

Iowa Comprehensive Annual Financial Report

For the Fiscal Year Ended June 30, 2008

Wind energy has become one of today's lower cost renewable energy technologies. Wind turbines are becoming a more common sight in Iowa and our state leads the nation in percentage of electricity generated by wind. Currently, Iowa is one of the top destinations for wind manufacturing expansion. We are the third largest producer of wind energy in the U.S., behind California and Texas. Our state's topography and electric transmission lines combine for a wind energy friendly environment. As demand for wind energy continues to grow, Iowa will work with wind turbine, blade and tower manufacturing operations to bolster production in this vital industry.

December 10, 2008

TO THE CITIZENS, GOVERNOR AND MEMBERS OF THE IOWA GENERAL ASSEMBLY

In accordance with Iowa Code Section 8A.502(8), we are pleased to submit the Comprehensive Annual Financial Report (CAFR) for the State of Iowa for the fiscal year ended June 30, 2008. As required by State statute, this report has been prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP) for governments as promulgated by the Governmental Accounting Standards Board (GASB).

The Department of Administrative Services and the Department of Management are responsible for both the accuracy of the presented data, and the completeness and fairness of the presentation. We believe the information presented is accurate in all material respects and the necessary disclosures have been made which enable the reader to obtain an understanding of the State's financial activity.

The State's system of internal controls over assets recorded in the accounting system have been designed to provide reasonable, but not absolute, assurance that assets are safeguarded against unauthorized use or disposition, and that financial records from all appropriate sources are reliable for preparing financial statements and maintaining accountability. The concept of reasonable assurance recognizes the cost of internal controls should not exceed the benefits likely to be derived from their use. To monitor the adequacy of internal controls, the Auditor of State reviews internal control procedures as an integral part of departmental audits.

The Auditor of State is required by Chapter 11 of the Code of Iowa to audit annually all departments of the State. The accompanying basic financial statements of the State of Iowa have been audited by the Auditor of State in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in "Government Auditing Standards", issued by the Comptroller General of the United States. His report appears elsewhere herein. In addition, the Auditor of State conducts a single audit under the requirements set forth in the Single Audit Act of 1984, the Single Audit Amendments of 1996, and OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations". That report is issued separately.

GAAP require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of the Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A, and should be read in conjunction with it. The MD&A can be found immediately following the Independent Auditor's Report.

PROFILE OF THE GOVERNMENT

The State of Iowa was admitted into the Union as the 29th state in 1846. Iowa is a midsize state with a mid-continent location. It covers 55,869 square miles, making it the 25th largest state in the United States. The Mississippi River carves out Iowa's eastern border, while the flow of the Missouri and Big Sioux Rivers form the western border. Iowa has a population of 3.0 million.

In Iowa, government power is distributed among three branches. The Legislative branch creates laws that establish policies and programs; the Executive branch carries out the policies and programs created in the laws; and the Judicial branch resolves any conflicts arising from interpretation or application of the laws. The Executive branch agencies are the Governor, Lieutenant Governor, Secretary of State, Treasurer of State, Secretary of Agriculture, Attorney General and Auditor of State, as well as 30 agencies lead by appointed State officials. The Legislative branch is comprised of two houses, a 50 member Senate and a 100 member House of Representatives. The Judicial branch is presided over by the Iowa Supreme Court, which is led by the Chief Justice of the Supreme Court.

The State provides a range of services such as education, health and human services, highway maintenance and construction, natural resources and agriculture management, law enforcement, public safety, and economic development programs.

This report includes all of the fund types, departments and agencies of the state, as well as the boards, commissions, authorities, and universities for which the State is financially accountable. Component units also included in the report are the Iowa Finance Authority, Iowa Higher Education Loan Authority, Iowa Agricultural Development Authority, Iowa State Fair Authority and Universities Foundations. The reader is directed to Note 1.B in the Notes to the Financial Statements for a more complete description of the factors used to define the reporting entity.

State Budget and Budgetary Controls. The annual budgetary process serves as the foundation for the state's financial planning and control. Each year state departments submit budget requests to the Governor's Office by October 1. The State's budget is prepared by the Governor on an annual basis and is required to be submitted, along with proposed appropriation bills, to the General Assembly by the first of February prior to the new fiscal year. The General Assembly approves appropriation bills which establish spending authority for the upcoming fiscal year. The Governor has the ability to approve, veto or item veto appropriation bills as they are presented to him.

Departments may request revisions to allotments, appropriations transfers, or supplemental appropriations. The Department of Management approves revised allotments within an appropriation, subject to the Governor's review. The Governor and the Department of Management approve all appropriation transfers. The General Assembly and the Governor act on supplemental appropriation bills in a manner similar to original appropriations. Appropriations lapse at fiscal year-end and all unencumbered or unobligated balances revert to the state treasury, unless otherwise provided.

All claims presented for payment must be approved by the appropriate department. The expenditure must be for a purpose intended by law and a sufficient existing and unexpended appropriation balance must be available. Budgetary controls are incorporated into State accounting systems. The annual budget of the State is established through separate appropriations to individual departments for specific purposes, special outlays and/or operating expenditures. Budgetary control is essentially maintained at the departmental level except for certain grant and aid programs where control is maintained at the program level.

ECONOMIC CONDITION AND OUTLOOK

National Economic Outlook 2008-2009

Recent issues in the credit market concerning sub-prime mortgage lending and the housing market problems have led people to believe the national economy is in recession. The Federal Reserve lowered the federal funds rate to 1.00 percent and the discount rate to 1.25 percent in October 2008.

Due to these events, the U.S. Bureau of Economic Analysis (BEA) released estimates that economic growth decreased 0.3 percent in the third quarter of 2008, after increasing 2.8 percent in the second quarter. According to the BEA, the decrease in the third-quarter real Gross Domestic Product (GDP) growth primarily reflected negative contributions from personal consumption expenditures, residential fixed investment, and equipment and software. However, imports have decreased which positively impacted the real GDP.

The outlook of the national economy, according to experts, is a sluggish pace for the near future. The widespread state GDP growth in almost all the states in 2006 has tapered off in 2007 and 2008, due to the mortgage credit crisis, the housing slump, and highly volatile world oil prices. Moody's Economy.com is expecting negative growth of 2.2 percent in the fourth quarter of 2008 and negative 1.0 percent the first quarter of 2009, with GDP staying even for the second quarter and increasing 2.2 percent in the third quarter of 2009. The unemployment rate is currently its highest rate since the 1990s at 6.5 percent. Core Consumer Price Index (CPI) inflation is expected to increase about 0.18 percent by the end of 2008. This would predict a 2.5% drop from 2007 to 2008 in CPI. Cars, apparel and transportation were the main contributors to the CPI decrease.

State and Local Economy

Iowa's economy is supported by a diverse mixture of industry, agriculture, services and government employment. For example, eleven years ago (1997), the agricultural industry accounted for 6.5 percent of Iowa's gross domestic product by state, finance and insurance 8.0 percent, real estate, rental and leasing 8.5 percent, and professional and technical services 3.2 percent. By 2007, the shares of Iowa's gross domestic product had changed to 6.0 percent for the agricultural industry, 10.7 percent for finance and insurance, 8.3 percent for real estate, rental, and leasing, and 3.2 percent for professional and technical services.

The agricultural sector remained relatively stable during the last seven years. Approximately 93 percent of the land area in the state is in farms. The Iowa Department of Agriculture and Land Stewardship reported in 2006, Iowa led the nation in the production of pork, corn, soybeans and eggs. Iowa's total cash receipts for farm commodities in 2007 totaled \$19.7 billion. According to the National Agricultural Statistics Service (NASS), this is obtained through 47 percent livestock and 53 percent crops. The state ranks third in the country, behind California and Texas. Iowa produces more ethanol per year than any other state. Currently the 30 ethanol plants in Iowa produce well over 2 billion gallons annually. The Federal Reserve Bank of Chicago reports the value of farmland in Iowa increasing by 15.0 percent from July 1, 2007 to July 1, 2008. For the same period last year, the value of farm land increased by 18.0 percent.

Farmland Values. The most recent survey of area bankers indicates that farmland values continue to rise. In the August 2008 survey, Iowa farmland values had risen 3.0 percent from April to July 2008. This was tied for second for quarterly growth in land values in the Federal Reserve Bank of Chicago District behind Indiana which experienced a 6.0 percent growth rate. Iowa had an annual growth rate of 15.0 percent.

Personal Income and Per-Capita Personal Income. The University of Iowa Institute for Economic Research's latest outlook is for personal income in Iowa to grow by 5.3 percent in 2008 and 5.0 percent in 2009. According to the BEA, in the last three quarters of 2007-08 fiscal year, Iowa's personal income, seasonally adjusted, grew at a rate of 1.38 percent, 0.91 percent and 1.56 percent respectively, which was similar to the nation as a whole, with personal income growth of 1.19 percent, 0.79 percent and 1.79 percent, respectively. Iowa's average per-capita income has been trending upward since the mid 1980's. In 2007, Iowa's average per-capita income, as reported by BEA, was \$34,796. The average per-capita income in the nation was \$38,564.

Employment. Over the past 10 years, Iowa's unemployment rate has been between one and two percentage points below the national average. The seasonally adjusted unemployment rate for Iowa in September 2007 was 3.8 percent, and the rate for September 2008, was 4.2 percent. In September 2008, there were 1,685,300 employed Iowans, compared to 1,663,400 employed Iowans in September 2007. Iowa has a greater percentage of labor force employed compared to the nation as a whole and also has a larger percentage of its population actively participating in the labor force. While Iowa's personal income lags that of the nation, its high levels of employment help maintain median household income at levels only slightly below the national average. In the 2007 American Community Survey (ACS) data, Iowa's median household income was \$47,292, in 2007 inflation-adjusted dollars. The national median household income was reported at \$50,740, in 2007 inflation-adjusted dollars.

Manufacturing. Iowa's manufacturing employment averaged 229,500 for 2007, which was a slight drop from the sector's highest level of employment since the late 1990's achieved in 2006. Currently, durable goods products account for about 61.7 percent of manufacturing employment, and also account for most of the growth in the industry. Due to the nationwide slowdown in homebuilding, manufacturing employment is expected to decrease by about 500 in 2008, and another 1,000 in 2009.

Exports. The rise in exporting industries has been an important factor in Iowa's economic growth since the 1990's. Growth in exports of industrial machinery, instruments and measurement devices, electronics, specialized transportation equipment, chemicals and pharmaceuticals, and processed food products have helped diversify Iowa's economy. When combined with traditional farm commodities and livestock, total exports from Iowa have continued to increase. Specifically, the last ten years have seen steady and strong growth. From 2006 to 2007 Iowa exports increased 14.1 percent and accounts for about 0.8 percent of the total exports from the United States.

Mexico continues to be Iowa's second best trading partner and has replaced Japan and Germany as the second leading export country, partially due to the increase of value-added products shipped to Mexico. Canada continues to maintain the top spot. Iowa's record level of exports has been fueled by large percentage increases in corn, soybeans and flours.

Gross Domestic Product. The gross domestic product is the U.S. Commerce Department's measure of the value of all goods and services produced in Iowa each year. In 2007, Iowa's real gross domestic product by state was \$107.0 billion, which reflected a 1.7 percent-growth over the previous year. Contributing to this change were agriculture, forestry, fishing and hunting (10.15 percent increase), utilities (10.02 percent increase), information (6.52 percent increase), professional and technical services (5.67 percent increase), administrative and waste services (5.56 percent increase), and management of companies and enterprises (4.87 percent increase), among others. The nation's real gross domestic product (\$11.47 trillion) grew by 2.0 percent between 2006 and 2007.

Nonagricultural Economy. Over the past 15 years, significant changes have occurred in the mix of nonfarm wage and salary employment. While payroll jobs in Iowa grew by 0.4 percent, jobs in the business services sector decreased by 0.6 percent, and the financial services sector grew by 0.5 percent. Conversely, manufacturing jobs decreased by 1.0 percent.

Financial Policies

The Governor and General Assembly have statutory responsibility to balance the budget.

- Spending is limited to 99.0 percent of adjusted revenues, 95.0 percent of any new revenue implemented in a fiscal year, and any carry-over from the previous year.
- The Governor and the Legislature are required to use the revenue estimates agreed to by the December Revenue Estimating Conference or a later estimate, if it is lower, as a basis to determine the General Fund budget for the following year.
- Two reserve funds were created; the Cash Reserve Fund and the Economic Emergency Fund. Expenditures from these funds are limited by statute for nonrecurring emergency expenditures.

MAJOR INITIATIVES AND ISSUES

Student Achievement/Teacher Quality. During the 2008 session, the Legislature continued the commitment to Student Achievement and Teacher Quality by including an additional \$75 million appropriation toward this program in fiscal year 2009 on top of \$70 million appropriated in fiscal year 2008. This will provide additional funding to local schools to increase teacher salaries and move toward the goals of increasing student achievement.

Preschool Initiatives. During the 2008 session, Governor Culver and the Legislature continued work on preschool legislation. Included in these policies are an additional \$17.1 million to support preschool development on top of the \$15 million which was appropriated in fiscal year 2008. This will provide substantially greater resources for preschool to better prepare Iowa's youngest children to learn.

Alternative Energy Initiatives. Governor Culver recommended and the Legislature passed \$25 million for the second year of the \$100 million Iowa Power Fund to maintain leadership in the development and production of renewable energy and alternative fuels.

Prison Construction. In an effort to modernize the state's prison infrastructure, Governor Culver recommended and the Legislature approved funding in fiscal year 2009 of \$206.1 million from revenue bonding to rebuild the state's maximum security prison, rebuild and expand the state's prison for women and expand community based corrections facilities.

AWARDS AND ACKNOWLEDGEMENTS

Certificate of Achievement. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Iowa for its comprehensive annual financial report for the fiscal year ended June 30, 2007. This was the fifteenth consecutive year the State of Iowa has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgment. The preparation of this report on a timely basis requires the collective efforts of numerous finance personnel throughout the State and is made possible only with the cooperation and support of the Executive, Legislative, and Judicial branch agencies, universities, and component units of the State.

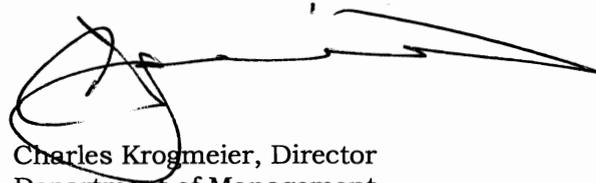

This report could not have been accomplished without the professionalism and dedication of the staff in the Department of Management, the State Accounting Enterprise within the Department of Administrative Services, the Auditor of State's Office, and the financial and management personnel throughout State government.

This report, issued for the twentieth consecutive year, continues our commitment to the citizens of the State of Iowa, the Governor, the Legislature, and the financial community, to maintain our financial statements in conformance with the highest standards of financial accountability.

Respectfully submitted,

Ray Walton, Interim Director
Department of Administrative Services

Charles Krogmeier, Director
Department of Management

Certificate of Achievement for Excellence in Financial Reporting

Presented to

State of Iowa

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2007

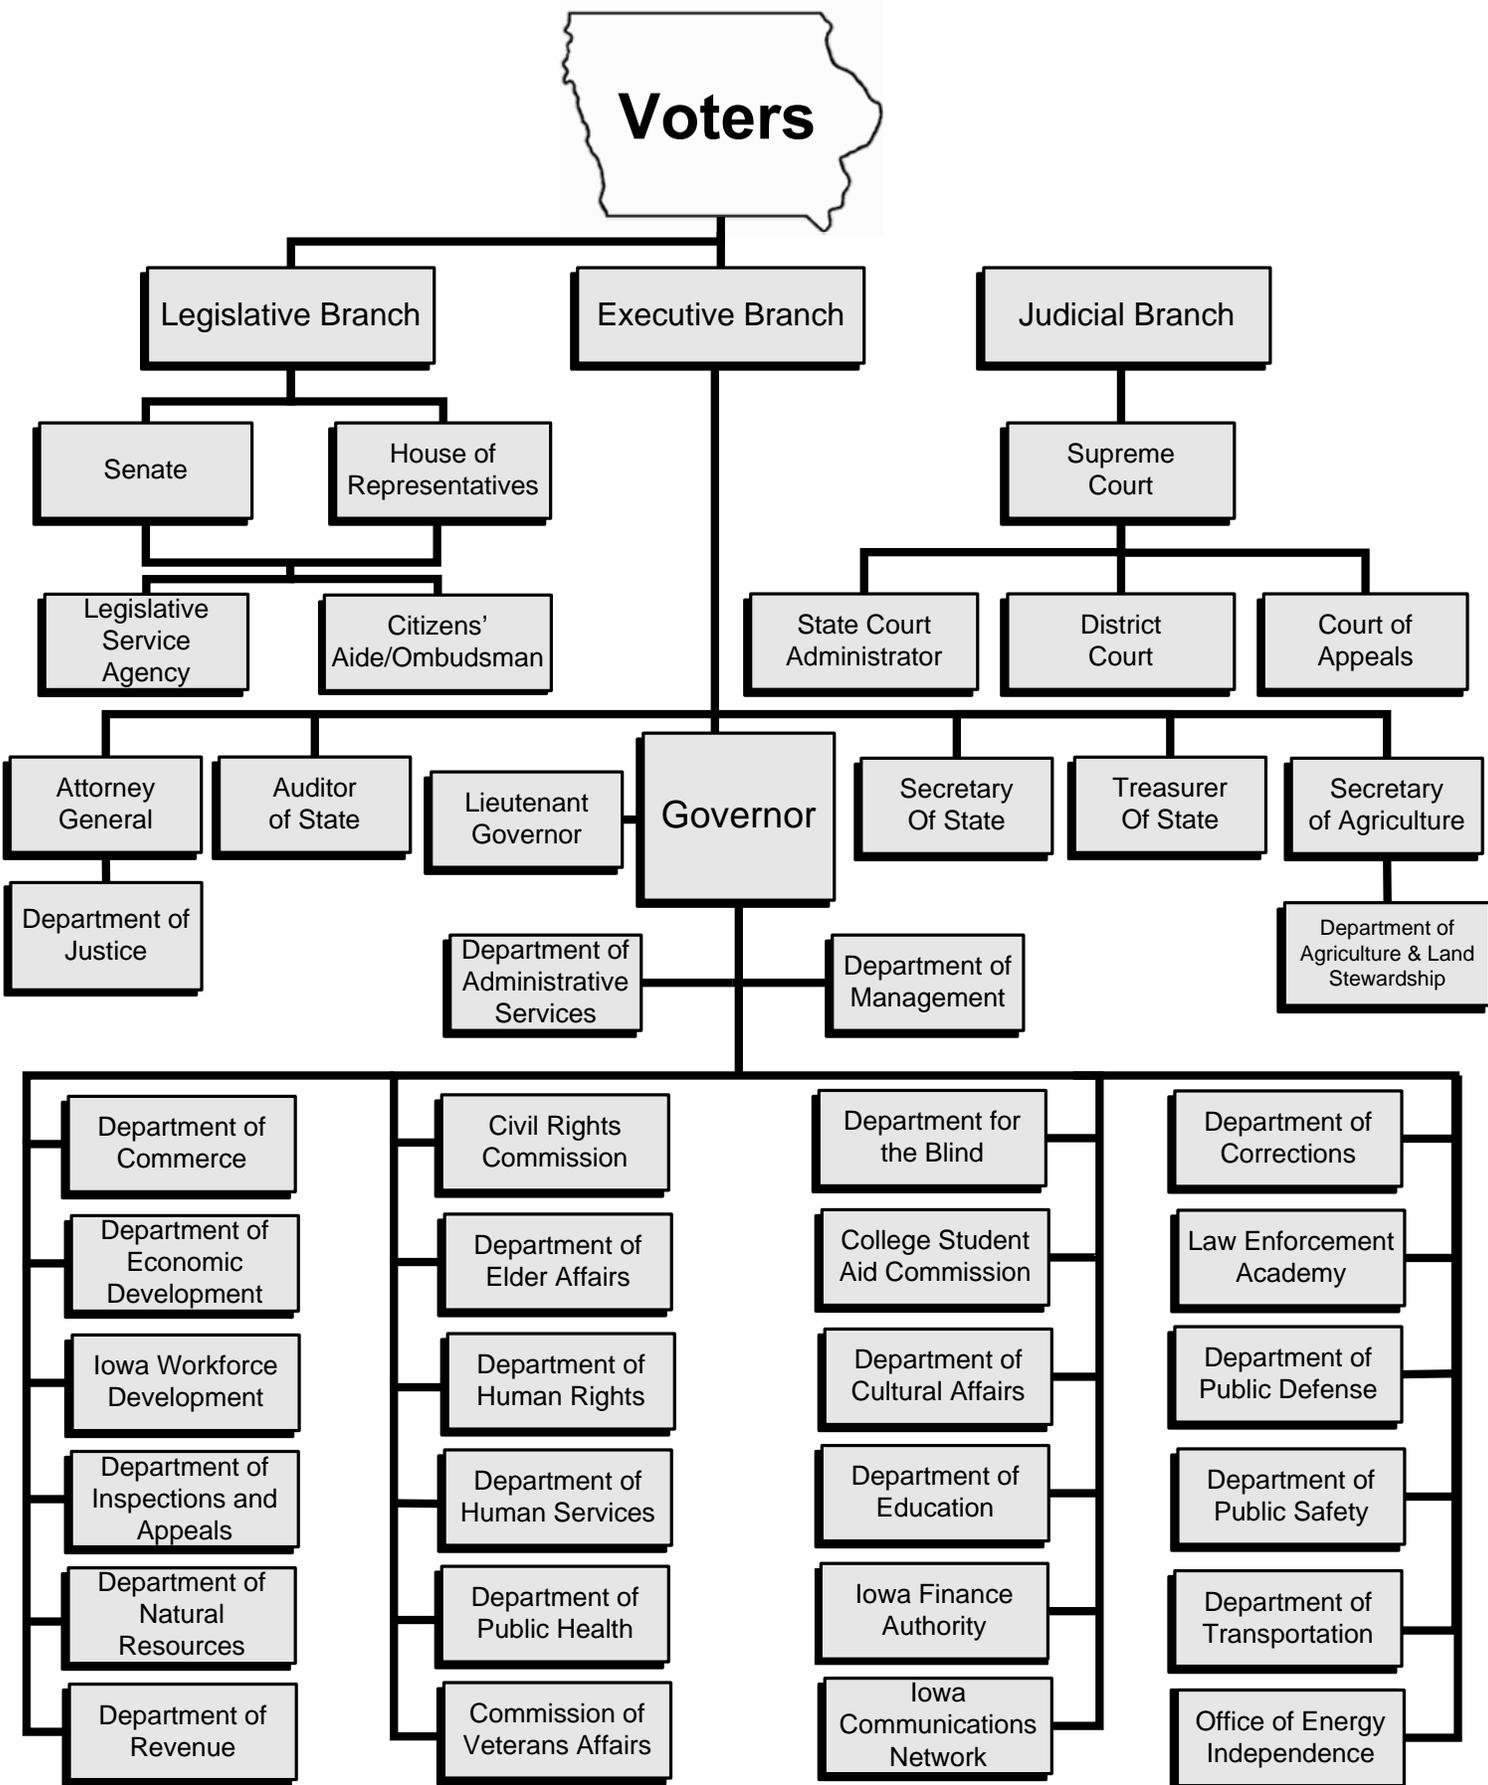

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

Independent Auditor's Report

To the Governor and Members of the General Assembly:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the State of Iowa as of and for the year ended June 30, 2008, which collectively comprise the State's basic financial statements listed in the table of contents. These financial statements are the responsibility of the State's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Tobacco Settlement Authority, a major governmental fund, and certain discretely presented and blended component units, which statements reflect 98% of assets and 93% of revenues of the discretely presented component units and 19% of assets and 7% of revenues of the nonmajor special revenue funds, respectively. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the major fund and these discretely presented and blended component units, are based on the reports of the other auditors.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Iowa Higher Education Loan Authority, the Universities Foundations and the Iowa Public Television Foundation were not audited in accordance with Government Auditing Standards. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit and the reports of the other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the State of Iowa as of June 30, 2008, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with U.S. generally accepted accounting principles.

As discussed in Note 25, the State's investments reported in the accompanying financial statements have incurred significant declines in value since June 30, 2008, due primarily to unprecedented volatility and selling pressure in the capital markets. The amount and extent of recovery, if any, the period over which recovery may occur and the amount of losses, if any, the State will recognize in future financial statements are indeterminable.

Management's Discussion and Analysis, Budgetary Comparison Information and Schedules of Funding Progress on pages 4 through 14 and 84 through 91 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. We did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Iowa's basic financial statements. The supplementary information and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

In accordance with Government Auditing Standards, our report on the State of Iowa's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters will be issued under separate cover. The purpose of that report is to describe the scope of our testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

DAVID A. VAUDT, CPA
Auditor of State

WARREN G. JENKINS, CPA
Chief Deputy Auditor of State

December 10, 2008

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management's Discussion and Analysis of the State of Iowa's Comprehensive Annual Financial Report (CAFR) presents a discussion and analysis of the State's financial performance during the fiscal year that ended on June 30, 2008. Readers are encouraged to consider this information in conjunction with the letter of transmittal located at the front of the CAFR, and the State's financial statements, which follow this section of the CAFR.

FINANCIAL HIGHLIGHTS – PRIMARY GOVERNMENT

Government-wide Highlights

- The assets of the State of Iowa exceeded its liabilities at the close of fiscal year 2008 by \$12,352.4 million (net assets). Of this amount \$1,564.1 million (unrestricted net assets) is available to be used to meet the State's ongoing obligations to citizens and creditors.
- Total net assets increased \$445.4 million in the fiscal year ended June 30, 2008. Net assets of governmental activities increased \$188.8 million, or 2.5 percent, while net assets of business-type activities increased \$256.6 million, or 6.0 percent.
- In the State's governmental activities, revenues increased 6.6 percent to \$12,148.5 million while expenses increased 8.1 percent to \$11,364.9 million.
- For business-type activities, revenues increased 3.3 percent to \$3,501.7 million while expenses increased 7.0 percent to \$3,902.4 million.

Fund Highlights

- The State's governmental funds reported a combined ending fund balance of \$2,673.4 million, a \$167.8 million increase from the prior year. Of this amount, \$567.5 million represents unreserved fund balance and the remaining \$2,105.9 million is reserved for specific purposes.
- The General Fund total fund balance increased \$243.3 million to \$2,296.7 million and the unreserved fund balance increased \$66.0 million to \$1,118.5 million at June 30, 2008.
- The proprietary funds reported net assets at year-end of \$4,689.5 million, an increase of \$257.9 million.

