INDEPENDENT AUDITOR'S REPORT

To the Board of Education of
Tipton Community School District:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Tipton Community School District, Iowa, as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements listed in the table of contents. These financial statements are the responsibility of District officials. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Tipton Community School District at June 30, 2010, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued our report dated October 6, 2010 on our consideration of Tipton Community School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis, Budgetary Comparison Information and Schedule of Funding Progress for the Retiree Health Plan on pages 7 through 17 and 56 through 58 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Tipton Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the two years ended June 30, 2009 (which are not presented herein) and expressed unqualified opinions on those financial statements. The financial statements for the year ended June 30, 2007 (which are not presented herein) were audited by other auditors who disclaimed an opinion on the discretely presented component unit and expressed unqualified opinions on the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information. The financial statements for the two years ended June 30, 2006 (which are not presented herein) were audited by other auditors who expressed unqualified opinions on those financial statements. Other supplementary information included in Schedules 1 through 6, including the Schedule of Expenditures of Federal Awards required by U.S. Office of Management and Budget (OMB) Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of District management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. This information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Tipton Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2010. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2010 FINANCIAL HIGHLIGHTS

- General Fund revenues increased from \$7,228,938 in fiscal 2009 to \$7,285,301 in fiscal 2010, and General Fund expenditures increased from \$7,215,945 in fiscal 2009 to \$7,391,369 in fiscal 2010. The District's General Fund balance decreased from \$1,080,032 in fiscal 2009 to \$980,133 in fiscal 2010, a 9.25% decrease.
- The increase in General Fund revenue in fiscal year 2010 was attributable to an increase in Federal money through the state stabilization fund, which helped to offset a reduction in state funding to the district. The increase in expenditures was due primarily to the negotiated salary and benefits settlement and teacher quality payments to the certified staff. The increase in revenues was not enough to offset the increase in expenditures, which caused the decrease in the General Fund balance for the year.
- A decrease in interest rates for the 2010 fiscal year resulted in interest earnings in the General Fund alone decreasing from \$31,500 in fiscal 2009 to \$1,531 in fiscal 2010.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Assets and a Statement of Activities. These provide information about the activities of Tipton Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Tipton Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Tipton Community School District acts solely as an agent or custodian for the benefit of those outside of the District.

Notes to financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year.

Other Supplementary Information provides detailed information about the non-major Governmental Funds.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

