Independent Auditor's Report

To the Board of Education of
HLV Community School District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of HLV Community School District, Victor, Iowa, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above presents fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of HLV Community School District as of June 30, 2013,

and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require Management's Discussion and Analysis, the Budgetary Comparison Information and the Schedule of Funding Progress for the Retiree Health Plan on pages 4 through 10 and 38 through 40 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operation, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U. S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise HLV Community School District's basic financial statements. We previously audited, in accordance with the standards referred in the third paragraph of this report, the financial statements for the nine years ended June 30, 2012 (which are not presented herein) and expressed unqualified opinions on those financial statements. The supplementary information included in Schedules 1 through 8 is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 13, 2014, on our consideration of HLV Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide and opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering HLV Community School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The HLV Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2013. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of the HLV Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report the HLV Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which HLV Community School District acts solely as an agent or custodian for the benefit of those outside of the school.

Notes to financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year, as well as presenting the Schedule of Funding Progress for the Retiree Health Plan.

Other Supplementary Information provides detailed information about the non-major funds.

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net position and how it has changed. Net Position – the difference between the District's assets and liabilities – is one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net position is an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business type activities:* The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show that it is properly using certain revenues, such as federal grants.

The District has three kinds of funds:

- 1) *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, Special Revenue Funds, Physical Plant and Equipment Levy Fund and Capital Projects Fund.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

- 2) *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District currently has four Enterprise Funds, the School Nutrition Fund, the Preschool Fund, the Student Constructed House Fund, and the Marketing Class Fund.

The required financial statements for proprietary funds include a statement of net position a statement of revenues, expenses and changes in fund net position and a statement of cash flows.

- 3) *Fiduciary funds:* The District is the trustee, or fiduciary, for assets that belong to others. These funds include Private-Purpose Trust and Agency Funds.

- Private-Purpose Trust Fund – The District accounts for outside donations for scholarships for individual students in this fund.
- Agency Funds – This fund was established in order for employees to donate money for flowers/balloons to be sent to employees in event of surgery, hospital stays, funeral, and new babies.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Figure A-1 below provides a summary of the District's net position at June 30, 2013 compared to June 30, 2012.

Figure A-1

	Condensed Statement of Net Position						Percentage Change 2012-2013
	Governmental Activities		Business-type Activities		Total School District		
	2013	2012	2013	2012	2013	2012	
	\$	\$	\$	\$	\$	\$

Total expenses	4,965,937	5,000,657	226,782	199,885	5,192,719	5,200,542	<-1%
CHANGE IN NET POSITION	(108,482)	67,693	(21,725)	19,907	(130,207)	87,600	-249%
Net position beginning of year	5,442,964	5,375,271	(92,514)	(112,421)	5,350,450	5,262,850	2%
Net position end of year	5,334,482	5,442,964	(114,239)	(92,514)	5,220,243	5,350,450	-2%

Property tax and unrestricted state grants account for 64% of the total revenue. The District's expenses primarily relate to instruction and support services, which account for 81% of the total expenses.

Governmental Activities

Revenues for governmental activities were \$4,857,455 and expenses were \$4,965,937. The District spent \$108,482 more than the available revenues.

- The net cost of governmental activities was financed with \$2,555,458 in property and other taxes and \$1,154,542 in unrestricted state grants.

Business Type Activities

Revenues for business type activities were \$205,057 and expenses were \$226,782. The District's business type activities include the School Nutrition Fund, Preschool, Student House Construction and the Marketing Project. Revenues for these activities were comprised of charges for service, federal and state reimbursements and investment income.

INDIVIDUAL FUND ANALYSIS

As previously noted, HLV Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Fund Highlights

- The General Fund balance decreased from \$934,308 to \$830,061. Due to the negotiated salaries and benefits and existing expenditures commitment of the District)
- The Capital Project Fund includes revenues from sales tax and from the physical plant and equipment property tax levy. These two revenue streams and the related expenditures are tracked separately in the District's accounting records, but are combined into one Capital Projects Fund for financial reporting. The monies in the Capital Projects fund will be used for future capital improvements and equipment purchases.
 - The Physical Plant and Equipment Levy account balance decreased from \$611,504 at June 30, 2012 to \$470,773 at June 30, 2013.
 - The Statewide Sales Tax account balance increased from \$17,584 at June 30, 2012 to \$299,670 at June 30, 2013.
- The Debt Service Fund balance decreased from \$192,799 at the beginning of the year to \$(984) at the end of the year.
- The Management Fund balance increased from \$383,003 to \$417,760.

