Independent Auditors' Report

To the Members of the Board of Regents, State of Iowa
and Officials of the University of Northern Iowa

We have audited the accompanying statement of net assets, and the related statements of revenues, expenses and changes in fund net assets and cash flows, of the Academic Building Revenue Bond Funds, of the University of Northern Iowa, as of and for the year ended June 30, 2008, which collectively comprise the Bond Funds' basic financial statements listed in the table of contents. These financial statements are the responsibility of University officials. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the financial statements present only the Academic Building Revenue Bond Funds of the University of Northern Iowa and do not purport to, and do not, present fairly the financial position of the University of Northern Iowa as of June 30, 2008 and changes in its financial position and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Academic Building Revenue Bond Funds, of the University of Northern Iowa, as of June 30, 2008, and the changes in its financial position and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In connection with our audit, nothing came to our attention that caused us to believe that the University of Northern Iowa was not in compliance with the accounting requirements of the Board of Regents, State of Iowa Resolution for the issuance of the Academic Building Revenue Bonds, Series 1994 Refunding, 1994, 1996 Refunding, 2002 Refunding, 2003 Refunding, 2003A Refunding, 2005 Refunding, 2005, 2007, and 2008. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance.

The University of Northern Iowa has not presented Management's Discussion and Analysis for the Academic Building Revenue Bond Funds that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of, the basic financial statements.

This report, a public record by law, is intended solely for the information and use of the officials and employees of the University of Northern Iowa, the members of the Board of Regents, citizens of the State of Iowa and other parties to whom the University of Northern Iowa may report. This report is not intended to be and should not be used by anyone other than these specified parties.

ACADEMIC BUILDING REVENUE BOND FUNDS

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies

Reporting Entity

The Academic Building Revenue Bond Funds were created by resolution of the Board of Regents, State of Iowa which authorized the issuance of revenue bonds to be used for the construction, renovation and equipping of academic buildings, libraries, and administrative and service buildings on the campus of the University of Northern Iowa. The revenue bonds are issued on behalf of the University.

The financial statements of the Academic Building Revenue Bond Funds of the University of Northern Iowa (University) include only the financial position and operating activities of the Academic Building Revenue Bond Funds. These fund financial statements present only a portion of the funds of the University.

Basis of Presentation

Basic Financial Statements - The Statement of Net Assets, the Statement of Revenues, Expenses and Changes in Fund Net Assets and the Statement of Cash Flows report information on all of the activities of the Academic Building Revenue Bond Funds. For the most part, the effect of interfund activity has been removed from these statements.

The Statement of Net Assets presents assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories.

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets not meeting the definition of the two preceding categories. Unrestricted net assets often have constraints on resources imposed by management which can be removed or modified.

The Statement of Revenues, Expenses and Changes in Fund Net Assets demonstrates how net assets changed during the fiscal year.

The Statement of Cash Flows presents information related to cash inflows and outflows, summarized by operating, capital financing and investing activities.

Fund Financial Statements - In order to ensure the observance of limitations and restrictions placed on the use of resources available to the University, the accounts of the University are maintained in accordance with the principles of "fund accounting" under which resources for various projects are classified for accounting and reporting purposes into funds according to the activities or objectives specified.

UNIVERSITY OF NORTHERN IOWA
ACADEMIC BUILDING REVENUE BOND FUNDS

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies (continued)

The University's accounts and transactions include those related to the Academic Building Revenue Bonds issued by the University. These fund financial statements reflect only those accounts and transactions related to these bonds. These accounts and transactions are included as a portion of the University's Plant Funds. Plant Funds are used to account for the transactions relating to investment in University properties. Plant Funds include the following funds: (1) Retirement of Indebtedness, (2) Unexpended and (3) Investment in Plant. Retirement of Indebtedness represents bond sinking, reserve and arbitrage rebate funds to provide for the payment of principal, interest and rebated interest. Unexpended is comprised of a construction fund. Investment in Plant represents the total of buildings, improvements and equipment and related liabilities.

The Current Fund, including the Revenue Fund established by the bond resolution, is classified under the University General Educational Fund.

Revenue Fund

The Revenue Fund is used to account for student fees and charges such as tuitions, rates and fees levied against the students attending the University. In accordance with the provisions and terms of the bond resolution, these student fees and charges are irrevocably assigned as collateral to the payment of the principal and interest on the bonds. Student fees and charges that remain after the required transfers to the Sinking and Reserve Funds are transferred to the other University General Educational Fund accounts.

Construction Fund

The bond resolution provides that the balance of bond proceeds remaining after first making required deposits to the Academic Building Revenue Sinking Fund shall be deposited to the Construction Fund. The funds are to be held as a trust fund and disbursed, together with such other funds as may be lawfully available for the purpose, to pay for project costs.

