessment. This is a computerized individual growth assessment.
- The North Scott Board of Directors participated in the Iowa Association of School Boards Lighthouse Project.
- New graduation requirements have been implemented requiring students to take four years of English, and three years each of math, science, and social studies to graduate from high school.
- A district-wide professional development initiative focused on differentiation was implemented in 2006-2007.
- Several North Scott students participated at the national level in History Day competition, after winning at the state level.
- Three elementary buildings purchased and installed new playground equipment through combined efforts of parents, schools, community, and the district.
- Every school faculty continues to use a building "Pyramid of Interventions" to respond to individual student's needs in an organized, sequential manner using the multiple resources available within the school, district, and community.
- Multi-year labor contracts with two of the district bargaining units:
 Teachers for 2006-2007, 4.19% and for 2007-2008, 4.46%
 Bus Drivers for 2006-2007, 3.5% and for 2007-2008, 3.5%
- Continuation of a web-based student records/management system to allow parents to view student assignments, grades and progress.
- Second Chance Reading, a research based reading intervention program, was implemented at the high school.

District efforts are focused on supporting and increasing student learning. Listed below is information on student achievement for 2006-2007:

- 87.3% of 4th grade students were proficient in reading, exceeding the state goal of 70% proficiency.
- 91.9% of 4th grade students were proficient in math, exceeding the state math goal of 68.3% proficient.
- 85.8% of the 8th grade students were proficient in reading and 79.5% were proficient in math. There has been an annual increase in proficiency in reading at the 8th grade level for the past five years.
- 11th grade had 77.8% of students proficient in reading, and 81.2% proficient in math.
- The dropout rate of students in grades 9-12 in 2005-2006 was 0.9% (latest data available).
- 58.8% of 2006-2007 North Scott graduates completed a core program of 4 years of English, and three years each of math, science, and social studies.
- The North Scott 2006-2007 grades K-8 Average Daily Attendance rate was 96.7%. The state goal was 95.8%.

- The 2006 graduation rate for the North Scott Community School District was 94.24% compared to the state goal of 90.3%.
- 84.43% of 2006 graduating seniors indicated they intended to pursue post-secondary education or training.

Economic Condition and Outlook

For the second year in a row, the district's General Fund balance has increased after several years of decline.

The 2007-2008 state allowable growth has been set at 4%. This increase in state allowable growth and the district's modest enrollment decrease indicates a minimum of \$626,137 or 3.91%. This increase in the controlled budget, the reduction of FTE positions for the 2007-2008 fiscal year, and a board goal of improving the district's financial position will allow the district to continue to plan for improvements in its financial condition.

Independent Audit

The Code of the State of Iowa requires an annual audit of the District to be performed by an accounting firm selected in a competitively bid process. The annual audit meets the requirements of the Code of Iowa, generally accepted auditing standards and the requirements of the 1996 Amendment to the Single Audit Act, and related OMB Circular A-133. The auditor's report on the general purpose financial statements and combining individual fund statements is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in a separate section for the internal controls and compliance.

Certificates of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awards a Certificate of Achievement for Excellence in Financial Reporting, and the Association of School Business Officials of the United States and Canada (ASBO) awards a Certificate of Excellence in Financial Reporting. The North Scott Community School District received both of these certificates for its comprehensive annual financial report for the fiscal year ended June 30, 2006. Each certificate is a prestigious national award, recognizing conformance with the highest standards for preparation of governmental financial reports.

In order to be eligible to receive the Certificates, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report (CAFR), whose contents conform to program standards. Such CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

These certificates are valid for a period of one year only. The North Scott Community School District received these awards for the first time for its fiscal year 1983 ASBO Comprehensive Annual Financial Report and the 1985 GFOA Certificate of Achievement for Excellence in Financial Reporting. We believe that our current CAFR conforms to the requirements for both awards and, therefore, we are submitting it to the ASBO and GFOA to determine its eligibility for each certificate.

Other Matters

Also included in this report is a statistical section that will give the reader a better understanding of the school system with background and additional financial data. The background information includes the following:

1. Analysis of facilities, classroom and staffing
2. Staffing levels for a ten (10) year period
3. Location and economic profile
4. Major taxpayers of the district
5. Major employers of the district

6. Enrollments by grade level
7. Operating cost per pupil
8. Schedule of insurance coverage
9. History of state aid payments
10. Free and reduced percentages
11. Teacher average salary and education
12. Local regular program budget vs. teacher settlements
13. Other labor settlements
14. Financial solvency ratio

We wish to take this opportunity to thank the administrative office staff who assisted in obtaining and organizing data, the County Auditor and Treasurer offices and the city and town officials who provided much needed information. Without all of the above groups' efforts, the report could not have been completed.

Finally, sincere appreciation is extended to the Board of Directors, where the commitment to excellence begins. It is with great pride that this year's Comprehensive Annual Financial Report is submitted to the Board of Directors.

Very truly yours,

Joseph E. Hintze
Director of Business Affairs

Timothy A. Dose, Ed.D.
Superintendent of Schools

INDEPENDENT AUDITOR'S REPORT

To the Board of Education
North Scott Community School District
Eldridge, Iowa

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the North Scott Community School District, Eldridge, Iowa as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of District officials. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the North Scott Community School District at June 30, 2007, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued our report dated December 7, 2007 on our consideration of the North Scott Community School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That reports is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and budgetary comparison information on pages 15 through 24 and 53 through 54 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. We did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise North Scott Community School District's basic financial statements. The combining and individual fund financial statements and schedules, including the Schedule of Expenditures of Federal Awards required by U.S. Office of Management and Budget (OMB) Circular A-133, listed in the table of contents under the single audit section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The accompanying statistical section, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the financial statements. This information has not been subjected to the auditing procedures applied in our audit of the financial statements and, accordingly, we express no opinion on it.

Nolte, Cornman & Johnson, P.C.

Newton, Iowa

MANAGEMENT'S DISCUSSION AND ANALYSIS

North Scott Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2007. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2007 FINANCIAL HIGHLIGHTS

- The district showed an increase in net assets of \$3,191,979 during the year ended June 30, 2007.
- The district's General Fund balance continued to increase by \$1,223,544 after several years of rapid decline.
- The district reduced 14.18 FTE positions for the 2007-2008 fiscal year to continue to achieve the district's financial goal of maintaining an 8% to 10% unspent balance range and financial solvency ratio.
- The district approved a ten year renewal of the Physical Plant and Equipment Levy with a 90.27% voter approval.
- In March, the Board issued resolutions authorizing the redemption of school bonds dated April 1, 1998 for \$3,505,000 and January 1, 1999 for \$1,920,000. These bonds will be redeemed during the 2007-2008 fiscal year from the Capital Projects Fund.
- The district's Nutrition Fund balance increased by \$22,823 as a result of deferred equipment purchases that are being planned for 2007-2008. This will include an upgrade of point of sale equipment and software and table replacements.
- The district's Child Care Fund balance increased by \$17,221. This is the result of continued expansion to a 2 and 3-year-old preschool and day care program, along with a strong summer program.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Assets and a Statement of Activities. These provide information about the activities of North Scott Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report North Scott Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which North Scott Community School District acts solely as an agent or custodian for the benefit of those outside of the School District.

Notes to the financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year.

