Independent Auditor's Report

To The Board of Education of
Stratford Community School District:

We have audited the accompanying financial statements of the governmental activities, the business type activities and each major fund of Stratford Community School District, Stratford, Iowa, as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements listed in the table of contents. These financial statements are the responsibility of District officials. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards and provisions require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In accordance with Government Auditing Standards, we have also issued our report dated February 15, 2013 on our consideration of Stratford Community School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

U.S. generally accepted accounting principles require Management's Discussion and Analysis, the Budgetary Comparison Information and the Schedule of Funding Progress for the Retiree Health Plan on pages 4 through 12 and 34 through 36 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we

202 Central Avenue East

obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the required supplementary information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Stratford Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the eight years ended June 30, 2011 (which are not presented herein) and expressed an unqualified opinions on those financial statements. The supplementary information included in Schedules 1 through 2 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. general accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

STRATFORD COMMUNITY SCHOOL DISTRICT

Management's Discussion and Analysis

Stratford Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2012. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2012 FINANCIAL HIGHLIGHTS

- General Fund revenues decreased from \$2,089,323 in fiscal 2011 to \$2,000,502 in fiscal 2012 (4% decrease), while General Fund expenditures decreased from \$1,959,449 in fiscal 2011 to \$1,729,567 in fiscal 2012 (a 12% decrease).
- General Fund local tax revenues increased by \$75,000, however state and federal funding decreased by over \$120,000. The decrease in expenditures was due primarily to decreases in payroll. The General Fund balance increased by over \$270,000.
- The District's Day Care Fund continues to receive contributions which have helped keep the fund in a positive financial position.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Assets and a Statement of Activities. These provide information about the activities of Stratford Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Stratford Community School District operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Stratford Community School District acts solely as an agent or custodian for the benefit of those outside of the District.

Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year as well as presenting the Schedule of Funding Progress for the Retiree Health Plan.

Supplementary Information provides detailed information about the Student Activity Fund as well as multiyear comparison of revenues and expenses.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

Figure A-1
Stratford Community School District Annual Financial Report

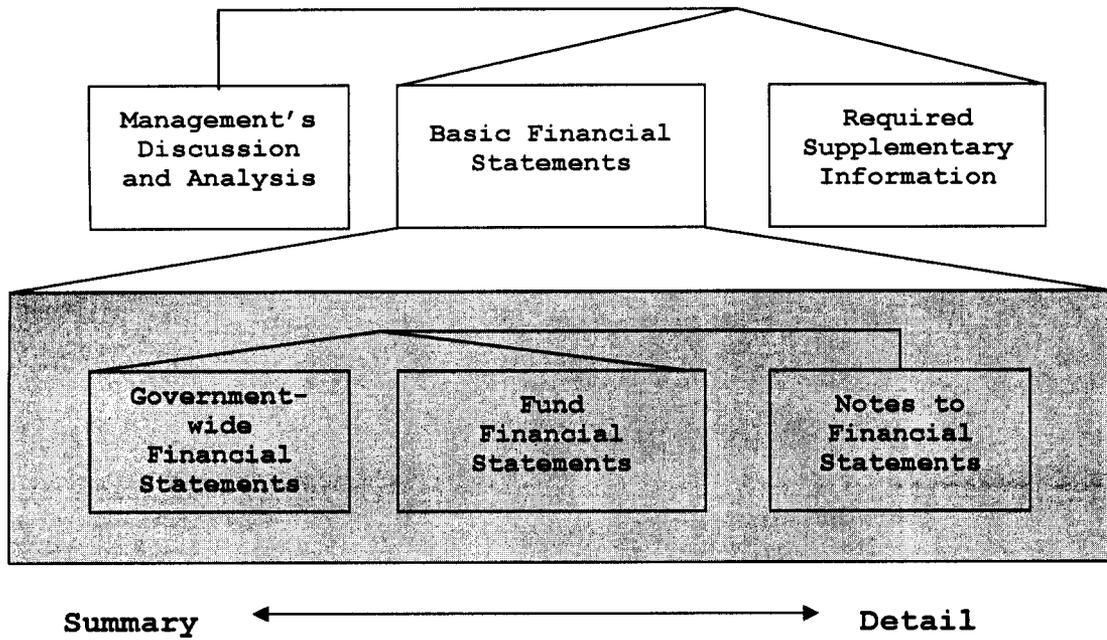

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain.

Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net assets and how they have changed. Net assets - the difference between the District's assets and liabilities - are one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net assets are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business type activities:* The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds - not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. The District has elected to present all governmental and proprietary funds as "major" for clarity of presentation.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show that it is properly using certain revenues, such as federal grants.

The District has two kinds of funds:

- 1) *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, the Special Revenue Funds, the Debt Service Fund and the Capital Projects Funds.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

- 2) *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, one type of proprietary fund, are the same as its business type activities but provide more detail and additional information, such as cash flows. The District currently has two Enterprise Funds, the School Nutrition Fund and the Day Care Fund.

The required financial statements for proprietary funds include a statement of net assets, a statement of revenues, expenses and changes in net assets and a statement of cash flows.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net assets - Figure A-3 below provides a summary of the District's net assets at June 30, 2012 compared to June 30, 2011.

Figure A-3							
Condensed Statement of Net Assets							
(Expressed in Thousands)							
	Governmental		Business Type		Total		Total
	Activities		Activities		District		Change
	June 30,		June 30,		June 30,		June 30,
	2012	2011	2012	2011	2012	2011	2011-2012
Current assets	\$ 3,132	2,801	101	108	3,233	2,909	10.02%
Capital assets	1,595	1,686	1	1	1,596	1,687	-5.70%
Total assets	<u>4,727</u>	<u>4,487</u>	<u>102</u>	<u>109</u>	<u>4,829</u>	<u>4,596</u>	<u>4.83%</u>
Current liabilities	1,157	1,207	-	-	1,157	1,207	-4.32%
Non-current liabilities	557	699	-	-	557	699	-25.49%
Total liabilities	<u>1,714</u>	<u>1,906</u>	<u>-</u>	<u>-</u>	<u>1,714</u>	<u>1,906</u>	<u>-11.20%</u>
Net Assets							
Invested in capital assets, net of related debt	1,060	1,051	1	1	1,061	1,052	0.85%
Restricted	903	738	-	-	903	738	18.27%
Unrestricted	1,050	792	101	108	1,151	900	21.81%

Interfund transfers	(20)	-	20	-	-	-	100.00%
Change in net assets	\$ 431	332	(8)	(8)	423	324	30.56%

Property tax and unrestricted state grants account for 67% of the total revenue. The District's expenses primarily relate to instruction and support services which account for 81% of the total expenses.

Governmental Activities

Revenues for governmental activities were \$2,375,362 and expenses were \$1,944,368 for the year ended June 30, 2012.

The following table presents the total and net cost of the District's major governmental activities, instruction, support services, non-instructional programs and other expenses, for the year ending June 30, 2012 compared to the year ending June 30, 2011.

Figure A-5						
Total and Net Cost of Governmental Activities						
(Expressed in Thousands)						
Total Cost of Services				Net Cost of Services		
2012	2011	Change 2011-2012	2012	2011	Change 2011-2012	
Instruction	\$ 1,164	\$ 1,454	-19.94%	802	1,006	-20.28%
Support services	561	541	3.70%	557	528	5.49%
Non-instructional programs	-	20	-100.00%	20	20	0.00%
Other expenses	199	193	3.11%	121	96	26.04%
Totals	\$ 1,924	2,208	-12.86%	1,500	1,650	-9.09%

For the year ended June 30, 2012:

- The cost financed by users of the District's programs was \$112,111 (\$35,000 increase).
- Federal and state governments subsidized certain programs with grants and contributions totaling \$246,005 (\$78,000 decrease).
- The net cost of governmental activities was financed with \$982,823 in property tax (no change) and 723,758 in state foundation aid (\$33,000 decrease).

Business Type Activities

Revenues for business type activities during the year ended June 30, 2012 were \$185,076 and expenses totaled \$192,834. The District's business type activities include the School Nutrition and Day Care Funds. Revenues of these activities were comprised of charges for services, federal and state reimbursements, private contributions and investment income.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As previously noted Stratford Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported combined fund balance of \$1,899,648, a twenty-five percent increase from last year's ending fund balances of \$1,515,121. Resurgence of the General Fund was primarily due to cost containment measures.

