December 31, 2014

President Krysl, Members of the Board of
Education and Residents of the Sioux City
Community School District
Sioux City, Iowa

The Comprehensive Annual Financial Report for the Sioux City Community School District for the fiscal year ended June 30, 2014 is submitted to you. This report has been prepared to conform to guidelines recommended by the Association of School Business Officials International and the Government Finance Officers Association of the United States and Canada. Responsibility for the accuracy of data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe the data is presented in a manner designed to fairly set forth the financial position and results of operations of the District, as measured by the financial activity of the various funds; that all disclosures necessary to enable the reader to gain a comprehensive understanding of the District's financial activity have been included; and the information provided is complete and accurate in all material respects.

The financial statements and schedules presented in this Comprehensive Annual Financial Report (CAFR) include all the funds of the District in accordance with standards set by the Governmental Accounting Standards Board (GASB).

The report presents the financial information of the District accurately and concisely. It is designed to be comprehensive yet easily readable and accessible.

To facilitate the understanding of the District's financial affairs, the Comprehensive Annual Financial Report (CAFR) is presented in four sections:

Introductory Section – This section includes this transmittal letter, the District's organizational chart, a list of principal officers, a Certificate of Excellence in Financial Reporting from the Association of School Business Officials International and a Certificate of Achievement for Excellence in Finance Reporting from the Government Finance Officers Association of the United States and Canada.

Financial Section – This section includes the independent auditors' report, the basic financial statements, Management's Discussion and Analysis, required supplementary information and supplementary information. The Management's Discussion and Analysis (MD&A) immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis.

Statistical Section – This section includes selected financial and demographic data for up to a ten year period and has been thoroughly revised in accordance with GASB Statement 44, Economic Condition Reporting: The Statistical Section.

The Compliance and Single Audit Section – This section includes the schedules and various independent auditors' reports and findings as required by the Single Audit Act Amendment of 1996, along with comments required by the Iowa Auditor of State.

This letter of transmittal is designed to complement the Management's Discussion and Analysis included within the financial section of the Comprehensive Annual Financial Report and should be read in conjunction with it.

The current Comprehensive Annual Financial Report will be submitted to the Association of School Business Officials International for review for the Certificate of Excellence in Financial Reporting and to the Government Finance Officers Association of the United States and Canada for their Certificate of Achievement for Excellence in Financial Reporting.

Reporting Entity and its Services

The Sioux City Community School District was organized in March of 1869. The District is supported financially by legislatively appropriated state aid, property taxes, statewide sales, service and use tax, income surtaxes, state and federal grants for special projects and local revenue in the form of tuition and other miscellaneous income items. The District is governed by a seven member board of education. Effective with the September 2009 election, school board members will be elected to four year terms and elections will be held only in odd-numbered years, as opposed to the annual elections held under previous law. All board members are elected at large.

The District provides a full range of educational services for residents of the Sioux City Community School District appropriate to students in early childhood and grades kindergarten through twelve. These services include basic, regular and enriched academic education, special education for identified children with qualifying special needs, vocational education and many individualized programs such as specialized instruction for students at risk and students whose primary language is not English. The official enrollment of the District as of October 2014 (the official count date) was 14,332 students.

The financial statements include all funds, agencies, board and commissions. The District has also considered all actual and potential component units for which it is financial accountable and all other organizations where the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading. The criteria considered in determining financial accountability of any entity to the District include appointing a voting majority of an organizations governing body, and (1) the ability of the District to impose its will on that organization; and/or (2) the potential for the organization to provide specific benefits to, or impose specific burdens on the District. The Sioux City Community School District has no component units that meet the Governmental Accounting Standards Board criteria.

Accounting System

All funds of the District are presented in this report and have been audited by the District's independent certified public accountants, King, Reinsch, Prosser & Co., L.L.P.

In developing and evaluating the accounting system of the District, much consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the internal accounting controls of the District adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgeting

The District's Board of Education annually adopts and certifies a budget following a public hearing and approves the related appropriations for the General, Special Revenue, Debt Service, Capital Projects and Proprietary Funds in accordance with provisions outlined in the statutes of the State of Iowa. The budgets and financial statements for the governmental types are prepared on a modified accrual basis and the budget and financial statements for the proprietary funds are prepared on the accrual basis. A statement comparing the budget to actual revenues and expenditures/expenses is included as required supplementary information.

For management control, the line item budgets are reviewed for variances. However, since a budget is a plan, overage or underage on a line item basis are allowed if sufficient funds are available on a major program basis. Iowa law requires the formal and legal budgetary control for the certified budget to be based upon four major classes of expenditures known as functional areas, not by fund or fund types.

Major Initiatives and Achievements

Beginning in 1994, a group of citizens, working with the School Board, began a systematic assessment of facilities. No major upgrades had occurred since 1972. In 1998 local voters approved a one-cent local option sales and service tax for school infrastructure. This tax was renewed in August of 2005 for an additional ten years beyond the original expiration date of 2008; subsequently, the State of Iowa has enacted legislation extending this tax statewide expiring in 2029. With this sales tax funding the District was able to develop a plan for the future. The first step was to design a new middle school, as well as certain essential repairs and renovations to existing buildings. Construction was completed in December 2001 on the 165,000 square foot West Middle School. The 195,000 square foot East Middle School was completed and opened in August 2002. North Middle School was completed in June of 2004 with an opening date of August 2004. Irving Elementary School opened in August of 2006 which replaced the old Irving Elementary School which was the oldest operating elementary in

the State of Iowa. Two other new elementary schools, Leeds and Unity, were completed and opened in the fall of 2008; Liberty Elementary School, replacing Smith and Everett Elementary School, opened in August 2010. Spalding Park Elementary School, which replaced Joy and Longfellow Elementary Schools, opened in August 2012. Loess Hills Elementary School, which replaced Emerson and Roosevelt, opened in August 2014. In addition, the District has three more elementary schools under construction set to be opened in August 2015, 2016 and 2019. The District issued revenue bonds in December 1999, December 2000, July 2001, April 2005, December 2006, March 2007, December 2008, November 2009, September 2010, May of 2012, September 2013 and September 2014 to finance construction of these schools with sales tax revenues paying of the bonds.

Economic Condition and Outlook

The City of Sioux City's location in the tri-state area of Iowa, Nebraska and South Dakota provides the area with a regional economic importance. Our strong regional retail market continues to provide wealth to the community and coordinates strategically with convention and tourism activities.

While the regional tax base is strong, the property tax base of the Sioux City Community School District itself is substantially below the state average. The per pupil property tax valuation remains the lowest in the State of Iowa.

The State of Iowa's school funding formula projects a controlled budget based on October's enrollment for the current budget year multiplied by a legislatively approved cost per pupil for the subsequent budget year. During fiscal year 2009-2010, due to the downturn in the state's economy, a 10 percent across the board reduction in state aid was ordered for all Iowa school districts. This amounted to a mid-year reduction of \$6.7 million. Allowable growth for fiscal year 2011-2012 was set at 0 percent which maintained the cost per pupil at \$5,883; allowable growth for fiscal year 2012-2013 was set at 2 percent which made the cost per pupil \$6,001; allowable growth (now referred to as State Percent of Growth) for fiscal year 2013-2014 was set at 2 percent and the State Percent of Growth for fiscal year 2014-2015 has been set at 4 percent. In light of these reductions and minimal funding, the School District must operate in the most efficient manner possible during fiscal year 2014-2015 to help ensure adequate funding for staff, services and supplies.

Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting and the Association of School Business Officials International awarded a Certificate of Excellence to the District for their comprehensive Annual Financial Report for the fiscal year ended June 30, 2013. In order to be awarded these certificates, the District must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such reports must satisfy both U.S. generally accepted accounting principles and applicable legal requirements. These certificates are valid for a period of one year only. We believe our current report continues to conform to these requirements and are submitting it to both organizations to determine its eligibility for certificates from these organizations.

Other Matters

Also included in this report is a statistical section, including additional financial data, that will give the reader a better understanding on the school system. This section has been updated in conformity with the reporting requirements of GASB 44. This section provides information categorized as follows:

- 1) Financial trend schedules.
- 2) Revenue capacity schedules.
- 3) Debt capacity schedules.
- 4) Demographic and economic information schedules.
- 5) Operating information schedules.
- 6) Continuing disclosure information.

We wish to take this opportunity to thank the administrative office staff, in particular Jackie Engle, that assisted in obtaining and organizing data, the Woodbury and Plymouth County Auditor and Treasurer Office staffs, and the City and other community officials who provided much needed information. Without all the above groups' efforts, the report could not have been completed.

