The Board of Education and Residents
West Des Moines Community School District

Ladies and Gentlemen:

The following report is a comprehensive financial record of the District for the fiscal year ended June 30, 2009. The report is a reflection of the conditions which have enabled the West Des Moines Community School District to maintain a favorable financial position despite state budget constraints and the related impact on local school districts across our state.

The shared vision of the District states, "The West Des Moines Community School District will be a caring community of learners that knows and lifts every child. We will inspire joy in learning. Our schools will excel at preparing each student for his or her life journey."

This vision provides the foundation of our District's financial planning. Meeting the educational needs of our students despite state budget constraints is no simple task. The educational success of the West Des Moines Community School District is due to many factors including:

- An outstanding and effective Board of Education.
- A very supportive community with high expectations for outstanding schools.
- Supportive parents who have high expectations for outstanding schools.
- A team of outstanding and dedicated teachers, staff and administrators.
- Students who understand the importance of a quality education.

As you review the information included in the important document, please be sure to contact us if you have any questions or suggestions. Our focus is upon the learning needs of all our students. With your help and support we will continue to be an excellent school district. We all can take pride in the outstanding success of our students.

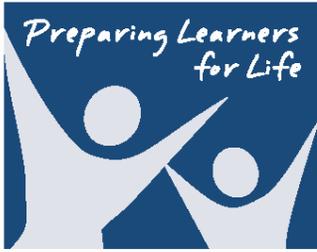

Sincerely,

Dr. Tom Narak
Superintendent

The West Des Moines
Community School District
will be a caring community
of learners that knows
and lifts every child.
We will inspire joy in learning.
Our schools will excel
at preparing each student
for his or her life journey.

The Board of Education and Residents
West Des Moines Community School District

The Comprehensive Annual Financial Report of the West Des Moines Community School District (the District) for the fiscal year ended June 30, 2009 is submitted herewith. The District is an independent entity governed by a seven-member board. Responsibility for the accuracy and completeness of the presentation, including all disclosures, rests with the officials of the District's Administrative Services Division. We believe that the data is accurately presented, in all material respects; that the data is presented to fairly set forth the financial position and results of operations of the District as measured by the financial activity of the various funds; and that all necessary disclosures have been included in order to enable the reader to gain the maximum understanding of the District's financial affairs.

The District was required to undergo a single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget Circular A-133, *Audits of States and Local Governments and Nonprofit Organizations*. Information related to this single audit, including a schedule of expenditures of federal awards, summary schedule of prior audit findings, the independent auditor's report on internal control over financial reporting and on compliance and other matters, independent auditor's report on compliance with requirements applicable to each major program and internal control over compliance, and a schedule of findings are included in the single audit compliance section of this report.

This report includes all funds of the West Des Moines Community School District. The District provides a full range of programs and services including instructional; administrative; transportation; food service; maintenance of sites and facilities; custodial; clerical; extra, co-curricular and athletic activities; and community education.

Management is responsible for preparing a Management's Discussion and Analysis. This discussion follows the independent auditor's report and provides an assessment of the District's finances for 2009.

Profile of the Government

In Iowa, school districts operate with local control and have fiscal independence from other government entities. The District operates in compliance with the accounting principles generally accepted in the United States of America (GAAP) and currently prepares its financial statements per the Governmental Accounting Standards Board (GASB) Statement No. 34.

The West Des Moines Community School District serves more than 58,000 people who live in the western portion of Polk County-West Des Moines, Clive, parts of Urbandale and Windsor Heights and nearby rural areas. Covering 36.6 square miles, the District has grown up around a former railroad center, Valley Junction and the farmland north and south of the Raccoon River. The District experienced rapid growth up until the fall of 1975 when enrollment reached 6,726 students. Enrollment gradually declined to 5,825 students in the fall of 1982, but increased annually (except for September 1999) through September 2002. Enrollment declined more than 200 students during fiscal years 2004 and 2005, but it has increased slightly and then stabilized with 8,842 resident students in fiscal year 2009.

The District operates fourteen schools, a maintenance/transportation/warehouse facility, a stadium and the Learning Resource Center (administrative offices). The West Des Moines Community School District provides a comprehensive Pre K-12 educational program and an extensive Community Education program.

Economic Condition and Outlook

The District is located in the central part of the state, within the larger Des Moines metropolitan area and ranks as one of the top growth areas of the state. The economic condition and outlook of the District have remained strong during the past ten years, following several years of very high economic growth and steady enrollment growth. This growth has had a positive effect on employment and the District's tax base. The District has averaged nearly a five percent annual increase in the tax base over the past 15 years. In fiscal year 2009, the increase was 4.1%.

The tax base is likely to grow at a slower pace in the next few years. Future projections indicate enrollment will remain fairly stable over the next five years.

Retail sales, building permits and population increases in the western suburbs have generally exceeded that of any other location in the metropolitan area or in the state of Iowa. Growth in the Des Moines area suburbs is expected to exceed the state average. A large percentage of these increases are occurring outside the School District boundaries.

In recent years, the state of Iowa has faced an economic downturn that severely hampered its ability to fund schools at the same level as in prior years. The District faces inadequate funding for state aid and other state-funded programs. In fiscal year 2009 the state's net receipts decreased by 4.5%.

The 2008-2009 school year included many stories of success. The shared vision and five guiding principles continue to be the foundation for curriculum development, integration of technology, community involvement and the learning process.

The shared vision is carefully considered in all District efforts: "The West Des Moines Community School District will be a caring community of learners that knows and lifts every child. We will inspire joy in learning. Our schools will excel at preparing each student for his or her life journey."

Remodeling began at Western Hills Elementary in June, 2008 and was completed in summer 2009. Design work was completed in 2008-09 for the remodeling at Crestview Elementary School and Indian Hills Junior High School. Remodeling began at both schools in June 2009. Design work is underway for the Crossroads Park Elementary remodeling project.

The Stretching Minds program continued serving many elementary and junior high students during the summer. The program targets students most likely to benefit from additional opportunities in reading, mathematics and community learning.

The Valley Girls' Swimming & Diving program won their fourth state title in a row and sixth overall; Football captured their fourth state title in six years and completed an undefeated season at 14-0; Girls' Softball made the state tournament and finished third; Girls' Golf made a run at state and finished fourth; Valley won eleven of CIML "Iowa" Conference championships in 2008-09 and twelve different teams qualified for state competition.

Strong emphasis was placed on personalized learning and strengthening caring relationships.

Other Financial Information

Management of the District is responsible for establishing and maintaining an internal control designed to ensure that its assets are protected from loss, theft or misuse and to ensure that adequate data are compiled to allow for the preparation of the basic financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP). The internal control is designed to provide reasonable, but not absolute, assurances that these objectives are met. The concept of reasonable recognizes that the cost of a control should not exceed the benefits likely to be derived and the valuation of costs and benefits requires estimates and judgments by management.

Single Audit. As a recipient of federal, state and county financial assistance, the District is responsible for ensuring that adequate internal control is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control is subject to periodic evaluation by management and external auditors.

As a part of the District's single audit, described earlier, tests are made to determine the adequacy of the internal control over financial reporting and its compliance with applicable laws and regulations, including those related to major federal awards programs. The results of the District's single audit for the fiscal year ended June 30, 2009 provided no instances of material weaknesses in the internal control.

Budgetary Controls. In addition, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. Activities of the General Fund, special revenue funds, Debt Service Fund, and enterprise funds are included in the annual appropriated budget by program. Project length financial plans are adopted for the capital projects funds and budgeted accordingly on an annual basis. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by program level for all funds combined rather than at the individual fund level. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts lapse at the fiscal year's end. However, encumbrances generally are re-appropriated as part of the following year's budget.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

Basis of Presentation. The charts and accounts used by the District have been prepared in conformity with GAAP as prescribed by the Governmental Accounting Standards Board and Audits of State and Local Governmental Units issued by the American Institute of Certified Public Accountants. In addition, the District's accounting records conform with the Uniform Accounting System for Iowa Schools, Chapter 11 of the Code of Iowa and Area Educational Agencies issued by the Department of Education, state of Iowa. The chart of accounts manual is updated annually and the District is in full compliance with these requirements.

