INDEPENDENT AUDITOR'S REPORT

To the Board of Education of
Murray Community School District:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Murray Community School District, Iowa, as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements listed in the table of contents. These financial statements are the responsibility of District officials. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Murray Community School District at June 30, 2012, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued our report dated October 22, 2012 on our consideration of Murray Community School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

U.S. generally accepted accounting principles require Management's Discussion and Analysis, the Budgetary Comparison Information and the Schedule of Funding Progress for the Retiree Health Plan on pages 6 through 15 and 50 through 52 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U. S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the required supplementary information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Murray Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the seven years ended June 30, 2011 (which are not presented herein) and expressed unqualified opinions on those financial statements. The supplementary information included in Schedules 1 through 7 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of District management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. This information has been subjected to the auditing procedures applied in our audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Oskaloosa, Iowa
October 22, 2012

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Murray Community School District's comprehensive annual financial report presents management's discussion and analysis of the District's financial performance for the year ending June 30, 2012. Please read it in conjunction with the district's financial statements.

Financial Highlights

- General Fund revenues increased from \$3,344,219 in 2011 to \$3,370,895 in 2012. General Fund expenditures increased from \$2,994,936 in 2011 to \$2,996,931 in 2012. Revenues have exceeded expenditures for the past three years.
- The district received \$211,992 in School Infrastructure Local Option Sales Tax from Clarke, Decatur and Union counties and state supplemental funds. The district has committed \$50,000 each year for debt reduction and the balance for equipment and facilities improvements. Major improvements this year include gym roof repairs, fence installation, and gym floor refinishing.
- School district buildings were hit by a major hailstorm in April 2012 necessitating repairs to all school and service building roofs. The majority of school vehicles sustained damage, ranging from minimal damage to 100% totaled. Additional items damaged included: metal bleachers, football/softball/baseball field lights, windows and screens. Repairs were not completed by fiscal year end and will be completed in 2012-13.

OVERVIEW OF THE FINANCIAL STATEMENTS

This report consists of three parts: Management's discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *District-wide financial statements* that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are *fund financial statements* that focus on individual parts of the District, reporting the District's operations in more detail than the District-wide statements.
- The statements for *governmental funds* explain how basic services, such as regular and special education, were financed in the short term as well as what remains for future spending.
- The statements for *proprietary funds* offer short-term and long-term financial information about the activities the District operates like businesses, such as food services.
- The statements for *fiduciary funds* provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

