INDEPENDENT AUDITOR'S REPORT

To the Dubuque Metropolitan Area
Solid Waste Agency Board:

We have audited the accompanying financial statements of the Dubuque Metropolitan Area Solid Waste Agency, a component unit of the City of Dubuque, Iowa, as of and for the year ended June 30, 2010, which comprise the Agency's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Agency's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the financial statements referred to above present only the Dubuque Metropolitan Area Solid Waste Agency, a component unit of the City of Dubuque, and are not intended to present fairly the financial position of the City of Dubuque and the changes in financial position and cash flows of its proprietary fund types in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Dubuque Metropolitan Area Solid Waste Agency, a component unit of the City of Dubuque, Iowa, as of June 30, 2010, and the changes in financial position and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 21, 2011, on our consideration of the Dubuque Metropolitan Area Solid Waste Agency's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and schedule of funding progress for the retiree benefit plan listed in the table of contents are not required parts of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that comprise the basic financial statements of the Dubuque Metropolitan Area Solid Waste Agency, a component unit of the City of Dubuque. The accompanying other supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**DUBUQUE METROPOLITAN AREA SOLID WASTE AGENCY
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2010**

This section of the financial report of the City of Dubuque Metropolitan Area Solid Waste Agency (DMASWA) presents our discussion and analysis of the financial performance during the fiscal year that ended on June 30, 2010. Please read it in conjunction with the financial statements of the DMASWA found in this report.

FINANCIAL HIGHLIGHTS

- The assets of the DMASWA exceeded its liabilities at the close of the fiscal year by \$11,078,013 (net assets). This was a decrease of \$789,498 in net assets at June 30, 2010. Unrestricted net assets at June 30, 2010, in the amount of \$5,088,885 may be used to meet the DMASWA's ongoing obligations.
- Total operating expenses exceeded revenues by \$894,196.
- Within the DMASWA's operating fund, expenses exceeded revenues and transfers by \$782,210.
- Within the DMASWA's planning fund, expenses exceeded revenues and transfers by \$7,288.

OVERVIEW OF THE FINANCIAL STATEMENTS

The DMASWA's basic financial statements consist of a statement of net assets, a statement of revenues, expenses, and changes in net assets and a statement of cash flows. This discussion and analysis is intended to serve as an introduction to the basic financial statements. This report also contains required and other supplementary information in addition to the basic financial statements themselves.

The statement of net assets presents information on all of the DMASWA's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position is improving or deteriorating.

The statement of revenues, expenses, and changes in net assets presents information showing how the DMASWA's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The statement of cash flows reports cash receipts, cash payments and net changes in cash and cash equivalents resulting from four defined types of activities. It provides answers to such questions as where did cash come from, what cash was used for and what was the change in cash and cash equivalents during the reporting year.

FINANCIAL ANALYSIS

Net assets. As noted earlier, net assets may serve as a useful indicator of a facility's financial position when observed over time. In the case of the DMASWA, assets exceeded liabilities by \$11,078,013 at the close of the most recent fiscal year.

The largest part of the DMASWA's assets (70.1%) reflects its investment in cash and cash investments. The DMASWA's deposits at June 30, 2010, were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against bank depositories to insure there will be no loss of public funds.

DMASWA NET ASSETS

	2010	2009
	Total	Total
Current and Other Assets	\$ 10,916,248	\$ 11,039,198
Capital Assets	4,319,257	4,830,707
Total Assets	15,235,505	15,869,905
Long-term Liabilities	3,647,522	3,592,121
Other Liabilities	509,970	410,273
Total Liabilities	4,157,492	4,002,394
Net Assets:		
Invested in Capital Assets	4,319,257	4,830,707
Restricted by State Statute	175,464	145,286
Restricted for Minority Interest	1,494,407	1,564,375
Unrestricted	5,088,885	5,327,143
Total Net Assets	\$ 11,078,013	\$ 11,867,511

Long-term liabilities increased due to the increase in the landfill closure and postclosure care liability.

