Independent Auditor's Report

To the Board of Education of
Wall Lake View Auburn Community School District:

We have audited the accompanying financial statements of the governmental activities, the business type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of Wall Lake View Auburn Community School District, Lake View, Iowa, as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of District officials. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of Wall Lake View Auburn Community School District at June 30, 2007, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued our report dated March 14, 2008, on our consideration of Wall Lake View Auburn Community School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contract and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Management's Discussion and Analysis and budgetary comparison information on pages 4 through 9 and 32 through 33 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. We did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Wall Lake View Auburn Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the three years ended June 30, 2006, (which are not presented herein) and expressed unqualified opinions on those financial statements. Other supplementary information included in Schedules 1 through 4 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Wall Lake View Auburn Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2007. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2007 FINANCIAL HIGHLIGHTS

- General Fund revenues decreased from \$4,486,033 in fiscal 2006 to \$4,475,999 in fiscal 2007, while General Fund expenditures increased from \$4,394,625 in fiscal 2006 to \$4,595,311 in fiscal 2007. The District's General Fund balance decreased from \$803,609 in fiscal 2006 to \$684,297 in fiscal 2007, a 15% decrease.
- The increase in expenditures was due primarily to an increase in the negotiated salary and benefits. The two primary reasons the General Fund balance decreased were: 1) negotiated salary and benefits increases, and 2) General Fund revenue for fiscal 2007 was slightly less than 2006. As a result, the District funded a portion of the current year General Fund salaries and benefits from the carryover fund balance.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Assets and a Statement of Activities. These provide information about the activities of Wall Lake View Auburn Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Wall Lake View Auburn Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Wall Lake View Auburn Community School District acts solely as an agent or custodian for the benefit of those outside of District government.

Notes to financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year.

Other Supplementary Information provides detailed information about the nonmajor funds.

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net assets and how they have changed. Net assets – the difference between the District's assets and liabilities – are one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net assets are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business type activities:* The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show that it is properly using certain revenues, such as federal grants.

The District has three kinds of funds:

- 1) *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, Special Revenue Funds, Debt Service Fund and Capital Projects Fund.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

- 2) *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, one type of proprietary fund, are the same as its business type activities, but provide more detail and additional information, such as cash flows. The District currently has one Enterprise Fund, the School Nutrition Fund.

The required financial statements for proprietary funds include a statement of net assets, a statement of revenues, expenses and changes in fund net assets and a statement of cash flows.

3) *Fiduciary funds*: The District is the trustee, or fiduciary, for assets that belong to others. These funds include Private-Purpose Trust and Agency Funds.

- Private-Purpose Trust Fund – The District accounts for outside donations for scholarships for individual students in this fund.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds include a statement of fiduciary net assets and a statement of changes in fiduciary net assets.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Figure A-3 below provides a summary of the District’s net assets at June 30, 2007 compared to June 30, 2006.

Figure A-3

	Condensed Statement of Net Assets						Percentage Change 2006-2007
	Governmental Activities		Business-type Activities		Total School District		
	2007	2006	2007	2006	2007	2006	
	\$	\$	\$	\$	\$	\$	
Current and other assets	4,612,235	3,599,916	25,006	42,811	4,637,241	3,642,727	27%
Capital assets	1,149,961	818,589	95,378	55,892	1,245,339	874,481	42%
Total assets	5,762,196	4,418,505	120,384	98,703	5,882,580	4,517,208	29%
Long-term liabilities	0	0	0	0	0	0	0%
Other liabilities	3,114,440	2,018,908	1,680	2,036	3,116,120	2,020,738	54%
Total liabilities	3,114,440	2,018,918	1,680	2,036	3,116,120	2,020,738	54%
Net Assets:							
Invested in capital assets, net of related debt	1,149,961	818,589	95,378	55,892	1,245,339	874,481	42%
Restricted	803,137	762,658	0	0	803,137	762,658	5%
Unrestricted	694,658	818,556	23,326	40,775	717,984	859,331	(16%)
TOTAL NET ASSETS	2,647,756	2,399,803	118,704	96,667	2,766,460	2,496,470	11%

The Districts total liabilities increased to \$3,116,120 from \$2,020,738 representing a 54% increase. This increase is primarily due to the District’s participation in the ISCAP program. In fiscal year 2005 total liabilities were \$3,149,760. For the two year period from 2005 to 2007 total liabilities decreased \$33,640 or 1%.