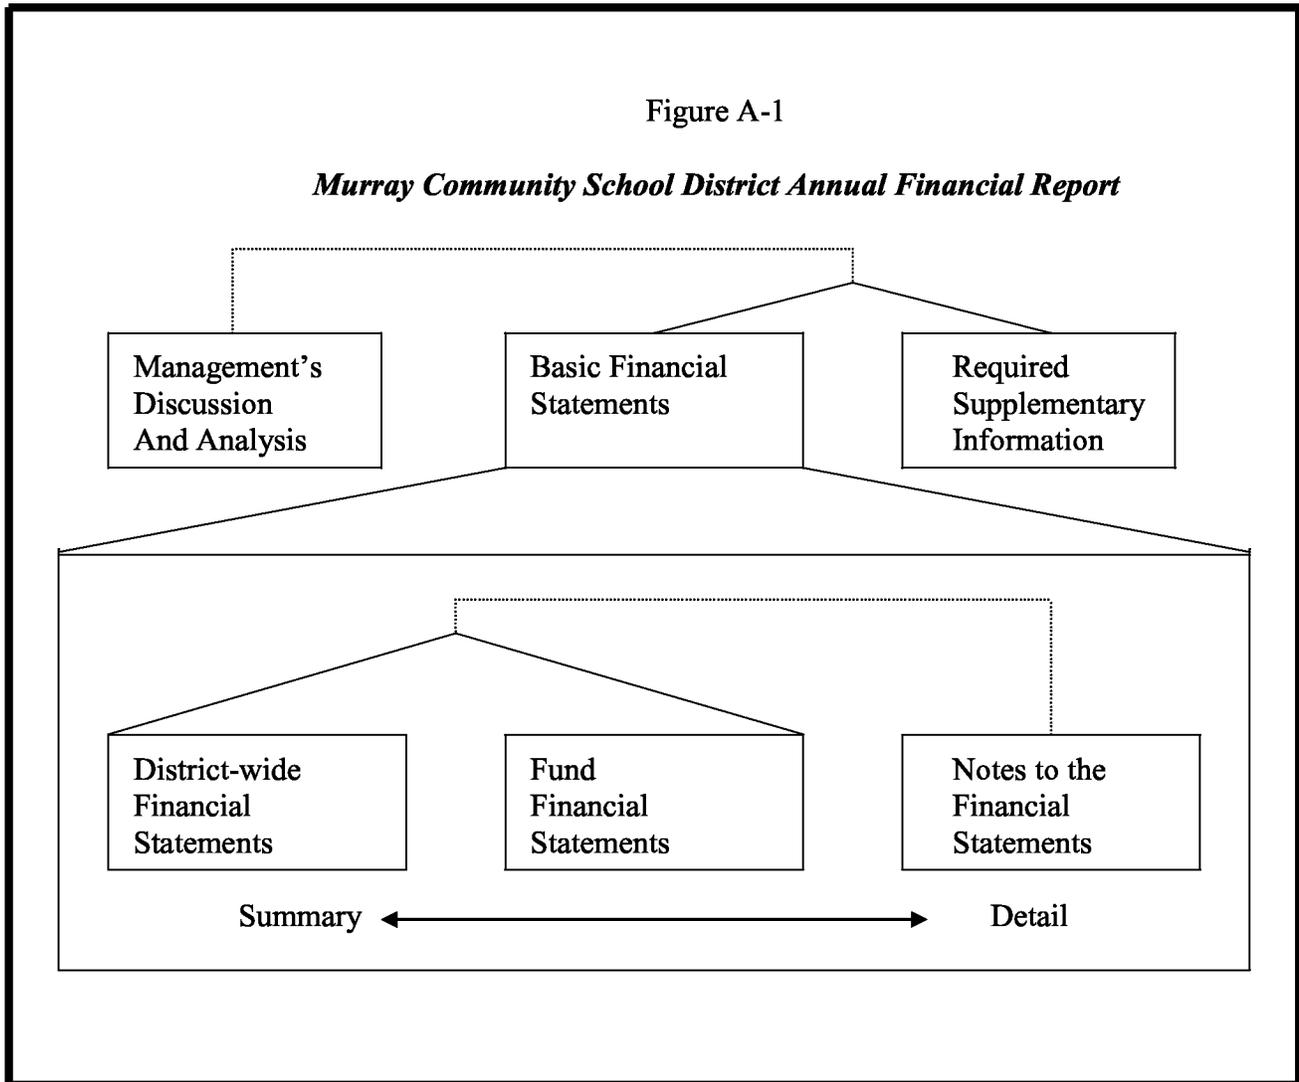

Figure A-2 summarizes the major features of the District’s financial statements, including the portion of the District’s activities they cover and the types of information they contain. The remainder of this overview section of the management’s discussion and analysis highlights the structure and contents of each of the statements.

Figure A-2 <i>Major Features of the District-Wide and Fund Financial Statements</i>				
	District-wide Statements	Fund Statements		
		Governmental funds	Proprietary Funds	Fiduciary Funds
Scope	Entire district (except fiduciary funds)	The activities of the district that are not proprietary or fiduciary, such as special education and building maintenance	Activities the district operates similar to private businesses: food services	Instances in which the district administers resources on behalf of someone else, such as scholarship programs
Required financial statements	Statement of net assets Statement of Activities	Balance sheet Statement of revenues, expenditures, and changes in fund balances	Statement of net assets Statement of revenues, expenses and changes in net assets Statement of cash Flows	Statement of fiduciary net assets Statement of changes in fiduciary net assets
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

District-wide Statements

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-section companies. The statement of net assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities, regardless of when cash is received or paid.

