Independent Auditor's Report

To the Board of Education of
Forest City Community School District:

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Forest City Community School District, Forest City, Iowa, as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements listed in the table of contents. These financial statements are the responsibility of District officials. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Forest City Community School District at June 30, 2010, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued our report dated March 17, 2011, on our consideration of Forest City Community School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Management's Discussion and Analysis, Budgetary Comparison Information and the Schedule of Funding Progress for the Retiree Health Plan on pages 4 through 16 and 43 through 45 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. We did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Forest City Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the seven years ended June 30, 2009, (which are not presented herein) and expressed unqualified opinions on those financial statements. Other supplementary information included in Schedules 1 through 5, including the Schedule of Expenditures of Federal Awards required by U.S. Office of Management and Budget (OMB) Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management Discussion and Analysis

The Forest City Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2010. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

Financial Highlights

- General Fund revenues for fiscal 2010 were \$12,285,807 while General Fund expenditures were \$11,897,234. This resulted in an increase in the District's General Fund balance from \$217,473 in fiscal 2009 to \$606,045 in fiscal 2010, or a \$388,572 increase from the prior year.
- A increase in the General Fund ending balance was attributable to decreases for general expenses, wages and benefits, heat, utilities, fuel and repairs of the transportation fleet.
- The District passed a resolution to continue participation in the Instructional Support Program for another five years starting with the 2009-2010 school year. The additional funding will be determined annually and shall not exceed ten percent (10%) of the total regular program district cost for the budget year, which will on an annual basis raise approximately \$550,000. The moneys received may be used for implementation of the District's technology program, including the purchase of computer hardware and software for the start of a 1:1 computer program in the middle and high schools, general maintenance and upgrading of equipment, staff development, including the student management system and for the use or purchase of new technologies that have been found to enhance student achievement or delivery of instruction.
- The District was involved in a Local Option Sales and Services for School Infrastructure Election for Cerro Gordo County on March 4, 2003 that passed with a 69% yes vote and was effective as of July 1, 2003. This source of funding will produce approximately \$30,754 for the 2010-2011 school year.
- The District was involved in a Local Option Sales and Services for School Infrastructure Election for Hancock County on April 1, 2003 that passed with an 80% yes vote and was effective as of July 1, 2003. This source of funding will produce approximately \$82,692 for the 2010-2011 school year.
- The District was involved in a Local Option Sales and Services for School Infrastructure Election for Winnebago County on January 20, 2004 that passed with a 75% yes vote and will be effective as of July 1, 2004. This source of funding will produce approximately \$615,311 for the 2010-2011 school year.
- The District was involved in a Local Option Sales and Services for School Infrastructure Election for Worth County on April 1, 2004 that passed with an 80% yes vote and will be effective as of July 1, 2004. This source of funding will produce approximately \$63,237 for the 2010-2011 school year.

Overview of the Financial Statements

This annual report consists of three parts: management’s discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the district:

- The first two statements are government-wide financial statements that provide both *short-term* and *long-term* information about the District’s *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District’s operations in *more detail* than the government-wide statements.
- The statements for *governmental funds* explain how basic services, such as regular and special education were financed in the *short term* as well as what remains for future spending.
- The statement for *proprietary funds* offer short-term and long-term financial information about the activities the District operates like businesses, such as food services.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District’s budget for the year.

Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

Figure A-1

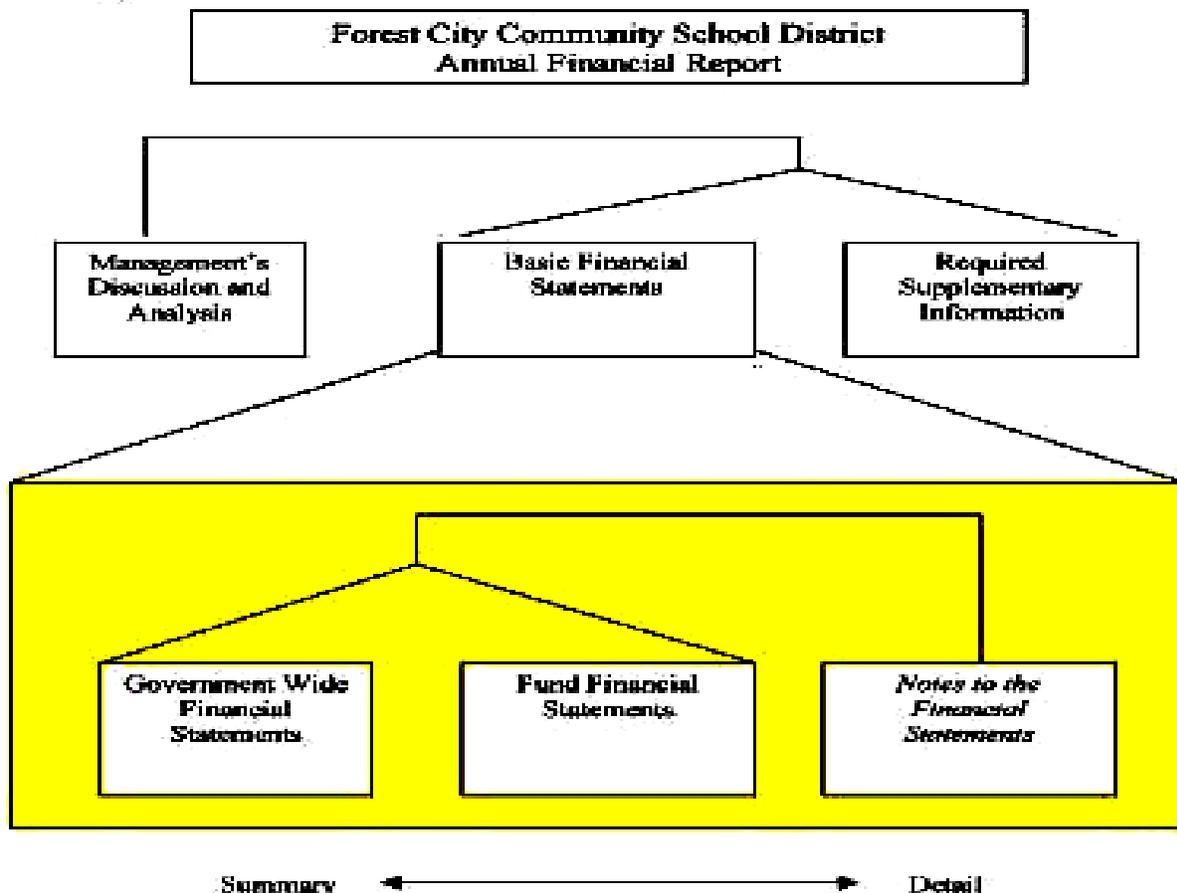

Figure A-2 below summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

Figure A-2: Major Features of the Government Wide and Fund Financial Statements				
	Government-wide Statements	Fund Financial Statements		
		Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire district (except fiduciary funds)	The activities of the district that are not proprietary or fiduciary, such as special education and building maintenance	Activities the district operates similar to private businesses: food services is included here	Instances in which the district administers resources on behalf of someone else, such as scholarship programs
Required financial statements	<ul style="list-style-type: none"> • Statement of net assets • Statement of activities 	<ul style="list-style-type: none"> • Balance sheet • Statement of revenues, expenditures, and changes in fund balances 	<ul style="list-style-type: none"> • Statement of net assets • Statement of cash flows • Statement of revenues, expenses and changes in net assets 	<ul style="list-style-type: none"> • Statement of fiduciary net assets • Statement of changes in fiduciary net assets
Accounting Basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

Government-wide Financial Statements

The government-wide statements report information about the district as a whole using accounting methods similar to those used by private sector companies. The statement of net assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's *net assets* and how they have changed. Net assets – the difference between the District's assets and liabilities – are one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net assets are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school building and other facilities.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state aid finance most of these activities.
- *Business type activities:* The District charges fees to help it cover the costs of certain services it provides. The District's food service program would be included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the district as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes, (such as repaying its long-term debts) or to show that it is properly using certain revenues (such as federal grants).

The District has three kinds of funds:

- *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or differences) between them.

- The District's governmental funds include the General Fund, Special Revenue Funds, Debt Service Fund and Capital Projects Fund.
- *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide statements.
 - The District's *enterprise funds* (one type of proprietary fund) are the same as its business type activities but provide more detail and additional information, such as cash flows. The District currently has one enterprise fund, the School Nutrition Fund.
- *Fiduciary funds:* The District is the trustee, or fiduciary, for assets that belong to others. These funds include Private-Purpose Trust Fund.
 - Private-Purpose Trust Fund – The District accounts for outside donations for scholarships for individual students in this fund.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds include a statement of fiduciary net assets and a statement of changes in fiduciary net assets.

Financial Analysis of the District as a Whole

Net assets. - Figure A-3 below provides a summary of the District's net assets for the year ended June 30, 2010 compared to 2009.

Figure A-3

Condensed Statement of Net Assets (in millions of dollars)

	Governmental Activities		Business-type Activities		Total School District		Total Percentage Change 2009-2010
	2009	2010	2009	2010	2009	2010	
Current and other assets	\$10.147	\$7.763	\$.130	\$.138	\$10.277	\$7.901	-23.12%
Capital assets	8.478	8.216	.034	.031	8.512	8.247	-3.11%
Total assets	18.625	15.979	.164	.169	\$18.789	16.148	-14.06%
Long-term debt outstanding	2.503	2.686	.004	.008	2.507	2.694	7.46%
Other liabilities	9.132	5.682	.048	.039	9.180	5.721	-37.68%
Total liabilities	11.635	8.368	.052	.047	11.687	8.415	-28.00%
Net assets							
Invested in capital assets, net of related debt	6.198	6.156	.034	.031	6.232	6.187	-0.72%
Restricted	.437	1.035	0	0	.437	1.035	136.84%
Unrestricted	.354	.421	.078	.090	.432	.511	18.29%
Total net assets	\$6.989	\$7.612	\$.112	\$.121	\$7.101	\$7.733	8.9%

Note: totals may not add due to rounding.

Restricted net assets represent resources subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net assets increased \$598,000 or 136.84% over the prior year. This increase was caused by the reduction of expenditures of local sales tax monies that were received in fiscal year 2010, but will be used to finance future capital improvements and equipment purchases.

The increase in unrestricted net assets was primarily due to the Districts continued work at reducing all fund expenditures that had continued to reduce our Unspent Authorized Budget balance. Our five year plan is to keep our Financial Solvency Ratio between 5% and 10%.

Changes in net assets – Figure A-4 shows the changes in net assets for the year ended June 30, 2010.

Figure A-4**Changes in Net Assets from Operating Results (in millions of dollars)**

Increase (decrease) in net assets	\$.189	\$.622	\$.062	\$.009	\$.252	\$.632	150.79%

Note: totals may not add due to rounding.

Property tax, income surtax, sales taxes and state foundation aid account for 68 percent of the total revenue. The District's expenses primarily relate to instruction and support services that account for 88 percent of the total expenses.

Governmental Activities

Revenues for governmental activities were \$14,049,250 and expenses were \$13,426,799. In what was a good budget year, the District was able to maximize revenues and balance the budget by trimming expenses to match available revenues.

Figure A-5 The following graph presents the total Revenue for the District's major governmental activities: state aid, federal and state grants, property taxes, charges for services and other incomes.

