Independent Auditor's Report

To the Board of Education of  
Tripoli Community School District:

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the Tripoli Community School District, Tripoli, Iowa, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the Tripoli Community School District, as of June 30, 2013, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

## Other Matters

### *Required Supplementary Information*

U.S. generally accepted accounting principles require that Management's Discussion and Analysis, the Budgetary Comparison Information and the Schedule of Funding Progress for the Retiree Health Plan on pages 4 through 12 and 35 through 37 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. I have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements and other knowledge we obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

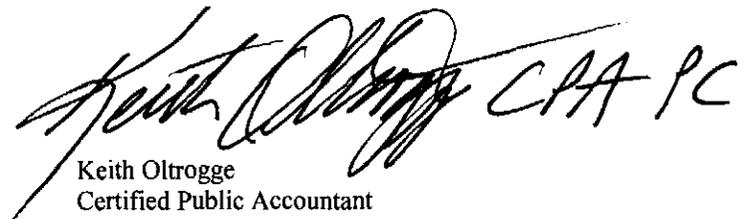

### *Supplementary Information*

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Tripoli Community School District's basic financial statements. I previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the nine years ended June 30, 2012 (which are not presented herein) and expressed unqualified opinions on those financial statements. The supplementary information included in Schedules 1 through 6, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In my opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, I have also issued my report dated February 27, 2014 on my consideration of the Tripoli Community School District's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Tripoli Community School District's internal control over financial reporting and compliance.

**Management's Discussion and Analysis**  
**For the Fiscal Year Ended June 30, 2013**

Tripoli Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2013. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

**2013 FINANCIAL HIGHLIGHTS**

- General Fund revenues decreased from \$4,734,150, in fiscal 2012 to \$4,630,097 in fiscal 2013, and General Fund expenditures increased from \$4,693,703 in fiscal 2012 to \$4,839,401 in fiscal 2013. The District's General Fund balance decreased from \$1,255,932 in fiscal year 2012 to \$1,046,628 in fiscal year 2013, a 16.7% decrease.
- The decrease in General Fund revenues was attributable to a decrease in local and state grant revenue in fiscal year 2013. The increase in expenditures was due primarily to an increase in the negotiated salary and benefits.
- The District's solvency ratio decreased from 20.5% in 2012 to 16.4 % in fiscal 2013. The District's solvency level indicates the District is able to meet unforeseen financing requirements and presents a sound risk for the timely repayment of short-term debt obligations.

**USING THIS ANNUAL REPORT**

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of Tripoli Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Tripoli Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Tripoli Community School District acts solely as an agent or custodian for the benefit of those outside of the District.

Notes to financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year, as well as presenting the Schedule of Funding Progress for the Retiree Health Plan.

Supplementary Information provides detailed information about the non-major governmental funds.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

## REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

### *Government-wide Financial Statements*

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net position and how it has changed. Net position – the difference between the District's assets and liabilities – is one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net position are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business type activities:* The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

### *Fund Financial Statements*

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show that it is properly using certain revenues, such as federal grants.

The District has two kinds of funds:

- 1) *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, Special Revenue Funds, Capital Projects Fund and Debt Service Fund.

The required financial statements for governmental funds include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances.

- 2) *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, one type of proprietary fund, are the same as its business type activities, but provide more detail and additional information, such as cash flows. The District currently has two Enterprise Funds, the School Nutrition Fund and Before and After School Fund.

The required financial statements for proprietary funds include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position and a Statement of Cash Flows.

Reconciliation between the government-wide financial statements and the fund financial statements follow the fund financial statements.

## GOVERNMENT-WIDE FINANCIAL ANALYSIS

The District's combined net position increased by nearly 4.1%, or \$290,788, over the prior year. The largest portion of the District's net position is in the "invested in capital assets (e.g., land, infrastructure, buildings and equipment), less the related debt". The debt related to the investment in capital assets is liquidated with sources other than capital assets.