Governmental Fund Highlights

- The District attempts to maintain its General Fund balance by monitoring expenses from all portions of budget. Expenses decreased by almost \$230,000, which allowed the General Fund to increase by over \$270,000.
- The District continues to collect the statewide sales, services and use taxes. It is being used for infrastructure projects.

Proprietary Fund Highlights

The School Nutrition Fund balance increased slightly due to capital infusion from the General Fund. The Day Care Fund decreased by \$8,032. Additional funding sources are being sought.

BUDGETARY HIGHLIGHTS

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds. Although the budget document presents functional area expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not at the fund or fund type level. The budget may be amended during the year utilizing similar statutorily prescribed procedures. A schedule showing the original and final budget amounts compared to the District's actual financial activity is included in the required supplementary information section of this report. Since the District does not adopt a budget for individual funds, budgets for the General Fund and major Special Revenue Funds are not presented in the budgetary comparison on pages 34 and 35.

Legal Budgetary Highlights

The District's receipts were over \$260,000 less than budgeted receipts, a variance of 9%. The variance resulted from the District receiving less in state and local revenues than originally anticipated.

Total expenditures were less than budgeted, due primarily to the District's budget for the General Fund. It is the District's practice to budget expenditures at the maximum authorized spending authority for the General Fund. The District then manages or controls General Fund spending through its line-item budget. As a result, the District's certified budget should always exceed actual expenditures for the year.

The District did not exceed the published budget in any of the four functions. The District did not exceed its unspent authorized budget.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2012, the District had invested over \$1.5 million, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-6) This represents a net decrease of 5% from last year. More detailed information about the District's capital assets is presented in Note 3 to the financial statements. Depreciation expense for the year was \$97,639.

The original cost of the District's capital assets was \$2,751,990. Governmental funds account for \$2,743,013, with the remainder of \$8,977 accounted for in the Proprietary, School Nutrition Fund.

Figure A-6

Totals	\$ 1,595	1,686	1	1	1,596	1,687	-5.39%

Long-Term Debt

At June 30, 2012, the District had \$535,000 in general obligation, long-term debt outstanding. This represents a decrease of approximately 16% from last year (See Figure A-7). In 2008, the District refinanced its outstanding debt resulting in over \$9,000 in savings to the District. Additional information about the District's long-term debt is presented in Note 7 to the financial statements.

Figure A-7
Outstanding Long-Term Obligations
(Expressed in Thousands)

	Total District		Total Change
	June 30, 2012	June 30, 2011	2011-2012

Total	\$ 535	635	-15.75%

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- Sales tax continues to be collected as part of the statewide sales, services and use tax. This money is being used for infrastructure projects.
- Allowable growth of 2% (or less) is inadequate to fund existing programs without dipping into existing reserves.
- Iowa law requires that unsettled salary negotiations for teachers go to mandatory arbitration. Invariably arbitrated settlements are higher than current levels of allowable growth in funding (not including the budget cuts after the contracts have been settled and people have been hired).
- Health insurance continues to be a very costly item to the District. Even though concessions have been made by employees in regard to deductibles, and coinsurance, other solutions need to be found. The skyrocketing cost of health care and the insurance to cover the cost will soon be unattainable by many.
- Unfunded mandates are stretching the limits of not only the financial health of the District, but also the human resources aspect of the District. "No Child Left Behind", "Student Achievement and Teacher Quality Act", and "GASB 34", to name a few.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Sarah Binder, Superintendent, Stratford Community School District, 1000 Shakespeare Ave, Stratford, IA 50249.

STRATFORD COMMUNITY SCHOOL DISTRICT

Reconciliation of the Balance Sheet - Governmental Funds
to the Statement of Net Assets

June 30, 2012

Total fund balances of governmental funds (Exhibit C)	\$ 1,899,648
--	--------------

Amounts reported for governmental activities in the Statement of Net Assets are different because:

Income surtax receivable at June 30, 2012 is not recognized as income until received in the governmental funds, however it is shown as a receivable in the Statement of Net Assets.	75,724
---	--------

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds.	1,595,029
--	-----------

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due.	(1,529)
--	---------

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds.