Other Supplementary Information provides detailed information about the nonmajor funds.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

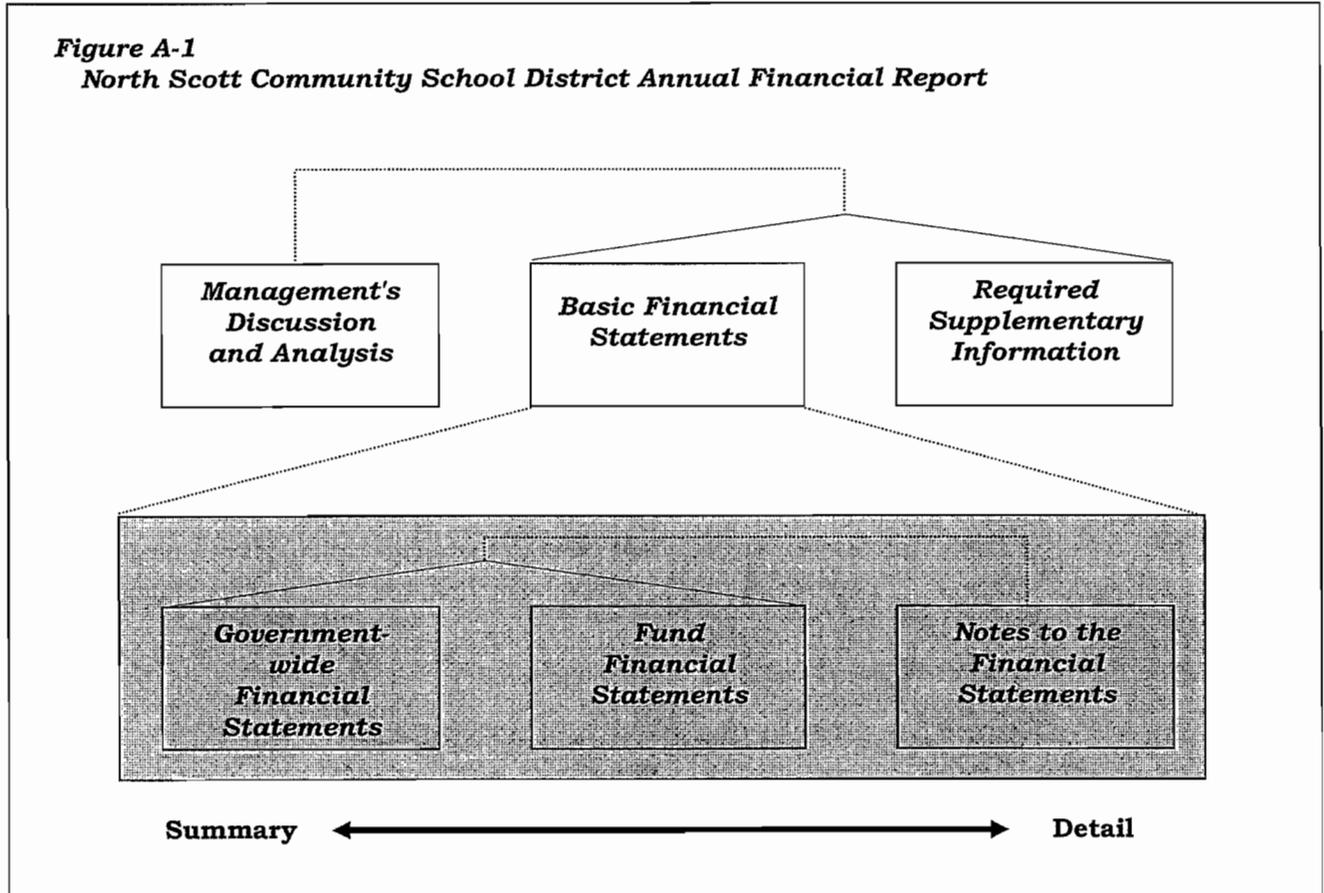

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain.

<i>Figure A-2 Major Features of the Government-Wide and Fund Financial Statements</i>

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities, regardless of when cash is received or paid.

The two government-wide statements report the District's *net assets* and how they have changed. Net assets – the difference between the District's assets and liabilities – are one way to measure the District's financial position. Over time, increases or decreases in the District's net assets are an indicator of whether the financial position is improving or deteriorating, respectively. To assess the District's overall health, you need to consider additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state aid finance most of these activities.
- *Business-type activities:* The District charges fees to help cover the costs of certain services it provides. The District's school nutrition and child care programs are included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds or to show that it is properly using certain revenues such as federal grants.

The District has three kinds of funds:

- 1) *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, additional information at the bottom of the governmental fund statements explains the relationship or differences between the two statements.

The District's governmental funds include the General Fund, Student Activity Fund, Debt Service Fund and Capital Projects Fund.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

- 2) *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the District-wide statements. The District's enterprise funds, one type of proprietary fund, are the same as its business-type activities, but provide more detail and additional information, such as cash flows. The District currently has two enterprise funds, the School Nutrition Fund and the

Day Care Fund. The District uses *internal service funds*, the other kind of proprietary fund, to report activities that provide supplies and services for its other programs and activities. The District currently has one internal service fund, Self-Funded Insurance Fund.

The required financial statements for proprietary funds include a statement of net assets, statement of revenues, expenses and changes in net assets and a statement of cash flows.

3) *Fiduciary funds*: The District is the trustee, or fiduciary, for the assets that belong to others. These funds include Private-Purpose Trust and Agency funds.

- Agency Fund – These are funds for which the District faculty accounts for certain revenue collected for District employee purchases of pop and related expenditures and for revenues and expenditures of other various club accounts.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purpose and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds include a statement of fiduciary assets and liabilities.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net assets - Figure A-3 below provides a summary of the District's net assets for the year ended June 30, 2007 compared to June 30, 2006.

Figure A-3
Condensed Statement of Net Assets

	Governmental Activities		Business-type Activities		Total District		Total Change
	June 30,		June 30,		June 30,		June 30,
	2007	2006	2007	2006	2007	2006	2006-07
Current and other assets	\$ 27,514,542	26,091,525	722,788	667,596	28,237,330	26,759,121	5.52%

Total assets	50,341,530	49,792,833	913,323	869,779	51,254,853	50,662,612	1.17%
Long-term obligations	6,803,992	7,602,377	0	0	6,803,992	7,602,377	-10.50%
Other liabilities	14,678,156	16,483,009	32,858	29,358	14,711,014	16,512,367	-10.91%
Total liabilities	21,482,148	24,085,386	32,858	29,358	21,515,006	24,114,744	-10.78%
Net assets:							
Invested in capital assets, net of related debt	16,136,426	16,251,907	190,535	202,183	16,326,961	16,454,090	-0.77%
Restricted	8,105,764	6,533,577	0	0	8,105,764	6,533,577	24.06%
Unrestricted	4,617,192	2,921,963	689,930	638,238	5,307,122	3,560,201	49.07%
Total net assets	\$ 28,859,382	25,707,447	880,465	840,421	29,739,847	26,547,868	12.02%

The District's combined net assets increased by 12.02%, or \$3,191,979, over the prior year. The increase in net assets was due primarily to the increased fund balances in the General and Capital Projects Funds. The Capital Projects Fund increase was due to the increase in local option sales and services tax revenues received during the year and a decrease in capital outlay expenditures during the year. The General Fund increase was due to increased local and state sources received during the year and keeping the increase in support services costs low.

The invested in capital assets (e.g., land, infrastructure, buildings and equipment), less the related debt decreased \$127,129, or .77%. The debt related to the invested in capital assets is liquidated with sources other than capital assets. The decrease in invested in capital assets is primarily due to the current year depreciation being greater than the assets capitalized in the year.

Restricted net assets represent resources that are subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net assets increased \$1,572,187, or 24.06% over the prior year. The increase was primarily a result of the increased fund balance in the Capital Projects Fund, as previously discussed.

Unrestricted net assets – the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements – increased \$1,746,921, or 49.07%. This increase in unrestricted net assets was a result of the District's increased fund balance in the General Fund, as previously discussed.

Figure A-4 shows the changes in net assets for the year ended June 30, 2007 compared to June 30, 2006.