The District’s combined net assets increased by 11%, or approximately \$270,000, over the prior year. The largest portion of the District’s net assets is the invested in capital assets (e.g., land, infrastructure, buildings and equipment), less the related debt. The debt related to the investment in capital assets is liquidated with sources other than capital assets.

Restricted net assets represent resources that are subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District’s restricted net assets remained relatively equal to the prior year.

Unrestricted net assets – the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements – decreased approximately \$141,000, or 16%. This reduction in unrestricted net assets was a result of the District using carryover fund balance to meet its financial obligations during the year.

Figure A-4 shows the change in net assets for the years ended June 30, 2007 and 2006.

Figure A-4

	Change in Net Assets						Percentage Change 2006-2007

Net assets beginning of year	2,399,803	2,086,918	96,667	86,335	2,496,470	2,173,253	
Net assets end of year	2,647,756	2,399,803	118,704	96,667	2,766,460	2,496,470	11%

Property tax and unrestricted state grants account for 67% of the total revenue. The District's expenses primarily relate to instruction and support services, which account for 91% of the total expenses.

Governmental Activities

Revenues for governmental activities were \$5,202,655 and expenses were \$4,931,312. The District was able to increase net assets by approximately \$250,000.

- The cost financed by users of the District's programs was \$447,926. Most of these revenues are derived from tuition charged to other school districts and from student activities.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$614,311.

- The net cost of governmental activities was financed with \$1,762,596 in property and local other taxes and \$1,908,952 in unrestricted state grants.

Revenues and expenses were both slightly increased from 2006; but, revenues continued to exceed expenses.

Business Type Activities

Revenues for business type activities were \$250,432 and expenses were \$251,785. The District's business type activities include the School Nutrition Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income.

The School Nutrition Fund showed very little change from last year, although expenses did exceed revenues by \$1,353.

INDIVIDUAL FUND ANALYSIS

As previously noted, Wall Lake View Auburn Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported a combined fund balance of \$1,417,073, slightly below last year's ending fund balances of \$1,501,214. The primary reason for the decrease in combined fund balance is a negative net change in the General Fund as previously discussed.

Governmental Fund Highlights

- The District's deteriorating General Fund financial position is the result of several factors. Revenues showed a slight decrease from last year while expenses for both instruction and support services increased, requiring the District to use carryover fund balance to meet its financial obligations during the year.
- The General Fund balance decreased from \$803,609 to \$684,297.
- The Capital Projects Fund balance increased from a balance of \$387,428 in fiscal 2006 to \$420,300 in fiscal 2007. This increase was less than that year's prior due to expenses of \$300,070 for the AgSci Building now under construction.

Proprietary Fund Highlights

School Nutrition Fund net assets increased slightly from \$96,667 at June 30, 2006 to \$118,704 at June 30, 2007, representing an increase of approximately 23%.

BUDGETARY HIGHLIGHTS

Total expenditures were less than budgeted, due primarily to the District's budget for the General Fund. It is the District's practice to budget expenditures at the maximum authorized spending authority for the General Fund. The District then manages or controls General Fund spending through its line-item budget. As a result, the District's certified budget should always exceed actual expenditures for the year.

In spite of the District's budgetary practice, the certified budget was exceeded in Other Expenditures functional area due to the timing of disbursements paid at year-end without sufficient time to amend the certified budget (new construction).

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2007, the District had invested \$1,245,339, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities and transportation equipment. (See Figure A-6) This represents a net increase of 42% from last year. More detailed information about the District's capital assets is presented in Note 4 to the financial statements. Depreciation expense for the year was \$113,330.

The largest change in capital asset activity during the year occurred in the construction in progress category. The District's construction in progress totaled \$293,782 at June 30, 2007, compared to \$0 reported at June 30, 2006. This significant increase resulted from construction activity financed by the capital projects fund. At year-end the District had committed approximately \$240,000 to complete the project.

Figure A-6

Capital Assets (net of depreciation)

TOTAL	1,149,961	818,589	95,378	55,892	1,245,339	874,481	42%

Long-Term Debt

At June 30, 2007, the District had no long-term debt.

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of the following circumstance that could significantly affect its financial health in the future:

- The District is experiencing declining enrollment for the past several years. School financing is highly dependent upon student enrollment. The declining enrollment will continue to effect the District's finances.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact John Kraft, District Secretary/Treasurer and Business Manager, Wall Lake View Auburn Community School District, 801 Jackson Street, PO Box 110, Lake View, Iowa, 51450.

Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances - Governmental Funds to the
Statement of Activities

Year ended June 30, 2007

	\$	\$
Net change in fund balances - total governmental funds (Exhibit E)		(84,141)

*Amounts reported for governmental activities in the
Statement of Activities are different because:*

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are not reported in the Statement of Activities and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. Capital outlay expenditures exceeded loss on disposal of capital assets and depreciation expense in the current year, as follows:

Expenditures for capital assets	434,440	
Depreciation expense	<u>(103,068)</u>	331,372

Income surtaxes not collected for several months after the District's fiscal year ends are not considered "available" revenues in the governmental funds and are included as deferred revenues. They are, however, recorded as revenues in the statement of activities.

WALL LAKE VIEW AUBURN COMMUNITY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2007

1. Summary of Significant Accounting Policies

Board of Education of Wall Lake View Auburn Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve. The geographic area served includes the Cities of Wall Lake, Lake View and Auburn, Iowa and the predominately agricultural territory in a portion of Sac, Carroll and Crawford Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Wall Lake View Auburn Community School District has included all funds, organizations, agencies, boards, commissions, and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. The Wall Lake View Auburn Community School Foundation has been included in these financial statements as a discretely presented component unit because of the nature and significance of its relationship with the Wall Lake View Auburn Community School District.

The Wall Lake View Auburn School Foundation is a separate legal entity that was established to actively solicit and receive donations, gifts and grants for scholarships, the enhancement of technology and other enrichment to the programs for Wall Lake View Auburn Community students or other programs sponsored by the Board of Directors of Wall Lake View Auburn Community School District.

Jointly Governed Organizations - The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the County Assessor's Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Assets and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Assets presents the District's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets not meeting the definition of the two preceding categories. Unrestricted net assets often have constraints on resources imposed by management, which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions, and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements – Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instruction, support and other costs.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities.

The District's proprietary fund is the Enterprise, School Nutrition Fund. This fund is used to account for the food service operations of the District.

The District also reports fiduciary funds, which focus on net assets and changes in net assets. The District's fiduciary funds include the following:

The Private-Purpose Trust Fund is used to account for assets held by the District under trust agreements, which require income earned to be used to benefit individuals through scholarship awards.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when

they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants, and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgements, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

The proprietary fund of the District applies all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit, which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash, and at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable – Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied. Property tax revenue recognized in these funds became due and collectible in September and March of the fiscal year with a 1 ½% per month penalty for delinquent payments; is based on January 1, 2005 assessed property valuations; is for the tax accrual period July 1, 2006, through June 30, 2007, and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2006.

Due from Other Governments - Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants, and reimbursements from other governments.

Inventories - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets – Capital assets, which include property, furniture and equipment are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

<u>Asset Class</u>	<u>Amount</u>
	\$
Land	-
Buildings	2,500
Improvements other than buildings	2,500
Furniture and equipment:	
School Nutrition Fund equipment	500
Other furniture and equipment	2,500

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Life</u>
Buildings	50 years
Improvements other than buildings	20 years
Furniture and equipment	5-15 years

The District's collection of library books and other similar materials are not capitalized. These collections are unencumbered, held for public exhibition and education, protected, cared for and preserved and subject to District policy that requires proceeds from the sale of these items, if any, to be used to acquire other collection items.

Salaries and Benefits Payable – Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Deferred Revenue – Although certain revenues are measurable, they are not available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue consists of unspent grant proceeds, as well as property tax receivable and other receivables not collected within sixty days after year end.

Deferred revenue in the Statement of Net Assets consists of unspent grant proceeds, amounts received in advance for meal sales and succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

Compensated Absences - District employees accumulate a limited amount of earned but unused vacation and sick leave hours for subsequent use. Employees are not paid for unused vacation and sick leave benefits when employment with the District ends.

Long-term Liabilities – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Assets. The District did not have any long-term liabilities at June 30, 2007.

Fund Equity – In the governmental fund financial statements, reservations of fund balance are reported for amounts not available for appropriation or legally restricted by outside parties for use for a specific purpose.

Restricted Net Assets – In the government-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or are imposed by law through constitutional provisions or enabling legislation.

E. Budgeting and Budgetary Control

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2007, expenditures in the other expenditures function exceeded the amount budgeted.