Long-term Debt

- The State's total long-term debt increased \$75.3 million, or 3.4 percent, to \$2,279.1 million during the current fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Financial Section of the CAFR consists of four parts—*management's discussion and analysis* (this section), the *basic financial statements, required supplementary information*, and an optional section that presents *supplementary information*.

Basic Financial Statements

The basic financial statements include the government-wide financial statements, the fund financial statements, and the notes to the financial statements.

Government-wide Financial Statements

The government-wide financial statements are intended to provide a broad view of the State's financial activity. These statements are prepared using the accrual basis of accounting and the economic resources measurement focus, in a manner similar to private-sector business.

- The Statement of Net Assets presents all of the State's assets and liabilities, with the difference between the two reported as "net assets." Over time, increases or decreases in the State's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- The Statement of Activities presents information about the change in the State's net assets. This statement is formatted to report direct expenses, program revenues and the net revenue or expense for each of the State's governmental functions and business-type activities. This format identifies the extent to which each function is self-financed or is supported by the general revenues of the State.

The government-wide financial statements of the State are divided into three categories:

- *Governmental activities*—Most services generally associated with State government, such as administration & regulation, education, health & human rights, human services, justice & public defense, economic development, transportation, and agriculture & natural resources, are included in this category.
- *Business-type activities*—State operations such as the Universities and the Unemployment Insurance Fund that charge fees to external customers and function similarly to private business are included here.
- *Component units*—These are operations that are legally separate from the State, but for which the State is financially accountable. The State’s discretely presented component units are:
 - Iowa Finance Authority (Business-type)
 - Iowa Higher Education Loan Authority (Business-type)
 - Iowa Agricultural Development Authority (Business-type)
 - Iowa State Fair Authority (Business-type)
 - University of Iowa Foundation (Business-type)
 - Iowa State University Foundation (Business-type)
 - University of Northern Iowa Foundation (Business-type)

Additional information about the State’s component units is presented in NOTE 1-B of the Notes to the Financial Statements.

Fund Financial Statements

The fund financial statements provide more detailed information about the State’s most significant funds. The State has three types of funds:

- *Governmental funds*—Most of the basic services provided by the State are accounted for in governmental funds. Governmental funds use the modified accrual basis of accounting and the flow of current financial resources measurement focus. Modified accrual accounting is used to show the flow of financial assets of the funds and the balances available for spending at year-end. These statements provide a detailed *short-term* view that assists in determining whether there are adequate financial resources available to meet the current needs of the State. Because this information does not encompass the long-term focus of the government-wide statements, reconciliation schedules accompany the governmental funds statements. The General Fund, Tobacco Settlement Authority and Tobacco Collections Fund are the State’s major governmental funds. Nonmajor governmental funds are reported by fund type in the Combining Financial Statements – Nonmajor funds.
- *Proprietary funds*—Services for which the State charges customers a fee are generally reported in proprietary funds. Proprietary funds use the accrual basis of accounting and, like the government-wide statements, provide both long-term and short-term financial information.
 - The State’s enterprise funds (one type of proprietary fund) are used to report activities, such as universities, that are presented as business-type activities in the government-wide statements.
 - The State’s internal service funds (the other type of proprietary fund) are used to account for activities that provide supplies and services for other State programs and activities—such as the Workers’ Compensation Fund.

The University Funds and the Unemployment Benefits are the State’s major proprietary funds. Nonmajor proprietary funds are reported by fund type in the Combining Financial Statements – Nonmajor funds.

- *Fiduciary Funds*—These funds are used to show assets held by the State as trustee or agent for others outside the State, such as the Iowa Public Employees’ Retirement System and the Iowa Educational Savings Plan Trust. Similar to proprietary funds, these funds use the accrual basis of accounting. Because the State cannot use these assets to finance its operations, fiduciary funds are not included in the government-wide financial statements discussed above.

Table 1

Major Features of the State's Government-wide and Fund Financial Statements				
	Government-wide Statements	Fund Statements		
		Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire State government (except fiduciary funds) and the State's component units	The activities of the State that are not proprietary or fiduciary, such as Human Services and Transportation	Activities the State operates similar to private businesses: the universities and the Iowa Communications Network	Instances in which the State is the trustee or agent for someone else's resources, such as the retirement plan for public employees
Required financial statements	<ul style="list-style-type: none"> • Statement of net assets • Statement of activities 	<ul style="list-style-type: none"> • Balance sheet • Statement of revenues, expenditures, and changes in fund balances 	<ul style="list-style-type: none"> • Statement of net assets • Statement of revenues, expenses, and changes in fund net assets • Statement of cash flows 	<ul style="list-style-type: none"> • Statement of fiduciary net assets • Statement of changes in fiduciary net assets
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; the State's funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All revenues and expenses during the year, regardless of when cash is received or paid

Notes to the Financial Statements

The notes provide additional information that is essential to fully understand the government-wide and fund financial statements. The notes also explain some of the information contained in the financial statements and present more detail than is practical in the financial statements.

Required Supplementary Information

In addition to this Management's Discussion and Analysis, Required Supplementary Information (RSI) includes the Budgetary Comparison Schedule. This schedule presents both the original and final appropriated budget of major funds. The Budgetary Comparison Schedule is accompanied by a budget to GAAP Reconciliation and by Notes to RSI. Schedules of funding progress for the Iowa Judicial Retirement System, the Peace Officers' Retirement, Accident and Disability System and Other Postemployment Benefits are also presented.

Supplementary Information

The Supplementary Information includes combining financial statements for non-major governmental funds, non-major enterprise funds, internal service funds and fiduciary funds, which are added together and presented in single columns in the basic financial statements.

FINANCIAL ANALYSIS OF THE STATE AS A WHOLE

Net Assets

The State's combined net assets (governmental and business-type activities) totaled \$12,352.4 million at June 30, 2008, compared to \$11,907.0 million at June 30, 2007 (restated), as indicated in Table 2.

	Governmental Activities		Business-type Activities		Total		Total Percentage Change 2007 - 2008
	2008	Restated	2008	2007	2008	Restated	
		2007				2007	
Current and other assets	\$ 4,360.4	\$ 4,004.0	\$ 3,616.4	\$ 3,341.3	\$ 7,976.8	\$ 7,345.3	8.6%
Capital assets	6,258.6	6,133.6	3,054.5	2,916.5	9,313.1	9,050.1	2.9%
Total assets	10,619.0	10,137.6	6,670.9	6,257.8	17,289.9	16,395.4	5.5%
Long-term liabilities	1,321.7	1,278.7	1,350.2	1,179.0	2,671.9	2,457.7	8.7%
Other liabilities	1,506.5	1,256.9	759.1	773.8	2,265.6	2,030.7	11.6%
Total liabilities	2,828.2	2,535.6	2,109.3	1,952.8	4,937.5	4,488.4	10.0%
Net assets							
Invested in capital assets, net of related debt	6,203.7	6,071.5	1,997.1	1,962.4	8,200.8	8,033.9	2.1%
Restricted	1,096.7	954.6	1,490.8	1,377.6	2,587.5	2,332.2	10.9%
Unrestricted	490.4	575.9	1,073.7	965.0	1,564.1	1,540.9	1.5%
Total net assets	<u>\$ 7,790.8</u>	<u>\$ 7,602.0</u>	<u>\$ 4,561.6</u>	<u>\$ 4,305.0</u>	<u>\$ 12,352.4</u>	<u>\$ 11,907.0</u>	3.7%

Net assets of the State's governmental activities increased 2.5 percent to \$7,790.8 million. The largest component (79.6%) of the State's net assets is invested in capital assets (e.g. land, buildings, equipment, infrastructure, and others), net of related outstanding debt that was used to acquire or construct the assets. Restricted net assets is the next largest component (14.1%). These represent resources that are subject to external restrictions, constitutional provisions, or enabling legislation on how they can be used. Unrestricted net assets is the remaining portion (6.3%) and may be used at the State's discretion, but often have limitations on use based on State statutes.

The net assets of business-type activities increased 6.0 percent to \$4,561.6 million. The State generally can only use these net assets to finance the continuing operations of the universities, unemployment insurance and other business-type activities.

Long-term liabilities increased 8.7 percent to \$2,671.9 million due to an increase in compensated absences and bonds payable. The accrual for compensated absences increased \$130.5 million primarily for current/active employees who may become eligible to use a portion of their accrued sick leave balances to pay the State share of group health insurance premiums upon retirement. The overall increase in bonds payable was \$84.7 million. This increase is the net result of new bond issuances by the State Universities totaling \$196.5 million which are primarily offset by bond repayments and defeasances (net of amortization) totaling \$120.7 million.

Other liabilities increased 11.6 percent to \$2,265.6 million due to increases in accounts payable and accruals and unearned revenues. Accounts payable and accruals increased \$97.8 million due to the timing of when Medicaid payments were made to providers and due to an increase in the Medicaid liability for incurred but not reported (IBNR) claims. Unearned revenue increased \$133.6 million primarily due to the drawing of federal funds in advance to cover Medicaid provider payments.

Changes in Net Assets

The State's total net assets increased by \$445.4 million during the year, as indicated in Table 3.

Table 3

Net Assets June 30	\$ 7,790.8	\$ 7,602.0	\$ 4,561.6	\$ 4,305.0	\$ 12,352.4	\$ 11,907.0	3.7%

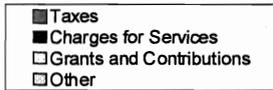

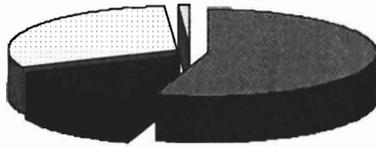

The largest revenue fluctuations occurred in general revenues from other taxes and unrestricted investment earnings. Other taxes in governmental activities increased due to increases in wagering and cigarette tax receipts. Cigarette tax receipts increased due to an increase in the cigarette tax rate in effect during fiscal year 2008. Unrestricted investment earnings decreased due to lower returns and market losses on investments attributed to the global financial crisis of capital markets.

The largest variation in program revenues was a decrease in capital grants and contributions. The decrease is due to the completion of the Interstate 235 project and a decline in construction projects receiving federal reimbursement.

Overall, expenditures for governmental activities increased due to elevated levels of participation in various programs offered by the Department of Human Services, increases in compensated absences for current/active employees participating in various sick leave programs offered by the State, increases in state aid due to natural disasters (tornadoes and flooding) which occurred during the spring of 2008 and increases in personal services to staff the new correctional facility at the Iowa Medical and Classification Center in Oakdale.

Governmental Activities

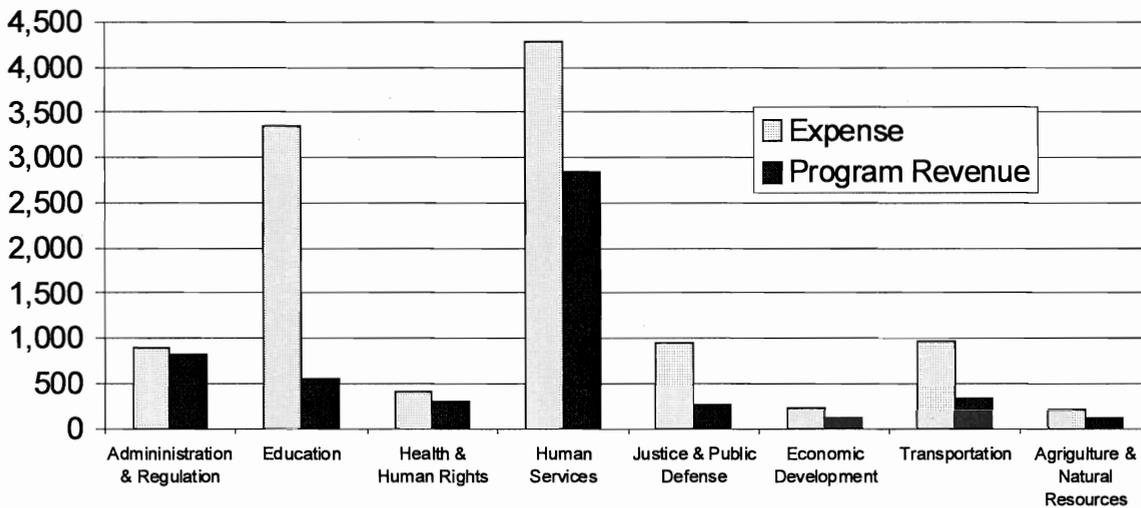

FY08 Revenues - Governmental Activities

FY08 Functional Expenditures - Governmental Activities

Expenses and Program Revenues – Governmental Activities (In Millions)

The cost of all governmental activities this fiscal year was \$11,364.9 million. However, the amount that taxpayers paid for these activities through State taxes was \$6,666.8 million. Part of the cost was paid by:

- Those who directly benefited from the programs (\$1,631.5 million), or
- Other governments and organizations that subsidized certain programs with operating and capital grants and contributions (\$3,702.1 million).

Business-type Activities

- Universities had \$3,155.0 million in expenses and \$2,507.0 million in program revenues for net expenses of \$648.0 million. The most significant change in revenues and expenses occurred in nonoperating revenues where investment income decreased \$89.8 million due to lower returns and market losses. Assets increased \$363.5 million to \$5,536.6 million. This was due to increased cash of \$129.2 million due largely to cash margins at the University Hospitals, increased accounts receivables of \$76.7 million due mainly to the accruals of flood related insurance recoveries, and an increase in capital assets of \$118.5 related to construction. Liabilities increased \$171.4 million or 14.8 percent over the previous year mainly due to the three Universities issuing \$196.5 million in new bonds for construction and equipment for facilities.
- Unemployment Benefits had \$356.3 million in expenses and \$368.2 million in program revenues for an overall net increase in operating income of \$11.9 million. The State's unemployment rate increased during the current fiscal year, from 3.7 percent to 3.8 percent, and contributed to a 4.0 percent increase in unemployment benefits paid. Also, employers paid unemployment taxes on a slightly larger labor force in fiscal year 2008 than 2007 which led to a 4.6 percent increase in program revenues.

In total, business-type activities had net expenses of \$520.2 million with \$116.3 million in net general revenues and 598.8 million in transfers, for a net increase of \$256.6 million, to end with net assets of \$4,561.6 million.

Other business-type expenses increased \$27.6 million and revenues increased \$28.1 million. The Iowa Lottery Authority experienced an increase in prize expense and retailer compensation of \$12.8 million related to an increase in sales of \$14.1 million for online and pull-tab products. The Liquor Control Fund which accounts for the revenues and expenses related to the sale of alcoholic beverages experienced a \$13.7 million increase in sales revenue and a related increase in expenses.

FINANCIAL ANALYSIS OF THE STATE'S FUNDS

Governmental Funds

The governmental funds reported total fund balances of \$2,673.4 million, with \$567.5 million in unreserved fund balance. Net revenues totaled \$12,203.6 million with expenditures of \$11,446.3 million.

General Fund

The General Fund is the chief operating fund of the State. Total fund balance increased from \$2,053.4 million to \$2,296.7 million and the unreserved fund balance increased from \$1,052.5 million to \$1,118.5 million. The unreserved fund balance included \$592.4 million in "rainy day" funds, a \$57.2 million increase over the prior year. Loans receivable increased \$14.0 million in the Department of Transportation due to a new loan with the City of Des Moines.

Gross revenues of the General Fund increased \$1,211.6 million in fiscal year 2008, due to a \$588.3 million increase in tax revenues and a \$605.2 million increase in federal support. Individual income tax revenues increased \$256.7 million over the prior year. Iowa enacted higher cigarette and tobacco tax rates in March 2007. This first full year with the new rates resulted in a \$116.4 million increase in those tax revenues. Wagering taxes increased \$84.1 million over the prior year due to new legislation requiring all wagering taxes be deposited directly into the General Fund. Federal support increased in the Department of Human Services, Department of Education, and the Department of Transportation.

Expenditures increased \$763.6 million to \$11,227.0 million in fiscal year 2008. The Department of Human Services expenditures increased \$375.6 million and the Department of Education increased \$247.1 million due to expanded participation in programs, and debt service bond principal increased \$33.2 million due mainly to the early redemption / defeasance of the Underground Storage Tank Program bonds.

Tobacco Settlement Authority

The Tobacco Settlement Authority (Authority), a blended component unit of the State of Iowa classified as a Special Revenue Fund, receives money from the Tobacco Collections Fund to pay operating expenses and for repayment of debt. Due to the implementation of GASB Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*,

the Authority's beginning fund balance was restated from \$82.2 million to \$821.5 million to account for an interfund advance (receivable) for the amount of bond proceeds issued by the Authority and provided to the State. The Authority's ending fund balance decreased \$54.4 million to \$767.1 million. The decrease was due to receipt of funds from the Tobacco Collections Fund which reduced the interfund advance (receivable). These funds were primarily used to pay principal and interest on bonds totaling \$14.7 million and \$41.7 million, respectively.

Tobacco Collections Fund

The Tobacco Collections Fund, a Special Revenue Fund, accounts for the tobacco settlement monies received pursuant to a Master Settlement Agreement between the State of Iowa and the five largest tobacco manufacturers. Due to the implementation of GASB Statement No. 48, the Tobacco Collections Fund's beginning fund balance was restated to a deficit balance of \$739.3 million to account for an interfund advance (liability) for the bond proceeds issued by the Tobacco Settlement Authority and provided to the State. The ending fund balance in the Tobacco Collections Fund increased \$58.9 million to a deficit balance of \$680.4 million. The increase is due to the reduction of the interfund advance (liability) for the tobacco settlement monies remitted to the Tobacco Settlement Authority during the year.

Proprietary Funds

The State of Iowa's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of University Funds at the end of the year amounted to \$1,066.9 million. Ending restricted net assets for Unemployment Benefits totaled \$986.1 million. Net assets in University Funds and Unemployment Benefits increased \$207.3 million and \$41.9 million, respectively. Other factors concerning the finances of these two funds have already been addressed in the discussion of the State of Iowa's business-type activities.

General Fund Budgetary Highlights

Over the course of the year, the State revised the budget several times. These budget amendments fall into two categories:

- Supplemental appropriations - \$7,756,995
- Adjustments to standing appropriations - \$31,232,861

The originally enacted General Fund budget for fiscal year 2008 of \$5,859.4 million was predicated on 3.4 percent growth in General Fund revenues, as projected by the State's Revenue Estimating Conference (REC) on December 12, 2006. The December estimate reflected the expectation that revenue growth would continue at a moderate pace given the economic outlook.

At the April 6, 2007 meeting, the REC revised its fiscal year 2008 General Fund revenue estimate upward to \$5,885.7 million. This included the enacted increase in the cigarette and tobacco taxes that went into effect March 2007. The increased taxes were estimated to bring in an additional \$35.4 million in fiscal year 2007 and a total increase of \$135.3 million in fiscal year 2008. At the October 9, 2007 meeting, the REC revised its fiscal year 2008 revenue estimate upward to \$5,934.8 million. This was based upon the revised base of fiscal year 2007 growth of 4.9 percent and continued expectation that revenue growth would continue at a normal pattern. On December 11, 2007, the REC again increased the revenue estimate to \$5,983.4 million. The increase from the October 2007 meeting reflected an acknowledgement that year-to-date revenues were growing faster than expected. An additional revision was made at the April 6, 2008 meeting to increase the General Fund revenue estimate to \$6,062.2 million, again acknowledging that year-to-date revenues were growing faster than expected.

During the 2008 legislative session, the General Assembly approved a net increase of \$7.8 million in General Fund supplemental appropriations. The largest supplemental appropriation was \$14.8 million to the Medical Assistance Program (Medicaid) in the Department of Human Services coupled with a deappropriation of \$7.3 million from the Psychiatric Hospital at the University of Iowa as part of a shift of funding the Hospital under the Medicaid program. Most of the other supplemental appropriations were to help in general operations of various departments.

Also during this legislative session, the General Assembly approved the transfer of \$99.8 million of the ending General Fund balance to the Property Tax Credit Fund for fiscal year 2009 expenditures, prior to the transfer to the Cash Reserve Fund. This was signed into law by Governor Culver.

The State of Iowa has various statutory standing appropriations where a fixed amount is not appropriated. These are either formula-driven (in the case of the largest General Fund appropriation, for school foundation aid to local school districts), or for items such as paying claims against the State through the State Appeal Board. These are either increases or decreases to the estimates made at the beginning of the year. For fiscal year 2008, these standing appropriations exceeded the original estimates by \$31.2 million. The largest variance was for claims with Appeal Board which were \$20.8 million over the estimate and Performance of Duty claims with the Executive Council which were \$8.1 million over the estimate. A variety of other appropriations made up the balance of the changes to standing appropriations.

During April, May and June of 2008, and throughout the accrual period, actual General Fund revenue collections continued to match the official REC projections. At the close of the fiscal year, revenue collections totaled \$6,084.5 million which was 7.8 percent growth. As a consequence, after the transfers to the Property Tax Credit Fund, and also taking into account the statutory transfer to the Senior Living Trust fund of \$48.3 million, the General Fund budgetary ending balance for fiscal year 2008, statutorily required to be transferred to the Cash Reserve Fund, totaled \$48.3 million.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2008, the State had \$9,313.1 million invested in capital assets, net of accumulated depreciation of \$6,947.4 million. Depreciation charges totaled \$613.4 million in 2008. The details of these assets are presented in Table 4. Additional information about the State's capital assets is presented in NOTE 6 of the financial statements.

Table 4
Capital Assets, Net of Depreciation
(In Millions)

	Governmental Activities		Business-type Activities		Total Primary Government		Total Percentage Change
	2008	2007	2008	2007	2008	2007	2007 - 2008

Total	\$ 6,258.6	\$ 6,133.7	\$ 3,054.5	\$ 2,916.4	\$ 9,313.1	\$ 9,050.1	2.9%

Outstanding commitments for future capital expenditures, as of June 30, 2008, include \$231.9 million for highway and bridge construction and \$207.2 million for construction at the three State universities.

Long-term Debt

At year-end the State had \$2,279.1 million in bonds, certificates of participation, and leases and other financing arrangements outstanding, as shown in Table 5. More detailed information about the State's long-term liabilities is presented in NOTE 8 to the financial statements.

Table 5

Total	\$ 1,058.3	\$ 1,120.8	\$ 1,220.8	\$ 1,083.0	\$2,279.1	\$2,203.8	3.4%

The Constitution of the State of Iowa prohibits the State from exceeding a maximum of \$250,000 in general obligation debt without voter approval. However, State law authorizes the issuance of Tax and Revenue Anticipation Notes (TRANS), provided that the total issuance does not exceed anticipated revenue receipts for the fiscal year and that the total issuance matures during the fiscal year. The State issued and repaid Tax and Revenue Anticipation Notes of \$500.0 million during fiscal year 2008.

Revenue bonds issued by the State and its various authorities totaled \$3,580.6 million outstanding at fiscal year-end. This amount consisted of \$1,461.8 million of component unit – proprietary funds revenue bonds (housing and higher education), \$1,069.2 million in revenue bonds issued by the three State universities and Iowa Lottery Authority (for equipment & facilities), \$779.0 million in revenue bonds issued by the Tobacco Settlement Authority, \$33.6 million in revenue bonds issued by the Honey Creek Authority, \$50.4 million in revenue bonds issued by the Iowa Finance Authority for the Department of Corrections, and \$186.6 million in revenue bonds issued by the State of Iowa for the Vision Iowa Program and the School Infrastructure Loan Program. These bonds are backed by the revenues of the issuing program or authority.

Certificates of Participation (COPS), issued by the State and outstanding at fiscal year-end, amounted to \$.6 million. COPS represent an ownership interest of the certificate holder in a lease purchase agreement

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Iowa enjoyed continued good fiscal health in fiscal year 2008, with growth in revenue collections during the year. Iowa's 7.8 percent growth in General Fund revenue included the annualization of the cigarette and tobacco taxes enacted in March 2007 and continued the overall revenue growth the state has experienced over the past five years.

The Governor and General Assembly worked three days beyond the 100 day session in 2008, fashioning the General Fund budget for fiscal year 2009. Amounts available for appropriation based on the 99 percent budget limitation in the General Fund budget were \$6,140.6 million. General Fund appropriations totaled \$6,130.9 million, an increase of \$232.5 million from the actual 2008 General Fund budget.

Late May and June 2008, Iowa was hit hard by tornadoes, storms and flooding. The Governor declared 86 out of the 99 counties disaster counties and 85 out of the 86 counties were declared Presidential disaster counties. 18 people died during the storms and floods with 106 people injured and an estimated 38,000 people displaced. Billions of dollars have been estimated in damages, with \$800.5 million in federal and state assistance being approved as of November 8, 2008. Currently, the state has set aside \$7.6 million in fiscal year 2008 and \$28.1 million in fiscal year 2009 through the performance of duty appropriation to pay for the state's share of damages, either to state property directly or to cover the state's share of assistance.

At the REC meeting in October 2008, the fiscal year 2009 revenue estimate was decreased from \$6,189.1 million to \$6,151.5 million, largely as a reflection on current year to date revenue growth and an anticipated slowdown of tax revenues to that is reflective of the slowdown of the national and state economies. The revised estimate reflects projected revenue growth of 1.1 percent compared to actual revenues for the previous fiscal year.

Recent revenue performance has been sluggish, which is reflective of the slowdown of the national and state economies. Iowa's unemployment rate was at 4.2 percent in September 2008, down from a revised 4.5 percent in August 2008, showing Iowa has been able to withstand the national trends, with Iowa's labor market holding its own in spite of the turmoil nationally in the financial market and the housing slowdown. Iowa's seasonally adjusted employment was estimated at 1,614,200.

Nationally, the continued issues in the credit market concerning sub-prime mortgage lending and the housing market problems are leading to a severe slow down in the economy. Growth in the gross domestic product (GDP) for the third quarter of 2008 decreased at a rate of 0.3 percent, with Moody's Economy.com expecting continue negative growth of 2.2 percent in the fourth quarter of 2008 and negative 1.0 percent the first quarter of 2009, with GDP slowly coming back to 0.0 percent growth in the second quarter of 2009 to 2.2 percent in the third quarter and 3.4 percent in the fourth quarter of 2009.

CONTACTING THE STATE'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, legislators, customers, investors and creditors with a general overview of the State's finances and to demonstrate the State's accountability for the money it receives. GOVERNMENTAL FUND FINANCIAL STATEMENTS

Major Funds

General Fund – This is the state’s operating fund. It accounts for the financial resources and transactions not accounted for in other funds.

Tobacco Settlement Authority - The Tobacco Settlement Authority, a blended component unit of the State of Iowa, receives money from the Tobacco Collections Fund to pay for operating expenses and repayment of debt.