Relevant Financial Policies. Since the funding formula is pupil driven, an increase in total spending authority occurs by increasing the number of pupils or by increasing the cost per pupil. The cost per pupil is determined by the legislature in setting the amount of allowable growth each year. Under the law, the legislature has 30 days after receiving the governor's budget recommendation to set the state percent of growth for the year following the budget year. To illustrate, the 2009 legislature set the FY11 state percent of growth. The allowable growth becomes increasingly important because as a District, if we are faced with declining enrollment in a given year, the amount of allowable growth often will dictate budget reductions that will take place.

Awards and Acknowledgements

Independent Audits. The accounting firm of Denman & Company, LLP performed the annual audit. In addition to meeting requirements set forth in state statutes, the audit was designed to meet the requirements of federal Single Audit Act Amendments of 1996 and related OMB Circular A-133. The auditor's report on the basic financial statements, combining and individual fund statements and other schedules is included in the financial section of this report.

Awards. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the West Des Moines Community School District for its comprehensive annual financial report for the fiscal year ended June 30, 2008. The Certificate of Achievement is the highest form of recognition for excellence in state and local financial reporting.

In order to be presented this award, the District must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The West Des Moines Community School District has received a Certificate of Achievement for twenty-two consecutive years.

The School District has also received the Certificate of Excellence in Financial Reporting from the Association of School Business Officials (ASBO) for the twenty-four consecutive years. Upon recommendation of the Association's Panel and Review, which has judged that the report substantially conforms to principles and standards of ASBO's Certificate of Excellence Program, we are submitting this report to ASBO to determine its eligibility for another certificate.

A certificate from both associations is valid for a period of one year. We believe that our current comprehensive annual financial report continues to meet the program requirements of GFOA and ASBO and we are submitting it to both associations to determine its eligibility for another certificate.

Acknowledgement

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated efforts of the accounting staff and our auditors, Denman & Company, LLP. We would like to express our appreciation to all staff members who assisted and contributed to this report. Also, appreciation is expressed for the interest and support of the Board of Education in conducting the financial operations of the District in a most responsible and progressive manner.

Respectively submitted,

Dr. Tom Narak
Superintendent

INDEPENDENT AUDITOR'S REPORT

To the Board of Education
West Des Moines Community School District
West Des Moines, Iowa

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of West Des Moines Community School District as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements as listed in the contents page of this report. These financial statements are the responsibility of District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of West Des Moines Community School District as of June 30, 2009, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 20, 2009 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 3 through 11, budgetary comparison information on pages 43 through 44 and schedule of funding progress for the retiree health plan on page 45 are not required parts of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise West Des Moines Community School District's basic financial statements. The combining nonmajor fund financial statements and other statements listed in the contents page of this report as supplementary information, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The accompanying introductory and statistical sections, as listed in the contents page of this report, are presented for purposes of additional analysis and are not a required part of the basic financial statements. This information has not been subjected to the auditing procedures applied in the audit of the basic financial statement and, accordingly, we express no opinion on them.

DENMAN & COMPANY, LLP

West Des Moines, Iowa

**West Des Moines Community School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For fiscal year ended June 30, 2009**

It is an honor to present to you the financial picture of West Des Moines Community School District. We offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the West Des Moines Community School District for the fiscal year ended June 30, 2009. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

FINANCIAL HIGHLIGHTS

The District showed an increase in net assets of \$10,127,240 and \$9,837,699 during the years ended June 30, 2009 and 2008, respectively.

Total revenues for the fiscal year ended June 30, 2009 and 2008 of \$114,545,259 and \$108,232,837 were comprised of general revenues in the amount of \$89,483,024 and \$87,400,037 and program revenues totaling \$25,062,235 and \$20,832,800, respectively.

As of June 30, 2009 the District's governmental funds reported combined ending fund balances of \$28,156,490, a decrease of \$2,712,809 in comparison with 2008. Of the total combined fund balance, \$20,526,214 represents unreserved undesignated fund balance. As of June 30, 2008, the District's governmental funds reported combined ending fund balances of \$30,869,299, an increase of \$2,789,068 in comparison with 2007. Of the total combined fund balance, \$23,791,636 represents unreserved undesignated fund balance.

As of June 30, 2009, unreserved fund balance of the General Fund was \$11,550,393 or 13.6 percent of total General Fund expenditures and \$13,059,705 or 16.6 percent for 2008.

The West Des Moines Community School District's total long-term bonded debt decreased by \$6,275,000 during fiscal year ended June 30, 2009 and \$6,010,000 during fiscal year ended June 30, 2008. The decrease was due to scheduled debt payments.

OVERVIEW OF FINANCIAL STATEMENTS

This Discussion and Analysis is intended to serve as an introduction to the West Des Moines Community School District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of West Des Moines Community School District's finances in a manner similar to a private-sector business.

The statement of net assets presents information on all of West Des Moines Community School District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

**West Des Moines Community School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For fiscal year ended June 30, 2009**

Both of the government-wide financial statements reflect functions of West Des Moines Community School District that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, noninstructional programs, other and interest on long-term debt. Business-type activities are those that the District charges a fee to help cover the costs, such as School Nutrition and Community Education.

The government-wide financial statements include only West Des Moines Community School District. There are no other organizations or agencies whose financial statements should be combined and presented with the financial statements of the District.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The West Des Moines Community School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The West Des Moines Community School District maintains seven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Physical Plant and Equipment and Local Option Sales Tax funds which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental fund financial statements can be found on pages 16 through 19 of this report.

Proprietary funds. The District maintains two types of proprietary funds: enterprise and internal service. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District maintains four enterprise funds. Internal service funds are used to report the same functions presented as governmental activities in the government-wide financial statements. The District maintains one internal service fund to account for the premium and claim payments for the self-insured health insurance plans for District employees. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. Because the service provided by the District predominately benefits governmental, rather than business-type functions, it has been included within governmental activities in the government-wide financial statements.

The basic proprietary fund financial statements can be found on pages 20 through 25 of this report.

**West Des Moines Community School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For fiscal year ended June 30, 2009**

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the West Des Moines Community School District's own programs. The fiduciary fund of the District is an agency fund. Agency funds are custodial in nature and do not involve measurement of results of operation.

The basic fiduciary fund financial statement can be found on page 26 of this report.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the West Des Moines Community School District's budgetary comparison. Required supplementary information can be found on pages 42 through 45 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. The District's total net assets have increased from a year ago from \$149,769,692 to \$159,896,932.

A significant portion of the District's total assets reflects its investment in capital assets. The District uses these capital assets to provide educational services; consequently, these assets are not available for future spending. The District's net assets invested in capital assets, net of related debt, were \$139,712,442 for 2009 and \$120,308,521 for 2008. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of the District's net assets (9.9 percent for 2009 and 11.4 percent for 2008) represents resources that are subject to external restrictions on how they may be used. These restrictions for 2009 include \$2,751,286 for physical plant and equipment levy, \$6,759,589 for local option sales tax, \$5,486,968 for management levy, \$518,879 for public education and recreation levy, and \$366,705 for debt service. The remaining balance of unrestricted net assets, \$4,301,063 for 2009 and \$12,382,817 for 2008, may be used to meet the government's ongoing obligations to students and creditors.

**West Des Moines Community School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For fiscal year ended June 30, 2009**

At the end of the current fiscal year, the West Des Moines Community School District is able to report positive balances in all three categories of net assets. The same situation held true for the prior fiscal year.

The District's total net assets increased by \$10,127,240 during the current fiscal year as compared to \$9,837,699 in 2008. The governmental activities' net assets increased by \$10,195,983 in 2009 and \$9,756,166 in 2008. The business-type activities, which include nutrition, community education, preschool regular education and student construction decreased by \$68,743 in 2009 and increased \$81,533 in 2008.

Table 2 highlights the District's revenues and expenses for the fiscal year ended June 30, 2009 and 2008. This table utilizes the full accrual method of accounting. Revenues less expenses yielded the change in net assets. This change was anticipated and it enabled the District to acquire capital assets and to retire debt.