Other postemployment benefits	\$ (21,683)	
General obligation bonds	<u>(535,000)</u>	<u>(556,683)</u>

Net assets of governmental activities (Exhibit A)	<u>\$ 3,012,189</u>

STRATFORD COMMUNITY SCHOOL DISTRICT

Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances - Governmental Funds
to the Statement of Activities

Year ended June 30, 2012

Net change in fund balances - total governmental funds (Exhibit E)		\$ 384,527
Amounts reported for governmental activities in the Statement of Activities are different because:		
Income surtaxes not collected for several months after the District's fiscal year ends are not considered "available" revenues in the governmental funds and are included as deferred revenues. They are, however, recorded as revenues in the statement of activities. This figure represents the change from the prior fiscal year.		(5,231)
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are not reported in the Statement of Net Activities and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. The amounts of capital outlays and depreciation expense in the year are as follows:		
Capital outlays	\$ 6,270	
Depreciation expense	<u>(97,460)</u>	(91,190)
Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets.		100,000
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.		
Other postemployment benefits	(7,358)	
Early retirement	<u>50,000</u>	42,642
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is reported as an expenditure in the funds when due. In the Statement of Activities, interest expense is recorded as the interest accrues, regardless of when it is due.		<u>246</u>
Change in net assets of governmental activities (Exhibit B)		<u>\$ 430,994</u>

STRATFORD COMMUNITY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2012

(1) Summary of Significant Accounting Policies

Stratford Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve. The geographic area served includes the City of Stratford, Iowa, and agricultural area in Boone, Hamilton, and Webster Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis. Grades seven through twelve attend the Webster City Community School District as part of a one-way sharing agreement.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Stratford Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. Stratford Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations - The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Hamilton County Assessor's Conference Board.

B. Basis of Presentation

Government-wide financial statements - The Statement of Net Assets and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Assets presents the District's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in the following categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets not meeting the definition of the preceding categories. Unrestricted net assets often have constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental and proprietary funds. Major individual governmental funds are reported as separate columns in the fund financial statements. The District has elected to present all governmental and proprietary funds as major funds for clarity of presentation.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Debt Service Fund is used to account for the payment of interest and principal on the District's long-term debt.

The Management Levy Fund is utilized for the payment of insurance, unemployment and early retirement benefits.

The Student Activity Fund is used to account for extra curricular activities conducted on behalf of the students.

The Capital Projects Fund, Physical Plant and Equipment Levy, is used for the acquisition of capital assets (over \$500) and the maintenance and purchase of land improvements and facilities.

The Capital Projects Fund, Statewide Sales Service and Use Tax, is used to account for all resources used in the acquisition and construction of capital facilities.

The District reports the following major proprietary funds:

The District's proprietary funds are the Day Care and School Nutrition Fund. These funds are used to account for the food service operations of the District as well as a daycare facility.

C. Measurement Focus and Basis of Accounting

The government-wide and the proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications - committed, assigned and then unassigned fund balances.

The proprietary funds of the District applies all applicable GASB pronouncements, as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund are charges to customers for sales and services. Operating expenses for Enterprise Fund includes the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Balance

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for non-negotiable certificates of deposit which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable - Property tax in governmental funds are accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Current property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2010 assessed property valuations; is for the tax accrual period July 1, 2011 through June 30, 2012 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2011.

Due from Other Governments - Due from other governments represents amounts from the State of Iowa, various hared revenue, grants and reimbursements from other governments.

Inventories - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets - Capital assets, which include property, furniture and equipment and intangibles, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years. The District had no intangible assets that met the capitalization threshold.

<u>Asset Class</u>	<u>Amount</u>
Land	\$ 1,000
Buildings	10,000
Improvements other than buildings	10,000
Furniture and equipment:	
School Nutrition Fund equipment	10,000
Other furniture and equipment	10,000
Intangible assets	50,000

Capital assets are depreciated using the straight line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives (In Years)</u>
Buildings	50 years
Improvements other than buildings	20-50 years
Furniture and equipment	5-15 years
Intangible assets	5-10 years

Salaries and Benefits Payable - Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Deferred Revenue - Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred revenue in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred revenue consists of unspent grant proceeds as well as property tax receivables and other receivables not collected within sixty days after year end.