Tobacco Collections Fund – The Tobacco Collections Fund accounts for tobacco settlement monies received pursuant to a Master Settlement Agreement between the State of Iowa and the five largest tobacco manufacturers. The funds are then distributed to the Tobacco Settlement Authority and the Endowment for Iowa’s Health Fund pursuant to the terms of a Sales Agreement (dated October 1, 2001, and amended November 1, 2005) between the State and the Tobacco Settlement Authority.

Nonmajor Governmental Funds are presented, by fund type, beginning on page 94.

STATE OF IOWA

**Reconciliation of the Balance Sheet -
Governmental Funds to the Statement of Net Assets**

June 30, 2008
(Expressed in Thousands)

Total Fund Balances-Governmental funds \$ 2,673,399

Amounts reported for governmental activities in the Statement of Net Assets are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of assets, excluding internal service funds, is \$10,428,667 and the accumulated depreciation is (\$4,255,285). 6,173,382

Internal service funds are used by management to charge the costs of certain activities to individual funds. A portion of the assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Assets. 127,954

Certain revenues are earned but not available and therefore deferred in the funds. 366,680

Deferred issue costs are reported as current expenditures in the funds. However, deferred issue costs are amortized over the life of the bonds and are included as deferred charges in the governmental activities in the Statement of Net Assets. 4,318

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term liabilities at year-end consist of

Bonds Payable	(1,049,536)
Accrued Interest Payable	(7,421)
Compensated Absences	(310,573)
Capital Leases	(5,311)
Other Financing Arrangements Payable	(3,285)
Pollution Remediation	(56,571)
Early Retirement Liability / Termination Benefits	(11,127)
Risk Management Liability	(19,500)
Net Pension Liability	(29,933)
Other Postemployment Benefits	(12,991)
Other Long-term Liabilities	<u>(48,637)</u>
Total Long-term liabilities	<u>(1,554,885)</u>

Net assets of governmental activities \$ 7,790,848

The notes are an integral part of the financial statements.

STATE OF IOWA

**Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances -
Governmental Funds to the Statement of Activities**

For the Year Ended June 30, 2008
(Expressed in Thousands)

Net change in fund balances-total governmental funds \$ 167,793

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital outlay	515,226	
Depreciation expense	(382,630)	
Excess of capital outlay over depreciation expense		132,596

In the statement of activities, only the gain or loss on the sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. (5,517)

Some capital additions were financed through capital leases, other financing arrangements, and installment purchases. In governmental funds, these financing arrangements are considered a source of funding, but in the statement of net assets, the obligations are reported as liabilities. In the current year, these amounts consist of:

Capital leases	(707)	
Other financing arrangements payable	(137)	
Total		(844)

Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. In the current year, these amounts consist of:

Bond principal retirement	69,576	
Capital lease payments	1,528	
Other financing arrangements payments	726	
Total long-term debt repayment		71,830

Internal service funds are used by management to charge the cost of certain activities to individual funds. A portion of the net revenue of the internal service funds is reported with governmental activities. 1,351

Because some revenues will not be collected for several months after the State's fiscal year end, they are not considered available revenues and are deferred in the governmental funds. (49,166)

Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. The (increases) decreases in these activities consist of:

Compensated absences	(120,190)	
Early retirement liability/termination benefits	(984)	
Pension Liability	(8,609)	
Other	576	
Total additional expenditures		(129,207)

Change in net assets of governmental activities **\$ 188,836**

The notes are an integral part of the financial statements.

PROPRIETARY FUND FINANCIAL STATEMENTS

Major Funds

University Funds are maintained to account for the operations of the State's public institutions of higher education. The State University of Iowa, Iowa State University, and the University of Northern Iowa comprise this group.

Unemployment Benefits Fund receives federal funds and contributions from employers to provide benefits to eligible unemployed workers.

Nonmajor Proprietary Funds are presented by fund, beginning on page 116.

COMPONENT UNIT FINANCIAL STATEMENTS

Iowa Finance Authority issues bonds to assist in attainment of adequate housing for special needs individuals such as the low to moderate income and the disabled, and to provide limited types of financing to small businesses.

Iowa Higher Education Loan Authority provides for the financing of educational loans for students attending private educational institutions in the state and financing for acquisition, construction, and renovation of educational facilities.

Iowa Agricultural Development Authority undertakes programs which assist beginning farmers in purchasing land, improvements and property for agricultural purposes and provides financing for agricultural and soil conservation development, and other various agricultural development programs.

Iowa State Fair Authority conducts the annual State Fair and Exposition and other interim events on the Iowa State Fairgrounds.

The University of Iowa Foundation, Iowa State University Foundation and University of Northern Iowa Foundation act primarily as fund-raising organizations to supplement the resources available to the state universities.

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The accompanying financial statements of the State of Iowa have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

B. Financial Reporting Entity

For financial reporting purposes, the State of Iowa includes all funds, departments, agencies and universities of the State. The State has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the State are such that exclusion would cause the State's financial statements to be misleading or incomplete. The GASB has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the State to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the State.

As required by GAAP, these financial statements present the State of Iowa (the primary government) and its component units. The component units are included in the State's reporting entity because of the significance of their operational or financial relationships with the State. The individual component unit financial statements can be obtained by contacting: Iowa Department of Administrative Services, State Accounting Enterprise, 3rd Floor, Hoover State Office Bldg., Des Moines, IA 50319.

Blended Component Units

These component units are entities which are legally separate from the State, but are so intertwined with the State that they are, in substance, the same as the State. They are reported as part of the State's primary government and are blended with the appropriate funds.

- Iowa Public Television Foundation (Special Revenue and Permanent funds) serves as a funding medium for Iowa Public Television. It solicits and manages gifts of money or property, for the exclusive purpose of granting gifts of money or property to Iowa Public Television. Iowa Public Television has sole discretion as to the use of the money or property. The State appoints a voting majority of the Foundation's board and has the ability to impose its will on the organization, as it can make personnel decisions regarding the management of the Foundation.

- Tobacco Settlement Authority (Special Revenue Fund) was created to issue bonds to securitize payments due to the State pursuant to the Master Settlement Agreement between the State and the five largest tobacco manufacturers. The Authority's board consists of the Treasurer of State, Auditor of State and the Director of the Department of Management. The State has the ability to impose its will on the Authority and its sole purpose is to provide a secure and stable source of revenue from the tobacco settlement for the State.
- Iowa Lottery Authority (Enterprise Fund) was created to operate the State Lottery. The five members of the board of directors are appointed by the governor and confirmed by the Senate. The State has the ability to impose its will on the Authority and its purpose is to produce the maximum amount of net revenues for the State in a dignified manner that maintains the general welfare of the people.
- Honey Creek Premier Destination Park Authority (Special Revenue Fund), herein referred to as Honey Creek Authority, was created to issue bonds to provide financing for the development of the Honey Creek Park (Enterprise Fund). The Authority's board consists of the Treasurer of State, Auditor of State and the Director of the Department of Management. The State has the ability to impose its will on the Authority and its purpose is to provide for and secure the issuance and repayment of its bonds.

Discrete Component Units

These component units are entities which are legally separate from the State, but are financially accountable to the State, or its relationship with the State is such that exclusion would cause the State's financial statements to be misleading or incomplete. The Component Units include the financial data of these entities.

- Iowa Finance Authority (Proprietary) issues bonds to assist in attainment of adequate housing for special needs individuals such as the low to moderate income and the disabled, and to provide limited types of financing to small businesses. The nine members of the Board of Directors are appointed by the Governor and confirmed by the Senate.
- Iowa Higher Education Loan Authority (Proprietary) provides for the financing of educational loans for students attending private educational institutions in the State and for financing the acquisition,

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

construction, and renovation of educational facilities. The five members of the Board of Directors are appointed by the Governor and confirmed by the Senate. The State has the ability to impose its will upon the Authority.

- Iowa Agricultural Development Authority (Proprietary) undertakes programs which assist beginning farmers in purchasing land, improvements and property for agricultural purposes, and provides financing for agricultural and soil conservation development, and other various agricultural development programs. The State appoints a voting majority of the organization and is able to impose its will on the Authority.
- Iowa State Fair Authority (Proprietary) conducts the annual State Fair and Exposition and other interim events on the Iowa State Fairgrounds. The State must approve any bonds issued by the Authority (October 31 year end).
- The University of Iowa Foundation, Iowa State University Foundation and University of Northern Iowa Foundation (foundations) are legally separate, tax-exempt entities. They act primarily as fund-raising organizations to supplement the resources available to the State Universities (universities) in support of their programs. Although the State does not control the timing or amount of receipts from the foundations, the majority of resources they hold and invest or income thereon is restricted to the activities of the universities by the donors. Because the majority of these restricted resources can only be used by, or for the benefit of the universities, they are considered a component unit of the State and are discretely presented in the financial statements.

During the year ended June 30, 2008, the foundations distributed \$123.4 million to the Universities for academic and institutional support.

The foundations are private nonprofit organizations that report under FASB standards, including FASB Statement No. 117, (*Financial Reporting for Not-for-Profit Organizations*). As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. No modifications have been made to the foundations' financial information; however, the foundation's assets and liabilities and revenues and expenses were reformatted to correspond to the State's reporting format for the

Statement of Net Assets and Statement of Activities.

Related Organizations

These related organizations are excluded from the reporting entity because the State's accountability does not extend beyond appointing a voting majority of the organizations' board members. Financial statements are available from the respective organizations.

- Iowa Student Loan Liquidity Corporation
- Iowa Comprehensive Health Association
- Turkey Marketing Council
- Iowa Business Development Finance Corporation
- Community Health Management Information System

C. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The Statement of Net Assets and Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The **Statement of Net Assets** presents the State's non-fiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources that are imposed by management, but can be removed or modified.

When both restricted and unrestricted resources are available for use, generally it is the State's policy to use restricted resources first.

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

The **Statement of Activities** demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Program revenues include 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenue.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds even though the latter are excluded from the government-wide statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements, with non-major funds being combined into a single column.

D. Financial Statement Presentation

The State reports the following major governmental funds:

General Fund

The General Fund is the State's principal operating fund. It accounts for all financial resources except those accounted for in another fund.

Special Revenue Funds

Tobacco Settlement Authority – The Tobacco Settlement Authority, a blended component unit of the State of Iowa, receives money from the Tobacco Collections Fund to pay for operating expenses and repayment of debt.

Tobacco Collections Fund – The Tobacco Collections Fund accounts for tobacco settlement monies received pursuant to a Master Settlement Agreement between the State of Iowa and the five largest tobacco manufacturers. The funds are then distributed to the Tobacco Settlement Authority and the Endowment for Iowa's Health Fund pursuant to the terms of a Sales Agreement (dated October 1, 2001, and amended November 1, 2005) between the State and the Tobacco Settlement Authority.

The State reports the following major enterprise funds:

The University Funds account for the operations of the State's public institutions of higher education. The State University of Iowa, Iowa State University and the University of Northern Iowa comprise this group.

The Unemployment Benefits Fund receives federal funds and contributions from employers to provide benefits to eligible unemployed workers.

In addition, the State reports the following fund types:

Governmental Funds

Special Revenue Funds account for the proceeds of specific revenue sources (other than permanent or capital projects) that are legally restricted to expenditures for a specified purpose.

Capital Projects Funds account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

Permanent Funds account for resources that are legally restricted to the extent that only earnings, and not principal may be used for the benefit of the government or its citizenry.

Proprietary Funds

Enterprise Funds account for the activities for which fees are charged to external users for goods and services. This fund type is also used when the activity is financed with debt that is secured with fees and charges, as well as when the pricing policy of the activity is designated to recover its costs.

Internal Service Funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the State, or to other governmental units, on a cost reimbursement basis. The activities accounted for in internal service funds include information technology, fleet operations, printing and mail services, and property management.

Fiduciary Funds

Pension and Other Employee Benefit Trust Funds account for resources that are required to be held for the members and beneficiaries of the State's defined benefit pension plans and other postemployment benefit plans. The pension plans included are the Iowa Public Employees' Retirement System (IPERS), Peace Officers' Retirement, Accident and Disability System, and the Judicial Retirement System.

Private Purpose Trust Funds account for resources of all other trust arrangements in which principal and income benefit individuals, private organizations, or other governments. Examples include Iowa Educational Savings Plan Trust, Veterans Affairs donations, Health Organization Insolvency fund, and Braille and Sight Savings School donations.

Agency Funds account for resources held by the State in a purely custodial capacity. These funds include tax collections, fines, fees, and payroll deductions.

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

E. Measurement Focus and Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows.

Governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become susceptible to accrual; generally when they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. Most revenues, including taxes, fees, charges for service, refunds and reimbursements, and receipts from other entities, are considered by the State to be available if collected within 60 days of the end of the fiscal year. Investment earnings are recorded as earned since they are measurable and available.

Expenditures are recognized when the related fund liability is incurred. An exception to the general modified accrual expenditure recognition criteria is the principal and interest on general long-term debt which is recognized when due. Income tax refunds are accrued for claims related to tax periods ended by June 30, of the fiscal year, and paid within sixty days.

Proprietary and fiduciary fund statements are reported using the economic resources measurement focus (except for agency funds which have no measurement focus) and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The State has elected to follow subsequent private-sector guidance.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. General revenues include all taxes and investment income.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

In fiscal year 2008, the State of Iowa implemented the following GASB standards:

- GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions* - This Statement establishes standards for the measurement, recognition and display of other postemployment benefits (OPEB) expenses and related liabilities (assets) and note disclosures. Liabilities and expenses have been appropriately recorded in the government-wide and proprietary fund financial statements.
- GASB Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues* - This Statement establishes accounting and financial reporting standards for transactions in which a government receives, or is entitled to, resources in exchange for future cash flows generated by collecting specific receivables or specific future revenues. Interfund receivables and payables have been appropriately recorded in the governmental fund financial statements.
- GASB Statement No. 50, *Pension Disclosures* - This Statement more closely aligns financial reporting requirements for pensions with those for other OPEB and enhances information disclosed in the notes to the financial statements and required supplementary information for pension plans.

Lottery Revenues and Prizes

The Lottery uses an on-line instant verification system for the sale and validation of instant tickets. Instant ticket sales are recognized when a retailer settles a pack of tickets. Revenues for pull-tab games are recognized upon the sale of tickets to the retail sales agents. Revenues for Lotto games are recognized after the jackpot drawings are held. Deferred revenue represents lotto tickets sold for future prize drawings.

The prize liabilities for the Lotto games are determined by actual matches and are recognized after the jackpot drawings are held.

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

F. Cash, Investments, and Securities Lending

Cash in most funds is held in the State treasury and is commingled in State bank accounts and investments. The moneys of most funds are pooled together and invested as an investment pool by the Treasurer of State. However, moneys of some funds may be invested separately from the investment pool where permitted by statute.

Investment earnings of the investment pool are allocated to the individual funds as provided by statute. Income of \$58,043,584 associated with certain funds has been assigned to other funds for fiscal year 2008.

The Treasurer's deposits in financial institutions throughout the year and at year end were entirely covered by the Federal Deposit Insurance Corporation, or collateral held by the Treasurer of State's custodial banks in the Treasurer of State's name, or by the bank assessment provisions of Section 12C.23 of the Code of Iowa.

The Treasurer of State may invest in obligations of the United States government, its agencies and instrumentalities; certificates of deposit in Iowa financial institutions; prime bankers acceptances, commercial paper or other short-term corporate debt; perfected repurchase agreements; money market mutual funds organized in trust form; and other investments as permitted by Section 12B.10 of the Code of Iowa.

Investments are valued at fair value in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. Fair value is calculated at market price at the close of business on June 30 by independent pricing services utilized by the Treasurer's custodian bank. However, certain cash equivalent investments such as commercial paper, bankers acceptances, certificates of deposit, guaranteed investment contracts, and discount notes issued by government agencies are valued using purchase price. The Iowa Public Employees Retirement System (IPERS) has derivatives that are reported on the Statement of Fiduciary Net Assets at fair value. (For Pension plans, See NOTE 16).

Certain State institutions participate in the Iowa Public Agency Investment Trust (IPAIT), a state and local government pooled investment account, created by Iowa Code Chapter 28E. IPAIT is managed by Investors Management Group and is registered with the Securities and Exchange Commission. IPAIT follows established money market mutual fund parameters designed to maintain a \$1 per unit net asset value.

Cash and cash equivalents include currency on hand, demand deposits with banks or other financial institutions, investments readily convertible to known amounts of cash, and investments so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. In the statements of cash flows, investments with an

original maturity of three months or less are considered cash equivalents.

IPERS, the Iowa Peace Officers' Retirement, Accident, and Disability System (PORS), and the Judicial Retirement System (JRS) (together the "Systems") participate in a securities lending program with the State's custodian bank. The participation of IPERS is authorized by the Code of Iowa and the participation of PORS and JRS is authorized by their Boards of Trustees. The custodian bank is responsible for operating the program and is permitted to lend any of the securities it holds in custody for the Systems to broker-dealers and other entities in exchange for collateral. The custodian bank is permitted to accept collateral in the form of cash in U.S. dollars, U.S. government securities, or irrevocable letters of credit. The types of securities on loan included equity investments and fixed income securities.

A borrower is required to initially deliver collateral in an amount equal to 102 percent of the market value of any U.S. securities lent and 105 percent of the market value of any non-U.S. securities lent. Borrowers are required to provide additional collateral any time the value of the collateral drops below 100% of the value of the security lent plus accrued interest income. Securities received as collateral cannot be sold or pledged unless the borrower defaults.

At year-end IPERS had \$125,355 in credit risk exposure to borrowers because the amounts they owed IPERS exceeded the amounts IPERS owed them on 24 separate loans. Additional collateral was provided the next business day, eliminating this exposure. At year-end PORS and JRS had no credit risk exposure to borrowers because the amounts they owed PORS did not exceed the amount owed them. The contracts with the custodian bank requires it to indemnify the Systems if a borrower fails to return the securities or fails to return all of the income attributable to securities on loan. As of June 30, 2008, the Systems had securities on loan, including accrued interest income, with a total value of \$1,216,033,106 against collateral with a total value of \$1,249,771,671.

The majority of securities loans are open loans, i.e. one day maturity, where the rebate rate due the borrower is renegotiated daily. All securities loans can be terminated on demand by either the Systems or the borrower. Cash collateral received from borrowers is invested in a cash collateral investment pool which is managed by the custodian bank in accordance with investment guidelines established by the Systems. The investment guidelines do not require a matching of investment maturities with loan maturities, but do establish minimum levels of liquidity and other investment restrictions designed to minimize the interest rate risk associated with not matching the maturity of the investments with the loans. (See NOTE 2.)

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

The effective duration of the cash collateral pool at June 30, 2008 for IPERS was 24 days. Credit Quality and Years to Maturity statistics for the cash collateral pool at June 30, 2008 for IPERS are as follows (expressed in thousands):

Investment Type	Fair Value	Securities Lending Collateral Pool	
		Years to Maturity	
		Investment Maturities (years)	
		Less Than 1	1 to 5
Corporate Bonds	\$ 199,455	\$ 14,960	\$ 184,495

G. Accounts Receivable

Accounts receivable have been established and offset with proper provisions for estimated uncollectible accounts where applicable. Practically all receivables of governmental funds are due from other governmental entities, primarily the federal government, and are considered collectible. Receivables in other funds have arisen in the ordinary course of business.

Taxes receivable represent amounts due to the State at June 30, which will be collected sometime in the future. In the government-wide financial statements, a corresponding amount is recorded as revenue. In the governmental fund financial statements, the portion considered "available" is recorded as revenue; the remainder is recorded as deferred revenue.

H. Inventories

Inventories are valued at cost, which approximates market. The first-in/first-out (FIFO) cost flow method is used for the majority of inventories. Throughout the year costs of inventories are recorded as expenditures when purchased. For financial reporting purposes, expenditures are adjusted at fiscal year end for material inventory amounts to correlate with the consumption method. Inventory asset amounts are not available for budgetary appropriation as they have been charged to expenditures when purchased rather than when used.

I. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30 are recorded as prepaid items in both government-wide and fund financial statements. In governmental funds, prepaid items are accounted for using the consumption method and a portion of fund balance equal to the prepaid items has been reserved to indicate that it is not available for appropriation.

J. Capital Assets

Capital assets are reported in the government-wide financial statements and proprietary fund statements at historical cost. Donated capital assets are reported at their estimated fair market value at the time of acquisition. Capital assets utilized in governmental funds are reported as expenditures when purchased in the governmental fund financial statements. Infrastructure acquired after June 30, 1980 is reported. Reportable capital assets are defined by the State as assets above the following thresholds:

Infrastructure	\$1 million
Land, Buildings and Improvements	\$ 50,000
Equipment	\$ 5,000
Equipment (Regents - Hospital)	\$ 2,000

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

Capital assets are depreciated over their useful lives using the straight-line depreciation method. The government-wide financial statements, proprietary fund statements, and component unit financial statements report depreciation expense. The following useful lives are used:

Infrastructure	10-50 years
Buildings	20-50 years
Improvements Other Than Buildings	20-50 years
Equipment	2-20 years
Vehicles	3-10 years

K. Compensated Absences

Employees' compensated absences are accrued when earned. Accrued vacation is paid at 100% of the employee's hourly rate upon retirement, death or termination. With certain exceptions, accrued sick leave is paid at 100% of the employee's hourly rate to a maximum of \$2,000 upon retirement. Employees may elect to use a portion of accrued sick leave balances to pay the state share of group health insurance premiums upon retirement. The liability for accrued compensated absences as reported in the government-wide and proprietary fund financial statements is based on the current rates of pay.

L. Long-term Liabilities

In the government-wide and proprietary fund financial statements, long-term debt and long-term liabilities are reported as liabilities. Bond issuance costs are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond discounts and issuance costs for propriety fund types are generally deferred and amortized over the terms of the bonds using the bonds-outstanding method or straight-line method, which approximates the effective interest method.

Long-term liabilities that are due within one year of the date of the statements are classified as current liabilities.

In governmental fund types, bond discount and issuance costs are recognized in the current period.

M. Interfund Activity and Balances

Interfund Activity

As a general rule, the effect of interfund activity has been eliminated from the government-wide statements. Exceptions to this rule are: 1) activities between funds reported as governmental activities and funds reported as business-type activities and 2) activities between funds that are reported in different functional categories in either the governmental or business-type activities column. Elimination of these activities would distort the direct costs and program revenues for the functions concerned.

Interfund Balances

Interfund receivables and payables have been eliminated from the Statement of Net Assets, except for the residual amounts due between governmental and business-type activities.

N. Encumbrances

The State utilizes encumbrance accounting for budgetary control purposes. Obligations incurred for goods or services that have not been received or rendered, are recorded to reserve that portion of the applicable fund balance. Section 8.33, unnumbered paragraph 2, of the Code of Iowa, states, "No payment of an obligation for goods or services shall be charged to an appropriation subsequent to the last day of the fiscal year for which the appropriation is made unless the goods or services are received on or before the last day of the fiscal year, except that repair projects, purchase of specialized equipment and furnishings, and other contracts for services and capital expenditures for the purchase of land or the erection of buildings or new construction or remodeling, which were committed and in progress prior to the end of the fiscal year are excluded from this provision". That is, except for the above stated exceptions, the State must have received the goods or services on or before June 30, creating an actual liability, or the encumbrance is cancelled against that fiscal year. If the encumbrances are still valid after June 30, they become expenditures / expenses of the next fiscal year.

O. Budgeting and Budgetary Control

There are no material violations of finance - related legal and contractual provisions. Budgetary comparison schedules and related disclosures are reported as Required Supplementary Information (RSI).

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the State.

State law limits the Treasurer's investment pool's investments in domestic commercial paper, maturing within 270 days from the date of purchase, to the highest rating of either Standard & Poor's or Moody's on the date of purchase, provided that no investment has a split rating. Investments in short term corporate debt, other than commercial paper, maturing within 270 days from the date of purchase, are limited to one of the two highest ratings of either Standard & Poor's or Moody's on the date of purchase, provided that at the time of purchase no more than 5% of amounts invested in short term corporate debt or commercial paper are rated in the second highest rating. Investments in obligations or guaranteed investment contracts of domestic corporations with maturities greater than 270 days from the date of purchase, are limited to long-term ratings of not less than A2 by Moody's and not less than A by Standard & Poor's. Investments in asset-backed securities are limited to those rated AAA by Standard & Poor's or Aaa by Moody's.

The State Board of Regents establishes policy and sets objectives for the Universities' investments. Credit quality limitations for investments of operating funds are: the weighted average credit quality of each institution's operating portfolio shall be AA or Aa as rated by Standard & Poor's or Moody's, respectively; up to 20 percent of each institution's operating portfolio may be invested in bonds rated A and BBB in order to enhance portfolio yield; commercial paper or other short-term corporate debt that matures within two hundred seventy days that is rated within the two highest classifications, as established by at least one of the standard rating services, provided that at the time of purchase no more than five percent of all amounts invested in commercial paper and other short-term corporate debt shall be invested in paper and debt rated in the second highest classification; corporate debt with a maturity of greater than 270 days that is rated investment grade by Standards & Poor's or Moody's (at least BBB- or Baa3, respectively), or by another Nationally Recognized Statistical Rating Organization (NRSRO), including Rule 144A Securities that are deemed to be of investment grade credit quality by the external or internal investment manager, at the time of purchase.

Credit quality limitations for the Universities endowment funds are: the weighted average credit quality of each institution's endowment fixed income portfolio shall be AA or Aa as rated by Standard & Poor's or Moody's respectively; up to 20 percent of each institution's operating portfolio may be invested in bonds rated A and BBB in order to enhance portfolio yield.

There are no policy limitations for credit risk exposures within the investment portfolios of the retirement systems. Each IPERS portfolio is managed in accordance with an investment contract that is specific as to permissible quality ranges and the average credit quality of the overall portfolios. Policies related to credit risk pertaining to IPERS', PORS', and JRS' securities lending program is found under the securities lending disclosures found in Note 1 F of these notes.

STATE OF IOWA

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

The Treasurer manages interest rate risk by utilizing a buy-and-hold strategy, maturity limitations, and diversification parameters and liquidity requirements set by the Investment Committee.

Maturity Limitations: No investment shall be made in a U.S. Treasury note or bond with a maturity that exceeds 10 years, a U.S. government agency note or bond, or a U.S. government instrumentality note or bond with a maturity that exceeds sixty-one months at the time of purchase. No investment shall be made in a U.S. government agency or instrumentality mortgage-backed security that has an expected average life greater than four years at the time of purchase. (The 61-month maturity limitation for U.S. Treasury, government agency or instrumentality securities does not apply to such securities if accepted as collateral under a repurchase agreement.) No investment shall be made in an asset-based security that has an expected average life greater than two years at the time of purchase. The maturities of commercial paper and bankers acceptances shall not exceed 270 days at the time of purchase. The maturities of all other investments shall not exceed twenty-five months at the time of purchase.

