INDEPENDENT AUDITOR'S REPORT

To the Board of Education of the East Union Community School District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of East Union Community School District, Afton, Iowa, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of East Union Community School District as of June 30, 2013, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require Management's Discussion and Analysis, the Budgetary Comparison Information and the Schedule of Funding Progress for the Retiree Health Plan on pages 7 through 16 and 42 through 44 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise East Union Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the nine years ended June 30, 2012 (which are not presented herein) and expressed unqualified opinions on those financial statements. The supplementary information included in Schedules 1 through 6 is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated February 18, 2014 on our consideration of East Union Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering East Union Community School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

East Union Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2013. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2013 FINANCIAL HIGHLIGHTS

- General Fund revenues decreased from \$5,410,504 in fiscal 2012 to \$5,227,649 in fiscal 2013, while General Fund expenditures increased from \$5,418,184 in fiscal 2012 to \$5,753,335 in fiscal 2013. The District's General Fund balance decreased from \$829,956 in fiscal 2012 to \$304,270 in fiscal 2013, a 63.34% decrease from the prior year.
- The decrease in General Fund revenues was attributable to decreases in state revenue and federal revenue sources in fiscal 2013. The increase in expenditures was due primarily to increases in the instructional functional areas.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of East Union Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report East Union Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which East Union Community School District acts solely as an agent or custodial for the benefit of those outside of the School District.

Notes to the financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year, as well as presenting the Schedule of Funding Progress for the Retiree Health Plan.

Supplementary Information provides detailed information about the nonmajor governmental funds.

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain.

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net position and how they have changed. Net position - the difference between the District's assets and liabilities - are one way to measure the District's financial health or position. Over time, increases or decreases in the District's net position is an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities*: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business type activities*: The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds - not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds or to show that it is properly using certain revenues such as federal grants.

The District has two kinds of funds:

- 1) *Governmental funds*: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, Special Revenue Funds, Capital Projects Fund and Debt Service Fund.

The required financial statements for the governmental funds include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances.

2) *Proprietary funds*: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's enterprise funds, one type of proprietary fund, are the same as its business type activities, but provide more detail and additional information, such as cash flows. The District currently has one enterprise fund, the School Nutrition Fund.

The required financial statements for the proprietary funds include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position and a Statement of Cash Flows.

Reconciliation between the government-wide financial statements and the fund financial statements follow the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Figure A-3 below provides a summary of the District's total net position at June 30, 2013 compared to June 30, 2012.

The District's combined net position decreased by 3.64% or \$213,367 from the prior year. The largest portion of the District's net position is invested in capital assets (e.g., land, infrastructure, buildings and equipment), less the related debt. The debt related to the investment in capital assets is liquidated with resources other than capital assets.

Restricted net position represent resources subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net position increased \$46,760 or 6.05% from the prior year. The increase was primarily a result of the increase in the Capital Projects Accounts balance.

Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraint established by debt covenants, enabling legislation, or the legal requirement - decreased \$375,514 or 42.10%. This decrease was largely due to the decrease in the General Fund balance

Figure A-4 shows the changes in the District's net position for the year ended June 30, 2013, compared to June 30, 2012.

Property tax and unrestricted state grants account for 78.62% of governmental activities revenue while charges for service and operation grants, contributions and restricted interest accounted for almost all of business type activities revenue.

The District's total revenues were \$6.57 million, of which approximately \$6.09 million was for governmental activities and approximately \$0.48 million was for business type activities.

As shown in figure A-4, the District as a whole experienced a 6.57% decrease in revenues and a 6.36% increase in expenses. The increase in expenses is related to increases in instruction and support services functional expenditures.

Governmental Activities

Revenues for governmental activities were \$6,085,315 and expenses were \$6,420,267 for the year ended June 30, 2013. The revenues decreased in the governmental activities by \$675,658 mainly due to less federal grant revenue received by the District during fiscal year 2013.