The two District-wide statements report the District's net assets and how they have changed. Net assets – the difference between the District's assets and liabilities – are one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net assets are an indicator of whether the financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the District-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business-type activities:* The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to track specific sources of funding and spending on particular programs.

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds or to show that it is properly using certain revenues such as federal funds.

The District has three kinds of funds:

- *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or differences) between them.
- *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the District-wide statements. The District's enterprise funds

are the same as its business-type activities but provide more detail and additional information, such as cash flows.

- *Fiduciary funds*: The District is the trustee, or fiduciary, for assets that belong to others, such as a scholarship fund. The District accounts for outside donations to the District for specific purposes in this fund. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the District-wide financial statements because it cannot use these assets to finance its operations.

The School District as a Whole

Net assets. A comparison of the District’s combined net assets for 2010, 2011 and 2012 follows:

Figure A-3
Statement of Net Assets

	Governmental Activities			Business-Type Activities			Total School District		
	2010	2011	2012	2010	2011	2012	2010	2011	2012

Long-term obligations	222,554	144,090	66,086	0	0	0	222,554	144,090	66,086
Other obligations	<u>1,086,536</u>	<u>1,278,512</u>	<u>1,127,585</u>	<u>14,817</u>	<u>22,702</u>	<u>16,206</u>	<u>1,101,353</u>	<u>1,301,214</u>	<u>1,143,791</u>
Total liabilities	1,309,090	1,422,602	1,193,671	14,817	22,702	16,206	1,323,907	1,445,304	1,209,877
Net assets									
Invested in capital assets net of related debt	1,212,560	1,268,980	1,321,742	60,994	81,393	72,782	1,273,554	1,350,373	1,394,524
Restricted	420,145	504,359	709,320	0	0	0	420,145	504,359	709,320
Unrestricted	<u>897,839</u>	<u>1,197,828</u>	<u>1,482,990</u>	<u>98,751</u>	<u>122,844</u>	<u>109,187</u>	<u>996,590</u>	<u>1,320,672</u>	<u>1,592,177</u>
Total net assets	<u>\$2,530,544</u>	<u>\$2,971,167</u>	<u>\$3,514,052</u>	<u>\$159,745</u>	<u>204,237</u>	<u>\$181,969</u>	<u>\$2,690,289</u>	<u>\$3,175,404</u>	<u>\$3,696,021</u>

A large portion of the District's net assets reflects its investment in capital assets (land, buildings and building improvements, and equipment and machinery), less related debt (general obligation bonds payable). The District uses these capital assets to provide services to students but they are unavailable for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Change in net assets – Figure A-4 shows a comparison of the changes in net assets for three years ending June 30, 2012.

Fiscal year 2012 revenue sources for the District by percentage are as follows:

Property tax and unrestricted state grants	51%
Charges for sales and services	19%
Operating grants, contributions, and restricted interest	19%
Sales and services tax, income surtax, interest and other sources	11%

The District's expenses primarily relate to instruction and support services, which accounted for 85% of the total expenses for 2012.

Governmental Activities

Figure A-5 presents a comparison of the total and net cost of the District's major governmental activities:

Figure A-5

	2010	2011	2012
• Cost financed by users of the District's programs	\$597,096	\$637,666	695,079
• Federal and state governments grants & contributions	765,760	757,157	694,497
• Net cost of governmental activities financed by:			
Property, income, and sales taxes	938,507	1,004,554	1,160,740
Unrestricted state funds	1,053,967	1,412,178	1,269,582
Interest income	7,389	4,358	4,923
Other general revenues	9,172	6,986	128,157

Business-Type Activities

Revenues of the District's business-type activities were \$219,457 and expenses were \$241,765. The District's business-type activities include the School Nutrition Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income.