Figure A-4

Instruction	15,756,034	15,337,168	517	334	15,756,551	15,337,502	2.73%
Support services	8,857,552	8,449,620	121,002	120,165	8,978,554	8,569,785	4.77%
Non-instructional programs	0	0	1,404,701	1,374,511	1,404,701	1,374,511	2.20%
Other expenditures	2,347,687	2,305,425	0	0	2,347,687	2,305,425	1.83%
Total expenses	26,961,273	26,092,213	1,526,220	1,495,010	28,487,493	27,587,223	3.26%
Changes in net assets	3,151,935	2,018,700	40,044	52,999	3,191,979	2,071,699	54.08%
Beginning net assets	25,707,447	23,688,747	840,421	787,422	26,547,868	24,476,169	8.46%
Ending net assets	\$ 28,859,382	25,707,447	880,465	840,421	29,739,847	26,547,868	12.02%

Local tax and unrestricted state grants account for 77.15% of the total revenue. The District's expenses primarily relate to instructional and support services which account for 86.83% of the total expenses.

The increase in local tax is due to the increase in tax levy, increased income surtax and increased local option sales and services tax revenues. The increase in other general revenues is primarily due to the increase of \$283,440 in unrestricted interest income.

The increase of expenditures for the instruction activities is a result of salary and benefit increases. The increase of expenditures for the support services includes the cost for

additional support services staffing, increased utilities costs, increased supply costs, and salary and benefit increases.

The increase of expenditures for non-instructional programs includes the cost for the expansion of the district's daycare program that included a second latch key program, and accepting two and three-year-olds in the preschool and daycare program.

Governmental Activities

Revenues for governmental activities were \$30,113,208 and expenses were \$26,961,273.

The following table presents the total and net cost of the District's major governmental activities: instruction, support services and other expenses.

Figure A-5
Total and Net Cost of Governmental Activities

	Total Cost of Services			Net Cost of Services		
	2007	2006	Change 2006-07	2007	2006	Change 2006-07
Instruction	\$ 15,756,034	15,337,168	2.73%	11,868,027	11,655,172	1.83%
Support services	8,857,552	8,449,620	4.83%	8,814,479	8,390,925	5.05%
Other expenses	2,347,687	2,305,425	1.83%	1,408,596	1,438,690	-2.09%
Totals	\$ 26,961,273	26,092,213	3.33%	22,091,102	21,484,787	2.82%

- The cost financed by users of the District's programs was \$1,793,719.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$3,076,452.
- The net cost of governmental activities was financed with \$13,286,454 in property tax, income surtax and local option sales and services tax, \$11,154,999 in unrestricted state grants, \$655,050 in unrestricted investment earnings, \$126,534 in other general revenues and \$20,000 in transfers.

Business-Type Activities

Revenues of the District's business-type activities were \$1,566,264 and expenses were \$1,526,220. The District's business-type activities include the School Nutrition Fund and the Day Care Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements, and investment income.

The School Nutrition Fund had increased revenues due to the increase of \$11,234 in interest income. All other revenues were comparable to the prior year. Expenditures increased slightly due to salary and benefit increases paid to employees.

During the year the District transferred \$20,000 from the Day Care Fund to the General Fund to pay for utility costs. The increase in revenues is due to increased participation in the District's preschool and strong summer school program in the Day Care Fund. The increase of expenditures includes costs for the expansion of the district's daycare program that included a second latch key program, and accepting two and three-year-olds in the preschool and daycare program.

INDIVIDUAL FUND ANALYSIS

As previously noted, the North Scott Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported combined fund balances of \$10,644,503, above last year's ending fund balances of \$7,923,353. However, the primary reason for

the increase in combined fund balances in fiscal 2007 is due to increased interest revenues and the increase in the Capital Projects and General Fund Balances.

Governmental Fund Highlights

- The District's improving General Fund financial position is the product of many factors. Growth during the year in tax and grants resulted in an increase in revenues. The District's increase in General Fund expenditures was less than the increase in revenues, allowing the fund balance to increase and to be used for future financial obligations.
- The General Fund balance increased from \$1,365,411 to \$2,588,955, due in part to the negotiated salary and benefits settlement and the increase in state aid.
- The Capital Projects Fund balance increased from \$4,738,445 in fiscal 2006 to \$6,317,073 in fiscal 2007. The District collected an increase in local option sales and services tax and had a decrease in capital outlay expenditures.
- The Student Activity Fund balance increased from \$326,051 in fiscal 2006 to \$356,452 in fiscal 2007 due to the variance of student activities from year to year.
- The Debt Service Fund balance remained unchanged from \$0 in fiscal 2006 to \$0 in fiscal 2007. The District transfers in local option sales and services tax monies from the Capital Projects Fund to pay for bond principal and interest.

Proprietary Fund Highlights

- The Proprietary Fund net assets increased from \$840,421 at June 30, 2006 to \$880,465 at June 30, 2007, representing an increase of 4.76%. The School Nutrition fund balance increased from \$669,879 in fiscal 2006 to \$692,702 in fiscal 2007. The Day Care fund balance increased from \$170,542 in fiscal 2006 to \$187,763 in fiscal 2007. The School Nutrition Fund had increased revenues due to the increase of \$11,234 in interest income. All other revenues were comparable to the prior year. Expenditures increased slightly due to salary and benefit increases paid to employees. During the year, the District transferred \$20,000 from the Day Care Fund to the General Fund to pay for utility costs. The increase in revenues is due to increased participation in the District's preschool and strong summer school program in the Day Care Fund. The increase of expenditures include the cost for the expansion of the district's daycare program that included a second latch key program, and accepting two and three-year-olds in the preschool and daycare program.

BUDGETARY HIGHLIGHTS

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures, known as functional areas, not by fund or fund type. As budgets are not prepared by fund type, budgetary variances for the General Fund are not available.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2007, the District had invested \$23 million, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-6) This amount represents a net decrease of 3.71% from last year. More detailed information about capital assets is available in Note 6 to the financial statements. Depreciation expense for the year was \$1,471,763.

The original cost of the District's capital assets was \$44.3 million. Governmental funds account for \$43.8 million with the remainder of \$0.5 million in the Proprietary, School Nutrition and Day Care Funds.

The largest change in capital asset activity during the year occurred in the buildings category. The District's buildings totaled \$18,346,672 at June 30, 2007, compared to \$19,028,434 reported at June 30, 2006. This decrease resulted from depreciation expensed.

Figure A-6
Capital Assets, Net of Depreciation

Total	\$ 22,826,988	23,701,308	190,535	202,183	23,017,523	23,903,491	-3.71%

Long-Term Debt

At June 30, 2007, the District had \$6,803,992 in general obligation and other long-term debt outstanding. This represents a decrease of 10.50% from last year. (See Figure A-7) More detailed information about the District's long-term liabilities is available in Note 8 to the financial statements.

The District had outstanding general obligation bonds of \$5,595,000 at June 30, 2007.

The District had outstanding revenue bonds of \$1,050,000 at June 30, 2007.

The District also had compensated absences payable of \$158,992 at June 30, 2007, which will be paid primarily out of the General Fund.

Figure A-7
Outstanding Long-Term Obligations

Totals	\$ 6,803,992	7,602,377	-10.50%

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of five existing circumstances that could significantly affect its financial health in the future:

The national recession that has adversely impacted the state of Iowa's budget has translated into reduced levels of state aid funding for education. Future increases in state aid to schools (allowable growth) will be predicated on the condition of the state and national economy. The Democratic Political Party has taken over control of the Iowa Legislature. It is hopeful that legislative action to help educational funding will continue to occur this session as it did in the 2006-2007 session.

As a result of the Department of Defense, Base Realignment and Closure Commission (BRAC), the Quad Cities area is in the third year of a reduction of a net loss of 1,060 jobs at the Rock Island Arsenal that currently employs over 6,000. The Rock Island Arsenal is one of the top 10 major employers in the Quad Cities area.

Due to the lower birth rate in Scott County, the district's enrollment may decline. However, the number of new housing developments being planned within the district may offset this birth rate decline. District funding is highly dependent upon enrollment.

After several years of rapid decline of the district's financial condition, this is the second year in a row that upward improvements have been achieved. This is due to the Board adopting a five-year financial plan and planned expenditure reductions. The 2007-2008 fiscal year budget is planned for continued improvement in the financial condition of the district.