Revenue is further divided into two major components: program revenue and general revenue. Program revenue is defined as charges for services and sales, operating and capital grants and contributions. General revenue includes taxes and unrestricted grants such as state foundation support.

Expenses are shown in programs including instruction, support services, noninstructional programs, other interest on long-term debt, school nutrition, community education, preschool regular education and student construction.

**West Des Moines Community School District
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
For fiscal year ended June 30, 2009**

GOVERNMENTAL ACTIVITIES

Revenues for governmental activities were \$107,406,496 and expenses were \$97,347,141. Property taxes and other taxes such as sales tax and utility replacement tax and state sources including state foundation aid are the primary sources of revenue for the District. These sources represent 57.0 percent and 23.6 percent, respectively, of total revenues. Instruction constitutes the largest portion of expenditures at \$64,340,540 or 66.1 percent of total expenditures.

Table 3 below discloses cost of services for governmental and business-type activities. The total cost of services column contains all costs related to the programs and the net cost column shows how much of the total amount is not covered by program revenues. Succinctly put, net costs are costs that must be covered by state aid or local taxes. The difference in these two columns would represent restricted grants and charges for services.

Table 3 - Governmental and Business-Type Activities

<u>Programs</u>	<u>Total Cost of Services</u>		<u>Net Cost of Services</u>	
	<u>2009</u>	<u>2008</u>	<u>2009</u>	<u>2008</u>
Instruction	\$ 64,340,540	\$59,878,678	\$(49,469,342)	\$(48,283,464)
Support services	28,852,848	28,015,793	(28,852,848)	(28,015,793)
Noninstructional programs	452,155	422,971	(452,155)	(422,971)
Other	3,155,688	2,967,752	(450)	(1,150)

Community education	2,641,371	2,279,690	277,448	259,050
Preschool Regular Education	210,280	194,719	3,656	(12)
Student Construction	<u>80,000</u>	<u>—</u>	<u>(80,000)</u>	<u>—</u>
Total expenses	<u>\$104,418,019</u>	<u>\$98,395,138</u>	<u>\$(79,355,784)</u>	<u>\$(77,562,338)</u>

Net cost of services is 76.0 percent of total cost of services in 2009 and 78.8 percent in 2008. The cost of governmental activities financed by users of the District's programs was \$5,910,224 for 2009 and \$4,707,977 for 2008. Federal and state governments subsidized certain programs with grants and contributions totaling \$12,116,212 for 2009 and \$9,853,839 for 2008. The remaining net cost of the governmental activities was financed with property tax, state foundation aid and investment earnings.

Approximately 80% of the District's general fund budget is comprised of salary and benefit costs. Historically speaking, collective bargaining contracts have increased 4% or more each year. In addition, District staffing has increased in selected program areas, particularly in special education and English as a Second Language (ESL). These staffing increases have been driven by changing student needs and demographics.

BUSINESS TYPE ACTIVITIES

- The School Nutrition and Community Education programs constitute the majority of the business-type activities.
- The primary sources of income are charges for services and federal revenues.
- The School Nutrition's primary expenses are staff and food. The District's free and reduced participation continued to increase during the fiscal year. The School Nutrition Fund had a negative change in net assets of \$144,307 for fiscal year 2009.
- The primary source of revenue for the Community Education fund is sales of services for educational programs. The Community Education fund had a positive change in net assets of \$191,858.

**West Des Moines Community School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For fiscal year ended June 30, 2009**

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the West Des Moines Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the West Des Moines Community School District's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the West Des Moines Community School District's governmental funds reported combined ending fund balances of \$28,156,490, a decrease of \$2,712,809 in comparison with the prior year fund balance of \$30,869,299. Approximately 98.5 percent or \$27,726,214 for 2009 and \$30,451,636 or 98.6 percent for 2008, constitutes unreserved fund balance, which is available for spending at the government's discretion. The District had designations of \$7,200,000 for cash flow purposes at June 30, 2009 and \$6,600,000 at June 30, 2008. The remainder of the fund balance for 2009 is reserved to indicate that it is not available for new spending because it has already been committed for 1) inventories \$63,571; and 2) debt service \$366,705.

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unreserved fund balance of the General Fund was \$11,550,393 for 2009 and \$13,059,705 for 2008, while total fund balance reached \$11,613,964 for 2009 and \$13,115,672 for 2008. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 13.6 percent of total General Fund expenditures, while total fund balance represents approximately 13.7 percent of that same amount for 2009. For 2008, unreserved fund balance represents 16.6 percent of total General Fund expenditures, while total fund balance represents approximately 16.7 percent of that same amount.

The Physical Plant and Equipment Levy (PEEL) Fund balance increased to \$2,751,286 in 2009 from \$2,546,970 in 2008. This increase is due primarily to an increase in Property Tax revenue.

The Local Option Sales Tax Fund balance decreased to \$6,759,589 in 2009 from \$10,414,806 in 2008. This decreased fund balance is attributable to increased capital expenditure activity in 2009.

The fund balance of the District's General Fund decreased by \$1,501,708 during June 30, 2009. Key factors in this decrease are as follows:

- Increase in instruction expenditures during 2009.

For 2008, the fund balance of the District's General Fund increased by \$344,717 from 2007. Key factors in this increase are as follows:

- Utilized cash reserve levy to improve fund balance.

BUDGETARY HIGHLIGHTS

As allowed by GASB Statement No. 41, *Budgetary Comparison Schedules - Perspective Differences*, the District presents budgetary comparison schedules as required supplementary information based on the program structure of four functional areas as required by state statute for its legally adopted budget. In accordance with the Code of Iowa, the Board of Education annually adopts a program budget which includes all funds except internal service and agency funds as described in the note to required supplementary information.

**West Des Moines Community School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For fiscal year ended June 30, 2009**

A comparison of the actual expenditures/expenses of the District's budgeted funds with the final amended program budget amounts is as follows:

	<u>Budget</u>		<u>Actual</u>	<u>Variance</u>
	<u>Original</u>	<u>Final</u>	<u>Expenditures/ Expenses</u>	
Instruction	\$ 57,660,800	\$ 61,000,000	\$ 59,824,159	\$1,175,841
Support services	26,979,700	30,350,000	27,978,293	2,371,707
Noninstructional programs	6,491,340	7,720,000	7,439,645	280,355
Other	<u>20,246,289</u>	<u>26,503,000</u>	<u>22,021,230</u>	<u>4,481,770</u>
Total	<u>\$111,378,129</u>	<u>\$125,573,000</u>	<u>\$117,263,327</u>	<u>\$8,309,673</u>

The District amended its certified budget to reflect increased construction spending and to better reflect anticipated operating expenses.

The original budget is published at least three months prior to the fiscal year--often prior to settlement of collective bargaining agreements and before final legislative action on the state budget. In the latter portion of the fiscal year the amended budget is published with "not to exceed" amounts to satisfy Iowa's statutory reporting requirements.

CAPITAL ASSETS AND DEBT ADMINISTRATION

The following table shows ending balances of capital assets invested in various categories. The District recognized a total net increase of \$6,598,921 for 2009. Most of the increase can be attributed to the remodeling costs for Western Hills Elementary and Indian Hills Junior High. These costs were paid from sales tax fund revenues. Other major projects included purchases of equipment, copiers and computers, and architectural and engineering costs for future remodeling projects.

For 2008, the District recognized a total net increase of \$2,236,065. Most of the increase can be attributed to the remodeling costs for Valley High School. All were funded by the sales tax fund revenues.

Table 4 - Capital Assets as of June 30 (Net of Depreciation)

	<u>Total</u>	
	<u>2009</u>	<u>2008</u>
Land	\$ 4,181,298	\$ 4,181,298

Buildings and improvements	121,953,525	123,992,775
Machinery and equipment	<u>2,890,470</u>	<u>2,672,760</u>
Totals	<u>\$139,712,442</u>	<u>\$133,113,521</u>

Additional information about the District's capital assets can be found in Note 5 on page 35 to the financial statements.