Proprietary Fund Highlights

School Nutrition Fund net position decreased from \$(24,859) at June 30, 2012 to (\$38,984) at June 30, 2013.

Preschool Fund net assets decreased from \$28,557 in 2012 to \$20,957 in 2013.

The Student Construction Fund net position remained the same at \$(96,562) from 2012 to 2013.

The Marketing Project Fund net position remained the same at \$350 from 2012 to 2013.

BUDGETARY HIGHLIGHTS

Over the course of the year, the HLV Community School District amended its annual budget one time increasing budgeted expenditures by \$451,361.

The District's receipts were \$118,309 more than budgeted receipts.

Total expenditures were \$929,934 less than budgeted. It is the District's practice to budget expenditures at sufficient levels in the 4 program areas, (instruction, non-instruction, support services and other), so that the District does not exceed spending limitations in any of these areas.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2013, the District had 7,508,536, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-3) This represents a net decrease of 4% from last year. More detailed information about the District's capital assets is presented in Note 4 to the financial statements.

Figure A-6

Capital Assets (net of depreciation)

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of certain circumstances that could affect its future.

The school district is aware of the financial issues being faced by the State of Iowa. These State financial issues affect local school district funding.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Lori McClenathan, District Treasurer and Bookkeeper/Business Manager, HLV Community School District, 402 5th St., Victor, Iowa, 52347.

HLV COMMUNITY SCHOOL DISTRICT

Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances - Governmental Funds to the
Statement of Activities

Year ended June 30, 2013

	\$	\$
Net change in fund balances - total governmental funds (Exhibit E)		(116,545)
<i>Amounts reported for governmental activities in the Statement of Activities are different because:</i>		
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are not reported in the Statement of Activities and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. Depreciation expense and capital outlay expenditures in the current year are as follows:		
Loss on disposal of assets	(205,484)	
Expenditures for capital assets	398,528	
Depreciation expense	<u>(497,235)</u>	(304,191)
Income surtaxes not collected for several months after the District's fiscal year ends are not considered "available" revenues in the governmental funds and are included as deferred revenues. They are, however, recorded as revenues in the Statement of Activities.		10,039
Repayment of long-term liability principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.		350,000
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due.		4,443
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:		
Termination benefits	(60,000)	
Compensated absences	(13,673)	
Other postemployment benefits	<u>21,445</u>	<u>(52,228)</u>
Changes in net position of governmental activities (Exhibit B)		<u><u>(108,482)</u></u>

HLV COMMUNITY SCHOOL DISTRICT

Notes to Financial Statements

June 30, 2013

1. Summary of Significant Accounting Policies

HLV Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve. The geographic area served includes the Cities of Victor, Hartwick, and Ladora, Iowa and the predominately agricultural territory in a portion of Iowa and Poweshiek Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, HLV Community School District has included all funds, organizations, agencies, boards, commissions, and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. The HLV Community School District has no component units that meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations - The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the County Assessor's Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Position (previously referred to as net assets) and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Position presents the District's nonfiduciary assets and liabilities, with the difference reported as net position. Net position is reported in the following categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances for bonds, notes, and other debt attributable to the acquisition, construction, or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position not meeting the definition of the preceding categories. Unrestricted net position often has constraints on resources imposed by management, which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions, and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements – Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds. Combining schedules are also included for the Capital Project Fund accounts.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instruction, support and other costs.

The Management Levy Fund is a special revenue fund that is used to account for the revenues from and expenditures of the management property tax levy.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

The Debt Service Fund is utilized to account for property tax and other revenues to be used for the payment of interest and principal on the District's general long-term debt.

The District's proprietary fund includes the following Enterprise Funds: 1) the School Nutrition Fund is used to account for the food service operations of the District, 2) the Preschool Fund is used to account for an educational program for students in the year prior to attending kindergarten, 3) the Marketing Project Fund is used to account for the revenues and expenses of a class activity, and 4) the Student House Construction Fund is used to account for the sale of and costs of a house constructed by students. The Student House Construction Funds is a major fund.