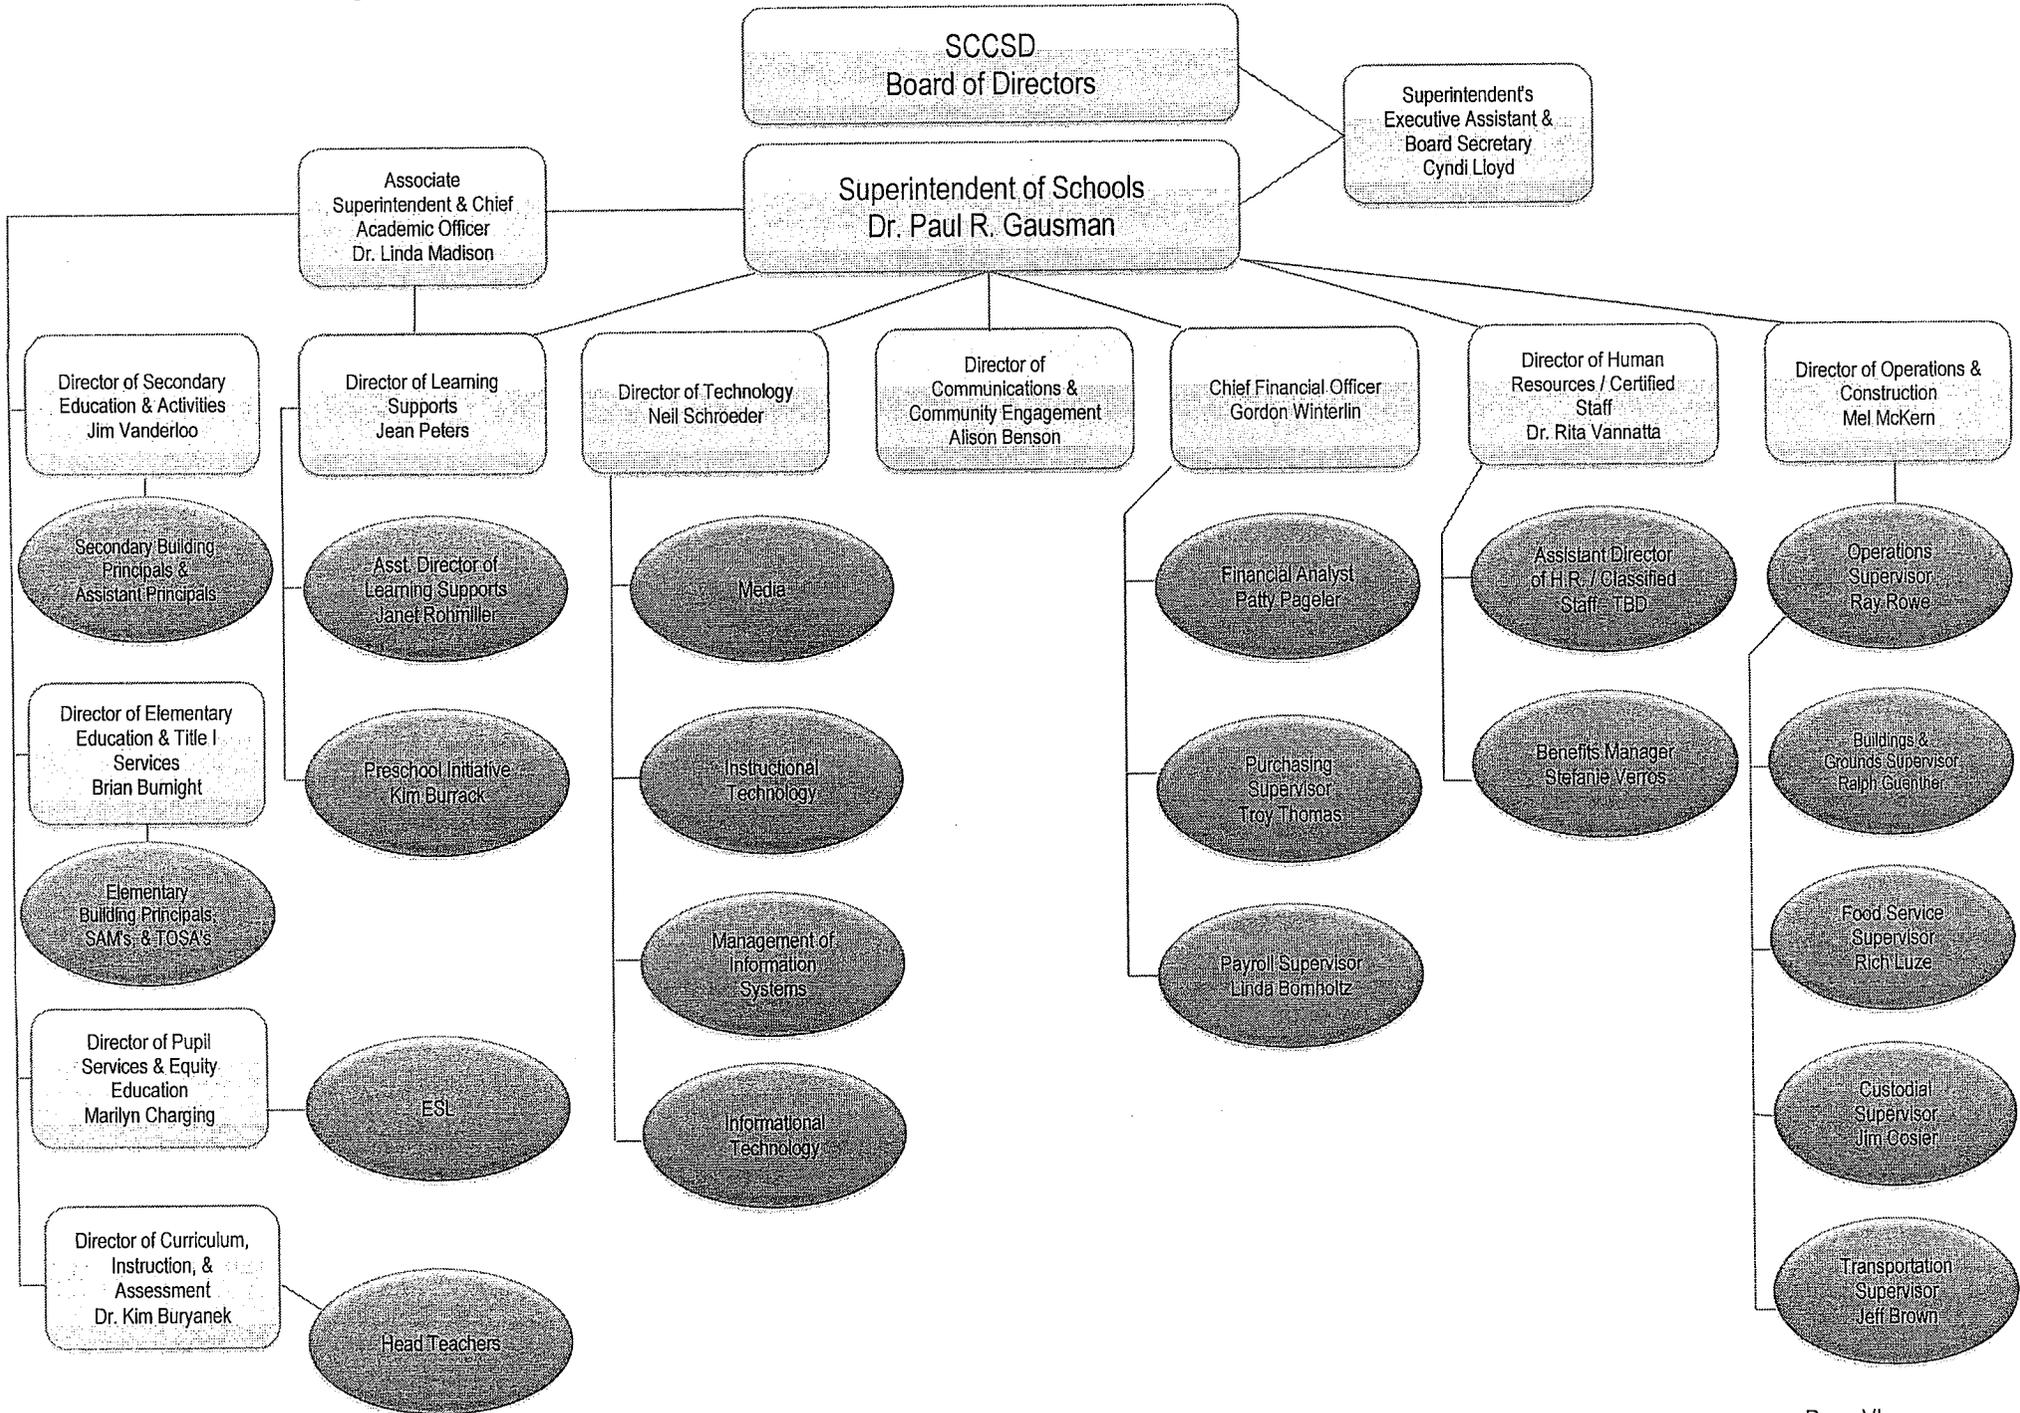

In summary, the objective of the Comprehensive Annual Report is to provide the general public and other users of the District's financial information a better understanding of the operating activities and financial condition of the District.

Very truly yours,

Jodi Ryan
Interim Chief Financial Officer

INDEPENDENT AUDITORS' REPORT

To the Board of Education
Sioux City Community School District
Sioux City, Iowa

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Sioux City Community School District (the District), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Sioux City Community School District, as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 14 to the financial statements, in fiscal year ended 2014 the District adopted new accounting guidance, *GASB Statement No. 65, Items Previously Reported as Assets and Liabilities*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 13, schedule of funding progress on page 46 and budgetary comparison information on pages 47 through 49 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Report on Other Legal and Regulatory Requirements

In accordance with *Government Auditing Standards*, we have also issued our report dated December 30, 2014, on our consideration of the Sioux City Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

SIoux CITY COMMUNITY SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Sioux City Community School District's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2014. The analysis focuses on the District's financial performance as a whole. Please read this analysis in conjunction with the transmittal letter at the front of the report and the District's financial statements, which immediately follow this section.

Financial Highlights

- The District's financial condition improved in fiscal year 2014 as well as in fiscal year 2013. Total net position increased by \$5.5 million or by 4.0 percent. This was due primarily to increases in state revenues which were offset by only a 2.6 percent increase in expenses.
- Total revenues increased from \$169.5 million to \$174.9 million, an increase of 3.2 percent. State revenues increased while federal and local funding decreased.
- Total expenses increased from \$165.1 million to \$169.4 million, an increase of 2.6 percent, largely driven by increases in salaries and benefits.
- In the Fund Financial Statements the General Fund had an increase in fund balance of \$1,885,184 from \$19.1 million to \$21.0 million. The Solvency Ratio (Unassigned Fund Balance divided by General Fund Revenues) increased from 10.7 percent to 11.9 percent from fiscal year 2013 to fiscal year 2014. The District continues to maintain a responsible financial position in the General Fund.
- The one percent sales tax for school infrastructure continues to modernize the District's school building infrastructure.
- The original funding source for school infrastructure improvement was a one percent county local option sales tax law passed in 1998. In fiscal year 2007 the last of 99 counties passed a local option sales tax for school infrastructure. Noting the popularity and need for this tax, the state passed a new law creating a uniform state-wide one percent sales tax and extended the life of the tax to December 31, 2029.