Restricted net position represent resources that are subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net position decreased by \$2,694,111, or 72.4% over the prior year. The decrease was primarily a result of expenditures of the general obligation bonds of \$3,100,000.

Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements – increased by \$57,939, or 5.7%.

Figure A-4 shows the change in net position for the year ended June 30, 2013 compared to the year ended June 30, 2012.

In fiscal year 2013, property tax and unrestricted state grants account for 63.7% of governmental activities revenue while charges for service and operating grants, contributions and restricted interest accounted for 99.8% of business type activities revenue.

The District's total revenues were approximately \$5.9 million, of which approximately \$5.7 million was for governmental activities and less than \$0.2 million was for business type activities.

As shown in Figure A-4, the District as a whole experienced a 1.4% increase in revenues and a 5.3% increase in expenses. Property tax increased approximately \$61,854. The increase in expenses is related to an increase in instruction and support services.

### Governmental Activities

Revenues for governmental activities were \$5,652,441 and expenses were \$5,525,843 for the year ended June 30, 2013. In a difficult budget year, the District used a portion of its carryover fund balance.

The following table presents the total and net cost of the District's major governmental activities, instruction, support services, non-instructional programs and other expenses for the year ended June 30, 2013 compared to the year ended June 30, 2012.

**Figure A-5

For the year ended June 30, 2013:

- The cost financed by users of the District's programs was \$640,292.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$886,438.
- The net cost of governmental activities was financed with \$2,102,937 in property and other taxes and \$2,147,212 in unrestricted state grants.

### **Business Type Activities**

Revenues for business type activities were \$219,115 and expenses were \$244,120. The District's business type activities include the School Nutrition Fund, and Before and After School Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income.

### **INDIVIDUAL FUND ANALYSIS**

As previously noted, Tripoli Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported a combined fund balance of \$7,228,922, above last year's restated ending fund balances of \$7,097,492.

### **Governmental Fund Highlights**

- The District's decreased General Fund financial position is the result of many factors. Decreases during the year in state grants resulted in a decrease in revenues. The District's increase in General Fund expenditures was due to the negotiated salaries and benefits.
- The General Fund balance decreased from \$1,255,932 to \$1,046,628, due in part to the increase in expenditures.
- The Capital Projects Fund balance decreased from \$3,298,554 to \$639,039 due in part to the expenditures of the \$3,100,000 general obligation bonds.

### **Proprietary Fund Highlights**

- School Nutrition Fund Net Position decreased from \$81,287 to \$60,485 at June 30, 2013 due in part to the increased costs of supplies and depreciation.
- Before and After School Fund Net Position decreased from \$16,156 to \$11,953 due to the decrease in receipts.

### **BUDGETARY HIGHLIGHTS**

Over the course of the year, Tripoli Community School District amended its budget one time to reflect additional expenditures for the non-instructional programs and other expenditure functions.

The District's receipts were \$265,022 more than budgeted receipts, a variance of 4.7%.

The District's total expenditures were less than budgeted, due primarily to the District's budget for the General Fund. It is the District's practice to budget expenditures at anticipated expenditures for the General Fund. The District then manages or controls General Fund spending through its line-item budget. As a result, the District's certified budget should always exceed actual expenditures for the year.

## CAPITAL ASSETS AND DEBT ADMINISTRATION

### Capital Assets

At June 30, 2013, the District had invested \$8,961,171, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-6) This represents a net increase of 43.6% from last year. More detailed information about the District's capital assets is presented in Note 5 to the financial statements. Depreciation expense for the year was \$364,581.

The original cost of the District's capital assets was \$14,382,160. Governmental funds account for \$14,309,919, with the remainder of \$72,241 accounted for in the Proprietary, School Nutrition Fund.

The largest change in capital asset activity during the year occurred in the construction in process category.

### Long-Term Debt

At June 30, 2013, the District had \$3,787,699 in other long-term debt outstanding. This represents a decrease of 5.0% from last year. (See Figure A-7) Additional information about the District's long-term debt is presented in Note 6 to the financial statements.