The District also reports fiduciary funds, which focus on net position and changes in net position. The District's fiduciary funds include the following:

The Private-Purpose Trust Fund is used to account for assets held by the District under trust agreements, which require income earned to be used to benefit individuals through scholarship awards.

The Agency Fund is used to account for assets held by the District as an agent for individuals, private organizations, and other governments. The Agency Fund is custodial in nature, assets equal liabilities, and does not involve measurement of results of operations.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants, and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgements, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted, net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the district's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications – committed, assigned, and then unassigned fund balances.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Funds are charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Cash Equivalents and Pooled Investments - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash, and at the day of purchase, they have a maturity date no longer than three months.

Property Tax Receivable – Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds became due and collectible in September and March of the fiscal year with a 1 ½% per month penalty for delinquent payments; is based on January 1, 2011 assessed property valuations; is for the tax accrual period July 1, 2012 through June 30, 2013 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2012.

Due from Other Governments - Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants, and reimbursements from other governments.

Inventories - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets – Capital assets, which include property, furniture and equipment and intangibles, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

<u>Asset Class</u>	<u>Amount</u>
	\$
Land	500
Buildings	5,000
Improvements other than buildings	5,000
Intangibles	25,000
Furniture and equipment:	
School Nutrition Fund equipment	500
Other furniture and equipment	5,000

Capital assets are depreciated using the straight line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Buildings	50 years
Improvements other than buildings	5-20 years
Intangibles	3-10 years
Furniture and equipment	3-15 years

The District's collection of library books and other similar materials are not capitalized. These collections are unencumbered, held for public exhibition and education, protected, cared for and preserved and subject to District policy that requires proceeds from the sale of these items, if any, to be used to acquire other collection items.

Salaries and Benefits Payable – Payroll and related expenditures for certified staff with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Deferred Revenue – Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred revenue in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred revenue consists of property tax receivable and other receivables not collected within sixty days after year end.

Deferred revenue in the Statement of Net Position consists of unspent grant proceeds, amounts received in advance for meal sales and succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

Compensated Absences - District employees accumulate a limited amount of earned but unused vacation and sick leave hours for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental fund financial statements only for employees that have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2013. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund.

Long-term Liabilities – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

Fund Equity – In the governmental fund financial statements fund balances are classified as follows:

Restricted – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Unassigned – All amounts not included in the preceding classifications.

E. Budgeting and Budgetary Control

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2013, expenditures did not exceed the amended amount budgeted.

2. Cash, Cash Equivalents and Pooled Investments

The District's deposits in banks at June 30, 2013 were entirely covered by federal depository insurance, or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2013, the District had investments in the Iowa Schools Joint Investment Trust Direct Government Obligations Portfolio which are valued at an amortized cost of \$276,517 pursuant to Rule 2a-7 under the Investment Company Act of 1940. The investment in the Iowa Schools Joint Investment Trust was rated AAAM by Standard & Poor's Financial Services.

3. Interfund Receivables and Payables

The detail of interfund receivables and payables at June 30, 2013 is as follows:

Receivable Fund	Payable Fund	Amount \$
General Fund	Enterprise, Preschool Fund	12,629
General Fund	Enterprise, Student House Fund	97,231
General Fund	Enterprise, School Nutrition Fund	148,520

The interfund receivable/payables are loans to the various funds which will be repaid in the next fiscal year.

4. Capital Assets

Capital assets activity for the year ended June 30, 2013 is as follows:

	Balance Beginning of Year, as Restated \$	Increases \$	Decreases \$	Balance End of Year \$
Governmental activities:				
Capital assets not being depreciated:				
Land	10,000	-	-	10,000

Depreciation expense was charged to the following functions:

	\$
Governmental activities:	
Instruction:	
Regular	2,128
Support services:	
Student support	1,338
Administration services	11,736
Operation and Maintenance	742
Transportation	<u>26,497</u>
Unallocated depreciation	<u>454,794</u>
Total depreciation expense – governmental activities	<u>497,235</u>
Business type activities:	
Food services	<u>1,557</u>