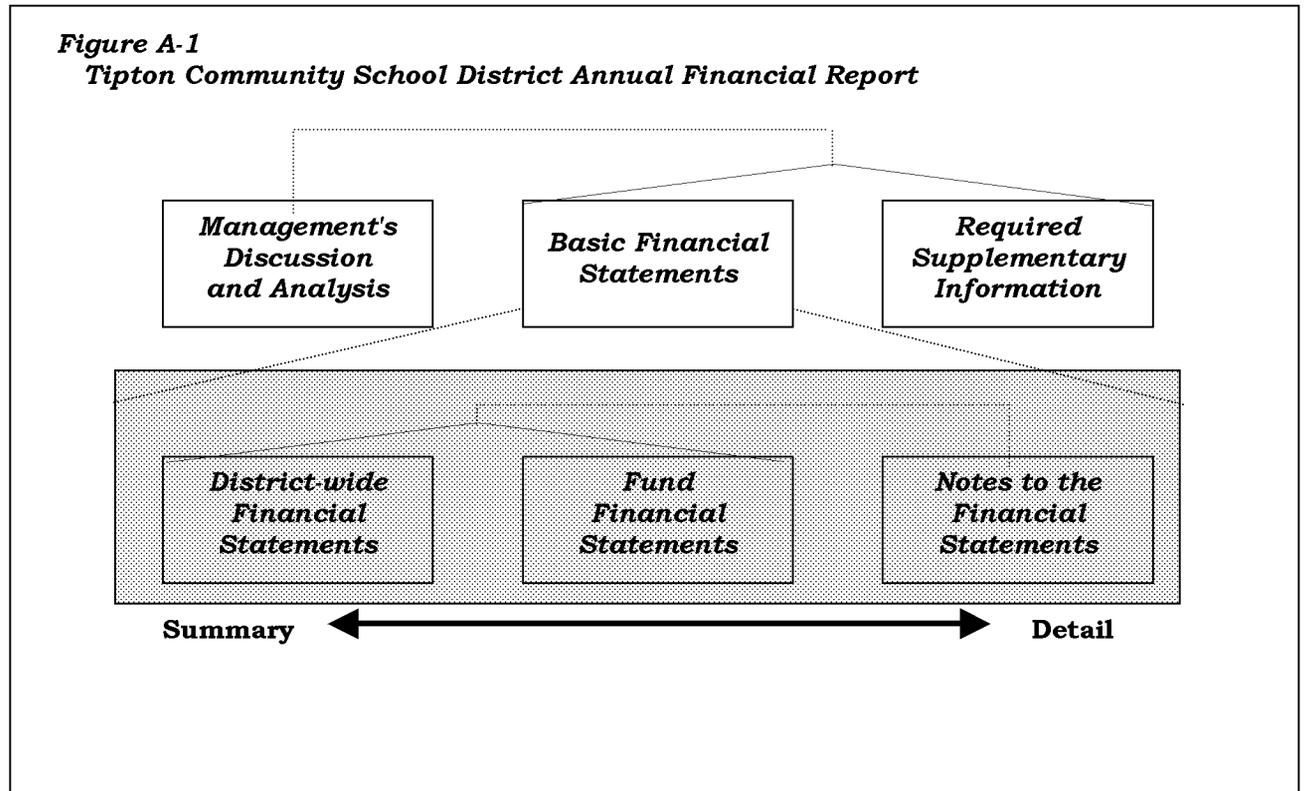

Figure A-2 summarizes the major features of the District’s financial statements, including the portion of the District’s activities they cover and the types of information they contain.

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net assets and how they have changed. Net assets – the difference between the District's assets and liabilities – are one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net assets are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business type activities:* The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show that it is properly using certain revenues, such as federal grants.

The District has three kinds of funds:

- 1) *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, Special Revenue Funds, Capital Projects Fund and Debt Service Fund.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

- 2) *Proprietary funds*: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, one type of proprietary fund, are the same as its business type activities, but provide more detail and additional information, such as cash flows. The District currently has one Enterprise Fund, the School Nutrition Fund. Internal service funds, (the other type of proprietary fund) report activities that provide supplies or services for other District programs or activities. The District currently has one internal service fund, the Flexible Benefits fund.

The required financial statements for proprietary funds include a statement of revenues, expenses and changes in fund net assets and a statement of cash flows.

- 3) *Fiduciary funds*: The District is the trustee, or fiduciary, for assets that belong to others. These funds include Private-Purpose Trust and Agency Funds.
- Private-Purpose Trust Fund – The District accounts for outside donations for scholarships for individual students in this fund.
 - Agency Funds – These are funds through which the District administers and accounts for certain federal and/or state grants on behalf of other Districts and certain revenue collected for District employee purchases of pop and related expenditures.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds include a statement of fiduciary net assets and a statement of changes in fiduciary net assets.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The District's combined net assets increased by approximately 10%, or \$601,358, from the prior year. The largest portion of the District's net assets is the invested in capital assets (e.g., land, infrastructure, buildings and equipment), less the related debt. The debt related to the investment in capital assets is liquidated with sources other than capital assets.

Restricted net assets represent resources that are subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net assets increased by \$386,439, or approximately 25.04% from the prior year. The increase was primarily a result of funds restricted from capital projects in which the funds will be expensed on building projects in a future fiscal year.

Unrestricted net assets – the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements – decreased by \$187,409, or approximately -14.43%. This decrease in unrestricted net assets was a result of a reduction in state aid in fiscal year 2010 while related expenditures increased.