2. **Cash and Pooled Investments**

The District's deposits in banks at June 30, 2007 were entirely covered by federal depository insurance, or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

The District had no investments meeting the disclosure requirements of Governmental Accounting Standards Board Statement No. 3 as amended by Statement No. 40.

3. Iowa School Cash Anticipation Program (ISCAP)

The District participates in the Iowa School Cash Anticipation Program (ISCAP). ISCAP is a program of the Iowa Association of School Boards and is designed to provide funds to participating entities during periods of cash deficits. ISCAP is funded by a semiannual issuance of anticipatory warrants, which mature as noted below. The warrant sizing of each school corporation is based on a projection of cash flow needs during the semiannual period. ISCAP accounts are maintained for each participating entity, and monthly statements are provided regarding their cash balance, interest earnings and amounts available for withdrawal for each outstanding series of warrants. Bankers Trust Co. N.A. is the trustee for the program. A summary of the District's participation in ISCAP as of June 30, 2007 is as follows:

Series	Warrant Date	Final Warrant Maturity	Investments	Accrued Interest Receivable	Warrants Payable	Accrued Interest Payable
			\$	\$	\$	\$
2007-08A	6/27/07	6/27/08	641,984	288	643,000	322

The District pledges its state foundation aid payments and General Fund receipts as security for warrants issued. Repayments must be made when General Fund receipts are received. If a balance is outstanding on the last date the funds are available to be drawn, then the District must repay the outstanding withdrawal from its General Fund receipts. In addition, the District must make minimum warrant repayments on the 25th of each month immediately following the final date that the warrant proceeds may be used in an amount equal to 25% of the warrant amount. ISCAP advance activity in the General Fund for the year ended June 30, 2007, is as follows:

Balance Beginning of Year	Advances Received	Advances Repaid	Balance End of Year
\$	\$	\$	\$
-	-	-	-

The warrants bear an interest rate and the available proceeds of the warrants are invested at an interest rate as shown below:

Series	Interest Rates on Warrants	Interest Rates on Investments
	%	%
2007-08A	4.500	5.455

4. Capital Assets

Capital assets activity for the year ended June 30, 2007 was as follows:

	Balance Beginning of Year	Increases	Decreases	Balance End of Year
	\$	\$	\$	\$
Governmental activities:				
Capital assets not being depreciated:				
Construction in progress	-	293,782	-	293,782

5. Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 3.70% of their annual covered salary and the District is required to contribute 5.75% of annual covered payroll for the years ended June 30, 2007, 2006 and 2005. Contribution requirements are established by state statute. The District's contributions to IPERS for the years ended June 30, 2007, 2006, and 2005 were \$151,291, \$140,558, and \$130,145 respectively, equal to the required contributions for each year.

6. Risk Management

Wall Lake View Auburn Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

7. Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$173,769 for the year ended June 30, 2007 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

8. Related Party Transactions

Charles Brotherton, a board member, is a part owner of Lake View Lumber and Wall Lake Lumber. During the year ended June 30, 2007 Wall Lake View Auburn Community School District purchased approximately \$31,426 of building materials and supplies from these two businesses.

Lisa Drest, a board member, is part owner of Albrecht Oil. During fiscal year 2007 the District purchased \$20,172 of fuel from this business.

9. Construction Commitment

The District has entered into contracts totaling \$531,109 for an addition at the high school. At June 30, 2007 approximately \$293,782 of work on the project had been completed. The remaining amounts will be paid as work on the project progresses.

Notes to Required Supplementary Information - Budgetary Reporting

Year ended June 30, 2007

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standard Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Internal Service, Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. The District did not amend its budget during the year.

During the year ended June 30, 2007, expenditures in the other expenditures function exceeded the amount budgeted.

Independent Auditor's Report on Internal Control
over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards

To the Board of Education of
Wall Lake View Auburn Community School District:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of Wall Lake View Auburn Community School District as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued our report thereon dated March 14, 2008. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Wall Lake View Auburn Community School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing our opinion on the effectiveness of Wall Lake View Auburn Community School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Wall Lake View Auburn Community School District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies and other deficiencies we consider to be material weaknesses.

