INDEPENDENT AUDITOR'S REPORT

To the Board of Education of the Exira Community School District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Exira Community School District, Exira, Iowa as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Exira Community School District as of June 30, 2014 and the respective changes in financial position and, when applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require Management's Discussion and Analysis, the Budgetary Comparison Information and the Schedule of Funding Progress for Retiree Health Plan on pages 7 through 16 and 42 through 44 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Exira Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the nine years ended June 30, 2013 (which are not presented herein) and expressed unmodified opinions on those financial statements. The supplementary information included in Schedules 1 through 8, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 6, 2015 on our consideration so Exira Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting, compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Exira Community School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Exira Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2014. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2014 FINANCIAL HIGHLIGHTS

- General Fund revenues increased from \$3,355,476 during fiscal year 2013 to \$3,366,084 during fiscal year 2014, while General Fund expenditures increased from \$2,811,803 in fiscal year 2013 to \$2,883,227, in fiscal year 2014. This resulted in an increase in the District's General Fund balance from \$727,402 at June 30, 2013 to \$1,210,259 at June 30, 2014, a 66.38% increase from the prior year.
- The increase in General Fund revenues was attributable primarily to the increase in tuition source revenues in fiscal year 2014. The increase in expenditures was attributable to the increase in salaries and benefits paid to District employees due to sharing agreements with Elk Horn-Kimballton Community School District.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The government-wide financial statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of Exira Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Exira Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Exira Community School District acts solely as an agent or custodian for the benefit of those outside of the School District.

Notes to the Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year, as well as presenting the Schedule of Funding Progress for the Retiree Health Plan.

Supplementary Information provides detailed information about the nonmajor governmental funds.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

REPORTING THE DISTRICT’S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District’s assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference reported as net position. All of the current year’s revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net position and how it has changed. Net position is one way to measure the District's financial health or position. Over time, increases or decreases in the District's net position is an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- **Governmental activities:** Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- **Business type activities:** The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds or to show that it is properly using certain revenues such as federal grants.

The District has three kinds of funds:

- 1) *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, Special Revenue Funds, Debt Service Fund, and Capital Projects Fund.

The required financial statements for the governmental funds include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances.

- 2) *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's enterprise funds, one type of proprietary fund, are the same as its business type activities, but provide more detail and additional information, such as cash flows. The District currently has one enterprise fund, the School Nutrition Fund.

The required financial statements for the proprietary funds include a Statement of Net Position, Statement of Revenues, Expenses and Changes in Fund Net Position and a Statement of Cash Flows.

- 3) *Fiduciary funds:* The District is the trustee, or fiduciary, for assets that belong to others. These funds include the Private-Purpose Trust Fund.

Private-Purpose Trust Fund – The District accounts for outside donations for scholarships for individual students in this fund.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds include a Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position.

Reconciliations between the government-wide financial statements and the governmental fund financial statements follow the governmental fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Figure A-3 below provides a summary of the District’s net position at June 30, 2014 compared to June 30, 2013.

The District’s combined net position increased by 13.44, or \$321,299, from the prior year. A large portion of the District’s net position is the invested in capital assets (e.g., land, infrastructure, buildings, and equipment), less the related debt. The debt related to the investment in capital assets is liquidated with sources other than capital assets.

Restricted net position represents resources that are subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District’s restricted net position decreased by \$65,518, or 6.28% from the prior year. This decrease was primarily due to the decrease in fund balance in the Capital Projects accounts.

Unrestricted net position are the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements increased by \$500,106, or 86.10%. This increase was primarily due to the increase in the fund balance of the General Fund.

Figure A-4 shows the changes in net position for the years ended June 30, 2014 compared to the year ended June 30, 2013.

Property tax, income surtax, statewide sales, services and use tax and unrestricted state grants account for 76.02% of the revenue from governmental activities while charges for service and operating grants, contributions and restricted interest account for 98.94% of the revenue from business type activities.

The District's total revenues were \$3,932,878 for the year ended June 30, 2014. \$3,831,376 was for governmental activities and \$101,502 was for business type activities.