Figure A-4 shows the change in net assets for the year ended June 30, 2010.

In fiscal 2010, property tax and unrestricted state grants account for 66% of the revenue from governmental activities while charges for services and sales and operating grants and contributions account for 99.9% of the revenue from business type activities.

The District's total revenues were \$9,536,847 of which \$9,043,296 was for governmental activities and \$493,551 was for business type activities.

As shown in Figure A-4, the District as a whole experienced a .64% increase in revenues and a .84% increase in expenses. Property tax increased \$73,070. The increase in expenses comes mostly in the instruction and support service areas due to the negotiated salary and benefits settlement with certified and non-certified staff.

Governmental Activities

Revenues for governmental activities were \$9,043,296 and expenses were \$8,434,545. The District was able to balance the budget with increased revenue.

The following table presents the total and net cost of the District’s major governmental activities: instruction, support services, non-instructional programs and other expenses.

Figure A-5

- The cost financed by users of the District’s programs was \$800,704.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$1,267,460
- The net cost of governmental activities was financed with \$3,841,222 in property and other taxes and \$3,104,249 in unrestricted state grants.

Business Type Activities

Revenues for business type activities were \$493,551 representing a 4.70 percent increase over the prior year while expenses totaled \$500,944, a 6.19 percent increase over the prior year. The District’s business type activities include the School Nutrition Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income.

During the year ended June 30, 2010, the District’s federal revenue increased due to increases in participation of the number of meals served. This increase in revenue was more than offset by salaries and benefits for nutrition staff and food supplies.

INDIVIDUAL FUND ANALYSIS

As previously noted, Tipton Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported a combined fund balance of \$2,650,174, which is above last year’s ending fund balances of \$2,448,434. The primary reason for the increase in combined fund balances in fiscal 2010 is due to the District having facility projects which have not begun and have therefore, not incurred any expenses as of June 30, 2010.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND
BALANCES – GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2010

Net change in fund balances - total governmental funds \$ 201,740

Amounts reported for governmental activities in the Statement of Activities
are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are not reported in the Statement of Net Assets and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. The amounts of capital outlays and depreciation expense in the year are as follows:

Expenditures for capital assets	\$ 258,339	
Depreciation expense	<u>(316,632)</u>	(58,293)

In the Statement of Activities, the loss on the disposition of capital assets is reported, whereas the governmental funds report the proceeds from the disposition as an increase in financial resources. (30,209)

Income surtax revenue not received until several months after the District's fiscal year end is not considered available revenue in the governmental funds and is deferred. It is, however, recorded as revenue in the Statement of Activities. 20,692

Repayment of long-term liabilities is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Assets. 505,000

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. 4,267

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:

Early retirement	8,654	
Net OPEB liability	<u>(43,100)</u>	<u>(34,446)</u>

Change in net assets of governmental activities \$ 608,751

TIPTON COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2010

Note 1. Summary of Significant Accounting Policies

Tipton Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve. The geographic area served includes the City of Tipton, Iowa, and agricultural territory in Cedar County. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Tipton Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on, the District. Tipton Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations – The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Cedar County Assessor's Conference Board.

The District appoints the trustees of the Tipton School Foundation, Inc. board, which is considered a related organization.

B. Basis of Presentation

District-wide Financial Statements – The Statement of Net Assets and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Assets presents the District's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt attributable to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

TIPTON COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2010

Note 1. Summary of Significant Accounting Policies (continued)

B. Basis of Presentation (continued)

Unrestricted net assets consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements – Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the District-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Special Revenue, Physical Plant and Equipment Levy Fund is used to account for the payment of capital and related expenditures for building improvements and certain types of equipment.

The District reports the following major proprietary fund:

The Enterprise, School Nutrition Fund is used to account for the food service operations of the District.

The District also reports fiduciary funds which focus on net assets and changes in net assets. The District's fiduciary funds include the following:

The Private Purpose Trust Fund is used to account for assets held by the District under trust agreements with restrictions of income earned to be used to benefit individuals through scholarship awards.