Certain assets of the DMASWA are classified as restricted assets because they may be used only for such purposes specified by state statute.

At the close of fiscal year 2010, the DMASWA reports a total operating loss of \$894,196 and a decrease in net assets of \$789,498.

**DUBUQUE METROPOLITAN AREA
SOLID WASTE AGENCY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Dubuque Metropolitan Area Solid Waste Agency was created by a 28E agreement, as allowed by the Code of Iowa, between the City of Dubuque, Iowa, and Dubuque County, Iowa. Its purpose is to provide solid waste management for the Dubuque metropolitan area.

The Agency is governed by a three-person board consisting of two council members from the City of Dubuque and one supervisor from Dubuque County. Board members are appointed by their respective legislative bodies.

Under a contract with the Agency, the City of Dubuque operates and administers the Agency, including collecting, paying, and accounting for Agency funds.

Because the City of Dubuque appoints a majority of the Agency's governing board and has authority over those persons responsible for the day-to-day operations of the Agency, the Agency is considered a component unit of the City and is presented as such in the City's basic financial statements.

The Agency has determined that there are no potential component units which must be included in its financial statements.

Basis of Accounting

The Agency's accounting records are maintained on the cash basis. However, for financial reporting purposes, the accounting records have been adjusted to the accrual method, recognizing revenue when earned and expenses when liabilities are incurred.

Deposits and Investments

The Agency's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. The costs of governmental fund prepaids are recorded as expenditures when consumed rather than when purchased.

Restricted Assets

Certain assets of the Agency are classified as restricted assets because they may be used only for such purposes specified by state statute and for landfill closure and postclosure.

**DUBUQUE METROPOLITAN AREA
SOLID WASTE AGENCY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010**

Capital Assets

Capital assets include property, plant, and equipment. Capital assets are defined by the government as assets with an initial, individual cost of more than \$20,000 for building assets and \$10,000 for the remaining assets, and an estimated useful life of more than a year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair not adding to the value of the asset or materially extending asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is not included as part of the capitalized value of the assets constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40 to 125
Improvements other than buildings	15 to 50
Machinery and equipment	2 to 30

Compensated Absences

The Agency allows employees to accumulate a limited amount of earned, but unused, vacation and sick pay benefits. Such benefits are accrued when earned and are reported as liabilities.

Equity

Restricted net assets represent outside third-party restrictions and amounts restricted for minority interest of the Agency. The Agency is restricted to using certain amounts for purposes specified by state statute. The net assets restricted for minority interest is calculated at 22.7% of unrestricted net assets, based on the 1976 revenue bond resolution authorizing the issuance of revenue bonds for the construction of the landfill.

Other Significant Accounting Policies

Other significant accounting policies are set forth in the financial statements and the notes thereto.

**DUBUQUE METROPOLITAN AREA
SOLID WASTE AGENCY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010**

NOTE 2 – CASH ON HAND, DEPOSITS, AND INVESTMENTS

Cash on hand represents authorized change funds and petty cash funds used for current operating purposes. The carrying amount at year-end was \$450.

The carrying amount of deposits for the Dubuque Metropolitan Area Solid Waste Agency was \$10,681,465 and the bank balance was \$11,003,431.

The Dubuque Metropolitan Area Solid Waste Agency is authorized by state statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the City Council; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

Investments are stated at fair value. The Agency had no investments at June 30, 2010, or during the year.

Interest Rate Risk. The Agency's investment policy limits the investments of operating funds (funds expected to be expended in the current budget year or within 15 months of receipt) to instruments that mature within 397 days. Funds not identified as operating funds may be invested in instruments with maturities longer than 397 days, but the maturities shall be consistent with the needs and use of the Agency.

Credit Risk. The Agency's investment policy limits investments in commercial paper and other corporate debt to the top two highest classifications. The Agency did not invest in any commercial paper or other corporate debt during the year.

Concentration of Credit Risk. The Agency's investment policy does not allow for a prime bankers' acceptance or commercial paper and other corporate debt balances to be greater than ten percent of its total deposits and investments. The policy also limits the amount that can be invested in a single issue to five percent of its total deposits and investments. The Agency held no such investments during the year.