The District continues to carry a general obligation bond rating of Aa3 assigned by national rating agencies to the District's debt. The Constitution of the State of Iowa limits the amount of general obligation debt districts can issue to 5% of the assessed value of all taxable property within the District. The District's outstanding debt is significantly below its constitutional debt limit of approximately \$10.7 million.

**ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE**

At the time these financial statements were prepared and audited, the District was aware of the following existing circumstances that could significantly affect its financial health in the future:

- Enrollment declines are a concern for the School District as total certified enrollment has declined 17 students during the last year. The enrollment decline will mean less state aid in future years.

**CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT**

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Brittany Franzen, District Secretary/Business Manager, Tripoli Community School District, 209 8<sup>th</sup> Avenue SW, Tripoli IA 50676.

Reconciliation of the Statement of Revenues, Expenditures and  
Changes in Fund Balances – Governmental Funds  
To the Statement of Activities

Year Ended June 30, 2013

Net change in fund balances – total governmental funds (page 18) \$ -2,800,229

*Amounts reported for governmental activities in the Statement of Activities are different because:*

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, these costs are not reported in the Statement of Activities and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. Depreciation expense exceeded capital outlay expenditures in the current year, as follows:

Expenditures for capital assets	\$ 3,094,487	
Depreciation expense	<u>-358,561</u>	2,735,926

Income surtax revenue not received until several months after the District’s fiscal year end is not considered available revenue and is deferred in the governmental funds. Is it, however, recorded as revenue in the Statement of Activities. -2,737

Proceeds from the issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increase long-term liabilities in the Statement of Net Position. Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Current year repayments, as follows:

Repaid 197,056

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the governmental funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due. -4,557

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:

Other postemployment benefits	<u>-41,933</u>	5,971

## Tripoli Community School District

### Notes to the Reissued Financial Statements

June 30, 2013

#### (I) Summary of Significant Accounting Policies

Tripoli Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the Cities of Tripoli and Frederika, Iowa and portions of the predominately agricultural territories in Bremer and Chickasaw Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U. S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

##### A. Reporting Entity

For financial reporting purposes, Tripoli Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. Tripoli Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organization – The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the County Assessor's Conference Board.

##### B. Basis of Presentation

Government-wide Financial Statements – The Statement of Net Position (previously referred to as net assets) and the Statement of Activities report information on all of the non-fiduciary activities of the District. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Position presents the District's non-fiduciary assets and liabilities, with the difference reported as net assets. Net position is reported in the following categories:

*Net Investment in capital assets* consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

*Restricted net position* results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

*Unrestricted net position* consists of net position that does not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources imposed by management, which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and (2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements – Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as non-major governmental funds. Combining schedules are also included for the Capital Projects Fund accounts.

The District reports the following major governmental fund:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

The District reports the following major proprietary funds:

The District's proprietary funds are the Enterprise, School Nutrition Fund and Before and After School Fund. These funds are used to account for the food service operations of the District and child care operations of the District.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year-end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications – committed, assigned and then unassigned fund balances.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents – The cash balances of most District funds are pooled and invested. Investments are stated at fair value.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable – Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½ % per month penalty for delinquent payments; is based on January 1, 2011 assessed property valuations; is for the tax accrual period July 1, 2012 through June 30, 2013 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2012.

Due from Other Governments – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories – Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets – Capital assets, which include property, furniture and equipment, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	Amount
Land	\$ 2,000
Buildings	10,000
Improvements other than buildings	10,000
Furniture and equipment:	
School Nutrition Fund equipment	500
Other furniture and equipment	2,000

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives (In Years)
Buildings	50 years
Improvements other than buildings	20 – 50 years
Furniture and equipment	5 – 15 years

Salaries and Benefits Payable – Payroll and related expenditures for support staff corresponding to the current school year, which were paid in July, have been accrued as liabilities.

Deferred Revenue – Although certain revenues are measurable, they are not available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue consists of unspent grant proceeds as well as property tax receivable and other receivables not collected within sixty days after year-end.

