Independent Auditor's Report

To the Board of Education of
Alta Community School District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Alta Community School District, Alta, Iowa, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Disclaimer of Opinion on Discretely Presented Component Units

The financial statements of Alta Community Educational Foundation have not been audited, and we were not engaged to audit the Alta Community Educational Foundation's financial statements as part of our audit of District's basic financial statements. Alta Community Educational Foundation's financial activities are included in the District's basic financial statements as a discretely presented component unit and represent 100 percent of the assets, net position and revenues of the District's aggregate discretely presented component units.

Disclaimer of Opinion on Discretely Presented Component Units

Because the Alta Community Educational Foundation's financial statements have not been audited, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements of the discretely presented component unit. Accordingly, we do not express an opinion on the financial statements of the discretely presented component unit of Alta Community School District, as of and for the year ended June 30, 2013.

Opinions

In our opinion, the financial statements referred to in the first paragraph of this report present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Alta Community School District at June 30, 2013 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require Management's Discussion and Analysis, the Budgetary Comparison Information and the Schedule of Funding Progress for the Retiree Health Plan on pages 5 through 16 and 52 through 55 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We

do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Alta Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the nine years ended June 30, 2012 (which are not presented herein) and expressed unqualified opinions on those financial statements. The supplementary information included in Schedules 1 through 5, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 20, 2014, 2014 on our consideration of Alta Community School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Alta Community School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Alta Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2013. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2013 FINANCIAL HIGHLIGHTS

- General Fund revenues increased from \$5,954,385 in fiscal year 2012 to \$6,321,125 in fiscal year 2013, while General Fund expenditures increased from \$5,470,734 in fiscal year 2012 to \$5,733,743 in fiscal year 2013. The District's General Fund balance increased from \$1,088,244 at the end of fiscal year 2012, to \$1,675,626 at the end of fiscal year 2013, a 54% increase.
- The fiscal year 2013 General Fund revenue increase was attributable to increases in local taxes, state and federal revenue. The increase in expenditures was due primarily to an increase in negotiated salaries and benefits and transportation. The increase in revenue was enough to cover the increase in expenditures resulting in the increase in the General Fund balance.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of Alta Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Alta Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Alta Community School District acts solely as an agent or custodian for the benefit of those outside of the District.

Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year, as well as presenting the Schedule of Funding Progress for the Retiree Health Plan.

Supplementary Information provides detailed information about the nonmajor governmental funds.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net position and how it has changed. Net position – the difference between the District's assets and liabilities – is one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net position is an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business type activities:* The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show it is properly using certain revenues, such as federal grants.

The District has three kinds of funds:

- 1) *Governmental funds*: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, the Special Revenue Funds, the Debt Service Fund and the Capital Projects Fund.

The required financial statements for governmental funds include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances.

- 2) *Proprietary funds*: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Fund, one type of proprietary fund, is the same as its business type activities but provides more detail and additional information, such as cash flows. The District's Enterprise Fund is the School Nutrition Fund.

The required financial statements for proprietary funds include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position and a Statement of Cash Flows.

- 3) *Fiduciary funds*: The District is the trustee, or fiduciary, for assets that belong to others. These funds include Agency Funds.
 - Agency Funds – These are funds through which the District administers and accounts for certain federal and/or state grants on behalf of other Districts and certain revenue collected for District employee purchases of pop and related expenditures.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds include a Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

The District's total net position increased 21%, or approximately \$855,000 from the prior year. A portion of the District's net position is invested in capital assets (e.g., land, infrastructure, intangibles, buildings and equipment), less the related debt. The debt related to the investment in capital assets is liquidated with resources other than capital assets.

Restricted net position represent resources subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net position decreased approximately \$22,000 or 1% from the prior year. The decrease was primarily a result of decreased revenues in the Capital Projects Fund.

Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements – increased approximately \$651,000, or 53%. This increase in unrestricted net position was a result of revenues exceeding expenditures for the year.

Figure A-4 shows the changes in net position for the year ended June 30, 2013 compared to the year ended June 30, 2012.

Net position end of year	\$ 4,876	4,025	99	95	4,975	4,120	20.8%

In fiscal year 2013, property tax and unrestricted state grants accounted for 64.0% of governmental activities revenues while charges for service and operating grants, contributions and restricted interest accounted for 100% of business type activities revenue. The District's total revenues were approximately \$7.8 million, of which approximately 7.5 million was for governmental activities and less than \$1 million was for business type activities.