The Agency Fund is used to account for assets held by the District as an agent for individuals, private organizations and other governments. The Agency Fund is custodial in nature, assets equal liabilities, and does not involve measurement of results of operations.

TIPTON COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2010

Note 1. Summary of Significant Accounting Policies (continued)

C. Measurement Focus and Basis of Accounting

The District-wide financial statements and the proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

The proprietary funds of the District apply all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise fund is charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

Note 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents – The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust, which is valued at amortized cost, and non-negotiable certificates of deposit, which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash, and, at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable – Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Current year property tax receivable represents unpaid taxes from the current year. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the District-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

The property tax revenue recognized in these funds becomes due and collectible in September and March of the fiscal year with a 1 ½% per month penalty for delinquent payments; is based on January 1, 2008 assessed property valuations; is for the tax accrual period July 1, 2009 through June 30, 2010 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2009.

Income Surtax Receivable – Income surtax budgeted for the fiscal year ended June 30, 2010 will not be received by the District until several months after the fiscal year end. Accordingly, income surtax is recorded as a receivable and included in deferred revenue on the modified accrual basis for the governmental funds. For the District-wide statements, on the Statement of Activities the income surtax revenue is recognized.

Due From Other Governments – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories – Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Note 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Fund Equity (continued)

Capital Assets – Capital assets, which include property, furniture, and equipment, are reported in the applicable governmental or business-type activities columns in the District-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	Amount
Land	\$ 2,500
Buildings	2,500
Improvements other than buildings	2,500
Intangibles	25,000
Furniture and equipment:	
School Nutrition Fund equipment	500
Other furniture and equipment	2,500

Capital assets are depreciated using the straight line method of depreciation over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Buildings	50 years
Improvements other than buildings	20-50 years
Furniture and equipment	4-12 years

Salaries and Benefits Payable – Payroll and related expenses for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Deferred Revenue – Although certain revenues are measurable, they are not available. Available means collectible within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue consists of unspent grant proceeds, the succeeding year property tax receivable and other receivables not collected within sixty days after year end.

Deferred revenue in the Statement of Net Assets consists of unspent grant proceeds and the succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

Note 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Fund Equity (continued)

Long-term Liabilities – In the District-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Assets.

Compensated Absences – District employees accumulate a limited amount of earned but unused vacation and sick leave. The District's policy is not to reimburse for sick leave or vacation. Vacation can only be used by the employee in the year it is earned. The District has no compensated absences liability at June 30, 2010.

Fund Balances – In the governmental fund financial statements, reservations of fund balance are reported for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

Invested in capital assets, net of related debt – In the District-wide Statement of Net Assets, the net asset balance invested in capital assets, net of related debt is equal to the capital assets balances, including restricted capital assets, less accumulated depreciation and the outstanding balances of any bonds, notes, or other debt that are attributable to the acquisition, construction, or improvement of those assets.

Restricted Net Assets – In the District-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation. Net assets restricted through enabling legislation as of June 30, 2010 consists of \$1,706,523.

E. Budgets and Budgetary Control

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2010, expenditures did not exceed the amounts budgeted.

Note 2. Cash and Pooled Investments

The District's deposits in banks at June 30, 2010 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

Early Retirement

The District offers a voluntary early retirement plan to its certified employees. Eligible employees must be at least age fifty-five and employees must have completed fifteen years of continuous service to the District. Employees must complete an application which is required to be approved by the Board of Education.

The early retirement benefit for each eligible employee is equal to 100 days of the employee's base salary calculated by using the current year regular salary schedule, less any other additional pay. Early retirement benefits are paid either in a lump sum or annually over two or three years.

At June 30, 2010, the District has obligations to one participant with a total liability of \$17,308. Actual early retirement expenditures for the year ended June 30, 2010 totaled \$8,654. The long-term portion of early retirement is recorded as a long-term liability of the Governmental Activities in the District-wide financial statements.