Using This Annual Report

The annual report consists of a series of financial statements and other information, as follows:

- Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.
- The Government-Wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of the District as a whole and present an overall view of the District's finances.
- The Fund Financial Statements tell how governmental activities were financed in the short-term as well as what remains for future spending. Fund financial statements report the District's operations in more detail than the government-wide statements by providing information about the most significant funds.
- The Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

- Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year, as well as presenting the schedule of funding progress for the retiree health benefit plan.
- Supplementary Information includes the Schedule of Expenditures of Federal Awards which provides details of various federal programs benefiting the District.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

Figure A-1

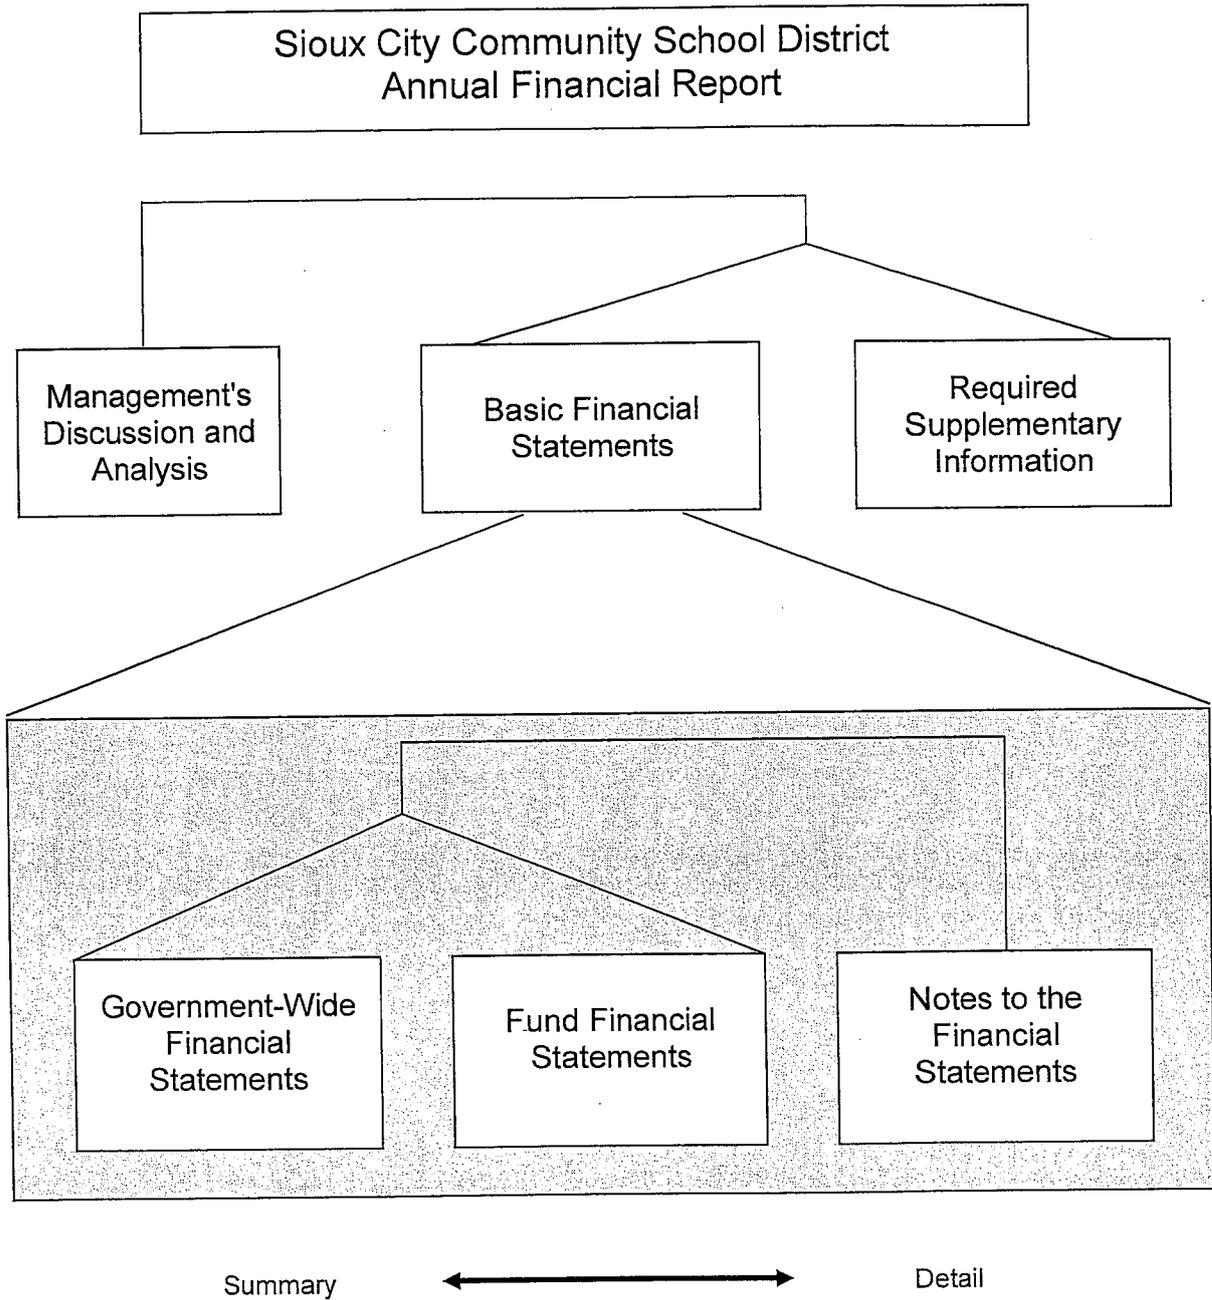

Figure A-2 below summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

Figure A-2 Major Features of Government-Wide and Fund Financial Statements

	Government-Wide Statements	Fund Financial Statements	
		Governmental Funds	Proprietary Funds
Scope	Entire District	The activities of the District that are not proprietary, such as special education and building maintenance	Activities the District operates similar to private businesses: food services
Required financial statements	<ul style="list-style-type: none"> • Statement of net position • Statement of activities 	<ul style="list-style-type: none"> • Balance sheet • Statement of revenues, expenditures and changes in fund balances 	<ul style="list-style-type: none"> • Statement of net position • Statement of revenues, expenses and changes in fund net position • Statement of cash flows
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, and short-term and long-term
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All revenues and expenses during the year, regardless of when cash is received or paid

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how it has changed. Net position - the difference between the District's assets and liabilities - are one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.

- To assess the overall health of the District, you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental Activities* - Most of the District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and state aid finance most of these activities.
- *Business-Type Activities* - The District charges fees to help it cover the costs of certain services it provides. The District's food service program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant "major" funds - not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as repaying its long-term debts, or to show that it is properly using certain revenues, such as federal grants.

The District has two kinds of funds:

- *Governmental Funds* - Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information with the governmental fund statements that explain the relationship (or differences) between them.
- *Proprietary Funds* - Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements.
 - The District's *enterprise fund* is the same as its business-type activities but provides more detail and additional information, such as cash flows. The District's enterprise fund is the School Nutrition Fund.
 - *Internal service funds* are used to report activities that provide supplies and services for the District's other programs and activities. The District currently has one internal service fund - the dental self-insurance fund.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Table A-1 below provides a summary of the District's net position at June 30, 2014 compared to 2013.

**Table A-1

Net investment in capital assets	\$ 119,768,132	\$ 108,885,120	\$ 1,579,642	\$ 1,723,985	\$ 121,347,774	\$ 110,609,105	9.7%
Restricted	10,454,296	17,227,999	-	-	10,454,296	17,227,999	-39.3%
Unrestricted	<u>7,956,672</u>	<u>6,836,244</u>	<u>1,578,839</u>	<u>1,190,950</u>	<u>9,535,511</u>	<u>8,027,194</u>	<u>18.8%</u>
Total net position	\$ 138,179,100	\$ 132,949,363	\$ 3,158,481	\$ 2,914,935	\$ 141,337,581	\$ 135,864,298	4.0%

The District's combined net position increased by 4.0 percent from \$135.9 million to \$141.3 million, an increase of \$5.4 million. The District's governmental activities account for the improvement in financial position. The net position from governmental activities increased by \$5.2 million. Unrestricted net position from governmental activities increased by \$1.1 million.

The net position of the District's business-type activities increased by \$243,546. The School Nutrition Fund's 9.0 percent increase in federal and state appropriations covered the 3.7 percent increase in operating expenses.

The 1 percent statewide sales, services and use tax has been especially beneficial to the District. It is mainly used for capital projects, which are expensed as depreciation over many years on the statement of activities. The statewide sales, services and use tax revenue was \$12.1 million and \$12.0 million in fiscal years 2014 and 2013, respectively.

Cash, certificate of deposits and investments total \$55.9 million for fiscal year 2014 compared to \$58.7 million for fiscal year 2013. \$23.5 million of these cash balances are needed to fund the District's operations in July, August and September before the first state aid and property tax payments are received by the District in the next fiscal year. \$12.0 million is restricted for current and future capital projects and \$4.5 million is restricted for debt service requirements.

U.S. Generally Accepted Accounting Principles (GAAP) requires that the property taxes which are certified in April (the lien date) for the upcoming fiscal year be accrued as a receivable and also be shown as deferred inflows of resources. The succeeding year property tax receivable and corresponding deferred inflows of resources amount was \$36.7 million and \$37.5 million for fiscal years 2014 and 2013.

CHANGES IN NET POSITION

Table A-2 compares the changes in net position from operating results for fiscal years 2014 and 2013.

Ending net position	\$ 138,179,100	\$ 132,949,363	\$ 3,158,481	\$ 2,914,935	\$ 141,337,581	\$ 135,864,298	

In fiscal year 2014 state aid accounted for 47.1 percent of revenues from governmental activities as compared to 46.9 percent for fiscal year 2013. Property taxes in fiscal year 2014 accounted for 22.3 percent of revenues from governmental activities compared to 23.1 percent in fiscal year 2013. State aid and property taxes provide 69.5 percent of the funding for governmental activities in fiscal year 2014 and 70.0 percent in fiscal year 2013. Charges for services account for 26.7 percent of the total revenues for business-type activities in fiscal year 2014 compared to 28.8 percent in fiscal year 2013. Operating grants and contributions account for 73.0 percent of the total business-type activities revenue for fiscal year 2014 and 70.9 percent for fiscal year 2013. Figure A-3 graphically depicts the revenue for fiscal year 2013 and fiscal year 2014.

District revenues for fiscal year 2014 totaled \$174.9 million compared to \$169.5 million in fiscal year 2013. Unrestricted state aid increased by \$2.7 million in fiscal year 2014. The increase is due to the 2 percent state supplemental increase coupled with the 163 student enrollment increase. 95.4 percent of total District revenue was from governmental activities in both fiscal years 2014 and 2013.

District expenses for fiscal year 2014 totaled \$169.4 million as compared to \$165.1 million in fiscal year 2013. Salary and benefit expense increases accounted for much of the change.

The District's predominant expenses are related to instruction (69.3 percent in fiscal year 2014 and 68.7 percent in fiscal year 2013). Instruction expenses and pupil and instructional support services total 76.8 percent of total District expenses in fiscal years 2014 and 2013. Administrative and business account for the next largest percentage of expenses at 7.2 percent for fiscal years 2014 and 2013. Administrative and business includes all the District's liability and workers' compensation insurance as well as building administration and District support. Building maintenance and operation accounted for 6.9 percent of total expense in fiscal year 2014 and 6.8 percent in fiscal year 2013. Building maintenance and operation are an important element in the functioning of a school district. Figure A-4 graphically depicts the expense for fiscal year 2013 and fiscal year 2014.