The following table presents the total and net cost of the District's major governmental activities: instruction, support services and other expenses, for the year ended June 30, 2013 compared to the year ended June 30, 2012.

| | Total Cost of Services | | | Net Cost of Services | | |
|------------------|------------------------|------------------|-------------------|----------------------|------------------|-------------------|

- The cost financed by users of the District's programs was \$327,479.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$875,792.
- The net cost of governmental activities was financed with \$2,025,118 in property tax, \$204,182 in income surtax, \$390,303 in statewide sales, services and use tax, \$2,164,611 in unrestricted state grants, \$1,119 in interest income and \$96,711 in other general revenue.

Business Type Activities

Revenues of the District's business type activities were \$485,837 and expenses were \$364,252. The District's business type activities include the School Nutrition Fund and the Early Childhood Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income.

INDIVIDUAL FUND ANALYSIS

As previously noted, the East Union Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported combined fund balance of \$1,072,941 down from last year's ending fund balances of \$1,546,423. The primary reason for the decrease was an increase in current instruction expenditures for the General Fund and decreases in property tax revenues for the Capital Projects and the Debt Service Funds for the year ended June 30, 2013.

Governmental Fund Highlights

- The District's General Fund balance decreased from \$829,956 on June 30, 2012 to \$304,270 on June 30, 2013. The fluctuation in the District's General Fund financial position is the product of many factors. Decreased revenues combined with an increase in expenses resulted in a decrease General Fund balance at June 30, 2013.
- The Capital Projects accounts balance increased from a balance of \$248,893 at the beginning of fiscal year 2012 to \$520,651 at the end of fiscal year 2013. The increase in fund balance resulted mainly from a decrease in capital outlay expenditures as compared to the previous year.

- The Debt Service Fund balance decreased from \$272,932 at June 30, 2012 to \$128,082 at June 30, 2013.

Proprietary Fund Highlights

The School Nutrition Fund net position increased from \$23,733 at June 30, 2012 to \$69,097 at June 30, 2013, representing a percentage increase of 191.14% or \$45,364. The Early Childhood Funds net position was \$76,221 at June 30, 2013.

BUDGETARY HIGHLIGHTS

Over the course of the year, East Union Community School District amended its budget one time to reflect additional expenditures for the Early Childhood program and District-wide lighting projects.

The District's revenues were \$468,174 more than budgeted revenues, a variance of 7.66%. The most significant variances resulted from the District receiving more in federal sources than originally anticipated.

Total expenditures were less than budgeted, primarily to the District's budget for the General Fund. It is not the District's practice to budget expenditures at the maximum authorized spending authority for the General Fund. The District's budget is developed utilizing realistic projections of revenues and expenditures. The district then manages or controls General Fund spending through its line-item budget. In situations where revenues exceed projections, and expenditures do not exceed spending authority, the Board may take action to amend the budget authorizing additional expenditures.

In spite of the District's budgetary practice, the certified budget was exceeded in the instruction functional area due to the timing of expenditures at year-end without sufficient time to amend the certified budget.

The original cost of the District's capital assets was \$12,130,838. Governmental funds accounted for \$12,034,270 with the remainder of \$96,568 in the Proprietary, School Nutrition Fund.

The largest percentage change in capital asset activity during the year occurred in the land improvements category. The land improvements category totaled \$326,510 at June 30, 2012, compared to \$347,561 reported at June 30, 2013. This increase is a due to an addition of a new exterior lighting project.

Long-Term Debt

At June 30, 2013, the District had long-term debt outstanding of \$4,979,826 in general obligation bonds, revenue bonds, lease obligations, loans payable, compensated absences and OPEB liability (See Figure A-7). Additional detailed information about the District's long-term liabilities is available in Note 5 to the financial statements.

The District had outstanding general obligation bonds of \$3,665,000 at June 30, 2013.

The District had outstanding revenue bonded indebtedness of \$1,150,000 at June 30, 2013.

The District had an outstanding computer lease obligation of \$48,344 at June 30, 2013.

The District had outstanding bus loans of \$97,745 at June 30, 2013.

The District had an outstanding vending machine loan of \$1,088 payable from the School Nutrition Fund at June 30, 2013.