**West Des Moines Community School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For fiscal year ended June 30, 2009**

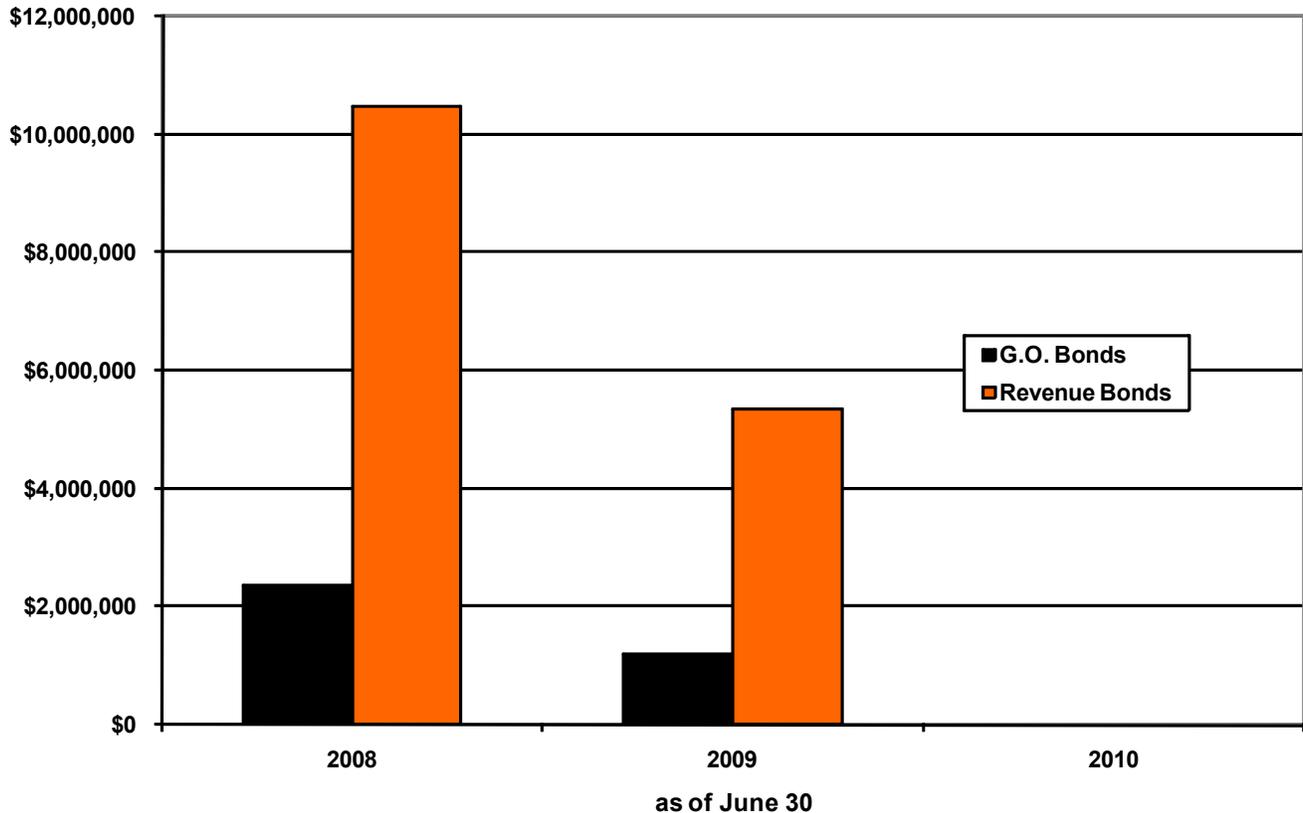

Debt

As of June 30, 2009, the West Des Moines Community School District had general obligation and revenue bonds outstanding totaling \$6,530,000 compared to \$12,805,000 as of June 30, 2008. In the current year, the District paid \$6,275,000 in principal and \$571,713 in interest on outstanding debt.

	2009	2008
General obligation bonds	\$1,190,000	\$ 2,345,000
Revenue bonds	<u>5,340,000</u>	<u>10,460,000</u>
Totals	<u>\$6,530,000</u>	<u>\$12,805,000</u>

As of June 30, 2009, the District's available legal debt margin was \$320,867,075 compared to \$286,535,175 as of June 30, 2008.

Long Term Debt

Additional information about the District's long-term debt can be found in Note 6 to the financial statements.

**West Des Moines Community School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For fiscal year ended June 30, 2009**

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The District is located in the central part of the state, within the larger Des Moines metropolitan area and it ranks as one of the top growth areas of the state. The economic condition and outlook of the District have remained strong during the past ten years, following several years of very high economic growth and steady enrollment growth. This growth has had a positive effect on employment and the District's tax base. The District has averaged nearly a five percent annual increase in the tax base over the past 15 years. In fiscal year 2009, the increase was 4.1%.

As with state and national trends, the District's tax base is likely to grow at a slower pace in the next few years. Projections indicate enrollment will remain fairly stable over the next five years.

Retail sales, building permits and population increases in the western suburbs have generally exceeded that of any other location in the metropolitan area or in the state of Iowa. Growth in the Des Moines area suburbs is expected to exceed the state average. A large percentage of these increases are occurring outside the School District boundaries.

Recently, the state of Iowa faced an economic downturn that will hamper its ability to fund education at the same level as in prior years. In fiscal year 2009 the state's net receipts decreased by 4.5%. Therefore, the District expects to receive inadequate funding for state aid and other state-funded programs.

All these factors were considered in preparing the West Des Moines Community School District's budget for the 2010 fiscal year. The District's tax rate has remained relatively stable for the past decade; the rate has been in the narrow range of \$13.50 to \$13.70 per \$1,000 of taxable value. This rate is one of the lowest among the twenty largest districts in the state. The tax rate for fiscal year 2010 is \$13.64 per \$1,000 of taxable valuation, down from \$13.69 in fiscal year 2009.

Request for Information

These financial statements and discussions are designed to provide our students, citizens, taxpayers, investors and creditors with a complete disclosure of the District's finances and to demonstrate at high degree of accountability for the public dollars entrusted to us. If you have questions about this report or need additional information, please contact Mr. Kurt Subra, Chief Financial Officer, West Des Moines Community School District, 3550 Mills Civic Parkway, West Des Moines, Iowa 50265-5556.

West Des Moines Community School District
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
Year ended June 30, 2009

Net change in fund balances—total governmental funds \$ (2,712,809)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period

Capital outlay		12,018,829
Depreciation expense by function		
Instruction	(4,469,793)	
Support services	<u>(810,626)</u>	(5,280,419)
Proceeds from sale of capital assets	(15,746)	
Loss on sale of capital assets	<u>(7,640)</u>	(23,386)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. In the statement of activities, interest is accrued on outstanding bonds, whereas in the governmental funds an interest expenditure is reported when due. The following is the detail of the net effect of these differences in the treatment of long-term debt and related items

Repayment of bond principal	6,275,000	
Interest	23,343	
Amortization of bond premiums and bond issue costs	<u>2,460</u>	6,300,803

Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of the Internal Service Fund is reported with governmental activities

233,640

Change in Internal Service Fund allocation to business-type activities

7,572

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds

Change in compensated absences, support services		21,960
Change in liability for early retirement		
Instruction		529,209
Support		244,192
Noninstruction		10,522
Change in liability for other postemployment benefits		
Instruction		(817,009)
Support		(330,081)
Noninstruction		<u>(7,040)</u>

Change in net assets of governmental activities

\$10,195,983

West Des Moines Community School District

NOTE 1 NATURE OF OPERATIONS, REPORTING ENTITY AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

The West Des Moines Community School District (the District) was incorporated under Chapter 274 of the State Code of Iowa. The District has the power to make rules and regulations for its own government consistent with the laws of the state of Iowa and the regulations of the Iowa State Board of Education. The District is governed by the elected West Des Moines Community School Board of Education (the Board). The District is composed of one high school, one ninth grade school, two junior high schools, nine elementary schools and one alternative high school. Student enrollment (kindergarten through high school) for the 2008-2009 school year was 8,842 regular and special education students. The District employs a total of 1,223 full time equivalent personnel.