Maturity Diversification: The Investment Committee shall set permitted maximum dollar amounts that can be invested in specific maturity sectors that are consistent with the overall portfolio strategy and this investment policy.

Liquidity Reserve: The Investment Committee shall specify how much liquidity shall be reserved to ensure that adequate cash is available to meet any unexpected expenditures that may occur. The liquidity reserve should be continuously invested in money market mutual funds money market accounts with Iowa financial institutions or short-term money market accounts.

The Universities policy for the operating portfolio prohibits investment in securities that at the time of purchase have effective maturities exceeding sixty-three months and that the maximum duration of each portfolio shall not exceed the duration of the Merrill 1-3 Government/Corporate Index by more than 20%. There is no explicit limit on the average maturity of fixed income securities in the endowment portfolio.

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

IPERS manages interest rate risk within the portfolio using the effective duration or option-adjusted methodology. It is widely used in the management of fixed income portfolios in that it quantifies to a much a greater degree the risk of interest rate changes. The methodology takes into account optionality on bonds and scales the risk of price changes on bonds depending upon the degree of change in rates and the slope of the yield curve. All the system's fixed income portfolios are managed in accordance with investment contracts that require that the effective duration of the portfolio shall always remain between 80% and 120% of the effective duration measure of the Index.

The State's exposure to interest rate risk for the fixed income investments of the primary government and the fiduciary funds at June 30, 2008, is summarized using the effective duration method, as follows (expressed in thousands):

<i>Primary Government</i>			<i>Fiduciary Funds</i>		
Investment Type	Fair Value	Effective Duration (Years)	Investment Type	Fair Value	Effective Duration (Years)

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment. From time to time, IPERS' external managers may or may not hedge the portfolio's foreign currency exposures with currency forward contracts depending upon their views on a specific foreign currency relative to the U.S. dollar. IPERS' currency policy is to manage the non-dollar portion of the global fixed income allocation against a 100 percent hedged benchmark and may allow its non-dollar equity managers to hedge on a selective basis for the protection of the asset values. IPERS will not manage currency as a separate asset class or enter into speculative currency positions (i.e., currency positions greater than 100 percent or less than 0 percent of the underlying asset exposure) in its portfolio, except as it related to specific cross-hedging activity, which may be permitted in certain investment guidelines. Foreign Currency Risk by Investment type for the pension system fiduciary funds, at June 30, 2008 follows (expressed in thousands):

	Total	Fixed Income	Equity	Alternative Investments	Cash

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

Concentration of Credit Risk

Concentration of credit risk is the risk of loss that may be attributed to the magnitude of a government's investment in a single issue. Policies of the Treasurer, Universities and pension systems limit investment in any single issuer or corporate entity to no more than 5% of the market value of the portfolio or account. The policy does not apply to investments in U.S. Treasuries, government agencies or instrumentalities.

Custodial Credit Risk

Deposits

Custodial credit risk is the risk that in the event of a bank failure, the State's deposit may not be returned to it. Protection from custodial credit risk exists for the State's deposits in excess of FDIC insurance coverage. Banks in Iowa which accept public fund deposits are required to pledge collateral in an amount equal to, or in excess of, the total amount by which the public funds deposits in the bank exceeds the total capital of the bank. If a bank fails, the Treasurer of State would liquidate any collateral that the bank had pledged and use the proceeds to repay public units. If the proceeds from the sale of the collateral were not sufficient to reimburse the public units, the Treasurer would use money from the sinking fund to make the public units whole. If there is not enough money in the sinking fund to cover the uninsured public deposits, the treasurer's office would assess a proportional share of the loss against all remaining banks whose public funds deposits exceeded FDIC insurance to satisfy the remaining loss. The Universities and the pension systems have no formal policy for custodial credit risk. The \$966,706,119 total combined bank deposits of the primary government and fiduciary funds at June 30, 2008, was exposed to custodial credit risk for \$300,041 of uninsured and uncollateralized bank deposits.

Investments

Custodial credit risk for investments is the risk that in the event of a failure of the counterparty, the State will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The State Treasurer, the Universities and the pension systems have no formal policy for investment custodial credit risk. Of the \$30,567,380,237 total combined investments of the primary government and fiduciary funds at June 30, 2008, \$1,563,027 was exposed to custodial credit risk as uninsured and unregistered, with the securities held by the counterparty, or by its trust department or agent but not in the State's name.

Component Units

Investments of the component units at June 30, 2008 are scheduled as follows (expressed in thousands):

Investment Type	Fair Value
Fixed:	
U.S. Government Treasuries, Notes, Bonds	\$ 5,625
U.S. Government TIPS	10,057
U.S. Government Agency	75,154

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The component units do not have formal policies that limit investment maturities as a means of managing exposure to credit risk. The component units exposure to interest rate risk for the fixed income investments at June 30, 2008 is summarized using the weighted average maturity method, as follows (expressed in thousands):

Investment Type	Fair Value	Weighted Average Maturity (Years)
Fixed:		
U.S. Government Treasuries, Notes, Bonds	\$ 5,625	9.20
U.S. Government TIPS	10,057	5.30
U.S. Government Agency	75,154	1.90
Government Asset and Mortgage-Backed	1,024,303	26.62
Corporate Bonds	1,259	4.60
Guaranteed Investment Contracts	250,820	0.50
Investment Agreements	21,343	7.58
Total	\$ 1,388,561	20.02

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

University Endowments

For donor restricted endowments, Chapter 540A of the Code of Iowa permits Universities to spend endowment income and to appropriate, within certain limitations, an amount of realized and unrealized endowment appreciation as the Universities determine to be prudent considering their long-term and short-term needs, their present and anticipated financial requirements, expected total return on investments, price level trends and general economic conditions.

The Universities' policy is to retain the realized and unrealized appreciation with the endowment pursuant to the spending rules of the Universities. Spending rules for the three Universities are as follows:

- The University of Iowa's spending rule is that 5% of market value of the endowment, based on a twelve quarter rolling market average, will be calculated and distributed.
- Iowa State University's spending rule is that 5.5% of market value, based on a three-year rolling market average, will be calculated and distributed per the requirements of the endowment.
- The University of Northern Iowa's spending rule is that 5% of market value of the endowment, based on a rolling market average, will be calculated and distributed.

Net appreciation of endowment funds available to meet spending rate distributions are as follows:

	Amount	Net Asset Classification
University of Iowa	\$726,000	Restricted Nonexpendable Net Assets
Iowa State University	\$687,024	Restricted Nonexpendable Net Assets
University of Northern Iowa	\$767,945	Restricted Expendable Net Assets

NOTE 3 – TRANSFERS

Interfund transfers for the year ended June 30, 2008, consisted of the following (expressed in thousands):

Transferred Out	Transferred In					Total
	General	Nonmajor Governmental Funds	University Funds	Nonmajor Enterprise Funds	Internal Service	
General	\$ -	\$ 158,656	\$ 721,155	\$ 177	\$ -	\$ 879,988
Tobacco Settlement Authority	-	215	-	-	-	215
Tobacco Collections Fund	-	16,607	-	-	-	16,607
Nonmajor Governmental Funds	203,698	16,793	6,970	-	-	227,461
Unemployment Benefits	11,233	-	-	-	-	11,233
Nonmajor Enterprise Funds	126,683	-	-	149	-	126,832

Total	\$ 341,614	\$ 192,271	\$ 728,125	\$ 326	\$ 196	\$ 1,262,532

Transfers are used to move: 1) revenues from the fund that statute requires to collect them to the fund that statute requires to expend them, 2) unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorization, and 3) profits from the Iowa Lottery Fund and Liquor Control Fund as required by law.

Not included in the table above are transfers totaling \$8,403,136 for capital asset contributions from governmental activities to the business-type activities. These were appropriately recorded as expenditures and capital contributions in the governmental and business-type fund financial statements, respectively, and reclassified as transfers in the government-wide statement of activities.

NOTE 5 – INTERFUND BALANCES

Interfund balances for the year ended June 30, 2008, consisted of the following (expressed in thousands):

Due To Other Funds/ Advances From Other Funds	Due From Other Funds/Advances To Other Funds						Total
	General	Tobacco Settlement Authority	Nonmajor Governmental Funds	Unemployment Benefits	Nonmajor Enterprise Funds	Internal Service	
General	\$ -	\$ 26	\$ 5,940	\$ 1,706	\$ 29	\$ 57,969	\$ 65,670
Tobacco Settlement Authority	127	-	215	-	-	-	342
Tobacco Collections Fund	-	46,703	-	-	-	-	46,703
Nonmajor Governmental Funds	3,421	-	3,648	-	-	165	7,234
Unemployment Benefits	310	-	-	-	-	-	310
Nonmajor Enterprise Funds	12,528	-	-	-	143	53	12,724
Internal Service	435	-	-	-	-	11,159	11,594
Total	\$ 16,821	\$ 46,729	\$ 9,803	\$ 1,706	\$ 172	\$ 69,346	\$ 144,577

\$47.1 million is due from the General Fund to the Workers Compensation Fund (an Internal Service Fund) to fund the cost of claims incurred, \$12.3 million is due from the Iowa Lottery Authority (an Enterprise Fund) to the General Fund to transfer lottery profits as required by law. Remaining interfund balances result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payment between funds are made.

Not included in the table above are the following interfund advances, which are not expected to be repaid within one year: \$0.4 million due from the General Fund and \$0.4 million from an internal service fund to the Innovation Fund (an Internal Service Fund) for amounts loaned for the purpose of stimulating and encouraging innovation in State government and \$3.1 million due from the General Fund to the Unemployment Benefits Fund (an Enterprise Fund) for amounts loaned for various projects per the Reed Act distribution under Section 903 of the Social Security Act.

Also, not included in the table above and not expected to be repaid within one year, are interfund advances of \$633.7 million due from the Tobacco Collections Fund (a Special Revenue Fund) to the Tobacco Settlement Authority (a blended component unit classified as a Special Revenue Fund) for repayment of bonds issued by the Authority, the proceeds of which were provided to the State; and \$28.0 million due from the Honey Creek Park (an Enterprise Fund) to the Honey Creek Authority (a blended component unit classified as a Special Revenue Fund) for repayment of funds provided for development of the destination park. The interfund advances will be reduced by pledged tobacco settlement monies received and the principal amount paid each year, respectively.

Impairment of Capital Assets

A net impairment gain associated with 30 impaired buildings and infrastructure at the University of Iowa has been calculated as required by GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries* (expressed in thousands). See NOTE 24 – EXTRAORDINARY ITEM for additional information.

Historical Cost	\$ 449,478
Accumulated Depreciation	<u>234,913</u>
Carrying Value, June 2008	<u>\$ 214,565</u>
 Estimated Building Restoration Cost	 \$ 133,562
Replacement Cost	1,732,035
Restoration Cost Ratio	7.7%
Carrying Value, June 30, 2008	214,565
Impairment Loss	(20,326)
Realizable Insurance Recovery	<u>56,012</u>
Net Impairment Gain	<u>\$ 35,686</u>

The University of Iowa had idle assets at June 30, 2008, with a carrying value of \$99.5 million.

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

The gross impairment loss is calculated using the restoration cost approach by applying a ratio of the estimated restoration costs to replacement costs, multiplied by the carrying value of each impaired asset. As a result, assets fully depreciated prior to the flood would have an impairment loss of zero, regardless of damage. The expected cost to restore the impaired buildings (excluding building content) is \$133.56 million. Estimated replacement cost of all impaired buildings is \$1.73 billion. The restoration cost ratio is calculated separately for each impaired building and ratios range from 3% to 100%, with the weighted average ratio being 7.7%. The resulting gross impairment loss, based on each asset's net book value, is \$20.33 million. GASB 42 requires that impairment loss be reported net of insurance recoveries. The realizable insurance recovery associated with building impairment is estimated to be \$56.01 million, resulting in a net impairment gain of \$35.68 million.

The June 2008 flood is treated as an extraordinary event as it meets the criteria for being both unusual in nature and infrequent in occurrence. The GASB 42 net impairment gains are recorded as extraordinary items in the financial statements. The future costs which will be expended to restore impaired buildings will be recorded as separate transactions as restoration occurs.

NOTE 7 – INVESTMENT IN PRIZE ANNUITIES AND ANNUITY PRIZES PAYABLE

Assets totaling \$15,703,847 which includes \$135,500 of cash are held by the Iowa Lottery Authority for the purpose of paying installment prizes which have already been won but will not be completely paid until 2018. Annuity Prizes Payable does not include an additional liability of \$35,500 to taxing authorities. The following is a schedule of future payments (expressed in thousands):

Year Ending June 30,	Current	Noncurrent	Total Payments

(1) The Iowa Finance Authority (Finance Authority) has characterized the bonds as conduit debt obligations and omitted them from the Finance Authority's financial statements. Although these bonds have characteristics of conduit debt, GASB has stated such debt is not conduit debt when the issuer (Finance Authority) and the beneficiary (the State of Iowa) are within the same financial reporting entity. Since the bonds are not conduit debt, the Finance Authority should have included the liability for the bonds and the due from the State of Iowa in its financial statements and the State of Iowa's financial statements should have reported a due to Finance Authority rather than a liability for bonds payable. Because there is no significant effect on the net assets of the Finance Authority or the State of Iowa as a result of the Finance Authority's omission, the CAFR has been prepared to reflect the reporting method used by the Finance Authority in its annual financial statements for the year ended June 30, 2008.

(2) Variable rates are as of June 30, 2008.

(3) The interest rate on the bonds may be set at a variable rate for various time periods or at a fixed rate as established by the rate-setting agent. In accordance with the indenture of trust, the interest rate cannot exceed 15%, except on bonds not remarketed. For the year ended June 30, 2008, the interest rate has varied on a weekly basis. The interest rate was 7.55% on June 30, 2008.

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

Bonds Payable

Primary Government – Governmental Activities

Vision Iowa

The State of Iowa has issued Vision Iowa Special Fund Bonds to provide grants or loans to communities to enhance local recreational, cultural and entertainment opportunities.

The State has pledged a portion of the future revenues to be deposited into the Vision Iowa Fund to repay \$196.4 million in bonds issued in November 2001. These revenues include a standing appropriation of \$15 million annually from gaming revenues, certain earnings on the Vision Iowa Fund and Bond Reserve Fund (including any amounts appropriated to replenish the Bond Reserve Fund to its required balance) and, to the extent of any shortfall in gaming revenues, Lottery revenues. The bonds are payable solely and only from certain revenues deposited into the Vision Iowa Fund and the Bond Reserve Fund and are payable through fiscal year 2021. Annual principal and interest payments on the bonds are expected to require less than 86 percent of total deposits into the Vision Iowa Fund. As of June 30, 2008, total principal and interest remaining to be paid on the debt is \$207,161,640. Principal and interest paid for the current year and total deposits into the Vision Iowa Fund were \$15,805,616 and \$17,777,830, respectively.

The bonds are not debts of the State or any political subdivision of the State, and do not constitute a pledge of the faith and credit of the State or a charge against the general credit or General Fund of the State.

School Infrastructure

The State of Iowa has issued School Infrastructure Special Fund Bonds to assist local schools districts with the construction and renovation of facilities. The funds will provide grants limited to \$1,000,000 and require a local match.

The State has pledged a portion of the future revenues to be deposited into the School Infrastructure Fund to repay \$48.6 million in bonds issued in November 2001. These revenues include a standing appropriation of \$5 million annually from gaming revenues, certain earnings on the School Infrastructure Fund and Bond Reserve Fund (including any amounts appropriated to replenish the Bond Reserve Fund to its required balance) and, to the extent of any shortfall in gaming revenues, Lottery revenues. The bonds are payable solely and only from certain revenues deposited into the School Infrastructure Fund and the Bond Reserve Fund and are payable through fiscal year 2021. Annual principal and interest payments on the bonds are expected to require less than 69 percent of total deposits into the School Infrastructure Fund. As of June 30, 2008, total principal and interest

remaining to be paid on the debt is \$45,060,062. Principal and interest paid for the current year and total deposits into the School Infrastructure Fund were \$3,464,575 and \$5,636,867, respectively.

The bonds are not debts of the State or any political subdivision of the State, and do not constitute a pledge of the faith and credit of the State or a charge against the general credit or General Fund of the State.

Tobacco Settlement Authority

The Tobacco Settlement Authority (Authority) has issued Tobacco Settlement Asset-Backed Bonds to advance refund outstanding tobacco settlement asset-backed bonds and to provide funding to the State for various capital projects.

Pursuant to a Sales Agreement between the State and Authority, the State has pledged, as security for bonds issued by the Authority, 78% of the amounts payable to the State under the Master Settlement Agreement (the "MSA") entered into by participating cigarette manufacturers (the "PMs"), 46 states (including the State) and six other U.S. jurisdictions in November 1998 in the settlement of certain smoking-related litigation, including the State's right to receive future initial, annual and strategic contribution payments (the "TSRs"), to be made by the PMs under the MSA.

The bonds, issued by the Authority in fiscal year 2006 in the par amount of \$1.4 billion are payable through fiscal year 2046. The Authority has pledged, as the sole security for the bonds, 78% of the future TSRs payable under the terms of the Sales Agreement, investment earnings on certain accounts pledged under the bond indenture and amounts held in accounts established under the bond indenture (i.e. collection, debt service reserve, turbo redemption, etc.). As of June 30, 2008, total principal and interest remaining on the debt is \$2,436,490,995 with annual requirements ranging from \$84.9 million in 2009 to \$734.9 million in the final year. TSRs received by the State have averaged \$54,036,434 per year over the last 10 years. For the current year, principal and interest paid by the Authority and the total TSRs recognized by the State were \$56,356,473 and \$75,488,464, respectively.

The bonds are not a general obligation or general indebtedness of the Authority and do not constitute an obligation or indebtedness of the State or any political subdivision of the State. The State has no obligation or intention to satisfy any deficiency or default of any payment on bonds.

In prior years, the Authority defeased certain revenue bonds by placing the proceeds of new bonds along with other resources in an irrevocable trust with an escrow agent to provide for all future debt service payments on the Tobacco Settlement Assets-Backed Bonds, Series 2001 A and 2001 B. Accordingly trust account assets and the liability for

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

the defeased bonds are not included in the State's financial statements. As of June 30, 2008, bonds totaling \$616,810,000 are considered defeased.

Honey Creek Authority

The Honey Creek Authority (Authority) has issued Destination Park Revenue Bonds to provide financing for the development by the State of the Honey Creek Park (the "Park").

Pursuant to an Indenture of Trust among the Authority, the Iowa Department of Natural Resources, the Treasurer of the State of Iowa and Bankers Trust Company, N.A. (the "Trustee"), the State has pledged, as security for the bonds issued by the Authority, amounts sufficient to cover the principal and interest requirements on the Authority's debt consisting of net revenues from Honey Creek Park, if any, and the Debt Service Reserve Account (including any amounts appropriated by the State for the replenishment of the Debt Service Reserve Account to its required balance). The bonds, issued by the Authority in fiscal year 2007 for \$33.4 million, are payable through fiscal year 2036. The Authority has pledged, as the sole security for the bonds, net revenues to be received under the Indenture, if any, and amounts in the Honey Creek Fund and the Debt Service Reserve Account and all other moneys and securities pledged or assigned to the Trustee under the Indenture. As of June 30, 2008, total principal and interest remaining on the debt is \$61,543,235 with annual requirements ranging from \$1.5 million in 2009 to \$2.3 million in the final year. Pledged (net) revenue information will be available beginning in fiscal year 2009 upon the opening of the Honey Creek Park. Interest paid by the Authority in the current year totaled \$1,507,485. The first principal payment on the bonds is due June 1, 2011.

The bonds are not an indebtedness of the State or a charge against the general credit or General Fund of the State and the State is not liable for the bonds except for amounts on deposit in the funds pledged to payment of the bonds. The bonds are not an obligation of the State or any political subdivision of the State.

Iowa Department of Corrections

The Iowa Finance Authority (Finance Authority) has issued serial bonds for financing the construction or renovation of correctional facilities in the State. The Iowa Department of Corrections administers the State's correctional facilities and authorizes expenditures under the program.

Pursuant to an Indenture of Trust among the Finance Authority, the Iowa Department of Corrections and U.S. Bank National Association (the "Trustee"), the State has pledged, as security for the bonds issued by the Finance Authority, amounts sufficient to cover the principal and interest

requirements on the Finance Authority's debt consisting of all funds deposited in the Iowa Prison Infrastructure Fund (not reverting to the State General Fund at year end), investment earnings on moneys in the Iowa Prison Infrastructure Fund and certain other moneys held by the Trustee under the Indenture. Current state law requires the first \$9,500,000 of moneys remitted to the Treasurer of State each fiscal year from certain fees and fines collected from the clerks of district court in criminal cases be deposited in the Iowa Prison Infrastructure Fund. The bonds, issued by the Finance Authority in fiscal year 2002 for \$54.2 million, are payable through fiscal year 2016. The Finance Authority has pledged, as the sole security for the bonds, all funds deposited in the Iowa Prison Infrastructure Fund (not reverting to the State General Fund at year end), investment earnings on moneys in the Iowa Prison Infrastructure Fund and certain other moneys held by the Trustee under the Indenture. Annual principal and interest payments on the bonds are expected to require less than 93 percent of total deposits into the Iowa Prison Infrastructure Fund. As of June 30, 2008, total principal and interest remaining to be paid on the debt is \$59,664,475. Principal and interest paid for the current year and total deposits into the Iowa Prison Infrastructure Fund were \$8,396,631 and \$9,019,016, respectively.

The bonds are limited special obligations of the Finance Authority and do not constitute a general obligation of the Finance Authority, the State of Iowa or any political subdivision thereof.

Underground Storage Tank

The Iowa Finance Authority (Finance Authority) has issued serial bonds to finance the Underground Storage Tank Financial Responsibility Program. The program provides payment for remediation claims of contamination of ground water sites due to leakage, spill or release of petroleum products by owner/operators.

During the current fiscal year, the Finance Authority redeemed Iowa Underground Storage Tank Fund Revenue Refunding Bonds, 1997 Series A. Using existing resources, a final payment of principal and interest totaling \$18,687,894 was made in June 2008 to payoff the bonds.

Also, during the current fiscal year, the Finance Authority defeased \$14,240,000 of Iowa Underground Storage Tank Fund Revenue Refunding Bonds, 2004 Series A, by depositing existing debt service reserve funds and other resources, totaling \$15,034,580, in an irrevocable escrow account with a Trustee. As a result, the 2004 Series A bonds are considered defeased and the trust account assets and the liability for those bonds have been removed from the financial statements.

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

Future bond debt service requirements of the Primary Government – Governmental Activities are as follows (expressed in thousands):

Total	<u>\$ 1,602,510</u>	<u>\$ 1,207,410</u>

Primary Government – Business-Type Activities

Universities

The University of Iowa, Iowa State University and the University of Northern Iowa have issued revenue bonds for the construction of buildings, facilities, utilities and equipment. The bonds are payable principally from tuition and user fee revenues. The Universities are audited separately and issue publicly available financial reports which include financial statements and required supplementary information. Those reports may be obtained by writing to: University of Iowa, Controller's Office, Jessup Hall, Iowa City, Iowa 52242; Iowa State University, Controller's Department, 3607 Administrative Services Building, Ames, Iowa 50011-3607; University of Northern Iowa, Financial Accounting and Reporting Services, 122 Lang Hall, Cedar Falls, Iowa 50614-0009.

During the current fiscal year, the University of Iowa issued \$74,500,000 of Academic Building and Hospital Revenue Bonds, Series 2007, 2007A and 2008 with an interest rate range of 3.50-5.50% to defray the cost of constructing additions to the hospital, academic buildings, facilities and equipment.

During the current fiscal year, the University of Iowa issued \$26,000,000 of Recreation Facilities Revenue Bonds, Series 2007, with an interest rate range of 4.00-4.75%, to defray the cost of constructing a recreation building.

During the current fiscal year, the University of Iowa issued \$25,164,900 of Utility System and Telecommunications Facilities Revenue Bonds, Series 2007A and 2008, with an interest rate range of 4.00-4.75%, to provide funds to pay the cost of constructing, equipping and furnishing the telecommunications and utility facilities.

In prior years, the University of Iowa defeased certain revenue bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the State's financial statements. As of June 30, 2008, bonds totaling \$8,675,000 for the University of Iowa were considered defeased.

During the current fiscal year, Iowa State University issued \$25,000,000 of Academic Building Revenue Bonds, Series 2008, with an interest rate range of 3.50-4.375%, to provide funds to pay the cost of constructing, equipping and furnishing academic facilities.

During the current fiscal year, Iowa State University issued \$13,400,000 of Dormitory System Revenue Bonds, Series 2007, with an interest rate range of 4.00-4.50%, to provide funds to pay the cost of constructing and furnishing dormitory system facilities.

During the current fiscal year, Iowa State University issued \$10,500,000 of Dormitory System Revenue Refunding Bonds, Series 2008, with an interest rate range of 3.00-4.00% to advance refund \$10,445,000 of outstanding Dormitory System Revenue Bonds, Series 1998.

Net proceeds of \$10,445,000, consisting of bond proceeds of \$10,301,000 combined with other resources of \$144,000, were placed in an irrevocable trust account with a trustee. As a result, the Series 1998 bonds are considered defeased and the trust account assets and the liability for those bonds have been removed from the financial statements.

The advance refunding resulted in a \$782,213 over the next twelve years and an economic gain (difference between present value of the old and new debt service payments) of \$705,258.

During the current fiscal year, Iowa State University issued \$20,395,000 of Athletic Facilities Revenue Bonds, Series 2007 and 2007A, with an interest rate range of 4.10-6.10% to pay the cost of constructing improvements and equipping Jack Trice Stadium.

In prior years, Iowa State University defeased certain revenue bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the State's financial statements. As of June 30, 2008, bonds totaling \$24,445,000 for Iowa State University were considered defeased.

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

During the current fiscal year, the University of Northern Iowa issued \$12,000,000 of Academic Building Revenue Bonds, Series 2008, with an interest rate range of 4.00-5.00% to provide funds to defray the cost of academic buildings, facilities and equipment.

Iowa Lottery Authority

The Iowa Lottery Authority has issued Iowa Lottery Authority Bonds to finance the purchase and installation of instant ticket and pull-tab vending machines and the purchase and renovation of a building to be used as the lottery headquarters.