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

-
- Low allowable growth over several years and possible enrollment decreases may negatively impact the District's spending authority. Contractual increases and program changes cannot be made without thorough consideration of our unspent authorized budget.
 - The budget guarantee (whereby Districts are guaranteed 100% of their current budget for the upcoming year) is being phased out over a ten-year period which started in fiscal year 2005.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Billie Jo Greene, Business Manager/District Board Secretary/Treasurer, East Union Community School District, 1916 High School Drive, Afton, Iowa, 50830.

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
 CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 YEAR ENDED JUNE 30, 2013

Change in fund balances - total governmental funds(page 22) \$ (473,482)

**Amounts reported for governmental activities in the
 Statement of Activities are different because:**

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are not reported in the Statement of Activities and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. Depreciation expenses exceeded capital outlay expenditures in the current year as follows:

| | | |
|---------------------------------|------------------|-----------|
| Expenditures for capital assets | \$ 187,448 | |
| Depreciation expense | <u>(338,662)</u> | (151,214) |

Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Current year repayments are as follows: 273,497

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due. 4,675

Income surtax account receivable is not available to finance expenditures of the current year period in the governmental funds. (8,061)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental fund.

EAST UNION COMMUNITY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2013

(1) Summary of Significant Accounting Policies

The East Union Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve and special education pre-kindergarten. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the City of Afton, Iowa, and the predominate agricultural territory in Union, Madison, Ringgold, and Clarke Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, East Union Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the District. The East Union Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations - The District participates in a jointly governed organization that provides services to the District but do not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Union, Madison, Ringgold, and Clarke County Assessors' Conference Board.

B. Basis of Presentation

Government-wide financial statements - The Statement of Net Position and the Statement of Activities report information on all of the non-fiduciary activities of the District. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Position presents the District's Non-fiduciary assets and liabilities, with the difference reported as net position. Net position is reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net position results when constraints placed on net position use is either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position not meeting the definition of the preceding categories. Unrestricted net position often has constraints on resources that are imposed by management, but can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest that are restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the Government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other non-major governmental funds. Combining schedules are also included for the Capital Projects Fund accounts.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenses, including instructional, support and other costs.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

The Debt Service Fund is utilized to account for property tax and other revenues to be used for the payment of interest and principal on the District's long-term debt.

The District's non-major proprietary funds are the School Nutrition Fund and the Early Childhood Fund. The School Nutrition Fund is used to account for the food service operations of the District. The Early Childhood Fund is used to account for the District's programs for two and three year old children that are not able to be funded with state categorical funding but rather by tuition paid by parents and county empowerment grants.

C. Measurement Focus and Basis of Accounting

The government-wide and the proprietary fund financial statements are reported using the "economic resources measurement focus" and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

When and expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications - committed, assigned and then unassigned fund balances.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise fund is charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Balances

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, they have a maturity date no longer than three months.

Property Tax Receivable - Property tax in the governmental funds are accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the Government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2011 assessed property valuations; is for the tax accrual period July 1, 2012 through June 30, 2013 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2012.

Due from Other Governments - Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets - Capital assets, which include property, intangibles and machinery and equipment, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

| Asset Class | Amount |
|-----------------------------------|----------|
| Land | \$ 1,500 |
| Buildings | 1,500 |
| Improvements other than buildings | 1,500 |
| Intangibles | 25,000 |
| Machinery and equipment: | |
| Other machinery and equipment | 1,500 |

Capital assets are depreciated using the straight line method of depreciation over the following estimated useful lives:

| Asset Class | Estimated Useful Lives (In Years) |
|-----------------------------------|-----------------------------------|
| Buildings | 50 years |
| Improvements other than buildings | 20 years |
| Intangibles | 2 or more years |

Salaries and Benefits Payable - Payroll and related expenditures for annual contracts corresponding to the current school year, which is payable in July and August, have been accrued as liabilities.

Deferred Revenue - Although certain revenues are measurable, they are not available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used

to pay liabilities of the current period. Deferred revenue consists of unspent grant proceeds as well as property tax receivables and other receivables not collected within sixty days after year end.