Arbitrage Rebate Fund

Monies credited to the Arbitrage Rebate Fund shall be used for the payment of arbitrage rebates and related administrative expenses.

Bond Reserve Fund (Reserve Fund)

The bond resolution provides that semi-annual installments will be credited to the Bond Reserve Fund from the student fees and charges remaining after first making the required payments into the Academic Building Revenue Reserve Sinking Fund, in an amount equal to 12% of the principal and interest due in the current fiscal year until the Bond Reserve Fund is equal to the maximum annual principal and interest coming due in any succeeding fiscal year. However, amounts credited to the Bond Reserve Fund in excess of the maximum amount of principal and interest due in any succeeding fiscal year shall be deposited in the University's General Educational Fund. All monies credited to the Bond Reserve Fund shall be used for the payment of principal and interest on the bonds issued and outstanding.

UNIVERSITY OF NORTHERN IOWA
ACADEMIC BUILDING REVENUE BOND FUNDS

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies (continued)

Bond Sinking Fund (Sinking Fund)

The bond resolution provides for semi-annual installments to be set aside from the student fees and charges derived from the Revenue Fund to the Sinking Fund sufficient for the principal and interest payment that will become due and payable on and prior to the next succeeding July 1. The Sinking Fund shall be used solely for and is pledged for the purpose of paying the principal and interest of the bonds.

Basis of Accounting

Basis of accounting refers to when revenues and expenses are recognized in the accounts and are reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with United States generally accepted accounting principles. Revenues are recorded when earned and expenses are recorded when the liability is incurred.

Purchases of facilities and equipment providing future benefits are capitalized and depreciated.

Cash and Cash Equivalents

Cash and cash equivalents are stated at cost which approximates fair value due to their short-term nature. Cash and cash equivalents represent amounts in cash accounts or the Funds' share of the investment pool of the University entitled "Treasurer's Temporary Investments." Any negative balances are the result of timing differences. The General Fund of the University is responsible for any negative balances until the timing differences are resolved.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investments and Investment Income

Investments in marketable securities are recorded at their fair value, as established by the major securities markets. Purchases and sales of investments are accounted for on the settlement basis. Investment income is recorded on the accrual basis. Realized and unrealized gains and losses are reported as investment income. With the exception of funds specifically invested for bond issues and endowment funds, all other monies are pooled in an investment pool entitled "Treasurer's Temporary Investments." Investment income on the investment pool is allocated to the activities that participate in the pool.

UNIVERSITY OF NORTHERN IOWA
ACADEMIC BUILDING REVENUE BOND FUNDS

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies (continued)

Investments and Investment Income (continued)

As of June 30, 2008, the investment pool entitled "Treasurer's Temporary Investment" contained an investment in Commonfund's Intermediate Term Fund which had a market value of \$20,968,584. On or about September 30, 2008, Commonfund experienced a number of requests for full redemption of its Intermediate Term Fund due to liquidity problems in worldwide capital markets. In an effort to protect the remaining participants, Commonfund imposed a 30% restriction on redemptions. On October 1st the University placed an order and it withdrew 30% of its available funds. Commonfund has frozen the remaining 70% of available funds, \$13,985,996, for an indefinite period of time until there is an active market in fixed income securities. Commonfund estimated it will take 9-12 months to maximize recoveries. The University will redeem remaining funds in the Intermediate Term Fund as permitted by Commonfund. The University does not believe the Intermediate Term Fund has suffered a permanent impairment.

Summer Session

The University operates summer sessions during May, June, and July. Revenues and expenditures for the summer sessions are recorded in the appropriate fiscal year. Designated tuition and mandatory student fees are allocated based on the load study distributions supplied by the University Registrar. Residence System revenues and expenditures for the noted summer sessions are also recorded in the appropriate fiscal year.

Capital Assets

Property and buildings are stated at cost at the date of acquisition or fair market value at date of donation. Depreciation of capital assets is provided on a straight-line basis over the estimated useful lives of the respective assets and recorded in the Plant Accounts. The University does not capitalize interest costs during the construction period.

The following useful lives are used:

Infrastructure	20-40 years
Buildings	40-50 years
Equipment	5-20 years

The following thresholds are used to define capital assets:

Infrastructure	\$ 10,000
Buildings	\$ 25,000
Equipment	\$ 5,000

Operating and Nonoperating Activities

Operating Activities as reported on the statement of revenues, expenses, and changes in fund net assets are transactions that result from exchange transactions such as payments received for providing services and payments made for services or goods received. Nonoperating revenues include state appropriations, gifts, and investment income. Nonoperating expenses include interest expense, amortization expense, and loss on disposal of capital assets.