Future bond debt service requirements for bonds of the Primary Government – Business-Type Activities are as follows (expressed in thousands):

Year ending June 30,	Principal	Interest
2009	\$ 48,649	\$ 50,479
2010	51,192	45,585
2011	53,658	43,926
2012	56,367	39,334

2034-2038	11,965	715
Total	<u>\$ 1,070,996</u>	<u>\$ 519,697</u>

Component Units

Iowa Finance Authority

The Iowa Finance Authority (Finance Authority) is authorized and has issued bonds to provide affordable mortgage financing and to meet the 20% State match required for federal capitalization grants which are used to provide loans for construction of wastewater and drinking water facilities. The bonds are payable principally from repayments of such loans. The obligations do not constitute a debt of the State of Iowa and the State is not liable for any repayments.

The bonds are secured, as described in the applicable bond resolution, by the revenues, monies, investments, loans, and other assets in the funds and accounts established by the respective bond resolutions.

The Single Family Mortgage Bond Resolutions, the Single Family Housing Bond Resolutions, and the Multi-Family Bond Indenture contain covenants which require the Finance Authority to make payments of principal and interest from amounts available in the Finance Authority's General Fund should deficiencies occur in the funds established for such payments by the respective bond resolutions. The Draw Down Bond Indenture under the Single Family Bond Program and the bond resolutions for the Clean Water Program Funds and

Drinking Water Program Funds do not contain these covenants.

During the current fiscal year, the Finance Authority issued Single Family Mortgage Revenue Bonds, Series 2007 D, E, F and G in the par amount of \$83,625,000 with interest rates of 2.65% to 5.752%, Series 2007 H, I and J in the par amount of \$89,765,000 with interest rates of 3.65% to 5.77%, Series 2007 K, L, M and N in the par amount of \$52,845,000 with interest rates of 1.62% to 5.125% and Series 2008 A, B and C in the part amount of \$60,000,000 with interest rates of 1.60% to 4.90%. The Finance Authority issued Multi-Family Bonds, Series 2008 A in the par amount of \$3,750,000 with an interest rate of 1.60%. The Finance Authority also issued Clean Water Revenue Bonds, Series 2007, and Drinking Water Revenue Bonds, Series 2007, in the par amounts of \$35,360,000 and \$28,800,000, respectively, with interest rates of 4.00% to 5.00%.

In prior years, the Finance Authority defeased certain bonds by depositing funds or securities into an irrevocable trust with an escrow agent to provide for future interest and principal payments. Accordingly, the trust account assets and liabilities for these defeased bonds are not included in the Finance Authority's financial statements. As of June 30, 2008, bonds totaling \$26,185,000 are considered defeased.

Iowa Higher Education Loan Authority

The Iowa Higher Education Loan Authority is authorized and has issued bonds to provide educational loans to students and facility loans to private educational institutions in the State of Iowa. The bonds are payable primarily from interest and principal payments of the educational and facility loans.

The Iowa Higher Education Loan Authority has no taxing authority and bonds issued do not constitute a debt, liability, or obligation of the State of Iowa or any political subdivision thereof.

Universities Foundations

Iowa State University Foundation in prior years issued \$3,850,000 of bonds to purchase and remodel the Foundation Advancement Center building. The bonds are collateralized with a mortgage on the building and other real estate owned by the Foundation.

The Foundation has no taxing authority and bonds issued do not constitute a debt, liability, or obligation of the State of Iowa or any political subdivision thereof.

Pollution Remediation Obligations

An estimate for pollution remediation obligations is recorded when the State knows or reasonably believes that a site is polluted and when any one of the following events occurs: (1) the State is compelled to take remediation action because pollution creates an imminent endangerment to public health/welfare or the environment, (2) the State is in violation of a pollution prevention-related permit or license, (3) the State is named, or will likely be named, by a regulator as a responsible party or potentially responsible party for remediation, (4) the State is named, or will likely be named, in a lawsuit to compel it to participate in remediation or (5) the State commences or legally obligates itself to commence cleanup activities or monitoring/maintenance of remediation efforts.

For the year ended June 30, 2008, pollution remediation obligations totaling \$56,570,879 were recorded for the removal of leaking underground storage tanks.

Leaking underground storage tanks meeting certain eligibility requirements are covered by the Iowa Petroleum Underground Storage Tank program. Statutory authority for this program is found in Chapter 455G of the Code of Iowa. The program was established to expend funds for remedial action and underground storage tank improvements. Estimated remediation outlays for leaking underground storage tanks are developed by groundwater professionals. The estimations are based on a range of expected outlays, net of expected cost recoveries, if any, for the type and amount of pollution contamination detected. All estimates for pollution remediation obligations are reviewed and adjusted periodically for price changes, additional contamination and any other changes detected.

The pollution remediation obligation does not include outlays for certain site cleanup activities or operation/maintenance costs because those outlays were not reasonably estimable.

Total Nonmajor Governmental Funds	128,735
Total	\$ 1,221,519

NOTE 14 – OPERATING LEASES

The State has leased office space and equipment. These leases have been classified as operating leases and expire before June 30, 2041. In most cases, management expects that the leases will be renewed or replaced by other leases. The future minimum lease payments for these leases are as follows (expressed in thousands):

Primary Government – Governmental Activities:

Year ending June 30,

2009	\$ 13,490
2010	11,500
2011	9,356
2012	5,910
2013	4,483
2014-2018	6,665
2019-2023	268
2024-2028	278
2029-2033	242
2034-2038	266
2039-2043	184
Total	\$ 52,642

All leases contain nonappropriation clauses indicating that continuation of the lease is subject to funding by the legislature.

Rental expense for the year ended June 30, 2008 for all operating leases, except those with terms of a month or less that were not renewed, totaled \$17,136,116.

Primary Government – Business-Type Activities:

The future minimum lease payments for these leases are as follows (expressed in thousands):

Year ending June 30,

2009	\$ 5,683
2010	5,079
2011	4,168
2012	1,028
2013	372
2014-2018	20
Total	\$ 16,350

Rental expense for the year ended June 30, 2008 for all operating leases, except those with terms of a month or less that were not renewed, totaled \$6,526,171.

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

Component Units:

The future minimum lease payments for these leases are as follows (expressed in thousands):

Year ending June 30,		
2009	\$	21
2010		21
2011		10
Total	<u>\$</u>	<u>52</u>

Rental expense for the year ended June 30, 2008 for all operating leases, except those with terms of a month or less that were not renewed, totaled \$20,946.

NOTE 15 – LESSOR OPERATING LEASES

The Iowa Department of Natural Resources leases tracts of land for agricultural purposes, valued at \$10,481,281. Glenwood Resource Center leases building space valued at \$692,970. Iowa Public Television leases antenna and building space, no value has been assigned to the leased portions. The Iowa Department of Transportation leases land valued at \$2,831,887. Iowa State University leases building space valued at \$175,121 (net of accumulated depreciation of \$64,912), tower space valued at \$473,433 (net of accumulated depreciation of \$24,455), equipment with an original value of \$1,623,177, and tracts of land for agricultural purposes, valued at \$82,552. The University of Northern Iowa leases buildings valued at \$416,404 (net of accumulated depreciation of \$108,682), tower space, and tracts of land for agricultural purposes, valued at \$523,155. The following is a schedule by year of minimum future rentals on operating leases as of June 30, 2008 (expressed in thousands):

Year ending June 30,		
2009	\$	2,836
2010		2,095
2011		1,542
2012		844
2013		579
2014-2018		1,306
2019-2023		269
2024-2028		141
2029-2033		80
Total	<u>\$</u>	<u>9,692</u>

NOTE 16 – PENSION PLANS

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements for the Iowa Public Employees' Retirement System (IPERS), Peace Officers' Retirement, Accident and Disability System (PORS) and the Iowa Judicial Retirement System's (JRS) are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to each plan are recognized when due and the employer has made a formal commitment to provide contributions. Benefits, refunds and annuities are recognized when due and payable in accordance with the terms of each plan.

Method Used to Value Investments

IPERS - All investments are reported at fair value. The determination of fair value is generally based on published market prices and quotations from major investment brokers. Investments not having quoted market prices have been valued based on yields and maturities currently available on comparable securities of similar issue. Fair values for real estate investments are based on periodic assessments or appraisals of the underlying investments. Futures contracts are valued daily with the resulting adjustment recorded as realized gains/losses arising from the daily settlement of the variation margin. Private equities are valued based on March 31 net asset values plus or minus purchases, sales, and cash flows from April 1 through June 30 of the reporting year.

The System has no investment in any specific stock or bond issues of any commercial or industrial organization, other than the U.S. government and its instrumentalities, whose fair value exceeds five percent of the plan net assets available for benefits.

PORS and JRS - Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments and are discounted at prevailing interest rates for similar instruments. Investments that do not have an established market are reported at estimated fair value. For JRS, the fair value of real estate investments is based on independent appraisals.

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

PORS and JRS' investments in governmental bonds and treasury notes constitute approximately 6.40% and 1.68%, respectively, of net assets held in trust for pension benefits. The PORS and JRS Systems are not permitted to invest more than 4.90% and 5.00%, respectively, of its System account in any one corporate issuer without written direction and approval of the Treasurer of State of Iowa.

Plan Descriptions, Contribution Information and Funding Policy

Membership of each plan consisted of the following at June 30, 2008:

	<u>IPERS</u>	<u>PORS</u>	<u>JRS</u>
Retirees and beneficiaries receiving benefits	87,490	532	158
Terminated members with deferred benefits	-	34	9
Active vested	123,068	610	163
Active nonvested	44,782	36	36
Inactive vested	31,246	-	-
Inactive nonvested	33,051	-	-
	<u>319,637</u>	<u>1,212</u>	<u>366</u>
Number of participating employers	<u>2,259</u>	<u>1</u>	<u>1</u>

Iowa Public Employees' Retirement System

Plan Description. IPERS, a public employee retirement system, was created in 1953 by the Iowa Legislature. IPERS benefits are established under Chapter 97B of the Iowa Code.

IPERS is a cost-sharing defined benefit multiple-employer public employee retirement system. Participation in IPERS is mandatory for most state, county, and local public employees, employees of school districts, and certain elected officials. Membership is optional for some individuals, including the members of the Iowa Legislature. Excluded from membership are members of other retirement systems supported by Iowa public funds.

	<u>June 30, 2008</u>
Employer members:	
City	1,184
County	412
School	395
State	25
Other	243
Total	<u>2,259</u>

A member may retire at age 65 (or anytime after reaching age 62 with 20 or more years of covered employment) and receive monthly benefits without an early retirement adjustment. A member is also entitled to benefits without an early retirement adjustment if the member's age plus years of service equals or exceeds 88. A member may take early

retirement with reduced benefits. At retirement, a member chooses one of six benefit options.

A member who leaves covered employment after completing at least 4 years of covered service or has attained the age of 55 while making contributions to the plan has vested right to IPERS benefits.

IPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to IPERS, P. O. Box 9117, Des Moines, IA 50306-9117, or available at info@ipers.org, or by calling 515-281-0020.

Contributions and Funding Policy. Member and employer contribution rates are established by statute for the regular membership. The contributions are remitted by participating employers. Certain members and employers engaged in law enforcement, fire safety, and protection occupations contribute at actuarially determined rates as shown in the following table. Wages are covered up to the federal limit of \$230,000 for calendar year 2008.

	<u>Contribution Rates</u> as of June 30, 2008		
	<u>Employee</u>	<u>Employer</u>	<u>Total</u>
Regular	3.90%	6.05%	9.95%
Special Services			
Group #1 *	7.70%	7.70%	15.40%
Special Services			
Group #2 **	5.64%	8.47%	14.11%

* Includes sheriffs and deputies.

** Includes all other protection occupation members.

A valuation of the liabilities and reserves of the IPERS Trust Fund is performed annually by IPERS' actuary in accordance with Iowa Code Section 97B.4(4)(d), in order to determine the amount of contributions required. The Iowa statutes provide that most IPERS members shall contribute 3.90% of pay and employers shall contribute 6.05%, for a total rate of 9.95% for fiscal year 2008. The annual actuarial valuation is performed to determine whether the statutory rate will be sufficient to fund the future benefits expected to be paid by the System within the guidelines established in IPERS funding policy (maximum amortization period of 30 years). The statutory rate is first applied to fund the normal cost. The remaining contribution rate is used to amortize the unfunded actuarial liability as a level percentage of payroll, which in turn determines the amortization period. As a result, the remaining amortization period varies with each actuarial valuation. Based on the current year's actuarial valuation, the amortization period is infinite.

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

In 2006, to address IPERS' long-term funding needs, the Iowa Legislature passed and the Governor signed a bill increasing the contribution rate for regular members, the first rate increase since 1979. Regular members make up about 95 percent of IPERS' active membership. The increase of two percentage points is phased in over four years beginning July 1, 2007. The increase does not affect members in protection occupation positions, who contribute at an actuarially required rate that may change every year.

The amount of the actuarially determined employer contribution requirement was \$432,828,217. The total amount of employer contributions made during the fiscal year ended June 30, 2008 was \$377,416,750 resulting in an 87.2% funding ratio. The difference between the actuarially required employer contributions and actual employer contributions made is due entirely to statutory contribution requirements that differ from the actuarially required contribution rate.

The following table provides a schedule of the actuarially required employer contributions and the percentage actually contributed to IPERS for the last three fiscal years:

Year Ended June 30,	Actuarially Required Contributions	Percentage Contributed
2006	\$387,542,419	83.8%
2007	411,879,590	83.3%
2008	432,828,217	87.2%

Peace Officers' Retirement, Accident and Disability System

Plan Description. PORS was created under Chapter 97A of the Code of Iowa to provide retirement and other benefits for the peace officers of the Iowa Department of Public Safety. The Peace Officers' Retirement, Accident and Disability System is the administrator of the single-employer defined benefit public employee retirement system.

A member may retire with a service allowance after completing 22 years of creditable service and attaining the minimum service retirement age of 55. Plan benefits include: service retirement benefits, ordinary disability retirement benefits, accidental disability benefits, ordinary death benefits, accidental death benefits, and line of duty death benefits.

A member leaving covered employment before attaining retirement age but after completing at least four years of covered service is entitled to receive a service retirement allowance upon attaining the minimum service retirement age provided his or her accumulated contributions have not been withdrawn.

PORS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Iowa Department of Public

Safety Peace Officers' Retirement System, Public Safety Building, Des Moines, IA 50319.

Contributions and Funding Policy. The contributions to the System are made pursuant to Chapter 97A of the Code of Iowa and are not based upon actuarial determinations.

Member contribution rates are established by statute at 9.35% of covered payroll. However, the System shall increase the member's contribution rate as necessary to cover any increase in cost to the System resulting from statutory changes which are enacted by any session of the General Assembly meeting after January 1, 1995, if the increase cannot be absorbed within the contribution rates established, but subject to a maximum employee contribution rate of 11.30%. After the employee contribution reaches 11.30%, sixty percent of the additional cost of such statutory changes shall be paid by employer and forty percent of the additional cost shall be paid by employees. This is deducted from the member's salary and remitted by the employer.

The employer is obligated by statute to contribute 17% of covered payroll. Contribution provisions are established by State law and may be amended only by the State legislature. The State has historically followed a contribution policy of appropriating funds based upon a percentage of the current salaries for which funds are appropriated.

The member contribution required and contributed was \$3,701,009, representing 9.35% of the current year covered payroll. The State contribution required by statute was \$6,696,538 and the amount actually contributed was \$6,696,538. Costs of administering the plan are financed through employer contributions and investment income.

Judicial Retirement System

Plan Description. The Judicial Retirement System is the administrator of a single-employer defined benefit public employee retirement system.

The JRS was established to provide pension benefits to judges serving on the Supreme Court, District Courts and the Court of Appeals.

Pursuant to Chapter 602 of the Code of Iowa, a member who has a total of at least four years of service as a judge of one or more of the above courts and is at least sixty-five years of age or who has served twenty years of consecutive service as a judge of one or more of the above courts and has attained the age of fifty years shall qualify for an annuity. The annual annuity of a judge under this System is an amount equal to three and one-fourth percent of the judge's average annual basic salary for the judge's highest three years as a judge multiplied by the judge's years of service, or, for a member who meets the definition of a senior judge under Chapter 602.9202 of the Code of Iowa, three and one-fourth percent of the basic senior judge salary multiplied by the judge's years of service, limited to a

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

specified percentage of the highest basic annual salary or basic senior judge salary, as applicable, which the judge is receiving or had received as of the time the judge or senior judge became separated from service. The specified percentage is as follows: (1) fifty percent for judges who retired prior to July 1, 1998; (2) fifty-two percent for judges who retired and received an annuity on or after July 1, 1998 but before July 1, 2000; (3) fifty-six percent for judges who retired and received an annuity on or after July 1, 2000 but before July 1, 2001; (4) sixty percent for judges who retire and receive an annuity on or after July 1, 2001 but before July 1, 2006; and (5) sixty-five percent for judges who retire and received an annuity on or after July 1, 2006. Any member who has served as a judge for a total of four years or more and deemed permanently incapacitated, mentally or physically, to perform his/her duties shall be entitled to an annuity that would be the same as computed under a retirement annuity.

Beginning July 1, 2006, judges contribute to the System at the rate of 6% multiplied by a fraction equal to the percentage of the State's actual contribution to the retirement fund divided by the statutory mandated State contribution of 23.7%. The State contributes annually at rates established by statute until the System attains fully funded status, at which time the State shall contribute at a rate necessary to maintain fully funded status. For the year ended June 30, 2008, the State contributed an amount equal to at least 22.52% of the basic salary of all covered judges.

The JRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Judicial Retirement System, Iowa Judicial Branch, 1111 East Court Avenue, Des Moines, IA 50319.

Contributions and Funding Policy. The contributions to the System are made pursuant to Section 602.9104 of the Code of Iowa, and are not based upon actuarial determinations.

The member contribution required and contributed was \$1,424,099 representing 5.7% of the current year covered payroll. The State contribution required by statute and the amount contributed was \$5,450,963. The State share is to be based on 22.52% of the current year covered payroll. Costs of administering the plan are financed through State appropriation, member contributions and investment income.

Annual Pension Cost and Net Pension Obligation. The State's annual pension cost and net pension obligation to PORS and JRS for the current year were as follows:

	PORS	JRS
Annual required contribution	\$ 13,599,115	\$ 7,552,722
Interest on net pension obligation	570,297	1,195,212
Adjustment to annual required contribution	<u>(604,863)</u>	<u>(1,555,920)</u>
Annual pension cost	13,564,549	7,192,014
Contributions made	<u>6,696,538</u>	<u>5,450,963</u>
Increase in net pension obligation	6,868,011	1,741,051
Net pension obligation beginning of year	<u>7,128,715</u>	<u>14,195,111</u>
Net pension obligation end of year	<u>\$ 13,996,726</u>	<u>\$ 15,936,162</u>

Three-year trend information:

Year Ended June 30,	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
<i>Peace Officers' Retirement, Accident and Disability System</i>			
2006	\$11,920,811	48.80%	\$1,008,924
2007	12,382,742	50.58%	7,128,715
2008	13,564,549	49.37%	13,996,726
<i>Iowa Judicial Retirement System</i>			
2006	\$4,600,654	43.76%	\$8,867,574
2007	7,367,201	27.69%	14,195,111
2008	7,192,014	75.80%	15,936,162

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

Funded Status and Funding Progress

The funded status of each plan as of June 30, 2008, is as follows:

	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) - Entry Age (b)*	Unfunded AAL (UAAL) (a) - (b)	Funded Ratio (a/b)	Covered Payroll [c]	UAAL as a Percentage of Covered Payroll ((b-a)/c)
Iowa Public Employees' Retirement System	\$21,857,423,183	\$24,522,216,589	\$2,664,793,406	89.13%	\$6,131,445,367	43.46%
Peace Officers' Retirement, Accident and Disability System	\$307,291,608	\$417,176,049	\$109,884,441	73.66	\$40,829,801	269.13
Iowa Judicial Retirement System	\$88,197,551	\$141,364,072	\$53,166,521	63.10	\$26,662,800	199.40

* For purposes of this schedule, the AAL for each plan is determined using the entry age actuarial cost method.

The PORS uses the aggregate actuarial cost method to calculate their annual required contribution (ARC). However, the current year funded status information was calculated using the entry age actuarial cost method because the aggregate actuarial cost method does not identify or separately amortize unfunded actuarial liabilities. The entry age actuarial cost information for PORS is intended to serve as a surrogate for the funded status and funding progress of the plan.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions

Additional information as of the latest actuarial valuation follows:

	<u>IPERS</u>	<u>PORS</u>	<u>JRS</u>
Actuarial valuation date	June 30, 2008	July 1, 2008	July 1, 2008
Actuarial cost method	Entry age normal	Aggregate	Entry age normal
Method used to determine actuarial value of assets	Smoothing method - expected value at the valuation date plus 25% of the difference between the market value and expected value. The actuarial value must fall within a corridor of 80% - 120% of market value.	Smoothing method - spreads the difference between the actual return and expected return over four years	Market value
Amortization method	Open period, level percent of pay	No specific amortization method since the aggregate cost method is used	Level dollar, closed basis
Amortization period	30 years* (open method)	No specific amortization period since the aggregate cost method is used	18 years
Rate of investment return	7.50%	8.00%	7.50%
Projected salary increases	4.00% - 12.00% depending upon years of service	6.75% for the first five years, 6.50% for year six, 6.00% for year seven, 5.25% for years eight through twenty-four and 4.75% thereafter	4.50%
Inflation rate	3.25% for prices, 4.00% for wages	4.00% payroll growth	3.25%

* GASB Statement No. 25 states that, beginning in fiscal year 2006, the maximum acceptable amortization period for the total unfunded actuarial liability is 30 years. IPERS' funding policy also provides for a maximum amortization period of 30 years.

For JRS, the projection of benefits for financial accounting purposes does not explicitly incorporate the potential effects of the 23.7% limitation on the State's contribution rate.

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

Teachers Insurance and Annuity Association Retirement Program

The Universities, Board of Regents, the Iowa Braille and Sight Saving School, and the Iowa School for the Deaf contribute to the Teachers Insurance and Annuity Association (TIAA) retirement program. The above, by contributing to TIAA, participate in a defined contribution retirement plan.

A defined contribution retirement plan provides retirement benefits in return for services rendered, provides individual annuities for each plan participant, and specifies how contributions to an individual's annuity are to be determined instead of specifying the amount of benefits the participant is to receive. Under a defined contribution retirement plan, the benefits a participant will receive depend solely on the amount contributed to the participant's annuity, and the returns earned on investments of those contributions. As required by the Iowa State Board of Regent's policy, all eligible employees must participate in a retirement plan from the date they are employed. Contributions made by both employer and employee vest immediately. As specified by the contract agreement with TIAA, each employee through the fifth year of employment contributes 3.33% of the first \$4,800 of earnings and 5.00% on the balance of earnings. The employer through the fifth year of employment, contributes 6.67% of the first \$4,800 of earnings and 10.00% on earnings above the \$4,800. Upon completion of five years of service, the participant contributes 5.00% and the employer 10.00% on all earnings. During fiscal year 2008, the employers' contributions amounted to \$131,525,731. Employees' contributions amounted to \$65,876,150.

No retirement plan provisions changed during the year that affected the Institutions' or employees' required contributions.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

NOTE 17 – OTHER POSTEMPLOYMENT BENEFITS

State Plan

The State of Iowa implemented GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions* (GASB 45) during the year ended June 30, 2008.

Plan Description. The State of Iowa provides access to postretirement medical benefits to all retirees as required by Chapter 509A.13 of the Code of Iowa. Although the retirees generally must pay 100% of the premium rate, GASB 45 requires that employers recognize the Implicit Rate Subsidy that exists in postretirement medical plans provided by governmental employers.

The Implicit Rate Subsidy refers to the concept that retirees under the age of 65 (i.e. not eligible for Medicare) generate higher claims on average than active participants. When a medical plan is self insured or fully insured through a third-party administrator, a premium is usually determined by analyzing the claims of the entire population in that plan and adjusting for administrative costs. The resulting premium is called a blended premium because it blends the claims of active and retired participants. Since individuals generally have more and higher claims as they get older, the blended premium paid for retirees is lower than their expected claims. Another way of considering this is that if the retirees were removed from the plan, the premium for the active group would be lower; therefore, the retirees' premiums are being subsidized by the active group. Since the employer generally pays a large portion or all of the premiums for the active group, this subsidy creates a liability for the employer. The difference between the expected claims for the retiree group and the blended premium is called the Implicit Rate Subsidy.

The State operates a single-employer retiree benefit plan which provides medical insurance benefits for retirees. There are 28,720 active and 1,555 retired participants in the plan. The State currently offers eleven self-insured plans, which are available to participants: BCBS Deductible 3 Plus, BCBS Program 3 Plus, Iowa Select, IUP Select, Wellmark, United Healthcare, Coventry – Open Access, Coventry PCP, John Deere – Choice, John Deere – Select, and SPOC (Alliance Select).

Funding Policy. The contribution requirements of the plan participants are established and may be amended by the State legislature. The State currently finances the retiree benefit plan on a pay-as-you-go basis.

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

Annual OPEB Cost and Net OPEB Obligation. The State's annual OPEB cost is calculated based on the annual required contribution of the State (ARC), an amount actuarially determined in accordance with GASB No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the State's annual OPEB cost for June 30, 2008, the amount actually contributed to the plan and changes in the State's net OPEB obligation:

Annual required contribution	\$ 23,480,000
Interest on net OPEB obligation	-
Adjustment to annual required contribution	-
Annual OPEB cost	<u>23,480,000</u>
Contributions made	<u>(7,267,000)</u>
Increase in net OPEB obligation	16,213,000
Net OPEB obligation beginning of year	<u>-</u>
Net OPEB obligation end of year	<u>\$ 16,213,000</u>

The State's plan includes AFSCME employees of the universities. The portion of the FY08 net OPEB obligation related to those employees is \$2.8 million.

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2007. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the plans actual contributions for the year ended June 30, 2008.

For the fiscal year 2008, the State contributed \$7,267,000 to the medical plan. The State's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as of June 30, 2008 are summarized as follows:

Year Ended June 30,	Annual OPEB Cost (AOC)	Percentage of AOC Contributed	Net OPEB Obligation
2008	\$ 23,480,000	30.95%	\$ 16,213,000

Funded Status and Funding Progress. As of July 1, 2008, the most recent actuarial valuation, for the period July 1, 2007 through June 30, 2008, the actuarial accrued liability was \$219.6 million, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$219.6 million. The covered payroll (annual payroll of active employees covered by the plan) was \$1,152.0 million, and the ratio of the UAAL to the covered payroll was 19.06%. As of June 30, 2008, there were no trust fund assets.