As shown in Figure A-4, the District as a whole experienced a 4.9% increase in revenues and a 3.2% increase in expenses. Property and other taxes and unrestricted state grants increased approximately \$317,000 to fund the increase in expenses. The increase in expenses is related to increases in negotiated salaries and benefits.

Governmental Activities

Revenues for governmental activities were \$7,451,546 and expenses were \$6,601,284 for the year ended June 30, 2013.

The following table presents the total and net cost of the District's major governmental activities, instruction, support services, non-instructional programs and other expenses, for the year ended June 30, 2013 compared to the year ended June 30, 2012.

For the year ended June 30, 2013:

- The cost financed by users of the District's programs was \$1,021,790.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$915,175.
- The net cost of governmental activities was financed with \$3,450,660 in property and other taxes and \$1,991,957 in unrestricted state grants.

Business Type Activities

Revenues for business type activities during the year ended June 30, 2013 were \$305,176, representing a 5.0% decrease from the prior year, while expenses totaled \$300,930, a 1.8% increase over the prior year. The District's business type activities include the School Nutrition Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income.

INDIVIDUAL FUND ANALYSIS

As previously noted, Alta Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported combined fund balances of \$3,423,018, well above last year's ending fund balances of \$2,814,062. The primary reason for the increase in combined fund balances at the end of fiscal 2013 is due to the increase in the General Fund balance.

Governmental Fund Highlights

- The General Fund balance increased from \$1,088,244 at the end of fiscal 2012 to \$1,675,626 at the end of fiscal year 2013.
- The Management Fund balance increased from \$179,773 at the end of fiscal year 2012 to \$195,476 at the end of fiscal year 2013.
- The Debt Service Fund balance increased from \$242,529 at the end of fiscal year 2012 to \$266,578 at the end of fiscal year 2013. Revenues and expenditures did not vary significantly from the prior year.
- The Capital Projects Fund balance decreased from \$1,231,604 at the end of fiscal year 2012 to \$1,209,730 at the end of fiscal year 2013.

Proprietary Fund Highlights

School Nutrition Fund net position increased from \$94,860 at June 30, 2012 to \$99,106 at June 30, 2013, representing an increase of approximately 4%.

BUDGETARY HIGHLIGHTS

The District's total revenues were \$26,832 less than budgeted revenues, a variance of 0.3%.

Total expenditures were less than budgeted by \$991,783, a variance of 12.2%. This was mainly due to the District's budget for the General Fund. It is the District's practice to budget expenditures at the maximum authorized spending authority for the General Fund. The District then manages or controls General Fund spending through its line-item budget. As a result, the District's certified budget should always exceed actual expenditures for the year.

In spite of the District's budgetary practice, the certified budget was exceeded in the non-instructional and other expenditures functional areas due to the timing of expenditures at year-end without sufficient time to amend the certified budget.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2013, the District had invested approximately \$7.0 million, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-6) This represents a net decrease of 0.7% from last year. More detailed information about the District's capital assets is presented in Note 5 to the financial statements. Depreciation expense for the year was \$287,053.

The original cost of the District's capital assets was approximately \$10.6 million. Governmental funds account for approximately \$10.5 million, with less than \$0.1 million accounted for in the Proprietary, School Nutrition Fund.

Total	\$ 6,915	6,954	41	48	6,956	7,002	-0.7%

Long-Term Debt

At June 30, 2013, the District had \$5,430,739 in total long-term debt outstanding. This represents a decrease of approximately 5% from last year. (See Figure A-7) Additional information about the District's long-term debt is presented in Note 6 to the financial statements.

The Constitution of the State of Iowa limits the amount of general obligation debt districts can issue to 5 percent of the assessed value of all taxable property within the District. The District's outstanding general obligation debt is significantly below its constitutional debt limit of approximately \$15 million.

The District had total outstanding bonded indebtedness at June 30, 2013 of \$5,391,439.