Deferred revenue in the Statement of Net Assets consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

Compensated Absences - District employees accumulated a limited amount of earned but unused vacation for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental fund financial statements only for employees who have resigned or retired. The compensated absences liability is deemed to be immaterial at June 30, 2012.

Long-Term Liabilities - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Assets.

Fund Equity - In the governmental fund financial statements, fund balances are classified as follows:

Restricted - Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Unassigned - All amounts not included in other spendable classifications.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2012, expenditures did not exceed the amount budgeted in any of the four functions. The District did not exceed the General Fund unspent authorized budget.

(2) **Cash and Pooled Investments**

The District's deposits in banks at June 30, 2012 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

The District had no investments at June 30, 2012.

(3) **Capital Assets**

Capital assets activity for the year ended June 30, 2012 was as follows:

	Balance Beginning of Year	Increases	Decreases	Balance End of Year
Governmental activities:				
Capital assets not being depreciated:				
Land	\$ 5,000	-	-	5,000
Capital assets being depreciated:

Furniture and Equipment	551,193	6,270	-	557,463
Total capital assets being depreciated	<u>2,731,743</u>	<u>6,270</u>	<u>-</u>	<u>2,738,013</u>
Less accumulated depreciation for:				
Buildings	785,246	36,215	-	821,461
Furniture and Equipment	265,278	61,245	-	326,523
Total accumulated depreciation	<u>1,050,524</u>	<u>97,460</u>	<u>-</u>	<u>1,147,984</u>
Total capital assets being depreciated, net	<u>1,681,219</u>	<u>(91,190)</u>	<u>-</u>	<u>1,590,029</u>
Governmental activities, capital assets, net	<u>\$ 1,686,219</u>	<u>(91,190)</u>	<u>-</u>	<u>1,595,029</u>
Business type activities:				
Furniture and equipment	\$ 8,977	-	-	8,977
Less accumulated depreciation	8,082	179	-	8,261
Business type activities capital assets, net	<u>\$ 895</u>	<u>(179)</u>	<u>-</u>	<u>716</u>
Depreciation expense was charged to the following functions:				
Governmental activities:				
Support services:				
Transportation				\$ 18,976
Unallocated				<u>78,484</u>
				<u>\$ 97,460</u>
Business Type activities:				
Food service operations				<u>\$ 179</u>

(4) **Pension and Retirement Benefits**

The District contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by State statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, PO Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 5.38% of their annual salary and the District is required to contribute 8.07% of annual covered salary. Contribution requirements are established by State statute. The District's contribution to IPERS for the years ended June 30, 2012, 2011, and 2010 were \$70,934, \$73,212, and \$64,186 respectively, equal to the required contributions for each year.

(5) Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the Area Education Agency. The District's actual amount for this purpose totaled \$76,708 for year ended June 30, 2012 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

(6) Risk Management

Stratford Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(7) Long-Term Liabilities

Changes in long-term liabilities for the year ended June 30, 2012 are summarized as follows:

	<u>Balance Beginning Year</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance End of Year</u>	<u>Due Within One Year</u>
Net OPEB Liability	\$ 14,325	7,358	-	21,683	-
General Obligation Bond	<u>635,000</u>	<u>-</u>	<u>100,000</u>	<u>535,000</u>	<u>100,000</u>
Total	<u>\$649,325</u>	<u>7,358</u>	<u>100,000</u>	<u>556,683</u>	<u>100,000</u>

General Obligation Bonds

Details of the District's June 30, 2012 general obligation bonded indebtedness are as follows:

<u>Year Ending June 30,</u>	<u>Interest Rates</u>	<u>Interest</u>	<u>Principal</u>	<u>Total</u>
2013	3.10%	\$18,350	100,000	118,350
2014	3.25	15,250	105,000	120,250
2015	3.45	11,837	105,000	116,837
2016	3.60	8,215	110,000	118,215
2017	3.70	<u>4,255</u>	<u>115,000</u>	<u>119,255</u>
Total		<u>\$57,907</u>	<u>535,000</u>	<u>592,907</u>

(8) Other Postemployment Benefits (OPEB)

Plan Description - The District operates a single-employer retiree benefit plan which provides medical benefits for retirees and their spouses. There are 16 active and 1 retired member in the plan. Participants must be age 55 or older at retirement.