Plans are being made to seek voter approval of the countywide Local Option Sales Tax on March 4, 2008. This optional sales tax will continue to provide the district with over \$1,700,000 of funds for capital improvements for the next ten years.

CONTACTING THE DISTRICT'S FINANCIAL MANAGMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Joe Hintze, Director of Business Affairs, North Scott Community School District, 251 E Iowa St., Eldridge, Iowa, 52748.

NORTH SCOTT COMMUNITY SCHOOL DISTRICT

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES

YEAR ENDED JUNE 30, 2007

Net change in fund balances - total governmental funds(page 30) \$ 2,721,150

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are reported in the Statement of Net Assets and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. The amounts of capital outlays and depreciation expense in the year are as follows:

Capital outlay	\$ 558,084	
Depreciation expense	<u>(1,432,404)</u>	(874,320)

Net change in the Internal Service Funds charged back against expenditures made for self-funded insurance at an entity-wide basis. 475,415

Repayment of long-term debt principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Assets. 750,000

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due. 8,839

Income surtax account receivable is not available to finance expenditures of the current period in the governmental funds. 22,466

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Early retirement	\$ 60,425	
Compensated absences	<u>(12,040)</u>	48,385

Changes in net assets of governmental activities(page 27) \$ 3,151,935

SEE NOTES TO BASIC FINANCIAL STATEMENTS.

NORTH SCOTT COMMUNITY SCHOOL DISTRICT

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2007

Note 1. Summary of Significant Accounting Policies

A. REPORTING ENTITY

The North Scott Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve and special education pre-kindergarten. The geographic area served includes the cities of Dixon, Maysville, Donahue, Long Grove, Eldridge, McCausland and Princeton, Iowa, and the predominate agricultural territory in Scott County. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, North Scott Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the District. The North Scott Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations - The District participates in a jointly governed organization that provides services to the District but do not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Scott County Assessors' Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The statement of net assets and the statement of activities report information on all of the nonfiduciary activities of the District. Interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of net assets presents the District's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net assets use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources that are imposed by management, but can be removed or modified.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest that are restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the Government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other nonmajor governmental funds.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenses, including instructional, support and other costs.

The Special Revenues - Student Activity Fund is utilized to account for the various student run organizations and athletic accounts of the District.

The Debt Service Fund is utilized to account for the payment of interest and principal on the District's general long-term debt.

The Capital Projects Fund is utilized to account for the local option sales tax monies to be used for capital improvements.

The District reports the following nonmajor governmental funds:

The Special Revenues - Management Fund is utilized to account for the payment of property insurance as well as early retirement incentives.

The Special Revenues - Physical Plant and Equipment Levy (PPEL) Fund is utilized to account for capital outlay.

The District reports the following major and nonmajor proprietary funds:

The District's proprietary funds are the Enterprise Funds, School Nutrition Fund and Day Care Fund, and the Internal Service Fund. The School Nutrition Fund is a major fund used to account for the food service operations of the District. The Day Care Fund is a nonmajor fund used to account for the day care service operations of the District. The Internal Service Fund is used to account for the self-funded health insurance plan of the District. The Internal Service Fund is charged back to the Governmental Funds and shown combined in the Statement of Net Assets and Statement of Activities. This chargeback is based on a percentage of total employees by the participants' various functional areas.

The District also reports fiduciary funds which focus on net assets and changes in net assets. The District's fiduciary funds include the following:

The Agency Fund is used to account for assets held by the District as an agent for individuals, private organizations and other governments. The Agency Fund is custodial in nature, assets equal liabilities, and does not involve measurement of results of operations.

Specific accounts which the District maintains in the Agency Fund include PTA groups, PTO groups, special ed group and various faculty accounts.

C. Measurement Focus and Basis of Accounting

The government-wide and proprietary financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The fiduciary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

The proprietary fund enterprise funds of the District apply all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principle ongoing operations. The principle operating revenues of the District's enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The District maintains its financial records on the accrual basis.

D. Cash, Pooled Investments and Cash Equivalents

The cash balance of most District funds are pooled and invested. Investments are stated at fair value except for the investments in the Iowa Schools Joint Investment Trust and IPAS education which are valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash, and at the day of purchase, they have a maturity date no longer than three months.

E. Property Taxes

Property taxes in Governmental Funds are accounted for using the modified accrual basis of accounting.

Property taxes revenue receivable is recognized in these funds on the levy date that the tax asking is certified by the Board of Education to the County Board of Supervisors. Current year delinquent property taxes receivable represents unpaid taxes from the current year. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the Board of Education is required to certify its budget to the County Auditor by April 15 of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred and will not be recorded as revenue until the year for which it is levied.

Property tax revenue recognized in these funds becomes due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2005 assessed property valuations; is for the tax accrual period July 1, 2006 through June 30, 2007 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2006.

F. Inventories

General Fund inventories are valued at cost using the first-in and first-out method. The inventories consist of supplies, and are recorded as expenditures when consumed rather than when purchased.

The Enterprise Fund inventories are accounted for using the consumption method by which inventory acquisitions are recorded in inventory accounts when purchased or received by other means and are charged to operations when consumed or sold. The enterprise fund inventory consists primarily of food, with purchased food recorded at the lower cost (first-in, first-out method), or market and food commodities which were received from the federal government and recorded at the contributed value as of the date received.

G. Prepaid Items

The District prepaid items from the General, Student Activity and Internal Service Fund. The District accounts for the prepaid items by using the purchases method. Items prepaid include postage, registration, insurance, software package renewals and subscriptions.

H. Capital Assets

Capital assets, which include property, machinery and equipment, are reported in the applicable governmental or business-type activities columns in the Government-wide statement of net assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Assets	Amounts
Land	\$ 3,000
Buildings	3,000
Land improvements	3,000
Machinery and equipment:	
School Nutrition Fund equipment	500
Other machinery and equipment	3,000

Land is not depreciated. Property, machinery and equipment are depreciated using the straight line method of depreciation over the following estimated useful lives:

Asset Class	Estimated Useful Lives (In Years)
Buildings	50 years
Land improvements	20-50 years
Machinery and equipment	5-15 years

I. Salaries and Benefits Payable

Payroll and related payroll taxes and benefits for teachers with annual contracts corresponding to the school year, but which have balances payable in July and August 2007, have been accrued as a liability as it is applicable to the fiscal year ended June 30, 2007.

J. Deferred Revenue

Although certain revenues are measurable, they are not available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenues consist of unspent federal grant proceeds, succeeding year property tax receivable, and other receivables not collected within sixty days after year end.

K. Unearned Revenue

Unearned revenues are monies collected for lunches that have not yet been served. The lunch account balances will either be reimbursed or served lunches. The lunch account balances are reflected on the Statement of Net Assets in the Proprietary, School Nutrition Fund.

L. Compensated Absences

District employees accumulate a limited amount of earned but unused vacation benefits payable to employees. Compensated absences are reported in governmental funds only if they have matured. The cost of vacation payments expected to be liquidated currently is recorded as a long-term liability on the statement of net assets and will be paid in the future out of the General Fund. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2007.

M. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the statement of net assets.

N. Fund Balances

In the governmental fund financial statements, reservations of fund balance are reported for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

O. Restricted Net Assets

In the Government-wide statement of net assets, net assets are reported as restricted when constraints placed on net assets use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Note 2. Budgets and Budgetary Accounting

In accordance with the Code of Iowa, the District's Board of Education annually adopts a single district-wide budget and approves the related appropriations following required public notice and hearing for all funds. The budgets and related appropriations as well as the financial statements are prepared on the modified accrual basis or accrual basis of accounting. The budget may be amended during the year utilizing similar statutorily prescribed procedures.

Formal and legal budgetary control for the certified budget is based upon four major classes of disbursements known as functional areas, not by fund. These four functional areas are instruction, support services, non-instructional programs and other expenditures. The Code of Iowa also provides that District disbursements in the General Fund may not exceed the amount authorized by the school finance formula.