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- Buena Vista County has advised the District that the District's total taxable valuation will be very similar to property taxes collected in fiscal 2013.
- The District experienced a slight increase in enrollment and must continue to monitor expenses carefully.
- Fiscal 2013 was another year in which a one-year agreement was reached with the Alta Education Association. The District will negotiate a new agreement during fiscal 2014. Settlements in excess of "new money" or allowable growth in state funding will have an adverse effect on the District's General Fund budget and related fund balance.
- The District has continued the whole grade sharing agreement with Aurelia which started in fiscal 2011-2012.
- The District has relocated in October 2011 to one educational facility which is more cost effective. This will have a positive impact on the District. The District is investigating possible uses for the old building.
- The continued insufficient allowable growth rate set the by the State of Iowa will have a significant negative impact on the District's budget.
- The budget guarantee has largely been phased out so this will have a big impact on the District as well.

- The District has operating sharing agreements with other Districts for which financial incentives are received from the State of Iowa. The Iowa legislature is discussing whether to continue this funding. If this funding is continued it will have a positive effect for the District, but if it is discontinued the District will have to look at making changes to the budget.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Vicki Kolpin , District Secretary/Treasurer and Business Manager, Alta Community School District, 101 W. 5th Street, Alta, Iowa, 51002.

are different because:*

Capital assets used in governmental activities are not financial resources and,
therefore, are not reported as assets in the governmental funds. 6,914,853

Other long-term assets are not available to pay current period expenditures and,
therefore, are deferred in the governmental funds. 224,903

Accrued interest payable on long-term liabilities is not due and payable in the
current period and, therefore, is not reported as a liability in the governmental
funds. (82,276)

Long-term liabilities, including bonds, early retirement and other
postemployment benefits payable, are not due and payable in the current year and,
therefore, are not reported in the governmental funds. (5,642,290)

Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances - Governmental Funds
to the Statement of Activities

Year ended June 30, 2013

Change in fund balances - total governmental funds (page 25) **\$ 608,956**

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are not reported in the Statement of Activities and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. Depreciation expense exceeded capital outlay expenditures in the current year, as follows:

Expenditures for capital assets	\$ 242,128	
Depreciation expense	<u>(281,011)</u>	(38,883)

Certain unspent grant proceeds and income surtax not collected for several months after year end is not considered available revenue and is deferred in the governmental funds. 21,160

Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Current year repayments exceeded issues, as follows:

Issued	(27,256)	
Discount on bonds issued	(4,309)	
Amortization of bond issuance cost	(3,090)	
Repaid	<u>303,603</u>	268,948

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:

Early retirement	11,180	
Other postemployment benefits	<u>(22,790)</u>	(11,610)

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the governmental funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due. 1,691

(1) Summary of Significant Accounting Policies

Alta Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve. An academic sharing agreement exists with Aurelia Community School District whereby grades six through eight attend the Aurelia Community School District and grades nine through twelve attend Alta Community School District. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the City of Alta, Iowa, and the predominate agricultural territory in Buena Vista, Cherokee and Sac counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Alta Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District.

These financial statements present the Alta Community School District and its component unit. Its component unit discussed below is included in the District's reporting entity because of the significance of its operational or financial relationship with the District.

Alta Community School District
Alta, Iowa

Notes to Financial Statements

June 30, 2013

Discretely Presented Component Unit – The Alta Community Educational Foundation is a separate nonprofit organization organized to raise funds for the library, technology and music programs of the District. The records are maintained on the basis of cash receipts and disbursements, with December 31 as its year end. The Alta Community Educational Foundation meets the definition of a component unit which should be discretely presented. The Foundation's financial statements have not been audited and we do not express an opinion on them.

Jointly Governed Organization - The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Buena Vista County Assessor's Conference Board.

B. Basis of Presentation

Government-wide Financial Statements – The Statement of Net Position (previously referred to as net assets) and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Position presents the District's nonfiduciary assets and liabilities, with the difference reported as net position. Net position is reported in the following categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Alta Community School District
Alta, Iowa

Notes to Financial Statements

June 30, 2013

Unrestricted net position consists of net position not meeting the definition of the preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements— Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds. Combining schedules are also included for the Capital Project Fund accounts.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Special Revenue, Management Levy Fund is used to account for the cost of unemployment benefits, liability insurance and agreements, costs of judgments and certain early retirement benefits.