The medical/prescription drug benefits are provided through a fully-insured plan with Wellmark. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which result in an implicit rate subsidy and an OPEB liability.

Funding Policy - The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefits plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation - The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding which, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2012, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

Annual required contribution	\$13,000
Interest on net OPEB Obligation	358
Adjustment to annual required contribution	-
Annual OPEB Cost	<u>13,358</u>
Contributions made	<u>(6,000)</u>
Increase in net OPEB obligation	<u>7,358</u>
Net OPEB obligation beginning of year	<u>14,325</u>
Net OPEB obligation end of year	<u>\$21,683</u>

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2009. The end of the year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2012.

The year ended June 30, 2012, the District contributed \$6,000 to the medial plan.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2012 are summarized as follows:

<u>Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
June 30, 2010	\$13,000	46.2%	\$ 7,000
June 30, 2011	13,325	45.0	14,325
June 30, 2012	13,358	44.9	21,683

Funded Status and Funding Progress - As of July 1, 2009, the most recent actuarial valuation date for the period July 1, 2010 through June 30, 2012, the actuarial accrued liability was \$105,000, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$105,000. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$923,000 and the ratio of the UAAL to covered payroll was 11.4%. As of June 30, 2012, there were no trust fund assets.

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as Required Supplementary Information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2009 actuarial valuation date, the unit credit actuarial cost method was used. The actuarial assumptions include a 4.5% discount rate based on the District's funding policy. The projected annual medical trend rate is 11%. The ultimate medical trend rate is 5%. The medical trend rate is reduced 0.5% each year until reaching the 5% ultimate trend rate.

Mortality rates are from the RP2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the retirement probabilities from district date history.

Projected claim costs of the medical plan are \$1,130 per month for retirees less than age 65. The salary increase rate was assumed to be 3.5% per year. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

STRATFORD COMMUNITY SCHOOL DISTRICT

Note to Required Supplementary Information - Budgetary Reporting

Year ended June 30, 2012

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standard Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on a GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund or fund type. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula.

During the year ended June 30, 2012, expenditures did not exceed the amount budgeted in any of the four functions. The District did not exceed the General Fund unspent authorized budget.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Education of the
Stratford Community School District:

Services:

- Individual, Partnership and Corporate Tax Preparation
- Year Round Tax Planning
- Payroll & Sales Tax Preparation
- I.R.S. Representation
- Monthly/Quarterly Write-Up
- Data Processing Services
- Payroll Preparation
- Financial Statement Preparation
- Bank Loan Assistance

We have audited the accompanying financial statements of the governmental activities and each major fund of Stratford Community School District as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued our report thereon dated February 15, 2013. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

The management of Stratford Community School District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Stratford Community School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Stratford Community School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Stratford Community School District's internal control over financial reporting.

Plus:

- Over 30 years of Expertise and Experience
- Evenings & Saturdays Available by Appointment
- Extended Hours During Tax Season

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance all deficiencies, significant deficiencies or material weaknesses have been identified. However, as described in the accompanying Schedule of Findings, we identified certain deficiencies in internal control over financial reporting we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiencies in internal control described in Part I of the accompanying Schedule of Findings as items I-A-12 and I-B-12 to be material weaknesses.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We noted no items which we consider to be significant deficiencies.

Compliance and Other Matters

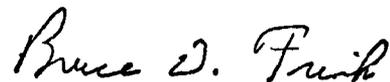

As part of obtaining reasonable assurance about whether Stratford Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part II of the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2012 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Stratford Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings. While we have expressed our conclusions on the District's responses, we did not audit Stratford Community School District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Stratford Community School District and other parties to whom Stratford Community School District may report, including federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Stratford Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

BRUCE D. FRINK
Certified Public Accountant

STRATFORD COMMUNITY SCHOOL DISTRICT

Schedule of Findings

Year ended June 30, 2012

Part I: Findings Related to the Financial Statements:

INSTANCES OF NON-COMPLIANCE:

No matters were reported.