The Board of Education follows these procedures in establishing budgetary data reflected in the financial statements:

1. In accordance with the Statutes of the State of Iowa, prior to March 15, the Board Secretary submits to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures or expenses and the means of financing them for the upcoming year, along with estimates for the current year and actual data for the preceding years. This budget is submitted in summary form, with an administrative control. The legal level of control for the detailed budget is at the functional area level.
2. Public hearings are required to be conducted to obtain taxpayer comment.
3. Prior to April 15, the budget is legally enacted through certification from the County Auditor.
4. Management is authorized to transfer budgeted amounts between departments within any functional area; however, any revisions that alter the total expenditures or expenses of any functional area must be approved by the Board of Education.
5. The Board of Education may amend the budget during the year by holding public hearings and certifying the amendment with the County Auditor.
6. Appropriations lapse at the end of each fiscal year.
7. The budget cannot be amended without the approval of the Board of Education.
8. Unexpended budgetary balances lapse at June 30 and are not available to finance expenditures or expenses of the following year.

Note 3. Deposits and Pooled Investments

The District's deposits in banks at June 30, 2007 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit and other evidence of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

As of June 30, 2007, the carrying amount of the District's bank deposits and pooled investments totaled \$15,091,110 with bank balances of \$5,057,027. These amounts are included in the cash and pooled investments on the statement of net assets. Of the bank balance, \$100,000 was covered by federal depository insurance and \$4,957,027 was covered by a multiple financial institution collateral pool that provided for additional assessments against members of the pool.

At June 30, 2007, the District had investments in the Iowa Schools Joint Investment Trust as follows:

	<u>Amortized Cost</u>
Diversified Portfolio	<u>\$ 5,749,741</u>

At June 30, 2007, the District had investments in the IPASeducation as follows:

	<u>Amortized Cost</u>
Diversified Portfolio	<u>\$ 1,781,239</u>

The investments are valued at an amortized cost pursuant to Rule 21-7 under the Investment Company Act of 1940.

Interest rate risk. The District's investment policy limits the investment of operating funds (funds expected to be expended in the current budget year or within 15 months of receipt) in instruments that mature with 397 days. Funds not identified as operating funds may be invested in investments with maturities longer than 397 days but the maturities shall be consistent with the needs and use of the District and must also conform to any loan covenant investment maturity restrictions. The maturity of the District's position in an external investment pool is based on the average maturity of the pool's investments.

Credit risk. The investments in the Iowa Schools Joint Investment Trust were rated Aaa by Moody's Investors Service. The investments in the IPASeducation are registered and not subject to rating. The District's policy relating to credit risk of investments is to have the majority of the District's bank deposits with an AAA/Aaa rated national banking company (by Standard & Poors and Moody's Investors Services).

Note 4. Transfers

The detail of transfers for the year ended June 30, 2007 is as follows:

<u>Transfer to</u>	<u>Transfer from</u>	<u>Amount</u>
General	Enterprise - Day Care	\$ 20,000
Nonmajor Governmental Fund:		
Physical Plant and Equipment Levy	Student Activity	22,000
Nonmajor Governmental Fund:		
Management	Student Activity	785
General	Student Activity	5,421
Debt Service	Capital Projects	<u>1,083,109</u>
Total		<u><u>\$ 1,131,315</u></u>

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

The Enterprise, Day Care Fund reimbursed the General Fund for part of the utility costs paid during the 2006-07 school year.

The Student Activity Fund transferred the balance of fundraiser money for new playground equipment to the Physical Plant and Equipment Levy Fund where the expenditure was paid and most appropriate.

The Student Activity Fund repaid the General Fund for rents collected and to correct a transportation allocation.

The Student Activity Fund transferred to the Management Fund to pay for insurance coverage for athletic camps.

The Capital Projects Fund transferred to the Debt Service Fund to pay the General Obligation Bonds and Revenue Bonds.

Note 5. Iowa Schools Cash Anticipation Program (ISCAP)

The District participates in the Iowa Schools Cash Anticipation Program (ISCAP). ISCAP is a program of the Iowa Association of School Boards and is designed to provide funds to participating entities during periods of cash deficits. ISCAP is funded by a semiannual issuance of anticipatory warrants, which mature as noted below. The warrant sizing of each school corporation is based on a projection of cash flow needs during the semiannual period. ISCAP accounts are maintained for each participating entity, and monthly statements are provided regarding their cash balance, interest earnings, and amounts available for withdrawal for each outstanding series of warrants. Bankers Trust Co. NA is the trustee for the program. A summary of the District's participation in ISCAP at June 30, 2007 is as follows:

<u>Series</u>	<u>Warrant Date</u>	<u>Final Warrant Maturity</u>	<u>Investments</u>	<u>Accrued Interest Receivable</u>	<u>Warrants Payable</u>	<u>Accrued Interest Payable</u>
2007-08A	6/28/07	6/27/08	\$ 1,131,210	\$ 338	\$ 1,133,000	\$ 279

The District pledges its state foundation aid payments and General Fund receipts as security for warrants issued. Repayments must be made when General Fund receipts are received. If a balance is outstanding on the last date the funds are available to be drawn, then the District must repay the outstanding withdrawal from its General Fund receipts. In addition, the District must make minimum warrant repayments on the 25th of each month immediately following the final date

that the warrant proceeds may be used in an amount equal to 25% of the warrant amount. No ISCAP advance activity was noted in the General Fund for the year ended June 30, 2007.

The warrants bear interest and the available proceeds of the warrants are invested at the interest rates shown below:

Series	Interest Rates on Warrants	Interest Rates on Investments
2007-08A	4.500%	5.445%

Note 6. Capital Assets

A summary of changes in property and equipment comprising capital assets is as follows:

	Balance Beginning of Year	Increases	Decreases	Balance End of Year
Governmental activities:				
Capital assets not being depreciated:				
Land	\$ 590,594	0	0	590,594
Total capital assets not being depreciated	590,594	0	0	590,594
Capital assets being depreciated:				
Buildings	34,130,556	151,287	0	34,281,843
Land improvements	4,668,887	143,388	0	4,812,275
Machinery and equipment	3,989,826	263,409	143,693	4,109,542
Total capital assets being depreciated	42,789,269	558,084	143,693	43,203,660
Less accumulated depreciation for:				
Buildings	15,102,122	833,049	0	15,935,171
Land improvements	1,719,977	251,277	0	1,971,254
Machinery and equipment	2,856,456	348,078	143,693	3,060,841
Total accumulated depreciation	19,678,555	1,432,404	143,693	20,967,266
Total capital assets being depreciated, net	23,110,714	(874,320)	0	22,236,394
Governmental activities capital assets, net	\$ 23,701,308	(874,320)	0	22,826,988
Business-type activities:				
Machinery and equipment	\$ 485,886	33,359	28,625	490,620
Less accumulated depreciation	283,703	39,359	22,977	300,085
Business-type activities capital assets, net	\$ 202,183	(6,000)	5,648	190,535

Depreciation expense was charged by the District as follows:

Governmental activities:	
Instruction:	
Regular	\$ 10,129
Other	8,319
Support services:	
Administration	150,613
Operation and maintenance of plant	160,081
Transportation	18,936
	<u>348,078</u>
Unallocated depreciation	<u>1,084,326</u>
Total governmental activities depreciation expense	<u>\$ 1,432,404</u>
Business-type activities:	
Food services	\$ 38,527
Day care	832
Total business-type activities depreciation expense	<u>\$ 39,359</u>

Note 7. Related Business Transactions

Business transactions between the District and District employees are detailed as follows:

<u>Name, Title, and Business Connection</u>	<u>Transaction Description</u>	<u>Amount</u>
Judy Kietzman, Teacher Spouse of Bill Kietzman	Official	\$ 838
Christie Liske, Aide Spouse of Matt Liske	Official	904
Christie Liske, Aide Mother of Kyle Liske	Official	35
Paul Claeys, Bus Driver Owner of P&S Enterprises	Supplies	1,340
Paula McPherson, Teacher Spouse of owner of Iowa-Illinois Office Supply	Supplies	4,176
Sherri Marceau, Principal Spouse of owner of Marceau Piano Service	Repairs	350

Note 8. General Long-Term Debt

A summary of changes in general long-term debt for the year ended June 30, 2007:

	Balance Beginning of Year	Additions	Reductions	Balance End of Year	Due Within One Year
General obligation bonds	\$ 6,025,000	0	430,000	5,595,000	450,000
Revenue bonds	1,370,000	0	320,000	1,050,000	335,000
Early retirement	60,425	0	60,425	0	0
Compensated absences	146,952	158,992	146,952	158,992	158,992
Total	\$ 7,602,377	158,992	957,377	6,803,992	943,992

G.O. Bonds Payable

During the year ended June 30, 1998, the District sold General Obligation Bonds in the value of \$5,500,000 to provide funds for the construction of major capital facilities. During the year ended June 30, 1999, the District sold General Obligation Bonds in the value of \$3,130,000. G.O. Bonds are paid from the Debt Service Fund funded by Local Option Sales and Services Tax. Details of the District's June 30, 2007 indebtedness for general obligation bonds is as follows:

Year Ending June 30,	Issue dated April 1, 1998			Issue dated December 3, 1998			Total	
	Interest Rates	Principal	Interest	Interest Rates	Principal	Interest	Principal	Interest
2008	4.70 %	\$ 280,000	166,335	4.375 %	\$ 170,000	91,438	450,000	257,773
2009	4.70	295,000	153,175	4.375	175,000	84,000	470,000	237,175
2010	4.70	305,000	139,310	4.375	190,000	76,344	495,000	215,654
2011	4.70	320,000	124,975	4.375	200,000	68,031	520,000	193,006
2012	4.70	340,000	109,935	4.375	200,000	59,281	540,000	169,216
2013-17	4.75-4.80	1,965,000	291,767	4.375	1,155,000	155,969	3,120,000	447,736
Total		\$ 3,505,000	985,497		\$ 2,090,000	535,063	5,595,000	1,520,560

The June 30, 2007 debt issued by the District did not exceed its legal debt margin computed as follows:

Total assessed valuation	<u>\$ 717,347,674</u>
Debt limit, 5% of total assessed valuation	\$ 35,867,384
Amount of debt applicable to debt limit, total general obligation bonded debt	<u>6,645,000</u>
Excess of debt limit over bonded debt outstanding, legal debt margin	<u>\$ 29,222,384</u>

Revenue Bonds Payable

During the year ended June 30, 2001, the District sold Sales and Services Tax Revenue Bonds in the value of \$2,500,000 to provide funds for the construction of major capital facilities. Repayment of these Bonds will be made by collection of local option sales and services tax. Revenue Bonds are paid from the Debt Service Fund funded by Local Option Sales and Services Tax. Details of the District's June 30, 2007 indebtedness for revenue bonds are as follows:

Year Ending June 30,	Issue dated May 1, 2001			
	Interest Rates	Principal	Interest	Total
2008	4.50 %	\$ 335,000	40,625	375,625
2009	4.50	350,000	25,213	375,213
2010	4.75	365,000	8,669	373,669
Total		\$ 1,050,000	74,507	1,124,507

Note 9. Risk Management

The District has a self-funded health insurance plan, reported as an internal service fund. The District purchases commercial insurance to provide for aggregate stop-loss coverage for the excess of 125% of estimated claims for the plan year and specific stop-loss reinsurance coverage for the excess \$65,000 in insured claims for any one covered individual. Settled claims have not exceeded the commercial coverage in any of the past three calendar plan years.

Payments are made to the plan based on actuarial estimates of amounts needed to pay prior and current year claims and to establish a reserve for catastrophic losses. That reserve was \$1,386,678 at March 31, 2007, the last date for which information is available. The incurred but not recorded and unpaid claims liability of \$420,349 reported in the plan at March 31, 2007, is based on the requirements of GASB Statement Number 10, which requires that a liability for claims be reported. At June 30, 2007, the unpaid claims liability of \$420,349 is not reflected in the financial statements due to run out on claims. This is due to the March 31 year end. Current unpaid claims are reflected in the financial statements as accounts payable.

The change in the incurred but not reported and unpaid claims liability for the two years ended June 30, 2007 and 2006 is as follows:

	2007	2006
Balance beginning of year	\$ 189,025	\$ 238,941
Incurred claims and claim adjustments	3,861,573	3,270,178
Payment of claims	3,918,277	3,320,094
Balance end of year	\$ 132,321	\$ 189,025

In addition, the District is exposed to various risks of loss related to torts, theft, damage to and destruction of assets, errors and omissions, injuries to employees, and natural disasters. These risks are covered by the purchase of commercial insurance. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past four fiscal years.

Note 10. Pension and Retirement Benefits

North Scott Community School District contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by State statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 3.70% of their annual salary and the District is required to contribute 5.75% of annual covered payroll for the years ended June 30, 2007, 2006 and 2005. Contribution requirements are established by State statute. The District's contribution to IPERS for the years ended June 30, 2007, 2006 and 2005 were \$877,106, \$846,963 and \$830,797 respectively, equal to the required contributions for each year. The District is a participating employer in the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer public employees retirement system designed as a supplement to Social Security.

Note 11. Due from Other Governments

Amount due from other governments by fund as of June 30, 2007 are as follows:

	General Fund	Capital Projects Fund	Physical Plant and Equipment Levy Fund	Management Fund	Total

SEE ACCOMPANYING INDEPENDENT AUDITOR'S REPORT.

**NORTH SCOTT COMMUNITY SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – BUDGETARY REPORTING
YEAR ENDED JUNE 30, 2007**

This budgetary comparison is presented as Required Supplementary Information in accordance with Government Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis. Encumbrances are not recognized on the GAAP basis budget and appropriations lapse at year end.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functional areas, not by fund or fund type. These four functional areas are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents functional area expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not at the fund or fund type level. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula.

During the year ended June 30, 2007, expenditures in the instruction and non-instructional programs functional areas exceeded the amounts budgeted.

Source: Scott County Auditor's Office

Note:

* Includes levies for operating and debt service costs.

The District has certain restrictions on raising the property tax rate.

General Fund

The District's enrollment as well as district property value and state aid is formula calculated to determine the maximum amount of allowable funding.

This maximum amount is applied to the property tax value to determine the maximum levy for the General Fund.

Special Revenue Funds

The Special Revenue Fund, PPEL has a restriction from voters of \$1.00 and board imposed levy up to \$0.33.

**DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT,
AS OF JUNE 30, 2007**

<u>Governmental Unit</u>	<u>Debt Outstanding</u>	<u>Estimated Percentage Applicable*</u>	<u>Estimated Share of Direct and Overlapping Debt</u>
Scott County	\$ 9,615,000	11.89 %	\$ 1,143,078
Eastern Iowa Community College	49,700,000	7.02	3,486,674
City of Bettendorf	55,835,000	0.16	86,675
City of Davenport	138,845,000	3.15	4,369,613
City of Eldridge	1,716,830	100.00	1,716,830
City of Princeton	115,837	100.00	115,837
Subtotal, overlapping debt			10,918,707
District direct debt			6,803,992
Total direct and overlapping debt			\$ 17,722,699

Source: Scott County Auditor.

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This statistical page estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and business should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

* The percentage of overlapping debt applicable is estimated using taxable property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the District's boundaries and dividing it by each unit's total taxable value. (Calculated by dividing the amount of the value applicable to the North Scott School District by the total value for that taxing authority; 2006 assessed values are used.)