The Debt Service Fund is utilized to account for property tax and other revenues to be used for the payment of interest and principal on the District's general long-term debt.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

Alta Community School District
Alta, Iowa

Notes to Financial Statements

June 30, 2013

The District reports the following major proprietary fund:

The Enterprise, School Nutrition Fund is used to account for the food service operations of the District.

The District also reports fiduciary funds which focus on net position and changes in net position. The District's fiduciary funds include the following:

The Agency Fund is used to account for assets held by the District as an agent for individuals, private organizations and other governments. The Agency Fund is custodial in nature, assets equal liabilities, and does not involve measurement of results of operations.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Alta Community School District
Alta, Iowa

Notes to Financial Statements

June 30, 2013

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications – committed, assigned and then unassigned fund balances.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Cash Equivalents and Pooled Investments– The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable – Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½ % per month penalty for delinquent payments; is based on January 1, 2011 assessed property valuations; is for the tax accrual period July 1, 2012 through June 30, 2013 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2012.

Alta, Iowa

Notes to Financial Statements

June 30, 2013

Due from Other Governments – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants, and reimbursements from other governments.

Inventories – Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets – Capital assets, which include property, furniture, and equipment are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

<u>Asset Class</u>	<u>Amount</u>
Land	\$ 500
Buildings	500
Improvements other than buildings	500
Furniture and equipment:	
School Nutrition Fund equipment	300
Other furniture and equipment	500

Capital assets are depreciated using the straight line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives (In Years)</u>
Buildings	50 Years
Improvements other than buildings	20 Years
Furniture and equipment	5-12 Years

Alta Community School District
Alta, Iowa

Notes to Financial Statements

June 30, 2013

Salaries and Benefits Payable – Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Deferred Revenue – Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred revenue in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred revenue consists of unspent grant proceeds as well as property tax receivable and other receivables not collected within sixty days after year end.

Deferred revenue in the Statement of Net Position consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied and unspent grant proceeds.

Compensated Absences – District employees do not accumulate earned but unused vacation. District employees accumulate a limited amount of earned but unused sick leave benefits. An accrual for earned but unused sick leave is not recorded in these financial statements because sick leave can only be used for time off for illness.

Long-Term Liabilities – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

Fund Equity – In the governmental fund financial statements, fund balances are classified as follows:

Restricted – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Unassigned – All amounts not included in other spendable classifications.

Termination Benefits

In December 2011, the District approved a voluntary early retirement plan for employees. The plan was offered to employees for one year. Eligible employees must have completed at least fifteen years of contracted service to the District and must have reached the age of fifty-five on or before June 30, 2012. The application for early retirement was subject to approval by the Board of Education.

Alta Community School District
Alta, Iowa

Notes to Financial Statements

June 30, 2013

Early retirement benefits equal sixty percent of the employees' total salary amount as stated in their individual contract for the year they retire. Each participating employee may elect to continue their existing single or family coverage under the District's health insurance program as long as they pay the monthly premiums and are permitted to continue coverage by the insurer. To continue their health insurance coverage, the employee shall pay the monthly premium amount to the District's business office on a date mutually agreed upon prior to the date the District's premium payment is made to the insurance carrier.

Nothing in the early retirement plan shall limit the District's ability to change the terms of its existing health insurance plan. The plan in no way guarantees that an employee will be provided any certain level of benefits or premiums during the time of the employee's participation in the plan.

The plan allows for three options as to how the retiree can receive their early retirement benefits. They can be a) paid in two equal installments the first being paid in July and the second payment being paid January, b) paid into a 403(b) Retirement Plan or c) kept on account with the school and applied toward payment of their individual health insurance premiums.

At June 30, 2013, the District has obligations to one participant with a total liability of \$15,647. Actual early retirement expenditures for the year ended June 30, 2013 totaled \$42,474.

General Obligation Refunding Bonds

On March 1, 2010, the District issued \$2,430,000 of general obligation refunding bonds, with interest rates ranging from 1.00% to 3.75% for a current refunding of the general obligation bonds issued March 1, 2002. Details of the District's June 30, 2013, general obligation refunding bonded indebtedness are summarized as follows:

The District has pledged future statewide sales, services and use tax revenues to repay the \$3,890,000 of bonds issued in April 2010. The bonds were issued for the purpose of financing the costs of a new school addition. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District and are payable through 2030. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds are expected to require approximately 73 percent of the statewide sales, services and use tax revenues. The total principal and interest remaining to be paid on the notes is \$5,150,440. For the current year, principal and interest paid and total statewide sales, services and use tax revenues were \$247,980 and \$409,801, respectively.