Financial Analysis of the District's Funds

As previously noted, Murray Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds. As the District ended 2012, its governmental funds reported combined fund balances of \$2,094,667.

Governmental Fund Highlights

General Fund revenues exceeded expenditures by \$373,964. Full receipt of state funding, increased open enrollment tuition, and superintendent and teacher sharing agreement revenues accounted for increased revenues. Fund balances increased for the General, Capital Projects and Student Activity Funds. Fund balances decreased in the Management and Debt Services Funds.

Proprietary Fund Highlights

The School Nutrition Fund unrestricted net assets was \$109,187 for the year ending June 30, 2012, a decrease of \$13,657 from prior year. Increased food, labor and benefit costs accounted for the decrease.

Budgetary Highlights

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds, except its private-purpose trust fund. Although the budget document presents functional area expenditures or expenses by fund, the legal level of control is at the aggregated functional level. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis. A schedule showing the original and final budget amounts compared to the District's actual financial activity is included in the required supplementary information section of this report.

Legal Budgetary Highlights

The District's total actual revenues were \$323,830 greater than the total projected certified budget receipts, a variance of 8%.

Total expenditures were less than budgeted. It is the practice of the District to budget expenditures at the maximum authorized spending authority for all funds. The district controls spending through the line-item budget. As a result, the District's certified budget should always exceed the actual expenditures during the year. However, at the legal level of control, the District exceeded budgeted expenditures in the other expenditures function.

Capital Asset and Debt Administration

Capital Assets

At June 30, 2012, the District had invested \$1,381,724 net of accumulated depreciation of \$2,036,145 in a broad range of governmental capital assets, including land, buildings and building improvements, ground improvements, vehicles, and furniture. Business-type activities had invested \$72,782, net of accumulated depreciation of \$40,119 in capital assets. More detailed information about capital assets is available in Note 4 to the financial statements. Depreciation expense for the year was \$103,936 for governmental activities, and \$8,611 for business-type activities.

The District has set capitalization levels of \$1500 for all governmental activities assets. Business-type activities utilize the \$500 capitalization level as required by regulations of the Bureau of Food and Nutrition.

Significant capital assets activities included fence installation, land acquisition, computers and new fire alarm system.

Figure A-6

Capital Assets, net of Depreciation

	Governmental Activities	Business-type Activities	Total School District
Land	\$ 51,520	\$ 0	\$ 51,520
Buildings	1,132,590	0	1,132,590
Improvements, other than buildings	109,263	0	109,263
Furniture and equipment	<u>88,369</u>	<u>72,782</u>	<u>161,151</u>
Total	<u>\$1,381,742</u>	<u>\$72,782</u>	<u>\$1,454,524</u>

Long-Term Liabilities

At June 30, 2012, the District had long-term liabilities totaling \$66,086 of which \$60,000 was for general-obligation bonds and \$6,086 was for Other Postemployment Benefits (OPEB). More detailed information is available in Notes 5 and 6 to the financial statements.

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future.

- This year was the first year of a superintendent sharing arrangement. Currently, the district shares superintendent services, a transportation supervisor, and four teachers. Sharing has allowed the district to expand class offerings and also add a part-time curriculum coordinator. This will ease financial pressure in the future.
- Revenues exceeded expenditures during the 2011-12 year for the third time in nine years.
- School Infrastructure Local Option Sales tax collected in Clarke, Decatur and Union counties totaled \$211,992. The District committed \$50,000 each year to be allocated to payment of general-obligation bonds resulting in a reduction in the property tax levy for debt services. The final bond payment will be paid in June 2013.

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Elizabeth Justice, District Secretary/Business Manager, Murray Community School District, PO Box 187, Murray, Iowa 50174.