5. Long-Term Liabilities

Changes in long-term liabilities for the year ended June 30, 2013 are summarized as follows:

	Balance Beginning of Year	Additions	Reductions	Balance End of Year	Due Within One Year
	\$	\$	\$	\$	\$
Governmental activities:					
General obligation bonds	3,865,000	-	175,000	3,690,000	180,000
Revenue bonds-statewide sales tax	605,000	-	175,000	430,000	145,000
Compensated absences	82,767	13,673	-	96,440	32,147
Termination Benefits	-	60,000	-	60,000	60,000
Net OPEB liability	124,301	-	21,445	102,856	-
Total	4,677,068	73,673	371,445	4,379,296	417,147

Termination Benefits

The District offered a voluntary early retirement plan for employees during fiscal year 2013. The plan was only offered to employees for one year. Eligible employees must have completed at least ten years of full-time service to the District and must have reached the age of fifty-five on or before June 30 in the calendar year in which early retirement commences. The application for early retirement is subject to approval by the Board of Education.

Early retirement benefits consist of a \$20,000 payment.

At June 30, 2013, the District has obligations to three participants with a total liability of \$60,000. There were no early retirement expenditures for the year ended June 30, 2013.

General Obligation Bonds Payable

Details of the District's June 30, 2013 general obligation bonded indebtedness are as follows:

Year Ending June 30,	Bond Issue of May, 2008			
	Interest Rates	Principal	Interest	Total
	%	\$	\$	\$
2014	4.25	180,000	159,128	339,128
2015	4.25	185,000	151,478	336,478
2016	4.25	195,000	143,615	338,615
2017	4.25	205,000	135,328	340,328
2018	4.25	215,000	126,615	341,615
2019-2023	4.30	1,215,000	487,412	1,702,412
2024-2028	4.30-4.45	1,495,000	202,358	1,697,358
		<u>3,690,000</u>	<u>1,405,934</u>	<u>5,095,934</u>

Revenue Bonds Payable

Details of the District's June 30, 2013 statewide sales, services and use tax revenue bonded indebtedness are as follows:

Year Ending June 30,	Bond Issue of June 26, 2008			
	Interest Rates	Principal	Interest	Total
	%	\$	\$	\$
2014	3.66	145,000	15,738	160,738
2015	3.66	140,000	10,432	150,432
2016	3.66	145,000	5,308	150,308
		<u>430,000</u>	<u>31,478</u>	<u>461,478</u>

The District has pledged future statewide sales, services and use tax revenues to repay the \$1,100,000 bonds issued on June 26, 2008. The bonds were issued for the purpose of financing a portion of the costs of additions and renovations to the school facilities. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District and are payable through 2016. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds are expected to require nearly 70% of the statewide sales, services and use tax revenues. The total principal and interest remaining to be paid on the notes is \$461,478. For the current year, \$175,000 of principal and \$22,144 of interest was paid on the bonds and the total statewide sales, services and use tax revenues were \$282,086.

6. Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 5.78% of their annual covered salary and the District is required to contribute 8.67% of annual covered salary. Contribution requirements are established by state statute. The District's contributions to IPERS for the years ended June 30, 2013, 2012 and 2011 were \$216,659, \$197,843 and \$176,326 respectively, equal to the required contributions for each year.

7. Other Postemployment Benefits (OPEB)

Plan Description - The District operates a single-employer retiree benefit plan which provides medical and prescription drug benefits for retirees and their spouses. There are 42 active and 3 retired members in the plan. Participants must be age 55 or older at retirement.

The medical/prescription drug coverage is provided through a fully-insured plan with Wellmark. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

Funding Policy - The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation - The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount determined by the Iowa School Finance Information Services using ACOPEB.com software, in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2013, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

	\$
Annual required contribution	11,124
Interest on net OPEB obligation	5,594
Adjustment to annual required contribution	<u>(5,298)</u>
Annual OPEB cost	11,420
Contributions made	<u>(33,937)</u>
Increase in net OPEB obligation	(22,517)
Net OPEB obligation beginning of year	<u>124,301</u>
 Net OPEB obligation end of year	 <u>101,784</u>

For calculation of the net OPEB obligation, the transition day as July 1, 2012. The end of year net OPEB obligation was calculated by ACOPEB.com software and used the cumulative difference between the ACOPEB.com software determined funding requirements and the actual contributions for the year ended June 30, 2013.