Custodial Credit Risk – Deposits. In the case of deposits, this is the risk that in the event of a bank failure, the Agency's deposits may not be returned to it. The Agency's deposits are entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

Custodial Credit Risk – Investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the Agency will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Agency held no investments during the year.

Capital assets, net	<u>\$ 4,830,707</u>	<u>\$ (511,450)</u>	<u>\$ -</u>	<u>\$ 4,319,257</u>

NOTE 4 – LANDFILL CLOSURE AND POSTCLOSURE CARE

State and federal laws and regulations require the Agency to place a final cover on each cell of its landfill site when filled and to perform certain maintenance and monitoring functions at the site for thirty years after closure.

Although closure and postclosure care costs will be paid only near or after the date that each cell stops accepting waste, the Agency reports a portion of these closure and postclosure care costs as an operating expense in each period based on landfill capacity used as of each statement of net assets date. The \$3,613,945 reported as landfill closure and postclosure care liability at June 30, 2010, represents the cumulative amount reported to date based on the use of 100% of the estimated capacity of cells 1, 2, 3, and 4, the use of 90% of the estimated capacity of cells 5 and 6, and the use of 70% of the estimated capacity of cells 7 and 8. The Agency will recognize the remaining estimated cost of closure and postclosure care of \$536,855 as the remaining capacity is filled.

**DUBUQUE METROPOLITAN AREA
SOLID WASTE AGENCY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010**

These amounts are based on what it would cost to perform all closure and postclosure care in 2010. The Agency expects to close cells 5 and 6 in 2011, and cells 7 and 8 in 2014. The Agency is making plans to construct a second generation of cells to extend the life of the landfill to 2058. Actual cost may be higher due to inflation, changes in technology, or changes in regulations.

The Agency has begun to accumulate resources to fund these costs in accordance with state and federal financial assurance requirements. At June 30, 2010, funds have been restricted for closure and postclosure costs in the amount of \$3,737,248.

NOTE 5 – PENSION AND RETIREMENT BENEFITS

The Dubuque Metropolitan Area Solid Waste Agency contributes to the Iowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 4.30% of their annual covered salary and the Agency is required to contribute 6.65% of annual covered payroll. Contribution requirements are established by state statute. The Agency's contributions to IPERS for the years ended June 30, 2010, 2009, and 2008, were \$41,243, \$38,101, and \$35,594, respectively, equal to the required contributions for each year.

NOTE 6 – RISK MANAGEMENT

The Agency is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the government carries commercial insurance purchased from independent third parties and participates in a local government risk pool. The Agency assumes liability for any deductibles and claims in excess of coverage limitations.

The City of Dubuque has established a Health Insurance Reserve Fund for insuring benefits provided to City employees and covered dependents which is included in the Internal Service Fund Type. Health benefits were self-insured up to an individual stop-loss amount of \$90,000 and an aggregate stop-loss of \$7,021,089 for 2010. Coverage from a private insurance company is maintained for losses in excess of the stop-loss amount. All claims handling procedures are performed by a third-party claims administrator. Incurred but not reported claims have been accrued as a liability based upon the claims administrator's estimate. Settled claims have not exceeded commercial coverage in any of the past three fiscal years. The estimated liability does not include any allocated or unallocated claims adjustment expense.

**DUBUQUE METROPOLITAN AREA
SOLID WASTE AGENCY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010**

The City of Dubuque has established a Workers' Compensation Reserve Fund for insuring benefits provided to City employees which is included in the Internal Service Fund Type. Workers' compensation benefits were self-insured up to a specific stop-loss amount of \$500,000, and an aggregate stop-loss consistent with statutory limits for 2010. Coverage from a private insurance company is maintained for losses in excess of the stop-loss amount. All claims handling procedures are performed by a third-party claims administrator. Incurred but not reported claims have been accrued as a liability based upon the claims administrator's estimate. Settled claims have not exceeded commercial coverage in any of the last three fiscal years. The estimated liability does not include any allocated or unallocated claims adjustment expense.