INTERNAL CONTROL DEFICIENCIES

I-A-12 Segregation of Duties - During our review of the internal control structure, the existing procedures are evaluated in order to determine that incompatible duties, from a control standpoint, are not performed by the same employee. This segregation of duties helps to prevent losses from employee error or dishonesty and therefore maximizes the accuracy of the District's financial statements. We noted that one individual has custody of receipts and performs all record-keeping and reconciling functions for the office.

Recommendation - We realize that with a limited number of office employees, segregation of duties is difficult. However, the District should review the operating procedures of the office to obtain the maximum internal control possible under the circumstances.

Response - We will review procedures and investigate available alternatives.

Conclusion - Response accepted.

I-B-12 Auditor Drafting of the Financial Statements and Related Footnote Disclosures - As in prior years, we were requested to draft the audited financial statements and related footnote disclosures as part of our regular audit services. SAS 115, an auditing standard from the American Institute of Certified Public Accountants, requires auditors to communicate this situation as an internal control deficiency. Ultimately, it is management's responsibility to provide for the preparation of the District's statements and footnotes, and the responsibility of the auditor to determine the fairness of the presentation of those statements. From a practical standpoint we do both for you at the same time in connection with our audit. This is not unusual for us to do this with organizations of your size. However, based on this auditing standard, it is our responsibility to inform you that this deficiency could result in a misstatement to the financial statements that could have been prevented or detected by the District's management. As in prior years, we have instructed management to review a draft of the auditor prepared financial statements in detail for their accuracy; we have answered any questions they might have, and encouraged research of any accounting guidance in connection with the adequacy and appropriateness of classification and disclosure in your financial statements. We are satisfied that the appropriate steps have been taken to provide you with the completed financial statements.

Recommendation - It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations.

Response - We feel our review of the draft financials is adequate for us to accept this risk.

Conclusion - Response accepted.

STRATFORD COMMUNITY SCHOOL DISTRICT

Schedule of Findings

Year ended June 30, 2012

Part II: Other Findings Related to Required Statutory Reporting:

- II-A-12 Certified Budget - Expenditures for the year ended June 30, 2012, did not exceed the amounts budgeted in any of the four functions. The District did not exceed its unspent authorized budget for the year ended June 30, 2012.
- II-B-12 Questionable Expenditures - No expenditures we believe may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979 were noted.
- II-C-12 Travel Expense - No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.
- II-D-12 Business Transactions - No business transactions between the District and District officials or were noted.
- II-E-12 Bond Coverage - Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.
- II-F-12 Board Minutes - No items requiring Board approval which had not been approved by the Board were noted.
- II-G-12 Deposits and Investments - We noted no instances of noncompliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy.
- II-H-12 Certified Annual Report - The Certified Annual Report was certified timely to the Iowa Department of Education.
- II-I-12 Certified Enrollment - We noted a variance in the basic enrollment data certified to the Department of Education. One additional student was included on Line 1 resulting in an overstatement of 1.0 in the resident student count.
- Recommendation - We recommend that you contact the Department of Education in order to resolve this matter.
- Response - We will contact the Department of Education as requested.
- Conclusion - Response accepted.
- II-J-12 Supplementary Weighting - No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.
- II-K-12 Categorical Funding - No instances were noted of categorical funding being used to supplant rather than supplement other funds.

STRATFORD COMMUNITY SCHOOL DISTRICT

Schedule of Findings

Year ended June 30, 2012

Part II: Other Findings Related to Required Statutory Reporting:
(continued)

II-L-12 Statewide Sales, Services and Use Tax - No instances of non-compliance with the use of the statewide sales, services and use tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2012, the District reported the following information regarding the statewide sales, services and use tax revenue in the District's CAR:

Beginning balance		\$484,719
Revenues/transfers in:		
Sales tax revenues	\$141,146	
Other local revenues	<u>1,167</u>	<u>142,313</u>
		627,032
Expenditures/transfers out:		
School infrastructure construction		<u>14,312</u>
Ending balance		<u>\$612,720</u>

For the year ended June 30, 2012, the District did not reduce any levies as a result of the moneys received under Chapter 423E or 423F or the Code of Iowa.