Deferred revenue in the Statement of Net Position consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

Long-term Liabilities – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

Fund Equity – In the governmental fund financial statements, fund balances are classified as follows:

Restricted – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts which can be used only for specific purposes determined pursuant to constraints formally imposed by the Board of Education through resolution approved prior to year end. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same action it employed to commit those amounts.

Unassigned – All amounts not included in other spendable classifications.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information.

(2) **Cash and Pooled Investments**

The District's deposits in banks at June 30, 2013 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

(3) **Inter-fund Transfers**

The detail of inter-fund transfers for the year ended June 30, 2013 is as follows:

Transfer to	Transfer from	Amount
Debt Service	Capital Projects – Physical Plant and Equipment Levy	\$ 97,952
Debt Service	Capital Projects – Statewide Sales, Services and Use Tax	198,488
		<u>\$ 296,440</u>

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

(4) **Bank Anticipatory Warrants**

The District has entered into an agreement with American Savings Bank for the issuance of anticipatory warrants of \$300,000 with an interest rate of 3.25%. Activity for the year ended June 30, 2013 is as follows:

	Balance Beginning Of Year	Advances Received	Advances Repaid	Balance End of Year
Total	<u>\$300,000</u>	<u>\$300,000</u>	<u>\$300,000</u>	<u>\$300,000</u>

Cash advanced under these warrants are held in a money management savings account. These funds are only used if the District's regular cash flow is inadequate to meet current needs.

Early Retirement

The District offers a voluntary early retirement plan to its certified employees. Eligible employees must be at least age fifty-five and employees must have completed twenty years of continuous service to the District. Employees must complete an application, which is required to be approved by the Board of Education. Early retirement incentives for eligible employees is composed of:

- 1) The School District shall provide up to five hundred fifty dollars (\$550.00) per month for payment of health insurance premiums of the retired teacher for ninety (90) months. However, the monthly payment shall not exceed, in any event, the actual cost of the monthly health insurance premiums of the retired teacher, and shall end at 90 months or with medicare eligibility whichever comes first.

Early retirement benefits paid during the year ended June 30, 2013 totaled \$47,904. The cost of early retirement payments expected to be liquidated currently are recorded as a liability of the Special Revenue, Management Levy Fund. A liability has been recorded in the Governmental Activities Long-Term Liabilities section representing the District's commitment to fund non-current early retirement.

General Obligation Bonds

Details of the District's June 30, 2013 general obligation bonded indebtedness are as follows:

Note Payable – Science Room Addition

On June 19, 2007, the District signed a note payable to American Savings Bank of Tripoli IA for the construction of a science room addition. The note was written for \$900,000. The interest rate on the note is 4.5%. Semi-annual payments will be \$67,634.88 to be paid on December 1 and June 1 of each year, with the note maturing December 1, 2015.

Details of the District’s June 30, 2013 note payable – science room addition are as follows:

<u>Year ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2014	\$ 125,112	\$ 10,157	\$ 135,269
2015	126,750	4,216	130,966
Total	<u>\$ 251,862</u>	<u>\$ 14,373</u>	<u>\$ 266,235</u>

Note Payable – Preschool

On May 1 2008, the District signed a note payable to American Savings Bank of Tripoli IA for the construction of a preschool room addition. The note was written for \$800,000. The interest rate on the note is 4.5%. Semi-annual payments will be \$50,460.25 to be paid on December 1 and June 1 of each year, with the note maturing June 1, 2018.

Details of the Districts June 30, 2013 note payable – preschool are as follows:

<u>Year ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2014	\$ 80,219	\$ 17,733	\$ 97,952
2015	83,664	14,288	97,952

Total	<u>\$ 435,837</u>	<u>\$ 53,939</u>	<u>\$ 489,776</u>

During the year ended June 30, 2013, the District made principal and interest payments totaling \$207,240 under the agreements.