The Agency participates in both programs and makes payments to the Health Insurance Reserve Fund and the Workers' Compensation Reserve Fund based on actuarial estimates of the amounts needed to pay prior- and current-year claims.

The Agency is a member in the Iowa Communities Assurance Pool (Pool), as allowed by Chapter 670.7 of the Code of Iowa. The Pool is a local government risk-sharing pool whose 624 members include various governmental entities throughout the State of Iowa. The Pool was formed in August 1986 for the purpose of managing and funding third-party liability claims against its members. The Pool provides coverage and protection in the following categories: general liability, automobile liability, automobile physical damage, public officials' liability, police professional liability, property, inland marine, and boiler/machinery. The Agency acquires automobile physical damage coverage through the Pool. All other property, inland marine, and boiler/machinery insurance is acquired through commercial insurance. There have been no reductions in insurance coverage from prior years.

Each member's annual casualty contributions to the Pool fund current operations and provide capital. Annual operating contributions are those amounts necessary to fund, on a cash basis, the Pool's general and administrative expenses, claims, claims expenses, and reinsurance expenses due and payable in the current year, plus all or any portion of any deficiency in capital. Capital contributions are made during the first six years of membership and are maintained to equal 200 percent of the total current members' basis rates or to comply with the requirements of any applicable regulatory authority having jurisdiction over the Pool.

The Pool also provides property coverage. Members who elect such coverage make annual operating contributions which are necessary to fund, on a cash basis, the Pool's general and administrative expenses and reinsurance premiums, all of which are due and payable in the current year, plus all or any portion of any deficiency in capital. Any year-end operating surplus is transferred to capital. Deficiencies in operations are offset by transfers from capital and, if insufficient, by the subsequent year's member contributions. The Agency has property insurance in addition to the Pool.

The Agency's property and casualty contributions to the risk pool are recorded as expenditures from its operating funds at the time of payment to the risk pool. The Agency's annual contributions to the Pool for the year ended June 30, 2010, were \$28,703.

The Pool uses reinsurance and excess risk-sharing agreements to reduce its exposure to large losses. The Pool retains general, automobile, police professional, and public officials' liability risks up to \$350,000 per claim. The next \$2,650,000 in claims are covered with another pool (APEEP). Claims exceeding \$3,000,000 are reinsured. Property and automobile physical damage risks are retained by the Pool up to \$150,000 each occurrence, each location, with excess coverage reinsured on an individual-member basis.

**DUBUQUE METROPOLITAN AREA
SOLID WASTE AGENCY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010**

The Pool's Iowa Risk Management Agreement with its members provides that in the event a casualty claim or series of claims exceeds the amount of risk-sharing protection provided by the member's risk-sharing certificate, or in the event that a series of casualty claims exhausts total members' equity plus any reinsurance and any excess risk-sharing recoveries, then payment of such claims shall be the obligation of the respective individual member. As of June 30, 2010, settled claims have not exceeded the risk pool or reinsurance company coverage since the Pool's inception.

Members agree to continue membership in the Pool for a period of not less than one full year. After such period, a member who has given 60 days' prior written notice may withdraw from the Pool. Upon withdrawal, payments for all claims and claims expenses become the sole responsibility of the withdrawing member, regardless of whether a claim was incurred or reported prior to the member's withdrawal. Members withdrawing within the first six years of membership may receive a partial refund of their capital contributions. If a member withdraws after the sixth year, the member is refunded 100 percent of its capital contributions. However, the refund is reduced by an amount equal to the annual operating contribution which the withdrawing member would have made for the one-year period following withdrawal.

NOTE 7 – OTHER POSTEMPLOYMENT BENEFITS (OPEB)

The Agency participates in the City of Dubuque's retiree benefit plan. The Agency's portion of the net OPEB obligation at June 30, 2010, is \$33,577. Information for the entire plan is as follows.

The City implemented GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions* prospectively during the year ended June 30, 2009.