As shown in Figure A-4, the District as a whole experienced a 1.55% increase in revenues and an 11.85% increase in expenses. The increase in revenues was due to increases in charges for service and state source revenues, the District received during fiscal year 2014. The increase in expenses is related to increases salaries and benefits paid to District employees due to a sharing agreement with Elk Horn-Kimballton Community School District.

Governmental Activities

Revenues for governmental activities were \$3,831,376 and expenses were \$3,523,870 for the year ended June 30, 2014.

The following table presents the total and net cost of the District's major governmental activities: instruction, support services and other expenses, for the year ended June 30, 2014 compared to the year ended June 30, 2013.

	Total Cost of Services			Net Cost of Services		
	2014	2013	Change 2013-14	2014	2013	Change 2013-14

Totals	\$ 3,523,870	3,136,727	12.34%	2,660,752	2,356,483	12.91%

For the year ended June 30, 2014:

- The costs financed by users of the District's programs were \$618,659.
- Federal and state governments along with contributions from local sources subsidized certain programs with grants and contributions totaling \$244,459.
- The net cost of governmental activities was financed with \$1,513,698 in property tax, \$137,362 in income surtax, \$196,078 in statewide sales, services and use tax, \$1,065,465 in unrestricted state grants, \$2,350 in unrestricted investment income and \$53,305 in other general revenues.

Business type Activities

Revenues of the District's business type activities for the year ended June 30, 2014, were \$101,502 and expenses were \$87,709. The District's business type activities include the School Nutrition Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements, investment income and other general revenues.

INDIVIDUAL FUND ANALYSIS

As previously noted, the Exira Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported combined fund balance of \$2,070,769, above last year's ending fund balance of \$1,667,103. The primary reason for the increase in combined fund balance in fiscal year 2014 is due to the increase in the fund balance of the General Fund.

Governmental Fund Highlights

- The District's General Fund balance increased from \$727,402 at June 30, 2013 to \$1,210,259 at June 30, 2014. The District's General Fund financial position is the product of many factors. Increased revenues from tuition and state sources during the year outpaced increases in instruction and support service expenditures which resulted in the District's General Fund balance increasing by \$482,857.
- The Capital Projects Fund balance decreased from a balance of \$651,599 at June 30, 2013 to \$549,004 at June 30, 2014. This was partially a result of the increases in capital outlay expenditures during the year due to the demolition of the old Exira Elementary.

Proprietary Fund Highlights

- The Proprietary Fund net position increased from \$44,173 at June 30, 2013 to \$71,255 at June 30, 2014, representing an increase of 61.31%. The primary reason for this increase in fund balance is an increase in capital contributions received from the Capital Projects: Statewide Sales, Services and Use Tax which purchased a portion of the new walk-in freezer.

BUDGETARY HIGHLIGHTS

The District's revenues were \$52,794 more than budgeted revenues, a variance of 1.36%. The most significant variance resulted from the District receiving more in state source revenues than originally anticipated.

Total expenditures were less than budgeted, due primarily to the District's budget for the General Fund. It is the District's practice to budget expenditures at the maximum authorized spending authority for the General Fund. The District then manages or controls General Fund spending through its line-item budget. As a result, the District's certified budget should always exceed actual expenditures for the year.

In spite of the District's budgetary practice, the certified budget was exceeded in the non-instructional programs and other expenditures functional areas.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2014, the District had invested \$1,953,587, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-6) This amount represents a net decrease of 4.96% from last year. Additional detailed information about capital assets is available in Note 4 to the financial statements. Depreciation expense for the year was \$263,709.

The original cost of the District's capital assets was \$3,788,830. Governmental funds account for \$3,721,217 with the remainder of \$67,613 in the Proprietary, School Nutrition Fund.

The largest percentage change in capital asset activity during the year occurred in the machinery and equipment category. The District's machinery and equipment totaled \$83,573 at June 30, 2013, compared to \$177,820, reported at June 30, 2014. This increase was primarily due to a new bus and suburban purchased during the year which was capitalized as part of the District's capital asset listing.

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- On March 13, 2013, the Exira and Elk Horn-Kimballton Community School Districts held a public hearing regarding consolidation of the two districts. On June 25, 2013, residents voted and passed a resolution to merge the two school districts. The Exira and Elk Horn-Kimballton Community School Districts will be officially consolidated as of July 1, 2014 forming Exira-Elk Horn-Kimballton Community School District.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Marie Larson, District Business Manager/Board Secretary, Exira-Elk Horn-Kimballton Community School District, 4114 Madison St, Elk Horn, IA 51531.

 CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 YEAR ENDED JUNE 30, 2014

Change in fund balances - total governmental funds (page 22) \$ 403,666

*Amounts reported for governmental activities in the
 Statement of Activities are different because:*

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are not reported in the Statement of Activities and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. The amounts of capital outlay, depreciation expense and loss on disposal in the year are as follows:

Capital outlay	\$ 146,631	
Depreciation expense	(260,421)	
Loss on disposal	<u>(3,904)</u>	(117,694)

Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Current year repayments exceeded issuances as follows:

Issued	(83,886)	
Repaid	<u>129,385</u>	45,499

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due.

3,752

Income surtax account receivable is not available to finance expenditures of the current year period and is not considered available revenues and is recognized as deferred inflows of resources in the governmental funds.

(2,138)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Termination benefits	5,880

EXIRA COMMUNITY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

(1) Summary of Significant Accounting Policies

The Exira Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve and special education pre-kindergarten. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the city of Exira, Iowa, and the predominate agricultural territory in Guthrie, Audubon and Cass Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Exira Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the District. The Exira Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations - The District participates in a jointly governed organization that provides services to the District but do not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Guthrie, Audubon and Cass Counties Assessors' Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Position and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for support.

The Statement of Net Position presents the District's nonfiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Net position is reported in three categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation. Enabling legislation did not result in any restricted net position.

Unrestricted net position consists of net position not meeting the definition of the two preceding categories. Unrestricted net position is often subject to constraints imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest that are restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other nonmajor governmental funds. Combining schedules are also included for the Capital Project Fund accounts.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenses, including instructional, support and other costs.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities.

The District reports the following non-major proprietary fund:

The Enterprise, School Nutrition Fund is used to account for the food service operations of the District.

The District also reports a fiduciary fund which focus on net position and changes in net position. The District's fiduciary fund is the Private Purpose Trust Fund.

The Private Purpose Trust Fund is used to account for assets held by the District under trust agreements which require income earned to be used to benefit individuals through scholarship awards.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

When an expenditure is incurred in the governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications - restricted and then unassigned fund balances.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities, Deferred Inflows of Resources and Fund Balances

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investments in non-negotiable certificates of deposit which are stated at cost.

For purposes of the Statement of Cash Flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, they have a maturity date no longer than three months.

Property Tax Receivable - Property tax in the governmental funds are accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2012 assessed property valuations; is for the tax accrual period July 1, 2013 through June 30, 2014 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2013.

Due from Other Governments - Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets - Capital assets, which include property, machinery and equipment and intangibles are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	Amount
Land	\$ 1,500
Buildings	1,500
Land improvements	1,500
Intangibles	25,000
Machinery and equipment:	
School Nutrition Fund equipment	500
Other machinery and equipment	1,500

Capital assets are depreciated using the straight line method of depreciation over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Buildings	50 years
Land improvements	20 years
Intangibles	2 or more years
Machinery and equipment	5-12 years

Advances from grantors - Grant proceeds which have been received by the District but will be spent in a succeeding fiscal year.

Unearned Revenue - Unearned revenues are monies collected for lunches that have not yet been served. The lunch account balances will either be reimbursed or served lunches. The lunch account balances are reflected on the Statement of Net Position in the Proprietary, School Nutrition Fund.

Long-term Liabilities - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

Deferred Inflows of Resources - Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources consist of receivables not collected within sixty days after year end.

Deferred revenue on the Statement of Net Position consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

Fund Balances - In the governmental fund financial statements, fund balances are classified as follows:

Restricted - Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Unassigned - All amounts not included in other spendable classifications.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2014, expenditures in the non-instructional programs and other expenditures functional areas exceeded amounts budgeted.

(2) **Cash and Pooled Investments**

The District's deposits at June 30, 2014 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district. At June 30, 2014 the District had no investments.