Revenue Bonds

Details of the District's June 30, 2010 local option sales and services tax revenue bonded indebtedness are as follows:

Year Ending June 30,	Interest Rates	Principal	Interest	Total
2011	4.00 %	\$ 175,000	\$ 32,300	\$ 207,300
2012	4.00	185,000	25,200	210,200

		<u>\$ 850,000</u>	<u>\$ 87,200</u>	<u>\$ 937,200</u>

The District pledged future local option (statewide) sales and services tax revenues to repay the \$1,400,000 bonds issued in June 2006. The bonds were issued for the purpose of financing a portion of the costs of an elementary school upgrade. The bonds are payable solely from the proceeds of the local option (statewide) sales and services tax revenues received by the District and are payable through 2015. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds are expected to require approximately 20 to 40 percent of the local option (statewide) sales and services tax revenues. The total principal and interest remaining to be paid on the bonds is \$937,200. For the current year, \$209,100 of principal and interest were paid on the bonds and total statewide sales and services tax revenues were \$507,751.

The resolution providing for the issuance of the local option sales and services tax revenue bonds includes the following provisions:

- a) Commencing August 1, 2006 through June 1, 2007, monthly deposits of \$4,545 were required to be made to the Reserve Fund. Commencing July 1, 2007 monthly deposits of \$4,167 were required to be made to the Reserve Fund until the maximum reserve requirement of 10% of stated principal amount is met. The Reserve Fund is used solely for the purpose of paying principal and interest on the bonds if insufficient money is available in the Sinking Account.
- b) All proceeds from the local option sales and services tax shall be placed in the Revenue Account.
- c) Monies in the Revenue Account shall be disbursed to make monthly deposits into a Sinking Fund to pay the principal and interest requirements of the revenue bonds for the fiscal year.
- d) All monies remaining in the Revenue Account after the required transfer to the Sinking Fund may be transferred to the Project Fund to be used for any lawful purpose.

NOTES TO FINANCIAL STATEMENTS

Note 6. Other Postemployment Benefits (OPEB)

The District prospectively implemented GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits other Than Pensions during the year ended June 30, 2010.

Plan Description – The District operates a single-employer retiree benefit plan which provides medical and prescription drug benefits for retirees and their spouses. There are 107 active and 6 retired members in the plan. Participants must be age 55 or older at retirement.

The medical/prescription drug coverage is provided through a fully-insured plan with Wellmark. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

Funding Policy – The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation – The District’s annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District’s annual OPEB cost for the year ended June 30, 2010, the amount actually contributed to the plan and changes in the District’s net OPEB obligation:

Annual required contribution	\$ 51,800
Interest on net OPEB obligation	-
Adjustment to annual required contribution	-
Annual OPEB cost	<u>51,800</u>
Contributions made	<u>8,700</u>
Increase in net OPEB obligation	43,100
Net OPEB obligation beginning of year	<u>-</u>
Net OPEB obligation end of year	<u><u>\$ 43,100</u></u>

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2009. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2010.

For the year ended June 30, 2010, the District contributed \$8,700 to the medical plan.

TIPTON COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2010

Note 6. Other Postemployment Benefits (OPEB)

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2010 are summarized as follows:

<u>Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
June 30, 2010	\$ 51,800	16.8%	\$ 43,100

Funded Status and Funding Progress – As of July 1, 2009, the most recent actuarial valuation date for the period July 1, 2009 through June 30, 2010, the actuarial accrued liability was \$382,297, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$382,297. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$4,747,000, and the ratio of the UAAL to covered payroll was 8.1%. As of June 30, 2010, there were no trust fund assets.

Actuarial Methods and Assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as required supplementary information in the section following the Notes to Financial Statements, will present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2009 actuarial valuation date, the frozen entry age actuarial cost method was used. The actuarial assumptions include a 2.5% discount rate based on the District's funding policy. The projected annual medical trend rate is 6%. The aging curve is 3% starting at age 55 and is in addition to trend costs.