Plan Description – The City operates a single-employer retiree benefit plan which provides postemployment benefits for eligible participants enrolled in the City-sponsored plans, which includes the employees of the Dubuque Metropolitan Area Solid Waste Agency (a component unit). The Plan does not issue a stand-alone financial report. The benefits are provided in the form of:

An implicit rate subsidy where pre-65 retirees receive health insurance coverage by paying a combined retiree/active rate for the self-insured medical and prescription drug plan.

An explicit rate subsidy where the City pays the full cost of a \$1,000 policy in the fully-insured life insurance plan.

To be eligible for the health insurance coverage, retirees must be at least 55 years old, have completed 4 years of service, and be vested with either the Iowa Public Employee's Retirement System (IPERS) or the Municipal Fire and Police Retirement System of Iowa (MFPRSI). In addition to the health eligibility coverage requirements, one must have belonged to a bargaining group to be eligible for life insurance benefits. There are approximately 480 active and 30 retired members in the plan.

Funding Policy – The contribution requirements of plan members are established and may be amended by the City. The City currently finances the retiree benefit plan on a pay-as-you-go basis.

**DUBUQUE METROPOLITAN AREA
SOLID WASTE AGENCY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010**

Annual OPEB Cost and Net OPEB Obligation – The City’s annual OPEB cost is calculated based on the annual required contribution (ARC) of the City, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the City’s annual OPEB cost for the year ended June 30, 2010, the amount actually contributed to the plan, and changes in the City’s net OPEB obligation:

Annual required contribution	\$ 945,000
Interest on net OPEB obligation	-
Adjustment to annual required contribution	<u>-</u>
Annual OPEB cost	945,000
Net contributions received from retirees	<u>78,583</u>
Increase in net OPEB obligation	1,023,583
Net OPEB obligation, beginning of year	<u>920,157</u>
Net OPEB obligation, end of year	<u>\$ 1,943,740</u>

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2008. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2010.

For the year ended June 30, 2010, the City paid \$167,270 for retiree claims. Plan members eligible for benefits contributed \$245,853 or 100% of the premium costs. The net resulted in retiree contributions of \$78,583.

The City’s annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2010, are summarized as follows:

<u>Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
June 30, 2010	\$ 945,000	(8.3%)	\$ 1,943,740
June 30, 2009	\$ 945,000	2.6%	\$ 920,157

Funded Status and Funding Progress – As of July 1, 2008, the most recent actuarial valuation date for the period July 1, 2009 through June 30, 2010, the actuarial accrued liability was \$9,117,000, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$9,117,000. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$31,430,000 and the ratio of the UAAL to covered payroll was 29.0%. As of June 30, 2010, there were no trust fund assets.

**DUBUQUE METROPOLITAN AREA
SOLID WASTE AGENCY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010**

Actuarial Methods and Assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumption about future employment, mortality, and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as Required Supplementary Information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2008, actuarial valuation date, the projected unit credit actuarial cost method was used. The actuarial assumptions include a 5% discount rate based on the City's funding policy. The projected annual medical trend rate is 11%. The ultimate medical trend rate is 6%. The medical trend rate is reduced 0.5% each year until reaching the 6% ultimate trend rate.

Mortality rates are from the RP2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the retirement probabilities from the IPERS and MFPRSI Actuarial Reports as of June 30, 2007, and applying the termination factors used in the IPERS and MFPRSI Actuarial Reports as of June 30, 2007.

Projected claim costs of the medical plan are \$8,490 per year for retirees at age 60. The salary increase rate was assumed to be 4% per year. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

CPAs & BUSINESS ADVISORS

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Dubuque Metropolitan Area
Solid Waste Agency Board:

We have audited the accompanying financial statements of the Dubuque Metropolitan Area Solid Waste Agency, a component unit of the City of Dubuque, Iowa, as of and for the year ended June 30, 2010, which collectively comprise the Agency's basic financial statements listed in the table of contents, and have issued our report thereon dated January 21, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Agency's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing our opinion on the effectiveness of the Agency's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying Schedule of Findings and Responses, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Agency's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies in internal control described in Part I of the accompanying Schedule of Findings and Responses as items I-A-10 and I-B-10 to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*.