**(7) Pension and Retirement Benefits**

The District contributes to the Iowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits, which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P. O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 5.78% of their annual covered salary and the District is required to contribute 8.67% of annual covered payroll for the years ended June 30, 2013, 2012 and 2011. Contribution requirements are established by state statute. The District’s contributions to IPERS for the years ended June 30, 2013, 2012 and 2011 were \$251,228, \$223,256 and \$168,630, respectively, equal to the required contributions for each year.

**(8) Other Postemployment Benefits (OPEB)**

Plan description – The District operates a single-employer retiree benefit plan which provides medical and prescription drug benefits for retirees and their spouses. There are 34 active and 9 retired members in the plan. Participants must be age 55 or older at retirement.

The medical/prescription drug benefits are provided through a fully-insured plan with Wellmark. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit rate subsidy and an OPEB liability.

**Funding Policy** – The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

**Annual OPEB Cost and Net OPEB Obligation** – The District’s annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No 45. The ARC represents a level of funding which, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District’s annual OPEB cost for the year ended June 30, 2013, the amount actually contributed to the plan and changes in the District’s net OPEB obligations:

Annual required contribution	\$ 84,762
Interest on net OPEB obligation	-2,532
Adjustment to annual required contribution	19,573
Annual OPEB cost	<u>\$ 101,803</u>
Contributions made	59,870
Increase in net OPEB obligation	\$ 41,933
Net OPEB obligation beginning of year	<u>-101,280 *</u>
Net OPEB obligation end of year	<u>\$ -59,347 *</u>

\*Prepaid OPEB liability

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2012. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2013.

For the year ended June 30, 2013, the District contributed \$297,334 to the medical plan. Plan members eligible for benefits contributed \$26,839, or 8.3% of the premium costs.

The District’s annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2013 are summarized as follows:

Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2010	\$27,919	201.7%	-\$28,406
June 30, 2011	\$27,333	217.4%	-\$62,304
June 30, 2012	\$25,591	395.8%	-\$101,280
June 30, 2013	\$84,762	70.6%	-\$59,347

**Funded Status and Funding Progress** – As of July 1, 2012, the most recent actuarial valuation date for the period July 1, 2012 through June 30, 2013, the actuarial accrued liability was \$314,211, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$314,211. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$1,806,672 and the ratio of the UAAL to covered payroll was 17.4%. As of June 30, 2013, there were no trust fund assets.

**Actuarial Methods and Assumptions** – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as Required Supplementary Information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2012 actuarial valuation date, the unit credit actuarial cost method was used. The actuarial assumptions include a 2.5% discount rate based on the District's funding policy. The projected annual medical trend rate is 6%. The ultimate medical trend rate is 6%.

Mortality rates are from the RP2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the retirement probabilities from the IPERS Actuarial Report as of June 30, 2011 and applying the termination factors used in the IPERS Actuarial Report as of June 30, 2011.

Projected claim costs of the medical plan are \$428.32 per month for retirees less than age 65. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

**(9) Risk Management**

The District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

**(10) Area Education Agency**

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$183,964 for the year ended June 30, 2013 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

**(11) Construction Commitments**

The District has committed to an athletic addition and remodeling projects totaling \$3,315,403. At June 30, 2013, \$2,801,521 of which was in construction in process, with the balance of \$513,882 to be paid as work on the project progresses.

**(12) Categorical Funding**

The District's reserved fund balance for categorical funding at June 30, 2013 is comprised of the following programs:

Program	Amount
Gifted and Talented Programs	\$ 45,564
Dropout Prevention	40,026
Core Curriculum	8,996
Professional Development	793
Teacher Quality	85,566
Preschool	70,934
Total	\$ 251,879

**(13) Subsequent Events**

The District has evaluated subsequent events through February 27, 2014 which is the date that the financial statement were available to be issued.