For the year ended June 30, 2013, the District contributed \$33,937 to the medical plan. Plan members eligible for benefits contributed \$40,821 of the premium costs, or 100% of the premiums.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2013 are summarized as follows:

<u>Year Ended June 30,</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
	\$	%	\$
2010	79,000	41.77%	46,000
2011	79,749	48.90%	86,749
2012	79,552	52.80%	124,301
2013	11,420	297.17%	101,784

Funded Status and Funding Progress - As of July 1, 2012, the most recent actuarial valuation date for the period July 1, 2012 through June 30, 2013, the actuarial accrued liability was \$110,446, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$110,446. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$1,920,000, and the ratio of the UAAL to covered payroll was 5.75%. As of June 30, 2013, there were no trust fund assets.

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information in the section following the Notes to Financial Statements, will present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2012 actuarial valuation date, the alternative measurement method was used. The actuarial assumptions include a 4.5% discount rate based on the District's funding policy. The medical insurance premium increases are 4.5% per year and should be reasonable comparable with those found in the National Health Care Expenditures Projections of the Office of the actuary at the Centers for Medicare and Medicaid Services in 2007.

Mortality rates by gender come from the Life Expectancy Table from National Center for Health Statistics updated in 2008. Annual retirement and termination probabilities came from Table 1 in GASB Statement 45.

The salary increase rate was assumed to be 3% per year. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

8. Risk Management

The District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

9. Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$126,661 for the year ended June 30, 2013 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

10. Categorical Funding

The District's restricted fund balance for categorical funding at June 30, 2013 is comprised of the following programs:

<u>Program</u>	<u>Amount</u>
	\$
Mentoring	
Teacher salary supplement	99,575
Educator quality, professional development	28,816
Core curriculum	5,424
Returning dropout and dropout prevention program	61,564
Preschool	<u>35,518</u>
	<u><u>230,897</u></u>

11. Deficit Fund Balances

At June 30, 2013 the District had deficit unrestricted net position balances in the Debt Service Fund of \$984 and Enterprise School Nutrition Fund and Enterprise Student House Construction Fund of \$49,634 and \$96,562 respectively.

Notes to Required Supplementary Information - Budgetary Reporting

Year ended June 30, 2013

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standard Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Internal Service, Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on a GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides District expenditures in the General Fund may not exceed the amount authorized. During the year, the District adopted one budget amendment, increasing budgeted expenditures by \$451,361.

During the year ended June 30, 2013, expenditures did not exceed the amounts budgeted.

Independent Auditor's Report on Internal Control
Over Financial Reporting and on compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards

To the Board of Education of
HLV Community School District:

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Governmental Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of HLV Community School District and of and for the year ended June 30, 2013, and the related notes to financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated June 13, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered HLV Community School District's internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of HLV Community School District's internal control. Accordingly, we do not express an opinion on the effectiveness of HLV Community School District's Internal Control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Responses, we identified deficiencies in internal control we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiencies described in Part I of the accompanying Schedule of Findings and Responses as items 13-I-A and 13-I-B to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether HLV Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on

compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However we noted certain immaterial instances of non-compliance or other matters which are described in Part II of the accompanying Schedule of Finding and Responses.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2013 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

HLV Community School District's Responses to Findings

HLV Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings and Responses. HLV Community School District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of HLV Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

HLV COMMUNITY SCHOOL DISTRICT

Schedule of Findings and Responses

Year ended June 30, 2013

Part I: Findings Related to the Financial Statements:

Internal Control Deficiencies:

13-I-A Segregation of Duties: The limited number of personnel makes it difficult to achieve adequate internal accounting control through the segregation of duties and responsibilities, such as recording and processing cash receipts, payroll processing, preparing checks and bank reconciliations, preparing and posting general journal entries, preparation of journals and general financial information for ledger posting, and the analysis of financial information. A small staff makes it difficult to establish an ideal system of automatic internal checks on accounting record accuracy and reliability, although we noted the District had taken steps to segregate duties between the present personnel. This is not an unusual condition but it is important the District officials are aware that the condition exists.