Reporting Entity

In accordance with Governmental Accounting and Financial Reporting Standards, the basic financial statements include all funds, organizations, agencies, boards, commissions and authorities for which the District is financially accountable. The District has also considered all other potential organizations for which the nature and significance of their relationships with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board (GASB) has set forth criteria to be considered in determining financial accountability. These criteria include appointing a majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on, the District. In addition, the GASB issued Statement No. 39, in May 2002, which sets forth additional criteria to determine whether certain organizations for which the District is not financially accountable should be reported as component units based on the nature and significance of their relationship with the District. These criteria include 1) the economic resources being received or held by the separate organization being entirely or almost entirely for the direct benefit of the District, its component units, or its constituents, 2) the District being entitled to, or having the ability to otherwise access, a majority of the economic resources received or held by the organization and 3) the economic resources received or held by an individual organization that the District is entitled to, or has the ability to otherwise access, are significant to the District. Based on these criteria, there are no other organizations which should be included in these basic financial statements.

Basis of Presentation: The District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide and fund financial statements: The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of the interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Interfund services provided and used are not eliminated in the process of consolidation for these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The focus of fund financial statements is on major funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column.

West Des Moines Community School District
NOTES TO FINANCIAL STATEMENTS

NOTE 1 NATURE OF OPERATIONS, REPORTING ENTITY AND SIGNIFICANT ACCOUNTING POLICIES
(continued)

Reporting Entity (continued)

Fund accounting: The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, reserves, fund balance/net assets, revenues and expenditures or expenses, as appropriate. The District has the following funds:

Governmental Fund Types: Governmental fund types are those funds through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds:

General Fund: The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund accounts for the instructional and most of the support service programs of the District's operations. Revenue of the fund consists primarily of local property taxes and state governmental aid.

Physical Plant and Equipment Fund: Accounts for the resources used to pay for the purchase and improvement of sites, demolition work, special assessments and major building repairs. The fund is required to be accounted for as a special revenue fund by state statutes.

Local Option Sales Tax Fund: The Local Option Sales Tax Fund, a capital projects fund, accounts for all financial transactions from the local option sales and services tax for school infrastructure authorized by Iowa Code Chapter 422E.

The other governmental funds of the District are considered nonmajor and are as follows:

Special Revenue Funds: Are used to account for the revenue sources that are legally restricted to expenditures for specific purposes.

Management Fund: Accounts for tort liability insurance premiums, unemployment compensation insurance claims and early retirement incentive payments.

Playground Fund: Accounts for the resources used to establish and maintain public recreation places and playgrounds and necessary accommodations for children and adults.

Student Activity Fund: Accounts for money held by the District on behalf of the students who have raised these funds and are responsible for their disposition for co-curricular or extracurricular activities of the District.

Debt Service Fund: Accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs. Revenue of the fund primarily consists of local property taxes.

**West Des Moines Community School District
NOTES TO FINANCIAL STATEMENTS**

**NOTE 1 NATURE OF OPERATIONS, REPORTING ENTITY AND SIGNIFICANT ACCOUNTING POLICIES
(continued)**

Reporting Entity (continued)

Fund Accounting (continued)

Proprietary Fund Types: Proprietary fund types are used to account for the District's ongoing organizations and activities which are similar to those often found in the private sector. The measurement focus is upon income determination, financial position and cash flows.

Enterprise Funds: Are used to account for those operations that are financed and operated in a manner similar to private business or where the District has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting*, the District has elected to apply all applicable Financial Accounting Standards Board (FASB) pronouncements, issued on or before November 30, 1989, except for those pronouncements which conflict with or contradict GASB pronouncements.

The following enterprise funds of the District are considered nonmajor:

School Nutrition Fund: Accounts for the food service operations of the District.

Community Education Fund: Accounts for the educational programs available to the general public on a fee basis.

Preschool Regular Education Fund: To account for the resources, including registration and tuition fees as well as funding from the Polk County Empowerment, used to service the children eligible to attend one of the eleven preschool centers in the West Des Moines area.

Student Construction Fund: To account for the construction costs of building houses by the Valley High School construction technology classes and the income generated through the sale of these houses.

Internal Service Fund: The Internal Service Fund is used to account for goods or services provided by one department to other departments of the District on a cost reimbursement basis. The District's Internal Service Fund is used to account for the premium and claim payments for the self-insured health insurance plans for District employees.

Fiduciary Fund Types: Fiduciary fund types are used to account for net assets and changes in net assets. The District has one fiduciary fund which is considered an Agency Fund.

Flower Fund: To account for donations to be used for flower purchases for memorials or illnesses of District employees.

**West Des Moines Community School District
NOTES TO FINANCIAL STATEMENTS**

**NOTE 1 NATURE OF OPERATIONS, REPORTING ENTITY AND SIGNIFICANT ACCOUNTING POLICIES
(continued)**

Reporting Entity (continued)

Measurement Focus and Basis of Accounting: The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Revenues - exchange and nonexchange transactions: Property taxes, other taxes, grants, entitlements and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current period. All other revenue items are considered to be measurable and available only when cash is received.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which it is budgeted. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when used if first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Property taxes are recognized as a receivable at the time they become an enforceable legal claim. This is determined to occur when the budget is certified and approved by the state of Iowa. The current tax levy recognized in revenue was certified in March 2008 based on 2007 assessed valuations. These taxes are due in two installments on September 30 and March 31, with a 1.5 percent per month penalty for delinquent payment.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's proprietary funds are charges for food sales or tuition and fees. Operating expenses for proprietary funds include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**West Des Moines Community School District
NOTES TO FINANCIAL STATEMENTS**

**NOTE 1 NATURE OF OPERATIONS, REPORTING ENTITY AND SIGNIFICANT ACCOUNTING POLICIES
(continued)**

Significant Accounting Policies

The significant accounting policies followed by the District include the following:

Pooled cash and investment accounts: Separate bank accounts and investments are not maintained for all District funds, as certain funds maintain their cash and investment balances in a pooled account. Accounting records are maintained to show the portion of the pooled account attributable to each participating fund.

Inventories: Inventories are stated at cost (first-in, first-out), which approximates market. The consumption method of accounting is applied to the governmental fund type inventories. Unused commodities at balance sheet date are reported as inventory in the statement of net assets.

Capital assets: General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair values as of the date received. The District maintains a capitalization threshold of \$5,000 (\$500 for the School Nutrition Fund). The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. All reported capital assets except land and construction-in-progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated lives</u>
Buildings and improvements	20 - 50 years
Machinery and equipment	5 - 20 years

The District's collection of library books and other similar assets are not capitalized due to the individual assets not meeting the District's capitalization threshold. These collections are unencumbered, held for public exhibition and education, protected, cared for and preserved and subject to District policy that requires proceeds from the sale of these items, if any, to be used to acquire other collection items.

Bond discount, premium and issuance costs: In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds that approximate the effective interest method.

Deferred and unearned revenue: Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2009, but which were levied to finance fiscal year 2010 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

**West Des Moines Community School District
NOTES TO FINANCIAL STATEMENTS**

**NOTE 1 NATURE OF OPERATIONS, REPORTING ENTITY AND SIGNIFICANT ACCOUNTING POLICIES
(continued)**

Significant Accounting Policies (continued)

Accrued payroll: Payroll and the related payroll taxes and benefits for teachers with annual contracts corresponding to the school year, but have balances payable in July and August, have been accrued as a liability as they are applicable to services provided during the respective fiscal years and will be paid with available resources.

Compensated absences: For governmental funds, the unpaid compensated absences that are considered due are recorded within the funds. There is no amount considered due as of year-end. The amount of the liability not considered due is not reported in fund financial statements. However, the entire compensated absence liability is reported on the government-wide financial statements.

Self-insurance: The District is self-insured for health and dental benefits. The District's premiums and claims are accounted for in the Internal Service Fund. Premiums are charged by the Internal Service Fund to operating funds based upon number of employees and selected coverage in each fund.

There have been no significant reductions in insurance coverage for the District from the prior year.

Cash flows: For the purpose of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Fund equity: Reservations of fund balance represent amounts that are not appropriated or are legally segregated for a specific purpose. Designations of fund balance represents tentative management plans that are subject to change.