MURRAY COMMUNITY SCHOOL DISTRICT

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND
BALANCES – GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2012

Net change in fund balances - total governmental funds \$ 493,539

Amounts reported for governmental activities in the Statement of Activities
are different because:

Capital outlays to purchase or build capital assets are reported in
governmental funds as expenditures. However, those costs are not reported
in the Statement of Net Assets and are allocated over their estimated useful
lives as depreciation expense in the Statement of Activities. The amounts
of capital outlays and depreciation expense in the year are as follows:

Expenditures for capital assets	\$ 63,178	
Capital contributions	13,520	
Depreciation expense	<u>(103,936)</u>	(27,238)

Income surtax revenue not received until several months after the District's
fiscal year end is not considered available revenue and is deferred in the
governmental funds. It is, however, recorded as revenue in the Statement
of Activities. (1,653)

Repayment of long-term liabilities is an expenditure in the governmental
funds, but it reduces long-term liabilities in the Statement of Net Assets. 80,000

Interest on long-term debt in the Statement of Activities differs from the
amount reported in the governmental funds because interest is recorded as
an expenditure in the funds when due. In the Statement of Activities,
however, interest expense is recognized as the interest accrues, regardless
of when it is due. 233

Some expenses reported in the Statement of Activities do not require the use
of current financial resources and, therefore, are not reported as
expenditures in the governmental funds, as follows:

Net OPEB liability	<u>(1,996)</u>	<u>(1,996)</u>
--------------------	----------------	----------------

Change in net assets of governmental activities \$ 542,885

See notes to financial statements.

MURRAY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2012

Note 1. Summary of Significant Accounting Policies

Murray Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve and special education pre-kindergarten. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the City of Murray, Iowa, and agricultural territory in Clarke, Decatur and Union Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Murray Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on, the District. Murray Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations – The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Clarke County Assessor's Conference Board.

B. Basis of Presentation

District-wide Financial Statements – The Statement of Net Assets and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Assets presents the District's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt attributable to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

MURRAY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2012

Note 1. Summary of Significant Accounting Policies (continued)

B. Basis of Presentation (continued)

Unrestricted net assets consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements – Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the District-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds. Combining schedules are also included for the Capital Projects Fund accounts.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

The District reports the following major proprietary fund:

The Enterprise, School Nutrition Fund is used to account for the food service operations of the District.

The District also reports fiduciary funds which focus on net assets and changes in net assets. The District's fiduciary funds include the following:

The Private Purpose Trust Fund is used to account for assets held by the District under trust agreements with restrictions of income earned to be used to benefit individuals through scholarship awards.

The Agency Fund is used to account for assets held by the District as an agent for individuals, private organizations and other governments. The Agency Fund is custodial in nature, assets equal liabilities, and does not involve measurement of results of operations.

MURRAY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2012

Note 1. Summary of Significant Accounting Policies (continued)

C. Measurement Focus and Basis of Accounting

The District-wide financial statements and the proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications – committed, assigned and then unassigned fund balances.

The proprietary funds of the District apply all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

NOTES TO FINANCIAL STATEMENTS

June 30, 2012

Note 1. Summary of Significant Accounting Policies (continued)

C. Measurement Focus and Basis of Accounting (continued)

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents – The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust, which is valued at amortized cost, and non-negotiable certificates of deposit, which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash, and, at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable – Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Current year property tax receivable represents unpaid taxes from the current year. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the District-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

The property tax revenue recognized in these funds becomes due and collectible in September and March of the fiscal year with a 1 ½% per month penalty for delinquent payments; is based on January 1, 2010 assessed property valuations; is for the tax accrual period July 1, 2011 through June 30, 2012 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2011.