Actuarial Methods and Assumptions. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumption about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information in the section following the Notes to Financial Statements, will present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2008 actuarial valuation date, the entry age normal actuarial cost method was used. The actuarial assumptions included a 4.5% discount rate based on the estimated long-term investment yield on the general assets of the State. The projected annual medical trend rate is 8.0% for managed care and 8.2% for non managed care plans. The medical trend rate is based on a general GDP growth assumption of 5.0% and capping the medical component of GDP at approximately 20% of GDP.

Mortality rates are from the RP-2000 Healthy Combined Mortality Table for Males and Females set forward one year for males and set back two years for females. General improvements are assumed using projection scale AA. The majority of State of Iowa employees are participants in the Iowa Public Employees' Retirement System. For this reason, the withdrawal, retirement, and age of spouse assumptions are based on the assumptions used for the Iowa Public Employees' Retirement System Actuarial Valuation Report as of June 30, 2006. The plan participation assumption is based upon the recent experience of the State of Iowa Postretirement Medical Plan.

The UAAL is being amortized on a level dollar open basis over 30 years.

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

University Funds

Plan Description. The University of Iowa, Iowa State University, and the University of Northern Iowa, (the universities) operate single employer benefit plans which provide medical, dental and life insurance benefits for retirees and their spouses. Detailed plan description information is available in the universities' separately issued financial reports.

Funding Policy. The contribution requirements of the plan participants are established and may be amended by the universities. The universities currently finance the retiree benefit plans on a pay-as-you-go basis. For fiscal year 2008, the universities contributed \$9.3 million to the plan and members receiving benefits contributed \$9.2 million of the premium cost.

Annual OPEB Cost and Net OPEB Obligation. The following table shows the components of the universities' annual OPEB cost for June 30, 2008, the amount actually contributed to the plans and changes in the universities' net OPEB obligation:

Annual required contribution	\$ 19,511,000
Interest on net OPEB obligation	-
Adjustment to annual required contribution	-
Annual OPEB cost	<u>19,511,000</u>
Contributions made	<u>(9,346,000)</u>
Increase in net OPEB obligation	10,165,000
Net OPEB obligation beginning of year	<u>-</u>
Net OPEB obligation end of year	<u>\$ 10,165,000</u>

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2007. The end of year net OPEB obligation was calculated by the actuaries as the cumulative difference between the actuarially determined funding requirements and the plans' actual contributions for the year ended June 30, 2008.

The universities' annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as of June 30, 2008 are summarized as follows:

Year Ended June 30,	Annual OPEB Cost (AOC)	Percentage of AOC Contributed	Net OPEB Obligation
2008	\$ 19,511,000	47.90%	\$ 10,165,000

Funded Status and Funding Progress. As of the most recent actuarial valuation, for the period July 1, 2007 through June 30, 2008, the actuarial accrued liability was \$184.7 million, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$184.7 million. The covered payroll (annual payroll of active employees covered by the plan) was \$1,160.4 million, and the ratio of the UAAL to the covered payroll was 15.92%. As of June 30, 2008, there were no trust fund assets.

Information from the universities' latest actuarial valuations follows:

	University of Iowa	Iowa State University	University of Northern Iowa
Actuarial valuation date	July 1, 2008	July 1, 2008	July 1, 2008
Actuarial cost method	Projected unit credit	Projected unit credit	Projected unit credit
Amortization method	Level percentage of projected payroll	Level dollar	Level percentage of projected payroll
Amortization period	Open basis over 30 years	Open basis over 30 years	Open basis over 30 years
Rate of investment return	6.95%	4.00%	5.00%
Medical trend rate	9.00% to age 65 and 10.00% after age 65	8.50%	11.00%
Ultimate medical trend rate	5.00%	Reduced 0.50% each year after 3 years until reaching 5.00%	Reduced 0.50% each year until reaching 6.00%
Payroll growth rate	3.50%	n/a	4.00%

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

NOTE 18 – OTHER TERMINATION BENEFITS

On April 2, 2004, the Governor signed into law a sick leave and vacation incentive program for eligible executive branch employees. The program requires the sum of the number of years of credited service (service under the Iowa Public Employees' Retirement System or the Peace Officers' Retirement, Accident and Disability System) and age in years as of December 31, 2004, equals or exceeds seventy-five. Employees were required to sign up by May 21, 2004 and to leave State employment no earlier than July 2, 2004, but no later than August 12, 2004.

The incentive is calculated as the total dollar value of accrued vacation at the time of termination plus the lesser of 75 percent of the employee's accumulated and unused sick leave or 75 percent of the employee's annual salary. The vacation and sick leave will be paid out in five installments, with 30 percent paid with the employee's last regular payroll warrant, 20 percent paid in each August in 2005, 2006, 2007, and the remaining 10 percent in August 2008. In the event a program participant dies prior to receiving the total cash value of the incentive, the participant's designated beneficiary or beneficiaries shall receive the remaining payments on the schedule developed for such payments.

Participants of the program may not accept permanent part-time or permanent full-time employment with the State, other than as an elected official, after termination.

The incentive is financed on a pay-as-you-go basis by the department from which the employee terminated. Amounts due for the program have been recorded as a liability in the government-wide financial statements. Early Out costs for fiscal year 2008 for 272 participants totaled \$1,740,627 for governmental funds and \$17,280 for other funds.

The Board of Regents approved an Early Retirement Incentive Program (ERIP) in June 1986, with modifications in July 1990 and July 1992; and in July 2001 the Board of Regents approved discontinuation of the program upon its expiration on June 30, 2002. The Board of Regents has authorized each institutional head to exercise discretion as to whether employees who are qualified at June 30, 2002 may have two years after expiration of the program to request participation. This program expired June 30, 2004.

Those eligible for participation were faculty, professional-scientific employees, institutional officials, staff of the Board Office, and all merit system employees employed by the Board of Regents for a period of at least fifteen years and who have attained the age of 57 by June 30, 2002. The employee's department head and the appropriate administrative officers approved the employee's participation.

All incentive payments are financed on a pay-as-you-go basis, except at the University of Northern Iowa. At the University of Northern Iowa, the policy requires departments to fully fund the ERIP liability upon signing new ERIP contracts. No contracts were signed or funded during the fiscal year ended June 30, 2008. Current contracts will be fulfilled during the fiscal year ended 2010.

An employee approved for participation in the program will receive the following incentives until age 65, unless otherwise specified:

- 1) Health & Dental Insurance – The employer's contributions are made until the employee is eligible for Medicare coverage.
- 2) Group Life Insurance – The employer provides a paid-up life insurance policy which varies in amounts between \$2,000 and \$4,000.
- 3) TIAA/CREF Contributions – The employer's and employee's contributions are made for up to three (3) years; and employer's contributions are payable for a maximum of five (5) years or until the employee is eligible for full Social Security benefits, whichever occurs first.
- 4) IPERS Contributions – The employee may elect lump sum payment.

The employee may elect, prior to approval of participation in the program, to accept the present value of all or part of the incentives as a lump sum payment on the beginning date of participation in the program. The rate of interest used to calculate the present value is established annually by the board. The rate approved for fiscal year 2004 was 1.00%. There are no future rates since the program ended June 30, 2004.

The Board of Regents Institutions' contributions for the fiscal year ended June 30, 2008, amounted to \$3,061,482 for 304 participants.

The State Police Officers Council (SPOC) Collective Bargaining Agreement provides upon retirement, including disability retirement, credit for all unused sick leave as follows:

Accumulated, unused sick leave in both the active and banked sick leave accounts shall be converted at current value and credited to the employee's account for the purpose of paying the cost of the monthly premiums of a health insurance and/or life insurance policy.

Upon written authority from or upon the death of a retired employee, or upon the death of an active employee, the spouse or the surviving spouse shall be entitled to the value of the sick leave bank in both the active and banked sick leave accounts as converted in the previous paragraph for the purpose of paying the cost of monthly premiums of the health insurance and/or life insurance policy for the employee's spouse or dependents.

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

If the carrier of either the health or life insurance policy is not a current contracted carrier with the State of Iowa, or the council or any of its sub organizations, the employee or spouse shall be eligible for reimbursement of a premium payment to that carrier upon submission of proof of payment. If there is dissolution of marriage or divorce, it is the employee's responsibility to withdraw their authority.

The benefits are funded on a pay-as-you go basis for Department of Public Safety retirees and fully funded for Department of Natural Resources retirees.

For the year ended June 30, 2008, 193 SPOC retirees received benefits totaling \$1,058,896.

Voluntary termination benefit programs have been established through collective bargaining for Executive Branch AFSCME and IUP employees, Judicial Branch AFSCME and PPME employees, and Community Based Corrections employees. The programs are also offered to Executive Branch non-contract employees, Judicial Branch non-contract employees, Legislative employees, and Community Based Corrections non-contract employees, except for judicial officers. The programs allow employees who are eligible upon a bona fide retirement to use the value of their unused sick leave to pay the employer share of the monthly premium of the State's group health insurance plan after their retirement.

Upon retirement, employees shall first receive cash payment for accumulated, unused sick leave converted at the employee's current regular hourly rate of pay, up to \$2,000, payable with the final payroll warrant that includes the employee's retirement date. The value of the remaining balance of the accrued sick leave will be converted based upon the original balance (before the cash payment). The remainder of the sick leave value is calculated as follows, based on the number of sick hours the employee had before the cash payment:

If the sick leave balance is:	The conversion rate is:
Zero to 750 hours	60% of the value
Over 750 hours to 1,500 hours	80% of the value
Over 1,500 hours	100% of the value

The final calculated dollar value will be credited to the employee's Sick Leave Insurance Program (SLIP). Each month, the retiree's former employing department will pay 100% of the employer share of the selected state group health insurance premium from the retiree's SLIP account. The retiree is responsible for any additional premiums associated with the employee/retiree share.

The employer will continue to pay the employer's share of the health insurance premium each month until the converted value of the employee's sick leave balance is exhausted, until the employee is eligible for Medicare, the employee waives the benefit, or until the employee dies, whichever comes first. The retired employees may stay with the same health

insurance program as when employed or switch down at any time without underwriting. The converted value of the sick leave can only be applied to the employer's share of health insurance premium payments. It has no cash value and it is not transferable to another use or to an heir.

If a retired employee who has utilized this benefit returns to permanent state employment, all remaining balances in the sick leave insurance program will be forfeited.

All program benefits are financed on a pay-as-you-go basis by the department from which the employee retired. Amounts due for this program have been recorded as a liability in the government-wide financial statements.

For the year ended June 30, 2008, 781 employees from the Executive and Legislative Branches of Government have retired and received benefits totaling \$4,176,126 under SLIP. In addition, 113 employees from the Judicial Branch and Community-Based Corrections have retired and received benefits totaling \$681,116 under the SLIP program.

NOTE 19 - RISK MANAGEMENT

INSURANCE/TRANSFER OF RISK

State employee benefits for health, dental, long-term disability and life insurance coverage are fully insured through commercial insurers. The State also insures with outside parties for certain liabilities. The State assumes liability for any deductibles and claims in excess of coverage limitations. Iowa State University and the University of Iowa assume responsibility for aircraft liability claims in excess of \$10.0 million and \$2.0 million, respectively, and Workforce Development assumes fire liability on buildings and contents in excess of \$15.6 million.

The University of Northern Iowa carries a blanket policy where it assumes liability in excess of \$500.0 million for the Residence System Buildings, Maucker Union, General Fund Buildings, Early Childhood Center, McLeod Center, UNI-Dome, and in excess of \$100 million for boiler and machinery. Individual limits for buildings and contents are in excess of: \$227.9 million for Residence Halls, \$57.3 million for Residence Apartments, \$28.5 million for Maucker Union, \$690.4 million for General Fund Buildings, \$31.4 million for the McLeod Center, \$54.0 million for UNI-Dome, and \$2.9 million for Early Childhood Center. Individual limits for loss of business income are in excess of: \$23.0 million for Residence Halls, \$2.9 million for Residence Apartments, \$2.0 million for the McLeod Center, and \$2.0 million for UNI-Dome. The University assumes liability in excess of \$2.5 million for broadcasting towers and equipment.

The University of Iowa assumes liability for damage to buildings and contents for the first \$2.0 million and in excess of \$1.0 billion, pharmacy products liability for the first \$10,000 and in excess of \$7.0 million, student interns professional liability in excess of \$3.0 million, dental student professional liability in

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

excess of \$3.0 million, nursing students professional liability in excess of \$5.0 million, pharmacy students professional liability in excess of \$3.0 million, losses at the Museum of Art in excess of \$500.0 million, criminal fidelity liability for the first \$250,000 and in excess of \$10.0 million.

The University of Iowa also assumes liability for athletic trainers professional liability in excess of \$3.0 million, liability for gymnastics camps, youth camps, outreach clinics and special events in excess of \$2.0 million each. It also assumes liability for property damage to the Hawkeye Express in excess of \$1.2 million, liability in excess of \$2.0 million and liability for the Hawkeye Express Railroad in excess of \$25.0 million.

Iowa State University assumes liability for damage to buildings and contents in excess of \$2.9 billion, damage to boilers and machinery in excess of \$343.9 million, damage to electronic data processing, and telecommunications equipment in excess of \$43.8 million and business interruption in excess of \$43.0 million.

Glenwood Resource Center assumes liability for volunteers' accident and personal liability in excess of \$1.0 million per occurrence and \$3.0 million annually and vehicle liability in excess of \$5.0 million for each accident. The Iowa Braille and Sight Saving School assumes liability for the first \$1.0 million and in excess of \$32.0 million for catastrophic losses.

The First, Second, Third, Fourth, Fifth, Sixth, Seventh and Eighth Judicial Districts assume liability for physical damage to buildings and contents in excess of \$13.9 million, \$11.1 million, \$4.3 million, \$3.4 million, \$15.5 million, \$9.3 million, \$3.1 million and \$2.5 million, respectively.

The State maintains an employee fidelity bond where the first \$100,000 in losses and any losses exceeding \$2.0 million becomes the responsibility of the State. Iowa State University maintains an additional policy and assumes liability in excess of \$4.0 million.

There were no settlements in excess of coverage for the past three fiscal years, except for the University of Iowa which incurred extensive flood damage at the end of this fiscal year. The amount in excess of coverage is undeterminable at this time.

SELF-INSURANCE/RETENTION OF RISK

It is the policy of the State not to purchase commercial insurance, except as detailed above, for the risks of losses to which it is exposed. Instead, State management believes that it is more economical to manage its risks internally and set aside assets for claim settlement in its internal service funds or to pay claims from the General Fund.

Specific claim adjustment expenditures/expenses and estimated recoveries on unsettled claims are included in the determination of claims liability. Other allocated or unallocated claim adjustment expenditures/expenses are not included.

The State is self-insured for various risks of loss related to work injuries of its employees. The Workers' Compensation Fund, an internal service fund, services workers' compensation claims. The liability for unpaid claims is estimated based on the average cost per claim-type determined from an actuarial review. Changes in the balances for estimated claims liabilities in fiscal years 2007 and 2008 were (expressed in thousands):

	Balances At Beginning Of Fiscal Year	Current Year Claims And Changes In Estimates	Claim Payments	Balances At End Of Fiscal Year
FY 07	\$ 49,950	17,795	17,620	\$ 50,125
FY 08	50,125	20,540	20,218	50,447

The State is self-insured for various risks of loss related to its motor vehicle fleet. The Vehicle Dispatcher Self-Insurance Fund, an internal service fund, services liability and property damage claims. The liability for unpaid claims is estimated based on historical experience and the application of an industry standard of forty percent for IBNR claims. Changes in the balances for estimated claims liabilities in fiscal years 2007 and 2008 were (expressed in thousands):

	Balances At Beginning Of Fiscal Year	Current Year Claims And Changes In Estimates	Claim Payments	Balances At End Of Fiscal Year
FY 07	\$ 344	-	271	\$ 73
FY 08	73	78	74	77

The State is self-insured for various risks of loss related to the operation of the Board of Regents institutions' motor vehicle fleets. The Regent's Motor Vehicle Liability Self-Insurance Fund, an internal service fund, services liability and property damage claims. The liability for unpaid claims is estimated based on statistical techniques that reflect recent settlements, similar claim history, and other economic and social factors. Changes in the balances for estimated claims liabilities in fiscal years 2007 and 2008 were (expressed in thousands):

	Balances At Beginning Of Fiscal Year	Current Year Claims And Changes In Estimates	Claim Payments	Balances At End Of Fiscal Year
FY 07	\$ 806	232	293	\$ 745
FY 08	745	216	274	687

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

The State is self-insured for risks of loss related to property damage and torts. All claims must be filed with the State Appeal Board which has the authority to approve or reject claims. Claims allowed in an amount greater than five thousand dollars require the unanimous approval of all the members of the Board, the Attorney General, and the District Court of the State of Iowa for Polk County. The liability for unpaid claims is estimated based on historical experience and analysis. Changes in the balances for estimated claims liabilities in fiscal years 2007 and 2008 were (expressed in thousands):

	Balances At Beginning Of Fiscal Year	Current Year Claims And Changes In Estimates	Claim Payments	Balances At End Of Fiscal Year
FY 07	\$ 11,500	17,628	11,228	\$ 17,900
FY 08	17,900	26,869	25,269	19,500

The Universities retain risk liability for medical faculty malpractice; medical, dental, unemployment, and workers' compensation coverage for some employees; and various property damage not covered as described above. The estimates of claim liabilities for faculty medical malpractice, and employee medical, dental, unemployment, and workers' compensation are based on actuarial analysis. The estimates of the claim liability for various property damage is based on historical analysis. Changes in the balances for estimated claims liabilities in fiscal years 2007 and 2008 were (expressed in thousands):

	Balances At Beginning Of Fiscal Year	Current Year Claims And Changes In Estimates	Claim Payments	Balances At End Of Fiscal Year
FY 07	\$ 23,724	152,408	144,610	\$ 31,522
FY 08	31,522	152,279	154,083	29,718

NOTE 20 – LITIGATION, CONTINGENCIES, AND COMMITMENTS

The *Iowa Department of Revenue* has pending litigation regarding income tax cases. The cases could possibly result in refunds estimated at \$5.2 million.

The *Iowa Public Employees' Retirement System* (IPERS) had commitments to fund an additional \$1.564 billion to various private equity/debt partnerships and real estate investment managers at June 30, 2008.

The *Iowa Department of Transportation* has contractual obligations for construction and other contracts of \$471.1 million at June 30, 2008.

The *University of Iowa* has outstanding construction contract commitments of \$151.4 million at June 30, 2008.

Iowa State University has outstanding construction contract commitments of \$46.4 million at June 30, 2008.

The *Department of Natural Resources* has outstanding construction contract commitments of \$20.8 million at June 30, 2008.

The *University of Northern Iowa* has outstanding construction contract commitments of \$9.4 million at June 30, 2008.

The *Iowa Department of Administrative Services* has outstanding construction contract commitments of \$37.4 million at June 30, 2008.

The *Iowa Finance Authority* has committed to purchase \$67.1 million in mortgage-backed securities; approved loan agreements under various housing assistance programs for \$2.3 million and signed loan agreements with municipalities and water systems totaling \$129.3 million at June 30, 2008.

The *Iowa Department of Economic Development* has commitments of \$238.9 million at June 30, 2008.

Iowa Public Television has outstanding construction contract commitments of \$5.2 million at June 30, 2008.

The *Sixth Judicial District* has outstanding construction contract commitments of \$2.3 million at June 30, 2008.

The *Iowa Veterans Home* has contractual obligations for construction and other contracts of \$3.3 million at June 30, 2008.

NOTE 21 – TAX AND REVENUE ANTICIPATION NOTES

Pursuant to the Code of Iowa, Section 12.26, the State of Iowa issued Tax and Revenue Anticipation Notes (TRANS).

The TRANS were issued for the purpose of meeting the State's cash flow requirements. They were issued in December of 2007, with an interest rate of 4.00% and were repaid on or before June 30, 2008.

The following is a schedule of TRANS activity for the year ended June 30, 2008 (expressed in thousands):

Beginning Balance	Issued	Redeemed	Ending Balance
\$ -	\$ 500,000	\$ 500,000	\$ -

NOTE 22 – BEGINNING BALANCE ADJUSTMENTS

During fiscal year 2008, the State of Iowa implemented GASB Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*. This Statement establishes accounting and financial reporting standards for transactions in which a government receives, or is entitled to, resources in exchange for future cash flows generated by collecting specific receivables or specific future revenues.

STATE OF IOWA

NOTES TO THE FINANCIAL STATEMENTS

The statement required the establishment of an interfund advance to account for bonds issued by the Tobacco Settlement Authority, a blended component unit, the proceeds of which were provided to the State. The bonds issued by the Authority are not an obligation of the State and are not backed by the credit, revenues, or taxing power of the State.

The following table summarizes the changes to the fund balance in the governmental fund financial statements (expressed in thousands):

	Tobacco Settlement Authority	Tobacco Collections Fund
July 1, 2007	\$ 82,230	\$ -
GASB 48 adjustment	739,288	(739,288)
Balances restated	<u>\$ 821,518</u>	<u>\$ (739,288)</u>

Also, during fiscal year 2008, beginning net assets were restated to accrue compensated absences for current, eligible employees participating in various sick leave programs offered by the State. Under these programs, eligible employees may use a portion of their accrued sick leave balances to pay the state share of health insurance premiums upon retirement.

The following table summarizes the changes to net assets in the government-wide financial statements (expressed in thousands):

	Governmental Activities
July 1, 2007	\$ 7,638,618
Compensated absences accrual for current employees	(36,606)
Balance restated	<u>\$ 7,602,012</u>

NOTE 23 – DEFICIT FUND BALANCE

The Tobacco Collections Fund, a Major Special Revenue Fund, had a deficit fund balance of \$680.4 million at June 30, 2008. Due to the implementation of GASB Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*, an interfund advance was recorded in the Tobacco Collections Fund, causing the deficit fund balance. As future tobacco collections are received in the Tobacco Collections Fund and remitted to the Tobacco Settlement Authority for repayment of debt, the interfund advance will be reduced and the deficit eliminated.

NOTE 24 – EXTRAORDINARY ITEM

The University of Iowa sustained significant damage to property and impairment to capital assets as a result of the June 2008 flooding of the Iowa River. The magnitude of the flood surpassed the 100-year flood plain and penetrated the 500-year flood plain. The activity related to this event is reported as an

extraordinary item as it is both unusual in nature and infrequent in occurrence.

The following details the components of the extraordinary item at June 30, 2008, (expressed in thousands):

Capital Asset Impairment Gain, net of Insurance Recovery (see note 6)	\$ 35,686
Flood Related Clean Up Expenses and Debris Removal	(4,871)
Other Insurance Recoveries (including Business Interruption, etc.)	<u>24,269</u>
Net Extraordinary Item	<u>\$ 55,084</u>

NOTE 25 – SUBSEQUENT EVENTS

In July of 2008, the University of Iowa issued Telecommunications Facilities Revenue Refunding Bonds, Series 2008 for \$8,210,000 for the purpose of currently refunding the July 1, 2009 through July 1, 2015 maturities of the Telecommunications Facilities Revenue Bonds, Series 2000, dated March 1, 2000, paying for costs of issuance and funding a Debt Service Reserve Fund.

In August of 2008, the University of Iowa issued Recreational Facilities Revenue Bonds, Series S.U.I. 2008 for \$26,000,000 for the purpose of financing a portion of the cost of building, furnishing and equipping a Campus Recreation and Wellness Center, constructing improvements to the University's Field House, funding a deposit to the Reserve Fund, funding a deposit to the Capitalized Interest Fund and paying for costs of issuance.

In November of 2008, Iowa State University issued Academic Building Revenue Bonds, Series I.S.U. 2008A for \$25,000,000. The bonds will bear interest at varying rates and will mature in varying amounts from July 1, 2011 and July 1, 2036. The proceeds of these bonds will be used to pay a portion of the costs of constructing additions to and for improving, remodeling, repairing and equipping the Chemistry Building facilities, funding a Reserve Fund and paying for costs of issuance.

On August 18, 2008, the Executive Council approved paying expenditures, totaling \$28,645,966, related to severe weather and flooding in May and June of 2008.

In October and November of 2008, the Seventh Judicial District signed contracts, totaling \$8,434,379, for construction of phase two of a new work release center to be completed by December 19, 2009.

Capital markets have experienced unprecedented volatility and selling pressure since June 30, 2008, due to a global financial crisis that persists as of the date of this report. As a result, the State's investments reported in the accompanying financial statements have incurred significant declines in value. Because the values of individual investments fluctuate with market conditions, the amount of losses, if any, that the State will recognize in future financial statements, cannot be determined.

Notes to Required Supplementary Information – Budgetary Reporting

Budgetary Expenditures in Excess of Appropriations

During the year ended June 30, 2008, actual expenditures exceeded budgeted expenditures in the General Fund in the Administration and Regulation, Education, Justice, and Transportation functions. For the Administration and Regulation function, the budget overages occurred in the Executive Council for performance of duty claims and in the Department of Management due to increases in claims with the State Appeal Board. The Executive Council and State Appeal Board have standing unlimited appropriations which, according to Sections 7D.29 and 25.2 of the Code of Iowa, allow them to spend additional funds without amending the original budget. For the Education function, the Department of Education received additional federal funds for the School Food Service Program and additional receipts for the Empowerment Program and expended those funds for allowable program expenditures. For the Justice function, the budget overages occurred in the Department of Public Defense for compensation and expenses of officers and enlisted persons of the State National Guard when called to active duty. The Department of Public Defense has a standing unlimited appropriation, which according to Section 29A.29 of the Code of Iowa, allows the Department to spend additional funds without amending the original budget. For the Transportation function, the Department of Transportation received additional federal funds and expended those funds for allowable program expenditures.

Budgetary Presentation

The budget encompasses the General Fund of the State and some Special Revenue Funds, (Real Estate Education, Inspection and Appeals Use Tax Clearing, Unclaimed Winnings, Vertical Infrastructure Fund, Federal Economic Stimulus and Jobs Holding Fund, Environment First Fund, Property Tax Credit Fund, Technology Reinvestment Fund, Healthy Iowan's Tobacco Trust, Underground Storage Tank Unassigned Revenue, Tobacco Tax Exempt Bond Proceeds Restricted Capital, Endowment for Iowa's Health Account, Endowment for Iowa's Health Restricted Capitals Fund, Agrichemical Remediation Fund, Resources Enhancement and Protection Fund, Land Recycling Fund, Fish and Game Trust Fund, Conservation Administration Fund, Forestry Management Enhancement Fund, Water Quality Protection, National Pollutant Discharge Elimination System Permit, Workforce Development Withholding, Local Housing Assistance, Grow Iowa Values Fund, Renewable Fuel Infrastructure Fund, Special Contingency Fund, Administrative Contribution Surcharge, School Infrastructure Fund, Stafford Loan Program, Gambling Treatment Program, Pharmaceutical Settlement Fund, Health Care Transformation Fund, Hospital Trust, Iowacare Fund, Health Care Trust, Primary Road Fund and State Aviation Fund). There is a perspective difference between budget and financial reporting due to the difference in fund structures. The budgetary presentation will vary from the financial presentation for funds displayed in the supplementary information due to this difference. The General Fund is displayed in the Required Supplementary Information (RSI) Budgetary Comparison Schedule. The major Special Revenue Funds, Tobacco Settlement Authority and Tobacco Collections Fund, do not have legally adopted budgets, therefore, they are not displayed. The nonmajor Special Revenue Funds are displayed with the combining financial statements and schedules for nonmajor funds. The nonmajor special revenue funds are reported in the supplementary information section.