Net assets: Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets invested in capital assets, net of related debt, excludes unspent debt proceeds. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Net assets restricted through enabling legislation consists of \$2,751,286 for physical plant and equipment levy, \$6,759,589 for local option sales tax, \$5,486,968 for management levy, \$518,879 for public education and recreation levy and \$366,705 for debt service.

The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Interfund activity: Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**West Des Moines Community School District
NOTES TO FINANCIAL STATEMENTS**

NOTE 2 BUDGETARY AND BUDGETARY CONTROL

As allowed by GASB Statement No. 41, *Budgetary Comparison Schedules - Perspective Differences*, the District presents budgetary comparison schedules as required supplementary information based on the program structure of four functional areas as required by state statute for its legally adopted budget.

NOTE 3 CASH AND CASH EQUIVALENTS AND INVESTMENTS

Interest rate risk: As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy requires operating funds to be invested in investments that mature within three hundred and ninety-seven days or less. When investing other than operating funds, the investments must mature according to the needs of the funds. Operating funds of the District are funds which are reasonably expected to be used during a current budget year or within fifteen months of receipt.

As of June 30, 2009, the District's investment balances were as follows:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Maturity Dates (Years)</u>			
		<u>Less than 1</u>	<u>1 to 5</u>	<u>6 to 10</u>	<u>More than 10</u>
Annuity	\$ 327,498	\$ 327,498	\$ -	\$ -	\$ -
Repurchase agreement	<u>3,748,000</u>	<u>3,748,000</u>	<u>-</u>	<u>-</u>	<u>-</u>
	<u>\$4,075,498</u>	<u>\$4,075,498</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

Credit Risk: The District is authorized by statute to invest public funds not currently needed for operating expenses in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education and the Treasurer of the State of Iowa; perfected repurchase agreements; and certain joint investments trusts. The District has no investment policies that would further limit its investment choices.

As of June 30, 2009, the District's investments which include a repurchase agreement and an annuity were not applicable to be rated by a nationally recognized statistical rating organization.

Concentration of credit risk: The District's general investment policy is to apply the prudent-person rule: In making investments, the District will exercise the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use to meet the goals of the investment program.

The District places no limit on the amount the District may invest in any one issuer. More than 5 percent of the District's investments are in an annuity at ING Insurance Company and a repurchase agreement with JP Morgan Chase. These investments are 8 percent and 92 percent, respectively, of the District's total investments. The annuity is included in the District's General Fund and the repurchase agreement investment is all included in the Local Option Sales Tax Fund.

Custodial credit risk: For deposits, this is the risk that in the event of bank failure, the District's deposits may not be returned to it. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Chapter 12C of the Code of Iowa requires all District funds be deposited into an approved depository and be either insured or collateralized. As of June 30, 2009, the District has \$43,560,536 in deposits and \$4,075,498 in investments. Neither of the District's deposits or investments were subject to custodial credit risk.

**West Des Moines Community School District
NOTES TO FINANCIAL STATEMENTS**

NOTE 4 INTERFUND BALANCES

Individual interfund receivable and payable balances as of June 30, 2008, were:

	<u>Interfund Receivables</u>	<u>Interfund Payables</u>
Nonmajor enterprise funds	\$ <u>386,166</u>	\$ <u>386,166</u>

Interfund balances result from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system and (3) payments between funds are made. The interfund receivable and payable are scheduled to be collected in the subsequent year.

The following is a schedule of transfers as included in the basic financial statements of the District:

	<u>Transfers In</u>	<u>Transfers Out</u>
Major funds		
General	\$ 154,978	\$ 75,534
Special Revenue, Physical Plant and Equipment	5,000	3,825,000
Local Option Sales Tax	3,825,000	5,604,075
Other nonmajor governmental funds	5,718,951	62,692
Other nonmajor enterprise fund	<u>—</u>	<u>136,628</u>
	<u>\$9,703,929</u>	<u>\$9,703,929</u>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

**West Des Moines Community School District
NOTES TO FINANCIAL STATEMENTS**

NOTE 5 CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2009 was as follows:

	<u>Balance June 30, 2008</u>	<u>Additions</u>	<u>Retirements</u>	<u>Balance June 30, 2009</u>
Governmental activities				
Capital assets, not being depreciated				
Land	\$ 4,166,298	\$ —	\$ —	\$ 4,166,298
Construction-in-progress	<u>2,266,688</u>	<u>10,744,833</u>	<u>2,324,372</u>	<u>10,687,149</u>
Total capital assets, not being depreciated	<u>6,432,986</u>	<u>10,744,833</u>	<u>2,324,372</u>	<u>14,853,447</u>

Business-type activities capital assets, net	<u>\$ 770,344</u>	<u>\$ (113,025)</u>	<u>\$ 3,078</u>	<u>\$ 654,241</u>

Depreciation expense was charged to the functions as follows:

Governmental activities		
Instruction		\$4,469,793
Support services		<u>810,626</u>
Total depreciation expense, governmental activities		<u>\$5,280,419</u>
Business-type activities, nutrition		<u>\$ 128,684</u>

**West Des Moines Community School District
NOTES TO FINANCIAL STATEMENTS**

NOTE 6 LONG-TERM DEBT

The following is a summary of changes in long-term debt of the District including liabilities for compensated absences and early retirement:

	<u>Balance June 30, 2008</u>	<u>Additions</u>	<u>Retirements</u>	<u>Balance June 30, 2009</u>	<u>Balances due within one year</u>
Governmental activities					
General obligation bonds	\$ 2,345,000	\$ -	\$1,155,000	\$1,190,000	\$1,190,000
Revenue bonds	10,460,000	-	5,120,000	5,340,000	5,340,000
Compensated absences	<u>381,955</u>	<u>508,925</u>	<u>530,885</u>	<u>359,995</u>	<u>359,995</u>
Totals	<u>\$13,186,955</u>	<u>\$ 508,925</u>	<u>\$6,805,885</u>	<u>\$6,889,995</u>	<u>\$6,889,995</u>

Compensated absences are generally liquidated by the General Fund.

The District's general obligation debt is as follows:

General Obligation Bonds

- On March 1, 2006, the District issued \$6,025,000 in General Obligation Bonds with an average interest rate of 3.75 percent. As of June 30, 2009, the unpaid balance on the 2006 bonds was \$1,190,000.

Local Option Sales and Service Tax Revenue Bonds

- An issue dated April 1, 2002, having an interest rate of 4.625 percent and an unpaid balance of \$5,340,000. The bonds are special limited revenue obligations and payments of principal and interest are secured solely by a pledge of the local option tax revenues and by the reserve funds and certain other amounts held under the bond resolution.

Principal payments for the bonds are due annually on June 1 and interest payments are due semiannually on June 1 and December 1.

Annual debt service requirements to service all outstanding indebtedness as of June 30, 2009, are as follows:

<u>Year ending June 30</u>	<u>General Obligations Bonds</u>		<u>Revenue Bonds</u>	
	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>
2010	\$1,190,000	\$ 44,625	\$5,340,000	\$ 246,975

The District has pledged future local option sales and services tax revenues to repay the \$5,340,000 of remaining bonds issued in April, 2002. The bonds were issued for the purpose of financing a portion of the costs of remodeling and building schools. The bonds are payable solely from the proceeds of the local option sales and services tax revenues received by the District and are payable through 2010. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds are expected to require less than 100 percent of the local option sales and services tax revenues. The total principal and interest remaining to be paid on the notes is \$5,586,975. For the current year, \$5,603,775 of principal and interest was paid on the bonds and total local option sales and services tax revenues were \$8,818,452.

**West Des Moines Community School District
NOTES TO FINANCIAL STATEMENTS**

NOTE 6 LONG-TERM DEBT (continued)

As of June 30, 2009, the District did not exceed its legal debt margin computed as follows:

Total assessed valuation	<u>\$6,547,941,502</u>
Debt limit, 5% of total assessed valuation	\$327,397,075
Amount of debt applicable to debt limitation, total indebtedness	<u>6,530,000</u>
Excess of debt limit over debt outstanding, legal debt margin	<u>\$320,867,075</u>

NOTE 7 EARLY RETIREMENT

In order to hasten early retirement, the District offered an early retirement plan benefit to its employees. The Board reserves the right to amend or revoke this Early Retirement Plan or any provision of this plan at any time, with or without notice.