Due From Other Governments – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

MURRAY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2012

Note 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Fund Equity (continued)

Inventories – Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets – Capital assets, which include property, furniture, and equipment, are reported in the applicable governmental or business-type activities columns in the District-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	Amount
Land	\$ 1,500
Buildings	1,500
Improvements other than buildings	1,500
Intangibles	1,500
Furniture and equipment:	
School Nutrition Fund equipment	500
Other furniture and equipment	1,500

Capital assets are depreciated using the straight line method of depreciation over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Buildings	50 years
Improvements other than buildings	20 years
Furniture and equipment	5-12 years

Salaries and Benefits Payable – Payroll and related expenses for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Deferred Revenue – Although certain revenues are measurable, they are not available. Available means collectible within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue consists of unspent grant proceeds, the succeeding year property tax receivable and other receivables not collected within sixty days after year end.

MURRAY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2012

Note 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Fund Equity (continued)

Deferred revenue in the Statement of Net Assets consists of the succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied, unearned Federal grants and unearned meal revenues.

Long-term Liabilities – In the District-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Assets.

Compensated Absences – District employees accumulate a limited amount of earned but unused vacation and sick leave. The District's policy is not to reimburse for sick leave or vacation. Vacation can only be used by the employees in the year it is earned. The District has no compensated absences liability at June 30, 2011.

Fund Equity – In the governmental fund financial statements, fund balances are classified as follows:

Restricted – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or are imposed by law through constitutional provisions or enabling legislation.

Assigned – Amounts the Board of Education intends to use for specific purposes.

Unassigned – All amounts not included in the preceding classifications.

Restricted Net Assets – In the District-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

E. Budgets and Budgetary Control

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2012, expenditures in the other expenditures function exceeded the amount budgeted.

Note 2. Cash and Pooled Investments

The District's deposits in banks at June 30, 2012 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

MURRAY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2012

Note 2. Cash and Pooled Investments (continued)

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2012, the District had investments in the Iowa Schools Joint Investment Trust as follows:

	<u>Amortized Cost</u>
Diversified Portfolio	\$ <u>1,089,530</u>

The investments are valued at an amortized cost pursuant to Rule 2a-7 under the Investment Company Act of 1940.

Credit Risk – The investment in the Iowa Schools Joint Investment Trust was rated AAAm by Standard & Poor’s Financial Services.

Note 3. Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2012 is as follows:

<u>Transfer to</u>	<u>Transfer from</u>	<u>Amount</u>
Debt Service	Capital Projects	\$ <u>50,000</u>

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

MURRAY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2012

Note 5. Long-Term Liabilities

A summary of changes in long-term liabilities for the year ended June 30, 2012 is as follows:

	Balance Beginning of Year	Additions	Reductions	Balance End of Year	Due Within One Year
Governmental activities:					
General obligation bonds	\$ 140,000	\$ -	\$ 80,000	\$ 60,000	\$ 60,000
Net OPEB liability	4,090	1,996	-	6,086	-
Total	\$ 144,090	\$ 1,996	\$ 80,000	\$ 66,086	\$ 60,000

Bonds Payable

Details of the District's June 30, 2012 general obligation bonded indebtedness are as follows:

Year Ending June 30,	Interest Rates	Principal	Interest	Total
2013	3.65 %	\$ 60,000	\$ 2,190	\$ 62,190

Note 6. Other Postemployment Benefits (OPEB)

Plan Description – The District operates a single-employer retiree benefit plan which provides medical and prescription drug benefits for retirees and their spouses. There are 41 active and 2 retired members in the plan. Retired participants must be age 55 or older at retirement.

The medical/prescription drug coverage is provided through a fully-insured plan with Coventry. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

Funding Policy – The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation – The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

MURRAY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2012

Note 6. Other Postemployment Benefits (OPEB) (continued)

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2012, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

Annual required contribution	\$ 14,000
Interest on net OPEB obligation	184
Adjustment to annual required contribution	<u>(188)</u>
Annual OPEB cost	13,996
Contributions made	<u>12,000</u>
Increase in net OPEB obligation	1,996
Net OPEB obligation beginning of year	<u>4,090</u>
Net OPEB obligation end of year	<u><u>\$ 6,086</u></u>

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2009. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2012.