Notes to Financial Statements

June 30, 2013

The resolution providing for the issuance of the statewide sales, services and use tax revenue bonds includes the following provisions:

- a) \$313,800 of the proceeds from the issuance of the revenue bonds shall be deposited to a reserve account to be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available in the sinking account.
- b) All proceeds from the statewide sales, services and use tax shall be placed in a revenue account.
- c) Monies in the revenue account shall be disbursed to make deposits into a sinking account to pay the principal and interest requirements of the revenue bonds for the fiscal year.
- d) Any monies remaining in the revenue account after the required transfer to the sinking account may be transferred to the project account to be used for any lawful purpose.

Copier Lease

During the year ended June 30, 2013, the District entered into a lease agreement with De Lage Landen Public Finance LLC for three copiers. Annual principal and interest payments are made from the Capital Projects, Physical Plant and Equipment Levy Fund. For the current year \$3,603 in principal and \$1,117 in interest was paid on the copier lease. Details of the District's June 30, 2013 copier lease indebtedness are as follows:

(7) Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 5.78% of their annual covered salary and the District is required to contribute 8.67% of annual covered salary. Contribution requirements are established by state statute. The District's contributions to IPERS for the years ended June 30, 2013, 2012 and 2011 were \$271,546, \$247,144 and \$209,224, respectively, equal to the required contributions for each year.

(8) Other Postemployment Benefits (OPEB)

Plan Description – As explained in Note 9, the District is a member in the Iowa School Employees Benefits Association (ISEBA) which provides health insurance benefits for retirees and their spouses. There are 53 active and no retired members in the plan. Retired participants must be age 55 or older at retirement.

The health insurance benefits are provided through the plan. Retirees under age 65 pay the same premium for the health insurance benefits as active employees, which results in an implicit rate subsidy and an OPEB liability.

Funding Policy – The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation – The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding which, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

Notes to Financial Statements

June 30, 2013

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2013, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

Annual required contribution	\$ 26,000
Interest on net OPEB obligation	9,000
Adjustment to annual required contribution	<u>(8,000)</u>
Annual OPEB cost	27,000
Contributions made	<u>(5,000)</u>
Increase in net OPEB obligation	22,000
Net OPEB obligation beginning of year	<u>202,244</u>
Net OPEB obligation end of year	<u>\$ 224,244</u>

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2009. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2013.

For the year ended June 30, 2013, the District contributed \$5,000 to the medical plan. Plan members eligible for benefits contributed \$8,154, or 62% of the premium costs.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation are summarized as follows:

Year Ended	Annual	Percentage of	Net
<u>June 30,</u>	<u>OPEB Cost</u>	<u>Annual OPEB</u>	<u>OPEB</u>
		<u>Cost Contributed</u>	<u>Obligation</u>
2011	\$ 80,427	13.7%	\$ 145,427
2012	80,817	29.7	202,244
2013	27,000	18.5	224,244

Funded Status and Funding Progress – As of July 1, 2012, the most recent actuarial valuation date for the period July 1, 2012 through June 30, 2013, the actuarial accrued liability was \$188,000, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$188,000. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$2,079,000 and the ratio of the UAAL to covered payroll was 9.0%. As of June 30, 2013, there were no trust fund assets.

Notes to Financial Statements

June 30, 2013

Actuarial Methods and Assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress for the Retiree Health Plan, presented as Required Supplementary Information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2012 actuarial valuation date, the alternative measurement method was used. The actuarial assumptions includes a 4.5% discount rate based on the District's funding policy. The projected annual medical trend rate is 10%. The ultimate medical trend rate is 5%. The medical trend rate is reduced 0.5% each year until reaching the 5% ultimate trend rate.

Mortality rates are from the RP-2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the District's average retirement age of pension eligible retirees over the last five years and applying termination factors from the U.S. Office of Personnel Management.