Figure A-3

TOTAL DISTRICT REVENUE - FY2014 AND FY2013 (In millions)

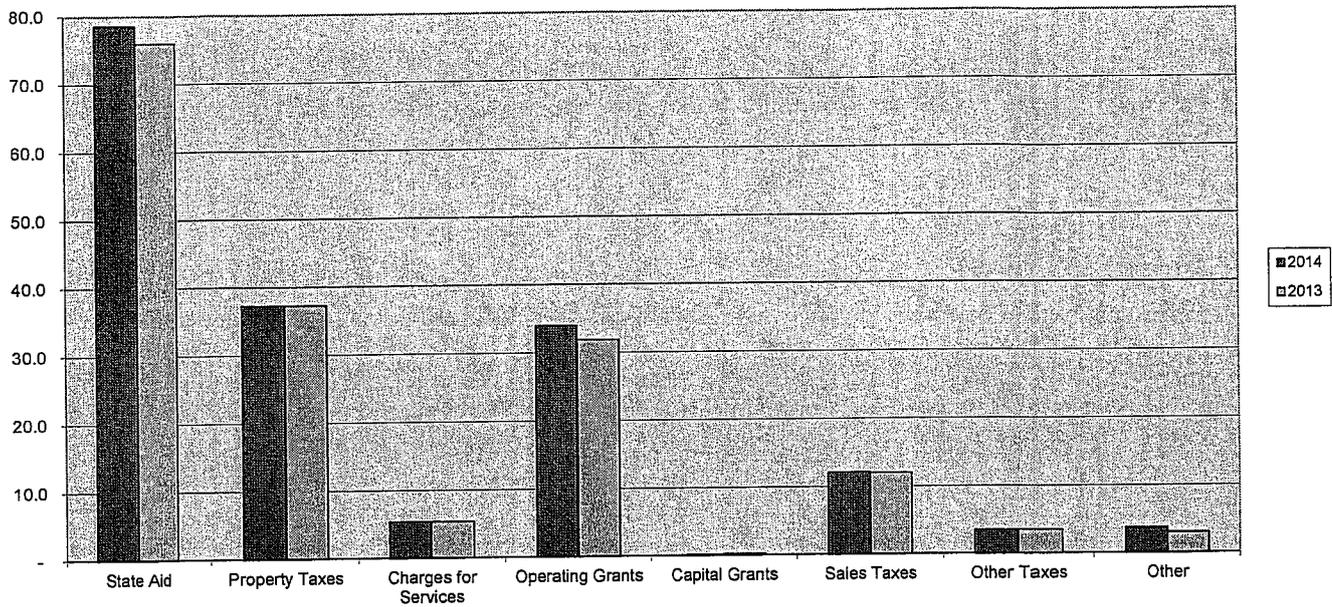

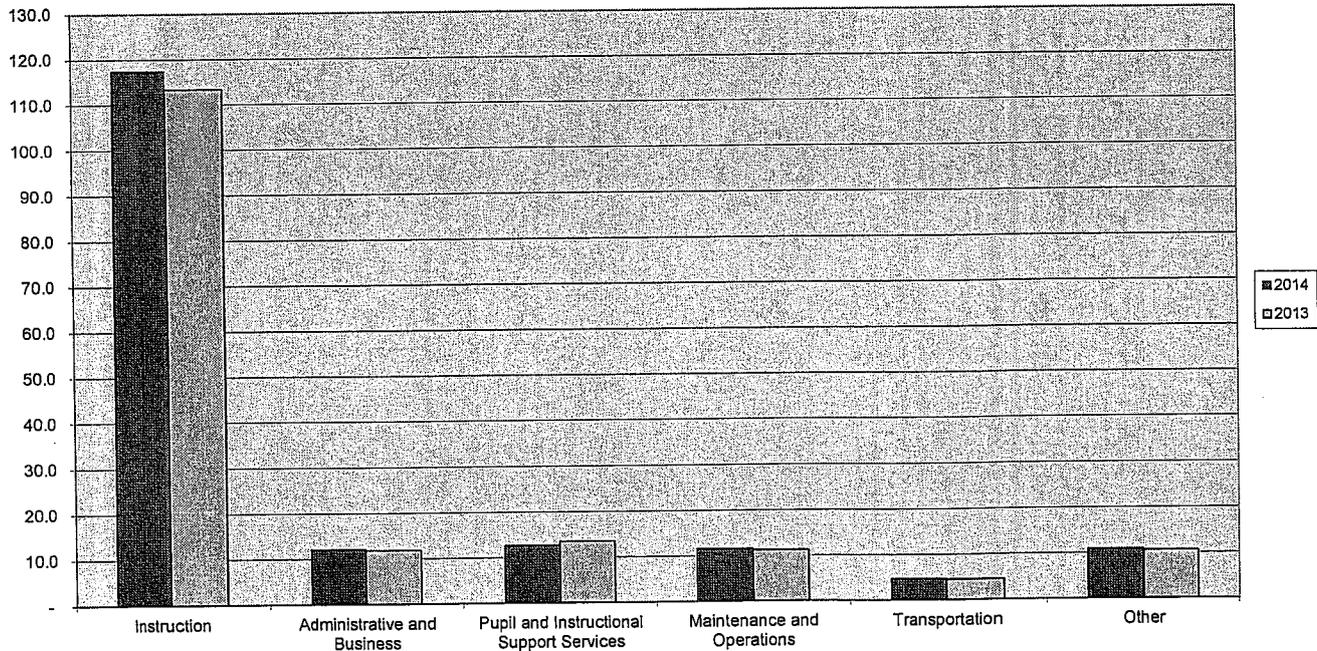

Figure A-4

TOTAL DISTRICT EXPENSES - FY2014 AND FY2013 (In millions)

GOVERNMENTAL ACTIVITIES

Revenues for governmental activities were \$166.8 million and governmental expenses were \$161.5 million. As in previous years, the District managed expenditures to correspond with available revenues. In addition, the Statewide Sales, Services and Use Tax, now titled the Secure and Advanced Education (SAVE) revenue of \$12.1 million contributed significantly to the increase in net assets. A significant portion of the sales tax capital expenditures were capital assets and were therefore not expensed on the statement of activities. Capital assets are depreciated over their useful lives over multiple years on the statement of activities.

Table A-3 represents the cost of the six major District activities for both fiscal year 2014 and fiscal year 2013. These six activities, or functions, are instruction, pupil and instructional support services, administration and business, maintenance and operations, transportation, and other. The table also shows each activities net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost is useful because it shows the financial burden placed on the District's taxpayers by each of these activities.

- The cost of all governmental activities for fiscal year 2014 was \$161.5 million as compared to \$157.6 million for fiscal year 2013.
- In fiscal years 2014 and 2013, \$3.2 million was financed by users of the District.
- In fiscal year 2014 the federal and state government subsidized certain programs with grants and contributions of \$28.1 million as compared to \$26.5 million in fiscal year 2013.
- Most of the District's net cost of governmental activities (\$130.2 million in fiscal year 2014 and \$127.6 million in fiscal year 2013) was financed by District and state taxpayers, i.e. \$37.3 million of property taxes, \$78.6 million of unrestricted state aid, \$12.1 million of statewide sales, services and use tax, \$3.5 million of income surtaxes, and \$3.7 million of other.

**Table A-3

BUSINESS-TYPE ACTIVITIES

Revenues of the District's business-type activities (Food and Nutrition Services) were comprised of charges for services, federal and state contributions, investment earnings, and miscellaneous contributions.

- Business-type activities revenues exceeded expenses by \$243,546 in fiscal year 2014 and \$79,595 in fiscal year 2013.
- Charges for services represent \$2.2 million or 26.7 percent of total business-type activity revenues. This is predominantly the amount paid by students and staff for daily breakfasts and lunches.

- Federal and state reimbursement for meals was \$5.9 million or 73.0 percent of total business-type activity revenue.
- Food Services federal and state reimbursement increased by \$487,424 or 9.0 percent from the previous fiscal year.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The District uses fund accounting, as required by the Governmental Accounting Standards Board and the Iowa code, to ensure and demonstrate compliance with finance related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well as the government wide financial statements. The District's governmental funds reported combined fund balances of \$35.6 million, a decrease of \$4.3 million over the previous years combined fund balances. The key factor in this decrease is a decrease in the fund balance of the Sales Tax Fund. During fiscal year 2014 the Sales Tax Fund's available resources were used for capital outlay expenditures.

INDIVIDUAL MAJOR GOVERNMENTAL FUND HIGHLIGHTS

- The General Fund had an increase in fund balance of \$1.9 million from \$19.1 million to \$21.0 million. General Fund revenue increased by \$4.8 million mainly due to an increase in state aid. General fund expenditures increased by \$5.0 million from \$143.3 million in fiscal year 2013 to \$148.3 million in fiscal year 2014. Expenditures increased mainly due to increases in salaries and benefits.
- The Management Fund's revenues financed the expenditures of this fund which are workers compensation, property and liability insurance premiums, and early retirement plan expenditures. The ending fund balance was approximately \$1.1 million for 2014 and 2013. The management levy decreased from \$0.92 to \$0.84.
- The Physical Plant and Equipment Levy Fund (PPEL) had a fund balance of \$1.4 million at the end of fiscal years 2014 and 2013. The infrastructure repairs and capital equipment expenditures including school busses remained steady at \$1.0 million.
- The Sales Tax Fund had a fund balance decrease of \$6.6 million from \$15.8 million in fiscal year 2013 to \$9.2 million in fiscal year 2014. Revenue increased to \$12.3 million in fiscal year 2014 from \$12.2 million in fiscal year 2013. The Sales Tax Fund had \$10 million of bond proceeds in fiscal year 2014. Expenditures were \$10.1 million in fiscal year 2013 and \$20.5 million in fiscal year 2014. Expenditures are capital in nature and fluctuate based on current projects. Transfers out in fiscal year 2014 were \$8.4 million and \$7.9 million in fiscal year 2013. The transfers are for debt service payments.
- The Debt Service Fund had a fund balance increase of \$0.5 million. This is due to the required QSCB sinking fund which is funded by transfers from the Sales Tax Fund.

INDIVIDUAL MAJOR PROPRIETARY FUND HIGHLIGHTS

- School Nutrition Fund's net position increased by \$224,521 in fiscal year 2014 compared to \$79,503 in fiscal year 2013. This was primarily due to an increase in federal revenue.

BUDGETARY HIGHLIGHTS

The District certifies the budget in April for the following fiscal year which begins on July 1 and ends on June 30 of that following year. The state allows districts to amend their budget by May 31 of the budget year. The District did not amend its budget this year.

The District's total revenues were less than the total budgeted revenues by \$0.4 million, a variance of -0.2 percent.

Total expenditures were \$189.3 million, \$5.4 million more than total budgeted expenditures of \$183.9 million.

The certified budget was exceeded in the non-instructional programs and other expenditures functional areas due to the timing of expenditures at year-end without sufficient time to amend the certified budget.

A schedule showing the original and amended budget amounts compared to actual results is provided in this report as required supplementary information.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

As of the end of fiscal year 2014, the District had invested over \$276.9 million in capital assets (\$190.4 million net of depreciation). This is a net increase of 8.6 percent. During fiscal year 2014, \$21.9 million of new capital assets were added and annual depreciation totaled \$6.6 million. (More detailed information can be found in Note 4 to the Financial Statements).