Mortality rates are from the 94 Group Annuity Mortality Table projected to 2000. The UAAL is being amortized as a level dollar cost over the service of the group on a closed basis over 30 years.

TIPTON COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2010

Note 7. Operating Lease

The District is obligated under a copier equipment lease accounted for as an operating lease. Operating leases do not give rise to property rights or lease obligations and, therefore, are not reflected on the District's Statement of Net Assets. The agreement provides for monthly lease payments of \$2,057 during the term of the lease.

The total lease payments under the lease agreement are as follows:

<u>Year Ending June 30,</u>	<u>Payments</u>
2011	\$ <u>16,456</u>

Total payments under the lease agreement for the year ended June 30, 2010 were \$24,685.

Note 8. Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by State statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa 50306-9117.

Plan members are required to contribute 4.30% of their annual covered salary and the District is required to contribute 6.65% of annual covered payroll for the year ended June 30, 2010. Contribution requirements are established by State statute. The District's contributions to IPERS for the years ended June 30, 2010, 2009, and 2008 were \$311,130, \$281,769, and \$252,519, respectively, equal to the required contributions for each year.

Note 9. Risk Management

Tipton Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 10. Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$328,048 for the year ended June 30, 2010 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – BUDGETARY REPORTING

June 30, 2010

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except internal service, private-purpose trust and agency funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the accrual basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund or fund type. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District adopted one budget amendment increasing budgeted expenditures by \$140,000.

During the year ended June 30, 2010, expenditures did not exceed the amounts budgeted.

SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
Year Ended June 30, 2010

Basis of Presentation –

The Schedule of Expenditures of Federal Awards includes the federal grant activity of Tipton Community School District and is presented on the accrual or modified accrual basis of accounting. The information on this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

See accompanying independent auditor's report.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

To the Board of Education of
Tipton Community School District:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Tipton Community School District as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued our report thereon dated October 6, 2010. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Tipton Community School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Tipton Community School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Tipton Community School District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance all deficiencies, significant deficiencies or material weaknesses have been identified. However, as described in the accompanying Schedule of Findings and Questioned Costs, we identified certain deficiencies in internal control over financial reporting we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. We noted no matters involving the internal control over financial reporting that we consider to be material weaknesses.

A significant deficiency is a deficiency or combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in Part II of the accompanying Schedule of Findings and Questioned Costs as items II-A-10 and II-B-10 to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Tipton Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of noncompliance or other matters that are described in Part IV of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about Tipton Community School District's operations for the year ended June 30, 2010 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Tipton Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. While we have expressed our conclusions on the District's responses, we did not audit Tipton Community School District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Tipton Community School District and other parties to whom Tipton Community School District may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Tipton Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE
TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE
WITH OMB CIRCULAR A-133

To the Board of Education of
Tipton Community School District:

Compliance

We have audited the compliance of Tipton Community School District with the types of compliance requirements described in U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2010. Tipton Community School District's major federal programs are identified in Part I of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grant agreements applicable to each of its major federal programs is the responsibility of Tipton Community School District's management. Our responsibility is to express an opinion on Tipton Community School District's compliance based on our audit.

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards, the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Tipton Community School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Tipton Community School District's compliance with those requirements.

In our opinion, Tipton Community School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

The management of Tipton Community School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grant agreements applicable to federal programs. In planning and performing our audit, we considered Tipton Community School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance all deficiencies, significant deficiencies or material weaknesses have been identified.

A deficiency in the District's internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. We noted no matters involving the internal control over compliance that we consider to be material weaknesses.

Tipton Community School District's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. While we have expressed our conclusions on the District's responses, we did not audit Tipton Community School District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Tipton Community School District and other parties to whom Tipton Community School District may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

Year Ended June 30, 2010

Part II: Findings Related to the Basic Financial Statements:

Instances of Non-Compliance:

No matters were reported.