Revenue 2009-2010

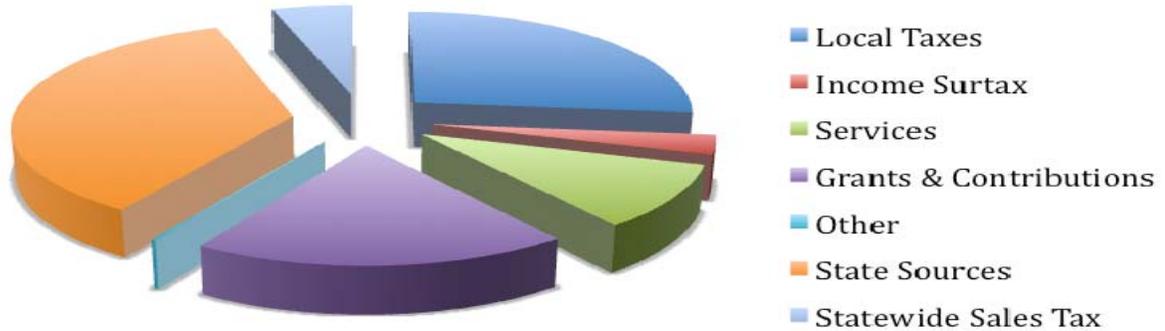

Figure A-6 The following graph presents the total Expenditures for the District’s major governmental activities: instruction, student & instructional services, administration & business, operations & maintenance, transportation and AEA flow thru.

Expenditures 2009-2010

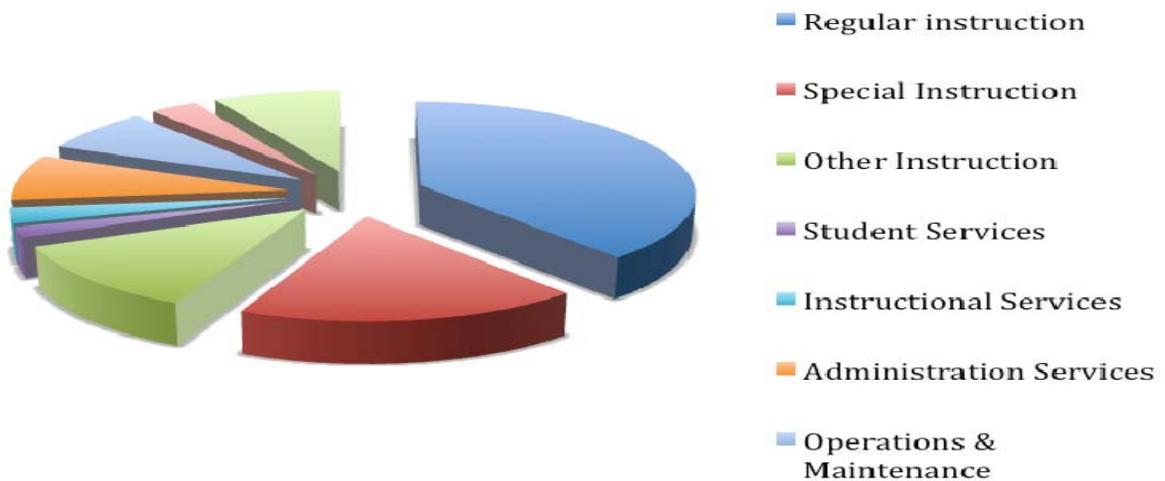

Figure A-7 presents the cost of six major district activities: instruction, pupil and instructional services, administration and business, maintenance and operations, transportation, and other. The table also shows each activity’s *net cost* (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the District’s taxpayers by each of these functions.

Figure A-7

Net Cost of Governmental Activities (in millions of dollars)

	Total Cost of Services		Percentage Change	Net Cost of Services		Percentage Change
	<u>2009</u>	<u>2010</u>	<u>2009-2010</u>	<u>2009</u>	<u>2010</u>	<u>2009-2010</u>

Transportation	.471	.416	-11.68%	.465	.409	-12.04%
Other	1.164	1.104	-5.15%	.706	.566	-19.83%
Total	\$13.297	\$13.427	0.98%	\$10.113	\$9.318	-7.86%

Note: totals may not add due to rounding.

- The cost of all governmental activities this year was \$13,426,799
- Some of the costs were financed by the users of District programs in the amount of \$1,402,735.
- The federal and state governments subsidized certain programs with grants and contributions \$2,706,301.
- Most of the District's costs \$9,940,214 however was financed by District and state taxpayers.
- This portion of governmental activities was financed with \$3,735,123 million in property taxes, \$421,952 of income surtax and \$725,705 of sales tax \$5,023,191 million of unrestricted state aid based on the statewide finance formula, and 34,243 of investment earnings and other revenues.

Business Type Activities

Revenues from the District's business-type activities included charges for services in the amount of \$292,413 and \$281,868 from operating grants, contributions and restricted interest. Expenses from the District's business type activities amounted to \$565,011. The Hot Lunch program was the only Business Type Activity for the District during the 2010 school year.

Financial Analysis of the District's Funds

As previously noted, the Forest City Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported combined fund balance of \$1,617,817 above last year's ending fund balances of \$788,006. The primary reason

for the increase in the total property taxes received during the current fiscal year and a reduction in the number of professional staff.

Governmental Fund Highlights

- The District's stabilizing General Fund financial position is the product of many factors. During the year property tax proceeds, open enrollment, interest income, replacement taxes and federal programs stayed consistent with budgeted amounts and expenditures were in line with projections.
- The General Fund balance increased from \$217,473 to \$606,045 due mainly to continued reduction in costs for salaries and benefits due mainly to reduction in staff and the continued energy efficient lighting and heating systems that are continuing to be replaced.
- The Physical Plant and Equipment Levy (PPEL) Fund balance stayed consistent at \$8,363 in fiscal 2009 to \$6,773 in fiscal 2010. Revenues were spent on capital projects and equipment for the 2009-2010 school year.
- The Capital Projects Fund balance increased \$357,633 due to the completion of the projects and contracts that were completed during the 2009-2010 school year. Fiscal 2010 ended with a balance of \$687,995 consisting of unexpended local option sales taxes.

Proprietary Fund Highlights

The School Nutrition Fund net assets increased from \$112,107 at June 30, 2009 to \$121,474 representing an increase of approximately \$9,367 dollars. Student and adult meal prices were held steady (lunch sale receipts went down when 2010 is compared to 2009) The reduction in labor costs helped to keep the ending balance on a steady line.