Projected claim costs of the health insurance plan are \$700 as there are no retirees in the plan. The salary increase rate was assumed to be 3.5% per year. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

(9) Risk Management

Alta Community School District is a member in the Iowa School Employees Benefits Association, (ISEBA), a fully insured pool covered by Wellmark Blue Cross Blue Shield of Iowa. ISEBA is a local government risk-sharing pool whose members include various schools throughout the State of Iowa. The Association was formed in July 1999 for the purpose of managing and funding employee benefits. The Association provides health coverage and protection.

The District's contributions to the risk pool are recorded as expenditures from its General Fund at the time of payment to the risk pool. District contributions to ISEBA for the year ended June 30, 2013 were \$435,152.

Members agree to continue membership in the pool for a period of not less than one full year. After such period, a member who has given 30 days prior written notice may withdraw.

The District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(10) Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the Area Education Agency. The District's actual amount for this purpose totaled \$197,853 for the year ended June 30, 2013 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

(11) Operating Leases

The District entered into an operating lease with Star Leasing Inc. for the rental of two copiers on October 18, 2007 for a period of 60 months. The amount paid for the fiscal year ended June 30, 2013 was \$3,439. There are no future rentals.

Notes to Financial Statements

June 30, 2013

The District entered into an operating lease with Star Leasing, Inc. for the rental of a copier on October 31, 2007 for a period of 60 months. The amount paid for the fiscal year ended June 30, 2013 was \$1,476. There are no future rentals.

(12) Categorical Funding

The District's restricted fund balance for categorical funding at June 30, 2013 is comprised of the following programs:

<u>Program</u>	<u>Amount</u>
Limited English proficient	\$ 11,054
Home school assistance program	18,675
Gifted and talented program	5,999
Dropout prevention program	7,668
Preschool	1,039
Teacher salary supplement	25,347
Professional development – core curriculum	11,442
Professional development	<u>17,821</u>
Total	<u>\$ 99,045</u>

(13) Subsequent Events

Subsequent events have been evaluated through June 20, 2014, which is the date the financial statements were available to be issued.

On October 4, 2013 a tornado caused approximately \$500,000 of damage to District buildings and other property. The District insurance company covered the cost of repairs less the deductible.

On December 9, 2013, the Board approved the purchase of a Thomas Built bus for \$85,871.

Notes to Required Supplementary Information – Budgetary Reporting

Year ended June 30, 2013

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standard Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on a GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not by fund. The Code of Iowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula.

During the year ended June 30, 2013, expenditures in the non-instructional programs and other expenditures functions exceeded the amounts budgeted.

Independent Auditor's Report on Internal Control
over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards

To the Board of Education of
Alta Community School District:

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Alta Community School District as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated June 20, 2014. Our report expressed unqualified opinions on the financial statements except for the component unit, Alta Community Educational Foundation, which was not audited and therefore, no opinion was expressed.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Alta Community School District's internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Alta Community School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Alta Community School District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings, we identified certain deficiencies in internal control we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiencies described in Part I of the accompanying Schedule of Findings as items I-A-13 and I-B-13 to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Alta Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part II of the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2013 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Alta Community School District's Responses to Findings

Alta Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings. Alta Community School District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Alta Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

Schedule of Findings

Year ended June 30, 2013

Part I: Findings Related to the Financial Statements:

INTERNAL CONTROL DEFICIENCIES:

I-A-13 Segregation of Duties - One important aspect of internal control is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible. The cash receipts listing, bank deposits and the posting of the cash receipts journal are all done by the same person. Also, vouchers are processed, disbursements are recorded, and checks are prepared by the same person.

Recommendation - We realize segregation of duties is difficult with a limited number of office employees. However, the District should review its procedures to obtain the maximum internal control possible under the circumstances.

Response - We are doing everything we can within our situation and make improvements as the situation changes.

Conclusion - Response acknowledged. The District should segregate duties to the extent possible with existing personnel and utilize administrative personnel to provide additional control through review of financial transactions and reports.

I-B-13 Preparation of Financial Statements – The District does not have an internal control system designed to provide for the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America. Therefore, as auditors, we were requested to draft the financial statements and accompanying notes to the financial statements. This circumstance is not unusual for an entity similar in size to Alta Community School District. It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations.