**(14) Restatement of Net Position**

The levy for the District's income surtaxes applicable to and collected during the year ended June 30, 2012 were levied and certified during the year ended June 30, 2011. Under the modified accrual basis of accounting as described in Note 1 to the financial statements, because those taxes were not collected within sixty days after year end for application to current obligations, those taxes were properly deferred in the fund financial statements. However, those taxes related directly to the fiscal year ended June 30, 2012 and should have been recognized as revenue in the District-wide financial statements which are prepared on the full accrual basis of accounting, as described in Note 1 to the financial statements.

The District has corrected this item for the year ended June 30, 2013 and the effects of this correction on the related financial statement item are as follows:

	Net Position, Governmental Activities

**Notes to Required Supplementary Information – Budgetary Reporting**

**Year Ended June 30, 2013**

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on a GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not by fund. The Code of Iowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District adopted one budget amendment, increasing budgeted expenditures by \$2,943,150.

Independent Auditor's Report on Internal Control over Financial Reporting  
and on Compliance and Other Matters  
Based on an Audit of Financial Statements Performed in  
Accordance with Government Auditing Standards

To the Board of Education of  
Tripoli Community School District:

I have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Tripoli Community School District as of and for the year ended June 30, 2013, and the related notes to financial statements which collectively comprise the District's basic financial statements, and have issued my report thereon dated February 27, 2014.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered the Tripoli Community School District's internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing my opinion on the effectiveness of Tripoli Community School District's internal control. Accordingly, I do not express an opinion on the effectiveness of Tripoli Community School District's internal control.

My consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings, I identified certain deficiencies in internal control I consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. I consider the deficiency described in Part I of the accompanying Schedule of Findings as item I-A-13 to be a material weakness.

A significant deficiency is a deficiency or combination of deficiencies in internal control which is less severe than a material weakness, yet important enough to merit attention by those charged with governance. I consider the deficiency described in Part I of the accompanying Schedule of Findings as item I-B-13 to be a significant deficiency.

### Compliance and Other Matters

As part of obtaining reasonable assurance about whether Tripoli Community School District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, I noted certain immaterial instances of noncompliance or other matters that are described in Part II of the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2013 are based exclusively on knowledge obtained from procedures performed during my audit of the financial statements of the District. Since my audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

### Tripoli Community School District's Responses to Findings

Tripoli Community School District's responses to findings identified in my audit are described in the accompanying Schedule of Findings. Tripoli Community School District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, I express no opinion on them.

### Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

I would like to acknowledge the many courtesies and assistance extended to me by personnel of Tripoli Community School District during the course of my audit. Should you have any questions concerning any of the above matters, I shall be pleased to discuss them with you at your convenience.

**Tripoli Community School District**

**Schedule of Findings**

**Year Ended June 30, 2013**

**Part I – Findings Related to the Financial Statements:**

**INSTANCES OF NON-COMPLIANCE:**

No matters were reported.

**INTERNAL CONTROL DEFICIENCIES:**

- I-A-13 Segregation of Duties – One important aspect of internal control is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible. I noted that one person has control over each of the following areas for both the General and Activity Funds: cash receipts – collecting, depositing, journalizing, posting and reconciling.

Recommendation – With the limited number of personnel involved in accounting for District activity, an ideal system of segregation of accounting duties and functions cannot be achieved to assure adequate internal control over the safeguarding of assets and the reliability of financial records and reporting. This is not unusual in an organization of your size. Under these circumstances, the most effective controls lie in (1) the administration's and the Board's knowledge of the District's financial operations and (2) striving to obtain as much segregation of duties as possible so that no one person has complete control of any type of financial transactions. I believe these controls are being effectively utilized in the District and recommend that diligent efforts be made to maintain their effectiveness.

Response – With the number of staff available to this size of District, we will have to continue operating as in the past. We will, however, continue to monitor and keep the Board aware of the District's financial operations.

Conclusion – Response accepted.

- I-B-13 Annual Financial Statements – The ability to apply generally accepted accounting principles to the financial statements and determine the sufficiency of the footnote disclosure is a necessary aspect of internal control over the District's financial reporting process. The District does not possess an individual with the appropriate expertise to apply generally accepted accounting principles to the financial statements and to draft and determine the sufficiency of the necessary disclosures. The District has a limited number of employees and it is not cost beneficial to employ an individual with this type of expertise and knowledge. The internal financial statements prepared by the District are not prepared in accordance with generally accepted accounting principles and do not contain the required footnote disclosures.