Budgetary Highlights

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearings for all funds. Although the budget document presents functional area expenditures or expenses by fund, the legal level of control is the aggregated functional level, not at the fund or fund type level. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis. A schedule showing the original budget amounts compared to the District's actual financial activity is included in the required supplementary information section of this report. Since the District does not adopt a budget for individual funds, budgets for the General Fund and major Special Revenue Funds are not presented in the budgetary comparison.

Legal Budgetary Highlights

The District's total actual receipts were approximately \$784,707 less than budgeted receipts, a variance of a little over -5.16 percent. This was due to across the board cuts by the state.

Total expenditures were \$804,058 less than budgeted due primarily to the District's budget for General Fund and Capitol Projects. It is the District's practice to budget expenditures at the same amount as budgeted revenues in all funds. The District then manages or controls

General Fund spending through its line-item budget. As a result, the District's certified budget should always exceed the actual expenditures during the year.

Despite the District's budgeting practice, expenditures in the instruction function exceeded the amount budgeted due to the timing of expenditures at year-end.

Capital Asset and Debt Administration

Capital Assets

By the end of 2010 the District had invested \$18.696 (included land and business type capital assets) million, in a broad range of assets, including school buildings, athletic facilities, computer and audio-visual equipment, and administrative offices. More detailed information about capital assets can be found in Note 6 to the financial statements. Total depreciation expense for the year exceeded \$532,160.

At June 30, 2010 the District had completed construction on various project on the grounds and lighting projects. Approximately \$122,168 was spent in fiscal year 2010 to complete various projects.

Figure A-8

Capital Assets (net of depreciation, (in millions of dollars)

	Governmental Activities		Business Type Activities		Total School District		Total Percentage Change

Note: totals may not add due to rounding.

Long-Term Debt

At year-end, the District had \$2,694,246 in general obligation bonds and other long-term debt outstanding. This represents an increase of 7.46% over the previous fiscal year as can be seen in Figure A-9 below. During fiscal year 2002-2003, the District sold \$3.5 million in general obligation bonds, approved by voters on March 25, 2003, to help finance a two-year, \$3.5 million plan of facilities improvements throughout the district.

Figure A-9

Outstanding Long-Term Debt (in millions of dollars)

	Total School District		Total Percentage Change
	<u>2009</u>	<u>2010</u>	<u>2009-2010</u>
General obligation bonds & notes (financed with property taxes)	\$ 2,280	\$ 2,060	-9.65%
Other general obligation debt	.227	.634	167.51%
Total	\$ 2.507	\$ 2.694	7.46%

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of the following existing circumstances that could significantly affect its financial health in the future:

- The national recession that has adversely impacted the State of Iowa's budget has translated into reduced levels of state aid funding for education. Future increases in state aid to schools, (allowable growth) will be predicated upon the condition of the national and state economy.
- District enrollment decreased in fiscal year 2008-2009 by 18.0 students, and for the 2009-2010 school year decreased by 117.9 students and for the 2010-2011 decreased by 25.39 students. Under Iowa's school funding formula, District funding is highly dependent upon District enrollments. Future enrollment stability is a critical element in maintaining a sound financial foundation. The district has implemented an early retirement policy for the 2008-2009 and 2009-2010 school year. The district received thirteen (13) applications and all were accepted. No positions will be replaced unless absolutely necessary for future staffing. Currently the board is looking at replacing only two of these positions.
- Beginning with the 2011-2012 school year the Forest City Community School District will be entering a whole grade sharing program with the Woden-Crystal Lake Community School District. This sharing agreement will include all 6th through 12th grade students from the Woden-Crystal Lake Community School District attending the Forest City Community School District.

- During the 2009-2010 school years the Forest City Community School District entered into a sharing agreement with the Woden-Crystal Lake Community School District for Business manager and High School Principal and the Garner-Hayfield Community School District for Transportation Director.

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Steven J. Rollefson, Board Secretary/Business Manager, Forest City Community School District, 810 West K. Street Forest City, Iowa 50436

FOREST CITY COMMUNITY SCHOOL DISTRICT

Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances - Governmental Funds to the
Statement of Activities

Year ended June 30, 2010

	\$	\$
Net change in fund balances - total governmental funds (Exhibit E)		839,811
<i>Amounts reported for governmental activities in the Statement of Activities are different because:</i>		
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are not reported in the Statement of Activities and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. Depreciation expense and loss on disposal exceeded capital outlay expenditures in the current year, as follows:		
Expenditures for capital assets	272,714	
Loss on disposal of capital assets	(8,533)	
Depreciation expense	<u>(525,516)</u>	(261,335)
Income surtaxes and other receivables not collected for several months after the District's fiscal year ends are not considered "available" revenues in the governmental funds and are included as deferred revenues. They are, however, recorded as revenues in the Statement of Activities.		226,941
Repayment of long-term liability principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets.		220,000
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due.		587
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:		
Termination benefits	(334,806)	
Other postemployment benefits	<u>(68,747)</u>	<u>(403,553)</u>
Changes in net assets of governmental activities (Exhibit B)		<u><u>622,451</u></u>

FOREST CITY COMMUNITY SCHOOL DISTRICT

Notes to Financial Statements

Year ended June 30, 2010

1. Summary of Significant Accounting Policies

Forest City Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve. The geographic area served includes the City of Forest City, Iowa and the predominately agricultural territory in portions of Winnebago, Hancock, Worth and Cerro Gordo counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Forest City Community School District has included all funds, organizations, agencies, boards, commissions, and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) The potential for the organization to provide specific benefits to or impose specific financial burdens on the District. The Forest City Community School District has no component units that meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations - The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the County Assessor's Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Assets and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Assets presents the District's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt attributable to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets not meeting the definition of the two preceding categories. Unrestricted net assets often have constraints on resources imposed by management, which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions, and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities.

The District's proprietary fund is the Enterprise, School Nutrition Fund. This fund is used to account for the food service operations of the District.