Comments involving statutory and other legal matters about the Agency's operations for the year ended June 30, 2010, are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the Agency and are reported in Part II of the accompanying Schedule of Findings and Responses. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

The Agency's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Responses. While we have expressed our conclusions on the Agency's responses, we did not audit the Agency's responses, and accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials and employees of the Dubuque Metropolitan Area Solid Waste Agency, the citizens of the City of Dubuque and Dubuque County, and other parties to whom the Dubuque Metropolitan Area Solid Waste Agency may report, and is not intended to be and should not be used by anyone other than these specified parties.

Dubuque, Iowa
January 21, 2011

**DUBUQUE METROPOLITAN AREA
SOLID WASTE AGENCY
SCHEDULE OF FINDINGS AND RESPONSES
YEAR ENDED JUNE 30, 2010**

Part I: Findings Related to the Financial Statements:

MATERIAL WEAKNESSES

I-A-10 Preparation of Financial Statements

Criteria – A properly designed system of internal control over financial reporting calls for the preparation of an entity's financial statements and accompanying notes to the financial statements by internal personnel of the entity.

Condition – As auditors, we were requested to draft the financial statements and accompanying notes to the financial statements. It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations.

Cause – We recognize that with a limited number of office employees, preparation of the financial statements is difficult.

Effect – The effect of this condition is that the year-end financial reporting is prepared by a party outside of the entity. The outside party does not have the constant contact with ongoing financial transactions that internal staff have.

Recommendation – We recommend that Agency officials continue reviewing operating procedures in order to obtain the maximum internal control over financial reporting possible under the circumstances to enable staff to draft the financial statements internally.

Response – The American Institute of Certified Public Accountants implemented new auditing standards in 2007. There have been no changes in Agency procedures. A cost benefit analysis reflects that the Agency continue with the current contractual agreement that the CPA firm prepare our financial statements. The current five year audit contractual agreement expires with year ending June 30, 2010, audit and the Agency will review the issue prior to any new agreement. The Agency implemented procedures to prepare the majority of adjusting journal entries.

Conclusion – Response accepted.

II-B-10 Material Audit Adjustment

Criteria – A properly designed system of internal control over financial reporting allows entities to initiate, authorize, record, process, and report financial data reliably in accordance with generally accepted accounting principles.

Condition – During the course of our engagement, we proposed a material audit adjustment to the financial statements that would not have been identified as a result of the Agency's existing internal controls and, therefore, could have resulted in a material misstatement of the Agency's financial statements.

Cause – There is a limited number of office employees with varying levels of experience with the reporting requirements.

**DUBUQUE METROPOLITAN AREA
SOLID WASTE AGENCY
SCHEDULE OF FINDINGS AND RESPONSES
YEAR ENDED JUNE 30, 2010**

Part I: Findings Related to the Financial Statements: (continued)

Effect – The effect of this condition was financial data not in accordance with generally accepted accounting principles.

Recommendation – We recommend that staff continue to receive relevant training and that management review all documentation completed by staff for use in preparing the financial statements.

Response –The Agency will implement additional review over financials for operating and maintenance and capital expenditures to determine proper classification.

Conclusion – Response accepted

Part II: Other Findings Related to Required Statutory Reporting:

- II-A-10 Questionable Expenditures – We noted no expenditures that fail to meet the requirements of public purpose as defined in an Attorney General’s opinion dated April 25, 1979.
- II-B-10 Travel Expense – No expenditures of Agency money for travel expenses of spouses of Agency officials and/or employees were noted.
- II-C-10 Business Transactions – No business transactions between the Agency and its officials and/or employees were noted.
- II-D-10 Bond Coverage – Surety bond coverage of Agency officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure that the coverage is adequate for current operations.
- II-E-10 Board Minutes – No transactions were found that we believe should have been approved in the Board minutes but were not.
- II-F-10 Deposits and Investments – No instances of non-compliance with the deposit and investment provisions of Chapters 12B and 12C of the Code of Iowa and the Agency’s investment policy were noted.
- II-G-10 Solid Waste Fees Retainage – The Dubuque Metropolitan Area Solid Waste Agency used or retained the solid waste fees in accordance with Chapter 455B.310(2) of the Code of Iowa.
- II-H-10 Financial Assurance – The Agency has demonstrated financial assurance for closure and postclosure care costs by establishing a local government dedicated fund as provided in 567-113.14(6) of the Iowa Administrative Code.

CPAs & BUSINESS ADVISORS

To the Dubuque Metropolitan Area Solid Waste Agency Board
City of Dubuque, Iowa

We have audited the financial statements of the Dubuque Metropolitan Area Solid Waste Agency (Agency), a component unit of the City of Dubuque, Iowa, for the year ended June 30, 2010. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 13, 2010. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Agency are described in Note 1 to the financial statements. No new accounting policies were adopted, and the application of existing policies was not changed during 2010. We noted no transactions entered into by the Agency during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the Agency's financial statements were:

Management's estimate of the depreciable lives is based on past history of life cycles of capital assets. We evaluated the key factors and assumptions used to develop the depreciable lives in determining that they are reasonable in relation to the financial statements taken as a whole.

Management's estimate of the landfill closure and postclosure care liability is based on third-party engineering cost studies and capacity estimates. We evaluated the key factors and assumptions used to develop the landfill closure and postclosure care liability in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of other postemployment benefits liability is based on a calculation of actuarially determined contributions for health insurance benefits. We evaluated the key factors and assumptions used to develop other postemployment benefits liability in determining that it is reasonable in relation to the financial statements taken as a whole.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. The following material misstatement, detected as a result of audit procedures, was corrected by management:

	<u>Equity Increase</u>
Capital Assets	
To record construction in progress for capital project included in accounts payable at June 30, 2010	\$ 190,878

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated January 21, 2011.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Agency's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Agency's auditors. However, these discussions occurred in the normal course of our professional relationship, and our responses were not a condition to our retention.

This information is intended solely for the use of the officials and management of the Dubuque Metropolitan Area Solid Waste Agency, and is not intended to be and should not be used by anyone other than these specified parties.

To the Dubuque Metropolitan Area Solid Waste Agency Board

Page 3

As always, we will be happy to discuss these or any other topics at your convenience. We would like to take this opportunity to express our appreciation to you and your staff for the fine cooperation that we received during the course of the audit. We look forward to many years of continued service to the Dubuque Metropolitan Area Solid Waste Agency.

Eide Bailly LLP

Dubuque, Iowa
January 21, 2011

CPAs & BUSINESS ADVISORS

To the Dubuque Metropolitan Area Solid Waste Agency Board
City of Dubuque, Iowa

In planning and performing our audit of the financial statements of the Dubuque Metropolitan Area Solid Waste Agency (Agency), a component unit of the City of Dubuque, Iowa, as of and for the year ended June 30, 2010, in accordance with auditing standards generally accepted in the United States of America, we considered the Agency's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and therefore there can be no assurance that all such deficiencies have been identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the following deficiencies in the Agency's internal control to be material weaknesses:

A properly designed system of internal control over financial reporting calls for the preparation of an entity's financial statements and accompanying notes to the financial statements by internal personnel of the entity. As auditors, we were requested to draft the financial statements and accompanying notes to the financial statements. We recognize that with a limited number of office employees, preparation of the financial statements is difficult. It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations.

A properly designed system of internal control over financial reporting allows entities to initiate, authorize, record, process, and report financial data reliably in accordance with generally accepted accounting principles. During the course of our engagement, we proposed a material audit adjustment to the financial statements that would not have been identified as a result of the Agency's existing internal controls and, therefore, could have resulted in a material misstatement of the Agency's financial statements. The adjustment was caused by a limited number of office employees with varying levels of experience with the reporting requirements.