Recommendation – We realize that obtaining the expertise necessary to prepare the financial statements, including all necessary disclosures, can be considered costly and ineffective. However, it is the responsibility of the District's management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations.

Schedule of Findings

Year ended June 30, 2013

Response – Management feels that committing the resources to remain current on reporting requirements and corresponding footnote disclosures would lack benefit in relation to the cost, but will continue to evaluate the risks to be accepted in preparation of the financial statements.

Conclusion – Response accepted.

INSTANCES OF NON-COMPLIANCE:

No matters were noted.

Schedule of Findings

Year ended June 30, 2013

Part II: Other Findings Related to Required Statutory Reporting:

II-A-13 Certified Budget - Expenditures for the year ended June 30, 2013, exceeded the certified budget amounts in the non-instructional programs and other expenditures functions.

Recommendation - The certified budget should have been amended in sufficient amounts in accordance with Chapter 24.9 of the Code of Iowa before expenditures were allowed to exceed the budget.

Response - Future budgets will be amended in sufficient amounts and in proper functional areas to ensure the certified budget is not exceeded.

Conclusion - Response accepted.

II-B-13 Questionable Expenditures - No expenditures we believe may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979 were noted.

II-C-13 Travel Expense - No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

II-D-13 Business Transactions - The follow business transactions between the District and District officials or employees were noted.

<u>Name, Title and Business Connection</u>	<u>Transaction Description</u>	<u>Amount</u>
Dave Turnquist, Board Member	Softball coach	\$ 2,500

The transaction with Board Member, Turnquist, does not appear to violate Chapter 279.7A of the Code of Iowa as the transaction wasn't more than \$2,500 for the fiscal year.

II-E-13 Bond Coverage - Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage is reviewed annually to ensure the coverage is adequate for current operations.

Schedule of Findings

Year ended June 30, 2013

- II-F-13 Board Minutes - Certain minutes were not published as required by Chapter 279.35 of the Code of Iowa.

Recommendation –The Board Secretary should furnish a copy of the Board proceedings to be published within two weeks of each meeting.

Response – Procedures have been revised to ensure the minutes are published as required.

Conclusion – Response accepted.

- II-G-13 Certified Enrollment - The number of basic resident students reported to the Iowa Department of Education on line 7 of the Certified Enrollment Certification Form for October 2012 was overstated. The District included two full time students and one home schooled student that should not have been counted and did not count two home schooled students that should have been counted.

Recommendation – The District should contact the Iowa Department of Education and Department of Management to resolve this matter.

Response – We will contact the Iowa Department of Education and the Department of Management.

Conclusion – Response accepted.

- II-H-13 Supplementary Weighting – No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.

- II-I-13 Deposits and Investments - No instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy were noted.

- II-J-13 Certified Annual Report – The Certified Annual Report was certified timely to the Iowa Department of Education.

Schedule of Findings

Year ended June 30, 2013

II-K-13 Categorical Funding – No instances of categorical funding being used to supplant rather than supplement other funds were noted.

II-L-13 Statewide Sales, Services and Use Tax – No instances of non-compliance with the allowable uses of the statewide sales, services and use tax revenue provided in Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2013, the following information includes the amounts the District reported for the statewide sales, services and use tax revenue in the District's CAR including adjustments identified during the fiscal year 2013 audit:

Beginning balance		\$ 1,129,213
Revenues:		
Sales tax revenues		<u>409,801</u>
		1,539,014
Expenditures/transfers out:		
School infrastructure construction	\$ 60,347	
Equipment	32,872	
Other	8,973	
Transfer to other funds:		
Debt service fund	<u>275,835</u>	<u>378,027</u>
Ending balance		\$ <u>1,160,987</u>

For the year ended June 30, 2013, the District did not reduce any levies as a result of the moneys received under Chapter 423E or 423F of the Code of Iowa.

Schedule of Findings

Year ended June 30, 2013

II-M-13 Deficit Balances - Three student activities accounts had deficit balances at June 30, 2013.

Recommendation - The District should continue to investigate alternatives to eliminate the deficits in order to return the accounts to a sound financial condition.

Response – The District is monitoring and investigating alternatives to eliminate deficits in the student activity accounts.

Conclusion - Response accepted.

II-N-13 Revenue Bonds – No instances of non-compliance with the revenue bond resolution were noted.