Internal Control Deficiencies:

II-A-10 Segregation of Duties – One important aspect of internal control is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible. We noted that the same individual performs the following duties: recording and processing cash receipts and bank deposits, recording disbursements and preparing and distributing checks, and preparing bank reconciliations in the various funds.

Recommendation – We realize that with a limited number of office employees, segregation of duties is difficult. However, the District should review its control procedures to obtain the maximum internal control possible under the circumstances.

Response – We will review our procedures and implement changes to improve controls as we deem necessary.

Conclusion – Response accepted.

II-B-10 Fundraisers – We noted that reconciliation reports are not prepared for all fundraisers.

Recommendation – The District should stress the importance of properly completing fundraiser reconciliation forms to all student activity groups. This would help ensure the accuracy and completeness of fundraiser revenues recorded.

Response – We will continue to stress the importance of the fundraiser reconciliation to the applicable student activity groups.

Conclusion – Response accepted.

Part IV: Other Findings Related to Statutory Reporting:

- IV-A-10 Certified Budget – Expenditures for the year ended June 30, 2010, did not exceed the amounts budgeted.
- IV-B-10 Questionable Expenditures – No expenditures were noted that we believe may not meet the requirements of public purpose as defined in an Attorney General’s opinion dated April 25, 1979.
- IV-C-10 Travel Expense – No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.
- IV-D-10 Business Transactions – No business transactions between the District and District officials or employees were noted.
- IV-E-10 Bond Coverage – Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.
- IV-F-10 Board Minutes – No transactions requiring Board approval which had not been approved by the Board were noted.
- IV-G-10 Certified Enrollment – No variances in the basic enrollment data certified to the Department of Education were noted.
- IV-H-10 Supplementary Weighting – No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.
- IV-I-10 Deposits and Investments – No instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District’s investment policy were noted.
- IV-J-10 Certified Annual Report – The Certified Annual Report was certified to the Iowa Department of Education timely and we noted no significant deficiencies in the amounts reported.
- IV-K-10 Categorical Funding – No instances were noted of categorical funding being used to supplant rather than supplement other funds.

Part IV: Other Findings Related to Statutory Reporting (continued):

IV-L-10 Statewide Sales and Services Tax – No instances of non-compliance with the use of the statewide sales and services tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales and services tax. For the year ended June 30, 2010, the District's financial activity and other required information for the statewide sales and services tax revenue are as follows:

Beginning balance	\$	403,365
Statewide sales and services tax revenue		507,751
Interest		313
Expenditures/transfers out:		
School infrastructure:		
Buildings	\$	44,140
Equipment		106,522
Other improvements		33,581
Debt service for school infrastructure:		
General obligation debt		16,600
Revenue debt		209,100
		409,943
Ending balance	\$	501,486

The statewide sales, services and use tax revenue received during the year ended June 30, 2010 is equivalent to a reduction in the following levies:

	Per \$1,000 of Taxable Valuation		Property Tax Dollars
Debt service levy	\$ 1.36430	\$	291,051
Physical plant and equipment levy	1.01578		216,700

Part IV: Other Findings Related to Statutory Reporting (continued):

IV-M-10 General Fund Subsidy of School Nutrition Fund – We noted during the audit that the General Fund is subsidizing the School Nutrition Fund by paying for the employees’ health insurance. During the year ended June 30, 2010, the General Fund contributed \$37,999 to the School Nutrition fund to pay for employee benefits. This is considered to be a permanent transfer since the School Nutrition Fund is not expected to repay the General Fund for these benefits.

Recommendation – The School Nutrition Fund is supposed to support its own operations through the collection of fees for meals served, without subsidy from other District funds. The District should consider alternatives to make the School Nutrition Fund entirely self-sufficient.

Response – We will investigate alternatives to eliminate future subsidizing of the School Nutrition Fund by other District funds.

Conclusion – Response accepted.