Debt Issuance Costs

Upon the sale of revenue bonds, debt issuance costs are amortized by the straight-line method over the term of the bond issuance.

Note 2: Cash and Cash Equivalents and Investments

(1) Cash and Cash Equivalents:

The deposits of the University were covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. In the unlikely event a bank fails, the State Treasurer first determines the amount of the loss and validates the amount of applicable FDIC insurance. He is empowered by this chapter to cover the remaining loss from the state sinking fund for public deposits in banks. If the balance in that sinking fund is inadequate to pay the entire loss, he is empowered to make assessments against other banks to insure that there will be no loss of public funds. The \$11,390,816 cash and cash equivalents balance of the Academic Building Revenue Bond Funds is combined with other University funds and consists of cash of \$0, pooled investments of \$4,890,057 and money market accounts of \$6,500,759. The money market accounts are not subject to risk categorization.

(2) Investments:

Statement of Invested Assets

Investment Type	Fair Value

	\$ 10,237,529

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the University. As of June 30, 2008, the Academic Building Revenue Bond Funds fixed income assets that are not government guaranteed represented 40% of the portfolio. The following table summarizes the exposure levels and credit qualities:

Credit Risk - Quality Ratings

Investment Type	Agency	A-1
Fixed Income:		
U.S. Government Agency	\$ 2,976,300	\$ -
Short Term:		
Commercial Paper	-	988,467
	\$ 2,976,300	\$ 988,467

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of investments in a single issuer. Except for Treasury or Agency debentures, pass-throughs or REIMICs, no more than 5% of the operating portfolio can be invested in securities of a single issuer.

Federal Home Loan Mortgage Corporation	994,100	10%
HSBC Finance	988,467	10%
Federal National Mortgage Association	987,200	10%

Interest Rate Risk

Interest rate risk is the possibility that changes in interest rates will adversely affect the fair value of a fixed income investment. This risk is managed within the portfolio using duration. Duration analysis is widely used in the management of fixed income portfolios to quantify the risk of interest rate changes. The methodology takes into account optionality on bonds and scales the risk to price changes on bonds depending upon the degree of change in rates and the slope of the yield curve.

Depreciation activity for the year ended June 30, 2008 is summarized as follows:

	Beginning Balance	Additions	Disposals & Transfers	Ending Balance
Buildings and Equipment	\$ 28,624,127	\$ 1,925,705	\$ -	\$ 30,549,832

The cost of land used for the academic buildings is not shown on the balance sheet. This land is included in the general books and records of the University of Northern Iowa.

Note 6: Rebate Payable, U.S. Government

Interest paid to bondholders is not includable in their gross income for Federal or Iowa income tax purposes. In order to maintain this exemption, the University must comply with certain provisions of the Internal Revenue Code and the bond resolutions arbitrage certificate. These provisions require that the excess of the actual investment earnings of the bond funds over the allowable earnings be set aside in a rebate fund to provide for a liability to the United States government.

As of June 30, 2008, the amount of this liability was \$117,681 and was related to the 2003A Refunding, 2005 and 2007 bond issues. The liability is periodically recalculated to provide the best estimate of its amount. The latest calculation of this liability resulted in an increase of \$39,814 from the prior amount. Funding of any future liability will be provided by the tuition replacement appropriations as the liability becomes payable.

Another provision in the bond resolution arbitrage certificate requires that the proceeds from the bonds be spent according to a fixed time table in the arbitrage certificate. If these spending requirements are not met, the University would have a liability to the United States government that is based on the actual amount that was underspent.

UNIVERSITY OF NORTHERN IOWA
ACADEMIC BUILDING REVENUE BOND FUNDS

Notes to Financial Statements

Note 7: Revenue Bonds Payable

As provided in the various bond resolutions, the University has the right to redeem certain bonds prior to the maturity dates, under stated conditions.

The principal and interest due July 1, 2008, has been recorded as bonds payable and accrued interest in Retirement of Indebtedness Funds. This meets the bond resolution requirement that the funds for the Sinking Fund's payment of bonds and interest due July 1 be deposited in the Retirement of Indebtedness Funds during the current fiscal year even though actual payment will not occur until July 1 of the subsequent fiscal year.

The bonds outstanding bear interest at rates ranging from 2.35% to 8.25% per year.