Deferred revenue on the Statement of Net Position consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

Unearned Revenue - Unearned revenues are monies collected for lunches that have not yet been served. The lunch account balances will either be reimbursed or served lunches. The lunch account balances are reflected on the Statement of Net Position in the Proprietary, School Nutrition Fund.

Compensated Absences - District employees accumulate a limited amount of earned but unused vacation for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide financial statements. A liability for these amounts is reported governmental fund financial statements only for employees that have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2013. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund.

Long-term Liabilities - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

Fund Balances - In the governmental fund financial statements, fund balances are classified as follows:

Restricted - Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Assigned - Amounts assigned by the board to be used for specific purposes, which include the early childhood program and the aspire program.

Unassigned - All amounts not included in other spendable classifications.

Restricted Net Position - In the Government-wide Statement of Net Position, net position is reported as restricted when constraints placed on net position use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

E. Budgeting and Budgetary Control

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2013, expenditures exceeded the amount budgeted in the instruction function.

(2) Cash and Pooled Investments

The District's deposits at June 30, 2013 were entirely covered by federal depository insurance or State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2013, the District had investments in the Iowa Schools Joint Investment Trust Direct Government Obligations Portfolio which are valued at an amortized cost of \$335,558 pursuant to Rule 2a-7 under the Investment Company Act of 1940. The investments in the Iowa Schools Joint Investment Trust were both rated AAA by Standard & Poor's Financial Services.

(3) Transfers

The detail of transfers for the year ended June 30, 2013 is as follows:

| Total | | \$ 1,150,000 | 509,425 | 1,659,425 |

The District has pledged future statewide sales, services and use tax revenues to repay the \$1,200,000 issued on February 25, 2010. The 2010 bonds were issued for the purpose of construction of a new elementary building. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitations of the District. Annual principal and interest payments on the bonds are expected to require nearly 25% of the statewide sales, services and use tax revenues. The total principal and interest remaining to be paid on the bonds is \$1,659,425. For the current year, principal and interest was paid on the bonds of \$96,650, and the statewide sales, services and use tax revenue was \$390,303.

The resolution providing for the issuance of the statewide sales, services and use tax revenue bonds includes the following provisions:

- a) \$119,017 of the proceeds from the issuance of the revenue bonds shall be deposited to a reserve account to be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available in the sinking account. The balance of the proceeds shall be deposited to the project account.
- b) All proceeds from the statewide sales, services and use tax shall be placed in a revenue account.
- c) Monies in the revenue account shall be disbursed to make deposits into a sinking account to pay the principal and interest requirements of the revenue bonds for the fiscal year.
- d) Any monies remaining in the revenue account after the required transfer to the sinking account may be transferred to the project account to be used for any lawful purpose.

Computer Lease Payable

The District entered into a computer lease during the year ended June 30, 2011. The first \$10,000 each year will be paid from the Capital Projects: Statewide Sales, Services and Use Tax Fund with the remainder coming from the General Fund.

(6) Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by State statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 5.78% of their annual covered salary and the District is required to contribute 8.67% of annual covered salary. Contribution requirements are established by state statute. The District's contributions to IPERS for the years ended June 30, 2013, 2012, and 2011, were \$280,878, \$246,435 and \$202,137, respectively, equal to the required contributions for each year.

(7) Risk Management

The District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(8) Other Postemployment Benefits (OPEB)

Plan Description - The District operates a single-employer health benefit plan which provides medical and prescription drug benefits for employees, retirees and their spouses. There are 94 active and 5 retired members in the plan. Participants must be age 55 or older at retirement.

The medical/prescription drug benefits are provided through a fully-insured plan with Wellmark. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit rate subsidy and an OPEB liability.

Funding Policy - The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation - The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding which, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2013, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

| | |
|--|-------------------------|
| Annual required contribution | \$ 9,000 |
| Interest on net OPEB obligation | 1,267 |
| Adjustment to annual required contribution | (1,000) |
| Annual OPEB cost | <u>9,267</u> |
| Contributions made | (21,000) |
| Increase in net OPEB obligation | <u>(11,733)</u> |
| Net OPEB obligation beginning of year | <u>28,165</u> |
| Net OPEB obligation end of year | <u><u>\$ 16,432</u></u> |

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2009. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2013.