**NORTH SCOTT COMMUNITY SCHOOL DISTRICT
MISCELLANEOUS DEMOGRAPHIC STATISTICS**

The North Scott Community School District was incorporated in 1956, and includes portions of Winfield, Butler, Sheridan, Princeton, Lincoln, Allens Grove and Hickory Grove townships, in the County of Scott, in the State of Iowa. The District encompasses an area of 220 square miles. Included in the District are the towns of Dixon, Maysville, Donahue, Long Grove, Eldridge, McCausland and Princeton and the unincorporated communities of Mt. Joy and Park View. The District office is located at 251 East Iowa Street, Eldridge, Iowa.

The District owns and operates seven schools plus an administration building, vehicle maintenance facility, district copy center and maintenance complex. The following data provides the grade levels housed in each building.

Schools	<u>06-07</u>	<u>05-06</u>	<u>04-05</u>	<u>03-04</u>	<u>02-03</u>	<u>01-02</u>	<u>00-01</u>	<u>99-00</u>	<u>98-99</u>	<u>97-98</u>

SCHOOLS:

North Scott High School, located in Eldridge, was opened in the fall of 1958. Major additions to this building were completed in 1980, 1982, and 2000 that included an 800-seat performing arts auditorium, six fully equipped science classrooms and a modernized and expanded vocal and instrumental music complex. Major interior renovation and enlargement of the girls' locker room was completed in October, 2006, as well as the replacement of the original gymnasium floor. The North Scott Junior High School, for grades seven and eight, was completed for occupancy January 3, 1976. Major interior remodeling was completed in 1991 and 2000 that included two fully equipped science classroom and a full sized gymnasium.

The John Glenn Elementary School at Donahue, the Virgil Grissom Elementary School at Princeton, the Alan Shepard Elementary School at Long Grove and the Edward White Elementary school at Eldridge were opened in 1967. These buildings replaced 32 buildings which were mostly one-room, rural schools. Major additions to these elementary buildings were finished in 1967, 1969, 1971, 1993 and 2000. The Neil Armstrong Elementary School at Park View was opened on August 30, 1976 with a major addition completed in 2000. A major interior renovation project was complete in two phases. The district started on a playground safety program, replacing existing playground equipment and adding rubber tile fall protection surfaces at four of the district's elementary buildings.

A major sports complex was completed in the fall of 2002, which includes 12 lighted tennis courts and a lighted soccer complex.

STAFF AND CURRICULUM

The North Scott Schools take pride in their excellent workforce. The seven buildings and central office are staffed by 13 administrators, 225.17 FTE teaching staff, and 171.79 FTE support staff. The teaching staff includes classroom teachers, media specialists, nurses, and teacher specialists in the areas of reading, art, music, physical education, and guidance. The support staff of teacher aides, secretarial and clerical staff, bus drivers and mechanics, custodial/maintenance, day care, food service, print shop, and grounds staff all contribute to creating a positive, safe learning environment for students.

Following are listed a variety of activities that were directed and/or coordinated by the Superintendent for the continuous improvement of the learning experiences and environment provided to students and staff:

- All teachers and administrators are involved in grade level and content area meetings to align curriculum, assessment, and instruction.

- **The district continues to implement school improvement activities as part of the North Scott Comprehensive School Improvement Plan.**
- **The district has identified long-range goals and annual improvement goals with specific action plans to meet the identified needs of students and staff within the district.**
- **The district employs reading specialists who provide academic support in reading for students in grades K-3, 4-6, and 7-8.**
- **A state endorsed, research based reading program “Second Chance Reading” is provided for students in need of reading assistance at the junior high and high school.**
- **Numerous curriculum projects were written during the summer. Reports are made regularly during the school year to the Board of Directors.**
- **The district has a Curriculum Cabinet, which meets twice a month to discuss issues directly related to curriculum and student instruction and assessment. Members of the Cabinet include the Superintendent, the Curriculum Director, the high school principal, the junior high principal, an elementary principal, and two members of the Board of Directors. Minutes of the Curriculum Cabinet are provided to the entire staff after each meeting as well as reports made at each School Board meeting.**
- **Each building annually identifies building improvement goals based upon student data. Action plans are developed at the building level to make improvements at the site level.**
- **Parent/teacher conferences are held in grades kindergarten through twelve twice a year with a high parent participation rate. The junior high conducts student led conferences.**
- **The district provides a well-articulated K-12 counseling program to address the increasing needs of students. All elementary buildings have full time guidance personnel.**
- **The district continues to provide regular professional development opportunities to all staff in the areas of reading, math, science, utilization of technology, and meeting the needs of diverse learners. In 2006-07, emphasis was placed on differentiated instruction and presented through the use of a building literacy coaches model.**
- **Graduate level professional development courses are made available to teaching staff annually to support their professional development and licensure renewal.**
- **The district has developed a five-year building and grounds maintenance plan to ensure facilities that enhance educational opportunities for students and provide for a safe learning environment.**
- **A full-time computer teacher and two computer technicians were employed by the district to assist in the integration of technology in all classrooms. 100% of the district’s classrooms are connected to the Internet. All staff members have e-mail addresses. There are more than 1,200 computers across the district. The district maintains a web page.**
- **The Central Office and administrative staff use a web-based personnel software system for hiring new staff.**
- **The district employs a full time curriculum director to coordinate the K-12 curriculum, instruction, assessment, and school improvement initiatives.**
- **The district has an active mentoring program for beginning teachers. “Partners in Professionalism” provides each beginning teacher with a trained mentor teacher for a two-year period.**
- **An increased number of Advanced Placement, Honors, and dual-credit classes have been offered at the high school.**

- Through a Smaller Learning Communities federal grant, the high school implemented a freshman house structure to assist students making the transition from junior high to high school.
- Both the junior high and high school provide a student advisory time each school day.
- The district held Community Forums to offer stakeholders an opportunity to provide input on district initiatives and activities.

POPULATION:

The population of the North Scott Community School District is estimated at approximately 13,372. The school enrollment in October, 2006 was 3001.1 students - 1058 senior high students, 462 junior high students, 1541 elementary students and another 8 students who are tuitioned into other districts for special education or other regular programs. Less than 5% of the school parents earn their livelihood from farming. The remaining 95% live in towns or housing developments within the District. The largest industry within the District is John Deere.

A fleet of 38 buses is owned by the District to serve its transportation needs. A total of 33 regular bus routes operate daily with 5 activity routes operating in the evening. The District also has 10 special education routes operating daily.

Student lunches are prepared at two central locations, North Scott High School and North Scott Junior High, and number approximately 409,874 annually.

The North Scott Board of Education meets on the second and fourth Monday of each month, and complete minutes are published in the North Scott Press.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters

**Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards**

**To the Board of Education of
North Scott Community School District**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of North Scott Community School District as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued our report thereon dated December 7, 2007. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered North Scott Community School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing our opinion on the effectiveness of North Scott Community School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of North Scott Community School District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies and other deficiencies we consider to be material weaknesses.

A control deficiency exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects North Scott Community School District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with U.S. generally accepted accounting principles such that there is more than a remote likelihood a misstatement of North Scott Community School District's financial statements that is more than inconsequential will not be prevented or detected by North Scott Community School District's internal control. We consider the deficiencies in internal control described in Part II of the accompanying Schedule of Findings and Questioned Costs to be significant deficiencies in internal control over financial reporting.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether North Scott Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards.

North Scott Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. While we have expressed our conclusions on the District's responses, we did not audit North Scott Community School District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of North Scott Community School District and other parties to whom North Scott Community School District may report. This report is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of the North Scott Community School District during the course of our audit.

Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Program and Internal Control over Compliance in Accordance with OMB Circular A-133

To the Board of Education of
North Scott Community School District

Compliance

We have audited the compliance of the North Scott Community School District with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2007. The North Scott Community School District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grant agreements applicable to each of its major federal programs is the responsibility of the North Scott Community School District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2007.

Internal Control Over Compliance

The management of North Scott Community School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grant agreements applicable to federal programs. In planning and performing our audit, we considered North Scott Community School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of North Scott Community School District's internal control over compliance.