The Private-Purpose Trust Fund is used to account for assets held by the District under trust agreements, which require income earned to be used to benefit individuals through scholarship awards.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants, and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgements, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

The proprietary fund of the District applies all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities, and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash, and at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable – Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide

and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year, with a 1 ½% per month penalty for delinquent payments; is based on January 1, 2008 assessed property valuations; is for the tax accrual period July 1, 2009 through June 30, 2010 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2009.

Due from Other Governments - Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants, and reimbursements from other governments.

Inventories - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary and governmental funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets – Capital assets, which include property, furniture and equipment and intangibles, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

<u>Asset Class</u>	<u>Amount</u>
	\$
Land	-
Buildings	25,000
Improvements other than buildings	25,000
Intangibles	100,000
Furniture and equipment:	
School Nutrition Fund equipment	500
Other furniture and equipment	3,000

Capital assets are depreciated using the straight line method of over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Buildings	20-50 years
Improvements other than buildings	20 years
Intangibles	3-10 years
Furniture and equipment	5-30 years

The District's collection of library books and other similar materials are not capitalized. These collections are unencumbered, held for public exhibition and education, protected, cared for and preserved and subject to District policy that requires proceeds from the sale of these items, if any, to be used to acquire other collection items.

Salaries and Benefits Payable - Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Deferred Revenue - Although certain revenues are measurable, they are not available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue in the

governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue consists of unspent grant proceeds as well as property tax receivable and other receivables not collected within sixty days after year end.

Deferred revenue in the Statement of Net Assets consists of unspent grant proceeds, amounts received in advance for meal sales and succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

Compensated Absences - District employees accumulate a limited amount of earned but unused vacation and sick leave hours for subsequent use. Employees are not paid for unused vacation and sick leave benefits when employment with the District ends.

Long-term Obligations - In the District-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the statement of net assets.

Fund Equity - In the governmental fund financial statements, reservations of fund balance are reported for amounts not available for appropriation or legally restricted by outside parties for use for a specific purpose.

Restricted Net Assets - In the government-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or are imposed by law through constitutional provisions or enabling legislation.

E. Budgeting and Budgetary Control

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2010, expenditures in the instruction function exceeded the amount budgeted.

2. Cash and Pooled Investments

The District's deposits in banks at June 30, 2010 were entirely covered by federal depository insurance, or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

The District had no investments meeting the disclosure requirements of Governmental Accounting Standards Board Statement No. 3 as amended by Statement No. 40.

3. Interfund Receivables and Payables

The detail of interfund receivables and payables at June 30, 2010 is as follows:

Receivable Fund	Payable Fund	Amount
		\$
Nonmajor Governmental Funds:		
Management Fund	General Fund	18,550
	35	

4. Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2010 is as follows:

Transfer To	Transfer From	Amount
		\$
Nonmajor Governmental Funds:		
Debt Service	Capital Projects	150,000

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

5. Iowa School Cash Anticipation Program (ISCAP)

The District participates in the Iowa School Cash Anticipation Program (ISCAP). ISCAP is a program of the Iowa Association of School Boards and is designed to provide funds to participating entities during periods of cash deficits. ISCAP is funded by a semiannual issuance of anticipatory warrants. The warrant sizing of each school corporation is based on a projection of cash flow needs during the semiannual period. Bankers Trust Co. N.A. is the trustee for the program.

The District pledges its state foundation aid payments and General Fund receipts as security for warrants issued. Repayments must be made when General Fund receipts are received. The District must make minimum warrant repayments on the 25th of each month immediately following the final date that the warrant proceeds may be used in an amount equal to 25% of the warrant amount. The interest rate on the Series 2009-10A warrants was 2.50%. The interest rate on the Series 2009-10B warrants is a variable rate, calculated daily based upon the Bankers Trust Co., NA prime rate plus 50 basis points with a minimum interest rate of 4.50% A summary of the District's ISCAP activity for the year ended June 30, 2010, is as follows:

Series	Warrant Date	Final Warrant Maturity Date	Balance Beginning of Year	Advances Received	Advances Repaid	Balance End of Year
			\$	\$	\$	\$
2009-10A	6/25/09	6/23/10	-	600,000	600,000	-
2009-10B	2/1/10	1/21/11	-	-	-	-
			-	600,000	600,000	-

6. Capital Assets

Capital assets activity for the year ended June 30, 2010 was as follows:

	Balance Beginning of Year	Increases	Decreases	Balance End of Year
	\$	\$	\$	\$
Governmental activities:				
Capital assets not being depreciated:				
Land	225,000	-	-	225,000
Construction in progress	-	150,546	-	150,546
Total capital assets not being depreciated	225,000	150,546	-	375,546

Capital assets being depreciated:				
Buildings	14,882,359	-	-	14,882,359
Improvements other than buildings	764,543	-	-	764,543
Furniture and equipment	2,591,031	122,168	71,053	2,642,146
Total capital assets being depreciated	<u>18,237,933</u>	<u>122,168</u>	<u>71,053</u>	<u>18,289,048</u>
Less accumulated depreciation for:				
Buildings	8,039,334	395,038	-	8,434,372
Improvements other than buildings	133,799	31,845	-	165,644
Furniture and equipment	1,812,207	98,633	62,520	1,848,320
Total accumulated depreciation	<u>9,985,340</u>	<u>525,516</u>	<u>62,520</u>	<u>10,448,336</u>
Total capital assets being depreciated, net	<u>8,252,593</u>	<u>(403,348)</u>	<u>8,533</u>	<u>7,840,712</u>

Depreciation expense was charged to the following programs:

	\$
Governmental activities:	
Instruction:	
Regular	2,518
Other	15,098
Support services:	
Instructional staff support	3,185
Administration	3,104
Operation and maintenance of plant	34,791
Transportation	<u>39,937</u>
	98,633
Unallocated depreciation	<u>426,883</u>
Total governmental activities depreciation expense	<u>525,516</u>
Business type activities:	
Food service operations	<u>6,644</u>

7. Long-Term Liabilities

Changes in long-term liabilities for the year ended June 30, 2010 are summarized as follows:

	Balance Beginning of Year	Additions	Reductions	Balance End of Year	Due Within One Year
	\$	\$	\$	\$	\$
Governmental activities:					
General obligation bonds	2,280,000	-	220,000	2,060,000	225,000
Termination benefits	150,563	350,000	15,194	485,369	84,798
Net OPEB liability	<u>71,983</u>	<u>68,747</u>	<u>-</u>	<u>140,730</u>	<u>-</u>
Total	<u>2,502,546</u>	<u>418,747</u>	<u>235,194</u>	<u>2,686,099</u>	<u>309,798</u>

	Balance Beginning of Year	Additions	Reductions	Balance End of Year	Due Within One Year
	\$	\$	\$	\$	\$
Business type activities:					
Net OPEB liability	4,167	3,980	-	8,147	-

Termination Benefits

The District offered a voluntary early retirement plan to its employees during fiscal years 2010, 2009 and 2006. Eligible employees must have completed at least ten years of continuous service to the District and must have reached the age of fifty-five on or before June 30 in the calendar year in which early retirement commences. The application for early retirement is subject to approval by the Board of Education and the board reserved the right to limit the number of retirements.

Early retirement benefits for certified staff consist of \$35,000 of future health insurance premiums.

At June 30, 2010, the District has obligations to 17 participants with a total liability of \$485,369. Actual early retirement expenditures for the year ended June 30, 2010 totaled \$15,194.

General Obligation Bonds Payable

Details of the District's June 30, 2010, general obligation bonded indebtedness are as follows:

<u>Year Ending June 30,</u>	<u>Interest Rates</u>	<u>June 1, 2003 Issue</u>		
		<u>Principal</u>	<u>Interest</u>	<u>Total</u>
		%	\$	\$
2011	3.20	225,000	71,665	296,665
2012	3.25	235,000	64,465	299,465
2013	3.30	245,000	56,827	301,827
2014	3.40	250,000	48,743	298,743
2015	3.50	260,000	40,243	300,243
2016-2018	3.50-3.75	845,000	63,627	908,627
Total		2,060,000	345,570	2,405,570

8. Other Postemployment Benefits (OPEB)

The District implemented GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits other than Pensions during the year ended June 30, 2009.

Plan Description - The District operates a single-employer retiree benefit plan which provides medical and prescription drug benefits for retirees and their spouses. There are 166 active and 4 retired members in the plan. Participants must be age 55 or older at retirement.

The medical/prescription drug coverage is provided through a fully-insured plan. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

Funding Policy - The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation - The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2010, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

	\$
Annual required contribution	91,354
Interest on net OPEB obligation	1,905
Adjustment to annual required contribution	<u>(3,513)</u>
Annual OPEB cost	89,746
Contributions made	<u>17,019</u>
Increase in net OPEB obligation	72,727
Net OPEB obligation beginning of year	<u>76,150</u>
Net OPEB obligation end of year	<u>148,877</u>

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2008. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2010.

For the year ended June 30, 2010, the District contributed \$17,019 to the medical plan. Plan members eligible for benefits contributed \$34,037, or 67% of the premium costs.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2010 are summarized as follows:

<u>Year Ended</u>	<u>Annual OPEB Cost</u> \$	<u>Percentage of Annual OPEB Cost Contributed</u> %	<u>Net OPEB Obligation</u> \$
June 30, 2009	89,745	19%	148,876

Funded Status and Funding Progress - As of July 1, 2008, the most recent actuarial valuation date for the period July 1, 2009 through June 30, 2010, the actuarial accrued liability was \$819,518, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$819,518. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$7,153,000, and the ratio of the UAAL to covered payroll was 11.5%. As of June 30, 2010, there were no trust fund assets.

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information in the section following the Notes to Financial Statements, will present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2008 actuarial valuation date, the frozen entry age actuarial cost method was used. The actuarial assumptions includes a 2.5% discount rate based on the District's funding policy. The projected annual medical trend rate is 6%. The ultimate medical trend rate is 6%.

Mortality rates are from the 94 group annuity mortality table projected to 2000. Annual retirement and termination probabilities were developed from the retirement probabilities from the IPERS Actuarial Report as of June 30, 2007 and applying the termination factors used in the IPERS Actuarial Report as of June 30, 2007.

The UAAL is being amortized over 30 years.

9. Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits that are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 4.30% of their annual salary and the District is required to contribute 6.65% of annual covered salary. Contribution requirements are established by state statute. The District's contributions to IPERS for the years ended June 30, 2010, 2009, and 2008 were \$504,589, \$483,431, and \$446,206 respectively, equal to the required contributions for each year.

10. Risk Management

Forest City Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

11. Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$537,820 for the year ended June 30, 2010, and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

12. Lease Commitment

The District entered into a five year contract to lease copy machines in 2008. The payments the District will make over the next three years are as follows:

<u>Year Ended June 30</u>	<u>Lease Payment</u>
	\$
2011	23,436
2012	23,436
2013	5,859

13. Categorical Funding

The District's reserved fund balance for categorical funding at June 30, 2010 is comprised of the following programs:

<u>Program</u>	<u>Amount</u>
	\$
Teacher salary supplement	67,394
Core curriculum	44,497
Market factor	9,931
Preschool	111,047
	<u>232,86969</u>

14. Construction Commitment

The District has entered into contracts totaling \$304,922 for roof repairs, bleachers, HVAC controls and other improvements. As of June 30, 2010 costs of \$150,785 had been incurred against the contracts. The balances remaining at June 30, 2010 will be paid as work on the project progresses.

FOREST CITY COMMUNITY SCHOOL DISTRICT

Notes to Required Supplementary Information - Budgetary Reporting

Year ended June 30, 2010

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standard Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Internal Service, Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District did not amend its budget.

During the year ended June 30, 2010, expenditures in the instruction function exceeded the amount budgeted.