Construction on a new elementary school on the former Hoover Middle School site began in fiscal year 2013. This school is scheduled to open in August 2015. Construction of a new elementary school on former Washington Elementary School site also began in fiscal year 2013 and is scheduled to open in August of 2015. Construction of a new elementary school on the Bryant Elementary School site began in fiscal year 2014 and is scheduled to open in August of 2019.

Table A-4 summarizes the capital assets of the District at fiscal year-end 2014 and 2013.

**Table A-4
Capital Assets**

	Governmental Activities		Business-Type Activities		Total School District		Percent Change 2013-2014	2014 Percent to Total

Total capital assets	\$ 188,836,497	\$ 173,535,217	\$ 1,579,642	\$ 1,723,985	\$ 190,416,139	\$ 175,259,202	8.6%	

Long-Term Debt

As of fiscal year-end 2014, the District had \$76.2 million in General Obligation Notes and Revenue Bonds. This represents a net increase of \$4.7 million from fiscal year 2013. Table A-5 summarizes the District's long-term debt for fiscal years 2014 and 2013. (More detailed information about the District's long-term debt is presented in Note 5 to the Financial Statements).

**Table A-5
District's Outstanding Long-Term Debt**

	Total School District		Percentage Change
	2014	2013	
General Obligation Notes	\$ 175,000	\$ 345,000	-49.3%
Revenue Bonds	76,065,897	71,172,284	6.9%
Total	\$ 76,240,897	\$ 71,517,284	6.6%

Bond Ratings

The District received an A1 General Obligation Bond rating from Moody's in fiscal year 2002. This rating was reaffirmed in fiscal year ended 2010. Standard and Poor's assigned the District's revenue bonds issued in fiscal year ended 2007 an AAA bond rating and the revenue bonds issued during the fiscal years ended 2009 through 2014 an A+ bond rating.

FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- Each year the Iowa Legislature provides for growth in the Iowa School Foundation Funding Formula. Fiscal years 2002 through 2005 experienced net annual allowable growth of 2 percent or less. Fiscal years 2006, 2007, 2008, and 2009 received 4 percent allowable growth before the adjustment for changes in enrollment. Fiscal year 2010 also received 4 percent allowable growth, but the Governor ordered an across the board cut of 10 percent which resulted in a mid-year reduction in state aid of \$6.7 million. Fiscal year 2011 allowable growth was 2 percent, but was significantly underfunded. Fiscal year 2012 was 0 percent and fiscal years 2013 and 2014 are 2 percent. The legislature set the state percent of growth, formerly known as allowable growth at 4 percent. The 2016 rate has not been set yet. This is significant because the ability of the District to make future budget decisions and to negotiate salary and benefit settlements, which comprise 80 percent of the District's General Fund expenditures, is dependent on determining the funding levels for future years.
- The District experienced an enrollment increase of 1.5 percent in the October 2013 certified enrollment and another increase of 1.4 percent in the October 2014 certified enrollment count. Since enrollment is a major factor in school foundation formula funding, along with state percent growth, the District needs to continue its enrollment increase.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Jodi Ryan, Interim CFO, Sioux City Community School District, 627 4th Street, Sioux City, Iowa 51101.

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

Accrued interest on long-term debt not reported on the modified accrual basis of accounting.

The internal service fund is used by management to charge the costs of self-insured dental insurance to individual funds.

Assets and liabilities of the internal service fund of \$1,247,176 are included in governmental activities in the statement of net position, net of \$47,284 allocated to business-type activities.

Accrued expenses from the statement of net assets that are not reported on the modified accrual basis fund balance sheet.

Net OPEB obligation

Compensated absences

Other long-term assets are not available to pay for current period expenditures and, therefore are reported as unavailable revenue in the funds.

Long-term debt is not due and payable in the current period and therefore is not reported in the funds.

Net position of governmental activities (page 14)

SIoux CITY COMMUNITY SCHOOL DISTRICT

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES

IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED JUNE 30, 2014

Net change in fund balances - total governmental funds (page 20) \$ (4,338,825)

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are not reported in the statement of activities and are allocated over their estimated useful lives as depreciation expense in the statement of activities. Capital outlay expenditures exceeded depreciation expense in the current year, as follows:

Expenditures for capital assets	\$ 21,993,720	
Depreciation	(6,351,292)	
Proceeds from sale of capital assets	(62,664)	
Loss on sale of capital assets	<u>(151,950)</u>	15,427,814

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. (422,938)

Interest on long term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the governmental funds when it is due. In the statement of activities interest expense is recognized as the interest accrues, regardless of when it is due. (42,655)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:

Increase in other post employment benefits obligation	\$ (1,396,000)	
Increase in compensated absences	<u>(2,074)</u>	(1,398,074)

Internal service funds are used by management to charge the costs of the self-insured dental insurance program to the individual funds. Net income of the internal service fund of \$747,053 is reported with governmental activities, net of \$19,025 allocated to business-type activities. 728,028

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas the amounts are deferred in and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Bonds issued	\$ (10,000,000)	
Bond principal retirement	5,245,000	
Amortization of bond premiums	<u>31,387</u>	(4,723,613)

Change in net position of governmental activities (page 16) \$ 5,229,737

See accompanying notes to the basic financial statements.

SIOUX CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The District is a political subdivision of the State of Iowa and operates public schools for children in grades pre-kindergarten through twelve. The District's geographic boundary includes most of the city limits of Sioux City and a small portion of residential and agricultural land to the north in Plymouth County. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, the District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. The District has no component units that meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations - The District participates in jointly governed organizations that provide services to the District but do not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Woodbury County Assessor's Conference Board and the Plymouth County Assessor's Conference Board.

B. Basis of Presentation

Government-Wide Financial Statements - The Statement of Net Position and the Statement of Activities report information on all of the activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services.

The Statement of Net Position presents the District's assets and liabilities, with the difference reported as net position. Net position is reported in the following categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets. Net investment in capital assets, excludes unspent debt proceeds.

SIoux CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Restricted net position result when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislations.

Unrestricted net position consist of net position not meeting the definition of the preceding categories. Unrestricted net position often have constraints on resources imposed by management which can be removed or modified.

Net position restricted through enabling legislation as of June 30, 2014 consists of \$1,091,398 for management levy, \$1,392,583 for physical plant and equipment levy, and \$576,055 for statewide sales tax.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental and proprietary funds. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds. The District determined all funds to be major funds except for the special revenue activity fund.

Fund Accounting - The accounts of the District are organized on the basis of funds each of which is considered to be a separate accounting entity with a self-balancing set of accounts. The District has the following funds:

Governmental Fund Types - Governmental funds are those through which most District functions are financed. The acquisition, use and balances of the District's expendable financial resources and the related liabilities, except those accounted for in proprietary funds, are accounted for through governmental funds. The measurement focus is upon determination of changes in financial resources rather than upon determination of net income. The following are the District's major governmental funds.

General Fund - The General Fund is used to account for and report all financial resources not accounted for or reported in another fund.

Special Revenue Funds - Account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Management Fund - Accounts for property tax levies in the District for liability insurance premiums including workers' compensation, unemployment compensation, insurance claims, post-retirement medical insurance, and legal settlements.

SIoux CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Capital Projects Fund - Accounts for financial resources that are restricted, committed, or assigned to expenditure for capital outlay, including the acquisition or construction of capital facilities and other capital assets.

Physical Plant and Equipment Fund - Accounts for a regular levy of thirty-three cents per thousand dollars of assessed valuation in the District for use in purchase of equipment and repairing and improving schoolhouse buildings and grounds.

Sales Tax Fund - Accounts for statewide sales, services and use tax revenues that are to be recorded in a separate fund according to guidance from the Iowa Department of Education. Expenditures are to be used for capital projects as described above in accordance with the election proposition.

Debt Service Fund - Accounts for financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Proprietary Fund Types - Proprietary funds are used to account for the District's ongoing activities which are operated and financed in a manner similar to those found in the private sector. The measurement focus is upon the determination of net income. The funds included in this category and their purposes are as follows:

Enterprise Fund - The Enterprise Fund is used to account for operations: (a) which are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenue earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The major fund included in this category and its purpose is as follows:

School Nutrition Fund - Accounts for the food service operations of the District.

Internal Service Fund - The Internal Service Fund is used to account for the financing of goods or services provided by one department to other departments of the District, on a cost reimbursement basis. The fund included in this category and its purpose is as follows:

Dental Insurance Fund - Accounts for the revenue and expenses related to the District's self-insurance plan for dental insurance.

SIoux CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Interfund activities between governmental funds and between governmental funds and proprietary funds appear as interfund balances on the Governmental Fund Balance Sheet and Proprietary Fund Statement of Net Position and as other resources and other uses on the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balance and on the Proprietary Fund Statement of Revenues, Expenses and Changes in Net Position. All interfund transactions between governmental funds and between governmental funds and internal service funds are eliminated on the government-wide statements. Interfund balances between governmental funds and proprietary funds remain as interfund balances on the Government-Wide Statement of Net Position.

C. Measurement Focus and Basis of Accounting

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days after year end.

Property tax when levied for, intergovernmental revenues when eligibility requirements have been met (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be measurable and are recorded as revenue, if available. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Revenue from federal and state grants and similar programs are recognized when the District has done everything necessary to establish its right to the revenue. Usually this is at the time the expenditure has been incurred for an authorized purpose. When there are both restricted and unrestricted net position available, it is the District's policy to first apply restricted resources and then unrestricted resources.

SIOUX CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

The proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise fund is charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

D. Assets, Liabilities, and Fund Equity

Cash and Pooled Investments - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

For the purposes of the statement of cash flows, the District considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Property Taxes Receivable - Property taxes in governmental fund types are accounted for using the modified accrual basis of accounting. Property taxes receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education to the County Board of Supervisors. Current year delinquent property taxes receivable represents unpaid taxes for the current year. The succeeding year property taxes receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year.

By statute, the Board of Education is required to certify its budget to the County Auditor by April 15 of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property taxes receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½ percent per month penalty for delinquent payments; is based on January 1, 2012 assessed property valuations; is for the tax accrual period July 1, 2013 through June 30, 2014 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2013.

Due From Other Governmental Agencies - Due from other governmental agencies represents amounts due from the State of Iowa, other school districts, and other various grants, reimbursements and shared revenues.

SIoux CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Interfund Balances - During the course of its operations, the District has numerous transactions between funds to finance operations, provide services, construct assets, and service debt. To the extent that certain transactions between funds had not been paid or received as of June 30, 2014, balances of interfund amounts payable or receivable have been recorded.

Inventories - Inventories are valued at cost using the first-in, first-out method for purchased items and contributed value for government commodities. Inventories are accounted for using the consumption method whereby inventory acquisitions are recorded in inventory accounts when purchased or received by other means and charged to operations when consumed or sold.