The bonds mature as follows:

For Year Ended June 30,	Principal	Interest	Total
2009	\$ 3,222,303	\$ 2,980,596	\$ 6,202,899
2010	3,285,227	2,694,791	5,980,018
2011	3,401,629	2,830,887	6,232,516
2012	3,766,706	2,210,119	5,976,825
2013	3,828,112	2,343,565	6,171,677

2029 - 2033	3,550,000	1,103,750	4,653,750
2024 - 2038	2,575,000	196,875	2,771,875
Total	<u>\$ 57,066,061</u>	<u>\$ 30,943,118</u>	<u>\$ 88,009,179</u>

Long-term debt activity for the year ended June 30, 2008 is summarized as follows:

Bonds payable, June 30, 2007	\$ 47,854,127
Bonds retired on July 1, 2007	(2,788,066)
Bonds issued on April 1, 2008	<u>12,000,000</u>
Bonds payable, June 30, 2008	<u>\$ 57,066,061</u>

Academic Building Revenue Bonds were issued primarily for the construction, renovation, and equipping of academic buildings, libraries, and administrative and service buildings. The bond issues included funding for a pre-funded debt service reserve and for issuance costs. A number of the bond issues refinanced previous issues to take advantage of lower interest rates.

Notes to Financial Statements

Note 8: Debt Service Coverage

The debt service coverage for the current and two prior years is as follows:

Year Ended	Pledged General Fund Tuition	Maximum Debt Service	Actual Coverage
2008	\$ 63,770,724	\$ 6,287,353	10.14
2007	61,801,075	5,900,854	10.47
2006	58,158,455	5,391,685	10.79

Required coverage = 1.25 of maximum debt service requirements

Note 9: Student Tuition and Fees

Under the provisions of the bond resolutions all student fees and charges received by the University shall be deposited to a special fund which is designated as the "Academic Building Revenue Fund." Specific amounts are to be retained by these funds to retire outstanding bonds and for the payment of interest. The balance of the receipts is to be transferred to the University of Northern Iowa for its general operations.

Note 10: Risk Management

It is the policy of the University of Northern Iowa not to purchase commercial insurance for the risks of certain losses to which it is exposed. Instead, management believes it is more economical to manage certain risks internally. It is also the policy of the Board of Regents, State of Iowa and the State of Iowa not to purchase commercial insurance for the risks of certain losses to which they are exposed.

Losses are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claim liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are reevaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. The University is exposed to various risks of loss related to a number of matters enumerated below.

Extra Expense. The University purchased \$10,000,000 in extra expense insurance for all buildings on campus.

Business Income. The University purchased business income insurance for the McLeod Center, Field House, Residence System, Maucker Union, Student Health Center, and the Gallagher-Bluedorn Performing Arts Center. The University self-funds business income insurance for other buildings.

Errors and Omissions. The University self-funds errors and omissions insurance.

Notes to Financial Statements

Note 10: Risk Management (continued)

General Liability and Property Loss. The State of Iowa self-funds, on behalf of the University, losses related to general liability (tort claims), and expenses (casualty losses) with the exception of expenses belonging to auxiliary enterprises. Claims for torts are filed with the State Appeal Board, while casualty losses are filed with the Executive Council.

The Board of Regents, State of Iowa entered into an agreement with the Department of Management, the State Appeal Board, and the Attorney General for resolution of tort claims of \$5,000 or less. The University is authorized to approve claims of \$5,000 or less, paying for the claims from institutional funds up to an annual limit of \$50,000. When a tort claim is filed against the State, the State Appeal Board has the authority to approve or reject ordinary claims less than ten years from occurrence and tort claims not over \$5,000. Tort claims settled or allowed in excess of \$5,000 must have the unanimous approval of all the members of the State Appeal Board, the Attorney General, and the District Court of the State of Iowa for Polk County. Torts may be paid without limit from the State's general fund.

A contingent fund exists under Section 29C.20 of the Code of Iowa to provide compensation for loss or damage to state property (casualty losses). By agreement with the State, claims in excess of \$5,000 or an annual aggregate of \$10,000 may be submitted to the Executive Council for consideration. If a loss exceeds \$500,000, it is necessary to seek an appropriation from the General Assembly.

The University has purchased commercial property insurance, including earthquake and flood coverage, for its facilities. There is a \$2,000,000 deductible on general University buildings. Additional coverage is provided for Auxiliary Enterprises, such as the Residence System, Maucker Union, and the Field House, with deductibles ranging from \$25,000 to \$100,000 per occurrence.

In all the above instances of commercial insurance, claims settled have not exceeded coverage for the last three years.

Note 11: Other Commitments, Claims, and Contingencies

Commitments: At June 30, 2008, the University had outstanding plant fund contract commitments for construction of \$2,806,576 in the Academic Building Revenue Bond Funds.

There were no other material claims or contingencies outstanding as of June 30, 2008. Also, there were no known contingent liabilities of a material nature at the date of this report.

Independent Auditors' Report on Supplementary Information

To the Members of the Board of Regents, State of Iowa
and Officials of the University of Northern Iowa

Our report on our audit of the basic financial statements of the Academic Building Revenue Bond Funds, of the University of Northern Iowa, for the year ended June 30, 2008, appears on page 1. That audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements, and, in our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.