Independent Auditor's Report on Internal Control
over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards

To the Board of Education of
Forest City Community School District:

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Forest City Community School District as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued our report thereon dated March 17, 2011. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Forest City Community School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Forest City Community School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Forest City Community School District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance all deficiencies, significant deficiencies or material weaknesses have been identified. However, as described in the accompanying Schedule of Findings and Questioned Costs, we identified certain deficiencies in internal control over financial reporting we consider to be material weaknesses and other deficiencies we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiency in internal control described in Part II of the accompanying Schedule of Findings and Questioned Costs as items 10-II-A to be a material weakness.

A significant deficiency is a deficiency or combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in Part II of the accompanying Schedule of Findings and Questioned Costs as items 10-II-B and 10-II-C to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Forest City Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part IV of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2010 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Forest City Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. While we have expressed our conclusions on the District's responses, we did not audit Forest City Community School District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Forest City Community School District and other parties to whom Forest City Community School District may report, including federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Forest City Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

Independent Auditor's Report on Compliance with Requirements Applicable
to Each Major Program and on Internal Control over Compliance
in Accordance with OMB Circular A-133

To the Board of Education of
Forest City Community School District:

Compliance

We have audited Forest City Community School District's compliance with the types of compliance requirements described in the (OMB) Circular A-133 Compliance Supplement that could have a direct and material effect on Forest City Community School District's major federal program for the year ended June 30, 2010. Forest City Community School District's major federal program is identified in Part I of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of Forest City Community School District's management. Our responsibility is to express an opinion on Forest City Community School District's compliance based on our audit.

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards, the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Forest City Community School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Forest City Community School District's compliance with those requirements.

In our opinion, Forest City Community School District complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2010.

Internal Control Over Compliance

Management of Forest City Community School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Forest City Community School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in

accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Forest City Community School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified a deficiency in internal control over compliance that we consider to be a significant deficiency as described in the accompanying Schedule of Findings and Questioned costs as item 10-III-A. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Forest City Community School District's response to the finding identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. We did not audit Forest City Community School District's response and, accordingly, we express no opinion on the response.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Forest City Community School District and other parties to whom Forest City Community School District may report, including federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

March 17, 2011

FOREST CITY COMMUNITY SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

Year ended June 30, 2010

Part I: Summary of the Independent Auditor's Results:

- (a) Unqualified opinions were issued on the financial statements.
- (b) Significant deficiencies and a material weakness in internal control over financial reporting were disclosed by the audit of the financial statements.
- (c) The audit did not disclose any non-compliance which is material to the financial statements.
- (d) A significant deficiency in internal control over the major program was disclosed by the audit of the financial statements. No material weaknesses were reported.
- (e) An unqualified opinion was issued on compliance with requirements applicable to each major program.
- (f) The audit disclosed an audit finding which is required to be reported in accordance with Office of Management and Budget Circular A-133, Section .510(a).
- (g) Major programs were as follows:
 - CFDA Number 84.394 – ARRA – State Fiscal Stabilization Fund (SFSF) – Education State Grants, Recovery Act
- (h) The dollar threshold used to distinguish between Type A and Type B programs was \$300,000.
- (i) Forest City Community School District did not qualify as a low-risk auditee.

FOREST CITY COMMUNITY SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

Year ended June 30, 2010

Part II: Findings Related to the Financial Statements:

Internal Control Deficiencies:

10-II-A Segregation of Duties: The limited number of personnel makes it difficult to achieve adequate internal accounting control through the segregation of duties and responsibilities, such as recording and processing cash receipts, preparing checks and bank reconciliations, preparing and posting general journal entries, preparation of journals and general financial information for ledger posting, and the analysis of financial information. A small staff makes it difficult to establish an ideal system of automatic internal checks on accounting record accuracy and reliability, although we noted the District had taken steps to segregate duties between the present personnel. This is not an unusual condition but it is important the District officials are aware that the condition exists.

Recommendation: We realize that with a limited number of office employees, segregation of duties is difficult. However, the District should review its control procedures and investigate methods to increase monitoring activities to obtain the maximum internal control possible under the circumstances.

District Response: We will continue to review our procedures and implement additional controls where possible.

Conclusion: Response accepted.

10-II-B Check Signing: We noted that the District uses its computer software to print the signatures of the Board President and Board Secretary on checks, as the checks are printed by the computer. It is possible for one person to enter invoices, issue the command to print checks and to receive the checks from the computer center. This practice negates the internal control procedure established by requiring two signatures on a check.

Recommendation: We recommend that this practice cease. The Board may designate another person to cosign checks when the Board President is not available.

District Response: We will discuss methods to remain efficient, yet have adequate controls.

Conclusion: Response accepted.

10-II-C Receipts: We noted that the District was not using a receipt system to control the cash and checks received in the Student Activity Fund.

Recommendation: The District's internal control could be improved by using three part pre-numbered receipts. One copy should be given to the person bringing in the money, the person issuing the receipt should keep one copy and the third copy should be given to the main business office. Employees at the main business office should account for the numerical sequence of the receipts and compare the receipts to the bank deposits. Any missing or voided receipts should be investigated. Receipts should also be posted to the accounting records by receipt number.

District Response: We will review our current receipts system.

Conclusion: Response accepted.

U.S. Department of Education

Passed through the Iowa Department of Education

10-III-A Accounting for Expenditures: ARRA State Fiscal Stabilization program expenditures were not charged directly to specific expense accounts as the expenditures were incurred. ARRA program expenditures were reclassified to ARRA expenditure accounts at year-end.

Recommendation: The District should record federal expenditures to specific federal expenditures accounts as the expenditures are incurred.

District Response: We will revise our procedures for recording and documenting ARRA State Fiscal Stabilization expenditures.

Conclusion: Response accepted.

FOREST CITY COMMUNITY SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

Year ended June 30, 2010

Part IV: Other Findings Related to Required Statutory Reporting:

10-IV-A Certified Budget: Expenditures for the year ended June 30, 2010, exceeded the amount budgeted in the instruction function.

Recommendation: The certified budget should have been amended in accordance with Chapter 24.9 of the Code of Iowa before expenditures were allowed to exceed the budget.

District Response: Future budgets will be amended in sufficient amounts to ensure the certified budget is not exceeded.