(3) **Interfund Transfers**

The detail of interfund transfers for the year ended June 30, 2014, is as follows:

Total			\$ 1,230,000	450,459	1,680,459

The District has pledged future statewide sales, services and use tax revenues to repay \$1,450,000 of bonds dated September 30, 2009. The bonds were issued for the purpose of school infrastructure. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District and are payable through 2030. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds are expected to require nearly 60 percent of the statewide sales, services and use tax revenues. The total principal and interest remaining to be paid on the bonds is \$1,680,459. For the current year, \$60,000 in principal and \$50,084 in interest was paid on the bonds and total statewide sales, services and use tax revenues were \$196,078.

The resolution providing for the issuance of the statewide sales and services tax revenue bonds includes the following provisions:

- a) \$119,109 of the proceeds from the issuance of the revenue bonds shall be deposited to a reserve account to be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available in the sinking account. The balance of the proceeds shall be deposited to the project account.

- b) All proceeds from the statewide sales and services tax shall be placed in a revenue account.
- c) Monies in the revenue account shall be disbursed to make deposits into a sinking account to pay the principal and interest requirements of the revenue bonds for the fiscal year.
- d) Any monies remaining in the revenue account after the required transfer to the sinking account may be transferred to the project account to be used for any lawful purpose.

Bus Lease

Details of the District’s December 20, 2013 bus lease indebtedness payable from the Capital Projects: Statewide Sales, Services and Use Tax Fund is as follows:

Year Ending June 30,	Bus lease dated December 20, 2013				
	Interest Rates		Principal	Interest	Total

Total			\$ 71,401	4,340	75,741

Termination Benefits

The District did not offer a voluntary early retirement plan to its employees during fiscal year 2014. However, the District offered a voluntary early retirement plan in fiscal years 2011 and 2012 to its certified employees. Eligible employees must have been at least age fifty-five and must have completed fifteen years of continuous service to the District at time of retirement. Employees must have complete an application which was approved by the Board of Education.

The early retirement benefit paid to these retirees was \$115 per unused sick day, not to exceed a total benefit of \$12,000. Early retirement benefits were paid out in two equal installments beginning in December of the fiscal year following retirement. The second installment was paid in December thereafter.

At June 30, 2014 the District had no outstanding obligations to early retirees. Actual early retirement expenditures for the year ended June 30, 2014 were \$5,880.

(6) Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 5.95% of their annual covered salary and the District is required to contribute 8.93% of annual covered salary. Contribution requirements are established by State statute. The District’s contribution to IPERS for the years ended June 30, 2014, 2013 and 2012 were \$109,738, \$94,268 and \$97,773 respectively, equal to the required contributions for each year.

(7) Risk Management

The Exira Community School District is a member in the Iowa School Employees Benefits Association, fully insured pool covered by Wellmark Blue Cross Blue Shield of Iowa. ISEBA is a local government risk-sharing pool whose members include various schools throughout the State of Iowa. The Association was formed July 1999 for the purpose of managing and funding employee benefits. The Association provides coverage and protection in the following categories: health, dental, vision, prescription drugs and long-term disability.

The District's contributions to the risk pool are recorded as expenditures from its General Fund at the time of payment to the risk pool. District contributions to ISEBA for the year ended June 30, 2013 was \$242,127.

Members agree to continue membership in the pool for a period of not less than one full year. After such period, a member who has given 30 days prior written notice may withdraw.

Exira Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(8) Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$95,158 for the year ended June 30, 2014 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

(9) Other Postemployment Benefits (OPEB)

Plan Description - The District operates a single-employer health benefit plan which provides medical and prescription drug benefits for employees, retirees and their spouses. There are 35 active and 2 retired members in the plan. Participants must be age 55 or older at retirement.

The medical/prescription drug coverage is provided through Wellmark. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

Funding Policy - The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation - The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2014, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

Annual required contribution	\$	72,000
Interest on net OPEB obligation		4,590
Adjustment to annual required contribution		(3,842)
Annual OPEB cost		72,748
Contributions made		(28,000)
Increase in net OPEB obligation		44,748
Net OPEB obligation beginning of year		102,000
Net OPEB obligation end of year	\$	146,748

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2009. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2014.