Capital Assets - Capital assets, which include land; site and site improvements; buildings; machinery and equipment; construction in progress; and intangibles are reported in the government-wide financial statements and the proprietary funds' financial statements. Capital assets are defined by the District as assets with an initial, individual cost of \$5,000 or more (\$1,000 or more for the School Nutrition Fund) and an estimated useful life of more than one year. Library holdings and textbooks are capitalized annually by the District based on its aggregated costs. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at the estimated fair value at the date of donation. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Capital assets are depreciated/amortized using the straight-line method over the following estimated useful lives:

Buildings	50 years
Site and site improvements	20 years
Library holdings and textbooks	5 - 10 years
Machinery and equipment	5 - 20 years
Intangibles	5 years

Salaries and Benefits Payable - Payroll and the related payroll taxes and benefits which are payable in July and August 2014 for teachers with annual contracts corresponding to the school year just ended have been accrued as a liability for the year ended June 30, 2014.

Unearned Revenue - Grant proceeds which have been received by the District but will be spent in a succeeding fiscal year.

Deferred Inflows of Resources - Although certain revenues are measurable, they are not available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Deferred inflows of resources in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets were not collected within the current period or soon enough thereafter to be used to pay liabilities of the current period. Deferred inflows of resources consist of the succeeding year's property taxes receivable and other receivables not collected within sixty days after year end.

SIoux CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Deferred inflows of resources in the Statement of Net Position consists of the succeeding year's property taxes receivable that will not be recognized as revenue until the year for which it is levied.

Compensated Absences - Vested or accumulated vacation leave (compensated absences) and the related employee benefits are reported as liabilities when incurred in the Government-Wide Statement of Net Position. Compensated absences can only be carried over for one year and therefore are recorded as short-term liabilities. In the governmental fund statements the liability for these amounts is recorded only for employees that have resigned or retired. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

Long-Term Liabilities - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position. Bond premiums and discounts are amortized over the life of the bonds.

In the fund financial statements, governmental fund types recognize bond premiums and discounts and bond issuance costs through current year operations. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources and discounts on debt issuances are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Fund Balance - In the governmental fund financial statements, fund balances are classified as follows:

Restricted - Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors, contributors, or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Unassigned - All amounts not included in other spendable classifications.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's procedure is to pay the expenditure from restricted fund balance and then from less-restrictive classifications - unassigned fund balances.

Management Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as required supplementary information. During the year ended June 30, 2014, expenditures in the non-instructional programs and other expenditures functional areas exceeded the amounts budgeted.

SIOUX CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 2 - CASH AND INVESTMENTS:

The District's deposits in banks at June 30, 2014, were entirely covered by federal depository insurance, collateralized with securities or letters of credit held by the District or the District's agent in the District's name, or by a multiple financial institution collateral pool in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to ensure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain highly rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

As of June 30, 2014, the District's cash and investments were as follows:

	Cash and Pooled <u>Investments</u>	Restricted Cash and <u>Investments</u>
Cash	\$ 45,270,684	\$ 8,234,972
Iowa School Joint Investment Trust - Diversified Portfolio	973	-
U.S. Treasury Notes	<u>-</u>	<u>2,348,278</u>
Total	<u>\$ 45,271,657</u>	<u>\$ 10,583,250</u>

The Iowa Schools Joint Investment Trust (ISJIT) is a common law trust established under Iowa law pursuant to Chapter 28E and Section 279.29 of the Iowa Code, as amended. ISJIT is a Standard & Poor's rated money market fund pursuant to the requirements of Iowa Code Section 12B.10. The investment in the Iowa Schools Joint Investment Trust - Diversified Portfolio is valued at amortized cost pursuant to Rule 2a-7 under the Investment Company Act of 1940. The Iowa Schools Joint Investment Trust is governed by a six member Board of Trustees and is not registered with the Securities and Exchange Commission (SEC); however the Board of Trustees follows investment procedures similar to the investment procedures followed by SEC registered money market mutual funds.

Interest Rate Risk - Interest rate risk is the risk that changes in market interest rates will adversely effect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District's investment policy limits the investment of operating funds (funds expected to be expended in the current budget year or within 15 months of receipt) in instruments that mature with 397 days. Funds not identified as operating funds may be invested in investments with maturities longer than 397 days but the maturities shall be consistent with the needs and use of the District and must also conform to any loan covenant investment maturity restrictions.

Credit Risk - Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investment policy does not formally address credit risk. Standard & Poor's assigned its AAAM principal stability fund rating to the Iowa Schools Joint Investment Trust - Diversified Portfolio. The U.S. Treasury Notes were rated AA+ as of June 30, 2012 by Standard & Poor's.

SIoux CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

SIoux CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 4 - CAPITAL ASSETS (CONTINUED):

Depreciation expense was charged to the District's functions as follows:

Governmental activities:		
Instruction:		
Regular		\$ 5,257,716
Special programs		6,155
Other		156,763
Support services:		
Student support		47,113
Instructional staff		101,219
Administration		98,882
Operations and maintenance		258,777
Transportation		<u>424,667</u>
Total		<u>\$ 6,351,292</u>
Business-type activities, school nutrition		<u>\$ 211,128</u>

NOTE 5 - BONDED AND OTHER LONG-TERM DEBT:

During the year ended June 30, 2014 the following changes occurred in long-term debt:

	<u>Balance</u>			<u>Balance</u>	<u>Due Within</u>
	<u>July 1, 2013</u>	<u>Additions</u>	<u>Retirements</u>	<u>June 30, 2014</u>	<u>One Year</u>
Governmental activities:					
Sales tax revenue bonds	\$ 71,090,000	\$ 10,000,000	\$ 5,075,000	\$ 76,015,000	\$ 5,560,000
General obligation capital loan notes	345,000	-	170,000	175,000	175,000
Unamortized premiums	<u>82,284</u>	<u>-</u>	<u>31,387</u>	<u>50,897</u>	<u>-</u>
	<u>\$ 71,517,284</u>	<u>\$ 10,000,000</u>	<u>\$ 5,276,387</u>	<u>\$ 76,240,897</u>	<u>\$ 5,735,000</u>

Sales Tax Revenue Bonds - In December 2006 the District issued \$22,210,000 School Infrastructure Local Option Sales and Service Tax Revenue Bonds, Series 2006B for the purpose of providing funds to finance various construction projects for District facilities. The proceeds of \$22,356,360 exceeded the face amount \$22,210,000 by \$146,360. The Bonds are special limited revenue obligations of the District. Payment of principal and interest on the Bonds are secured solely by a pledge of the statewide sales, services and use tax revenues and by the Reserve Fund and certain other amounts held under the Bond Resolution. Principal will be payable semi-annually on each October 1 and April 1 beginning October 1, 2011 and interest payable semi-annually carrying rates from 3.75 to 4.00 percent beginning April 1, 2007. The Bonds will mature on April 1 in the years and amounts disclosed in the schedule following. The outstanding principal balance including the unamortized premium at June 30, 2014 is \$8,821,340.

SIoux CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 5 - BONDED AND OTHER LONG-TERM DEBT (CONTINUED):

In March 2007 the District issued \$15,000,000 School Infrastructure Local Option Sales and Service Tax Revenue Bonds, Series 2007 for the purpose of providing funds to finance various construction projects for District facilities. The proceeds of \$15,100,995 exceeded the face amount \$15,000,000 by \$100,995. The Bonds are special limited revenue obligations of the District. Payment of principal and interest on the Bonds are secured solely by a pledge of the statewide sales, services and use tax revenues and by the Reserve Fund and certain other amounts held under the Bond Resolution. Principal will be payable semi-annually on each April 1 and October 1 beginning April 1, 2016 and interest payable semi-annually carrying a rate of 4.00 percent beginning April 1, 2007. The Bonds will mature on October 1 in the years and amounts disclosed in the schedule following. The outstanding principal balance including the unamortized premium at June 30, 2014 is \$15,034,557.

In December 2008 the District issued \$10,000,000 School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2008 for the purpose of providing funds to finance various construction projects for District facilities. The Bonds are special limited revenue obligations of the District. Payment of principal and interest on the Bonds are secured solely by a pledge of the statewide sales, services and use tax revenues and by the Reserve Fund and certain other amounts held under the Bond Resolution. Principal will be payable annually on each October 1 beginning October 1, 2019 and interest payable semi-annually carrying rates from 4.55 to 5.50 percent beginning April 1, 2009. The Bonds will mature on October 1 in the years and amounts disclosed in the schedule following. The outstanding principal balance at June 30, 2014 is \$10,000,000.

In November 2009 the District issued \$7,500,000 Taxable School Infrastructure Sales, Services and Use Tax Revenue Bonds (Qualified School Construction Bonds), Series 2009 for the purpose of providing funds to equip, rehabilitate and repair schools. The Bonds are special limited revenue obligations of the District. Payment of principal and interest on the Bonds are secured solely by a pledge of the statewide sales, services and use tax revenues and by certain other amounts held under the Bond Resolution. The Bonds mature on October 1, 2025 and bear interest at the rate of 2.68 percent payable beginning April 1, 2010 and semiannually thereafter on the first day of January and July. The outstanding principal balance at June 30, 2014 is \$7,500,000.

In September 2010 the District issued \$15,000,000 School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2010 for the purpose of providing funds to finance various construction projects for District facilities. The Bonds are special limited revenue obligations of the District. Payment of principal and interest on the Bonds are secured solely by a pledge of the statewide sales, services and use tax revenues and by the Reserve Fund and certain other amounts held under the Bond Resolution. Principal will be payable semi-annually on each April 1 and October 1 beginning April 1, 2028 and interest payable semi-annually carrying a rate of 4.00 percent beginning April 1, 2011. The Bonds will mature on October 1 in the years and amounts disclosed in the schedule following. The outstanding principal balance at June 30, 2014 is \$15,000,000.

SIoux CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 5 - BONDED AND OTHER LONG-TERM DEBT (CONTINUED):

In May 2012 the District issued \$10,000,000 School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2012 for the purpose of providing funds to finance various construction projects for District facilities. The Bonds are special limited revenue obligations of the District. Payment of principal and interest on the Bonds are secured solely by a pledge of the statewide sales, services and use tax revenues and by the Reserve Fund and certain other amounts held under the Bond Resolution. Principal will be payable semi-annually on each April 1 and October 1 beginning October 1, 2026 and interest payable semi-annually carrying rates of 3.00 to 3.25 percent beginning October 1, 2012. The Bonds will mature April 1 and October 1 in the years and amounts disclosed in the schedule following. The outstanding principal balance at June 30, 2014 is \$10,000,000.