Recommendation – This is common control deficiency of most small Districts and is often not corrected due to cost benefit considerations. I could assist you in gaining the necessary knowledge and skills if you determine that this is a control deficiency that the District would like to address.

Response – We will consult with you as needed on financial statement considerations.

Conclusions – Response accepted.

**Schedule of Findings**

**Year Ended June 30, 2013**

**Part II - Other Findings Related to Statutory Reporting:**

II-A-13 Certified Budget – Expenditures for the year ended June 30, 2013 did not exceed the certified budget amounts.

II-B-13 Questionable Expenditures – No expenditures that may not meet the requirements of public purpose as defined in an Attorney General’s opinion dated April 25, 1979 were noted.

II-C-13 Travel Expense – No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

II-D-13 Business Transactions – Business transactions between the District and District officials or employees are as follows:

<u>Name, Title &amp; Business Connection</u>	<u>Transaction Description</u>	<u>Amount</u>
Tripoli Plumbing and Heating, Owner – Spouse of Employee	Services	<u>\$224</u>

In accordance with an Attorney General’s opinion dated November 9, 1976, the above transaction does not appear to represent a conflict of interest.

II-E-13 Bond Coverage – Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure the coverage is adequate for current operations.

II-F-13 Board Minutes – No transactions requiring Board approval, which had not been approved by the Board, were noted. Not all minutes were published as required by Chapter 279.35 of the Code of Iowa.

Recommendation – The Board Secretary should furnish a copy of the Board proceedings with all disbursements to be published within two weeks of each meeting.

Response – All minutes will be published as required.

Conclusion – Response accepted.

II-G-13 Certified Enrollment – No variances in the basic enrollment data certified to the Iowa Department of Education.

II-H-13 Supplementary Weighting – No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.

II-I-13 Deposits and Investments – No instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District’s investment policy were noted.

II-J-13 Certified Annual Report – The Certified Annual Report was filed with the Iowa Department of Education timely.

II-K-13 Categorical Funding – No instances were noted of categorical funding being used to supplant rather than supplement other funds.

**Tripoli Community School District**

**Schedule of Findings**

**Year Ended June 30, 2013**

**Part II - Other Findings Related to Statutory Reporting (continued):**

II-L-13 Statewide Sales, Services and Use Tax – No instances of non-compliance with the use of the statewide sales, services and use tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2013, the District reported the following information regarding the statewide sales, services and use tax revenue in the District's CAR:

Beginning balance	\$	261,745
Revenues/transfers in:		
Sales tax revenues	\$	321,080
Other local revenues		5,433
School infrastructure supplemental amount		67,740
		394,253
	\$	655,998
Expenditures/transfers out:		
School infrastructure construction		
Transfers to other funds:	\$	4,580
Debt service fund		198,488
		203,068
Ending balance	\$	452,930

For the year ended June 30, 2013, the District reduced the following levies as a result of the moneys received under Chapter 423E or 423F of the Code of Iowa:

	Per \$1,000 of Taxable Valuation	Property Tax Dollars
Debt service levy	\$ 0.06075	\$ 388,821
Physical plant and equipment levy	1.25702	158,847
Public educational and recreational levy	-	-

II-K-13 Electronic Check Retention – Chapter 554D.114 of the Code of Iowa allows the District to retain cancelled checks in an electronic format and requires retention in this manner to include an image of both the front and back of each cancelled check. The District retains cancelled checks through electronic image, but does not obtain an image of the back of each cancelled check as required.

Recommendation – The District should obtain and retain an image of both the front and back of each cancelled check as required.

Response – The District will obtain and retain images of both the front and back of cancelled checks as required. The District can go on line at any time and see/print the back side of any check.

Conclusion – Response accepted.