For the year ended June 30, 2013, the District contributed \$21,000 to the medical plan. Plan members eligible for benefits contributed \$19,000, or 47.50% of the premium costs.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2013 are summarized as follows:

| Year Ended June 30, | Annual OPEB cost | Percentage of Annual OPEB Cost Contributed | Net OPEB Obligation |
|------------------------|---------------------|--|---------------------------|
| 2011 | \$ 30,053 | 63.2% | \$ 21,053 |
| 2012 | 30,112 | 76.4% | 28,165 |
| 2013 | 9,267 | 226.6% | 16,432 |

Funded Status and Funding Progress - As of July 1, 2012, the most recent actuarial valuation date for the period July 1, 2012 through June 30, 2013, the actuarial accrued liability was \$135,000, with no actuarial value of assets, resulting in an

unfunded actuarial accrued liability (UAAL) of \$135,000. The covered payroll (annual payroll of active employees covered by the plan) was \$2,530,355 and the ratio of the UAAL to covered payroll was 5.34%.

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as Required Supplementary Information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2012 actuarial valuation date, the unit credit actuarial cost method was used. The actuarial assumptions include a 4.5% discount rate based on the District's funding policy. The projected annual medical trend rate is 10%. The ultimate medical trend rate is 5%. The medical trend rate is reduced 0.5% each year until reaching the 5% ultimate trend rate.

Mortality rates are from the RP2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the retirement probabilities from the IPERS Actuarial Report as of June 30, 2008 and applying the termination factors used in the IPERS Actuarial Report as of June 30, 2008.

Projected claim costs of the medical plan are \$842 per month for retirees less than age 65. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

(9) Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$181,667 for the year ended June 30, 2013 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

(10) Budget Overexpenditure

During the year ended June 30, 2013, the District's expenditures in the instruction functional area exceeded the amounts budgeted.

(11) Categorical Funding

The District's restricted fund balances for categorical funding at June 30, 2013 is comprised of the following programs:

| <u>Project</u> | <u>Amount</u> |
|---|------------------|
| Limited english proficient | \$ 6,498 |
| Gifted and talented programs | 12,273 |
| Beginning teacher mentoring and induction program | 642 |
| Teacher salary supplement | 26,278 |
| Four-year old preschool state aid | 35,298 |
| Market factor incentives | 310 |
| Total | <u>\$ 81,299</u> |

(12) Contingencies

As of June 30, 2013, the District is involved in various claims and lawsuits against the District that arise in the normal course of operations, which are covered by insurance. The outcome and eventual liability of the District, if any, from these claims and any unasserted claims is not known at this time; however, management does not believe they will be material to the basic financial statements.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION - BUDGETARY REPORTING
YEAR ENDED JUNE 30, 2013

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standard Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private-Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions not by fund or fund type. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not by fund. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District adopted one budget amendment increasing budget expenditures by \$95,000.

During the year ended June 30, 2013, expenditures in the instruction functional area exceeded the amount budgeted.

**Independent Auditor's Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements Performed in
Accordance with Government Auditing Standards**

To the Board of Education of the East Union Community School District:

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Governmental Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of East Union Community School District as of and for the year ended June 30, 2013, and the related notes to financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated February 18, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered East Union Community School District's internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of East Union Community School District's internal control. Accordingly, we do not express an opinion on the effectiveness of East Union Community School District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings, we identified deficiencies in internal control we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiency described in Part I of the accompanying Schedule of Findings as item I-A-13 to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether East Union Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances on non-compliance or other matters which are described in Part II of the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2013 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

East Union Community School District's Responses to Findings

East Union Community School District's responses to the findings identified in our audit are described in the accompanying Schedule of Findings. East Union Community School District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of East Union Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