For the year ended June 30, 2014, the District contributed \$28,000 to the medical plan. Plan members receiving benefits contributed \$29,000 or 50.9% of the premium costs.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation are summarized as follows:

Year Ended June 30,	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2012	\$ 27,364	65.8%	\$ 48,550
2013	72,450	26.2%	102,000
2014	72,748	38.5%	146,748

Funded Status and Funding Progress - As of July 1, 2012, the most recent actuarial valuation date for the period July 1, 2013 through June 30, 2014, the actuarial accrued liability was \$292,000, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$292,000. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$988,248, and the ratio of the UAAL to covered payroll was 29.5%. As of June 30, 2014, there were no trust fund assets.

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress for the Retiree Health Plan, presented as Required Supplementary Information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2012 actuarial valuation date, the alternative measurement actuarial cost method was used. The actuarial assumptions include a 4.5% discount rate based on the District's funding policy. The projected annual medical trend rate is 10.0%. The ultimate medical trend rate is 5%. The medical trend rate is reduced by .5% each year until reaching the 5% ultimate trend rate.

Mortality rates are from the RP2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the retirement probabilities from the IPERS Actuarial Report as of June 30, 2011 and applying the termination factors used in the IPERS Actuarial Report as of June 30, 2011.

Projected claim costs of the medical plan are for the \$535 per month for retirees who have attained age 60. The salary increase rate was assumed to be 3.5% per year. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

(10) Categorical Funding

The District’s restricted fund balance for categorical funding at June 30, 2013 is comprised of the following programs:

Program	Amount
Home school assistance program	\$ 58,531
At-risk supplemental weighting programs	1,491
Returning dropouts and dropout prevention programs	19,904
Teachers salary supplement	10,926
Beginning administrator mentoring and induction	1,500
Successful progression for early readers	11,360
Professional development for the model core curriculum	14,146
Professional development	18,569
Teacher leadership grants	5,825
Total	\$ 142,252

(11) Reconciliation of Governmental Fund Balances to Net Position

Reconciliation of certain governmental fund balances to net position is as follows:

	Net investment in Capital Assets	Debt Service	Unassigned/ Unrestricted
Fund balance (Exhibit C)	\$ -	215,068	1,068,007
Capital assets, net of accumulated depreciation	1,927,530	-	-

Net OPEB liability	-	-	(146,748)
Net position (Exhibit A)	\$ 626,129	190,616	1,035,762

(12) Budget Overexpenditure

Per the Code of Iowa, disbursements may not legally exceed the certified budget amounts. During the year ended June 30, 2014, the expenditures in the non-instructional programs and the other expenditures functional areas exceeded the amounts certified.

(13) Deficit Accounts/Unassigned Fund Balance

The Student Activity Fund had one deficit account in with an unassigned fund balance of \$56 at June 30, 2014.

(14) Prospective Accounting Change

The Governmental Accounting Standards Board has issued Statement No. 68, Accounting and Financial Reporting for Pensions – an Amendment of GASB No. 27. This statement will be implemented for the fiscal year ending June 30, 2015. The revised requirements establish new financial reporting requirements for state and local governments which provide their employees with pension benefits, including additional note disclosures and required supplementary information. In addition, the Statement of Net Position is expected to include a significant liability for the government's proportionate share of the employee pension plan.

(15) District Consolidation

On March 13, 2013, the Exira and Elk Horn-Kimballton Community School Districts held a public hearing regarding consolidation of the two districts. On June 25, 2013, residents voted and passed a resolution to merge the two District's. The Exira and Elk Horn-Kimballton Community School Districts will be officially consolidated as of July 1, 2014 forming Exira-Elk Horn-Kimballton Community School District.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION - BUDGETARY REPORTING
YEAR ENDED JUNE 30, 2014

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparison for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds, except Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on a GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functional areas, not by fund or fund type. These four functional areas are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents functional area expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not at the fund or fund type level. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula.

During the year ended June 30, 2014, the expenditures in the non-instruction programs and other expenditures functional areas exceeded the certified budget.