Recommendation: We realize segregation of duties is difficult with a limited number of office employees. However, the District should review its procedures to obtain the maximum internal control possible under the circumstances utilizing currently available staff, including elected officials.

District Response: We will continue to review our procedures and implement additional controls where possible.

Conclusion: Response accepted.

13-I-B Financial Statement Preparation: Financial statement preparation is the responsibility of the District. At the present time District personnel do not have the skills necessary to be able to write the District's financial statements and the related note disclosures. This is not an unusual situation for small governmental entities.

Recommendation: District personnel should attend any governmental accounting and reporting training sessions that may be offered by the Iowa Department of Education, State Auditor's Office or Iowa Association of School Business Officials. The school business office should also have governmental accounting and reporting reference materials.

District Response: As a school we certainly understand the need for continuing education classes for all of our staff. However, we have a limited budget and must continually prioritize needs. At this point in time it is not cost effective to train our staff to the level necessary that would enable them to write the financial statements, nor is it feasible to hire additional employees that already possess the skills.

Conclusion: Response accepted.

Instances of Noncompliance:

No matters were reported.

HLV COMMUNITY SCHOOL DISTRICT

Schedule of Findings and Responses

Year ended June 30, 2013

Part II: Other Findings Related to Required Statutory Reporting:

- 13-II-A Certified Budget: Expenditures for the year ended June 30, 2013 did not exceed the certified budget.
- 13-II-B Questionable Expenditures: No expenditures we believe may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979 were noted.
- 13-II-C Travel Expenses: No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.
- 13-II-D Business Transactions: We noted no transactions between the District and District officials or employees.
- 13-II-E Bond Coverage: Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.
- 13-II-F Board Minutes: We noted no transactions requiring Board approval that had not been approved by the Board.
- 13-II-G Certified Enrollment: No variances in the basic enrollment data certified to the Department of Education were noted.
- 13-II-H Supplementary Weighting: No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.
- 13-II-I Deposits and Investments: We noted no instances of noncompliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy.
- 13-II-J Certified Annual Report (CAR): The District's Certified Annual Report was certified to the Iowa Department of Education timely.
- 13-II-K Categorical Funding: No instances were noted of categorical funding being used to supplant rather than supplement other funds.
- 13-II-L Statewide Sales, Services and Use Tax: No instances of non-compliance with the allowable use of the statewide sales, services and use tax revenue provided in Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2013, the following information includes the amounts reported for the statewide sales, services and use tax revenue in the District's CAR including adjustments identified during the fiscal year 2013 audit:

HLV COMMUNITY SCHOOL DISTRICT

Schedule of Findings and Responses

Year ended June 30, 2013

Part II Other Findings Related to Required Statutory Reporting (Continued):

	\$	\$
Beginning balance		17,584
Revenues/transfers in:		
Statewide sales, services and use tax revenue		282,086
Expenditures/transfers out		<u>-</u>
Ending balance		<u><u>299,670</u></u>

13-II-M Financial Condition: The Debt Service Fund, the Enterprise School Nutrition Fund and Enterprise School Construction Fund have deficit balances at June 30, 2013.

Recommendation: The District should continue to monitor these funds and investigate alternatives to eliminate the deficits.

District Response: We are working on ways to eliminate the deficits.

Conclusion: Response accepted.

13-II-N Reclassification of Student Activity Fund Accounts: There are some accounts in the Student Activity Fund that may belong more appropriately in other funds.

Recommendation: We recommend these accounts be reviewed and transferred to the proper fund.

District Response: We will review the accounts and make any necessary adjustments.

Conclusion: Response accepted.

13-II-O Interfund loans: On October 22, 2009 the Iowa Department of Education issued a declaratory order covering interfund loans. The Order states that all loans between funds must be approved by the board of directors, interest must be paid on the interfund loans and the loans must be repaid before the October 1, after each year-end.

Recommendation: The District should follow the declaratory order with respect to the interfund loans that are listed in Note 3 to the financial statements and any future interfund loans.

District Response: We will review our procedures for interfund loans and will follow the declaratory order.

Conclusion: Response accepted.