A control deficiency exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects Wall Lake View Auburn Community School District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with U.S. generally accepted accounting principles such that there is more than a remote likelihood a misstatement of Wall Lake View Auburn Community School District's financial statements that is more than inconsequential will not be prevented or detected by Wall Lake View Auburn Community School District's internal control. We consider the deficiencies in internal control described in Part I of the accompanying Schedule of Findings and Responses to be significant deficiencies in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies that results in more than a remote likelihood a material misstatement of the financial statements will not be prevented or detected by Wall Lake View Auburn Community School District's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, of the significant deficiencies described above, we believe items 07-I-A, 07-I-B, 07-I-C and 07-I-D are material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Wall Lake View Auburn Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part II of the accompanying Schedule of Findings and Responses.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2007 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Wall Lake View Auburn Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings and Responses. While we have expressed our conclusions on the District's responses, we did not audit Wall Lake View Auburn Community School District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Wall Lake View Auburn Community School District and other parties to whom Wall Lake View Auburn Community School District may report. This report is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Wall Lake View Auburn Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

BURTON E. TRACY & CO., P.C.
Certified Public Accountants

March 14, 2008

WALL LAKE VIEW AUBURN COMMUNITY SCHOOL DISTRICT

Schedule of Findings and Responses

Year ended June 30, 2007

Part I: Findings Related to the Financial Statements:

Significant deficiencies:

07-I-A Segregation of Duties: The limited number of personnel makes it difficult to achieve adequate internal accounting control through the segregation of duties and responsibilities, such as recording and processing cash receipts, preparing checks and bank reconciliations, preparing and posting general journal entries, preparation of journals and general financial information for ledger posting, and the analysis of financial information. A small staff makes it difficult to establish an ideal system of automatic internal checks on accounting record accuracy and reliability, although we noted the District had taken steps to segregate duties between the present personnel. This is not an unusual condition but it is important the District officials are aware that the condition exists.

Recommendation: We realize that with a limited number of office employees, segregation of duties is difficult. However, the District should review its control procedures and investigate methods to increase monitoring procedures to obtain the maximum internal control possible under the circumstances.

District Response: The District is aware of the lack of complete segregation of duties and will make changes as the opportunity arises.

Conclusion: Response accepted.

07-I-B Financial Reporting: During the audit, we identified material amounts of payables not recorded in the District's financial records and material amounts of federal grant revenue posted in the wrong fund. Adjustments were subsequently made by the District to properly include these amounts in the financial statements.

Recommendation: The District should implement procedures to ensure all payables are identified and included in the District's financial statements and to ensure that grant revenue is recorded in the correct fund.

District Response: We will double check these in the future to avoid any errors.

Conclusion: Response accepted.

07-I-C Financial Statement Preparation: Financial statement preparation is the responsibility of the District. At the present time District personnel do not have the skills necessary to be able to write the District's financial statements and the related note disclosures. This is not an unusual situation for small governmental entities.

Recommendation: District personnel should attend any governmental accounting and reporting training sessions that may be offered by the Iowa Department of Education, State Auditor's Office or Iowa Association of School Business Officials. The school business office should also have governmental accounting and reporting reference materials.

WALL LAKE VIEW AUBURN COMMUNITY SCHOOL DISTRICT

Schedule of Findings and Responses

Year ended June 30, 2007

Part I: Findings Related to the Financial Statements (continued):

District Response: As a school we certainly understand the need for continuing education classes for all of our staff. However, we have a limited budget and must continually prioritize needs. At this point in time it is not cost effective to train our staff to the level necessary that would enable them to write the financial statements, nor is it feasible to hire additional employees that already possess the skills.

Conclusion: Response accepted.

07-I-D

Signature Stamp: We noted that a stamp bearing the signature of the Board President is used to cosign checks. The stamp is under the care, custody, and control of the administrative office. This practice negates the internal control procedure established by requiring two signatures on a check.

Recommendation: We recommend that this practice cease. The Board may designate a person other than the Board president to cosign checks. If a signature stamp is used, it should remain under the control of the person whose name the stamp bears at all times.

District Response: We will discuss methods to limit access to the signature stamp.

Conclusion: Response accepted.

Instances of Noncompliance:

No matters were reported.

WALL LAKE VIEW AUBURN COMMUNITY SCHOOL DISTRICT

Schedule of Findings and Responses

Year ended June 30, 2007

Part II: Other Findings Related to Statutory Reporting:

07-II-A Certified Budget: Expenditures for the year ended June 30, 2007, exceeded the amount budgeted in the other expenditures function.

Recommendation: The certified budget should have been amended in accordance with Chapter 24.9 of the Code of Iowa before expenditures were allowed to exceed the budget.