North Scott Community School District's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. While we expressed our conclusions on the District's responses, we did not audit North Scott Community School District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of North Scott Community School District and other parties to whom North Scott Community School District may report including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

NOLTE, CORNMAN & JOHNSON, P.C.

December 7, 2007

**NORTH SCOTT COMMUNITY SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2007**

Part I: Summary of the Independent Auditor's Results

- (a) An unqualified opinion was issued on the financial statements.
- (b) Significant deficiencies in internal control over financial reporting were disclosed by the audit of the financial statements.
- (c) The audit did not disclose any noncompliance which is material to the financial statements.
- (d) No significant deficiencies in internal control over major programs were disclosed by the audit of the financial statements.
- (e) An unqualified opinion was issued on compliance with requirements applicable to each major program.
- (f) The audit did not disclose any audit findings which were required to be reported in accordance with Office of Management and Budget Circular A-133, Section .510(a).
- (g) Major programs were as follows:
 - Clustered Programs:
 - CFDA Number 10.553 - School Breakfast Program
 - CFDA Number 10.555 - National School Lunch Program
- (h) The dollar threshold used to distinguish between Type A and Type B programs was \$300,000.
- (i) North Scott Community School District qualified as a low-risk auditee.

NORTH SCOTT COMMUNITY SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2007

Part II: Findings Related to the Basic Financial Statements:

INSTANCES OF NON-COMPLIANCE:

No matters were reported.

SIGNIFICANT DEFICIENCIES:

II-A-07 Inventory Controls in Place - The District has procedures in place for inventory controls for maintenance supplies and warehouse supplies. The maintenance supplies include cleaning and general building supplies. The warehouse supplies include paper, pencils, markers, chalk and other teaching supply items. The District has on-line or e-mail forms for requesting supplies from the warehouse. These items are shipped to the building by a courier van normally the next day.

We noted during inventory counts that the buildings appeared to be stockpiling supplies. In addition, we noted that the procedure of electronically requesting an item is not always used. At times, individuals will stop by the warehouse and pick up supplies, rather than filling in request forms. This does not provide for controls on assets.

Recommendation - The District should review the procedures with personnel. If the procedures need to be modified for practical application, the District should consider making the necessary changes. The stockpiling of supplies is not necessary if the warehouse can deliver in a one day turnaround. The excess of supplies at the buildings may, if not used timely, become old and may not have the shelf life until used.

Response - The District will review the procedures with all personnel.

Conclusion - Response accepted.

II-B-07 Student Activity Fund - During our audit we questioned the properness of certain accounts or certain receipts and expenditures collected/paid from the Student Activity Fund. Inappropriate expenditures would include any expenditure more appropriate to other funds. The student activity fund shall not be used as a clearing account for any other fund. Moneys in this fund shall be used to support only the cocurricular program defined in department of education administrative rules (298A.8). A more specific example of these instances is as follows:

Book fairs which are used as fundraisers for library books are recorded in the Student Activity accounts. The library books should not be purchased from the Student Activity Funds.

We also noted during our audit that the Student Activity Fund was purchasing gift cards. According to the Uniform Accounting Manual from the Department of Education, no funds from a student organization may be distributed to individual students. Incentives such as gift cards should not be given to the students.

We also noted during our audit that the Student Activity Fund wrote a check to a coach for meals for students attending a State event. The coach then gave the students cash.

Recommendation - The purpose of the Student Activity Fund is to account for financial transactions related to the cocurricular and extracurricular activities

offered as a part of the education program for the students established under Iowa Administrative Code 281-12.6(1). The District should review the propriety of receipts and expenditures that are recorded in the Student Activity Fund. Fundraisers to purchase library books should be recorded in the General Fund. Gift cards should not be given to students as incentives. The District should review procedures in place for attending State events. Procedures should include the students signing for the cash received and turning in unspent cash to the District office for deposit.

Response - The District will accept the auditor recommendation and make the necessary changes.

Conclusion - Response accepted.

II-C-07 Internal Controls with Regard to Sponsors - We noted during our audit that receipting procedures by sponsors did not appear to comply with the District's procedure handbook. The sponsors may collect money, however, do not appear to be timely turning in the collected money to the office for deposit. In addition, we noted that the FFA student activity group sold nursery plants which were grown in an instructional class, and the proceeds were deposited into an FFA booster club account rather than district accounts.

Recommendation - The Uniform Administrative Procedures for Iowa School Officials manual states, "In Iowa, all funds collected through school activities are under the financial control of the school board. Prudent and proper accounting of all receipts and expenditures in these accounts is, therefore, the responsibility of the board, and therefore, the board secretary and board treasurer." The proceeds received for items produced as a result of an instructional class should be placed in the General Fund. The District should review procedures for school activities, to ensure that the revenues are being accounted for in an appropriate account within the District. Under no circumstances, would it be appropriate for a District to place revenues into a separate organization or club.

Although currently there is a handbook which identifies the procedures to be followed, there appears to be a breakdown in controls. The board of directors should identify a plan to communicate the policies and procedures to sponsors, and the expectation of compliance with the District established policies.

Response - The District will accept the auditor recommendation and make the necessary changes.

Conclusion - Response accepted.

**NORTH SCOTT COMMUNITY SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2007**

Part III: Findings and Questioned Costs For Federal Awards:

INSTANCES OF NON-COMPLIANCE:

No matters were reported.

SIGNIFICANT DEFICIENCIES:

No matters were reported.

NORTH SCOTT COMMUNITY SCHOOL DISTRICT
 SCHEDULE OF FINDINGS AND QUESTIONED COSTS
 YEAR ENDED JUNE 30, 2007

Part IV: Other Findings Related to Required Statutory Reporting

IV-A-07 Certified Budget - District expenditures for the year ended June 30, 2007 exceeded the amount budgeted in the instructional and non-instructional programs functional areas.

Recommendation - The budget should have been amended in accordance with Chapter 24.9 of the Code of Iowa before expenditures were allowed to exceed the budget.

Response - We will amend the budget if necessary in the future.

Conclusion - Response accepted.

IV-B-07 Questionable Disbursements - We noted no disbursements that may not meet the requirements for public purpose as defined in an Attorney General's opinion dated April 25, 1979.

IV-C-07 Travel Expense - No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

IV-D-07 Business Transactions - Business transactions between the District and District officials or employees are detailed as follows:

<u>Name, Title, and Business Connection</u>	<u>Transaction Description</u>	<u>Amount</u>
Judy Kietzman, Teacher Spouse of Bill Kietzman	Official	\$ 838
Christie Liske, Aide Spouse of Matt Liske	Official	904
Christie Liske, Aide Mother of Kyle Liske	Official	35
Paul Claeys, Bus Driver Owner of P&S Enterprises	Supplies	1,340
Paula McPherson, Teacher Spouse of owner of Iowa-Illinois Office Supply	Supplies	4,176
Sherri Marceau, Principal Spouse of owner of Marceau Piano Service	Repairs	350

In accordance with the Attorney General's opinion dated November 9, 1976, the above transactions with the spouse of Judy Kietzman, spouse of Christie Liske, son of Christie Liske, spouse of Paula McPherson and spouse of Sherri Marceau do not appear to represent a conflict of interest.

In accordance with the Attorney General's opinion dated July 2, 1990, the above transactions with Paul Claeys do not appear to represent a conflict of interest.

IV-E-07 Bond Coverage - Surety bond coverage of district officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.

IV-F-07 Board Minutes - We noted no transactions requiring Board approval which have not been approved by the Board.

IV-G-07 Certified Enrollment - We noted no variances in the basic enrollment data certified to the Department of Education.

IV-H-07 Deposits and Investments - We noted no instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the district's investment policy.

IV-I-07 Certified Annual Report - The Certified Annual Report was filed with the Department of Education timely, and we noted no significant deficiencies in the amounts reported.