For the year ended June 30, 2012, the District contributed \$12,000 to the medical plan.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2012 are summarized as follows:

<u>Year</u> <u>Ended</u>	<u>Annual</u> <u>OPEB Cost</u>	<u>Percentage of</u> <u>Annual OPEB</u> <u>Cost Contributed</u>	<u>Net</u> <u>OPEB</u> <u>Obligation</u>
June 30, 2012	\$ 14,000	85.7%	\$ 6,086

Funded Status and Funding Progress – As of July 1, 2009, the most recent actuarial valuation date for the period July 1, 2011 through June 30, 2012, the actuarial accrued liability was \$99,000, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$99,000. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$1,980,000, and the ratio of the UAAL to covered payroll was 5.0%. As of June 30, 2012, there were no trust fund assets.

Actuarial Methods and Assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as required supplementary information in the section following the Notes to Financial Statements, will present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

MURRAY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2012

Note 6. Other Postemployment Benefits (OPEB) (continued)

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2009 actuarial valuation date, the projected unit credit actuarial cost method was used. The actuarial assumptions include a 4.5% discount rate based on the District's funding policy. The projected annual medical trend rate is 11%. The ultimate medical trend rate is 5%. The medical trend rate is reduced .5% each year until reaching the 5% ultimate trend rate.

Mortality rates are from the RP2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from Table I in GASB 45 paragraph 35(b).

The salary increase rate was assumed to be 3.5% per year. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

Note 7. Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by State statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa 50306-9117.

Plan members are required to contribute 5.38% of their annual covered salary and the District is required to contribute 8.07% of annual covered payroll for the year ended June 30, 2012. Contribution requirements are established by State statute. The District's contributions to IPERS for the years ended June 30, 2012, 2011, and 2010 were \$158,213, \$127,391, and \$120,100, respectively, equal to the required contributions for each year.

Note 8. Risk Management

Murray Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 9. Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$107,445 for the year ended June 30, 2012 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

MURRAY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

MURRAY COMMUNITY SCHOOL DISTRICT

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – BUDGETARY REPORTING
Year Ended June 30, 2012

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except internal service, private-purpose trust and agency funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the accrual basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund or fund type. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula.

During the year ended June 30, 2012, expenditures in the other expenditures function exceeded the amounts budgeted.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education of
Murray Community School District:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Murray Community School District as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued our report thereon dated October 22, 2012. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

The management of Murray Community School District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Murray Community School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Murray Community School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Murray Community School District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance all deficiencies, significant deficiencies or material weaknesses have been identified. However, as described in the accompanying Schedule of Findings, we identified a deficiency in internal control over financial reporting we consider to be a significant deficiency.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in Part I of the accompanying Schedule of Findings as item I-A-12 to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Murray Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contracts, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of noncompliance or other matters that are described in Part II of the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about Murray Community School District's operations for the year ended June 30, 2012 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Murray Community School District's responses to the findings identified in our audit are described in the accompanying Schedule of Findings. While we have expressed our conclusions on the District's responses, we did not audit Murray Community School District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Murray Community School District and other parties to whom Murray Community School District may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Murray Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

Oskaloosa, Iowa
October 22, 2012

MURRAY COMMUNITY SCHOOL DISTRICT

SCHEDULE OF FINDINGS

Year Ended June 30, 2012

Part I: Findings Related to the Basic Financial Statements:

Instances of Non-Compliance:

No matters were reported.

Internal Control Deficiencies:

I-A-12 General Ledger Corrections – We noted that the district made a journal entry to correct a miscoded expense from the prior year but made the correction to a revenue account which resulted in an overstatement of revenues in the General Fund and an understatement of revenues in the Capital Projects Fund of \$6,500. This has now been properly corrected.

Recommendation – The District should review all adjusting journal entries for accuracy and propriety prior to finalizing each entry. The entries should be reviewed by a person not directly responsible for making the adjustments.