District Response: Future budgets will be amended in sufficient amounts to ensure the certified budget is not exceeded.

Conclusion: Response accepted.

07-II-B Questionable Expenditures: We noted no expenditures that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.

07-II-C Travel Expenses: No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

07-II-D Business Transactions: Business transactions between the District and District officials or employees are detailed as follows:

<u>Name, Title and Business Connection</u>	<u>Transaction Description</u>	<u>Amount</u>
		\$
Chuck Brotherton, Board Member, part-owner of Lake View Lumber and Wall Lake Lumber	Supplies	31,426
Lisa Drest, Board Member, Part owner of Albrecht Oil	Fuel	20,172

The above transactions appear to be conflicts of interest. Business with district officials is a conflict of interest if bids are not taken or if the total amount exceeds \$2,500.

Recommendation: The District should consult legal council regarding this matter.

District Response: We will consult with our attorney.

Conclusion: Response accepted.

07-II-E Bond Coverage: Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of bond coverage should be reviewed annually to insure that the coverage is adequate for current operations.

07-II-F Board Minutes: We noted no expenditures requiring board approval that had not been approved.

WALL LAKE VIEW AUBURN COMMUNITY SCHOOL DISTRICT

Schedule of Findings and Responses

Year ended June 30, 2007

Part II: Other Findings Related to Statutory Reporting (continued):

07-II-G Certified Enrollment: The number of basic resident students reported to the Iowa Department of Education on Line 1 of the Certified Enrollment Certification Form for October 2006, was overstated by one student. The student count included one foreign exchange student.

Recommendation: The District should contact the Iowa Department of Education and the Department of Management to resolve this matter.

District Response: We will contact these departments.

Conclusion: Response accepted.

07-II-H Deposits and Investments: We noted no instances of noncompliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy.

07-II-I Certified Annual Report (CAR): The Certified Annual Report was certified timely to the Iowa Department of Education.

07-II-J Old Outstanding Checks: We noted that the District's bank reconciliations included approximately \$4,100 of old outstanding checks. Iowa Code Section 566 specifies that holders of unclaimed property, which includes outstanding checks, must file a report with and send the unclaimed property to the Treasurer of Iowa.

Recommendation: The District should investigate the status of all old outstanding checks. Checks that were issued in error or in duplicate should be voided and removed from the list of outstanding checks. The District should search for the owners of all other outstanding checks, then reissue new checks if the owners are found. If the owners can not be found, the District must file an unclaimed property report with and send the money to the Treasurer State of Iowa.

District Response: We will begin investigating the status of old outstanding checks and we will file an unclaimed property report with the Treasurer of Iowa if necessary.

Conclusion: Response accepted.

07-II-K Student Activity Fund and Nutrition Fund Expenditure Procedures: We noted that the board secretary and board president were not signing Student Activity Fund and Nutrition Fund checks. Iowa Code section 291.8 requires that the Board Secretary's original or facsimile signature appear on all checks. Iowa Code section 291.1 requires that the Board President's original or facsimile signature appear on all checks. Code section 291.1 also states that "The board of directors, by resolution, may designate an individual, who shall not be the secretary, to sign warrants on behalf of the president".

Recommendation: The District should revise its procedures for check signatures to comply with the above code sections.

District Response: We will review our current procedures.

Conclusion: Response accepted.

WALL LAKE VIEW AUBURN COMMUNITY SCHOOL DISTRICT

Schedule of Findings and Responses

Year ended June 30, 2007

Part II: Other Findings Related to Statutory Reporting (continued):

07-II-L Interest Rate on Certificates of Deposit: We noted one Student Activity Fund certificate of deposit that had an interest rate below the minimum rate set by the State of Iowa.

Recommendation: The District should contact the bank to get the rate adjusted.

District Response: We have already done this.

Conclusion: Response accepted.

07-II-M Public Hearing: The Code of Iowa requires that schools hold a public hearing for all capital improvements with a cost exceeding \$100,000. We noted that the Board approved a capital improvement without holding a public hearing.

Recommendation: The District should hold public hearings for all capital projects with cost in excess of \$100,000.

District Response: We will do this in the future.

Conclusion: Response accepted.

07-II-N Construction Contract Change Orders: We noted that the Board of Directors did not approve change orders.

Recommendation: All contract changes should be approved by the Board and documented in the minutes.

District Response: All future contract changes will be documented in the minutes.

Conclusion: Response accepted.