To be eligible to participate in this Plan, an employee must (1) have worked a minimum of thirty hours per week, or seventy percent of contract, during each of the last ten full years of service; (2) a year of service refers to a school year. Thus, in order to count as a school year, the employee must be employed by the first student contact day in order for that year to count towards a full year of service; (3) have a minimum of ten full years of continuous service in the District; (4) have obtained the age of fifty-five as of June 30, 2009; (5) an employee terminated for just cause, or receiving payments or benefits from or on behalf of the District that are not tied to the performance of current duties, is not eligible (6) an employee is eligible to participate in the plan only at the end of the current school year.

Benefits to eligible employees include a lump sum payment in January following retirement, which is based on the number of sick leave days accumulated as of retirement (125 maximum for nine- and ten-month employees or 135 maximum for 11- and 12-month employees) multiplied by \$20 per day. In addition, eligible employees will receive single District/major medical insurance paid-in-full by the District through the month prior to the employee's 65th birthday.

As of June 30, 2009, the District has \$868,010 accrued in the Management Fund, as it is considered due, and an additional \$2,995,410 recorded in the government-wide financial statements. The current year cost to the District was \$917,650 which consisted of 145 participants in the plan. A summary of changes in liability for early retirement is shown as follows:

Balance, June 30, 2008	\$4,779,169
Additions	1,901
Reductions	<u>(917,650)</u>
Balance, June 30, 2009	<u>\$3,863,420</u>

NOTE 8 OTHER POST EMPLOYMENT BENEFITS

The District has implemented Governmental Accounting Standards Board, GASB, Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions* during the year ended June 30, 2009. The District operates a single-employer retiree benefit plan which provides medical benefits, including prescription drugs for retirees and their spouses and dependents. There are 933 active and 139 retired members in the plan. Participants must be age 55 or older at retirement.

**West Des Moines Community School District
NOTES TO FINANCIAL STATEMENTS**

NOTE 8 OTHER POST EMPLOYMENT BENEFITS (continued)

The medical benefit plans are self-insured and are administered by a third party. Retirees under age 65 pay a monthly contribution equal to the current monthly premium equivalents by plan/rate tier less a subsidy provided by the District. The District's subsidy is equal to the Blue Advantage HMO premium equivalent amount for single employees. The retiree must pay the premium cost differential for the Alliance Select PPO and the full additional cost for any dependents, regardless of plan selected. This results in an implicit subsidy and an Other Post Employment Benefit, OPEB, liability. The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

The District's annual OPEB cost is calculated based on the annual required contribution, ARC, of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The following table shows the components of the District's annual OPEB cost for June 30, 2009, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

Annual required contribution, ARC	\$2,633,000
Interest on net OPEB obligation	—
Adjustment to annual required contribution	—
Annual OPEB cost	<u>2,633,000</u>
Contributions made	<u>1,392,000</u>
Increase in net OPEB obligation	1,241,000
Net OPEB obligation, beginning of year	<u>—</u>
 Net OPEB obligation, end of year	 <u>\$1,241,000</u>

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2007. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2009.

For the year ended June 30, 2009, the District contributed \$1,392,000 to the plan. The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as of June 30, 2009 are summarized as follows:

<u>Fiscal year ended</u>	<u>Annual OPEB cost</u>	<u>Percentage of annual OPEB cost contributed</u>	<u>Net OPEB obligation</u>
June 30, 2009	<u>\$2,633,000</u>	<u>53%</u>	<u>\$1,241,000</u>

As of July 1, 2007, the most recent actuarial valuation date for the period July 1, 2008 through June 30, 2009, the actuarial accrued liability was \$22,912,000 with no actuarial value of assets, resulting in an unfunded actuarial accrued liability, UAAL, of \$22,912,000. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$50,195,000, and the ratio of the UAAL to the covered payroll was 46%. As of June 30, 2009, there were no trust fund assets.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information in the section following the Notes to Financial Statements, will present multiyear trend information about whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

**West Des Moines Community School District
NOTES TO FINANCIAL STATEMENTS**

NOTE 8 OTHER POST EMPLOYMENT BENEFITS (continued)

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2007 actuarial valuation date, the projected unit credit actuarial cost method was used. The actuarial assumptions include a 5% discount rate based on the District's funding policy. The projected annual medical trend rate is 11%. The ultimate medical trend rate is 6%. The medical trend rate is reduced .5% each year until reaching the 6% ultimate trend rate.

Mortality rates are from the RP2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the Iowa Public Employees' Retirement System Actuarial Valuation Report as of June 30, 2006.

Projected claim costs of the medical plan are approximately \$770 per month for retirees. The salary increase rate was assumed to be 4% per year. The UAAL is being amortized as a level dollar amount on an open basis over a period of 30 years.

NOTE 9 RETIREMENT SYSTEM

The District contributes to the Iowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the state of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa 50306-9117.

Plan members are required to contribute 4.10 percent of their annual salary and the District is required to contribute 6.35 percent of annual payroll. Contribution requirements are established by state statute. The District's contribution to IPERS for the years ended June 30, 2009, 2008 and 2007 were \$3,240,456, \$2,889,881 and \$2,582,191, respectively, equal to the required contributions for each year.

NOTE 10 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; and natural disasters. These risks, except injuries to employees and claim payments for health and dental insurance, are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The District has established an internal service fund to account for premium and claim payments for a self-insured group health insurance plan for the District's employees to meet potential losses from medical claims. Self-insurance is in effect up to an individual stop loss amount of \$100,000 and aggregate amount of 125 percent of expected claims. The District also self-insures for its dental plan. The dental plan includes no aggregate reinsurance.

**West Des Moines Community School District
NOTES TO FINANCIAL STATEMENTS**

NOTE 10 RISK MANAGEMENT (continued)

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Claims payable include all known claims and an amount for claims that have been incurred but not reported (IBNR). Claim liabilities are estimated by considering the effects of inflation, recent claim settlement trends, including frequency and amount of pay-outs, and other economic and social factors. Changes in the balances of claims payable during the years ended June 30, 2009 and 2008 are as follows:

	Self-Insurance Fund	
	2009	2008
Claims payable, beginning of year	\$ 3,041,118	\$1,891,966
Incurred claims (including IBNR)	11,677,980	9,860,906
Claim payments	9,237,960	8,711,754
Claims payable, end of year	\$ 5,481,138	\$3,041,118

Each participating fund makes payments to the self-insurance fund for amounts which are determined based on historical claims experience. Such payments are displayed on the financial statements as revenues and expenditures/expenses. There have been no significant reductions in insurance coverage from the prior year.

The District became self insured for its workers' compensation exposures beginning in September 2005. Claims which are due and payable are recorded in the Management Fund, a nonmajor governmental fund. Losses on workers' compensation claims are limited through the purchase of stop-loss insurance to \$250,000 per individual and an aggregate amount of \$1,000,000. Liabilities are reported in the financial statements in accounts payable. Changes in the balances of claims liabilities for the year ended June 30, 2009 are as follows:

	Year ended 2009
Claims payable, beginning of year	\$ 180,000
Incurred claims (including IBNR)	364,274
Claim payments	294,274
Claims payable, end of year	\$ 250,000

NOTE 11 AREA EDUCATION AGENCY

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the local area education agency. The District's actual amount for this purpose totaled \$3,155,238 for the year ended June 30, 2009 and is recorded in the General Fund by making a memorandum adjusting entry to the financial statements.

NOTE 12 CONTINGENCIES

As of June 30, 2009, the District is involved in various claims against the District that arise in the normal course of operations, which are covered by insurance. The outcome and eventual liability of the District, if any, from these claims and any unasserted claims is not known at this time; however, management does not believe they will be material to the basic financial statements.