In September 2013 the District issued \$10,000,000 School Infrastructure Sales, Services and Use Tax Revenue Bonds, Series 2013 for the purpose of providing funds to finance various construction projects for District facilities. The Bonds are special limited revenue obligations of the District. Payment of principal and interest on the Bonds are secured solely by a pledge of the statewide sales, services and use tax revenues and by the Reserve Fund and certain other amounts held under the Bond Resolution. Principal will be payable semi-annually on each April 1 and October 1 beginning April 1, 2014 and interest payable semi-annually carrying rates of 2.00 to 4.125 percent beginning April 1, 2014. The Bonds will mature April 1 and October 1 in the years and amounts disclosed in the schedule following. The outstanding principal balance at June 30, 2014 is \$9,710,000.

Annual principal and interest payments on the bonds are expected to require nearly 100 percent of the statewide sales, services and use tax revenues and are payable through 2030. The total principal and interest remaining to be paid on the bonds is \$101,537,018. For the current year, principal payments were \$5,075,000 and total interest paid on the bonds was \$2,861,711. Total statewide sales, services and use tax revenues were \$12,123,178.

General Obligation Capital Loan Notes - In May 2005 the District issued \$1,500,000 General Obligation Capital Loan Notes for the purpose of providing funds to finance the implementation of energy conservation and management measures pursuant to Iowa Code Section 473.13A. The notes are general obligations of the District and payments of interest and principal will be paid from monies budgeted annually and on hand in the General Fund. Principal will be payable annually on each June 1 and interest payable semi-annually beginning December 1, 2005. The note will mature on June 1, 2015 in the year and amount disclosed in the schedule following. The outstanding principal balance at June 30, 2014 is \$175,000.

SIoux CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 5 - BONDED AND OTHER LONG-TERM DEBT (CONTINUED):

Summary of debt service requirements to maturity on the outstanding bonded indebtedness and loans as of June 30, 2014 is as follows:

<u>Summary - Debt Service Requirements to Maturity</u>			
<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2015	\$ 5,735,000	\$ 2,805,011	\$ 8,540,011
2016	5,725,000	2,586,514	8,311,514
2017	5,935,000	2,367,464	8,302,464
2018	6,150,000	2,140,064	8,290,064
2019	3,490,000	1,904,464	5,394,464
2020-2024	7,585,000	8,493,284	16,078,284
2025-2029	36,950,000	5,142,533	42,092,533
2030	<u>4,620,000</u>	<u>88,931</u>	<u>4,708,931</u>
Totals	<u>\$ 76,190,000</u>	<u>\$ 25,528,265</u>	<u>\$ 101,718,265</u>

As of June 30, 2014, the District did not exceed its legal debt margin, computed as follows:

Total assessed valuation	<u>\$ 3,696,437,640</u>
Debt limit, 5.0 percent of total assessed valuation	\$ 184,821,882
Amount of debt applicable to debt limitation	<u>175,000</u>
Excess of debt limit over debt outstanding, legal debt margin	<u>\$ 184,646,882</u>

NOTE 6 - PENSION AND RETIREMENT BENEFITS:

The District contributes to the Iowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 5.95 percent of their annual covered salary and the District is required to contribute 8.93 percent of annual covered salary. Contribution requirements are established by state statute. The District's contributions to IPERS for the years ended June 30, 2014, 2013, and 2012 were \$8,270,280, \$7,653,513, and \$7,221,069, respectively, equal to the required contributions for each year.

NOTE 7 - AREA EDUCATION AGENCY:

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area educational agency. The District's actual amount for this purpose totaled \$5,879,378 for the year ended June 30, 2014. This amount is recorded in the General Fund by making an adjusting entry to the state revenue appropriations and to other expenditures, since the amount is deducted from the state foundation aid due to the District and is remitted directly to the area education agency.

SIoux CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 8 - RISK MANAGEMENT:

The District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District has had no significant reductions in insurance coverage from prior years. Settled claims for these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The District maintained a self-insured health, including dental, care coverage program for its employees through June 30, 2013. Effective July 1, 2013 the District purchased commercial health insurance for its employees, while the dental program remained self-insured. Claims in excess of a self-insured retention amount are covered through third party specific stop-loss insurance. The liability for claims incurred but unpaid as of June 30, 2014 was estimated by management using a three month lag factor of actual claims reported to the District. The liability for claims incurred but unpaid as of June 30, 2013 was actuarially estimated using actual covered employees, a historical average loss rate per employee, and a historically developed percentage of claims completed by month. A reconciliation of changes in the aggregate liability for claims during the years ended June 30, 2014 and 2013 is as follows:

	<u>Year Ended June 30,</u>	
	<u>2014</u>	<u>2013</u>
Unpaid claims, beginning of year	\$ 2,300,000	\$ 2,200,000
Incurred claims	874,496	17,471,620
Change in the estimate for claims of prior periods	(755,347)	-
Claims paid	<u>(2,361,614)</u>	<u>(17,371,620)</u>
Unpaid claims, end of year	<u>\$ 57,535</u>	<u>\$ 2,300,000</u>

The District accounts for the self-insurance plan through an Internal Service Fund.

NOTE 9 - OTHER POSTEMPLOYMENT BENEFITS:

Plan Description - The District sponsors a single-employer health care plan that provides medical and prescription drug benefits to all active and retired employees and their eligible dependents. All active employees, early retirees, and eligible dependents are covered under the Basic and Choice plans. The current policy for early retirees is as follows: a full-time employee must be a minimum of age 55 with 15 or more years of service with the District and be eligible to begin retirement through the Iowa Public Employees' Retirement System (IPERS) to participate in the retiree health plan. The District does not subsidize the cost of medical and prescription drug benefits for Medicare eligible retirees. The plan is administered by the District and the District has the authority to establish or amend the plan provisions or contribution requirements within the sections of the Iowa Code. The plan does not issue a stand-alone financial report.

Funding Policy - Contribution requirements are set by District policy as approved by the Board of Education. The District's funding policy has been revised over the past few years as shown in the following paragraphs. The net OPEB obligation is a governmental activities liability that is generally liquidated by the General Fund and Management Fund.

SIoux CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 9 - OTHER POSTEMPLOYMENT BENEFITS (CONTINUED):

For pre July 1, 2010 retirees, the District subsidizes the premium equivalent cost of medical and prescription drug benefits for early retirees according to the policy in place in the year the employee retired. The District does not subsidize the costs of medical and prescription drug benefits for Medicare eligible retirees. Contributions may be required for both retiree and dependent coverage and are based on the current premium equivalent values and do not vary by active/retired status. The subsidy percentage that the District subsidizes for pre July 1, 2010 retirees are as follow:

<u>Years of Service with the District</u>	<u>Percent Subsidy</u>
15-19	50%
20-24	55%
25-30	60%
31+	65%

In addition, the contribution rate paid by the District for service will be increased for the employee only (not dependents) for average banked sick leave days calculated by averaging the sick leave balance at the end of the final three years of employment per the following schedule.

<u>Sick Days</u>	<u>Additional %</u>
71-90 Days	2%
91-110 Days	4%
111-130 Days	6%
131 + Days	7%

For post July 1, 2010 retirees, the District provides a flat dollar subsidy to be used towards retiree premiums. However, spouse coverage is access only. The following are the explicit subsidies that were available through July 1, 2012:

<u>Years of Service with the District</u>	<u>Monthly Subsidy</u>
15-25	\$300
26+	\$400

For post July 1, 2012 retirees the District provides no subsidy to be used toward retiree premiums; therefore, coverage will be access only for both the retiree and dependents.

The required contribution is based on projected pay-as-you-go financing requirements. For fiscal year 2014, the District contributed \$2,264,813 to the plan. Plan members receiving benefits contributed approximately \$634,481 or approximately 22 percent of the total premiums, through their required 2013-2014 monthly premiums as follows:

	<u>Plan</u>	<u>Premium</u>
Basic		\$520
Choice		\$549

SIoux CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 9 - OTHER POSTEMPLOYMENT BENEFITS (CONTINUED):

Annual OPEB Cost and Net OPEB Obligation - The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year, the amount contributed to the plan, and changes in the District's annual OPEB obligation:

Annual required contribution	\$ 3,597,093
Interest on net OPEB obligation	562,950
Adjustment to annual required contribution	<u>(499,230)</u>
Annual OPEB cost (expense)	\$ 3,660,813
Contributions and payments made	<u>(2,264,813)</u>
Increase in net OPEB obligation	\$ 1,396,000
Net OPEB obligation - June 30, 2013	<u>12,510,000</u>
Net OPEB obligation - June 30, 2014	<u>\$ 13,906,000</u>

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2014 and the two preceding years were as follows.

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
6/30/2012	\$ 2,760,303	53.8%	\$ 11,190,000
6/30/2013	\$ 2,766,065	52.3%	\$ 12,510,000
6/30/2014	\$ 3,660,813	61.9%	\$ 13,906,000

Funded Status and Funding Progress - As of July 1, 2013, the most recent actuarial valuation date, the plan was zero percent funded. The actuarial accrued liability for benefits was \$38.2 million, and the actuarial value of assets was zero, resulting in an unfunded actuarial accrued liability (UAAL) of \$38.2 million. The covered payroll (annual payroll of active employees covered by the plan) was \$73.1 million and the ratio of the UAAL to the covered payroll was 52.2 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

SIoux CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 9 - OTHER POSTEMPLOYMENT BENEFITS (CONTINUED):

Actuarial Methods and Assumptions - Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The July 1, 2013 actuarial valuation used the projected unit credit cost method. The actuarial assumptions included a 4.5 percent discount rate, annual health care cost trend rate of 9.0 percent initially decreasing to a rate of 5 percent after 8 years, salary increase assumption of 3.5 percent, and a plan participation percentage of 93 percent. The UAAL is being amortized as a level percentage of projected payroll on an open basis over 30 years.

NOTE 10 - INTERFUND TRANSFERS AND BALANCES:

The detail of interfund transfers for the year ended June 30, 2014 is as follows:

<u>Transfer To</u>	<u>Transfer From</u>	<u>Amount</u>
Debt Service	General	\$ 182,349

SIOUX CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 10 - INTERFUND TRANSFERS AND BALANCES (CONTINUED):

An interfund loan of \$2,457,732 was made between the Sales Tax Fund and the General Fund to provide resources to cover Sales Tax Fund expenditures incurred before the Series 2014 School Infrastructure Sales, Services, and Use Tax Revenue Bond proceeds were received.

The other interfund balances result from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur; (2) transactions are recorded in the accounting system; and, (3) payments between funds are made.

NOTE 11 - CONSTRUCTION AND OTHER COMMITMENTS:

The District has entered into various construction contracts totaling \$51.4 million for the construction of the new Loess Hills Elementary, Morningside Elementary, and Hoover Elementary schools and various other projects. Loess Hills Elementary opened in August 2014 and the new Morningside Elementary is scheduled to open in August 2015. At June 30, 2014, \$26.2 million of the contracts were completed. The remaining amounts of the contracts will be paid as work on the projects progresses.