STATE of IOWA

Required Supplementary Information

The beginning budgetary fund balance for the nonmajor special revenue funds was restated to include the Agrichemical Remediation Fund and the Pharmaceutical Settlement Fund. These funds were established in the prior year, however, fiscal year 2008 is the first year monies were appropriated (budgeted) from the fund. The balance was also restated to correct an error in the prior year for the Primary Road Fund. These funds are classified as special revenue funds for budgetary purposes. The following summarizes the change to the beginning budgetary fund balance for nonmajor special revenue funds (expressed in thousands):

	<u>Actual</u>
July 1, 2007 Budgetary Fund Balance	\$ 545,114
Adjustment for:	
Pharmaceutical Settlement Fund	1,411
Agrichemical Remediation Fund	120
Primary Road Fund	<u>(4)</u>
Budgetary Fund Balance Restated	<u>\$ 546,641</u>

The original budget and related estimated revenues and expenditures represent the spending authority enacted into law by the appropriations bills as of July 1, 2007 and includes estimated approved budgetary carry-forwards from the prior fiscal year.

The final appropriations budget represents original and supplemental appropriations, actual budgetary carry-forwards, approved transfers, executive order reductions and timing differences.

The State's budget is prepared annually by the Governor on a modified cash basis, except for the accrual of county receivables, and is required to be submitted along with proposed appropriation bills to the General Assembly by the first of February prior to the new fiscal year. When an appropriation bill is passed by both houses of the General Assembly, the bill is enrolled and sent to the Governor. The Governor may sign it into law or veto it in whole or in part on a line item basis. Funds may be disbursed only after appropriations have been allotted by the Department of Management, subject to the review of the Governor, with the exception of standing unlimiteds and certain receipts that the Departments are authorized to expend. Appropriations are allotted for expenditure on a quarterly basis.

Departments may request revisions to quarterly allotments, appropriations transfers, or supplemental appropriations. The Department of Management approves revised allotments within an appropriation, subject to the Governor's review. The Governor and the Department of Management approve all appropriation transfers. The General Assembly and the Governor act on supplemental appropriation bills in a manner similar to original appropriations. Appropriations lapse at fiscal year-end and all unencumbered or unobligated balances revert to the State treasury, unless otherwise provided.

The State utilizes encumbrance accounting for budgetary control purposes. Obligations incurred for goods or services that have not been received or rendered, are recorded to reserve that portion or the applicable fund balance. Section 8.33, unnumbered paragraph 2, of the Code of Iowa, states, "No payment of an obligation for goods or services shall be charged to an appropriation subsequent to the last day of the fiscal year for which the appropriation is made unless the goods or services are received on or before the last day of the fiscal year, except that repair projects, purchase of specialized equipment and furnishings, and other contracts for services and capital expenditures for the purchase of land or the erection of buildings or new construction or remodeling, which were committed and in progress prior to the end of the fiscal year are excluded from this provision." That is, except for the above stated exceptions, the State must have received the goods or services on or before June 30, creating an actual liability or the encumbrance is cancelled against that fiscal year. If the encumbrances are still valid after June 30, they become expenditures / expenses of the next fiscal year.

Budgetary control is essentially maintained at the department fund level except for certain grant and aid programs where control is maintained at a program level.

STATE OF IOWA

Required Supplementary Information

Revenues and expenditures are monitored on a continuing basis. State law authorizes the Governor to impose across-the-board pro rata reductions in allotments to ensure revenues and other available funds are sufficient to pay expenses of a given fiscal year.

Separate reports for the General and budgeted Special Revenue funds presenting detail of the legal level of control and actual expenditures are available from the Department of Management.

General Fund Expenditure Limitation

The Code of Iowa, section 8.54, establishes a state General Fund expenditure limitation of ninety-nine percent of the adjusted revenue estimate. The adjusted revenue estimate is the appropriate revenue estimate for the General Fund for the following fiscal year as determined by the Revenue Estimating Conference, adjusted by subtracting estimated tax refunds payable from that estimated revenue and as determined by the Conference, adding any new revenues which may be considered to be eligible for deposit in the General Fund. *New revenues* means moneys which are received by the state due to increased tax rates and fees or newly created taxes and fees over and above those moneys which are received due to state taxes and fees which are in effect as of January 1 following the December Revenue Estimating Conference. "*New revenues*" also includes moneys received by the General Fund of the state due to new transfers over and above those moneys received by the General Fund of the state due to transfers which are in effect as of January 1 following the December Revenue Estimating Conference. The Department of Management shall obtain concurrence from the Revenue Estimating Conference on the eligibility of transfers to the General Fund which are to be considered as new revenue in determining the General Fund expenditure limitation.

This limitation shall be used by the Governor in the preparation of the budget and by the General Assembly in the budget process. If a source for new revenues is proposed, the budget revenue projection used for that new revenue source for the period beginning on the effective date of the new revenue source and ending in the fiscal year in which the source is included in the revenue base shall be an amount determined by subtracting estimated tax refunds payable from the projected revenue from that new revenue source, multiplied by ninety-five percent. If a new revenue source is established and implemented, the original General Fund expenditure limitation amount shall be readjusted to include ninety-five percent of the estimated revenue from the new revenue source.

For fiscal years in which the Iowa Economic Emergency Fund transfers money to the General Fund, the original General Fund expenditure limitation amount provided for shall be readjusted to include the moneys which are so transferred.

The scope of the expenditure limitation shall not encompass federal funds, donations, constitutionally dedicated moneys, and moneys in expenditures from state retirement system moneys. The Governor shall submit and the General Assembly shall pass a budget that does not exceed the state General Fund expenditure limitation. The Governor in submitting the budget and the General Assembly in passing a budget, shall not have recurring expenditures in excess of recurring revenues. The Governor shall not submit and the General Assembly shall not pass a budget which in order to balance assumes reversion of a specific amount of the total of the appropriations included in the budget.

Reserve Funds

The *Iowa Economic Emergency Fund* was created in Iowa Code section 8.55. The fund is separate from the General Fund of the state and the balance in the fund is not to be considered part of the balance of the General Fund of the state. The moneys in the fund do not revert to the General Fund, unless and to the extent the fund exceeds the maximum balance. The maximum balance of the fund is the amount equal to 2.5 percent of the adjusted revenue estimate for the fiscal year. If the amount of moneys in the Iowa Economic Emergency Fund is equal to the maximum balance, moneys in excess of this amount shall be transferred to the General Fund. The moneys in this fund may be appropriated by the General Assembly only in the fiscal year for which the appropriation is made. The

STATE OF IOWA

Required Supplementary Information

moneys shall only be appropriated by the General Assembly for emergency expenditures. However, except as provided in section 8.58, the balance in the Iowa Economic Emergency Fund may be used in determining the cash position of the General Fund of the state for the payment of state obligations. Interest or earnings on moneys deposited in the Iowa Economic Emergency Fund are credited to the Rebuild Iowa Infrastructure Fund.

The **Cash Reserve Fund** was created in Iowa Code section 8.56. The fund is separate from the General Fund of the state and is not considered to be part of the General Fund of the state except in determining the cash position of the state. The moneys in the Cash Reserve Fund can not be transferred, used, obligated, appropriated, or otherwise encumbered except as provided under Iowa Code section 8.56. Interest or earnings on moneys deposited in the Cash Reserve Fund are credited to the Rebuild Iowa Infrastructure Fund. Moneys in this fund may be used for cash flow purposes provided that any moneys so allocated are returned to the Cash Reserve Fund by the end of each fiscal year. The maximum balance of the fund is equal to 7.5 percent adjusted revenue estimate for the General Fund of the state for the current fiscal year. The moneys in this fund may only be appropriated by the General Assembly for nonrecurring emergency expenditures and shall not be appropriated for payment of any collective bargaining agreement or arbitrator's decision negotiated or awarded. The balance in the Cash Reserve Fund may be used in determining the cash position of the General Fund of the state for payment of state obligations. An appropriation shall not be made from the Cash Reserve Fund if the appropriation would cause the fund's balance to be less than three percent of the adjusted revenue estimate for the year for which the appropriation is made unless the bill or joint resolution is approved by vote of at least three-fifths of the members of both chambers of the General Assembly and is signed by the Governor. Also, the appropriation must be contained in a bill or joint resolution in which the appropriation is the only subject matter of the bill or joint resolution, and the bill or joint resolution states the reasons the appropriation is necessary.

COMBINING FINANCIAL STATEMENTS

Nonmajor Special Revenue Funds

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Endowment for Iowa's Health receives tobacco settlement money to be used for health related expenses.

Honey Creek Authority accounts for bond proceeds issued for the development of Honey Creek Park. The bonds are to be repaid from net revenues of the park.

Federal Student Loan Reserve receives default fees, interest and overpayments and repurchase of claim payments to be used for payment of default claims to lenders and default aversion fees.

Iowa Public Television Foundation is a non-profit corporation that solicits and manages gifts of money and property for Iowa Public Television.

Other Special Revenue Funds are aggregated for reporting purposes and account for various other revenues which must be used for specific purposes.

* Actual expenditures in the Special Revenue Funds exceeded budgeted expenditures as a result of the receipt and legal expenditure of other non-state funds which have been received for restricted purposes. This occurred in the Transportation function in the Primary Road and State Aviation Funds and in the Administration and Regulation function in the Endowment for Iowa's Health Fund.

COMBINING FINANCIAL STATEMENTS

Nonmajor Capital Projects Funds

Capital Projects Funds are used to account for the construction of major capital facilities other than those financed by proprietary funds and trust funds.

General Services Capitals Fund is used to account for various building projects.

Endowment for Iowa's Health Restricted Capitals receives the tax-exempt portion of the Tobacco Settlement Authority's refunding of the tobacco bonds for capital project expenditures as allowed in the tax certificate of the refinancing.

Motor Vehicle Fuel Tax Capitals Fund is used to account for the acquisition of water access, development projects, water safety stations, marinas, and any other project which improves water recreation.

Fish and Game Capitals Fund is used to account for land acquisition and capital projects related to fish and wildlife.

Other Capital Projects Funds are aggregated for reporting purposes and account for construction of various armories, prison expansion programs, and other specific projects.

COMBINING FINANCIAL STATEMENTS

Nonmajor Permanent Funds

Permanent Funds report resources that are legally restricted to the extent that only earnings, and not principal, may be used for the benefit of the government or its citizens.

Iowa Cultural Trust Fund accounts for assets held for the Iowa Cultural Trust. The principal is preserved and applicable interest is transferred to the Cultural Grant fund to be used for purposes consistent with the Trust.

Iowa Veterans Trust Fund accounts for assets held for the benefit of veterans. The principal is maintained and the applicable interest is transferred to the Veterans Affairs Commission to be used for purposes consistent with the trust. New legislation amended the fund to allow a portion of the principal to be transferred out of the fund to establish a veteran's cemetery.

Iowa Public Television Foundation Endowment is used to hold a restricted gift made to Iowa Public Television. While the corpus of the gift is not available to spend, the earnings of the gift are restricted for the acquisition and/or production of quality family programming. Earnings are transferred to the Iowa Public Television Foundation.

Permanent School Principal Fund accounts for the principal derived from the sale of specific land. The interest is to be used for educational purposes.

Other Permanent Funds aggregates the Henry Albert Trust Fund which accounts for trust money for the Department of Public Health, and the Pilot Grove Trust Fund which accounts for a \$10,000 donation in support and maintenance of the Pilot Grove area.

COMBINING FINANCIAL STATEMENTS

Nonmajor Enterprise Funds

Enterprise funds account for activities for which fees are charged to external users for goods and services. This fund type is also used when the activity is financed with debt that is secured with fees and charges, as well as when the pricing policy of the activity is designated to recover its costs.

Iowa Communications Network accounts for a statewide telecommunications system and its related revenues and expenditures.

Iowa Lottery Authority is used to account for lottery revenues, administrative and operating expenses of the Lottery Authority, and the distribution of revenue to the General Fund.

Honey Creek Park is used to account for development of the destination park and park operations.

Liquor Control Act is used to account for the revenues and expenses related to the sale of alcoholic beverages.

Other Enterprise Funds are aggregated for reporting purposes and account for other miscellaneous activities that meet the definition of Enterprise funds.

COMBINING FINANCIAL STATEMENTS

Internal Service Funds

Internal Service funds account for State activities that provide goods and services to other State departments or agencies on a cost reimbursement basis.

Workers' Compensation Fund receives funds associated with the workers' compensation program to pay claims and administrative support costs.

Materials and Equipment Revolving Fund accounts for the purchase, repair, maintenance, and replacement of equipment, machinery, and supplies used by the Department of Transportation.

Depreciation Revolving Fund receives monthly depreciation payments from State departments owning vehicles. The money is used to purchase replacement vehicles for the departments.

Information Technology Revolving Fund provides data processing services to other State departments or agencies.

Other Internal Service Funds are aggregated for reporting purposes and account for other miscellaneous activities that meet the definition of Internal Service funds.

COMBINING FINANCIAL STATEMENTS

Private Purpose Trust Funds

Private Purpose Trust Funds are used to report trust arrangements under which principal and income benefit individuals, private organizations or other governments.

Iowa Educational Savings Plan Trust receives contributions from participants for investment for future application towards payment of higher education costs for designated beneficiaries.

Veterans Affairs receives donations and fund raising receipts to be spent for the benefit of the Veteran residents.

Health Organization Insolvency Fund has received a \$10,000 remittance from each established HMO and LSO per law. This nonrefundable fund is invested to cover the cost of administration if an HMO or LSO declares bankruptcy.

Wagner Award Fund received a bequest by Ruth Wagner to present an annual recognition to the outstanding soil district commissioner who is 40 years or younger to be presented each year at the annual state conference.

Braille and Sight Saving School receives donations and contributions to be spent for the benefit of the students.

COMBINING FINANCIAL STATEMENTS

Agency Funds

Agency funds account for the receipt and disbursement of various taxes, deposits, deductions, and property collected by the State, acting in the capacity of an agent, for distribution to other governmental units or organizations.

Local Sales & Services Tax Fund is used to account for local option sales taxes collected by retailers and deposited with the State. The taxes are then distributed back to the counties which have jurisdictions imposing local option sales tax.

Centralized Payroll Trustee Fund is used to account for accumulation of all voluntary and discretionary payroll deductions from the centralized payroll process.

Judicial-Clerks of District Court act as a collecting agency for many fees and taxes that are then distributed to the proper local government or recipient.

School District Surtax Clearing Fund collects and distributes surtax to the school districts according to the surtax formula set by the districts.

Other Agency Funds are aggregated for reporting purposes and represent amounts held for inmates and residents of State institutions, miscellaneous clearing accounts, and other deposits.

STATE OF IOWA

**STATISTICAL SECTION
TABLE OF CONTENTS**

This part of the State of Iowa's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the State's overall financial health.

	<u>Schedule</u>
Financial Trends These schedules contain trend information to help the reader understand how the State's financial performance and well-being have changed over time.	1 - 4
Revenue Capacity These schedules contain information to help the reader assess the State's most significant revenue source, individual income tax.	5 - 7
Debt Capacity These schedules present information to help the reader assess the affordability of the State's current levels of outstanding debt and the State's ability to issue additional debt in the future.	8 - 9
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the State's financial activities take place.	10-11
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the State's financial report relates to the services the State provides and the activities it performs. A schedule of current expenditures is also included.	12-15

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year. The State of Iowa implemented GASB Statement 34 in 2002; schedules presenting government-wide information included information beginning that year.

2007	45,473	260	45,213	6,755	37,111	43,866	1.03
2008	62,302 *	1,253	61,049	14,700	41,656	56,356	1.08

* Due to implementation of GASB Statement No. 48, the Tobacco Settlement Authority no longer reports tobacco settlement revenues. All tobacco settlement revenues are reported in the Tobacco Collections Fund and funds are then advanced to the Tobacco Settlement Authority for debt repayment. The amount shown represents the amount advanced and interest income.

Independent Auditor's Report on Internal Control
over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards

To the Governor and Members of the General Assembly:

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the State of Iowa as of and for the year ended June 30, 2008, which collectively comprise the State's basic financial statements, and have issued our report thereon dated December 10, 2008 under separate cover. Our report was modified to include a reference to other auditors. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the Tobacco Settlement Authority, a major governmental fund, and certain discretely presented and blended component units, as described in our report on the State of Iowa's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the State of Iowa's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing our opinion on the effectiveness of the State of Iowa's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the State of Iowa's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies.

A control deficiency exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the State of Iowa's ability to initiate, authorize, record, process or report financial data reliably in accordance with U.S. generally accepted accounting principles such that there is more than a remote likelihood a misstatement of the State of Iowa's financial statements that is more than inconsequential will not be prevented or detected by the State of Iowa's internal control. We consider the deficiencies in internal control described in the accompanying Schedule of Findings to be significant deficiencies in internal control over financial reporting. We also noted other matters involving the internal control over financial reporting which will be reported to management in separate departmental reports.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood a material misstatement of the financial statements will not be prevented or detected by the State of Iowa's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. We do not believe the significant deficiencies described above are material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State of Iowa's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of non-compliance or other matters which will be reported to management in separate departmental reports.

The State of Iowa's responses to findings identified in our audit are described in the accompanying Schedule of Findings. While we have expressed our conclusions on the State's responses, we did not audit the State of Iowa's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of the State of Iowa and other parties to whom the State of Iowa may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

DAVID A. VAUDT, CPA
Auditor of State

WARREN G. JENKINS, CPA
Chief Deputy Auditor of State

December 23, 2008

Findings Related to the Financial Statements:

SIGNIFICANT DEFICIENCIES:

(A) Financial Reporting – Departments record receipts and disbursements on the Integrated Information for Iowa (I/3) system throughout the year, including the accrual period. Activity not recorded on the I/3 system is reported to the Iowa Department of Administrative Services – State Accounting Enterprise (DAS – SAE) on a GAAP package. The GAAP package is to be submitted to DAS – SAE by the first week of September each year. Findings were noted for the following departments:

(1) **Iowa Department of Administrative Services**

(a) The GAAP package contains information used to prepare journal entries for the financial statements. The following items were noted:

1. The Department understated the amount of unassigned vehicles inventory by \$169,243. This item was properly adjusted for reporting purposes.
2. The Department understated the risk financing liability by \$39,782.

(b) The GAAP package also contains information used to prepare notes to the financial statements. The following items were noted:

1. The Department overstated the carrying amount of cash by \$723,320 and understated the bank balance by \$33,548. In addition, the amounts reported as funds insured by either the Federal Deposit Insurance Corporation or the State Sinking Fund were incorrect. These items were properly adjusted for reporting purposes.
2. The Department understated future minimum lease payments by \$952,580 and understated fiscal year 2008 rental expense by \$142,250. These items were properly adjusted for reporting purposes.
3. The Department understated the amount of construction commitments by \$43,300.

Recommendation – The Department should ensure the GAAP package information reported is complete and accurate.

Response – As noted above, the Department had corrected most of the items listed above, and will implement processes to ensure these errors will be corrected for future audits.

Conclusion – Response accepted.

State of Iowa

Schedule of Findings

Year ended June 30, 2008

(2) **Iowa Department of Economic Development**

The Department reported the receipts for certain loans as investment income on the GAAP package. However, these receipts were coded as refunds and reimbursements revenue on the I/3 system. This information in the GAAP package is used to prepare journal entries for the financial statements. As a result, investment income was understated and refunds and reimbursements were overstated by approximately \$1,750,000.

Recommendation – The Department should ensure the GAAP package information reported is accurate.

Response – In the future, the Department will note on the GAAP package the revenue coding used to record loan payments to ensure the correct revenue code is reported to DAS-SAE.

Conclusion – Response accepted.

(3) **Iowa Department of Education**

The Department performs additional procedures after September 1 to identify additional accounts payable which were not included as expenditures on the I/3 system. However, at June 30, 2008, there were approximately \$4.3 million in requests for payments submitted by subrecipients which were not reported in the GAAP package to DAS-SAE.

Recommendation – The Department should obtain and process requests for payments to subrecipients more timely or the Department should consider estimating payables to more accurately report payables at year end.

Response – The position of Chief Financial Officer was staffed with interim status for the majority of the calendar year. This temporary situation caused loss of forward momentum in several categories, but particularly in management and tracking of expenditures and disbursement of payments. The remedy is obvious and in place – we now have stabilized the staffing in that position. We have instituted tracking systems to monitor work flow in the areas of contracts and claims. We are working to standardize all processes through the development of work flow manuals that explain expectations. These manuals will be used to train program staff over the next year for all Internal Operations processes, including claims and expenditures.

Conclusion – Response accepted.

(4) **Iowa Department of Education, Division of Vocational Rehabilitation Services (IVRS)**

(a) During the accrual period, the Department prepared a document to reduce Fund 0034 revenues by \$891,475 and

State of Iowa

Schedule of Findings

Year ended June 30, 2008

move the revenue from fiscal year 2008 to fiscal year 2009. Because the revenue had been earned, the amount should have been reported in section 3 rather than section 2 of the unearned revenue page of the GAAP package. In addition, the Department coded the transaction on I/3 as prepaid expense rather than a reduction of accounts receivable. Due to the journal entry initially made from the GAAP package, revenue and prepaid expenses were understated and accounts receivable and deferred revenue were overstated. This was properly adjusted for reporting purposes.

- (b) During the accrual period the Department reduced revenues by \$423,000 in fiscal year 2008 to properly recognize them in fiscal year 2009. When a Department adjusts revenue reported on I/3 in this manner, the balances are to be reported in section 2 of the unearned revenue page of the GAAP package. An entry is then made by DAS-SAE to reclassify the negative accounts receivable as deferred revenue. The Department excluded the amount from the GAAP package and coded the transactions on I/3 as a reduction to prepaid expenses rather than a reduction to accounts receivable, resulting in an understatement of deferred revenue and prepaid expense. This was properly adjusted for reporting purposes.

Recommendation – Proper accounting procedures should be followed when adjusting revenues on the I/3 system during the accrual period. The Department should also ensure all deferred revenue is properly reported on the GAAP package.

Response –

- a) IVRS agrees the revenue was earned and should have been reported in section 3 of the GAAP package as the purpose of the transaction was to match revenue and expenditures within the fund. IVRS inadvertently reported the amount in section 2. Procedures will be put in place to properly identify transactions and record them in the correct sections of the GAAP package.
- (b) IVRS agrees two transactions for \$335,000 and \$88,000 should have been included in the GAAP package. When reviewing internal records to complete the GAAP package, these two transactions were missed and thus not reported. IVRS will more carefully review internal records to be sure all transactions are reported.

IVRS will review all transactions at the time of processing so that they are coded appropriately as prepaid expenditures or as a reduction to accounts receivable.

Conclusion – Response accepted.

State of Iowa

Schedule of Findings

Year ended June 30, 2008

(5) **Iowa Department of Human Rights**

- (a) The GAAP package was submitted September 19, which was not timely.
- (b) During the accrual period, the Department reduced revenues by \$2,501,677 in fiscal year 2008 to properly recognize them in fiscal year 2009. When a Department adjusts revenue reported on I/3 in this manner, the balances are to be reported in section 2 of the GAAP package. An entry is made by DAS-SAE to reclassify the negative accounts receivable as deferred revenue. The Department coded the transactions on I/3 as accounts payable rather than a reduction to accounts receivable, resulting in an overstatement of accounts receivable and accounts payable. This was properly adjusted for reporting purposes.

Recommendation – The Department should ensure the GAAP package is submitted timely. In addition, proper accounting procedures should be followed when adjusting revenues on the I/3 system during the accrual period.

Response – Under normal circumstances the GAAP package is compiled and the I/3 documents prepared by two fiscal employees of the Iowa Department of Human Rights. During the fiscal year close-out period in September 2008, one of these employees was on extended leave. In the ensuing rush to complete the task of adjusting revenues between fiscal years, the remaining staff member coded the initial transaction incorrectly as an accounts payable. This error carried forward as this form became the document template and was continually reused.

The Iowa Department of Human Rights will work diligently to ensure the GAAP package is submitted timely and information is properly recorded on the I/3 system for fiscal year 2009.

Conclusion – Response accepted.

(6) **Iowa Department of Human Services**

The Iowa Department of Human Services (DHS) processes and records county billing information for medical and facility services provided to individuals meeting specific criteria. As of June 30, 2008, the receivable balance for county billings included over \$8.7 million in claims disputed by counties receiving the billings.

Of the total disputed balance, approximately \$6.1 million originated prior to fiscal year 2007. DHS has a process for resolving disputed billings. However, this process currently results in the resolution of only 16% to 37% of the total amount disputed per year. In addition, over \$4.2 million of the disputed amount consists of disputes which counties indicate are the responsibility of the Iowa Department of

State of Iowa

Schedule of Findings

Year ended June 30, 2008

Corrections. DHS does not have procedures in place to pursue the necessary evidence to resolve these disputes. As a result, the collectability of the disputed balance is in question.

Recommendation – DHS should establish procedures to ensure the total balance reported as county billings receivable is appropriate and should consider reporting an estimate representing balances considered uncollectible. In addition, DHS should establish procedures to pursue the necessary evidence and related collection from the Iowa Department of Corrections.

Response – The amount identified as owed to the State from counties is based on the Code of Iowa and Administrative Rules. The Department continues to work with counties in resolving billing disputes. There currently exists no statutory authority to determine any portion of the outstanding receivables as uncollectible.

Counties have disputed over \$4.2 million in outstanding charges asserting the Iowa Department of Corrections is responsible rather than the county. The Code of Iowa, Chapter 230 places financial responsibility with the county of legal settlement. We are seeking further clarification of responsibility for these charges through a change in this chapter, to be considered during this legislative session. Once clarified, payment resolution will be more attainable.

Conclusion – Response accepted.