Conclusion: Response accepted.

10-IV-B Questionable Expenditures: No expenditures that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979 were noted.

10-IV-C Travel Expenses: We noted two travel advances to coaches, totaling \$1,138, for meals at tournaments. There was no supporting documentation for the meal expenditures.

Recommendation: If activity sponsors purchase meals at tournaments, they should turn in receipts for reimbursement after the trip or use a district credit card for the purchases.

District Response: We will investigate methods to improve our controls over expenditures for tournaments and student trips.

Conclusion: Response accepted.

10-IV-D Business Transactions: No business transactions between the District and District officials or employees were noted.

10-IV-E Bond Coverage: Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of bond coverage should be reviewed annually to insure that the coverage is adequate for current operations.

10-IV-F Board Minutes: During our testing we noted that the minutes for November, 2009 through June, 2010 were published late. We also noted that the Student Activity Fund bills paid in December 2009 were not on the lists of bills approved for that month.

Recommendation: All board of education minutes should be published within two weeks of the date of the meeting. And all bills to be paid should be on the lists of bills approved by the board.

District Response: Future minutes will be published within the required time frame. The omission of the December Student Activity Fund bills from the bills submitted for board approval was an oversight.

Conclusion: Response accepted.

10-IV-G Certified Enrollment: The number of resident students reported to the Iowa Department of Education on the Certified Enrollment Certification for October 2009, was overstated by eleven students. The District did not have a process in place to properly indicate the status of students that had graduated early, transferred to private school, or who had transferred to out of state schools.

FOREST CITY COMMUNITY SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

Year ended June 30, 2010

Part II: Other Findings Related to Required Statutory Reporting (continued):

Recommendation: The District should review its procedures for compiling the lists of students for certified enrollment.

District Response: We have revised our procedures. For the October 2011 enrollment we have compared class room lists of students to the lists of students in the software.

Conclusion: Response accepted.

10-IV-H Supplementary Weighting: No variances regarding supplementary weighting certified to the Department of Education were noted.

10-IV-I Deposits and Investments: No instances of noncompliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy were noted.

10-IV-J Certified Annual Report (CAR): The Certified Annual Report was certified to the Iowa Department of Education timely.

10-IV-K Categorical Funding: Except as noted, no instances were noted of categorical funding being used to supplant rather than supplement other funds. The District allocated \$13,145 for administrative costs to the District's Preschool program. The \$13,145 cost allocation does not appear to be an allowable cost for this program in accordance with Iowa Department of Education administrative rules.

Also, according to proposed administrative rules, "Categorical funding shall not be commingled with other funding. School districts shall use a project code and program code as defined by Uniform Financial Accounting." We noted that during the year some categorical funding expenditures were commingled with other General Fund expenditures, then were reclassified as categorical spending at the end of the year.

Recommendation – The District should contact the Iowa Department of Education for clarification on the expenditures allowed to be charged to the Preschool program and regarding corrective action, if any required. Also, all categorical funding expenditures should be posted to the correct expenditure accounts as the expenditures are incurred.

District Response: We will contact the Iowa Department of Education regarding charging administrative costs to the Preschool program and we have revised our procedures for identifying categorical expenditures so that they will be coded to the correct expenditure accounts as incurred.

Conclusion: Response accepted.

10-IV-L Statewide Sales, Services and Use Tax: Sales tax proceeds may be used for school infrastructure and to purchase or lease equipment with a unit cost exceeding \$500. We noted that expenditures from this fund included approximately \$7,398 for software and individual items of equipment with a unit cost of less than \$500.

Recommendation: The District should be aware of the limitation on types of expenditures allowed from this fund and should have General Fund make a reimbursement for the purchases.

FOREST CITY COMMUNITY SCHOOL DISTRICT

Schedule of Findings and Questioned Costs

Year ended June 30, 2010

Part II: Other Findings Related to Required Statutory Reporting (continued):

District Response: We will monitor the expenditures from this fund and have General Fund make the reimbursement.

Conclusion: Response accepted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. For the year ended June 30, 2010, the District's financial activity and other required information for the statewide sales, services and use tax revenue are as follows:

	\$	\$
Beginning balance		330,362
Statewide sales, services and use tax	725,705	
Interest revenue	1,496	727,201
Expenditures/transfers out:		
School infrastructure:		
Buildings and building improvements	212,170	
Equipment	7,398	
Debt service for school infrastructure:		
General obligation debt	150,000	369,568
Ending balance		687,995

The statewide sales, services and use tax revenue received during the year ended June 30, 2010 is equivalent to a reduction in the following levies:

	Per \$1,000 of Taxable Valuation	Property Tax Dollars
	\$	\$
Debt service Levy	.59924	150,000
Physical plant and equipment levy	2.29990	575,705

10-IV-M Reclassification of Student Activity Fund Accounts: The Student Activity Fund is to be used to account for the District's extracurricular student activities such as student clubs and athletics. There are some miscellaneous building accounts in the Student Activity Fund that may belong more appropriately in the General Fund or in Fiduciary Funds.

Recommendation: We recommend these accounts be reviewed and transferred to the proper funds.

District Response: We will review the accounts and make any necessary adjustments.

Conclusion: Response accepted.

Recommendation: The District should investigate alternatives to eliminate these deficits.

Schedule of Findings and Questioned Costs

Year ended June 30, 2010

Part II: Other Findings Related to Required Statutory Reporting (continued):

10-IV-N Bank Accounts: All public funds are the legal responsibility of the board, board secretary and board treasurer. All public funds have the same legal requirements for accounting, reporting, auditing and allowing, dual signatures, publishing and investing. Two bank accounts were listed on a bank confirmation that do not belong to the school.

Recommendation: The District should implement procedures to ensure compliance with statutory requirements for accounting and reporting public funds. All monies that belong to the District should be included in the District's accounting records and subject to the legal requirements for public funds. Money that does not belong to the District should not be invested using the District's name or the District's federal identification number.

District Response: We have talked to the bank about this issue.

Conclusion: Response accepted.