EAST UNION COMMUNITY SCHOOL DISTRICT
SCHEDULE OF FINDINGS
YEAR ENDED JUNE 30, 2013

Part I: Findings Related to the Financial Statements:

INSTANCES OF NON-COMPLIANCE:

No matters were noted

INTERNAL CONTROL DEFICIENCY:

I-A-13 Segregation of Duties - One important aspect of internal accounting control is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible. One individual has control over each of the following areas for the District:

- 1) Cash - initiating cash receipt and disbursement transactions and handling and recording cash.
- 2) Investments - investing, detailed recordkeeping, custody of investments and reconciling earnings.
- 3) Receipts - collecting, recording, depositing, journalizing, posting and reconciling.
- 4) Payroll - recording approved pay rates and deductions, recordkeeping, preparation, posting and distribution.
- 5) School lunch program - collecting, recording, journalizing, posting, reconciling, purchase order processing, check preparation, mailing and recording.

Recommendation - We realize segregation of duties is difficult with a limited number of office employees. However, the District should review its procedures to obtain the maximum internal control possible under the circumstances utilizing current personnel, including elected officials.

Response - The District will investigate alternatives and implement if possible.

Conclusion - Response acknowledged.

EAST UNION COMMUNITY SCHOOL DISTRICT
SCHEDULE OF FINDINGS
YEAR ENDED JUNE 30, 2013

Part II: Other Findings Related to Required Statutory Reporting:

- II-A-13 Certified Budget - Expenditures for the year ended June 30, 2013 exceeded the certified budget amount in the instruction function.
- Recommendation - The certified budget should have been amended in accordance with Chapter 24.9 of the Code of Iowa before expenditures were allowed to exceed the budget.
- Response - The District will continue to watch the line items more closely and amend the budget timely.
- Conclusion - Response accepted.
- II-B-13 Questionable Disbursements - No expenditures we believe may not meet the requirements of public purpose as defined by Attorney General's opinion dated April 25, 1979 were noted.
- II-C-13 Travel Expense - No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.
- II-D-13 Business Transactions - No business transactions between the District and District officials were noted.
- II-E-13 Bond Coverage - Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.
- II-F-13 Board Minutes - We noted no transactions requiring Board approval which have not been approved by the Board.
- II-G-13 Certified Enrollment - We noted a variance in the basic enrollment data certified to the Department of Education. The number of students was overstated by 1.0.
- Recommendation - The District should contact the Iowa Department of Education and the Department of Management to resolve this matter.
- Response - The District's auditor will contact the Iowa Department of Education and Department of Management to resolve this matter.
- Conclusion - Response accepted.
- II-H-13 Supplementary Weighting - No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.
- II-I-13 Deposits and Investments - We noted no instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy.
- II-J-13 Certified Annual Report - The Certified Annual Report was certified timely to the Iowa Department of Education.

- II-K-13 Categorical Funding - No instances were noted of categorical funding used to supplant rather than supplement other funds.
- II-L-13 Statewide Sales, Services and Use Tax - No instances of non-compliance with the use of the statewide sales, services and use tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2013, the following information includes the amounts the District reported for the statewide sales, services and use tax revenue in the District's CAR including adjustments identified during the fiscal 2013 audit:

| | | | |
|------------------------------------|----|---------|--------------------------|
| Beginning Balance | | \$ | 153,264 |
| Revenues: | | | |
| Sales tax revenues | \$ | 390,303 | |
| Other local revenues | | 59 | |
| Other state revenue | | 4,465 | |
| Federal revenue | | 33,491 | 428,318 |
| | | | <u>581,582</u> |
| Expenditures/transfer out: | | | |
| School infrastructure construction | \$ | 81,670 | |
| Other | | 2,000 | |
| Transfers to other funds: | | | |
| Debt service fund | | 106,649 | |
| Other funds | | 1,225 | 191,544 |
| | | | <u>191,544</u> |
| Ending Balance | | | <u><u>\$ 390,038</u></u> |

For the year ended June 30, 2013, the District did not reduce any levies as a result of the moneys received under Chapter 423E or 423F of the Code of Iowa.