**West Des Moines Community School District
NOTES TO FINANCIAL STATEMENTS**

NOTE 13 COMMITMENTS

The District has financial commitments relating to remodel/addition construction projects at two elementary and one junior high estimated to be approximately \$14,762,000 in total as of June 30, 2009 of which \$7,935,000 of costs had been incurred against the contracts as of June 30, 2009.

NOTE 14 NEW GOVERNMENTAL ACCOUNTING STANDARDS BOARD (GASB) STATEMENTS

The GASB has issued several statements not yet implemented by the District. The statements which might impact the District are as follows:

GASB Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*, will be effective for the District beginning with its year ending June 30, 2010. This Statement requires that all intangible assets not specifically excluded by its scope provisions be classified as capital assets.

GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, will be effective for the District beginning with its year ending June 30, 2010. This Statement requires that derivative instruments be reported at fair value.

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, will be effective for the District beginning with its year ending June 30, 2011. This Statement establishes criteria for classifying fund balances into specifically defined classifications and clarifies definitions for governmental fund types.

The District's management has not yet determined the effect these Statements will have on the District's financial statements.

West Des Moines Community School District
NOTE TO REQUIRED SUPPLEMENTARY INFORMATION—BUDGETARY REPORTING
Year ended June 30, 2009

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds, except internal service and agency funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is adopted on a basis consistent with accounting principles generally accepted in the United States of America.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functional areas, not by fund or fund type. These four functional areas are instruction, support services, noninstructional programs and other expenditures. The legal level of control is at the aggregated functional level, not at the fund or fund type level. During the year, the District adopted one budget amendment increasing budgeted disbursements by \$14,194,871.

**West Des Moines Community School District
STATISTICAL SECTION
CONTENTS**

The statistical section of the West Des Moines Community School District's comprehensive annual financial report presents detailed information as a context for understanding what the information presented in the financial statements, note disclosures and required supplementary information say about the District's overall financial health.

CONTENTS	<u>Page</u>
Financial Trends These schedules contain trend information to help the reader understand how the District's financial performance and well being have changed over time.	55-68
Revenue Capacity These schedules contain information to help the reader assess the District's most significant local revenue sources, the property tax (or sales tax).	70-74
Debt Capacity These schedules present information to help the reader assess the affordability of the District's current level of outstanding debt and the District's ability to issue additional debt in the future.	75-79
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	80-82
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	83-90

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual report for the relevant year. The District implemented GASB 34 in fiscal year 2003; schedules presenting government-wide information include information beginning in that year.

Note: The assessed values are determined as of January 1, of the prior fiscal year indicated. These assessed values are used to calculate the taxable values for the second budget following assessment date. For example the total assessed value of \$5,113,767,410 from January 1, 2006 are used for the taxable values for fiscal year 2008.

* Gas and electric was broken out of the total utilities in fiscal year 2000 due to change in state law. Gas and electric is no longer subject to property tax, but instead pay utility replacement taxes.

West Des Moines Community School District
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
Year ended June 30, 2009

NOTE 1 BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards presents the activity of all federal financial assistance programs of West Des Moines Community School District for the year ended June 30, 2009. All federal financial assistance received directly from federal agencies as well as federal financial assistance passed through other government agencies is included in the schedule. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments and Nonprofit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Revenue from federal awards is recognized when the District has done everything necessary to establish its right to revenue. For governmental funds, revenue from federal grants is recognized when they become both measurable and available. Expenditures of federal awards are recognized in the accounting period when the liability is incurred.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Education
West Des Moines Community School District
West Des Moines, Iowa

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of West Des Moines Community School District (the District) as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 20, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing our opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of West Des Moines Community School District's internal control over financial reporting.

A control deficiency exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the District's financial statements that is more than inconsequential will not be prevented or detected by the District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies that results in more than a remote likelihood a material misstatement of the financial statements will not be prevented or detected by the District's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2009 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

The District's responses to findings identified in our audit are described in the accompanying schedule of findings. While we have expressed our conclusions on the District's responses, we did not audit the District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of the District and other parties to whom the District may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

To the Board of Education
West Des Moines Community School District
West Des Moines, Iowa

Compliance

We have audited the compliance of West Des Moines Community School District (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133, *Compliance Supplement*, that are applicable to each of its major federal programs for the year ended June 30, 2009. The District's major federal programs are identified in the summary of independent auditor's results section of the accompanying schedule of findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2009.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grant agreements applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on its major federal programs in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A control deficiency in the District's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to administer a federal program such that there is more than a remote likelihood noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the District's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of the District and other parties to whom the District may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

SCHEDULE OF FINDINGS
Year ended June 30, 2009**

Part I—Summary of the Independent Auditor's Results

- (a) An unqualified opinion was issued on the financial statements.
- (b) No significant deficiencies or material weaknesses in internal control over financial reporting were disclosed by the audit of the financial statements.
- (c) The audit did not disclose any noncompliance which is material to the financial statements.
- (d) No significant deficiencies or material weaknesses in internal control over the major programs were disclosed by the audit of the financial statements.
- (e) An unqualified opinion was issued on compliance with requirements applicable to each major program.
- (f) The audit disclosed no audit findings which were required to be reported in accordance with Office of Management and Budget Circular A-133, Section 510(a).
- (g) Major programs were as follows:
 - National School Nutrition Cluster
 - CFDA Number 10.555 National School Lunch Program
 - CFDA Number 10.553 National School Breakfast Program
 - CFDA Number 10.559 Summer Food Service Program for Children

 - CFDA Number 84.394 ARRA Stabilization
- (h) The dollar threshold used to distinguish between Type A and Type B programs was \$300,000.
- (i) West Des Moines Community School District qualified as a low-risk auditee.

West Des Moines Community School District
SCHEDULE OF FINDINGS (continued)
Year ended June 30, 2009

Part II Findings Relating to the Financial Statements Reported in Accordance with Government Auditing Standards

None

Part III Findings and Questioned Costs for Federal Awards

None

West Des Moines Community School District
SCHEDULE OF FINDINGS (continued)
Year ended June 30, 2009

Part IV—Other Findings Related to Required Statutory Reporting

09-IV-A CERTIFIED BUDGET

Expenditures for the year ended June 30, 2009 did not exceed the amount budgeted.

09-IV-B QUESTIONABLE EXPENDITURES

No expenditures that we believe may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979 were noted.

09-IV-C TRAVEL EXPENSE

No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

09-IV-D BUSINESS TRANSACTIONS

No business transactions between the District and District officials or employees were noted.

09-IV-E BOND COVERAGE

Surety bond coverage of District officials and employees is in accordance with statutory provisions.

09-IV-F BOARD MINUTES

Board minutes are in accordance with statutory provisions.

09-IV-G CERTIFIED ENROLLMENT

No material variances in the basic enrollment data certified to the Department of Education were noted.

09-IV-H DEPOSITS AND INVESTMENTS

No instances of noncompliance with the deposit and investment provisions of Chapter 12B and 12C of the Code of Iowa and the District's investment policy were noted.

09-IV-I CERTIFIED ANNUAL REPORT

The certified annual report was filed with the Department of Education timely and we noted no significant deficiencies in the amounts reported.

09-IV-J CATEGORICAL FUNDING

No instances were noted of categorical funding being used to supplant rather than supplement other funds.

**West Des Moines Community School District
SCHEDULE OF FINDINGS (continued)
Year ended June 30, 2009**

Part IV—Other Findings Related to Required Statutory Reporting

09-IV-K STATEWIDE SALES AND SERVICES TAX

No instances of noncompliance with the use of the statewide sales and services tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales and services tax. For the year ended June 30, 2009, the District's financial activity and other required information for the statewide sales and services tax are as follows:

Beginning balance		\$10,414,806
Revenues/transfers in		
Statewide sales and services tax revenue	\$ 8,818,452	
Investment earnings	290,249	
Physical plant and equipment for capital projects	<u>3,825,000</u>	12,933,701
Expenditures/transfers out		
School infrastructure		
Buildings	\$10,719,652	
Equipment	265,191	
Debt service for school infrastructure		
Revenue debt	<u>5,604,075</u>	<u>16,588,918</u>
Ending balance		<u>\$ 6,759,589</u>