Response – We will review all entries for accuracy and propriety in the future.

Conclusion – Response accepted.

MURRAY COMMUNITY SCHOOL DISTRICT

SCHEDULE OF FINDINGS

Year Ended June 30, 2012

Part II: Other Findings Related to Statutory Reporting:

II-A-12 Certified Budget – Expenditures for the year ended June 30, 2012, exceeded the amounts budgeted in the other expenditures function.

Recommendation – The budget should have been amended in accordance with Chapter 24.9 of the Code of Iowa before expenditures were allowed to exceed the budget.

Response – We will amend our budget before expenditures exceed the budget in the future.

Conclusion – Response accepted.

II-B-12 Questionable Expenditures – No expenditures that we believe may not meet the requirements of public purpose as defined in an Attorney General’s opinion dated April 25, 1979 were noted.

II-C-12 Travel Expense – No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

II-D-12 Business Transactions – Business transactions between the District and District officials or employees are detailed as follows:

<u>Name, Title and Business Connection</u>	<u>Transaction Description</u>	<u>Amount</u>
Terri Jones, Board Member	Substitute teacher	\$425
John Siefkas, Board Member	Substitute bus driver	\$251
Marla Jeter, spouse of Board President Dennis Jeter	Cook	\$6,129
Steve Potter, Custodian, Owner of Potter Plumbing	Plumbing services, repairs	\$1,017

In accordance with Chapter 279.7A of the Code of Iowa, the transactions with the board members and their spouses and with District employees do not appear to represent conflicts of interest because of the limited availability of these services due to the remote location of the District, which contributes to the arms-length status of these transactions, as well as the fact that Board President Jeter abstained from approval of his spouse’s contract.

II-E-12 Bond Coverage – Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure that the coverage is adequate for current operations.

II-F-12 Board Minutes – No transactions requiring Board approval which had not been approved by the Board were noted.

II-G-12 Certified Enrollment – No variances in the basic enrollment data certified to the Department of Education were noted.

MURRAY COMMUNITY SCHOOL DISTRICT

SCHEDULE OF FINDINGS

Year Ended June 30, 2012

Part II: Other Findings Related to Statutory Reporting (continued):

- II-H-12 Supplementary Weighting – No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.
- II-I-12 Deposits and Investments – No instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District’s investment policy were noted.
- II-J-12 Certified Annual Report – The Certified Annual Report was certified to the Iowa Department of Education timely and we noted no significant deficiencies in the amounts reported.
- II-K-12 Categorical Funding – No instances were noted of categorical funding being used to supplant rather than supplement other funds.
- II-L-12 Statewide Sales and Services Tax – No instances of non-compliance with the use of the statewide sales, services and use tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2012, the District reported the following information regarding the statewide sales, services and use tax revenue in the District’s CAR:

Beginning balance		\$	148,669
Revenues:			
Sales tax revenues	\$	192,569	
Interest		215	
Other local revenues		6,500	
School infrastructure supplemental amount		<u>19,423</u>	218,707
Expenditures/transfers out:			
School infrastructure construction		36,700	
Equipment		20,802	
Other		8,655	
Transfers to other funds:			
Debt Service Fund		<u>50,000</u>	<u>116,157</u>
Ending balance		\$	<u><u>251,219</u></u>

For the year ended June 30, 2012, the District did not reduce any levies as a result of the moneys received under Chapter 423E or 423F of the Code of Iowa.

MURRAY COMMUNITY SCHOOL DISTRICT

SCHEDULE OF FINDINGS

Year Ended June 30, 2012

Part II: Other Findings Related to Statutory Reporting (continued):

II-M-12 Financial Condition – The Special Revenue, Student Activity Fund had some individual account deficit balances at June 30, 2012.

Recommendation – The District needs to monitor the accounts and investigate alternatives to eliminate the deficit balances.

Response – The Board is aware of the conditions and is making strides to eliminate deficit account balances.

Conclusion – Response accepted.