(7) **Iowa Judicial Branch**

Prior to fiscal year 2004, Chapter 421.17(25)(f) of the 2003 Code of Iowa allowed the Judicial Branch to keep 10% of income tax offset collections to defray the costs of the income offset procedures. In the 80th General Assembly, 2003 Session, Ch. 145 Section 254, an amendment was made to strike Chapter 421.17(25) in the 2003 Code of Iowa. The Iowa Judicial Branch was not aware of the change in legislation and continued to retain 10% of the income offset collections. In fiscal year 2009, the Iowa Judicial Branch became aware of the error and made adjustments to move the amounts retained from income offsets for July 2008 through November 2008 to the State's General Fund. For the period July 1, 2004 through June 30, 2008, the Iowa Judicial Branch retained \$2,207,962 of income tax offset collections in error.

Recommendation – The Iowa Judicial Branch should consult legal counsel to determine the disposition of this matter. In addition, the Iowa Judicial Branch should establish procedures for reviewing legislative changes annually to ensure compliance with applicable laws, rules and regulations.

Response – We will consult legal counsel to determine disposition of this matter. We have proposed legislation in this session to allow the Iowa Judicial Branch to retain 10% of the income tax offset. We have

State of Iowa

Schedule of Findings

Year ended June 30, 2008

procedures for reviewing legislative changes annually to ensure compliance with applicable rules and regulations.

Conclusion – Response accepted.

(8) **Iowa Department of Natural Resources (DNR)**

- (a) The GAAP package was submitted October 1, 2008, which was not timely.
- (b) Loans receivable for three funds were reported on the GAAP package twice, once on an individual loan receivable page and again on the summary page of other accounts receivable in the amounts of \$6,081,808, \$320,345 and \$725,000. This was properly adjusted for reporting purposes.
- (c) Supporting documentation was not provided to determine whether the amounts reported in the GAAP package as unearned revenue were proper.
- (d) There were several other GAAP package pages with immaterial errors noted.

Recommendation – The Department should ensure the GAAP package is submitted timely and information reported is accurate and supported.

Response –

- (a) The GAAP package is due before all financial activity is final for the fiscal year. DNR has material financial transactions each fiscal year that take place in the time between the GAAP package due date and the cutoff date in the State's financial accounting system for the fiscal year accrual period activity (mid-September). If we were to submit the GAAP package according to the due date set by DAS-SAE (first week of September), it would not be materially correct. DAS-SAE's current policy is they will only accept GAAP packages with all pages completed and the package must be materially correct. DNR has offered to submit all pages on time except for the pages which have material activity after the due date (such as the capital assets, deferred revenue and receivables pages). Since this is not an option, the first week of September due date is not attainable.
- (b) When the State started using the GAAP package for gathering information for the preparation of the State's Comprehensive Annual Financial Report (CAFR), the Department was instructed by DAS-SAE to report these loans receivable amounts on both pages mentioned (loans receivable page and receivables summary page). These loans receivable totals are clearly labeled as "Loans" on both pages. DNR was never notified these loans should no longer be reported on the receivables summary page. As the Department's GAAP

State of Iowa

Schedule of Findings

Year ended June 30, 2008

package is quite complex, we would recommend enhanced communication between DAS-SAE, the Office of Auditor of State and the Department to ensure these types of communication errors do not occur in the future.

- (c) The Department's funding shares spreadsheet, which is audited annually, is the basis for determining the amount of unearned revenue at year end. It is included as backup support for the unearned revenue GAAP package page. The items noted in testing included federal and non-federal grants which had work that was not complete at fiscal year end. Therefore, the amounts were properly shown as unearned revenues and were rolled forward on the I/3 system upon approval by the Department of Management. Grant and other supporting documentation for these unearned revenues does exist, but was not included in with the GAAP package documentation. We will work in the future to provide the Auditors with contact information sooner so that they can view this documentation prior to the completion of GAAP package testing.
- (d) The Department will continue to work to minimize immaterial errors on the GAAP package.

Conclusion – Response accepted.

(9) **Iowa Department of Public Defense**

- (a) Certain revenues considered deferred revenue were excluded from the unearned revenue page of the GAAP package.
- (b) Several miscalculations were noted with the unearned revenue reported in the GAAP package.
- (c) Operating leases were not reported in the GAAP package.

Recommendation – The Department should ensure the GAAP package information reported is complete and accurate.

Response – Clarification from the Auditors has resolved the misunderstanding in reporting of unearned revenue and operating leases.

Conclusion – Response accepted.

(10) **Iowa Department of Public Safety**

- (a) The GAAP package was submitted October 21, 2008, which was not timely.
- (b) The GAAP package was not reviewed by an independent reviewer prior to submittal to DAS-SAE.
- (c) Total construction commitments of \$2,471,021 reported on the GAAP package for two construction projects were incorrect.

State of Iowa

Schedule of Findings

Year ended June 30, 2008

Actual unpaid construction contracts were \$1,624,581, an overstatement of \$846,440. This was properly adjusted for reporting purposes.

Recommendation – The Department should ensure the GAAP package is submitted timely, accurate information is reported and supported and properly reviewed by appropriate management prior to submission.

Response –

- (a) Due to the amount of information required and the amount of detail the Iowa Department of Public Safety must put into this package, it is impossible to complete it by the first part of September in any year. However, this last year's delay was compounded by the retirement of the person responsible for its completion. The retiree was instructed to provide the information and training to another individual so it could be completed. However, that person only received a copy of the prior years GAAP package with no training or backup documentation. Therefore, we had to figure out what had been done in the past to determine how to accurately complete the most current GAAP package. Now that this information has been reviewed and documentation improved upon we do not expect the GAAP package to be this late in future years.
- (b) In our attempt to get the GAAP package submitted this process was missed. We will make sure this step is completed in the future.
- (c) We unintentionally used the remaining balance of the appropriation rather than outstanding amounts on the contracts. We will report the appropriate amounts on the next GAAP package.

Conclusion – Response accepted.

(11) **Iowa Department of Workforce Development**

- (a) The delinquent employer contributions penalty and interest receivable was understated by \$317,488 and the allowance for doubtful accounts was understated by \$222,294, a net understatement of \$95,194.
- (b) The Trade Readjustment Assistance benefits payable was omitted from the GAAP package, resulting in a \$150,958 understatement of accounts payable.
- (c) Carryforward adjustments for fiscal year 2009 totaling \$5,297,509 were not originally reported on the unearned revenue page of the GAAP package as required. Even though a revision was submitted to DAS – SAE for correction, a \$98,824 understatement of the carryforward adjustment remained.

State of Iowa

Schedule of Findings

Year ended June 30, 2008

- (d) Nine of twenty-seven long-term rental leases in effect during fiscal year 2008 contain a clause specifying the Department is to pay a certain percentage of property tax due on the rental property as a part of the rental agreement. The property tax due was not included as part of the current year rental expense disclosed in the GAAP package or for the rental expense obligation for future years. Rental payments for fiscal year 2008 were understated by \$129,272 and future lease payments were understated by \$295,605.
- (e) There were several other GAAP package pages with immaterial errors noted.

Recommendation – The Department should ensure the GAAP package information reported is complete and accurate.

Responses –

- a), b), and c) Additional time will be spent reviewing the GAAP package prior to submission. This finding will be reviewed with the person who prepared the section of the report, as well.
- d) IWD and the Office of Auditor of State had agreed to include property tax at the rate known at the time the schedule is prepared (current year). However, the employee who prepares the schedule annually retired, and a new employee began work as the schedule was being prepared. As a result, the property tax was overlooked. This finding will be reviewed with the person who prepared the section of the report and management will ensure the property tax is included in future years.
- e) Additional time will be spent reviewing the GAAP package prior to submission.

Conclusion – Response accepted.

(12) **Second Judicial District**

Portions of the GAAP package were submitted by the District November 12, 2008 and the complete GAAP package was submitted December 8, 2008, which was not timely. As a result, the reported insured value of buildings and contents was understated \$5,245,600. This was properly adjusted for reporting purposes.

Recommendation – The Judicial District should ensure the GAAP package is submitted by the due date and is complete and accurate.

Response – The Second Judicial District will perform and put in place all appropriate management and planning procedures to ensure all future GAAP packages will be completed accurately in their entirety and submitted to the Iowa Department of Administrative Services by the annual submission deadline.

Conclusion – Response accepted.

State of Iowa

Schedule of Findings

Year ended June 30, 2008

(B) Capital Assets – Chapter 7A.30 of the Code of Iowa requires each department of the state to maintain a written, detailed and up-to-date inventory of property under its charge and control. Findings were noted for the following departments:

(1) **Iowa Department of Administrative Services**

- (a) The Department did not perform a reconciliation of capital asset additions to I/3 system expenditures. One asset for \$21,536 purchased during the fiscal year was not added to the capital asset listing and one asset was added at an estimated amount and added again at an actual amount, resulting in an overstatement of asset additions of \$127,200.
- (b) Accumulated depreciation and depreciation expense for buildings and building improvements was understated by \$32,381.
- (c) Depreciation expense could not be recalculated for nine of twenty-five assets due to manual adjustments made by the Department and assets coded incorrectly on the capital asset system.
- (d) In the prior year, assets were moved between an organization within the same fund. The Department reported these as additions and deletions. In the current year, \$539,016 was reported again as additions and \$332,051 was reported again as deletions, resulting in an overstatement of \$206,965 for the ending balance reported.
- (e) An incorrect adjustment erroneously reduced additions by \$10,747.
- (f) One asset was added twice and one asset relating to the prior year was added again in the current year, resulting in an overstatement of \$17,080.
- (g) The Department does not have written accounting procedures for the reconciliation of State Vehicle Dispatch records to the Department's capital asset listing and reconciliation of the Department's capital asset additions to I/3 asset purchases.
- (h) The loss on disposal of assets was overstated for the Governmental Funds and the Internal Service Funds by \$4,626 and \$482,326, respectively. This was properly adjusted for reporting purposes.

Recommendation – The Department should develop written procedures to ensure a detailed, up-to-date capital asset listing is maintained. Procedures should include, but not be limited to, ensuring capital asset additions are reconciled to I/3 asset purchases and depreciation expense is properly calculated and recorded. Also, the Department should develop written procedures for the reconciliation of the State Vehicle Dispatch records to the Department's capital asset listing and the reconciliation of the Department's capital asset additions to I/3 asset purchases.

State of Iowa

Schedule of Findings

Year ended June 30, 2008

Response – The Department will take the appropriate steps to correct these issues for future audits.

Conclusion – Response accepted.

(2) **Glenwood Resource Center (GRC)**

(a) GRC purchased a boom truck for \$108,000 and was later reimbursed by the State of Iowa. GRC included the boom truck on the capital asset listing at a zero value.

(b) Construction in progress at June 30, 2008 of \$8,203 for an uncompleted storage building was included with completed buildings and subjected to depreciation expense.

Recommendation – Capital assets donated or reimbursed should be included on the capital asset listing valued at fair value at the date of donation or the amount paid. In addition, uncompleted construction in progress at year end should remain in construction in progress and not be included with completed buildings and be subjected to depreciation expense before the asset is placed into service.

Response – The boom truck has been corrected on the capital asset listing. Capital assets donated or reimbursed will be included on the capital asset listing valued at fair value at the date of donation or the amount paid. Depreciation for construction in progress has been corrected. Uncompleted construction in progress will be added to buildings when completed.

Conclusion – Response accepted.

(3) **Iowa Department of Inspections and Appeals**

Errors noted in the Department's vehicle depreciation schedule resulted in an understatement of accumulated depreciation of \$33,503.

Recommendation – The Department should review its capital assets procedures to ensure accurate and current records are maintained.

Response – The Department has reallocated staff to allow more focus on capital asset accounting and has revised procedures and corrected a spreadsheet error. This should allow for more accurate record keeping in the future.

Conclusion – Response accepted.

State of Iowa

Schedule of Findings

Year ended June 30, 2008

(4) **Iowa Judicial Branch**

- (a) The year-end capital asset listing excluded the current year additions and included impaired assets which were deleted.
- (b) The ending balances for cost and accumulated depreciation for machinery, equipment and vehicles were overstated by \$109,519 and \$236,716, respectively.
- (c) Two assets included on the capital asset listing could not be located due to the asset being either discarded or traded-in during a previous fiscal year.

Recommendation – The Iowa Judicial Branch should develop capital asset procedures to ensure a detailed, up-to date capital asset listing is maintained to support the amounts reported on the GAAP package. Procedures should include, but not be limited to, ensuring capital asset additions are included in the capital asset listing when acquired and deletions are promptly reported and removed from the capital asset listing.

Response – We now use the capital asset program available through the State's I/3 accounting system and will maintain an up-to-date listing.

Conclusion – Response accepted.

(5) **Iowa Department of Natural Resources (DNR)**

- (a) The Department performs a monthly reconciliation of capital asset additions to I/3 expenditures. However, the following were noted:
 - (1) The written procedures for the reconciliation process are outdated.
 - (2) The reconciliation is not reviewed by someone independent of the reconciliation process.
 - (3) Reconciliations were not always performed timely.
- (b) The Department utilizes an Access database and the MEGA System to track capital asset activity. These systems cannot generate a listing of additions and deletions or distinguish between infrastructure and land improvements for financial statement reporting. Information is downloaded and additions and deletions are determined for financial reporting independently. A reconciliation is not performed between the tracking systems and information reported in the GAAP package for financial reporting. The following variances were noted:
 - (1) One project for \$93,043 reported on the GAAP package could not be traced to the MEGA system.

State of Iowa

Schedule of Findings

Year ended June 30, 2008

- (2) One land addition for \$321,772 was not reported as an addition on the GAAP package.
- (3) Supporting documentation was not available for \$52,712 of equipment additions to the GAAP package.
- (c) The Iowa Department of Transportation (DOT) pays for road projects within DNR parks and properties. This amount is compiled by DNR throughout the year and is reported on the GAAP package as additions to infrastructure. The amount compiled by DNR throughout the year did not reconcile to the addition reported on the GAAP package. There are no written procedures for a reconciliation process between additions reported in the GAAP package and the amount paid by DOT.
- (d) The Honey Creek Premier Destination Park (Honey Creek) construction in progress is reconciled between additions reported in the GAAP package and expenditures reported in the I/3 system. There are no written procedures on the reconciliation process for Honey Creek construction in process.

Recommendation – The Department should update current written procedures and develop other written procedures to ensure a detailed, up-to-date capital asset listing is maintained and properly reported for financial statement purposes. Procedures should include, but not be limited to, a review of the reconciliation performed by accounting staff and a reconciliation between the Department's tracking system and amounts utilized on the GAAP package for financial reporting. These reconciliations should be performed timely and be reviewed by an independent person.

Response – During fiscal year 2009, the Department conducted a continuous process improvement event to address a number of the capital assets issues listed in this audit finding. As a result, we are currently in the process of revising our capital assets procedures along with implementing a new computer system which will replace our inadequate mainframe system. This new computer system is being designed so it will generate the proper reports needed for GAAP package reporting. In addition, this new, more flexible system will enable us to properly distinguish between infrastructure and land improvements and will allow us to properly summarize and report DNR's road projects so we no longer have to rely on obtaining information from DOT for our GAAP package. As a part of revising our system, we will rewrite our existing procedures to ensure applicable reviews and reconciliations are performed.

Conclusion – Response accepted.

State of Iowa

Schedule of Findings

Year ended June 30, 2008

(6) **Iowa Department of Public Defense**

Military Division

- (a) The Department did not perform a reconciliation of capital asset additions to I/3 system expenditures. The following items were noted:
 - (1) Two asset additions were assets previously included as buildings and building improvements.
 - (2) Three asset additions were assets previously included on the equipment listing.
 - (3) Three additions did not meet the capitalization threshold and should not have been included on the capital asset listing.
 - (4) Supporting documentation could not be located for two additions to validate asset cost.
 - (5) Two capital asset purchases were not included as additions to the asset listing.
 - (6) The capitalized cost did not equal actual asset acquisition cost for three asset additions.
 - (7) One capital asset purchased in fiscal year 2009 was incorrectly included as an addition in fiscal year 2008.
- (b) Two assets deleted were still in the possession of the Department.
- (c) Two assets transferred to another Department prior to June 30, 2008 were not removed from the listing.
- (d) Adequate supporting documentation was not maintained for five assets deleted.
- (e) One of five assets tested for existence was no longer in the possession of the Department at June 30, 2008.
- (f) Amounts reported in the GAAP package for disposal of assets and the associated accumulated depreciation were understated.
- (g) Accumulated depreciation was calculated incorrectly, resulting in an overstatement of depreciation expense and accumulated depreciation.

Homeland Security and Emergency Management Division

- (a) The Department did not perform a reconciliation of capital asset additions to I/3 system expenditures. One asset addition was not included on the asset listing.
- (b) Six asset additions tested did not include the proper State identification tag.

State of Iowa

Schedule of Findings

Year ended June 30, 2008

- (c) Accumulated depreciation was calculated incorrectly, resulting in an overstatement of depreciation expense and accumulated depreciation.

Recommendation – The Department should develop written procedures to ensure a detailed, up-to-date capital asset listing is maintained. Procedures should include, but not be limited to, ensuring capital asset additions are reconciled to I/3 asset purchases, depreciation expense is properly calculated and recorded and asset deletions are properly authorized, supported and promptly removed from the capital asset listing. The Department should also ensure proper State identification tags are included on all asset additions. Amounts should be accurately reported on the GAAP package.

Response – The Department has implemented a capital assets tracking procedure (copy furnished to the Office of Auditor of State), which will ensure a current updated listing is maintained and reconciled to I/3 and supporting documentation is maintained and GAAP package reporting is accurate.

Conclusion – Response accepted.

(7) **Iowa Department of Workforce Development**

- (a) The Department did not reconcile capital asset additions to I/3 system expenditures. The following items were noted:
 - (1) Four of seventy-five capital asset expenditures tested were coded to an incorrect expenditure object code. Two were incorrectly coded to an expenditure object code for non-inventory assets and two were incorrectly coded to an expenditure object code for inventory assets.
 - (2) Two of seventy-five capital asset expenditures tested greater than \$5,000 were not included on the capital asset listing.
- (b) Two of ten capital assets observed at the Department had a value over the capitalization threshold of \$5,000 but were not on the Department's capital asset listing.
- (c) Two of twenty-five capital assets tested for existence and two of eight capital asset additions did not include a State identification tag.
- (d) Six of twenty-one capital asset additions did not have a State identification tag number yet assigned.

Recommendation – The Department should review capital asset policies and procedures to ensure a detailed, up-to-date capital asset listing is maintained. This includes ensuring capital asset additions are reconciled to I/3 system expenditures and all assets are properly accounted for and included on the capital asset listing. The Department should also ensure proper State identification tags are assigned and included on all asset additions.

State of Iowa

Schedule of Findings

Year ended June 30, 2008

Response –

- a,1) The employee responsible for capital asset record keeping was off work for six months and then qualified for long term disability. A replacement was hired, but after several weeks on the job she was injured and has been absent since sustaining the injury. The result has been attempts by other employees to maintain the capital asset records on an intermittent basis. When the full time employee who is responsible for maintaining capital asset records returns, they will review records and reconcile with I/3 records.
- a,2) and b) When the full time employee who is responsible for maintaining capital asset records returns, the errors will be reviewed with them and capital asset expenditure coding and recording will be reviewed until it appears the coding problem has been corrected.
- c) When the full time employee who is responsible for maintaining capital asset records returns, the errors will be reviewed with them and capital asset expenditure recording will be reviewed until it appears the recording problem has been corrected. In addition, the capital asset policy will be reviewed with the management team, including field managers.
- d) It is our understanding these instances occurred in field offices. The capital asset policy will be reviewed with field managers and their supervisors. Also, we will look for tags on equipment additions during field office visits by fiscal and premises staff to ensure compliance.

Conclusion – Response accepted.

(8) **Iowa Department of Human Services, Toledo State Juvenile Home**

The Iowa Department of Administrative Services (DAS) receives state appropriations for various capital projects related to State owned buildings. DAS maintains detailed spreadsheets for each project. These spreadsheets are sent monthly to the Iowa Department of Human Services (DHS) for the DHS facilities.

The various DHS facilities report the construction in progress related to their projects in their GAAP packages. At year end, the Business Manager for the Toledo Juvenile Home (TJH) contacted DAS to obtain financial information related to the construction projects in progress, since TJH had not received the reports originally sent to DHS. DAS provided several electronic files containing the financial information to TJH. Some of the financial information provided is maintained as year-to-date and other spreadsheets document expenditures by fiscal year.

State of Iowa

Schedule of Findings

Year ended June 30, 2008

TJH used the year-to-date information to prepare the construction in progress balance reported in the GAAP package at June 30, 2008, which included \$1,493,911 of expenditures related to fiscal year 2009. This was properly adjusted for reporting purposes.

Recommendation – The Toledo Juvenile Home should work with DHS to obtain these reports and work with DAS to gain a better understanding of the financial information provided to ensure the accuracy of amounts reported in the GAAP package.

Response - The Toledo Juvenile Home will confer with the Iowa Department of Administrative Services to ensure balances reported for construction in progress contain specific fiscal year totals, and not cumulative amounts.

Conclusion – Response accepted.

(C) Payroll

- (1) **Woodward Resource Center**
Iowa Department of Education, Division of Vocational Rehabilitation
Iowa Department of Inspections and Appeals
Iowa Judicial Branch
Iowa Department of Natural Resources
Iowa Department of Public Defense

Departments process and record payroll and personnel information on the Human Resource Information System (HRIS). The Human Resource Associates utilize an online P-1 document to initiate and approve payroll actions, such as adding new employees and recording pay raises. Individuals at the above entities have the ability to initiate and approve timesheets.

Recommendation – To strengthen controls, the Departments should develop and implement procedures to segregate the duties of the Human Resource Associates from the duties of payroll.

Responses –

Woodward Resource Center – For documents that require more than one level of approval at the facility, Woodward Resource Center Human Resource staff will initiate a process to assure there is segregation of duties. The Human Resource Associate will do one level of approval and the Human Resource Administrative Assistant 2 will do the other level on the documents.

Iowa Department of Education, Division of Vocational Rehabilitation – The IVRS normal practice is for the Human Resource Associate to put initial (PA) approval on the P-1 documents, after verifying accuracy and appropriateness of the action(s). After this step, the Division Administrator, or in his absence, the Human Resource Executive Officer puts Department approval on the same document. The Bureau Chief for Administrative Services and Chief Financial Officer also have the ability to do this.

State of Iowa

Schedule of Findings

Year ended June 30, 2008

The particular transaction observed by auditors in August, 2007 was approved by the Human Resource Associate, at both the "initial/PA" and the "department" levels of approval. This was not in accordance with normal practice and we have taken steps to ensure correction.

From now on, we will limit the Human Resource Associate's authority on P-1 documents to the first level of preparation/approval. We have designated another employee, from our Fiscal Section, as the back-up at this level only. These will be the only two employees to initiate P-1s at this time. Department approval will be maintained by the HR Executive Officer, Administrative Services Bureau Chief, Chief Financial Officer, and IVRS Division Administrator.

Iowa Department of Inspections and Appeals – The Department does not have sufficient staffing levels to employ Human Resource Associates. We have one full-time Human Resource Manager who is a professional and a valued member of the departmental management team. She also has the primary responsibility for entering and approving P-1 documents because no other staff is available for this function. The other individuals in the Department with this authority are simply emergency back-up for the personnel officer. It is almost never required that these individuals actually enter P-1 documents and would likely not be able to do so unless they were talked through the procedure by someone with more expertise. In addition, no payroll adjustments can be implemented without approval of DAS-HRE staff. Fiscal Services Bureau staff have unrestricted access to payroll records and on-line payroll and could easily determine if any irregularities existed. Under current procedures adopted after fiscal year 2007 audit recommendations, timesheets are not initiated and approved by the same individual even though the authority may exist for one person to do both due to the need for back-up personnel to ensure employees are paid timely and correctly.

Iowa Judicial Branch – All timesheets are reviewed and signed/approved by a supervisor. With a small limited number of our staff, P-1 documents can be initiated and approved by the same person. In those cases, if pay raises or new employees are involved, written approval is obtained and maintained to approve these actions. This approval is noted on the P-1 document and is reviewed by the payroll person at the Iowa Department of Administrative Services. The biweekly table of authorized positions is reviewed each pay period by someone other than the person authorized to prepare the online P-1 documents. We will review our processes to see if improvements can be made to strengthen our internal controls.

Iowa Department of Natural Resources – The Department employs two Human Resource Associates in our payroll and personnel section. Because both of these employees must process and record payroll and personnel information and serve as each others' backup, it is not

State of Iowa

Schedule of Findings

Year ended June 30, 2008

possible to completely segregate the duties of initiating and approving payroll actions on the HRIS system. We do plan to work with the Office of Auditor of State to develop and implement alternative methods of strengthening controls in this area.

Iowa Department of Public Defense – The Department has reduced the number of employees with full approval level by 2. The Department is implementing an approval process by the Deputy Comptroller of all P-1 transactions. The Iowa Department of Administrative Services will provide a quarterly report of all approved P-1's, the Deputy Comptroller will review and approve (initial). Reports will be kept and filed by Deputy Comptroller.

Conclusions –

Woodward Resource Center – Response accepted.

Iowa Department of Education, Division of Vocational Rehabilitation – Response accepted.

Iowa Department of Inspections and Appeals – Response accepted.

Iowa Judicial Branch – Response accepted.

Iowa Department of Natural Resources – Response accepted.

Iowa Department of Public Defense – Response accepted.

(2) **Iowa Department of Human Services**

The Department processes and records payroll and personnel information on the Human Resource Information System (HRIS). A Department personnel assistant (PA) initiates payroll actions, such as adding new employees and recording pay raises, utilizing an online P-1 document. The Department's standard practice is for an independent person to apply the Department level approval before the P-1 document is submitted to the Department of Administrative Services – State Accounting Enterprise for final processing.

For the period July 1, 2007 through April 25, 2008, two P-1 documents were initiated and received Department level approval by the PA. These two P-1 documents were originally initiated by the PA and approved at the Department level by an independent person. However, changes had to be made to the original P-1 document. When these changes were made by the PA, instead of the P-1 going through the Department's standard practice, the PA applied the Department level approval. Therefore, independent approval was not performed.

Recommendation – The Department should establish procedures to ensure the changes to P-1 documents are independently approved.

State of Iowa

Schedule of Findings

Year ended June 30, 2008

Response – The Administrator of the Iowa Department of Human Services' Division of Results Based Accountability, who oversees the Bureau of Human Resources, will remind its personnel assistants of the Department's standard practice, which is changes of P-1 documents will be independently approved. This reminder will be in the form of a written memo to each of the personnel assistants.

Conclusion – Response accepted.