**Independent Auditor's Report on Internal Control
over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards**

To the Board of Education of the Exira Community School District:

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Exira Community School District as of and for the year ended June 30, 2014, and the related notes to financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated March 6, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Exira Community School District's internal control over financial reporting to determine the auditing procedures appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Exira Community School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Exira Community School District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, there can be no assurance all deficiencies, significant material weaknesses or deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings, we identified a certain deficiencies in internal control we consider to be a material weakness and a significant deficiency.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiency in internal control described in Part I of the accompanying Schedule of Findings as item I-A-14 to be a material weakness.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control which is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in Part I of the accompanying Schedule of Findings as item I-B-14 to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Exira Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on

the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part II of the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2014 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Exira Community School District's Responses to Findings

Exira Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings. Exira Community School District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion of the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Exira Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

EXIRA COMMUNITY SCHOOL DISTRICT
SCHEDULE OF FINDINGS
YEAR ENDED JUNE 30, 2014

Part I: Findings Related to the Financial Statements:

INSTANCES OF NON-COMPLIANCE:

No matters were noted.

INTERNAL CONTROL DEFICIENCIES:

I-A-14 Segregation of Duties - One important aspect of the internal control structure is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible. One individual has control over each of the following areas for the District:

- 1) *Cash* - bank reconciliations, cash receipts and the disbursement function, handles petty cash, replenishing petty cash and custody.
- 2) *Investments* - investing, detailed recordkeeping, custody of investments and reconciling earnings.
- 3) *Inventories* - purchasing, handling, counting and maintaining inventory records.
- 4) *Capital Assets* - purchasing, recording and reconciling.
- 5) *Long-term debt* - maintaining long-term debt records and control of the cash function, payments and reconciliations.
- 6) *Receipts* - recording, depositing, posting and reconciling.
- 7) *Disbursements* - voucher preparation, purchasing, recording and reconciliations.
- 8) *Payroll* - approval of and recording employees added or deleted from the payroll system, approval and recording sick and vacation leave, approval of and payment of payroll taxes, write checks, sign checks and post payroll to the general ledger.
- 9) *Financial reporting* - preparing, reconciling and approving.
- 10) *Computer systems* - performing all general accounting functions and controlling all data input and output.
- 11) *Journal entries* - approval and posting.

Recommendation - We realize that with a limited number of office employees, segregation of duties is difficult. However the District should review its control procedures to obtain the maximum internal control possible under the circumstances.

Response - The District will review the control procedures and obtain the maximum internal controls possible with our limited number of employees.

Conclusion - Response accepted.

I-B-14 Title I Reporting - We noted during our audit that Title I reports submitted to the Iowa Department of Education were not reconciled to actual expenses reported in the District's general ledger.

Recommendation - The District needs to reconcile Title I reports submitted to the Iowa Department of Education to actual expenses reported in the District's general ledger. Once this reconciliation is completed, the District should amend the Title I budget to match revenues to actual general ledger expenditures.

Response - The District will follow the recommendation to notify the Title I office to reconcile and amend the budget and will be sure to comply with the requirements in the future.

Conclusion - Response accepted.

Part II: Other Findings Related to Required Statutory Reporting:

II-A-14 Certified Budget - District expenditures for the year ended June 30, 2014, exceeded the certified budgeted amounts in the non-instructional programs and other expenditures functional areas.

Recommendation - The certified budget should have been amended in accordance with Chapter 24.9 of the Code of Iowa before expenditures were allowed to exceed the budget.

Response - The District will keep a closer watch on expenditures throughout the year and especially towards the budget adjustment time to be able to make the needed changes in a timely manner.

Conclusion - Response accepted.

II-B-14 Questionable Disbursements - We noted no expenditures that may not meet the requirements for public purpose as defined in an Attorney General's opinion dated April 25, 1979.

II-C-14 Travel Expense - No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

II-D-14 Business Transactions - Business transactions between the District and District officials are detailed as follows:

Name, Title and Business Connection	Transaction Description	Amount
Tom Benton, Board President Assistant Football Coach	Purchased Services	\$2,120

In accordance with Chapter 279.7A of the Code of Iowa, the transactions with the Board President does not appear to represent a conflict of interest.

II-E-14 Bond Coverage - Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.

II-F-14 Board Minutes - We noted no transactions requiring Board approval which have not been approved by the Board.

- II-G-14 Certified Enrollment - We noted no variances in the basic enrollment data certified to the Department of Education.
- II-H-14 Supplementary Weighting - No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.