NOTE 12 - CONTINGENCIES:

At June 30, 2014 the District is involved in various litigation concerning employment and work place issues, contract performance, and other matters arising in the normal course of the District's operations. The probability and amount of loss, if any, is indeterminable; however, in the opinion of the District, the outcome of these matters will not have a material impact on the District's financial position.

NOTE 13 - SUBSEQUENT EVENT:

During August 2014, the District issued \$33,375,000 of School Infrastructure Sales, Services and Use Tax Revenue Bonds Series 2014. The proceeds will be used to retire \$21 million of outstanding principal and interest on the 2006 and 2007 Sales, Services and Use Tax Revenue Bonds and the remaining \$12 million proceeds will be used to finance various construction projects for District facilities.

NOTE 14 - ACCOUNTING CHANGE:

In fiscal year ended 2014, the District implemented *Governmental Accounting Standards Board (GASB) Statement 65, Items Previously Reported as Assets and Liabilities*. The objective of Statement 65 is to either properly classify certain items that were previously reported as assets and liabilities as deferred outflows of resources or deferred inflows of resources or to recognize certain items that were previously reported as assets and liabilities as outflows of resources (expenses or expenditures) or inflows of resources (revenues).

SIoux CITY COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 14 - ACCOUNTING CHANGE (CONTINUED):

The implementation of Statement 65 resulted in the reclassification of the beginning net position of the governmental activities in the Government-wide financial statements. The deferred charges for debt issuance costs were reclassified as expenses of prior periods and resulted in the adjustment as follows:

	Government-wide Governmental Activities
Net position, beginning of year as previously reported	\$ 133,864,974
Change in reporting for deferred charges for debt issuance costs	<u>(915,611)</u>
Net position, beginning of year as restated	<u>\$ 132,949,363</u>

NOTE 15 - PROSPECTIVE ACCOUNTING CHANGE:

The *Governmental Accounting Standards Board* has issued *Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB No. 27*. This statement will be implemented for the fiscal year ending June 30, 2015. The revised requirements establish new financial reporting requirements for state and local governments which provide their employees with pension benefits, including additional note disclosures and required supplementary information. In addition, the Statement of Net Position is expected to include a significant liability for the government's proportionate share of the employee pension plan.

SIOUX CITY COMMUNITY SCHOOL DISTRICT

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION - BUDGETARY REPORTING

JUNE 30, 2014

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except internal service, private purpose trust, and agency funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on a GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not by fund. The Code of Iowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula.

During the year ended June 30, 2014, expenditures in the non-instructional programs and other expenditures functions exceeded the amounts budgeted.

SIoux CITY COMMUNITY SCHOOL DISTRICT

STATISTICAL SECTION

NARRATIVE EXPLANATIONS

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Contents

Schedules

Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

1-4

Revenue Capacity

These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.

5-8

Debt Capacity

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

9-13

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

14-15

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

16-19

Continuing Disclosure Information

These schedules are required as part of the District's ongoing general obligation bonded debt disclosures and give additional information to investors about the financial trends and tax base of the District.

20-24

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT

AS OF JUNE 30, 2014

<u>Governmental Unit</u>	<u>Debt Outstanding</u>	<u>Estimated Percentage Applicable*</u>	<u>Estimated Share of Direct and Overlapping Debt</u>
City of Sioux City	\$ 106,035,176	89.23%	\$ 94,615,188
Woodbury County	2,424,800	58.51%	1,418,750
Plymouth County	9,283,266	19.00%	1,763,821
Western Iowa Tech Community College	29,215	18.17%	5,308
Subtotal overlapping debt			<u>\$ 97,803,067</u>
District direct debt			<u>76,190,000</u>
Total direct and overlapping debt			<u>\$ 173,993,067</u>

Source: Taxable value data used to estimate applicable percentages provided by the County Auditor. Debt outstanding data provided by each governmental unit.

Notes: Overlapping governments are those that coincide, at least in part, with the geographical boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

* The percentage of overlapping debt applicable is estimated using taxable property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the District's boundaries and dividing it by each unit's total taxable value.

Notes to Schedule of Expenditures of Federal Awards

Note 1 - Basis of Presentation:

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the Sioux City Community School District under programs of the federal government for the year ended June 30, 2014. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. Because the Schedule presents only a selected portion of the operations of the Sioux City Community School District, it is not intended to and does not present the financial position, changes in net assets or cash flows of the Sioux City Community School District.

Note 2 - Summary of Significant Accounting Policies:

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years are reported as negative amounts on the Schedule. Pass-through entity identifying numbers are presented where available.

* - includes \$518,107 of non-cash awards.

SIOUX CITY COMMUNITY SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS

JUNE 30, 2014

Part I: Summary of the Independent Auditors' Results:

- (a) Unmodified opinions were issued on the financial statements.
- (b) A material weakness in internal control over financial reporting was disclosed by the audit of the financial statements.
- (c) The audit did not disclose any noncompliance that is material to the financial statements.
- (d) No material weaknesses in internal control over major programs were disclosed by the audit of the financial statements.
- (e) An unmodified opinion was issued on compliance with requirements applicable to each major program.
- (f) The audit disclosed no audit findings which are required to be reported in accordance with Office of Management and Budget Circular A-133, Section .510(a).
- (g) Major programs were as follows:
 - Child Nutrition Cluster:
 - CFDA #10.553 School Breakfast Program
 - CFDA #10.555 National School Lunch Program
 - CFDA #84.010 Title I Grants to Local Educational Agencies
 - CFDA #84.367 Title IIA - Federal Teacher Quality Program
- (h) The dollar threshold used to distinguish between Type A and Type B programs was \$370,691.
- (i) The Sioux City Community School District did not qualify as a low-risk auditee.

Part II: Findings Related to the Financial Statements:

Material Weakness:

2014-001 Criteria - Monthly bank reconciliations should be prepared for all District bank accounts.

Condition - During the year, the District prepared monthly bank reconciliations timely for all of the District's accounts except for the main sweep account. A year end reconciliation was prepared for the main sweep account.

Context - Per inquiries it was noted that the sweep account was not reconciled to the monthly bank statement consistently and/or timely.

Effect - The sweep account balance in the general ledger was not consistently and/or timely reconciled to the bank balance monthly.

Cause - The sweep account bank reconciliation was not performed monthly due to time constraints.

SIOUX CITY COMMUNITY SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS

JUNE 30, 2014

Part II: Findings Related to the Financial Statements (Continued):

Recommendation - We recommend the finance department review their responsibilities and the adequacy of their resources in order to assign the sweep account bank reconciliation responsibility to the appropriate personnel.

Views of Responsible Officials and Planned Corrective Actions - Procedures have been implemented to reconcile the sweep account monthly.

Instances of Non-Compliance:

No matters were reported.

Part III: Findings and Questioned Costs for Federal Awards:

No matters were reported.

Part IV: Other Findings Related to Statutory Reporting:

IV-A-14 Certified Budget - Expenditures for the year ended June 30, 2014 exceeded the certified budget amount in the non-instructional programs and other expenditures functions.

Recommendation - The certified budget should have been amended in accordance with Chapter 24.9 of the Code of Iowa before expenditures were allowed to exceed the budget.

Response - Future budgets will be amended in sufficient amounts to ensure the certified budget is not exceeded.

Conclusion - Response accepted.

IV-B-14 Questionable Expenditures - No expenditures we believe may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979 were noted.

IV-C-14 Travel Expense - No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

IV-D-14 Business Transactions - No business transactions between the District and District's officials or employees were noted.

IV-E-14 Bond Coverage - Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.

IV-F-14 Board Minutes - The schedules of bills were not published as required by Chapter 279.35 of the Code of Iowa. It was also noted that one of the five meeting minutes tested were not published as required by Chapter 279.35 of the Code of Iowa.

Recommendation - The schedule of bills should be published at least once a month. The Board minutes should be published within two weeks of each meeting.

Response - Procedures will be reviewed to ensure compliance with Chapter 279.35 of the Code of Iowa.

Conclusion - Response accepted.

SIOUX CITY COMMUNITY SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS

JUNE 30, 2014

Part IV: Other Findings Related to Statutory Reporting (Continued):

IV-G-14 Certified Enrollment - The Iowa Department of Education identified variances in the 2013-2014 Certified Enrollment.

Recommendation - The District will work with the external auditors to communicate the correction to both the Iowa Department of Management and the Iowa Department of Education.

Response - We will work with the external auditors to communicate and correct the variances.

IV-H-14 Supplementary Weighting - No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.

IV-I-14 Deposits and Investments - We noted no instances of noncompliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy.

IV-J-14 Certified Annual Report - The Certified Annual Report was certified timely to the Iowa Department of Education.

IV-K-14 Categorical Funding - No instances were noted of categorical funding being used to supplant rather than supplement other funds.

IV-L-14 Statewide Sales, Services and Use Tax - No instances of non-compliance with the use of the statewide sales, services and use tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2014, the following information includes the amounts the District reported for the statewide sales, services and use tax revenue in the District's CAR including adjustments identified during the fiscal year 2014 audit.

Beginning balance	\$	10,237,031
Statewide sales, services and use tax		12,113,117
Expenditures/transfers out:		
School infrastructure:		
Buildings, equipment and other improvements	\$	(7,225,192)
Debt service for school infrastructure:		
Revenue debt		(8,363,890)
		(15,589,082)
Ending balance	\$	6,761,066

For the year ended June 30, 2014, the District did not reduce any levies as a result of the moneys received under Chapter 423E or 423F of the Code of Iowa.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Board of Education
Sioux City Community School District
Sioux City, Iowa

Report on Compliance for Each Major Federal Program

We have audited the Sioux City Community School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Sioux City Community School District's major federal programs for the year ended June 30, 2014. The Sioux City Community School District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Sioux City Community School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Sioux City Community School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Sioux City Community School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Sioux City Community School District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of the Sioux City Community School District, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Sioux City Community School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-33, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Sioux City Community School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

King, Reinsch, Prosser & Co., L.L.P.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education
Sioux City Community School District
Sioux City, Iowa

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Sioux City Community School District, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Sioux City Community School District's basic financial statements and have issued our report thereon dated December 30, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Sioux City Community School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Sioux City Community School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Sioux City Community School District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified a deficiency in internal control that we consider to be a material weakness.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs to be a material weakness (2014-001).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Sioux City Community School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance or other matters that are described in Part IV of the accompanying schedule of findings and questioned costs.

Comments involving statutory and other legal matters about the Sioux City Community School District's operations for the year ended June 30, 2014 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the Sioux City Community School District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Sioux City Community School District's Response to Findings

Sioux City Community School District's responses to the findings identified in our audit are described in the accompany schedule of findings and questioned costs. The Sioux City Community School District's responses were not subjected to the auditing procedures applied in the audit of financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
